The Herzfeld Caribbean Basin Fund's investment objective is long-term capital appreciation. To achieve its objective, the Fund invests in issuers that are likely, in the Advisor's view, to benefit from economic, political, structural and technological developments in the countries in the Caribbean Basin, which consist of Cuba, Jamaica, Trinidad and Tobago, the Bahamas, the Dominican Republic, Barbados, Aruba, Haiti, the Netherlands Antilles, the Commonwealth of Puerto Rico, Mexico, Honduras, Guatemala, Belize, Costa Rica, Panama, Colombia and Venezuela. The fund invests at least 80% of its total assets in a broad range of securities of issuers including U.S.-based companies, which engage in substantial trade with and derive substantial revenue from operations in the Caribbean Basin Countries.

Chairman and President

Dear Fellow Stockholders:

We are pleased to present our annual report for the period ended June 30, 2002. On that date The Herzfeld Caribbean Basin Fund's net assets were \$6,568,076 and its net asset value per share was \$3.92 after payment of a distribution of \$0.1551 per share, compared with \$8,642,634 (net asset value at \$5.15 per share) at the beginning of the period. This represents a loss of 20.5% in net asset value after adjustment for the distribution, while our share price declined 13.45% (after adjustment for the distribution) from \$4.20 to \$3.48.

Although there was little change in the Fund's portfolio composition during the year, you will notice many new names in the list of securities. These changes are a result of our accepting a tender offer in THE MEXICO FUND, INC. (MXF) which allowed us to exchange MXF shares for that fund's underlying portfolio holdings at 98% of net asset value. MXF is also a closed-end fund, and we took advantage of the fact that it traded at wide discounts to its net asset value in mid-1999 to buy shares at bargain prices. At the time of our purchases, the fund traded at prices which represented between 22.5% and 24% discounts to net asset value per share. In 1999, we sold many of the Mexican securities we held in our portfolio and loaded up on MXF at deep discounts. In this way we have maintained our exposure to the Mexican market. The 2002 tender offer gave us an opportunity to reverse our 1999 switch by allowing us to reacquire many of the same Mexican securities, and since the tender permitted us to receive securities valued at 98% of net asset value, we gained the benefit of most of the discount.

The most potentially significant event for the Caribbean region is the eventual lifting of the U.S. embargo against Cuba. In that respect, today's Miami Herald had some interesting comments by House Majority leader Dick Armey, who states that he believes Congressional backing for the embargo is fading; and he predicts we may see less than a year of support for the restrictions on travel and trade. The White House, on the other hand, persists in backing the embargo. We continue to watch the political struggle with great interest.

PREMIUM/DISCOUNT

As the graph below depicts, the Fund has traded at both premiums and discounts every year except its year of inception in which it traded only at a premium. As I have stated before, we believe that closed-end funds trading at discounts to net asset value represent good value. Following this philosophy, I added to my personal holdings of The Herzfeld Caribbean Basin Fund several times during the year.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Related Matters

The Herzfeld Caribbean Basin Fund, Inc. (the Fund) is a non-diversified, closed-end management investment company incorporated under the laws of the State of Maryland on March 10, 1992, and registered under the Investment Company Act of 1940. The Fund commenced investing activities in January 1994. The Fund is listed on the NASDAQ SmallCap Market and trades under the symbol "CUBA".

The Fund's investment objective is to obtain long-term capital appreciation. The Fund pursues its objective by investing primarily in equity and equity-linked securities of public and private companies, including U.S.-based companies, (i) whose securities are traded principally on a stock exchange in a Caribbean Basin Country or (ii) that have at least 50% of the value of their assets in a Caribbean Basin Country or (iii) that derive at least 50% of their total revenue from operations in a Caribbean Basin Country. The Fund's investment objective is fundamental and may not be changed without the approval of a majority of the Fund's outstanding voting securities.

At June 30, 2002, the Fund had investments in companies operating principally in Mexico and Panama representing approximately 18% and 10% of the Fund's net assets, respectively.

The Fund's custodian and transfer agent is Investors Bank & Trust Company, based in Boston, Massachusetts.

Security Valuation

Investments in securities traded on a national securities exchange (or reported on the NASDAQ national market) are stated at the last reported sales price on the day of valuation; other securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Short-term notes are stated at amortized cost, which is equivalent to value. Restricted securities and other securities for which quotations are not readily available are valued at fair value as determined by the Board of Directors.

Edgar Filing: HERZFELD CARIBBEAN BASIN FUND INC - Form N-30D

Income Recognition

Security transactions are recorded on the trade date. Gains and losses on securities sold are determined on the basis of identified cost. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities.

Deposits with Financial Institutions

The Fund may, during the course of its operations, maintain account balances with financial institutions in excess of federally insured limits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
=====

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Fund qualifies as a "regulated investment company" and as such (and by complying with the applicable provisions of the Internal Revenue Code of 1986, as amended) is not subject to federal income tax on taxable income (including realized capital gains) that is distributed to shareholders.

The Fund has adopted a June 30 year-end for federal income tax purposes.

Distributions to Stockholders

Distributions to stockholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States.

NOTE 2. NON-MARKETABLE SECURITIES OWNED

Investment in securities includes \$165,000 principal, 4.5%, 1977 Republic of Cuba bonds purchased for \$63,038. As of June 30, 2002, the position was valued at \$0 by the Board of Directors, which approximates the bonds' fair value.

NOTE 5: CHANGE IN INVESTMENT POLICY

On March 14, 2002, the Fund's Board approved a change in the investment policy of the Fund to comply with Investment Company Act Rule 35d-1 (commonly known as the "Names Rule"). The Names Rule requires that a fund with a name that suggests it focuses on investments in a particular country or in a particular geographic region must invest at least 80% of its assets in investments that are tied economically to the particular country or geographic region suggested. As the Fund's name includes the phrase "Caribbean Basin," the Fund's current policy to invest 65% of its total assets in a broad range of securities of issuers, including U.S. based companies, which engage in substantial trade with and derive substantial revenues from operation in Caribbean Basin countries has been revised to read substantially as follows:

Under normal circumstances, the Fund will invest at least 80% of its total assets in a broad range of securities of issuers, including U.S. based companies, which engage in substantial trade with and derive substantial revenues from operation in Caribbean Basin countries.

In addition, the Fund has adopted a policy to provide stockholders of the Fund 60 days' prior notice of any change in the 80% investment policy.

Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit

Edgar Filing: HERZFELD CARIBBEAN BASIN FUND INC - Form N-30D

includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of June 30, 2002, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and the financial highlights referred to above present fairly, in all material respects, the financial position of The Herzfeld Caribbean Basin Fund, Inc. as of June 30, 2002, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.
