PROXY STATEMENT

The enclosed proxy is solicited by the Board of Directors of Agile Software Corporation, a Delaware corporation (Agile or the Company) for use in voting at the Annual Meeting of Stockholders to be held at Hotel De Anza, San Jose, California, on Thursday, October 3, 2002, at 11:00 a.m. Pacific Time, and at any postponement or adjournment thereof, for the purposes set forth in the attached notice of annual meeting. The date of this proxy statement is August 29, 2002, the approximate date on which this proxy statement and the accompanying form of proxy were first sent or given to stockholders.

Expenses of Solicitation

The cost of soliciting proxies will be borne by the Company. In addition to soliciting stockholders by mail, the Company will request banks and brokers, and other custodians, nominees and fiduciaries, to solicit their customers who have stock of the Company registered in the names of such persons and will reimburse others to solicit proxies, personally or by telephone, without compensation.

Voting and Revocability of Proxies

All valid proxies received before the meeting will be voted. When proxies are properly dated, executed and returned, the shares they represent will be voted at the annual meeting in accordance with the instructions of the stockholder. If no specific instructions are given on the proxy, the shares represented by proxies will be voted as follows:

FOR the election of the nominees for directors set forth herein,

FOR approval of an amendment to the Agile 1995 Stock Option Plan limiting the maximum number of shares for which options may be granted to any employee in any fiscal year.

FOR ratification of the selection of PricewaterhouseCoopers LLP as the Company's independent auditors for the fiscal year ending April 30, 2003.

In addition, if other matters come before the annual meeting, the persons named in the accompanying form of proxy will vote in accordance with their best judgment with respect to such matters. A stockholder giving a proxy has the power to revoke the proxy at any time prior to its exercise by voting in person at the annual meeting, by giving written notice revoking the proxy to the Secretary of the Company prior to the annual meeting or by giving a later dated proxy.

Quorum and Vote Required

Each share of the Company's common stock outstanding on the record date will be entitled to one vote on all matters to be acted upon at the annual meeting. The Company's bylaws provide that a majority of all of the

Table of Contents

shares of the Company's common stock entitled to vote, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at the meeting. Votes for and against, abstentions and broker non-votes will each be counted as present for purposes of determining the presence of a quorum.

A plurality of the votes duly cast is required for the election of directors. A plurality of the votes duly cast means that only affirmative votes will affect the outcome of the election. Therefore, neither abstentions nor broker non-votes will have any impact on the election of directors and the two candidates for election as directors at the annual meeting who receive the highest number of affirmative votes will be elected.

The approval of an amendment to the Agile 1995 Stock Option Plan limiting the maximum number of shares for which options may be granted to any employee in any fiscal year and the ratification of the selection of the independent auditors for the current year, each requires the affirmative vote of a majority of the shares of the Company common stock present or represented and entitled to vote at the annual meeting. Abstentions are deemed to be votes cast and will have the effect of votes in opposition. However, broker non-votes are not deemed to be votes cast. As a result, broker non-votes are not included in the tabulation of the voting results on the election of directors or issues requiring approval of a majority of the votes cast and, therefore, do not have the effect of votes in opposition in such tabulations. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that item and has not received instructions from the beneficial owner.

Voting by Telephone or Internet

You may vote your shares in a number of ways. You may mark your votes, date, sign and return the proxy card. If you have shares registered directly with the Company's transfer agent, EquiServe, you may choose to vote those shares via the Internet at Agile's voting Web site <http://www.eproxyvote.com/agil> or you may vote telephonically, within the U.S. and Canada only, by calling EquiServe at 1-877-PRX-VOTE, (1-877-779-8683). See *Voting Via the Internet or By Telephone* in the proxy statement for further details.

Record Date and Share Ownership

Only stockholders of record on the books of the Company at the close of business on August 14, 2002 will be entitled to vote at the annual meeting. Presence in person or by proxy of a majority of the shares of common stock outstanding on the record date is required for a quorum. As of the close of business on August 14, 2002, the Company had 48,469,816 outstanding shares of common stock, all of which are entitled to vote with respect to all matters to be acted upon at the annual meeting. Copies of this proxy statement were first released to stockholders on or about August 29, 2002.

Table of Contents**PROPOSAL 1: ELECTION OF DIRECTORS**

The Company has a classified Board of Directors currently consisting of one Class I director (Mr. Klaus-Dieter Laidig), who will serve until the annual meeting of stockholders to be held in 2003, two Class II directors (Ms. Nancy Schoendorf and Mr. James Patterson), who will serve until the annual meeting of stockholders to be held in 2004, and two Class III directors (Mr. Bryan Stolle and Mr. Paul Wahl), who will serve until the annual meeting of stockholders to be held on October 3, 2002, and until their respective successors are duly elected and qualified. At each annual meeting of stockholders, directors are elected for a term of three years to succeed those directors whose terms expire at the annual meeting dates. Mr. Thomas Shanahan resigned as a member of the Board of Directors effective September 30, 2001. The Board of Directors elected Mr. Wahl as a Class III director effective June 4, 2002 to fill the vacancy created by Mr. Shanahan's resignation.

The term of the Class III directors will expire on the date of the upcoming annual meeting. Accordingly, two persons are to be elected to serve as Class III directors of the Board of Directors at the meeting. Management's nominees for election by the stockholders to those positions are the current Class III members of the Board of Directors: Mr. Bryan D. Stolle and Mr. Paul Wahl. If elected, the nominees will serve as directors until the Company's Annual Meeting of Stockholders to be held in 2005 and until their successors are elected and qualified. If either of the nominees is unable or unwilling to serve as a nominee for the office of director at the time of the annual meeting, the proxies may be voted for substitute nominees who shall be designated by the proxy holders or by the present Board of Directors to fill such vacancy. The Board of Directors has no reason to believe the foregoing nominees will be unwilling or unable to serve if elected as directors.

Vote Required and Recommendation of the Board of Directors

If a quorum is present and voting, the two nominees for Class III directors receiving the highest number of votes will be elected as Class III directors, whether or not such affirmative votes constitute a majority of the shares voted. Abstentions and broker non-votes will have no effect on the vote.

Unless marked otherwise, proxies received will be voted FOR election of the nominees named below. The Board of Directors recommends a vote FOR the election of the nominees listed below.

PROPOSAL 2: APPROVAL OF AMENDMENT TO THE AGILE 1995 STOCK OPTION PLAN

The Agile 1995 Stock Option Plan (the "1995 Plan") was adopted by the Board of Directors in May 1995 and was first approved by the stockholders of the Company in January 1996. The Internal Revenue Code of 1986 (the "Code") limits the amount of compensation paid to a corporation's chief executive officer and four other most highly compensated officers that the corporation may deduct as an expense for federal income tax purposes. To enable the Company to continue to deduct in full all amounts of ordinary income recognized by its executive officers in connection with options granted under the 1995 Plan, the Board of Directors has amended the 1995 Plan, subject to stockholder approval, to limit to 2,500,000 the maximum number of shares for which options may be granted to any employee in any fiscal year. However, the Company's stock option grants typically do not approach this limit.

The stockholders are now being asked to approve the establishment of the grant limit. The Board of Directors believes that approval of this amendment is in the best interests of the Company and our stockholders because it will allow the Company to continue to deduct compensation related to options granted under the 1995 Plan for federal income tax purposes.

Summary of the Provisions of the 1995 Plan

The following summary of the 1995 Plan is qualified in its entirety by the specific language of the 1995 Plan, a copy of which is available to any stockholder upon request and is attached hereto as Appendix A.

General. The purpose of the 1995 Plan is to advance the interests of the Company and its stockholders by providing an incentive to attract, retain and reward the Company's employees, consultants and non-employee directors and by motivating such persons to contribute to the Company's growth and profitability. The 1995 Plan provides for the grant to employees of incentive stock options within the meaning of Section 422 of the Code and the grant of nonstatutory stock options and direct stock issuances to employees, non-employee directors and consultants.

Shares Subject to Plan. The stockholders have previously authorized the reservation of an aggregate of 13,750,000 shares. The current number of shares reserved for issuance under the 1995 Plan reflects the cumulative increases that occur on the first day of each fiscal year of the Company which began on or after May 1, 2000 by an amount equal to the lesser of (a) one million shares, (b) 5% of the number of shares of common stock issued and outstanding on the last day of the immediately preceding fiscal year, or (c) a lesser amount of shares determined by the Board of Directors, which shall consist of authorized but unissued shares of common stock for issuance under the 1995 Plan. The 1995 Plan permits the issuance of reacquired shares as well as previously unissued shares. As of August 1, 2002, options to purchase 7,003,999 shares of common stock granted pursuant to the 1995 Plan had been exercised, there were 4,146,319 options outstanding, and there were 3,180,667 shares of common stock available for future grants under the 1995 Plan.

Appropriate adjustments will be made to the shares subject to the 1995 Plan, the proposed per employee grant limit and to outstanding awards upon any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification, or similar change in the capital structure of the Company. To the extent that any outstanding option under the 1995 Plan expires or terminates prior to exercise in full or if shares issued upon exercise of an option or pursuant to a stock issuance are repurchased by the Company, the shares of common stock for which such option is not exercised or the repurchased shares are returned to the 1995 Plan and become available for future grant.

Administration. The 1995 Plan will be administered by the Board of Directors or a duly appointed committee of the Board (hereinafter referred to collectively as the "Board"). Subject to the provisions of the 1995 Plan, the Board determines the persons to whom options are to be granted, the number of shares to be covered by each option, whether an option is to be an incentive stock option or a nonstatutory stock option, the timing and

Table of Contents

terms of exercisability and vesting of each option, the purchase price and the type of consideration to be paid to the Company upon the exercise of each option, the time of expiration of each option, and all other terms and conditions of the options. With respect to the participation of individuals whose transactions in the Company's equity securities are subject to Section 16 of the Securities and Exchange Act of 1934, the 1995 Plan must be administered in compliance with the requirements, if any, of Rule 16b-3 under the Exchange Act. The Board may amend, modify, extend, cancel, renew, or grant a new option in substitution for, any option, waive any restrictions or conditions applicable to any option, and accelerate, continue, extend or defer the exercisability or vesting of any option, including with respect to the period following an optionee's termination of service with the Company. The 1995 Plan provides, subject to certain limitations, for indemnification by the Company of any director, officer or employee against all reasonable expenses, including attorneys' fees, incurred in connection with any legal action arising from such person's action or failure to act in administering the plan. The Board will interpret the 1995 Plan and options granted thereunder, and all determinations of the Board will be final and binding on all persons having an interest in the 1995 Plan or any option.

Eligibility. Options may be granted under the 1995 Plan to employees, consultants and non-employee directors of the Company or of any present or future parent or subsidiary corporations of the Company. Prospective employees, prospective consultants and prospective non-employee directors may also receive grants under the 1995 Plan in connection with written offers of employment or engagement, provided that such options may not become exercisable prior to the individual's commencement of service. While any person eligible under the 1995 Plan may be granted a nonstatutory option or receive a direct stock issuance, only employees may be granted incentive stock options. In order to preserve the Company's ability to deduct compensation related to options granted under the 1995 Plan, the Board has amended the 1995 Plan, subject to stockholder approval, to provide that no employee may be granted options for more than 2,500,000 shares during any fiscal year. As of August 1, 2002, the Company had approximately 453 employees, including seven executive officers, four non-executive directors as well as consultants who would be eligible to receive a grant under the 1995 Plan.

Terms and Conditions of Options. Each option granted under the 1995 Plan is evidenced by a written agreement between the Company and the optionee specifying the number of shares subject to the option and the other terms and conditions of the option, consistent with the requirements of the 1995 Plan. The exercise price of each incentive stock option may not be less than the fair market value of a share of the common stock on the date of grant. However, the exercise price of each nonstatutory stock option may be less than the fair market value of a share of the common stock on the date of grant. The 1995 Plan provides that any incentive stock option granted to a person who at the time of grant owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any parent or subsidiary corporation of the Company (a Ten Percent Stockholder) must have an exercise price equal to at least 110% of the fair market value of a share of common stock on the date of grant as required under Section 422 of the Code. As of August 1, 2002, the closing price of the Company's common stock, as reported on the Nasdaq National Market, was \$5.95 per share.

Under the 1995 Plan, the option exercise price may be paid in cash, by check, or in cash equivalent, by tender of shares of common stock owned by the optionee having a fair market value not less than the exercise price, by the assignment of the proceeds of a sale with respect to some or all of the shares of common stock being acquired upon the exercise of the option, by means of an assignment of the proceeds with respect to some or all of the shares acquired upon the exercise of the option, by payment with a promissory note, and by payment of the exercise price with any other lawful consideration approved by the Board, or by any combination of these. Nevertheless, the Board may restrict the forms of payment permitted in connection with any option grant. No option may be exercised until the optionee has made adequate provision for federal, state, local and foreign taxes, if any, relating to the exercise of the option.

Options will become vested and exercisable at such times or upon such events and subject to such terms, conditions, performance criteria or restrictions as specified by the Board. Generally, options granted under the 1995 Plan become exercisable in installments over a period of time specified by the Board at the time of grant, subject to the optionee's continued service with the Company. The 1995 Plan provides that the maximum term of

Table of Contents

an incentive stock option is ten years unless granted to a Ten Percent Stockholder, in which case the maximum term is five years. The 1995 Plan does not limit the term of a nonstatutory stock option. An option generally will remain exercisable for three months following the optionee's termination of service, provided that if termination results from the optionee's death or disability, the option generally will remain exercisable for 12 months following the optionee's termination of service. However, if the optionee is terminated for misconduct, the option will not be exercisable after the termination date. In any event the option must be exercised no later than its expiration date. The Board, in its discretion, may provide for longer or shorter post-service exercise periods in particular instances.

Options are generally nontransferable by the optionee other than by will or by the laws of descent and distribution, and are exercisable during the optionee's lifetime only by the optionee. However, a nonstatutory stock option may be assignable or transferable to the extent permitted by the Board and set forth in the option agreement.

Stock Issuance Program. Shares of common stock may be issued under the Stock Issuance Program for such valid consideration as the Board deems appropriate, including cash and a promissory note. The shares may also be issued for past services rendered without any cash outlay required of the recipient. The Board will have complete discretion under the program to determine which eligible individuals are to receive such stock issuances, the time or times when those issuances are to be made, the number of shares subject to each such issuance and the vesting schedule, if any, to be in effect for the stock issuance. The stock issuance, at the discretion of the Board, may be issued for 100% of the fair market value of such shares, but in no event less than 85% of such fair market value. Additionally, the Board will have the discretionary authority at any time to accelerate the vesting of any and all unvested shares outstanding under the Stock Issuance Program. As of August 1, 2002, the Company has not issued any shares under the Stock Issuance Program.

Corporate Transaction. The 1995 Plan provides that in the event of a Change-in-Control (as defined below), the surviving, continuing, successor or purchasing corporation or parent corporation thereof (the Acquiring Corporation) may either assume the Company's rights and obligations under the outstanding options or substitute substantially equivalent options for such corporation's stock. If the Acquiring Corporation elects not to assume or substitute for options outstanding under the 1995 Plan, any unvested or unexercisable portion of the outstanding options will become immediately exercisable and vested in full prior to such Change-in-Control. To the extent that the outstanding options are not assumed, replaced or exercised prior to the Change-in-Control, they will terminate. In addition, if the Acquiring Corporation assumes or substitutes for an outstanding option and within 18 months after the Change-in-Control the optionee's service is terminated by the Company (other than for cause) or the optionee resigns for good reason, the optionee will be credited with an additional 18 months of vesting.

For purposes of the 1995 Plan, a Change-in-Control means (i) a sale or exchange by the stockholders in a single or series of related transactions of more than 50% of the Company's voting stock, (ii) a merger or consolidation in which the Company is a party, (iii) the sale, exchange or transfer of all or substantially all of the assets of the Company, or (iv) a liquidation or dissolution of the Company wherein, upon any such event, the stockholders of the Company immediately before such event do not retain immediately after such event direct or indirect beneficial ownership of more than 50% of the total combined voting power of the voting stock of the Company, its successor, or the corporation to which the assets of the Company were transferred.

Termination or Amendment. The 1995 Plan will continue in effect until the earlier of its termination by the Board or the date on which all shares available for issuance under the 1995 Plan have been issued and all restrictions on such shares under the terms of the Plan and the option agreements have lapsed, provided that all incentive stock options must be granted within ten years of May 7, 1995, the date on which the Board approved the 1995 Plan. The Board may terminate or amend the 1995 Plan at any time. However, without stockholder approval, the Board may not amend the 1995 Plan to increase the total number of shares of common stock issuable thereunder, change the class of persons eligible to receive incentive stock options, or effect any other

Table of Contents

change that would require stockholder approval under any applicable law, regulation or rule. No termination or amendment may adversely affect an outstanding option or shares acquired pursuant to a stock issuance without the consent of the optionee, unless the amendment is required to preserve an option's status as an incentive stock option or is necessary to comply with any applicable law, regulation or rule.

Plan Benefits. During the fiscal year ended April 30, 2002, no options were granted under the 1995 Plan to any director who was an executive officer or to any executive officers of the Company. During the year ended April 30, 2002, no options were granted under the 1995 Plan to any directors who were not executive officers or to any associate of any director, executive officer or Board nominee of the Company, and no person was granted 5% or more of the total amount of options granted under the 1995 Plan during that year.

Summary of United States Federal Income Tax Consequences

The following summary is intended only as a general guide as to the United States federal income tax consequences under current law of participation in the 1995 Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances.

Incentive Stock Options. An optionee recognizes no taxable income for regular income tax purposes as the result of the grant or exercise of an incentive stock option qualifying under Section 422 of the Code. Optionees who do not dispose of their shares for two years following the date the option was granted nor within one year following the exercise of the option will normally recognize a long-term capital gain or loss equal to the difference, if any, between the sale price and the purchase price of the shares. If an optionee satisfies such holding periods upon a sale of the shares, the Company will not be entitled to any deduction for federal income tax purposes. If an optionee disposes of shares within two years after the date of grant or within one year from the date of exercise (a disqualifying disposition), the difference between the fair market value of the shares on the exercise date and the option exercise price (not to exceed the gain realized on the sale if the disposition is a transaction with respect to which a loss, if sustained, would be recognized) will be taxed as ordinary income at the time of disposition. Any gain in excess of that amount will be a capital gain. If a loss is recognized, there will be no ordinary income, and such loss will be a capital loss. A capital gain or loss will be long-term if the optionee's holding period is more than 12 months. Any ordinary income recognized by the optionee upon the disqualifying disposition of the shares generally should be deductible by the Company for federal income tax purposes, except to the extent such deduction is limited by applicable provisions of the Code or the regulations thereunder.

The difference between the option exercise price and the fair market value of the shares on the determination date (see discussion under *Nonstatutory Stock Options* below) of an incentive stock option is an adjustment in computing the optionee's alternative minimum taxable income and may be subject to an alternative minimum tax which is paid if such tax exceeds the regular tax for the year. Special rules may apply with respect to certain subsequent sales of the shares in a disqualifying disposition, certain basis adjustments for purposes of computing the alternative minimum taxable income on a subsequent sale of the shares and certain tax credits which may arise with respect to optionees subject to the alternative minimum tax.

Nonstatutory Stock Options. Options not designated or qualifying as incentive stock options will be nonstatutory stock options. Nonstatutory stock options have no special tax status. An optionee generally recognizes no taxable income as the result of the grant of such an option. Upon exercise of a nonstatutory stock option, the optionee normally recognizes ordinary income in the amount of the difference between the option exercise price and the fair market value of the shares on the determination date (as defined below). If the optionee is an employee, such ordinary income generally is subject to withholding of income and employment taxes. The determination date is the date on which the option is exercised unless the shares are subject to a substantial risk of forfeiture (as in the case where an optionee is permitted to exercise an unvested option and receive unvested shares which, until they vest, are subject to the Company's right to repurchase them at the original exercise price upon the optionee's termination of service) and are not transferable, in which case the

Table of Contents

determination date is the earlier of (i) the date on which the shares become transferable or (ii) the date on which the shares are no longer subject to a substantial risk of forfeiture. If the determination date is after the exercise date, the optionee may elect, pursuant to Section 83(b) of the Code, to have the exercise date be the determination date by filing an election with the Internal Revenue Service no later than 30 days after the date the option is exercised. Upon the sale of stock acquired by the exercise of a nonstatutory stock option, any gain or loss, based on the difference between the sale price and the fair market value on the determination date, will be taxed as capital gain or loss. A capital gain or loss will be long-term if the optionee's holding period is more than 12 months. No tax deduction is available to the Company with respect to the grant of a nonstatutory stock option or the sale of the stock acquired pursuant to such grant. The Company generally should be entitled to a deduction equal to the amount of ordinary income recognized by the optionee as a result of the exercise of a nonstatutory stock option, except to the extent such deduction is limited by applicable provisions of the Code or the regulations thereunder.

Stock Issuances. The tax principles applicable to direct stock issuances under the 1995 Plan will be substantially the same as those summarized above for the exercise of nonstatutory stock option grants.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the shares present or represented by proxy and entitled to vote at the annual meeting of stockholders at which a quorum representing a majority of all outstanding shares of our common stock is present and voting, either in person or by proxy, is required for approval of this proposal. Abstentions and broker non-votes each will be counted as present for purposes of determining the presence of a quorum, but will have no effect on the outcome of this vote.

The Board believes that the proposed amendment to the 1995 Plan to approve an amendment to the 1995 Plan limiting the maximum number of shares for which options may be granted to any employee in any fiscal year to 2,500,000, as described above, is in the best interests of the Company and the stockholders for the reasons stated above. **Therefore, the Board of Directors unanimously recommends a vote FOR the proposal to amend the 1995 Plan to approve an amendment to the 1995 Plan limiting the maximum number of shares for which options may be granted to any employee in any fiscal year to 2,500,000. A copy of the 1995 Plan is attached hereto as Appendix A.**

Table of Contents**PROPOSAL 3: RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS**

PricewaterhouseCoopers LLP has been the Company's independent auditors since its incorporation in 1995 and at the recommendation of the Audit Committee of the Board of Directors have been selected by the Board of Directors as the Company's independent auditors for the fiscal year ending April 30, 2003. In the event that ratification of this selection of auditors is not approved by a majority of the shares of common stock voting thereon, management will review its future selection of auditors.

The Audit Committee is directly responsible for the appointment, compensation and oversight of the work of the independent auditors, and the independent auditors report directly to the Audit Committee. A representative of PricewaterhouseCoopers LLP is expected to be present at the annual meeting and will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from the stockholders.

Audit services of PricewaterhouseCoopers LLP for fiscal year 2002 included the examination of the consolidated financial statements of the Company and services related to filings made with the Securities and Exchange Commission, as well as certain services relating to the consolidated quarterly reports and annual and other periodic reports at international locations.

The following table sets forth the aggregate fees billed to the Company for the fiscal year ended April 30, 2002 by PricewaterhouseCoopers LLP:

Audit Fees	\$	206,000
Tax-related Fees	\$	95,000
All Other Fees	\$	0

Tax-related fees include fees payable for tax consulting work as well as fees incurred in connection with domestic and international tax compliance and planning. There were no financial information systems design and implementation services provided by PricewaterhouseCoopers LLP during fiscal 2002.

Representatives of PricewaterhouseCoopers LLP normally attend each meeting of the Audit Committee of the Board. The Audit Committee on an annual basis reviews audit and non-audit services performed by PricewaterhouseCoopers LLP for the preceding year as well as the fees charged by PricewaterhouseCoopers LLP for such services. All audit and non-audit services are approved by the Audit Committee, which considers, among other things, the possible effect of the performance of such services on the auditors' independence.

Vote Required and Recommendation of the Board of Directors

Although stockholder approval is not required for the appointment of PricewaterhouseCoopers LLP since the Audit Committee of the Board of Directors has the responsibility for selecting auditors, the Board of Directors has conditioned its appointment of the Company's independent auditors upon the receipt of the affirmative vote of a majority of the votes duly cast at the annual meeting. In the event that the stockholders do not approve the selection of PricewaterhouseCoopers LLP, the Audit Committee will reconsider its selection.

The Board of Directors recommends a vote FOR ratification of the appointment of PricewaterhouseCoopers LLP as independent auditors for the Company for the fiscal year ending April 30, 2003. Unless a contrary choice is specified, proxies solicited by the Board of Directors will be voted for ratification of the appointment.

- (1) Represents shares which are immediately exercisable and/or vested. Stock options granted before August 19, 1999 under the 1995 Stock Option Plan are generally immediately exercisable at the date of grant, but shares received upon exercise of unvested options are subject to repurchase by the Company. Options granted after August 19, 1999 may generally only be exercised once vested. The options listed vest at various times from the date hereof through 2006.
- (2) Represents shares which are unvested and which remain subject to the Company's right of repurchase and shares which are unexercised.
- (3) Market value of underlying securities is based on the closing price of the Company's common stock on April 30, 2002 (the last trading day of the 2002 fiscal year), which was \$9.16 as reported on the Nasdaq National Market.

Shares Acquired on Exercise includes all shares underlying the option, or portion of the option, exercised without deducting shares withheld to satisfy tax obligations, sold to pay the exercise price or otherwise disposed of. Value Realized is calculated by multiplying the difference between the market value, deemed to be the closing market price of our common stock on the Nasdaq National Market, and exercise price when exercised, by the number of shares acquired upon exercise. The value of any payment by the Company for the exercise price or related taxes is not included. Value of Unexercised In-the-Money Options at April 30, 2002 is calculated by multiplying the difference between the market value and exercise price at fiscal year end by the number of options held at fiscal year end.

Certain Relationships and Related Transactions

During fiscal 2002, the Company was not a party to any transaction or series of transactions involving \$60,000 or more and in which any director, executive officer or holder of more than 5% of our capital stock had a material interest.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors administers the Company's executive compensation program. In this regard, the role of the Compensation Committee, which is comprised entirely of outside, non-employee directors, is to review and approve salaries and other compensation of the executive officers of the Company, and determine performance-based compensation for executive officers. The Compensation Committee also reviews and approves various other Company compensation policies and matters, and administers the Company's stock option plans, including the review and approval of stock option grants to the executive officers of the Company. Limited authority to grant stock options to non-officer employees has been delegated to Bryan Stolle. The members of the Compensation Committee during the fiscal year ended April 30, 2002 were Mr. Patterson and Ms. Schoendorf.

General Compensation Philosophy

The Company's general compensation philosophy is that total compensation should vary with the performance of the Company in attaining financial and non-financial objectives, and that any long-term incentive compensation should be closely aligned with the interests of the stockholders. The Company has several performance-based compensation programs in which the majority of Agile's employees are eligible to participate. Most company employees not compensated on a commission basis participate in the performance-based compensation program.

Total cash compensation for the majority of Agile's employees, including its executive officers, consists of the following components:

Base salary; and

A variable cash component that is based on certain performance objectives.

In addition to encouraging stock ownership by granting stock options, the Company further encourages its employees to own Company stock through a tax-qualified employee stock purchase plan, which is generally available to all employees. This plan allows participants to buy Company stock at a discount to the market price with up to 10% of their salary and bonuses (subject to certain limits).

Setting Executive Compensation

The goals of the Company's executive officer compensation policies are to attract, retain and reward executive officers who contribute to the Company's success, to align executive officer compensation with the Company's performance and to motivate executive officers to achieve the Company's business objectives. In setting the base salary and individual bonus target amount for executive officers, the Compensation Committee reviews information relating to executive compensation of U.S.-based companies that are considered generally comparable to the Company. While there is no specific formula that is used to set pay in relation to this market data, executive officer base salary and bonus target amount is generally set to be slightly below the average salaries for comparable jobs in the marketplace. However, when the Company's business groups meet or exceed certain predetermined financial and non-financial goals, amounts paid under the Company's performance-based compensation programs may lead to total cash compensation levels that are higher than the average salaries for comparable jobs.

The Company has considered the provisions of Section 162(m) of the Internal Revenue Code and related Treasury Department regulations which restrict deductibility of executive compensation paid to the Company's chief executive officer and each of the four other most highly compensated executive officers holding office at the end of any year to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. Income from options granted under the Company's stock option plans would generally qualify for an exemption from these restrictions so long as the

Table of Contents

options are granted by a committee whose members are non-employee directors. The Company expects that the Compensation Committee will generally be comprised of non-employee directors, and that to the extent such Committee is not so constituted for any period of time, the options granted during such period will not be likely to result in compensation exceeding \$1,000,000 in any year. The Committee does not believe that in general other components of the Company's compensation will be likely to exceed \$1,000,000 for any executive officer in the foreseeable future and therefore concluded that no further action with respect to qualifying such compensation for deductibility was necessary at this time. In the future, the Committee will continue to evaluate the advisability of qualifying its executive compensation for deductibility of such compensation. The Committee's policy is to qualify its executive compensation for deductibility under applicable tax laws as practicable.

Base Salary

The Compensation Committee reviews the history of and proposals for the compensation package of each of the Company's executive officers, including base salary and bonus targets and performance-based compensation components. The base salary is then set as a percentage of the base salary and bonus target amounts, after considering the level and amount of responsibility of the individual.

In accordance with the Company's compensation philosophy that total cash compensation should vary with Company performance, the Compensation Committee establishes base salaries of the Company's executive officers at levels which the Compensation Committee believes are below the average base salaries of executives of companies considered by the Compensation Committee to be comparable to the Company. Instead, a large part of each executive officer's total compensation is dependent on the performance of the Company as measured through its performance-based compensation programs.

Performance-Based Compensation

Executive Officer Performance-Based Compensation. In May 2001, the Compensation Committee established individual performance-based compensation targets ranging from \$60,000 to \$180,000 for each of the executive officers, based upon an amount equal to such percentage of such officer's base salary as the Compensation Committee shall determine. The Chief Executive Officer may, in his discretion, reduce a bonus payable to an executive officer, based in part upon the Chief Executive Officer's evaluation of such executive officer's job performance. In addition to bonuses paid in connection with corporate performance, the Compensation Committee, in its discretion, may provide a bonus based on individual achievement of individual performance goals, established at the beginning of the year. In fiscal 2002, the corporate performance goals were attained and, accordingly, bonuses were awarded to executive officers.

Stock Options. The Company strongly believes that equity ownership by executive officers provides incentives to build stockholder value and aligns the interests of executive officers with those of the stockholders, and therefore makes periodic grants of stock options under the 1995 Stock Option Plan. The size of an option grant to an executive officer has generally been determined with reference to similarly sized high technology companies in the Company's geographical area, the responsibilities and expected future contributions of the executive officer, previous grants to that officer, as well as recruitment and retention considerations. In fiscal 2002, the Compensation Committee did not make any stock option grants to executive officers. See *Option Grants in Last Fiscal Year*.

Chief Executive Compensation. Mr. Stolle's compensation as President and Chief Executive Officer for the fiscal year ended April 30, 2002 was established by the Compensation Committee in May 2001. Mr. Stolle's base salary for the year ended April 30, 2002 was \$180,000. Mr. Stolle received no options to purchase shares of common stock. Under the terms of the options previously granted to Mr. Stolle, if Mr. Stolle is terminated without cause during the 18 months following a change-in-control, then vesting of all options to purchase the Company's common stock held by Mr. Stolle will accelerate by 18 months. During fiscal 2002, the Company

established a company travel plan for Mr. Stolle, wherein all bonuses otherwise payable to him are irrevocably allocated to pay company-approved travel expenses in excess of those covered by the Company's travel policy. For fiscal 2003, the amount of \$120,000, which was attributable to bonus amounts that otherwise would have been earned by Mr. Stolle for fiscal 2002, was allocated to this travel plan, together with the sum of \$100,000, representing aggregate salary reductions incurred or to be incurred by Mr. Stolle in fiscal 2002 and 2003.

**REPORT OF THE BOARD OF DIRECTORS ON
THE VOLUNTARY OPTION EXCHANGE PROGRAM**

In October 2001, the Board of Directors considered the options held by Agile's employees and the fact that a broad decline in the price of the common stock of Agile had resulted in a substantial number of stock options granted pursuant to Agile's stock option plans having exercise prices well above the recent historical trading prices of the common stock. The Board of Directors was advised by management that management believed that employee turnover was likely to increase in part because Agile's total compensation package for long-term employees, which included substantial options with exercise prices well above the then current trading price, no longer provided an effective retention incentive. In addition, Agile's existing option grants were not competitive with competing offers from other companies, since options granted to new hires at other companies would be granted at current trading prices.

The Board of Directors believed that (i) Agile's success in the future would depend in large part on its ability to retain a number of its highly skilled technical and managerial personnel, (ii) competition for such personnel would continue to be intense, (iii) the loss of key employees could have a significant adverse impact on Agile's business, and (iv) it would be important and cost-effective to provide meaningful equity incentives to employees of Agile to improve Agile's performance and the value of Agile for its stockholders. The Board of Directors considered granting new options to existing employees at fair market value, but recognized that the size of the option grants required to offset the decline in market price would result in significant additional dilution to stockholders and that such grants would potentially exceed the option reserve, resulting in a potential charge to earnings if the price at the time of the stockholders meeting was greater than the price at the time the grants were approved. The Board of Directors recognized that an exchange of existing options with exercise prices higher than fair market value, for new options at fair market value would provide additional incentives to employees because of the increased potential for appreciation. Considering these factors, the Board of Directors determined it to be in the best interests of Agile and its stockholders to offer to each employee who held outstanding stock options to purchase the Company's common stock originally granted under the Company's 1995 Plan, the 2000 Nonstatutory Stock Option Plan ("2000 Plan"), or the Digital Market, Inc. 1995 Stock Option Plan with an exercise price per share of \$15.00 or more the opportunity to exchange that option for a new option under the Company's 1995 Plan (with respect to returned options held by executive officers of the Company) or under our 2000 Plan (with respect to returned options held by option holders who are not executive officers of the Company) for 75% of the number of shares subject to the exchanged option. Employees located in the United States, Canada, France, Germany, Japan, Taiwan and the United Kingdom were eligible to participate. The new options were granted at least six months and one day after the completion of the option exchange program.

Accordingly, on November 19, 2001, the Company accepted for exchange and cancellation options to purchase an aggregate of 3,971,557 shares of the Company's common stock representing 49% of the options eligible to be tendered under the option exchange program. On May 31, 2002, the Company granted options to purchase an aggregate of 2,530,685 shares of the Company's common stock to employees who tendered eligible options in the program. The exercise price per share for each of the new options was \$8.34 per share, the last reported trading price of the Company's common stock on the grant date. See "Voluntary Stock Option Exchange Program" table below for further information concerning the option exchange in its entirety.

2001 Option Exchange Program

In October 2001, the Board authorized the implementation of an option exchange program to address the substantial loss in value of the outstanding stock options held by the Company's employees and the increasing inability of those options to serve as meaningful incentive for optionees to remain in the Company's employ. Under the program, each employee who held outstanding stock options to purchase the Company's common stock originally granted under the Company's 1995 Plan, the 2000 Plan, or the Digital Market, Inc. 1995 Stock Option Plan with an exercise price per share of \$15.00 or more was given the opportunity to exchange that option for a new option under the Company's 1995 Plan (with respect to returned options held by executive officers of the Company) or under our 2000 Plan (with respect to returned options held by option holders who are not executive officers of the Company) for 75% of the number of shares subject to the exchanged option. Employees located in the United States, Canada, France, Germany, Japan, Taiwan and the United Kingdom were eligible to participate. The new option would be granted at least six months and one day after the completion of the option exchange program.

On November 19, 2001, the Company accepted for exchange and cancellation options to purchase an aggregate of 3,971,557 shares of the Company's common stock representing 49% of the options eligible to be tendered under the option exchange program. On May 31, 2002, the Company granted options to purchase an aggregate of 2,530,685 shares of the Company's common stock to employees who tendered eligible options in the program. The exercise price per share for each of the new options was \$8.34 per share, the last reported trading price of the Company's common stock on the grant date.

Each option issued in exchange for a cancelled option will continue to vest and become exercisable for the option shares in accordance with the same vesting schedule in effect for the cancelled option. Accordingly, each new option was immediately vested and exercisable upon grant for 75% of the number of shares which would have been vested and exercisable under the cancelled option at that time and will become exercisable for the balance of the shares on the same vesting installment dates as were in effect for the cancelled option. However, the number of shares covered by each such installment will be 75% of the number of shares, which would have been subject to that installment under the cancelled option.

Table of Contents

The table below provides certain information concerning any executive officers who participated in the option exchange program and the options that were cancelled pursuant to that program. The members of our Board, including our Chief Executive Officer Bryan D. Stolle, were not eligible to participate in the program. Except for the 2001 option exchange program, the Company has not implemented any other option repricing or option cancellation/re-grant programs.

Summary of the 2000 Plan

General. The purpose of the 2000 Plan is to advance the interests of the Company and its stockholders by providing an incentive program that will enable the Company to attract, retain and reward persons performing services for the Company and by motivating them to contribute to the growth and profitability of the Company. These incentives are provided through the grant of nonstatutory stock options and direct stock issuances to employees (excluding officers and directors) and consultants.

Shares Subject to Plan. A maximum of 19,500,000 of the authorized but unissued or reacquired shares of the Company's common stock may be issued under the 2000 Plan, as increased on August 1, 2002. As of

Table of Contents

August 1, 2002, options to purchase 295,207 shares of common stock granted pursuant to the 2000 Plan had been exercised, there were 10,842,038 options outstanding, and there were 8,362,755 shares of common stock available for future grants under the 2000 Plan. Appropriate adjustments will be made to the shares subject to the 2000 Plan and to outstanding awards upon any stock dividend, stock split, reverse stock split, recapitalization, combination, reclassification, or similar change in the capital structure of the Company. To the extent that any outstanding option under the 2000 Plan expires or terminates prior to exercise in full or if shares issued upon exercise of an option or pursuant to a stock issuance are repurchased by the Company, the shares of common stock for which such option is not exercised or the repurchased shares are returned to the 2000 Plan and become available for future grant.

Administration. The 2000 Plan will be administered by the Board. Subject to the provisions of the 2000 Plan, the Board determines the persons to whom options are to be granted, the number of shares to be covered by each option, the timing and terms of exercisability and vesting of each option, the purchase price and the type of consideration to be paid to the Company upon the exercise of each option, the time of expiration of each option, and all other terms and conditions of the options. The Board may amend, modify, extend, cancel, renew, or grant a new option in substitution for, any option, waive any restrictions or conditions applicable to any option, and accelerate, continue, extend or defer the exercisability or vesting of any option, including with respect to the period following an optionee's termination of service with the Company. The 2000 Plan provides, subject to certain limitations, for indemnification by the Company of any director, officer or employee against all reasonable expenses, including attorneys' fees, incurred in connection with any legal action arising from such person's action or failure to act in administering the plan. The Board will interpret the 2000 Plan and options granted thereunder, and all determinations of the Board will be final and binding on all persons having an interest in the 2000 Plan or any option.

Eligibility. Options may be granted under the 2000 Plan to employees (excluding officers and directors) and consultants of the Company or of any present or future parent or subsidiary corporations of the Company. Prospective employees and prospective consultants may also receive grants under the 2000 Plan in connection with written offers of employment or engagement, provided that such options may not become exercisable prior to the individual's commencement of service. As of August 1, 2002, the Company had approximately 453 employees and consultants who would be eligible to receive a grant under the 2000 Plan.

Terms and Conditions of Options. Each option granted under the 2000 Plan is evidenced by a written agreement between the Company and the optionee specifying the number of shares subject to the option and the other terms and conditions of the option, consistent with the requirements of the 2000 Plan. The exercise price of each nonstatutory stock option is determined by the Board on the date of grant.

Under the 2000 Plan, the option exercise price may be paid in cash, by check, or in cash equivalent, by tender of shares of common stock owned by the optionee having a fair market value not less than the exercise price, by the assignment of the proceeds of a sale with respect to some or all of the shares of common stock being acquired upon the exercise of the option, by means of an assignment of the proceeds with respect to some or all of the shares acquired upon the exercise of the option, by payment with a promissory note, and by payment of the exercise price with any other lawful consideration approved by the Board, or by any combination of these. Nevertheless, the Board may restrict the forms of payment permitted in connection with any option grant. No option may be exercised until the optionee has made adequate provision for federal, state, local and foreign taxes, if any, relating to the exercise of the option.

Options will become vested and exercisable at such times or upon such events and subject to such terms, conditions, performance criteria or restrictions as specified by the Board. Generally, options granted under the 2000 Plan become exercisable in installments over a period of time specified by the Board at the time of grant, subject to the optionee's continued service with the Company. An option generally will remain exercisable for three months following the optionee's termination of service, provided that if termination results from the optionee's death or disability, the option generally will remain exercisable for 12 months following the

Table of Contents

optionee's termination of service. However, if the optionee is terminated for misconduct, the option will not be exercisable after the termination date. In any event the option must be exercised no later than its expiration date. The Board, in its discretion, may provide for longer or shorter post-service exercise periods in particular instances.

Options are generally nontransferable by the optionee other than by will or by the laws of descent and distribution, and are exercisable during the optionee's lifetime only by the optionee. However, an option may be assignable or transferable to the extent permitted by the Board and set forth in the option agreement.

Stock Issuance Program. Shares of common stock may be issued under the Stock Issuance Program for such valid consideration as the Board deems appropriate, including cash and a promissory note. The shares may also be issued for past services rendered without any cash outlay required of the recipient. The Board will have complete discretion under the program to determine which eligible individuals are to receive such stock issuances, the time or times when those issuances are to be made, the number of shares subject to each such issuance and the vesting schedule, if any, to be in effect for the stock issuance. The stock issuance, at the discretion of the Board, may be issued for less than 100% of the fair market value of such shares, but in no event less than 85% of such fair market value. Additionally, the Board will have the discretionary authority at any time to accelerate the vesting of any and all unvested shares outstanding under the Stock Issuance Program. As of August 1, 2002, the Company has not issued any shares under the Stock Issuance Program.

Corporate Transaction. The 2000 Plan provides that in the event of a Change-in-Control (as defined below), the surviving, continuing, successor or purchasing corporation or parent corporation thereof (the Acquiring Corporation) may either assume the Company's rights and obligations under the outstanding options or substitute substantially equivalent options for such corporation's stock. If the Acquiring Corporation elects not to assume or substitute for options outstanding under the 2000 Plan, any unvested or unexercisable portion of the outstanding options will become immediately exercisable and vested in full prior to such Change-in-Control. To the extent that the outstanding options are not assumed, replaced or exercised prior to the Change-in-Control, they will terminate. In addition, if the Acquiring Corporation assumes or substitutes for an outstanding option and within 18 months after the Change-in-Control the optionee's service is terminated by the Company (other than for cause) or the optionee resigns for good reason, the optionee will be credited with an additional 18 months of vesting.

For purposes of the 2000 Plan, a Change-in-Control means (i) a sale or exchange by the stockholders in a single or series of related transactions of more than 50% of the Company's voting stock, (ii) a merger or consolidation in which the Company is a party, (iii) the sale, exchange or transfer of all or substantially all of the assets of the Company, or (iv) a liquidation or dissolution of the Company wherein, upon any such event, the stockholders of the Company immediately before such event do not retain immediately after such event direct or indirect beneficial ownership of more than 50% of the total combined voting power of the voting stock of the Company, its successor, or the corporation to which the assets of the Company were transferred.

Termination or Amendment. The 2000 Plan will continue in effect until the earlier of its termination by the Board or the date on which all shares available for issuance under the 2000 Plan have been issued and all restrictions on such shares under the terms of the Plan and the option agreements have lapsed. The Board may terminate or amend the 2000 Plan at any time, however, no termination or amendment may adversely affect an outstanding option or shares acquired pursuant to a stock issuance without the consent of the optionee, unless the amendment is necessary to comply with any applicable law, regulation or rule.

OTHER MATTERS

Section 16(a) Beneficial Ownership Reporting Compliance. Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors and executive officers, among others, to file with the Securities and Exchange Commission an initial report of ownership of the Company's stock and reports of changes in ownership. Persons subject to Section 16 are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms that they file. Under SEC rules, certain forms of indirect ownership and ownership of Company stock by certain family members is covered by these reporting rules. As a matter of practice, the Company's administrative staff assists the Company's executive officers and directors in preparing initial reports of ownership and reports of changes in ownership and in filing these reports on their behalf.

Based solely on a review of the copies of such forms furnished to the Company, and on written representations from certain reporting persons, the Company believes that during fiscal 2002, all filing requirements applicable to the Company's executive officers, directors and more than 10% stockholders were complied with.

Financial Statements. The Company's financial statements for the year ended April 30, 2002 are included in the Company's 2002 Annual Report to Stockholders. Copies of the annual report are being sent to the Company's stockholders concurrently with the mailing of this proxy statement. Stockholders directly registered by name on the books of EquiServe, or holding shares in nominee name through certain brokers and banks, have been offered the opportunity to obtain this proxy statement and the annual report by accessing it in electronic form on the Company's Web site instead of receiving paper copies. If you have not received or had access to the annual report, please notify the Company's Investor Relations at One Almaden Boulevard, San Jose, California, 95113 and a copy will be sent to you. The Company's annual report and this proxy statement are available on Agile's Investor Relations Web site (www.agile.com/investors).

STOCKHOLDER PROPOSALS TO BE PRESENTED AT NEXT ANNUAL MEETING

The Company has an advance notice provision under its bylaws for stockholder business to be presented at meetings of stockholders. This provision states that in order for stockholder business to be properly brought before a meeting by a stockholder, such stockholder must have given timely notice thereof in writing to the Secretary of the Company. A stockholder proposal to be timely must be received at the Company's principal executive offices not less than 120 calendar days in advance of the one year anniversary of the date the Company's proxy statement was released to stockholders in connection with the previous year's annual meeting of stockholders; except that (i) if no annual meeting was held in the previous year, (ii) if the date of the annual meeting has been changed by more than thirty calendar days from the date contemplated at the time of the previous year's proxy statement or (iii) in the event of a special meeting, then notice must be received not later than the close of business on the tenth day following the day on which notice of the date of the meeting was mailed or public disclosure of the meeting date was made.

Proposals of stockholders intended to be presented at the next annual meeting of the stockholders of the Company must be received by the Company at its offices at One Almaden Boulevard, San Jose, California 95113, no later than May 1, 2003, and satisfy the conditions established by the Securities and Exchange Commission for stockholder proposals to be included in the Company's proxy statement for that meeting.

Householding of Proxy Materials. In December 2000, the Securities and Exchange Commission adopted new rules that permit companies and intermediaries, including brokers, to satisfy the delivery requirements for proxy statements, prospectuses and annual reports with respect to two or more stockholders sharing the same address by delivering a single copy of proxy statements, prospectuses and annual reports, as the case may be, addressed to those stockholders. This process, known as householding, may mean extra convenience for stockholders and cost savings for the Company. If you are currently receiving multiple copies of our proxy statement and Annual Report at your address and would like to request householding of your communications, please contact your broker. Once you have elected householding of your communications, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding, and would prefer to receive a separate proxy statement and annual report, please notify your broker, direct your written request to Agile Software Corporation, Investor Relations, One Almaden Boulevard, San Jose, CA 95113 or contact Investor Relations at (408) 975-3900.

(As Amended through August 1, 2002)

ARTICLE ONE

GENERAL PROVISIONS

I. PURPOSE OF THE PLAN

This 1995 Stock Option Plan is intended to promote the interests of Agile Software Corporation, a Delaware corporation, by providing eligible persons with the opportunity to acquire a proprietary interest, or otherwise increase their proprietary interest, in the Corporation as an incentive for them to remain in the service of the Corporation.

Unless otherwise defined herein, capitalized terms shall have the meanings assigned to such terms in the attached Appendix.

II. ADMINISTRATION OF THE PLAN

A. The Plan shall be administered by the Board. However, any or all administrative functions otherwise exercisable by the Board may be delegated to a Committee. Members of the Committee shall serve for such period of time as the Board may determine and shall be subject to removal by the Board at any time. The Board may also at any time terminate the functions of the Committee and reassume all powers and authority previously delegated to the Committee.

B. Any officer of the Corporation shall have the authority to act on behalf of the Corporation with respect to any matter, right, obligation, determination or election which is the responsibility of or which is allocated to the Corporation herein, provided the officer has apparent authority with respect to such matter, right, obligation, determination or election.

C. In addition to any other powers set forth in the Plan and subject to the provisions of the Plan, the Plan Administrator shall have the full and final power and authority, in its discretion to:

1. establish such rules and regulations as it may deem appropriate for proper administration of the Plan and to make such determinations under, and issue such interpretations of, the Plan and any outstanding option or stock issuance as it may deem necessary or advisable;
2. determine which eligible persons are to receive option grants and stock issuances under the Plan, the time or times when such option grants or stock issuances are to be made, the number of shares to be covered by each such grant, the status of the granted option as either an Incentive Option or a Non-Statutory Option, the time or times at which each option is to become exercisable, the vesting schedule (if any) applicable to each option or stock issuance, the maximum term for which the option is to remain outstanding;
3. amend, modify, extend, cancel, or renew, any option or stock issuance or to waive any restrictions or conditions applicable to any option or shares acquired pursuant to a stock issuance or upon the exercise of an option;

4. amend the exercisability of any option or the vesting of any shares acquired upon the exercise of any option or pursuant to any stock issuance, including with respect to the period following an Optionee's termination of Service with the Corporation;
5. delegate to any proper officer of the Corporation the authority to (a) grant one or more options or stock issuances, without further approval of the Board, to any person eligible pursuant to Section II below, other than a person who, at the time of such grant, is an Insider; provided, however, that (i) such options and stock issuances shall not be granted to any one person within any fiscal year of the Corporation in excess of such limits as may be specified by the Plan Administrator, (ii) the exercise price per share of each option shall be equal to the Fair Market Value per share of the Common Stock on the effective date of grant (or, if the Common Stock has not traded on such date, on the last day preceding the effective date of grant on which the Common Stock was traded), and (iii) each option or stock issuance shall be subject to the terms and conditions of the appropriate standard form of option agreement or Issuance Agreement approved by the Board and shall conform to the provisions of the Plan and such other guidelines as shall be established from time to time by the Board and (b) extend the post-termination exercise period of an option other than an option held by a person who is an Insider at the time of such amendment; and
6. correct any defect, supply any omission or reconcile any inconsistency in the Plan, any option agreement, or any stock issuance agreement and to make all other determinations and take such other actions with respect to the Plan or any option or stock issuance as the Board may deem advisable to the extent not inconsistent with the provisions of the Plan or applicable law.

Decisions of the Plan Administrator shall be final and binding on all parties who have an interest in the Plan or any option, stock issuance, or shares issued thereunder.

D. With respect to participation by Insiders in the Plan, at any time that any class of equity security of the Corporation is registered pursuant to Section 12 of the 1934 Act, the Plan shall be administered in compliance with the requirements, if any, of Rule 16b-3 of the 1934 Act.

E. If the Corporation (or Parent or Subsidiary corporation) is a publicly held corporation within the meaning of Section 162(m) of the Code, the Board may establish a Committee of outside directors within the meaning of Section 162(m) of the Code to approve the grant of any option or stock issuance which might reasonably be anticipated to result in the payment of employee remuneration that would otherwise exceed the limit on employee remuneration deductible for income tax purposes pursuant to Section 162(m).

F. In addition to such other rights of indemnification as they may have as members of the Board or officers or employees of the Corporation (or Parent or Subsidiary corporation), members of the Board and any officers or employees of the Corporation (or Parent or Subsidiary corporation) to whom authority to act for the Board or the Corporation is delegated shall be indemnified by the Corporation against all reasonable expenses, including attorneys' fees, actually and necessarily incurred in connection with the defense of any action, suit or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan, or any right granted hereunder, and against all amounts paid by them in settlement thereof (provided such settlement is approved by independent legal counsel selected by the Corporation) or paid by them in satisfaction of a judgment in any such action, suit or proceeding, except in relation to matters as to which it shall be adjudged in such action, suit or proceeding that such person is liable for gross negligence, bad faith or intentional misconduct in duties; provided, however, that within sixty (60) days after the institution of such action, suit or proceeding, such person shall offer to the Corporation, in writing, the opportunity at its own expense to handle and defend the same.

III. ELIGIBILITY

A. Employees, Consultants and non-employee Directors are eligible to receive option grants pursuant to the Discretionary Option Grant Program and/or stock issuances under the Stock Issuance Program. For purposes

Table of Contents

of the foregoing sentence, Employees, Consultants, and non-employee Directors shall include prospective Employees, prospective Consultants and prospective non-employee Directors to whom options and/or stock issuances are granted in connection with written offers of employment or other service relationship with the Corporation or any Parent or Subsidiary corporation. Eligible persons may be granted more than one (1) option and/or stock issuance.

B. Only non-employee Board members may receive grants under the Automatic Director Option Grant Program.

C. Subject to adjustment as provided below, at any such time as the Corporation (or Parent or Subsidiary corporation) is a publicly held corporation within the meaning of Section 162(m) of the Code, no Employee shall be granted one or more options or stock issuances within a fiscal year of the Corporation which in the aggregate are for the purchase of more than 2,500,000 shares of Common Stock (the Section 162(m) Grant Limit). An option or stock issuance which is canceled in the same fiscal year of the Corporation in which it was granted shall continue to be counted against Section 162(m) Grant Limit for such period.

IV. STOCK SUBJECT TO THE PLAN

A. The maximum number of shares of Common Stock which may be issued over the term of the Plan shall not exceed 10,750,000 shares, cumulatively increased on the first day of each fiscal year of the Corporation which begins on or after May 1, 2000 by an amount equal to the lesser of (a) one million (1,000,000) shares, (b) five percent (5%) of the number of shares of Common Stock issued and outstanding on the last day of the immediately preceding fiscal year, or (c) a lesser amount of shares determined by the Board, and shall consist of authorized but unissued or reacquired shares of Common Stock, or any combination thereof. Based on the foregoing, the Plan has a cumulative reserve of 13,750,000 shares, which is equal to the sum of the fixed reserve of 9,750,000 shares, plus the annual increase of 1,000,000 shares on each of May 1, 2000, May 1, 2001 and May 1, 2002. If an outstanding option for any reason expires or is terminated or canceled or if shares of stock are acquired upon the exercise of an option or pursuant to a stock issuance are subject to repurchase by the Corporation and are repurchased by the Corporation, the shares of stock allocable to the unexercised portion of such option or such repurchased shares of stock shall again be available for issuance under the Plan.

B. Should any change be made to the Common Stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the maximum number and/or class of securities issuable under the Plan, (ii) the number and/or class of securities and the exercise price per share in effect under each outstanding option, (iii) the number and/or class of securities acquired pursuant to each stock issuance that are subject to vesting and/or a repurchase right of the Corporation, (iv) the Section 162(m) Grant Limit, and (v) the size of the option grants in the Automatic Director Option Grant Program described in Article Three. The adjustments described in (ii) and (iii) of the previous sentence shall be made in a manner which will prevent the dilution or enlargement of benefits thereunder. The adjustments determined by the Plan Administrator shall be final, binding and conclusive. In no event shall any such adjustments be made in connection with the conversion of one or more outstanding shares of the Corporation's preferred stock into shares of Common Stock.

ARTICLE TWO

Each document evidencing an Incentive Option shall, in addition, comply with the terms of the Plan applicable to Incentive Options.

Table of Contents

A. *Exercise Price.*

1. The exercise price per share shall be determined by the Plan Administrator.
 2. The exercise price shall become immediately due upon exercise of the option and shall, subject to the documents evidencing the option, be made:
 - a. in cash, cash equivalent, or check made payable to the Corporation;
 - b. in shares of Common Stock held for the requisite period necessary to avoid a charge to the Corporation's earnings for financial reporting purposes and valued at Fair Market Value on the Exercise Date;
 - c. to the extent the option is exercised for vested shares, through a special sale and remittance procedure pursuant to which the Optionee shall concurrently provide irrevocable instructions (a) to a Corporation-designated brokerage firm to effect the immediate sale of the purchased shares and remit to the Corporation, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate exercise price payable for the purchased shares plus all applicable Federal, state and local income and employment taxes required to be withheld by the Corporation by reason of such exercise and (b) to the Corporation to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale;
 - d. provided that the person to whom the option is granted is an Employee and in the Corporation's sole discretion at the time the option is exercised, by delivery of a promissory note in a form approved by the Corporation for the aggregate exercise price, provided that, (1) any promissory note used to pay the exercise price shall be subject to the provisions of paragraph A.3 below, and (2) if the Corporation is incorporated in the State of Delaware, the portion of the aggregate exercise price not less than the par value of the shares being acquired shall be paid in cash;
 - e. by such other consideration as may be approved by the Board from time to time to the extent permitted by applicable law; or
 - f. by any combination thereof.
 - g. The Board may at any time or from time to time, grant options which do not permit all of the foregoing forms of consideration to be used in payment of the exercise price or which otherwise restrict one or more forms of consideration.
 3. No promissory note shall be permitted if the exercise of an option using a promissory note would be a violation of any law. Any permitted promissory note shall be on such terms as the Board shall determine at the time the option is granted. The Board shall have the authority to permit or require the Optionee to secure any promissory note used to exercise an option with the shares of stock acquired upon the exercise of the option or with other collateral acceptable to the Corporation. Unless otherwise provided by the Board, if the Corporation at any time is subject to the regulations promulgated by the Board of Governors of the Federal Reserve System or any other governmental entity affecting the extension of credit in connection with the Corporation's securities, any promissory note shall comply with such applicable regulations, and the Optionee shall pay the unpaid principal and accrued interest, if any, to the extent necessary to comply with such applicable regulations.
- B. *Exercise and Term of Options.* Each option shall be exercisable at such time or times, during such period and for such number of shares as shall be determined by the Plan Administrator and set forth in the documents evidencing the option grant; provided, however, that no option granted to a prospective Employee, prospective Consultant, prospective non-employee Director may become exercisable prior to the date on which such person commences services with the Corporation (or any Parent or Subsidiary corporation).

Table of Contents

C. *Effect of Termination of Service.* The following provisions shall govern the exercise of any options held by the Optionee at the time of cessation of Service or death except as otherwise set forth in the stock option agreement:

1. Should the Optionee cease to remain in Service for any reason other than Disability, death or Misconduct, then the Optionee shall have a period of three (3) months following the date of such cessation of Service during which to exercise each outstanding option held by such Optionee.
2. Should such Service terminate by reason of Disability, then the Optionee shall have a period of twelve (12) months following the date of such cessation of Service during which to exercise each outstanding option held by such Optionee.
3. Should the Optionee die while holding one or more outstanding options, then the personal representative of the Optionee's estate or the person or persons to whom the option is transferred pursuant to the Optionee's will or in accordance with the laws of descent and distribution shall have a period of twelve (12) months following the date of the Optionee's death during which to exercise each such option.
4. Notwithstanding the foregoing, if the exercise of an option within the applicable time periods set forth above is prevented by the provisions of Section V of Article Five below, the option shall remain exercisable until three (3) months after the date the Optionee is notified by the Corporation that the option is exercisable, but in any event no later than the specified expiration of the option term.
5. Notwithstanding the foregoing, if a sale within the applicable time periods set forth above of shares acquired upon the exercise of the option would subject the Optionee to suit under Section 16(b) of the 1934 Act, the option shall remain exercisable until the earliest to occur of (i) the tenth (10th) day following the date on which a sale of such shares by the Optionee would no longer be subject to such suit, (ii) the one hundred and ninetieth (190th) day after the Optionee's termination of Service, or (iii) the specified expiration of the option term.
6. Under no circumstances, however, shall any option be exercisable after the specified expiration of the option term.
7. During the applicable post-Service exercise period, the option may not be exercised in the aggregate for more than the number of vested shares for which the option is exercisable on the date of the Optionee's cessation of Service. Upon the expiration of the applicable exercise period or (if earlier) upon the expiration of the option term, the option shall terminate and cease to be outstanding for any vested shares for which the option has not been exercised. However, the option shall, immediately upon the Optionee's cessation of Service, terminate and cease to be outstanding to the extent it is not exercisable for vested shares on the date of such cessation of Service.
8. Should Optionee's Service be terminated for Misconduct, then all outstanding options held by the Optionee shall terminate immediately and cease to remain outstanding.

D. *Stockholder Rights.* The holder of an option shall have no stockholder rights with respect to the shares subject to the option until such person shall have exercised the option, paid the exercise price and become a holder of record of the purchased shares.

E. *Transferability of Options.* During the lifetime of the Optionee, an option shall be exercisable only by the Optionee or the Optionee's guardian or legal representative. No option shall be assignable or transferable by the Optionee, except by will or by the laws of descent and distribution. Notwithstanding the foregoing, to the extent permitted by the Board, in its discretion, and set forth in the option agreement evidencing such option, a Non-Statutory option shall be assignable or transferable subject to the applicable limitations, if any, described in the General Instructions to Form S-8 Registration Statement under the Securities Act.

F. *Withholding.* The Corporation's obligation to deliver shares of Common Stock upon the exercise of any options granted under the Plan shall be subject to the satisfaction of all applicable federal, state, local, and foreign income and employment tax withholding requirements.

Table of Contents

II. INCENTIVE OPTIONS

The terms specified below shall be applicable to all Incentive Options. Except as modified by the provisions of this Section II, all the provisions of the Plan shall be applicable to Incentive Options. Options which are specifically designated as Non-Statutory Options shall not be subject to the terms specified in this Section II.

A. *Eligibility.* Incentive Options may only be granted to Employees. Any person who is not an Employee on the effective date of the grant of an option to such person may be granted only a Non-Statutory Option. 1. The exercise price per share shall not be less than one hundred percent (100%) of the Fair Market Value per share of Common Stock on the option grant date.

2. If the person to whom the option is granted is a Ten Percent Stockholder, then the exercise price per share shall not be less than one hundred ten percent (110%) of the Fair Market Value per share of Common Stock on the option grant date.

C. *Dollar Limitation.* The aggregate Fair Market Value of the shares of Common Stock (determined as of the respective date or dates of grant) for which one or more options granted to any Employee under the Plan (or any other option plan of the Corporation or any Parent or Subsidiary corporation) may for the first time become exercisable as Incentive Options during any one (1) calendar year shall not exceed the sum of One Hundred Thousand Dollars (\$100,000). To the extent the Employee holds two (2) or more such options which become exercisable for the first time in the same calendar year, the foregoing limitation on the exercisability of such options as Incentive Options shall be applied on the basis of the order in which such options are granted.

D. *Term of Incentive Options.* No Incentive Option shall be exercisable after the expiration of ten (10) years after the effective date of grant of such Incentive Option and no Incentive Option granted to a Ten Percent Stockholder shall be exercisable after the expiration of five (5) years after the effective date of grant of such option.

Notwithstanding the foregoing, a non-employee Director who has not served continuously as a member of the Board for at least six (6) months as of such date shall not receive a Director Option on such date.

3. Notwithstanding the foregoing, any person may elect not to receive a Director Option by delivering written notice of such election to the Board no later than the day prior to the date such Director Option would otherwise be granted. A person so declining a Director Option shall receive no payment or other consideration in lieu of such declined Director Option. A person who has declined a Director Option may revoke such election by delivering written notice of such revocation to the Board no later than the day prior to the date such Director Option would be granted pursuant this section.

C. *Exercise Price.* The exercise price per share of Common Stock subject to a Director Option shall be the Fair Market Value of a share of Common Stock on the date the Director Option is granted.

D. *Term of Director Options.* No Director Option shall be exercisable after the expiration of ten (10) years after the effective date of grant of such Director Option unless earlier terminated pursuant to the terms of the Plan or option agreement.

E. *Exercise and Vesting of Director Options.* Each Initial Grant will become vested and exercisable in equal monthly increments over a period of four (4) years measured from the automatic grant date, subject to the Optionee's continued Service. Each Annual Grant will become vested and exercisable in equal monthly increments over a period of one (1) year, with vesting commencing on the date three (3) years after the automatic grant date (i.e. the option will be fully vested four (4) years after the automatic grant date), subject to the Optionee's continued Service. In addition, the shares subject to each Director Option outstanding at the time of a Corporate Transaction shall automatically vest in full so that each such Director Option shall, immediately prior to the effective date of the Corporate Transaction, become fully exercisable for all of the shares of Common Stock at the time subject to that option and may be exercised for any or all of those shares as fully-vested shares of Common Stock

F. *Termination of Service.* The following provisions shall govern the exercise of any Director Options held by the Optionee upon his or her termination of Service:

1. Should the Optionee cease to remain in Service for any reason, the Optionee (or, in the event of Optionee's death, the personal representative of the Optionee's estate or the person or persons to whom the option is transferred pursuant to the Optionee's will or the laws of inheritance) shall have a period of twelve (12) months following the date of such cessation of Service during which to exercise each outstanding Director Option held by such Optionee.

2. Notwithstanding the foregoing, if the exercise of an option within the applicable time period set forth above is prevented by the provisions of Section V of Article Five below, the option shall remain exercisable until three (3) months after the date the Optionee is notified by the Corporation that the option is exercisable, but in any event no later than the specified expiration of the option term.

3. Notwithstanding the foregoing, if a sale within the applicable time period set forth above of shares acquired upon the exercise of the option would subject the Optionee to suit under Section 16(b) of the 1934 Act, the option shall remain exercisable until the earliest to occur of (i) the tenth (10th) day following the date on which a sale of such shares by the Optionee would no longer be subject to such suit, (ii) the one hundred and ninetieth (190th) day after the Optionee's termination of Service, or (iii) the specified expiration of the option term.

4. Under no circumstances, however, shall any option be exercisable after the specified expiration of the option term.

Table of Contents

5. During the post-Service exercise period, the option may not be exercised in the aggregate for more than the number of vested shares for which the option is exercisable on the date of the Optionee's cessation of Service. Upon the expiration of the exercise period or (if earlier) upon the expiration of the option term, the option shall terminate and cease to be outstanding for any vested shares for which the option has not been exercised. However, the option shall, immediately upon the Optionee's cessation of Service, terminate and cease to be outstanding to the extent it is not exercisable for vested shares on the date of such cessation of Service.

II. REMAINING TERMS

Except as otherwise described above, the remaining terms of each option granted under the Automatic Director Option Grant Program shall be the same as the terms set forth in Section I of Article Two as in effect for the option grants made under the Discretionary Option Grant Program.

ARTICLE FOUR

STOCK ISSUANCE PROGRAM

I. TERMS AND CONDITIONS OF STOCK ISSUANCES

Shares of Common Stock shall be issued under the Stock Issuance Program through direct and immediate purchases without any intervening stock options grants. The issued shares shall be evidenced by a Stock Issuance Agreement (Issuance Agreement) that complies with the terms and conditions of this Article Four.

A. Consideration.

Shares of Common Stock shall be issued under the Plan for one or more of the following items of consideration, which the Plan Administrator may deem appropriate in each individual instance:

1. cash or cash equivalents (such as a personal check or bank draft) paid to the Corporation;
2. Common Stock of the Corporation valued at Fair Market Value on the date of issuance;
3. a promissory note payable to the Corporation's order in one or more installments, which may be subject to cancellation in whole or in part upon terms and conditions established by the Plan Administrator;
4. past services rendered to the Corporation or any parent or subsidiary corporation; or
5. any combination of the above approved by the Plan Administrator.

Shares may, in the absolute discretion of the Plan Administrator, be issued for consideration with a value less than one-hundred percent (100%) of the Fair Market Value of such shares, but in no event less than eighty-five percent (85%) of such Fair Market Value.

B. Vesting Provisions.

1. Shares of Common Stock issued under this Article Four may, in the absolute discretion of the Plan Administrator, be fully and immediately vested upon issuance or may vest in one or more installments over the Participant's period of Service. The effect which death, disability or other event designated by the Plan Administrator is to have upon the vesting schedule shall be determined by the Plan Administrator and incorporated into the Issuance Agreement executed by the Corporation and the Participant at the time such unvested shares are issued.
2. The Participant shall have full stockholder rights with respect to any shares of Common Stock issued to him or her under this Article Four, whether or not his or her interest in those shares is vested.

Table of Contents

Accordingly, the Participant shall have the right to vote such shares and to receive any regular cash dividends paid on such shares. Any new, additional or different shares of stock or other property (including money paid other than as a regular cash dividend) which the Participant may have the right to receive with respect to his or her unvested shares by reason of any stock dividend, stock split, reclassification of Common Stock or other similar change in the Corporation's capital structure or by reason of any Corporate Transaction shall be issued, subject to (i) the same vesting requirements applicable to his or her unvested shares and (ii) such escrow arrangements as the Plan Administrator shall deem appropriate.

3. Should the Participant cease to remain in Service while holding one or more unvested shares of Common Stock under this Article Four, then those shares shall be immediately surrendered to the Corporation for cancellation, and the Participant shall have no further stockholder rights with respect to those shares. The Corporation shall repay to the Participant the cash consideration paid for the surrendered shares and shall cancel the principal balance of any outstanding purchase-money note of the Participant to the extent attributable to such surrendered shares. The surrendered shares may, at the Plan Administrator's discretion, be retained by the Corporation as treasury shares or may be retired to authorized but unissued share status.

4. The Plan Administrator may in its discretion elect to waive the surrender and cancellation of one or more unvested shares of Common Stock (or other assets attributable thereto) which should otherwise occur upon the non-completion of the vesting schedule applicable to such shares. Such waiver shall result in the immediate vesting of the Participant's interest in the shares of Common Stock as to which the waiver applies. Such waiver may be effected at any time, whether before or after the Participant's cessation of Service.

II. TRANSFER RESTRICTIONS/SHARE ESCROW

A. Certificates evidencing unvested shares issued pursuant to this Article Four may, in the Plan Administrator's discretion, be held in escrow by the Corporation until the Participant's interest in such shares vests or may be held directly to the Participant with restrictive legends indicating that the shares are unvested. To the extent an escrow arrangement is utilized, the unvested shares and any securities or other assets issued with respect to such shares (other than regular cash dividends) shall be delivered in escrow to the Corporation to be held until the Participant's interest in such shares (or other securities or assets) vests. Alternatively, if the unvested shares are issued directly to the Participant, the restrictive legend on the certificates for such shares shall read substantially as follows:

THE SHARES REPRESENTED BY THIS CERTIFICATE ARE UNVESTED AND ARE ACCORDINGLY SUBJECT TO (I) CERTAIN TRANSFER RESTRICTIONS AND TO (II) CANCELLATION OR OTHER REPURCHASE IN THE EVENT THE REGISTERED HOLDER (OR HIS/HER PREDECESSOR IN INTEREST) CEASES TO REMAIN IN THE CORPORATION'S SERVICE. SUCH TRANSFER RESTRICTIONS AND THE TERMS AND CONDITIONS OF SUCH CANCELLATION OR REPURCHASE ARE SET FORTH IN A STOCK ISSUANCE AGREEMENT BETWEEN THE CORPORATION AND THE REGISTERED HOLDER (OR HIS/HER PREDECESSOR IN INTEREST) DATED _____, A COPY OF WHICH IS ON FILE AT THE PRINCIPAL OFFICE OF THE CORPORATION.

B. The Participant shall have no right to transfer any unvested shares of Common Stock issued to him or her under this Article Four. For purposes of this restriction, the term (transfer) shall include (without limitation) any sale, pledge, assignment, encumbrance, gift, or other disposition of such shares, whether voluntary or involuntary, other than an Ownership Change Event. Upon any such attempted transfer, the unvested shares shall immediately be cancelled, and neither the Participant nor the proposed transferee shall have any rights with respect to those shares. However, the Participant shall have the right to make a gift of unvested shares acquired under the Plan to his or her spouse or issue, including adopted children, or to a trust established for such spouse or issue, provided the donee of such shares delivers to the Corporation a written agreement to be bound by all the provisions of the Plan and the Issuance Agreement applicable to the gifted shares.

ARTICLE FIVE

MISCELLANEOUS

I. CORPORATE TRANSACTIONS

A. The shares subject to each option outstanding under the Plan (other than a Director Option) at the time of a Corporate Transaction shall automatically vest in full so that each such option shall, immediately prior to the effective date of the Corporate Transaction, become fully exercisable for all of the shares of Common Stock at the time subject to that option and may be exercised for any or all of those shares as fully-vested shares of Common Stock. However, the shares subject to an outstanding option shall **not** vest on such an accelerated basis if and to the extent: (i) such option is assumed by the successor corporation (or parent thereof) in the Corporate Transaction and the Corporation's repurchase rights with respect to the unvested option shares are concurrently assigned to such successor corporation (or parent thereof) or (ii) such option is to be replaced with a cash incentive program of the successor corporation which preserves the spread existing on the unvested option shares at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to those unvested option shares or (iii) the acceleration of such option is subject to other limitations imposed by the Plan Administrator at the time of the option grant. The acceleration of vesting of Director Options shall be governed by Section I(E) of Article Three, and accordingly, this Section I(A) of Article Five shall not be applicable to Director Options.

B. All outstanding repurchase rights shall also terminate automatically, and the shares of Common Stock subject to those terminated rights shall immediately vest in full, in the event of any Corporate Transaction, except to the extent: (i) those repurchase rights are assigned to the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed by the Plan Administrator at the time the repurchase right is issued.

C. The Corporation shall use its best efforts to provide at least twenty (20) days prior written notice of the occurrence of any Corporate Transaction in which the options or repurchase rights under the Plan are not to be assumed by or assigned to the successor corporation and such options or repurchase rights vest or terminate on an accelerated basis.

D. Immediately following the consummation of the Corporate Transaction, all outstanding options shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof).

E. Each option which is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to the Optionee in consummation of such Corporate Transaction, had the option been exercised immediately prior to such Corporate Transaction. Appropriate adjustments shall also be made to (i) the number and class of securities available for issuance under the Plan following the consummation of such Corporate Transaction and (ii) the exercise price payable per share under each outstanding option, provided the aggregate exercise price payable for such securities shall remain the same.

F. The Plan Administrator shall have the discretion, exercisable either at the time the option or stock issuance is granted or at any time while the option remains outstanding or shares acquired pursuant to a stock issuance are unvested, to provide for the automatic acceleration (in whole or in part) of one or more outstanding options and the immediate termination of the Corporation's repurchase rights with respect to the shares subject to those options or any stock issuance upon the occurrence of a Corporate Transaction, whether or not those options or repurchase rights are to be assumed or assigned in the Corporate Transaction.

G. The Plan Administrator shall also have full power and authority, exercisable either at the time the option or stock issuance is granted or at any time while the option remains outstanding or shares acquired

pursuant to a stock issuance are unvested, to structure such option or stock issuance so that the shares subject to that option or stock issuance will automatically vest on an accelerated basis should the Optionee's or Participant's Service terminate by reason of an Involuntary Termination, as defined in the agreement evidencing the option or stock issuance, within a designated period (not to exceed eighteen (18) months) following the effective date of any Corporate Transaction in which the option or stock issuance are assumed and the repurchase rights applicable to the unvested option shares or stock issuance shares do not otherwise terminate. Any option so accelerated shall remain exercisable for the fully-vested option shares until the earlier of (i) the expiration of the option term or (ii) the expiration of the one (1)-year period measured from the effective date of the Involuntary Termination. In addition, the Plan Administrator may provide that one or more of the Corporation's outstanding repurchase rights with respect to shares held by the Optionee or Participant at the time of such Involuntary Termination shall immediately terminate on an accelerated basis, and the shares subject to those terminated rights shall accordingly vest at that time.

H. The portion of any Incentive Option accelerated in connection with a Corporate Transaction shall remain exercisable as an Incentive Option only to the extent the applicable One Hundred Thousand Dollar limitation is not exceeded. To the extent such dollar limitation is exceeded, the accelerated portion of such option shall be exercisable as a Non-Statutory Option under federal tax laws.

I. The grant of options or stock issuances under the Plan shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

II. EFFECTIVE DATE AND TERM OF THE PLAN

A. The Plan became effective when adopted by the Board on May 8, 1995.

B. The Plan shall terminate upon the earliest of: (i) the date on which all shares available for issuance under the Plan have been issued and all restrictions on such shares under the terms of the Plan and the agreements evidencing options or stock issuances granted under the Plan have lapsed, or (ii) its termination by the Board; provided, however, that, all Incentive Options shall be granted, if at all, on or before May 7, 2005.

III. AMENDMENT OF THE PLAN

The Board shall have complete and exclusive power and authority to amend or modify the Plan in any or all respects. However, subject to changes in applicable law, regulations or rules that would permit otherwise, without the approval of the Corporation's stockholders, there shall be (i) no increase in the maximum aggregate number of shares of Common Stock that may be issued under the Plan (except by operation of the provisions of Section IV(B) of Article One), (ii) no change in the class of persons eligible to receive Incentive Options, and (iii) no other amendment of the Plan that would require approval of the Corporation's stockholders under any applicable law, regulation or rule. No amendment or modification of the Plan shall affect any then outstanding option or unvested shares acquired pursuant to a stock issuance unless expressly provided by the Board. In any event, no amendment or modification of the Plan may adversely affect any then outstanding option or unvested shares acquired pursuant to a stock issuance without the consent of the Optionee or Participant, unless such amendment or modification is required to enable an option designated as an Incentive Option to qualify as an Incentive Option or is necessary to comply with any applicable law, regulation or rule.

IV. USE OF PROCEEDS

Any cash proceeds received by the Corporation from the sale of shares of Common Stock under the Plan shall be used for general corporate purposes.

Table of Contents

V. REGULATORY APPROVALS

The implementation of the Plan, the granting of any option hereunder and the issuance of any shares of Common Stock upon the exercise of any option shall be subject to the Corporation's procurement of all approvals and permits required by regulatory authorities having jurisdiction over the Plan, the options granted under it and the shares of Common Stock issued pursuant to it.

VI. NO EMPLOYMENT OR SERVICE RIGHTS

Nothing in the Plan shall confer upon the Optionee or Participant any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Corporation (or any Parent or Subsidiary corporation employing or retaining the Optionee or Participant) or of the Optionee or Participant, which rights are hereby expressly reserved by each, to terminate the Optionee's or Participant's Service at any time for any reason, with or without cause.

VII. FINANCIAL REPORTS

Each Optionee shall be given access to information concerning the Corporation equivalent to that information generally made available to the Corporation's common stockholders.

- F. *Corporate Transaction* shall mean an Ownership Change Event or a series of related Ownership Change Events (collectively, a *Transaction*) wherein the stockholders of the Corporation immediately before the Transaction do not retain immediately after the Transaction, in substantially the same proportions as their ownership of shares of the Corporation's voting stock immediately before the Transaction, direct or indirect beneficial ownership of more than fifty percent (50%) of the total combined voting power of the outstanding voting stock of the Corporation or the corporation or corporations to which the assets of the Corporation were transferred (the *Transferee Corporation(s)*), as the case may be. For purposes of the preceding sentence, indirect beneficial ownership shall include, without limitation, an interest resulting from ownership of the voting stock of one or more corporations which, as a result of the Transaction, own the Corporation or the Transferee Corporation(s), as the case may be, either directly or through one or more subsidiary corporations. L. *Fair Market Value* per share of Common Stock on any relevant date shall be determined in accordance with the following provisions:

(i) If the Common Stock is at the time traded on the Nasdaq National Market, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question, as such price is reported by the National Association of Securities Dealers on the Nasdaq National Market or any successor system. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(ii) If the Common Stock is at the time listed on any Stock Exchange, then the Fair Market Value shall be the closing selling price per share of Common Stock on the date in question on the Stock Exchange determined by the Plan Administrator to be the primary market for the Common Stock, as such price is officially quoted in the composite tape of transactions on such exchange. If there is no closing selling price for the Common Stock on the date in question, then the Fair Market Value shall be the closing selling price on the last preceding date for which such quotation exists.

(iii) If the Common Stock is at the time neither listed on any Stock Exchange nor traded on the Nasdaq National Market, then the Fair Market Value shall be determined by the Plan Administrator after taking into account such factors as the Plan Administrator shall deem appropriate.

M. *Incentive Option* shall mean an option which satisfies the requirements of Code Section 422.

The foregoing definition shall not be deemed to be inclusive of all the acts or omissions which the Corporation (or any Parent or Subsidiary corporation) may consider as grounds for the dismissal or discharge of any Optionee, Participant or other person in the Service of the Corporation (or any Parent or Subsidiary corporation).

Q. *1934 Act* shall mean the Securities Exchange Act of 1934, as amended.

R. *Non-Statutory Option* shall mean an option not intended to satisfy the requirements of Code Section 422.

S. *Ownership Change Event* shall be deemed to have occurred if any of the following occurs with respect to the Corporation: (i) the direct or indirect sale or exchange in a single or series of related transactions by the stockholders of the Corporation of more than fifty percent (50%) of the voting stock of the Corporation; (ii) a merger or consolidation in which the Corporation is a party; (iii) the sale, exchange, or transfer of all or substantially all of the assets of the Corporation; or (iv) a liquidation or dissolution of the Corporation.

Z. *Service* shall mean an Optionee's or Participant's employment or service with the Corporation or Parent or Subsidiary corporation, whether in the capacity of an Employee, a Director or a Consultant. Unless otherwise determined by the Board, an Optionee's or Participant's Service shall not be deemed to have terminated merely because of a change in the capacity in which the Optionee or Participant renders Service to the Corporation or Parent or Subsidiary corporation or a change in the Corporation or Parent or Subsidiary corporation for which the Optionee or Participant renders such Service, provided that there is no interruption or termination of the Optionee's or Participant's Service. Furthermore, an Optionee's or Participant's Service with the Corporation or Parent or Subsidiary corporation shall not be deemed to have terminated if the Optionee or Participant takes any military leave, sick leave, or other bona fide leave of absence approved by the Corporation; provided, however, that if any such leave exceeds ninety (90) days, on the one hundred eighty-first (181st) day following the commencement of such leave any Incentive Option held by the Optionee shall cease to be treated as an Incentive Option and instead shall be treated thereafter as a Non-Statutory Option unless the Optionee's right to return to Service with the Corporation or Parent or Subsidiary corporation is guaranteed by statute or contract. Notwithstanding the foregoing, unless otherwise designated by the Corporation or required by law, a leave of absence shall not be treated as Service for purposes of determining vesting under the Optionee's option agreement or Participant's stock issuance agreement. An Optionee's or Participant's Service shall be deemed to have terminated either upon an actual termination of Service or upon the corporation for which the Optionee or Participant performs Service ceasing to be a Parent or Subsidiary. AA. *Stock Exchange* shall mean either the American Stock Exchange or the New York Stock Exchange.

BB. *Subsidiary* shall mean any corporation (other than the Corporation) in an unbroken chain of corporations beginning with the Corporation, provided each corporation (other than the last corporation) in the unbroken chain owns, at the time of the determination, stock possessing fifty percent (50%) or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

CC. *Ten Percent Stockholder* shall mean the owner of stock (as determined under Code Section 424(d)) possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Corporation (or any Parent or Subsidiary corporation).
