PROXY STATEMENT

This proxy statement is furnished to you by the Board of Directors of Ingram Micro (the “Board”) and contains information related to the 2014 annual meeting of our shareholders to be held on Wednesday, June 4, 2014, beginning at 10:00 a.m., local time, at our Santa Ana campus, 1600 East Saint Andrew Place, Santa Ana, California 92705, and any postponements or adjournments thereof. The enclosed form of proxy is solicited by our Board. The date of this proxy statement is April 21, 2014. It is first being mailed to our shareholders on April 21, 2014.

References in this proxy statement to “we”, “us”, “our”, “the Company” and “Ingram Micro” refer to Ingram Micro Inc.

ABOUT THE MEETING

Purpose of the 2014 Annual Meeting

The purpose of the 2014 annual meeting is:

1. To elect the nine director nominees named in this proxy statement to our Board, each for a term of one year;
2. To approve, on an advisory basis, the compensation of our named executive officers, as described in the Compensation Discussion and Analysis, executive compensation tables and accompanying narrative disclosures in this proxy statement;
3. To ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year; and
4. To transact any other business that properly comes before the meeting.

Quorum

A quorum is the minimum number of shares required to hold and transact business at a meeting. The presence in person or by proxy of the holders of a majority of the outstanding shares of common stock will constitute a quorum for the transaction of business at the meeting. Votes cast by proxy or in person at the meeting will be counted by the persons appointed by the Company to act as election inspectors for the meeting. The election inspectors will treat shares represented by proxies that reflect abstentions as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Abstentions, however, do not constitute a vote “for” or “against” any matter and thus will be disregarded in the calculation of a plurality or of “votes cast”.

The election inspectors will treat shares referred to as “broker nonvotes” (i.e., shares held by a broker or nominee over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner) as shares that are present and entitled to vote for purposes of determining the presence of a quorum.

Who May Vote

Holders of record of our Class A common stock at the close of business on April 7, 2014 (“Record Date”) may vote at the annual meeting. As of the Record Date, the Company had 155,204,991 issued and outstanding shares of Class A common stock. Each share of Ingram Micro common stock that you own entitles you to one vote.

Table of Contents

How to Vote

You may vote in person at the meeting or by proxy. We recommend that you vote by proxy even if you plan to attend the meeting. You can always change your vote at the meeting. For assistance with directions to our Santa Ana campus where the meeting will be held, please call (714) 566-1000.

If you are a registered shareholder (meaning your name is included on the shareholder file maintained by our transfer agent, Computershare Trust Company, N.A.), you can vote by proxy in any of the following ways:

By Internet. If you have Internet access, you may submit your proxy from any location in the world by following the “Vote by Internet” instructions on the proxy card. The deadline for voting electronically is 3:00 a.m. (Pacific Time) on June 4, 2014.

By Telephone. You may submit your proxy by following the “Vote by telephone” instructions on the proxy card. The deadline for voting by telephone is 3:00 a.m. (Pacific Time) on June 4, 2014.

In Writing. You may do this by signing your proxy card and mailing it in the accompanying enclosed, pre-addressed envelope. If you provide specific voting instructions, your shares will be voted as you instruct. If you sign, but do not provide instructions, we will follow the Board’s recommendations and vote your shares as described in the section entitled “Proposals You Are Asked to Vote on and the Board’s Voting Recommendation” below. The deadline for voting by mail is 3:00 a.m. (Pacific Time) on June 4, 2014 (your proxy card must be received by that time).

If your shares are held in the name of a bank, broker or other nominee, you will receive instructions from such nominee that you must follow in order for your shares to be voted.

If you participate in our 401(k) Investment Savings Plan (“Ingram Micro 401(k) Plan”), you may vote an amount of shares of common stock equivalent to the interest in common stock credited to your account as of the Record Date. You may vote by instructing Fidelity Management Trust Company, the trustee of the plan, pursuant to the instruction card being mailed with this proxy statement to plan participants. The trustee will vote your shares in accordance with your duly executed instructions if they are received by May 30, 2014. If you do not provide the trustee with your voting instructions, the trustee will not vote on your behalf.

How Proxies Work

Our Board is asking for your proxy. Giving us your proxy means you authorize us to vote your shares at the meeting in the manner you direct. You may abstain from voting from any of the proposals. If you sign your proxy card but do not provide instructions, we will follow the Board’s recommendations and vote your shares as described in the section entitled “Proposals You Are Asked to Vote on and the Board’s Voting Recommendation” below.

Proposals You Are Asked to Vote on and the Board’s Voting Recommendation

If you properly fill in your proxy card and send it to us in time to vote, or vote by the Internet or telephone, one of the individuals named on your proxy card will vote your shares as your proxy and as you have directed. If you sign the proxy card but do not make specific choices, your proxy will follow the Board’s recommendations and vote your shares:

1. “FOR” election of the nine director nominees named in this proxy statement to our Board, each for a term of one year (see “Proposal No. 1 — Election of Directors”);
2. “FOR” approval, on an advisory basis, of the compensation of our named executive officers, as described in the Compensation Discussion and Analysis, executive compensation tables and accompanying narrative disclosures in this proxy statement (see “Proposal No. 2 — Advisory Vote on Executive Compensation”); and
3. “FOR” ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current year (see “Proposal No. 3 — Ratification of the Selection of PricewaterhouseCoopers LLP as Our Independent Registered Public Accounting Firm”).

If any other matter is properly presented at the meeting, your proxy will vote in accordance with the best judgment of the individual voting your shares as your proxy. At the time this proxy statement went to press, we knew of no other matters to be acted on at the meeting.

Table of Contents

Vote Necessary to Approve Proposals

In the election of directors under Proposal No. 1, you may vote “FOR”, “AGAINST” or “ABSTAIN” with respect to each of the nominees. If you elect to abstain in the election of directors, the abstention will not impact the election of directors. In tabulating the voting results for the election of directors, only “FOR” and “AGAINST” votes are counted. Each nominee shall be elected to the Board of Directors by the majority of the votes cast with respect to the director’s election (that is, the number of votes “FOR” a director’s election must exceed the number of “AGAINST” votes cast with respect to the director’s election). See “Board of Directors — Corporate Governance — Majority Voting Policy” in this proxy statement. Abstentions will not be taken into account in determining the outcome of the election.

With respect to Proposal No. 2, the “say on pay” advisory vote regarding the compensation of our named executive officers, as described in the Compensation Discussion and Analysis, executive compensation tables and accompanying narrative disclosures in this proxy statement, you may vote “FOR”, “AGAINST” or “ABSTAIN”. The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote on the proposal is required for approval of this proposal. Abstentions are treated as shares present or represented and entitled to vote, so abstaining has the same effect as a vote “AGAINST” the proposal.

Approval of the ratification of the selection of our independent registered public accounting firm under Proposal No. 3 requires the affirmative vote of the majority of the shares of common stock present or represented by proxy and entitled to vote on the proposal. Abstentions are treated as shares present or represented and entitled to vote, so abstaining has the same effect as a vote “AGAINST” the proposal.

Under current New York Stock Exchange (“NYSE”) rules, if your broker holds your shares in its name, your broker is not permitted to vote your shares on Proposals 1 or 2 if it does not receive voting instructions from you. Such broker nonvotes will not have an effect on the outcome of the votes.

Revoking Your Proxy

You may revoke your proxy by: (1) sending in another signed proxy card with a later date; (2) providing subsequent Internet or telephone voting instructions; (3) notifying our Secretary in writing before the meeting that you have revoked your proxy; or (4) voting in person at the meeting.

Proxy Solicitation Costs

The Company will bear the costs of soliciting proxies.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Recommendation of the Board of Directors

The Board of Directors recommends that you vote “FOR” the election of each of the nominees for election as directors as described below, which is designated as Proposal No. 1 on the enclosed proxy card.

On the recommendation of the Governance Committee, the Board has nominated the nine persons named below for election as directors this year, each to serve for a one-year term or until the director’s successor is elected and qualified. At the time of this proxy statement, the Board is in discussions with potential Board candidates with expertise in areas important to the Company’s strategic plans. If these discussions are successful, the Board may appoint one or more of such candidates to the Board shortly after the stockholder meeting to which this proxy statement relates.

Director Nominee Experience and Qualifications

The Board annually reviews the appropriate skills and characteristics required of directors in the context of the current composition of the Board, our operating requirements and the long-term interests of our shareholders. The Board believes that its members should possess a variety of skills, professional experience, and backgrounds in order to effectively oversee our business. All of our nominees are seasoned leaders who bring to the Board a vast array of public company, financial services, private company, and other business experience, the majority as senior executives in industries different from that of Ingram Micro or in industries synergistic with Ingram Micro. Each has been chosen

to stand for election in part because of his or her ability and willingness to ask difficult questions, understand Ingram Micro's challenges and evaluate the strategies proposed by management,

BOARD OF DIRECTORS

The Board of Directors held 9 meetings during fiscal year 2013. All current directors attended more than 75% of the total number of meetings of the Board and the committees on which he or she served in 2013. The Board and its committees regularly hold executive sessions of non-employee directors without management present. As a matter of policy, directors are encouraged and expected to attend the annual meeting of shareholders. All current directors attended Ingram Micro's 2013 annual meeting of shareholders on June 5, 2013 (other than Mr. Oosterman, who joined the Board after the 2013 annual meeting).

Compensation of Board of Directors

Ingram Micro pays directors who are not employed by the Company ("non-employee directors") an annual award which may consist of a combination of cash, stock options, restricted stock and/or restricted stock units. No meeting fees are paid to directors for attending meetings of the Board and committees on which they serve. Any director who is an employee of Ingram Micro does not receive separate compensation for service on the Board.

2013 Annual Award. The mix of cash, stock options, restricted stock and/or restricted stock units for the annual award must be selected by each non-employee director before December 31 of each year prior to the start of the calendar year in which the annual award will be made or within 30 days of initial appointment or election to the Board, as the case may be. If a Board member does not file an election form with respect to a calendar year by the specified date, the Board member will be deemed to have elected to receive the compensation in the manner elected by the Board member in his or her last valid election, or if there had been no prior election, will be deemed to have elected to receive the eligible compensation in the form of nonqualified stock options. The award is prorated for any partial year of service. In addition, the mix of cash, stock options, restricted stock and/or restricted stock units for the annual award is subject to the following assumptions and restrictions:

- 2013 Annual Award Maximum. The aggregate amount of the annual award (including any annual cash retainer and the value of any annual equity-based compensation) may not exceed the following amounts:

\$430,000 for the non-executive Chairman of the Board;

\$240,000 for the Audit Committee chair;

\$215,000 for other Audit Committee members;

\$235,000 for the Human Resources Committee chair, \$230,000 each for the Governance Committee chair and the Information Technology Committee Chair, and \$220,000 for the Executive Committee chair, subject to an additional \$5,000 if any of these chairs is also on the Audit Committee; and

\$210,000 for all other directors.

- 2013 Cash. The amount of the cash portion of any annual award that may be selected by directors is subject to the following restrictions and is paid in quarterly installments:

The maximum amount of the cash retainer that may be selected annually is as follows:

\$170,000 for the non-executive Chairman of the Board;

\$110,000 for the Audit Committee chair;

\$85,000 for other Audit Committee members;

\$105,000 for the Human Resources Committee chair, \$100,000 each for the Governance Committee chair and the Information Technology Committee chair, and \$90,000 for the Executive Committee chair, subject to an additional \$5,000 if any of these chairs is also on the Audit Committee; and

\$80,000 for all other directors.

The only minimum cash retainer is for Audit Committee members and other committee chairs who must select the following minimum amount of the cash retainer annually (subject to adjustment for partial years of service):

\$30,000 for the Audit Committee chair;

\$5,000 for other Audit Committee members; and

Table of Contents

\$25,000 for the Human Resources Committee chair, \$20,000 each for the Governance Committee chair and the Information Technology Committee chair, and \$10,000 for the Executive Committee chair, subject to an additional \$5,000 if any of these chairs is also on the Audit Committee.

- Equity-based Compensation. Any non-cash portion of the annual award is in the form of equity-based compensation, which may consist of stock options, restricted stock, restricted stock units or a combination thereof as selected by the director.

- 2013 Option Awards. Options are granted to directors on the first trading day of January of each calendar year. For 2013 awards, the grant date was January 2, 2013 and the number of options granted was based on the dollar value of stock options selected, divided by the Black-Scholes value (using the closing price on the 15th of the month prior to grant date as the “stock value” to determine the appropriate Black-Scholes value), rounded up to the next whole share. The value per option was determined in accordance with Accounting Standards Codification Topic 718, Compensation — Stock Compensation (“ASC 718”). The options each have an exercise price equal to the closing price of our common stock on the NYSE on the date of grant, vested monthly beginning on January 31, 2013 and continuing through December 31, 2013 and have a maximum term of ten years less one day.

- 2013 Restricted Stock/Restricted Stock Units. Restricted stock and/or restricted stock units, as applicable, are granted to directors on the first trading day of January of each calendar year. The number of shares granted is equal to the dollar value of the amount of restricted stock or restricted stock units selected divided by the closing price of our common stock on the NYSE on the date of grant rounded up to the next whole share. The restricted shares and restricted stock units granted in 2013 vested on December 31, 2013. Settlement of restricted stock units may be deferred in accordance with Section 409A and Department of Treasury regulations and other interpretive guidance issue thereunder.

2013 Compensation of Non-Employee Directors. The following table lists the 2013 non-employee director compensation as described above.

2014 Compensation of Non-Employee Directors. After consultation with F.W. Cook who provided an independent review and analysis of the Board compensation practices, the Board approved an increase of the cash compensation portion for non-employee Board members of \$20,000 per year, effective April 1, 2014.

December 28, 2013, which was filed with the SEC on February 18, 2014, for a discussion of the assumptions used and the estimated forfeiture rate which is not required to be taken into account for these ASC 718 values. Unless noted otherwise, restricted stock or restricted stock units disclosed under “Stock Awards” were granted on January 2, 2013 and restrictions lapsed on December 31, 2013. The closing price of Ingram Micro stock on January 2, 2013 was \$17.45. Stock options disclosed under “Option Awards” were granted on January 2, 2013 with an exercise price of \$17.45 per share, vest at a rate of one-twelfth per month over a twelve-month period commencing January 31, 2013 and expire ten years less one day from grant date. The \$5.354 per share fair value of the January 2, 2013 stock option award was determined in accordance with ASC 718 using a Black-Scholes model and the following assumptions: stock price volatility of 34.00%; expected option life of 5 years; dividend yield of 0%; and risk free interest rate of 0.76%.

Mr. Atkins was eligible to receive annual Board compensation in the amount of \$215,000 (reflecting his service as (2) a member of the Audit Committee), of which he elected to receive \$85,000 in cash and \$130,000 in restricted stock units.

Ms. Heisz was eligible to receive annual Board compensation in the amount of \$240,000 (reflecting her service as (3) Chair of the Audit Committee), of which she elected to receive \$110,000 in cash and \$130,000 in restricted stock units. Ms. Heisz deferred receipt of her restricted stock units until her retirement from the Board.

Mr. J. Ingram was eligible to receive annual Board compensation in the amount of \$210,000, of which he elected (4) to receive \$80,000 in cash and \$130,000 in restricted stock units.

Mr. O. Ingram was eligible to receive annual Board compensation in the amount of \$210,000, of which he elected (5) to receive \$80,000 in cash and \$130,000 in stock options.

Dr. Laurance was eligible to receive annual Board compensation in the amount of \$430,000 (reflecting his service (6) as Chairman of the Board), of which he elected to receive all \$430,000 in restricted stock units. Dr. Laurance deferred receipt of his restricted stock units until his retirement from the Board.

Ms. Levinson was eligible to receive annual Board compensation in the amount of \$235,000 (reflecting her service (7) as Chair of the Human Resources Committee), of which she elected to receive \$105,000 in cash and \$130,000 in restricted stock units.

Mr. McGregor was eligible to receive annual Board compensation in the amount of \$235,000 (reflecting his service (8) as a member of the Audit Committee and as Chair of the Governance Committee), of which he elected to receive \$105,000 in cash and \$130,000 in restricted stock units.

Mr. Oosterman joined the Board on September 18, 2013 and was eligible to receive Board compensation in the amount of \$70,000, of which he elected to receive all \$70,000 in restricted stock units. Mr. Oosterman deferred (9) receipt of his restricted stock units until his retirement from the Board. The restricted stock units disclosed under “Stock Awards” were granted on October 1, 2013 and restrictions lapsed on December 31, 2013. The closing price of Ingram Micro stock on October 1, 2013 was \$23.64.

Mr. Read resigned from the Board on September 17, 2013 and was eligible to receive annual board compensation in the amount of \$161,250, of which he elected to receive \$63,750 in cash and \$97,500 in restricted stock. This (10) represents nine-twelfths of the board compensation he would have been eligible to receive had he served on the Board for the full 2013 year. The remaining shares were canceled when he resigned his position from the Board. The compensation he received as an executive director is set forth in the Summary Compensation Table.

Mr. Smith was eligible to receive annual Board compensation in the amount of \$215,000 (reflecting his service as (11) a member of the Audit Committee), of which he elected to receive \$85,000 in cash and \$130,000 in restricted stock.

Mr. Wyatt was eligible to receive annual Board compensation in the amount of \$225,000 (including \$220,000 due (12) to his service as Chair of the Executive Committee for half the year and as Chair of the Information Technology Committee for half the year and an additional \$5,000 due to his service as a member of the Audit Committee), of which he elected to receive \$95,000 in cash and \$130,000 in stock options.

The table below shows the aggregate numbers of equity awards outstanding for each non-employee director as of (13) December 28, 2013, the last day of our 2013 fiscal year. All unvested equity awards shown in the table below vested on December 31, 2013.

Stock Ownership Requirement. Each director is required to achieve and maintain ownership of shares of our common stock with an aggregate value (market price multiplied by the number of shares) equal to three times the maximum amount of cash retainer that may be selected by each member of the Board in their capacity as Board members under our director compensation policy (not taking into account additional cash compensation for other special roles on the Board such as being the Chairman of the Board, a Committee chair or being a member of a specific Board Committee) beginning five years from the date of his or her election to the Board. All current directors, with the exception of Mr. Oosterman, who joined the Board in September 2013, meet this stock ownership requirement as of the Record Date.

Other Information. Each director is reimbursed for expenses incurred in attending meetings of the Board and Board committees. Each director is able to elect to defer his or her cash compensation through a nonqualified deferral plan. Directors who defer cash compensation may elect to have earnings, or losses, credited to their deferrals as if their deferrals were invested in the various investment options available under the Company's Supplemental Investment Savings Plan, a nonqualified deferred compensation plan for directors. Directors are not credited with "above-market" or "preferential" interest.

Committees of the Board of Directors

Our Board has standing Audit, Executive, Governance, Human Resources, and Information Technology Committees. These Board committees frequently meet in executive session with no members of management present. Copies of the charters for each of these committees are available by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com. The following table lists members of the committees as of the date of this proxy statement.

Audit Committee — 10 meetings in 2013. The Audit Committee, consisting of independent directors, assists our Board's oversight of (1) the integrity of our financial reporting processes, financial statements and systems of internal controls regarding finance, accounting, legal and ethical compliance, (2) our compliance with legal and regulatory requirements, (3) the operation of our company's hotline reporting and response system, (4) the independence and qualification of our independent registered public accounting firm and (5) the performance of our independent auditors and internal audit department. In addition, the Audit Committee is charged with providing an avenue of open communication among our independent registered public accounting firm, management, our internal audit department, and our Board. The Audit Committee also appoints our independent registered public accounting firm, discusses and reviews in advance the scope of and the fees to be paid in connection with the annual audit and reviews the results of the audit with our independent registered public accounting firm. The Audit Committee discusses the Company's earnings press releases, as well as financial information and outlook provided to analysts and rating agencies. A detailed list of the Audit Committee's functions is included in its charter, which can be accessed by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com.

Executive Committee — no meetings in 2013. The purpose of the Executive Committee is to act when necessary on behalf of the full Board between regularly scheduled Board meetings, usually when timing is critical. The Executive Committee has and may exercise all of the powers and authority of the Board, subject to such limitations as the Board and/or applicable law may from time to time impose. A detailed list of the Executive Committee's functions is included in its charter, which can be accessed by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com.

Governance Committee — 5 meetings in 2013. The Governance Committee, consisting of independent directors, is responsible for developing and recommending to the Board a set of corporate governance principles applicable to the Company, and thereafter recommending such changes as it deems appropriate to maintain effective corporate governance. In addition, the Governance Committee is responsible for identifying candidates for election to the Board of Directors, developing and reviewing background information for candidates, making recommendations to the Board regarding such candidates, reviewing and making recommendations to the Board with respect to candidates for director proposed by shareholders, and recommending the members of Board committees, as well as Board committee chair positions for election by the Board. The Governance Committee also reviews and recommends for consideration and approval by the Board the form and amounts of compensation for non-employee directors, including equity-based awards, and oversees the annual self-evaluations of the Board and its committees, as well as director performance and board dynamics. A detailed list of the Committee's functions is included in its charter, which can be accessed by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com.

Human Resources Committee — 6 meetings in 2013. The Human Resources Committee, consisting of independent directors, assists the Board in overseeing and establishing the compensation of all executive officers and administering all stock-related and long-term executive incentive plans applicable to management. The Human Resources Committee reviews and reports to the Board on our key strategic and operational human resource issues, ensuring that investments in human assets provide maximum return to all partners — shareholders, associates, customers, and vendors. The Committee's oversight areas include executive compensation strategy, succession planning processes and key leader succession planning, and work environment assessment and improvement. A detailed list of the Human Resources Committee's functions is included in its charter and can be accessed by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com.

Outside Advisors to the Human Resources Committee. The executive compensation advisor engaged by the Human Resources Committee continues to be Frederic W. Cook & Co., Inc. ("Cook"), an independent executive compensation consulting firm which reports solely to the Human Resources Committee. No member of the Human Resources Committee or of management has any affiliation with Cook. The Human Resources Committee periodically seeks input from Cook on a range of external market factors, including evolving executive compensation trends and general observations on the Company's executive compensation programs. Cook has also advised the Governance Committee of the Board on Board compensation matters for non-management Board members. Cook does not provide any other services to the Company or management. The Human Resources Committee has determined that there are no conflicts

of interest with Cook's work for the Committee.

Management Input to the Human Resources Committee. The Human Resources Committee frequently requests management to assist in accomplishing its work, including requests for specific analyses to assist with decision making. The Ingram Micro Human Resources, Finance, and Legal departments work with the Human Resources Committee Chair to help set meeting agendas and to coordinate the distribution of materials to the Committee in advance of its meetings. Generally, our Chief Executive Officer, our President and Chief Operating Officer, our Chief Financial Officer, Executive Vice President, Secretary and General Counsel, and Executive Vice President of Human Resources attend Committee meetings. Management does not make any recommendations to the Human Resources Committee on compensation of the CEO. In addition, no members of management are present during the Human Resources Committee's deliberations on CEO compensation. The Human Resources Committee frequently meets in executive session with no members of management present.

Table of Contents

Human Resources Committee Meetings. The Human Resources Committee's process and decision-making regarding 2013 executive compensation are further described under "Compensation Discussion and Analysis" below.

Information Technology Committee — 3 meetings in 2013. The Information Technology Committee consists of independent directors. The purpose of the Information Technology Committee is to review, appraise, and provide oversight to ensure that the Company's information technology-related systems support effectively the business objectives, strategies, and processes of the Company. A detailed list of the Information Technology Committee's functions is included in its charter and can be assessed by using the "Investor Relations" and then "Governance" links on the Company's website at www.ingrammicro.com.

The Board may form other committees from time to time in addition to the Audit, Executive, Governance, Human Resources and Information Technology Committees described above.

Compensation Committee Interlocks and Insider Participation

No member of the Human Resources Committee had any "interlock" relationship to report during our fiscal year ended December 28, 2013.

Corporate Governance

Code of Conduct. Our code of conduct applies to all members of the Board of Directors, all executives of the Company and all other Ingram Micro associates and codifies our commitment to the highest standards of corporate governance. If we make any amendment to the code of conduct or grant any waiver, including any implicit waiver, from a provision of the code of conduct to our Chief Executive Officer, Chief Financial Officer or Controller, we will disclose the nature of the amendment or waiver at www.ingrammicro.com or on a current report on Form 8-K.

Corporate Governance Guidelines. Effective corporate governance that ensures management follows the highest ethical standards is not a new concept to the Company. It is an important principle that is embraced at all levels of the Company, beginning with how our Board operates and in our Corporate Governance Guidelines (the "Guidelines"). Members of our Board are kept informed about our business through discussions with our Chief Executive Officer, President and Chief Operating Officer, and Chief Financial Officer, and other key members of management, by reviewing materials provided to them, and by participating in meetings of the Board and its committees. Our Board members provide feedback to management on a regular basis and routinely meet in executive session, without any members of management present.

The Guidelines address important corporate governance policies and procedures, including those relating to (1) composition of the Board and membership criteria; (2) director qualifications (such as independence, simultaneous service on other Boards and conflicts of interests); (3) Board member responsibilities (including attendance at annual shareholder meetings); (4) establishment of the Board agenda; (5) establishment of a lead director position; (6) regularly scheduled meetings of non-employee Board members; (7) Board size; (8) Board committees; (9) Board member access to management and independent advisors; (10) director compensation; (11) director orientation and continuing education; (12) management evaluation and management succession; and (13) annual performance evaluation of the effectiveness of the Board and its committees.

Our Board expects to consider further amendments to the Guidelines from time to time as rules and standards are revised and/or finalized by various regulatory agencies, including the SEC and the NYSE, and to address any changes in our operations, organization or environment.

Majority Voting Policy. In March 2011, our Board amended the Company's Bylaws to change the voting standard for the election of directors in uncontested elections from a plurality to a majority voting standard, subject to the rights of any series or class of stock to elect directors under specified circumstances, as set forth in the Company's Certificate of Incorporation. Under our majority voting policy, in an uncontested election, each nominee shall be elected to the Board of Directors by the majority of the votes cast with respect to the director's election (that is, the number of votes "for" a director's election must exceed the number of "against" votes cast with respect to that director's election). Directors will continue to be elected by plurality vote in contested elections (that is, when the number of nominees for election exceeds the number of directors to be elected).

If a nominee who is serving as a director is not elected at the annual meeting, Delaware law provides that the director would continue to serve on the Board as a “holdover director”. However, under our Bylaws, if the director fails to be elected by the majority of the votes cast in an uncontested election, the director shall immediately tender his or her resignation to the Board of Directors. In that situation, the Governance Committee will act on an expedited basis to determine whether to accept the director’s resignation, and submit its recommendation to the Board. The Board will act on the Governance Committee’s recommendation and publicly disclose its decision within 90 days following certification of the shareholder vote. The Governance Committee in making its recommendation, and the Board in making its decision, may each consider any factors or other information that it considers appropriate and relevant. The Board expects that any director whose resignation becomes effective pursuant to this

Table of Contents

policy will excuse himself or herself from participating in the consideration of his or her resignation by either the Governance Committee or the Board of Directors.

Board Leadership Structure. The positions of Chairman of the Board and Chief Executive Officer of the Company have been separated since June 2005. We believe this leadership structure is appropriate at this time because it allows the Company to fully benefit from the leadership ability, industry experience and history with the Company that each of these individuals possess. The Guidelines further provide that non-employee directors shall choose a Lead Director when the Chairman of the Board is not independent of management and that the Chairman of the Board shall perform the duties of the Lead Director when the Chairman is independent of management. As non-executive Chairman of the Board, Dr. Laurance is our Lead Director and as such, has presided at executive sessions of the Company's non-employee directors since his election as Chairman on June 6, 2007.

Board's Role in Risk Oversight. Management, which is responsible for day-to-day risk management, continually monitors the material enterprise risks facing the Company, including strategic risks, operational risks, financial risks and legal and compliance risks. Management has, since 2007, conducted an annual risk assessment of our business through an Enterprise Risk Management ("ERM") process to assist the Board in conducting its oversight of the Company's risks. The ERM process is global in nature and has been developed to identify and assess the Company's risks, including inherent risks of our business, as well as to identify steps to mitigate and manage risks.

The Board of Directors is responsible for exercising oversight over management's identification and management of, and planning for, those risks. The Board has delegated to certain committees oversight responsibility for those risks that are directly related to their area of focus (see descriptions of our Audit Committee's, Human Resources Committee's, Governance Committee's and Information Technology Committee's areas of responsibilities under "Audit Committee", "Human Resources Committee", "Governance Committee", and "Information Technology Committee" above; see also "Information on Compensation Risk Assessment" below). The Board and its committees exercise their risk oversight function by carefully evaluating the reports they receive from management and by making inquiries of management with respect to areas of particular interest to the Board. Board oversight of risk is enhanced by our Chairman of the Board's attendance at virtually all committee meetings and by the provision of committee reports to the full Board following each regular quarterly committee meeting. In addition, the full Board receives periodic updates and in-depth information specifically related to the Company's enterprise risk management.

Information on Compensation Risk Assessment. The compensation risk assessment process and conclusions described below are the basis for the Human Resources Committee's conclusion that risks arising from the Company compensation policies and programs are not reasonably likely to have a material adverse effect on the Company.

In early 2014, at the request of the Human Resources Committee, management conducted a review of the long-term and short-term incentive, and commission- and productivity-based variable compensation programs for Company employees for each of our operating regions (North America, Europe, Latin America, Asia-Pacific (which includes Middle East and Africa) and Mobility), as well as Corporate staff members. These compensation programs were reviewed to identify any aspects of such programs' design or operation which might pose a potential material risk to the Company and any factors which would balance, control or otherwise mitigate such potential risks.

Our analysis included a review of compensation program details, participant information, plan administrative oversight and design features, with particular consideration given to how certain compensation design elements might build risk into a program. We assessed our potential compensation risks relating to pay mix, performance metrics, performance goals and payout curves, payment timing and adjustments, equity incentives, stock ownership requirements and trading policies, performance appraisal, and leadership and culture, and did not identify any areas of material risk. Management's risk assessment report was reviewed and discussed, and its findings approved by the Human Resources Committee at its meeting of March 11, 2014, at which the Human Resources Committee also had input on the report from its independent compensation consultant.

In making this finding, our analysis noted that the Company's approach to compensation utilizes a mix of cash and equity and annual and long-term incentives, as well as multiple performance metrics for its various plans, in an attempt to balance out incentives or program features which individually might create an inclination to take unnecessary risks. For example, for our executive officers, overall compensation is weighted towards long-term incentive compensation, which discourages a focus on adverse short-term risk taking and encourages prudent

investment for sustained growth. Long-term incentive programs are based on Company-wide financial results which discourage those participants who have only regional or business unit responsibilities from pursuing localized rewards without regard for broader corporate risks. Payout caps on short-term and long-term incentive award programs for our executive officers and corporate executive leadership team also mitigate imprudent risk-taking. The fact that long-term incentives are primarily paid in shares of Company stock and our typical practice of using rolling three-year performance measurement periods for these plans links management rewards with shareholder interests and also discourages imprudent risk taking. We also ensure that financial and performance metrics which drive incentive arrangements are aligned with the Company's business plans and/or strategic objectives. Multiple levels of internal controls and approval processes serve to

Table of Contents

prevent manipulation of compensation outcomes. Finally, our stock ownership and holding guidelines for officers and board members, “clawback” policies for all or portions of annual, long-term incentive and severance payments to officers, negative discretion by the Committee over incentive program payouts for the executive officers, and negative discretion by management over incentive program payouts below the executive officer level all serve to further mitigate compensation risks for the Company.

Independence Determination for Directors

The Board of Directors adopted director independence standards as part of the Guidelines. The Guidelines include the independence requirements of the NYSE listing standards. Pursuant to the Guidelines, the Board undertook its annual review of director independence in March 2014.

In making these director independence determinations, the Board considered transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates, including Mr. Oosterman’s position as an executive officer of Bell Canada, which was a customer in arms’-length transactions with Ingram Micro. The aggregate amounts involved in these commercial transactions did not exceed the greater of \$1 million or 2% of the consolidated gross revenues of either the Company or Bell Canada.

The purpose of this review was to determine whether any such relationships or transactions were inconsistent with a determination that the director is independent. As a result of this review, the Board determined that all of the directors nominated for election at the annual meeting are independent of the Company and its management under the standards set forth in the Guidelines, as well as under Audit Committee independence requirements of the SEC and the NYSE, with the exception of Alain Monié. Mr. Monié is considered an inside director because of his current employment as a senior executive of the Company. All other directors serving on the Board during 2013 were also independent under these standards and requirements. All of the members of the Human Resources, Audit, Governance and Information Technology Committees are independent.

Audit Committee Financial Qualifications

Our Board has determined that each member of the Audit Committee: (1) meets the independence criteria prescribed by applicable law and rules of the SEC for Audit Committee membership and (2) is an “independent director” within the meaning of NYSE listing standards and the standards established by the Company. Each member of the Audit Committee also meets the NYSE’s financial literacy requirements. No member of our Audit Committee serves on more than three audit committees of public corporations.

In addition, the Board of Directors has designated each of Howard Atkins, Leslie Stone Heisz, and Scott McGregor as an “audit committee financial expert” as such term is defined in Item 407(d)(5)(ii) of Regulation S-K promulgated by the SEC.

The Board has also determined that these three directors meet the NYSE’s accounting or related financial management expertise requirements through experience gained:

For Mr. Atkins, as a seasoned finance and accounting executive, including in his former role as Senior Executive Vice President and Chief Financial Officer of Wells Fargo & Company in San Francisco, California, in his prior roles as Executive Vice President and Chief Financial Officer of New York Life Insurance Company in New York and as Executive Vice President and Chief Financial Officer of New Jersey-based Midlantic Corporation;

For Ms. Heisz, as an experienced investment banking and finance executive, including in her role as former managing director of the Los Angeles office of Lazard Freres & Co., where she provided strategic financial advisory services for clients in a variety of industries, as managing director of the Los Angeles office of Dresdner Kleinwort Wasserstein (and its predecessor Wasserstein Perella & Co.) for six years, specializing in mergers and acquisitions as well as leveraged finance, as a vice president at Salomon Brothers, and as a senior consultant at Price Waterhouse; and

For Mr. McGregor, as a seasoned executive with active supervisory experience of financial and accounting functions, including as President and Chief Executive Officer of Broadcom Corporation and President and Chief Executive Officer of Philips Semiconductor.

Director Nominations

General Criteria and Process. In identifying and evaluating director candidates, the Governance Committee does not set specific criteria for directors. As expressed in the Governance Committee charter, in nominating candidates, the Governance Committee shall comply with the requirements of the Company's Bylaws and take into consideration such other factors as it deems appropriate. These factors may include judgment, skill, diversity, experience with businesses and other organizations of comparable size, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. The Governance Committee may use and pay for assistance from consultants, including obtaining background checks, and advice from outside counsel, to assist its review and evaluation.

In evaluating candidates, the Governance Committee considers a wide variety of qualifications, attributes and other factors and recognizes that a diversity of viewpoints and practical experiences can enhance the effectiveness of the Board. Accordingly, as part of its evaluation of each candidate, the Governance Committee takes into account how that candidate's background, experience, qualifications, attributes and skills may complement, supplement or duplicate those of other prospective candidates.

Shareholder Nominations. Shareholders who wish to recommend nominees for consideration by the Governance Committee may submit their nominations in writing to our Corporate Secretary at the address set forth below under "Annual Report". The Governance Committee may consider such shareholder recommendations when it evaluates and recommends nominees to the Board for submission to the shareholders at each annual meeting. Shareholders proposing nominees for director must comply with the eligibility, advance notice and other provisions of the Company's shareholder nominations policy. Under the policy, the shareholder must provide timely notice of the nomination to us to be considered by the Governance Committee in connection with the Company's next annual meeting of shareholders. To be timely, the Corporate Secretary must receive the shareholder's nomination and the information required in the policy on or before December 30th of the year immediately preceding such annual meeting. A copy of the policy is available on the Investor Relations section of the Company's website, www.ingrammicro.com.

Contacting the Board and Further Information on Corporate Governance

Any interested person who desires to communicate with the Company's non-employee directors may so do as follows:

• confidentially or anonymously through the Company's Hotline, 1 (877) INGRAM2, or 1 (877) 464-7262; or by writing to the Board of Directors. The Corporate Secretary will promptly forward such interested person communications so received to the Company's Board of Directors, to the individual director or directors to whom the communication was addressed or to other appropriate departments or outside advisors, depending on the nature of the concern. Interested persons who wish to communicate directly with the Board of Directors may do so by writing to our Corporate Secretary, Worldwide Legal Department, Ingram Micro Inc., 1600 East Saint Andrew Place, Santa Ana, California 92705.

Our code of conduct, the Guidelines, our shareholder nominations policy and our committee charters are accessible by following the links to "Governance" on the Company's website at www.ingrammicro.com. Furthermore, upon request to our Corporate Secretary at the address set forth immediately above under "Annual Report", we will provide copies of our code of conduct, the Guidelines, our shareholder nominations policy and our committee charters without charge.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based upon a review of filings with the SEC and/or written representations that no other reports were required, we believe that all of our directors and executive officers complied during fiscal 2013 with the reporting requirements of Section 16(a) of the Securities Exchange Act of 1934.

TRANSACTIONS WITH RELATED PERSONS

The Board adopted the Company's Related Person Transaction Policy in November 2007, which policy is in writing, to assist the Board in reviewing and taking appropriate action concerning related person transactions and assist the Company in preparing the disclosure that the Securities and Exchange Commission rules require to be included in the Company's applicable filings as required by the Securities Act of 1933 and the Securities Exchange Act of 1934 and their related rules. This policy is intended to supplement, and not to supersede, the Company's other policies that may be applicable to or involve transactions with related persons, such as our policies for determining director independence and the Company's Code of Conduct and Conflicts of Interests policies. The policy covers any financial transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships (including indebtedness and guarantees of indebtedness and transactions involving employment and similar relationships) involving the Company and any director, nominee or executive officer, or any immediate family member thereof, or any 5% or greater beneficial owner of the Company's voting securities, in each case, having a direct or indirect material interest in such transaction. Any such transaction must be approved or ratified by the Board or a designated committee thereof consisting solely of independent directors, which unless the Board designates otherwise, shall be the Governance Committee of the Board or the Chair of the Governance Committee in between regular meetings of the Committee.

We have entered into an indemnification agreement with each of our directors and executive officers. The indemnification agreements and our certificate of incorporation require us to indemnify our directors and executive officers to the fullest extent permitted by Delaware law.

REPORT OF THE HUMAN RESOURCES COMMITTEE

The following Report of the Human Resources Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Ingram Micro filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate this Report by reference therein.

The Human Resources Committee of the Board of Directors has furnished the following report.

The Human Resources Committee has reviewed and discussed the “Compensation Discussion and Analysis” section of the proxy statement with management of Ingram Micro, and based on this review and discussion, recommended to the Board of Directors of Ingram Micro that such “Compensation Discussion and Analysis” be included in Ingram Micro’s proxy statement for the 2014 annual meeting of shareholders for filing with the SEC.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis reviews the compensation provided to our Chief Executive Officer, our Chief Financial Officer and our three other most highly compensated officers (collectively, the Named Executive Officers, or “NEOs”) as determined under the rules of the SEC and set forth in the Summary Compensation Table. The NEOs for the fiscal year ended December 28, 2013 (or “fiscal 2013”) are as follows:

2013 NEOs	Position as of December 28, 2013
“Corporate NEOs”:	
Alain Monié (1)	Chief Executive Officer (“CEO”)
William D. Humes (1)	Chief Financial Officer (“CFO”)
Paul Read (1)	President and Chief Operating Officer (“COO”)
“Regional NEOs”:	
Shailendra Gupta (2)	Senior Executive Vice President and President, Ingram Micro Mobility
Alain Maquet (3)	Senior Executive Vice President, Corporate

Mr. Monie was President and Chief Executive Officer and Mr. Humes was Chief Operating and Financial Officer (1) (“COFO”) prior to Paul Read resigning as a Board member on September 17, 2013 and joining Ingram Micro as President and Chief Operating Officer on September 30, 2013.

(2) Mr. Gupta was Senior Executive Vice President and President Ingram Micro Asia Pacific prior to his appointment to Senior Executive Vice President and President, Ingram Micro Mobility, effective August 1, 2013.

(3) Mr. Maquet was Senior Executive Vice President and President Ingram Micro EMEA prior to his appointment to Senior Executive Vice President, Corporate with his first assignment as President Ingram Micro Latin America, effective August 1, 2013.

Executive Summary

This section provides an explanation and analysis of the decision-making behind the compensation provided to the NEOs for fiscal 2013.

Decisions Regarding Material Elements of Compensation. The following summarizes the decisions of the Human Resources Committee (the “Committee”) regarding the material elements of 2013 compensation, all as further described in this Compensation Discussion and Analysis.

Base Pay Increases. The Committee met in March 2013 to review the performance of each NEO and determine any base pay changes required to align their target cash compensation with our competitive peer group. As a result, the Committee increased our CEO’s base salary by 5.9% and increased our COFO’s base salary by 5%. Increases were effective June 2013. For our remaining NEOs, Mr. Gupta’s base salary was maintained at 2012 levels, while Mr. Maquet’s base salary increased by 2.35% due to mandatory Belgian indexation required under Belgian law, effective January 1, 2013.

Setting Challenging Targets Under Our Annual Executive Incentive Award Program (“EIAP”). The primary focus of the 2013 EIAP was to successfully integrate the BrightPoint business into Ingram Micro, eliminate redundancies and leverage both companies’ strengths for long term growth. To emphasize this focus, all executives had a component of

their EIAP tied to each of the businesses.

19

Table of Contents

Amounts earned by the NEOs under the 2013 EIAP varied from 87.7% to 114.7% of target. The range of 2013 EIAP achievements was a result of mixed performance across the Company with some regions missing and others exceeding the financial metrics set for fiscal 2013. In summary, the Company's 2013 worldwide sales increased by 12%, net income increased by 2% and Earnings Per Share ("EPS") was flat. The 2013 income and earnings per share were relatively flat with 2012 because of an incremental \$28 million non-cash charge for amortization of intangibles in 2013, which was largely driven by our acquisition of BrightPoint, and an incremental \$33 million in restructuring, integration and transition costs as we integrated the operations of our recent acquisitions and implemented programs to reduce the cost structure of our organization. Included in these results were the negative impacts on sales resulting from weak economic conditions in Europe and continued sluggish recovery in 2013.

Granting Premium-Priced Options. On November 18, 2013, the Committee granted the CEO a premium-priced stock option award of \$5.0 million based on Black-Scholes valuation to incentivize further increases to shareholder value over the next three years. The closing stock price on November 18, 2013 was \$23.91 per share in comparison to the exercise price of \$26.00. These stock options will vest 33.3% each anniversary through November 18, 2016 and will expire November 18, 2017.

Granting Performance-Based Equity Awards. The Committee again granted performance-based restricted stock units ("RSUs") to our NEOs. These RSUs consisted of three separate grants:

- (1) 40% of the target grant value would be earned based on achievement of fiscal 2013 pre-tax profitability goals and, to the extent earned, will vest in equal installments in June 2015 and 2016 ("PT RSUs");
- (2) 60% of the target grant value will be eligible for vesting in June 2016 based on achievement of earnings per share, return on invested capital ("ROIC"), and operating income goals over a three-year performance measurement period (2013-2015) ("EPS/OI/ROIC RSUs"); and
- (3) an additional number of RSUs (but no more than the target number of RSUs granted in program 2) may be earned based on the achievement of total shareholder return over a three-year performance measurement period (2013-2015) as compared to a peer index, Total Shareholder Return RSUs ("TSR RSUs").

The grant value of the performance-based RSUs of all three grants for the NEOs, including our new COO, was between 151% and 566% of their respective base salaries. This value represented the accounting value if the maximum number of RSUs vests. The target grant value of grants (1) and (2) above align award values with those of their peers in our comparator group of companies, reflect individual performance levels and responsibilities, keep stock dilution to a competitive level, and are consistent with the Committee's desire to place significant weight on long-term performance.

Focus on Long-Term Value Creation. At executive management levels, compensation focuses on long-term shareholder value creation, reflecting the fact that, in conjunction with the Board, Ingram Micro's NEOs are responsible for setting and achieving long-term strategic goals. In support of this responsibility, compensation is heavily weighted towards equity incentives and other performance-based compensation that rewards long-term value creation for shareholders. The following charts show the CEO and other NEO target and actual annual compensation mix for 2013.

In the tables below, target compensation equals the sum of 1) base salary, 2) target EIAP award, 3) grant date fair value of equity awards assuming target level performance over the measurement period for the EPS RSUs, and 4) grant date valuation of the TSR RSUs (as disclosed in the Summary Compensation Table). The actual compensation replaces target EIAP awards with the value that was actually earned, with the exception of the newly hired COO, whose base salary and annual incentive award were annualized to provide relative comparison to target compensation. The CEO table does not include the grant of special premium-priced options during 2013 since it was a special award granted for reasons described above under "Granting Premium- Priced Options" rather than considered as part of "annual compensation".

Pay-for-Performance and CEO Compensation. As illustrated by the above charts, Ingram Micro emphasizes pay-for-performance with performance-based compensation (annual and long-term incentives) constituting 88% of the CEO's actual total annual compensation and 76% of other NEOs' total compensation. This performance-based compensation requires the achievement of specific performance targets intended to drive shareholder value over the long term in order for the compensation to be paid. Summarized below is the comparison of the CEO's total compensation compared to annual TSR over the past three years.

Year	Annual TSR	Change in total CEO compensation earned in year
2013 (1)	38.2%	5.4%
2012 (2)	(7.0)%	(1)%
2011 (3)	(4.7)%	(4.5)%

(1) Increase in table reflects CEO's total annual compensation earned during 2013; when the special premium-priced option award is included, CEO compensation increased 77.6%.

(2) Decrease in compensation is a comparison of current CEO's total compensation to the prior year's compensation of the former CEO.

(3) Compensation change is year on year change for the former CEO. However, the former CEO received the first payment of a cash retention bonus in 2011, which was earned based on 2009 performance and continued employment through 2011; when this retention payment is added to his total 2011 compensation, his compensation increased by 9.5% over 2010.

Focus on Best Practices. The Committee periodically examines the Company's executive compensation practices in an effort to align them with best practices and evolving trends. For example (and as described further below):

- Executives are subject to significant stock ownership guidelines, including the requirement for executives to obtain permission from the Company before selling shares, even during an open trading period;

- A claw-back policy exists that provides for the repayment of incentive compensation in appropriate circumstances;

- Different performance metrics are used under the Company's short-term and long-term incentive plans;

- Awards under the Company's short-term and long-term incentive plans are capped to limit windfalls;

- The Company has a policy prohibiting its associates (including our executive officers and directors) from using Company stock in hedging transactions;

- None of the Company's directors or executive officers engage in short sales of Company securities, hold Company securities in a margin account or pledge Company securities as collateral for a loan, and any Company securities transaction requires approval from the General Counsel;

- Benefits and perquisites represent a very small proportion of NEO compensation;

- The Company's change in control policy requires a "double trigger" before benefits are paid and does not have any provision for tax gross-ups;

- The Committee retains and consults with its independent outside compensation consultant on a regular basis and has sole discretion to engage or terminate its compensation consultants and other advisors.

Effect of Prior Shareholder Say-on-Pay Advisory Vote. In June 2013, our shareholders approved our executive compensation programs, as disclosed in last year's proxy statement, in an advisory "say-on-pay" vote, with 77.4% of votes cast in favor of approval. While this result did not impact decisions about our 2013 compensation programs, which were already in place by June, we believe the approval of our 2012 compensation programs shows support for the types of programs discussed in this proxy statement and, accordingly, that no material changes to our compensation programs are necessary. The Committee continually evaluates the programs to make sure they are appropriate and in the best interests of shareholders.

Independence of Compensation Consultant. After review and consultation with Cook, the Committee determined that Cook is independent and that there is no conflict of interest resulting from retaining Cook currently or during fiscal

2013. In reaching these conclusions, the Committee considered the factors set forth in the SEC rules.

Overall Design and Rewards of the Executive Compensation Program

Design Elements. The Company primarily operates in the extremely competitive, rapidly changing, and low-margin technology distribution industry and is expanding into the higher margin, logistics, mobility and cloud services sectors. The broad objectives and key features of each element of the executive compensation program established by the Company and approved by the Committee are:

Compensation Element	Objectives	Key Features
Base Salary	Links performance and pay by providing competitive levels of base salary for each executive officer based on his or her role and responsibilities within the Company. Used to attract and retain executive talent in a very competitive marketplace.	Reflects: <ul style="list-style-type: none"> • Peer median for positions with similar responsibilities and business size. • An executive’s responsibilities and performance, as demonstrated over time. • Local country indexation as applicable.
	Provides incentives to focus executives on the actions necessary to attain the Company’s Board-approved annual business plan.	Salaries are reviewed annually to ensure they are externally competitive, reflect individual performance and are internally equitable relative to other Ingram Micro executives. Committee establishes incentive targets as a percentage of each NEO’s base salary that approximate the median market practice of comparable positions at comparator peer group companies.
Annual Executive Incentive Award Program	Identifies what is expected for the year from the standpoint of corporate, regional and country results.	Payouts depend on meeting performance targets such as pre-tax profit, return on invested capital, and specified operating objectives over the course of a one-year performance period.
	Links reward to accomplishment of goals within executives’ control and encourages both profitable growth and operating efficiency.	Performance targets vary for Corporate NEOs versus Regional NEOs to reflect appropriate differences in our operations within the United States and abroad.
Equity-Based Long-Term Incentive Award Program	Aligns the long-term goals of our executives with those of our shareholders to increase shareholder value.	Committee reviews competitive, market-median and historical award values for each NEO and the individual performance of each NEO to establish the equity-based award values.
	Rewards stock price appreciation and ties wealth accumulation to performance.	Payouts depend on meeting performance targets such as pre-tax profit, total shareholder return, return on invested capital or earnings per share results over the performance measurement period.
	Encourages retention through the overlapping of multi-year performance periods.	

Benefits and Perquisites

Provide conservative levels of nonperformance-based compensation.

In general, our NEOs participate in the Company's broad-based health and welfare, life insurance, disability and retirement programs for management employees.

Design Principles. Ingram Micro believes a major portion of NEO compensation should be at risk and subject to the financial performance of the Company. The only guaranteed forms of NEO compensation are base salaries, benefit programs and perquisites that are generally available to all management associates. The remainder of compensation must be earned through the attainment of predetermined financial or strategic performance objectives or share price appreciation. Compensation programs are designed to align the financial interests of our NEOs with those of our shareholders by providing appropriate near- and long-term financial incentives that reward executives for achieving objectives that enhance shareholder value. Our key design principles include:

1. Target executive compensation with reference to the market median (50th percentile) for each element of pay and in total to be competitive with other employment opportunities.

A competitive compensation program is critical in attracting, retaining and motivating the Company's senior leadership in order to achieve its long-term business and financial objectives.

Table of Contents

The Company benchmarks executive officer compensation annually against survey data from Mercer's Executive Benchmark Database covering general industry companies with annual revenues between \$6 billion and \$24 billion, as well as a comparator peer group of 37 publicly traded companies in four related industries (Technology Distributors, Electronic Equipment Manufacturers, Logistics and Healthcare Distributors, and Retailers and Other Companies), to assess the competitiveness of total compensation and pay mix. This comparator peer group is a closer match to the market capitalization of the Company than the general industry data. The following peer group is the same as was used for benchmarking purposes for the prior year, except that BrightPoint was removed due to our acquisition of it in October 2012:

Technology Distributors	Electronic Equipment Manufacturers	Logistics and Healthcare Distributors	Retailers and Other Companies

This comparator peer group was selected by taking certain measures into consideration and is summarized in the following table:

Size: Companies with market capitalization that generally range around Ingram Micro's market capitalization.

Business Focus: Publicly traded companies with representation weighted towards distribution and other related industries with which we compete for executive talent.

Consistency: The peer group should be relatively stable and preferably be multi-national companies.

Ingram Micro management engages an executive compensation consulting firm to conduct a total compensation study of executive officers. For 2013 compensation decisions, management engaged Mercer to collect and report the general industry survey data which was then reviewed by Cook, the Committee's independent outside advisor. Due to the unique revenue characteristics of a distribution business (e.g., high revenues at low margins), revenue is not directly comparable to general industry benchmarks. As a result, general industry market data was used for companies with significantly lower revenues than Ingram Micro. Cook provided the Committee with its own analysis and conclusions to be drawn from the data and advised the Committee on setting appropriate compensation levels for Ingram Micro's NEOs, including our CEO.

Cook's compensation report examined the competitiveness of Ingram Micro's executive compensation programs in total and by each element of compensation (base pay, annual incentives, and long-term incentives). In doing so, the

value of each of Ingram Micro's NEO's compensation elements was compared to median information available from the defined comparator group. Benefits and perquisites were not included in the 2013 report as they represent a small portion of our executive officers' total remuneration.

2. Internal pay equity is important. Balancing competitiveness with internal equity helps support management development and movement of talent worldwide throughout Ingram Micro. Differences in actual compensation between employees in similar positions will reflect individual performance, future potential and business results. This effort also helps Ingram Micro promote talented managers to positions with increased responsibilities and provides meaningful developmental opportunities.

Table of Contents

3. Pay-for-Performance. Ingram Micro emphasizes pay-for-performance, as indicated by the charts above under “Focus on Long-Term Value Creation”, which show that 87% of the CEO’s total target annual compensation and 76% of the other NEOs’ total target compensation is performance-based. This performance-based compensation requires the achievement of specific performance targets intended to drive shareholder value over the long term in order for the compensation to be paid.

What is Rewarded. Executive compensation is designed to reward achievement of targeted financial results and individual performance. Our performance metrics are generally based on financial results, excluding restructuring charges, integration and transition costs directly related to acquisitions and implementation of cost-reduction programs and the impacts of any unplanned acquisitions. These metrics are regularly used by our management internally to understand, manage and evaluate our business and make operating decisions. The following table defines each performance metric used as an executive incentive measure, and states why the metric was selected and the compensation programs which use that metric.

Metric	Definition	Why Selected	Pay Programs
Earnings Per Share (“EPS”)	EPS is defined as net income divided by weighted average number of diluted shares outstanding.	EPS is widely tracked and reported by analysts and used as a measure to evaluate Ingram Micro’s performance. EPS growth is used in recognition of both the effect it can have on Ingram Micro’s stock price and the prevalence of its use by other companies.	Equity-Based Long-Term Incentive Award Program
Pre-tax Profit (“PT”)	PT is based upon results reported under generally accepted accounting principles. Exclusions of any items from the calculation of PT must be pre-approved by the Committee.	PT is considered an important performance measurement to ensure focus on profitability.	Annual Executive Incentive Award Program Equity-Based Long-Term Incentive Award Program
Return On Invested Capital (“ROIC”)	ROIC is defined as operating income, net of income taxes calculated based on Ingram Micro’s applicable effective tax rate for the fiscal year, divided by the average invested capital for the fiscal year. Average invested capital is equity plus debt less cash and cash equivalents at the beginning of the performance period and at the end of each quarter therein.	ROIC provides a measure of the efficiency with which Ingram Micro invests its capital in the business. ROIC incorporates elements of both profit generation and the capital invested in the business and provides a meaningful gauge of the level of overall shareholder value generation when compared to the weighted average cost of capital. Elements of Compensation

The elements of NEO compensation are annual base salary, annual bonus, long-term equity-based incentives, benefits and perquisites. The mix and proportion of these elements to total compensation is benchmarked annually against the survey median data and peer group of comparator companies for each NEO. The Committee, at its sole discretion, may make changes to the mix or relative weighting of each compensation element. The Committee is provided tally sheets that itemize the total compensation

Table of Contents

package of each NEO and takes into consideration the impact a change in one element may have on other elements and total compensation. A summary of each element of compensation and how the amount and formula are determined is presented below.

How Designed and Determined

Base Salary. Each NEO is eligible for an annual salary review. The Committee reviews and takes into consideration recommendations for changes to base salaries of NEOs and other Section 16 reporting officers from our CEO (except with respect to his own compensation) and Cook. Our CEO's recommendations are based on a number of considerations, including the executive's scope of responsibilities within the organization, his personal assessment of the executive's performance and overall contribution to the achievement of Ingram Micro's short-term and long-term objectives, the executive's performance in relation to individual performance objectives established during the PMP, the executive's pay history, the executive's current salary versus the competitive median levels reported by the peer group of companies and market surveys, internal equity considerations and Ingram Micro's overall Company performance. However, there is no set formula or weighting assigned to these factors. Our CEO discusses his recommendations with Cook and the Committee, but the Committee in executive session makes a final determination of base pay for each NEO upon completion of these discussions.

Our CEO's salary is determined by the Committee based on its review of his overall performance, data on competitive compensation levels for CEOs in the comparator group of companies, proxy information for direct competitors and market surveys, as well as Ingram Micro's overall performance. These considerations are discussed among the Committee members and Cook in executive session of the Committee. No members of management are present during these deliberations.

The Committee met in March 2013 and determined the annual merit increase appropriate for each NEO, effective the first pay period in June 2013. As previously discussed, the Committee increased our CEO's base salary by 5.9% and approved a 5% increase for our COFO as a result of each of their performance and to align their target cash compensation with competitive peer group. The other NEOs did not receive an increase in June 2013 as salaries were deemed sufficient and Mr. Maquet had already received a legally-mandated 2.35% increase in January of that year. Mr. Read's salary was determined based on the above factors when he joined the company.

2013 Annual Executive Incentive Award Program. Each NEO has a cash incentive target established by the Committee as a percentage of base salary, as set forth in the table below. The percentage approximates the median market practice of comparable positions based on the data from our comparator peer group (see "Design Principles" above).

	Target Annual Incentive as % of Annual Base Salary
	2013
Mr. Monié	150%
Mr. Humes	90%
Mr. Gupta	70%
Mr. Maquet	70%
Mr. Read	100%

The Committee established performance targets required to fully fund a \$5 million bonus pool under the 2013 EIAP within the first 90 days of the 2013 fiscal year. This pool was fully funded since the company achieved a PT of more than the required performance of \$200 million or more in fiscal year 2013. The Committee exercised negative discretion to determine the final amount of the bonus pool for each Section 162(m) officer (all of our NEOs other than Mr. Humes) and did not approve a full payout of the bonus pool. In determining and approving the final bonus amount for each Section 162(m) officer, the Committee took into consideration: the financial performance against pre-established objectives for the business that each 162(m) officer was responsible for; the overall company performance; improvement in stock price; and the Section 162(m) officer's individual performance against

pre-established objectives. Our CEO's 2013 EIAP payment was based on the Company's PT and ROIC performance against the 2013 plan, the improvement in stock price and his achievement of delivering above expectations on the following strategic objectives: EPS and ROIC improvement, successful execution of BrightPoint integration to deliver and leverage cost synergies between companies and the increase in the Company's market capitalization in new businesses while increasing profitability of two specific country operations within our distribution operations.

Table of Contents

As a result of the Committee's detailed assessment, each 162(m) officer earned award payments under the 2013 EIAP from the bonus pool as follows:

Section 162(m) Bonus Pool		Total % of Target Incentive	Total EIAP Award (\$)
Mr. Monié		109.3%	1,437,978
Mr. Gupta	(1)	114.7%	538,329
Mr. Maquet	(2)	87.7%	355,407
Mr. Read	(3)	100%	161,539
Total EIAP to 162(m) Officers			2,493,253

(1) Mr. Gupta's award took into consideration the performance of the Asia Pacific region distribution business, the performance of the worldwide mobility business and the Company's overall financial performance.

(2) Mr. Maquet's award took into consideration the performance of the European region distribution business, the European mobility business, Latin America region business and the Company's overall financial performance.

(3) Mr. Read's award was guaranteed, upon hire, to be at minimum a payment of the target amount because he was hired late in the year.

Mr. Maquet also received a discretionary bonus of \$121,178 in recognition of his contribution to European integration of BrightPoint and smooth transition of a successor for the Company's European region distribution business.

As the CFO, Mr. Humes is not considered a 162(m) officer so he was not eligible for an award from the above Section 162(m) bonus pool. The 2013 EIAP for Mr. Humes required the achievement of PT, ROIC and strategic objectives over the full fiscal year in order for Mr. Humes to receive his target annual incentive. These metrics drive a focus on growing PT while balancing ROIC and an effective implementation of key strategies. As illustrated by the following chart, Mr. Humes had 70% of his EIAP tied to the Company's PT and ROIC performance, with the remainder tied to specific strategic objectives that focus on growth opportunities as further described below.

	Weighting of Annual Incentive		
	Overall Company Results	Weighted Roll-Up of Country Results	Strategic Objectives
Mr. Humes (1)	21%	49%	30%

Mr. Humes' EIAP is weighted 70% to financial results (of which 30%, or 21% of his total EIAP, is tied to overall (1) company results and 70%, or 49% of his total EIAP, is tied to the weighted roll-up of country results) and 30% to strategic objectives.

The 2013 program required a minimum level of PT performance before any award could be earned and this award could be increased or decreased based on the management of ROIC. The maximum award earned for significant over achievement of performance against PT is 200% of the target award value.

After the potential award based on PT is calculated, ROIC is used as a modifier to decrease or increase the payout. In order to emphasize the improvement of ROIC, the PT award achievement is increased or decreased by 50 percentage points. This will result in rewarding or penalizing for ROIC improvement or degradation in 2013 versus plan. The upside with increased ROIC is slower than the downside with degradation. The standard ROIC achievement formula is $0.7 * (\text{ROIC } 2013 - \text{Plan ROIC}) / \text{ROIC } 2013$. The ROIC achievement is then applied to the PT achievement to determine total achievement. The total EIAP payment is capped at 220% of target.

Mr. Humes was given additional strategic objectives requiring him to ensure successful implementation of key global projects. In determining that Mr. Humes should receive 106.7% of the target award value for the strategic objective component of Mr. Humes' EIAP, the Committee particularly recognized Mr. Humes' successful implementation of key global projects to strengthen the Company's Cloud and Logistics businesses, capital structure, financial controls and BrightPoint integration.

The following chart illustrates the calculation of the overall Company achievement and weighted roll-up achievement that together make up the worldwide financial achievement under the 2013 EIAP. The total financial award earned = A + B + C = 91.1% of Target Award.

Worldwide Financial Achievement % of Target Earned Incentive Award:		63.6% + 27.5% = 91.1%		

PT for worldwide and regional results excludes the impact of material acquisitions and other costs as outlined in the program, consisting primarily of reorganization, integration and transition costs associated with the integration (1) of our acquisitions and the implementation of profit enhancement programs. Incentive awards for PT achievement between the specified minimum, target and maximum are interpolated on a straight-line basis. The PT achievement is subject to a ROIC positive or negative factor as noted above.

Non-162(m) Officer. Under the terms of the 2013 EIAP, Mr. Humes earned award payments as follows:

2013	Region	Worldwide Financial Achievement (70)%	Strategic Objectives Achievement (30)%	Total % of Target Incentive
Mr. Humes	Worldwide	91.1%	106.7%	95.8%

The Company does not disclose regional PT or ROIC target goals because of its conclusion that disclosure of such goals is not material to an understanding of the compensation program applicable to its NEOs and that competitive harm would result from their disclosure. Like the overall PT and ROIC goals disclosed above, the regional goals are set at levels where achievement of the target award is intended to be challenging, yet realistically possible.

Equity-Based Long-Term Incentive Award Programs

2013 Performance Awards. For 2013, the Committee decided to continue its practice of granting only performance-vesting RSUs to the executive officers on the first trading day of June to better align with the performance management process. Each RSU entitles an executive to one share of Company stock if and when the RSU becomes both earned and vested. The Committee's determination of individual values of the RSU awards with respect to NEOs, other than the CEO, was based on its evaluation of recommendations by the CEO that included the review of competitive data, market median, long-term incentive award values for each NEO and the individual performance of each NEO. With respect to the CEO, the Committee, in its sole discretion, determined the long-term equity value for the CEO by considering the CEO's performance and comparative peer group information. During this process the Committee consulted with its outside advisor, Cook. As a result of individual performance, the target grant values for the NEOs were generally between the 50th and 75th percentile.

This target value was delivered to the NEOs in the form of RSU grants tied to two different programs: 40% of the target value in RSUs tied to 2014 PT goals (the "PT RSUs") and 60% to the achievement of EPS, OI and ROIC goals (the "EPS/OI/ROIC RSUs"). The target dollar value granted for the NEOs ranged from 151% to 566% of their respective base salaries. More details of these two programs are provided below.

In the event certain performance conditions are met by the end of the measurement period, the Committee provided the opportunity for the NEOs to receive additional shares. These additional shares are possible under a combination of the EPS/OI/ROIC and the relative TSR RSUs (the "TSR RSUs"). Because part of the upside opportunity is provided by relative TSR RSUs, accounting rules require the maximum opportunity that can vest under this program to be valued on the date of grant. The accounting value of the TSR RSUs is shown in the table below under "Upside Value at Grant" and included in the valuation of stock awards in the "Summary Compensation Table" later in this document. If 50% or less of the TSR RSUs vest, then up to 150% of the EPS/OI/ROIC RSUs may vest if certain performance is achieved. More details of the TSR program are provided below.

	2013 Annual Equity-Based Long-Term Incentive Award Program Grant Values	
	Actual Value at Grant for Target Award (1)	Upside Value at Grant TSR Awards (2)
Mr. Monié	\$3,922,389	\$1,044,598
Mr. Humes	1,600,000	426,105
Mr. Gupta	800,000	213,057
Mr. Maquet	760,000	202,397
Mr. Read	1,653,736	466,740

Value at grant is based on the grant date fair value of \$19.06 per unit on June 3, 2013 with respect to all NEOs (1) except for Mr. Read. The value of Mr. Read's grant is based on the grant date fair value of \$23.64 per unit on October 1, 2013. Mr. Read's target grant was prorated to reflect his start date.

(2) The grant date value of the TSR RSUs was \$8.46 per unit, except for the grant to Mr. Read, which was \$11.12 per unit. More details of this accounting value can be found in the Summary Compensation Table footnotes below. With the approval of the Committee, grants of equity may also be awarded to the NEOs at other times during the year upon their initial employment with the Company or promotion within the organization. In such cases, as with Mr. Read's new hire grants in 2013, the effective date of the grant will be the first trading day of the month that follows the Committee's approval and the effective date of employment or promotion.

The RSUs discussed above were granted to the NEOs in June 2013 (or in the case of Mr. Read, upon his hire as COO) with the goals and target dollar values approved by the Committee within the first 90 days of the fiscal year.

(1) PT RSUs. The PT RSUs are eligible to be earned based on the achievement of fiscal 2013 PT goals, with vesting of any earned amount in equal installments in June 2015 and June 2016. The Committee certified on March 3, 2014

that the 2013 PT result exceeded the predetermined target level (\$75 million), resulting in 100% of the PT RSUs becoming eligible for vesting on the following schedule: 50% on June 1, 2015, and 50% on June 1, 2016 as long as the participant is employed in good standing on the vesting date (other than due to specified conditions such as death or termination without cause).

(2) EPS/OI/ROIC RSUs. The EPS/OI/ROIC RSUs are eligible to be earned based on EPS, OI and ROIC achievement over a three-year period (fiscal 2013-2015). To the extent the Company achieves specific EPS, OI and ROIC results at the end of the three year measurement period, the earned portion of the RSUs will fully vest on June 1, 2016 (or at the time of the Committee's certification of the EPS, OI and ROIC performance for fiscal year 2015, if later) if the NEO remains employed by the Company

Table of Contents

on the vest date (other than due to specified conditions such as death or termination without cause). The Committee believes the targets were set with appropriate levels of difficulty for the three-year performance measurement period. The maximum number of EPS/OI/ROIC RSUs available to vest under this 2013 program will be capped at 150% of the target number of units; however, the maximum number of RSUs available to vest, when combined with the TSR RSUs, is the combined number of RSUs granted.

	% of Target Award That Vests on June 1, 2016		
	Threshold	Target	Maximum
Performance over fiscal years 2013 – 2015			
EPS achievement	12.5%	50%	100%
OI achievement	5.0%	20%	40%
ROIC achievement	7.5%	30%	60%
Combined payout %	25%	100%	200% for each metric but capped at 150%; or 100% if TSR fully pays out

(3) TSR RSUs. For 2013 grants, the Committee requires the Company's three-year TSR to exceed a three-year TSR peer index in order for any RSUs to be earned under this award. Achievement of TSR below the index results in an award of 0% of TSR RSUs, and the maximum award for Ingram Micro TSR significantly exceeding peer group TSR is 100% of the TSR RSUs. The earned portion will vest on the third anniversary of the date of grant as long as the participant is employed in good standing on the vesting date (other than due to specified conditions such as death or termination without cause). The combination of the EPS/OI/ROIC RSUs with the TSR RSUs has the opportunity to have a total combined payout of 200% of the target level associated with the EPS/ROIC RSUs, similar to previous years.

(4) Special Option Grant to CEO. Furthermore on November 18, 2013, the Committee granted the CEO a premium-priced Stock Option Award of \$5.0 million based on Black-Scholes valuation to encourage his commitment to further increasing shareholder value over the next three years. In order to focus the award on increasing shareholder value, the Committee approved an exercise price of \$26.00 which is higher than the closing stock price on the grant date (\$23.91). These stock options will vest 33.3% each anniversary through November 18, 2016 with expiration at the end of November 18, 2017.

(5) New Hire Equity Grant to Mr. Read. The above table does not include the new hire grant to Mr. Read of \$250,000 of time-vested RSUs upon Mr. Read joining Ingram Micro as President and Chief Operating Officer which will vest on October 1, 2014. In addition to receiving performance awards as described above, he received this time-based equity award as a signing award in order to incentivize him to accept our offer while still tying the value of this new-hire award to our stock price performance.

Performance Awards from Prior Years. As previously disclosed, the 2011 Executive Long-Term Performance Share Program (EPS/ROIC RSUs) had a three-year performance measurement period (January 2011 – December 2013). In establishing the 2011 program, the Committee determined that any related costs, benefits and invested capital from a material acquisition in the final year of the measurement period should be excluded from the calculation of EPS and ROIC results. In addition, the Committee determined that restructuring, integration and transition costs directly related to the integration of our acquisitions and implementation of cost reduction programs as well as noncash amortization of acquired intangible assets should be excluded. Based on these exclusions, the three-year EPS compound annual growth rate was 3.8% and the three-year average ROIC was 11.1% for the measurement period. These results exceeded the minimum requirements and thus resulted in the combined achievement level under the plan of 17.8% of the target 2011 EPS/ROIC RSUs being earned (vested) by the participants, including the NEOs, who met the employment requirements of the award. Vesting of the earned shares occurred on March 3, 2014, upon the certification of the results by the Committee.

Stock Ownership and Retention Policy; Policy against Hedging Transactions

Our stock ownership and retention policy requires our Section 16 reporting officers to achieve holdings of Ingram Micro common stock with a value equal to three to six times their base salary. The multiple is determined by salary grade. The CEO's target is six times his base salary. The target for the other NEOs is four times their base salaries. NEOs are not required to reach their share ownership target level by a specific date. Instead, until the ownership requirement is met, they are required to retain 50% of their net after-tax shares resulting from the vesting of all restricted stock or RSU awards and 50% of the net after-tax shares resulting from the exercise of stock option awards. Shares owned include: shares held by the executive directly or through a broker, shares held jointly by the executive and his/her current spouse, shares held by the executive's current spouse, shares held by the executive's dependent children, shares held by the executive in a custodial account or irrevocable trust, and shares held by the executive in the Ingram Micro 401(k) Plan. Vested stock options do not count toward satisfaction of the ownership requirement. As of December 28, 2013, the named executive officers had not yet achieved their share ownership target level.

Table of Contents

The Company's Insider Trading Policy and Executive Stock Ownership and Retention Policy provides that shares of Ingram Micro stock shall not be made subject to a hedge transaction or puts and calls. None of the Company's directors or executive officers engage in short sales of Company securities, hold Company securities in a margin account or pledge Company securities as collateral for a loan.

Compensation Recovery Policy

The Committee adopted a Compensation Recovery Policy in January 2010. This policy, commonly referred to as a "clawback" policy, authorizes the Company to recover annual or long-term incentive compensation earned and received or realized in the previous 36 months by the NEOs, other Section 16 reporting officers and the Vice President of Internal Audit (each a "Covered Employee") in the event of a "recoverable event" (as defined in the policy). A recoverable event includes a covered employee's engagement in certain conduct that is detrimental to Ingram Micro, or the grant, vesting and/or payment of "incentive compensation" (as defined in the policy), or the calculation of the magnitude of any such incentive compensation, that is based on materially inaccurate financial results or performance metrics. Under the policy, Ingram Micro's Board of Directors or the Committee, may, in its sole discretion, take any or all of the following actions upon its determination that a recoverable event has occurred with respect to a Covered Employee: (i) cause the Covered Employee to forfeit any unvested incentive compensation as of the recoverable event, (ii) cause the Covered Employee, regardless of prior vesting, to forfeit any unpaid incentive compensation as of the recoverable event, and/or (iii) recover any and all incentive compensation earned and received or realized by the Covered Employee during the period commencing on the date of the occurrence of the recoverable event and ending on the date on which it determines that the recoverable event has occurred, but not to exceed the 36-month period preceding the date of such determination (with interest).

This policy is applicable to our short-term and long-term incentive award programs adopted by the Company for its executive officers and other key employees designated by the Committee as Covered Employees.

Severance Recoupment Policy

Ingram Micro has instituted a policy that stipulates that if an executive officer receives any severance payments or other benefits under the Executive Officer Severance Policy and the Company subsequently determines that the executive officer had engaged in conduct which constituted "cause" for the termination of his employment by the Company, the executive officer is obligated to reimburse the Company for all payments and the value of all benefits received by the executive officer which would not have been received if the executive officer's employment had been terminated by the Company for "cause", including interest.

Benefits and Perquisites

We do not use benefit programs or perquisites as a primary compensatory element or as an enhancement to executive officer compensation. In general, our executive officers participate in Ingram Micro's broad-based health and welfare, life insurance, disability, and retirement programs for management employees. Perquisites are generally limited to home or mobile office computer and telecommunications equipment and services and a periodic health examination provided by the Company.

For U.S. executive officers, the Company offers participation in a 401(k) plan with Company matching contributions as the only qualified retirement program. In addition, Ingram Micro offers certain U.S. highly compensated employees, including the NEOs based in the U.S., an opportunity to participate on a voluntary basis in our Supplemental Investment Savings Plan (the "Supplemental Plan"), a nonqualified deferred compensation arrangement. In general, the Supplemental Plan operates to restore 401(k) plan benefits, including Company matching contributions, which were reduced or limited by the Internal Revenue Code (the "Code"). Participants in both the 401(k) plan and the Supplemental Plan may elect to defer a total of up to 50% of their base salary and annual bonus. In 2013, the Company's matching contribution was equal to 50% of the first 5% of eligible compensation deferred under the Ingram Micro 401(k) Plan and Supplemental Plan.

Mr. Gupta is an Indian citizen and receives a retirement contribution of 15% of base salary each year. The Company contributes the maximum amount into the Singapore Central Provident Fund under his name and the remainder is paid

to him in cash. The amount of this payment in 2013 is noted under “All Other Compensation” in the “Summary Compensation Table” elsewhere in this proxy statement.

Mr. Maquet is a French citizen and continued to participate in the French social insurance programs to which the Company contributed in 2013. As part of his expatriate assignment to Belgium, the Company agreed to pay him what he would have received under the Ingram Micro France SARL profit sharing program had he remained an employee of Ingram Micro France SARL. The amount of the profit sharing program payments in 2013 is noted under “All Other Compensation” in the “Summary Compensation Table” elsewhere in this proxy statement. Mr. Maquet accepted a transfer of employment to the United States effective August

Relocation Assistance and Expatriate Assignment Arrangements

As an international company, we recruit executives globally. We also provide career development opportunities and promotions by moving our executives to locations throughout the world. We have an International Expatriate Assignment Policy applicable to associates working for Ingram Micro who are transferred from their home country of residence and placed on an international assignment for a specified period of time and whom management has approved to be covered by this policy. We generally provide assistance relating to such relocation, including travel costs, home leave for the associate and the associate's family, reimbursements for necessary work and residency permits, disposition of home country automobile, transportation, storage of household goods and personal effects, cost of living allowances, relocation and housing assistance, reimbursements for customary and reasonable transaction expenses, dependent education costs, and tax preparation services for home and host country income tax filings. In addition, Ingram Micro's International Assignment Tax Equalization Policy is intended to eliminate tax inequities or benefits that normally result from accepting a temporary expatriate foreign assignment. Ingram Micro associates covered under this policy will be provided tax equalization benefits. Accordingly, such associate will not recognize any income tax-related financial losses or gains as a result of an international assignment. Part of this tax protection requires that the Company pay the tax on some of the allowances in order for the associate to receive the full allowance that is meant to cover his or her actual expense. In order to ensure that the associate pays no more or no less tax as a result of an international assignment, the associate will be responsible for a "stay-at-home" tax liability, an estimate of the home country tax the associate would have paid had he or she remained in the home country. To assist the associate in meeting the stay-at-home tax liability, an estimated amount of tax is withheld from the associate's pay each pay period (hypothetical tax) if the stay-at-home country is a tax withholding country. In general, if upon final determination of the associate's actual stay-at-home tax for a given tax year, the total actual stay-at-home tax exceeds the hypothetical tax that was withheld from the associate's pay for that tax year, the associate will reimburse Ingram Micro for the difference. If the actual stay-at-home tax is less than the associate's hypothetical tax withheld, Ingram Micro will reimburse the associate for the difference.

In his role as Senior Executive Vice President and President of the Company's EMEA Region through July 31, 2013, Mr. Maquet, a French citizen, received benefits under the Company's International Assignment Tax Equalization Policy. As an expatriate to Belgium, Mr. Maquet was tax-equalized to France for all components of his compensation except equity and participated in the French social programs (medical, unemployment, and pension benefits). He received a housing allowance, dependent children education reimbursement, transportation allowances, and Belgium representation pay as reported under the "Other Compensation" column in the "Summary Compensation Table" elsewhere in this proxy statement. To ensure Mr. Maquet receives the full value of the allowances tied to his Belgium assignment, these payments are tax-equalized and the Company pays the local taxes due on these payments. Effective August 1, 2013, Mr. Maquet was appointed Senior Executive Vice President, Corporate. With this appointment, Mr. Maquet received a package to relocate him and his immediate family to the United States. He received one year of dependent children education reimbursement and was otherwise put on a local United States package. Any income earned while in the European role continues to be tax-equalized to France. The Company agreed to provide professional tax preparation services to prepare Mr. Maquet's United States, French and Belgium tax returns through 2016 in order to apply any tax equalization arrangement that was in effect during his assignment in Belgium which may continue to be applied to his earned income prior to his transfer to the United States in August 2013.

Executive Retiree Medical Program

The Company maintains a U.S. Executive Retiree Medical Program ("Retiree Medical"). The Retiree Medical allows all U.S.-based executives, who are at least age 55 with 10 or more years of service or at least age 60 with 5 or more years of service, and their enrolled dependents, to continue participation in the Company's fully insured plan upon departure from the Company. The participant in the Retiree Medical is responsible for 100% of the applicable insurance premiums for their enrolled dependents and themselves and may only participate until the retiree or participating dependent becomes eligible for coverage under another employer's medical care plan or Medicare benefits. Mr.

Maquet is eligible for this benefit in the event of his retirement from the Company.

Change in Control and Termination of Employment Arrangements

Change in Control Policy. In September 2010, the Committee adopted the Company's Change in Control Policy (the "CIC Policy"), which applies to all of our NEOs. The CIC Policy is intended to provide eligible officers of the Company with reasonable financial security in their employment and position with the Company, without distraction from uncertainties regarding their employment created by the possibility of a potential or actual change in control of the Company. The CIC Policy is a "double-trigger" policy in that it entitles a participant to severance benefits (including accelerated vesting of equity awards) in the event the participant's employment terminates under specified circumstances in connection with, or within 24 months following, a change in control, subject to the participant's execution of a release and covenant agreement satisfactory to the Company. The CIC Policy also provides that, if equity awards are not assumed or substituted in a change in control, the equity awards will become fully vested and any performance targets for uncompleted performance periods shall be treated as satisfied at target. A summary of the terms and conditions of the CIC Policy, including a detailed description of the severance benefits and estimated values of these benefits, is set forth under "Potential Payments on Termination or Change in Control" elsewhere in this proxy statement. The CIC Policy does not provide for any tax gross-up to participants.

Executive Officer Severance Policy. The Executive Officer Severance Policy (the "Severance Policy") applies to our CEO and our executive officers elected by the Board of Directors (which includes all the NEOs). Under the terms of the Severance Policy, executive officers are entitled to severance benefits if their employment is terminated by the Company without "cause" outside of the change in control context and certain conditions are satisfied. In such cases, subject to the execution of a release and covenant agreement satisfactory to the Company, eligible executive officers will be entitled to the severance benefits described in "Potential Payments on Termination or Change in Control" elsewhere in this proxy statement. The Committee believes the Severance Policy provides a reasonable level of protection such that our executive officers are not concerned with potential personal economic exposure in the event of actions by the Company and so instead are focused on our business goals and objectives. The Committee periodically reviews both the Severance Policy and the CIC Policy to ensure they are providing appropriate protections compared to the estimated costs.

Employment Agreement with Alain Maquet. In connection with the transfer of Mr. Maquet to the United States in August of 2013, the Company agreed to honor the severance terms of his French employment contract. Mr. Maquet's French employment contract states Mr. Maquet or the Company is required to provide the other with six months' notice prior to termination for any reason other than cause. In addition, the Company has agreed that severance benefits under his original French employment contract are frozen and he will be provided severance pay equal to thirty-two months of average salary (defined as base salary and target annual bonus) upon termination of his employment by the Company for any reason other than cause.

Internal Revenue Code Section 162(m) Policy

Under Code Section 162(m), a corporation cannot take a tax deduction for individual compensation exceeding \$1 million in any taxable year for a public company's chief executive officer and up to three other most highly compensated executive officers (other than the chief financial officer), unless the compensation qualifies as "performance-based compensation" within the meaning of Section 162(m). The Committee considers the anticipated tax treatment to us and our executive officers when reviewing our executive compensation and other compensation programs.

The Committee generally seeks to structure performance-based compensation (both short- and long-term) with the intent that it qualifies for deductibility under Code Section 162(m). We believe that the gains realized at the time of exercise of nonqualified stock options granted under the terms of shareholder-approved stock plan are fully deductible in accordance with Section 162(m). In addition, the Committee generally structures performance-based grants of RSUs and the Annual Executive Incentive Award Plan with the intent that they qualify for deductibility in accordance with Section 162(m). Nevertheless, the Committee retains full authority to approve compensation arrangements for our executive officers that do not satisfy the requirements of Section 162(m) when it believes that other considerations outweigh the tax deductibility of the compensation.

(1) The salary information provided is as of the last payroll period ending prior to the end of our fiscal year.

Mr. Maquet had a portion of his 2013 salary paid in Euros which was converted to U.S. dollars for reporting purposes using the 2013 fiscal year average exchange rate as of December 28, 2013 of EUR 1 = US\$1.3768.

Mr. Gupta's 2013 salary was paid in Singapore Dollars and was converted to U.S. dollars for reporting purposes using the 2013 fiscal year average exchange rate as of December 28, 2013 of SGD 1 = US\$0.7888.

(2) Mr. Maquet received a discretionary bonus in recognition of his contribution to the European integration of BrightPoint and transition of his successor. This discretionary bonus of EUR 88,014 was converted to U.S. dollars using the December 28, 2013 exchange rate of EUR 1 = US\$1.3768. This bonus was paid in his final European paycheck. See also footnote 11 regarding Mr. Read's bonus.

(3) Stock Awards reflect the aggregate grant date fair value, calculated in accordance with ASC 718, for performance-based RSU awards granted during the respective year. Performance-based RSU awards granted during 2013 included an annual award granted to the NEOs on June 3, 2013 (or on October 1, 2013 to Mr. Read), including TSR RSUs, which will only vest if the Company outperforms its designated peer group. The valuation assumptions and methodology used to determine such amounts are set forth in Notes 2 and 12 to our Consolidated Financial Statements included in our Form 10-K for the year ended December 28, 2013. In the event the TSR RSUs do not fully vest and the EPS/OI/ROIC awards achieve the maximum performance level of 150%, the value of the EPS/OI/ROIC equity will be as follows:

- 50% achievement for Mr. Monié is 185,213 units; Maximum value \$3,530,160.
- 50% achievement for Mr. Humes is 75,551 units; Maximum value \$1,440,002.
- 50% achievement for Mr. Gupta is 37,776 units; Maximum value \$720,011.
- 50% achievement for Mr. Maquet is 35,886 units; Maximum value \$683,987.
- 50% achievement for Mr. Read is 62,960 units; Maximum value \$1,488,362.

Table of Contents

(Grant date value of the EPS/OI/ROIC awards is \$19.06 per unit for all grants except EPS/OI/ROIC RSUs granted to Mr. Read, which were \$23.64 per unit. The TSR RSUs were valued at \$8.46 per unit on grant date, except for the TSR RSUs granted to Mr. Read, which were valued at \$11.12 per unit.)

Mr. Monié received a grant of premium-priced Non-Qualified Stock Options (1,400,000 shares) on November 18, 2013 under the Ingram Micro 2011 Incentive Plan, as amended, with an exercise price of \$26.00 per share. The options will vest in three equal annual installments beginning November 18, 2014 and expire on November 18, (4)2017. The grant date fair value of the stock options shown in the table is based on a Black-Scholes \$3.5587 per share value on November 18, 2013 and was determined in accordance with ASC 718 using the following assumptions: stock price volatility of 25.59%; expected option life of 3 years; dividend yield of 0%; and risk free interest rate of 0.56%.

Non-Equity Incentive Plan Compensation for 2013 represents the 2013 EIAP that was paid in March 2014.

(5) Mr. Gupta's EIAP payment was converted using the 2013 fiscal year average exchange rate as of December 28, 2013 of SGD 1 = US\$0.7888. Mr. Maquet's EIAP payment was converted using the 2013 fiscal year average exchange rate as of December 28, 2013 of EUR 1 = US\$1.3768.

(6) The amounts in this column for 2013 are itemized in the "All Other Compensation Table – Fiscal Year 2013" table below.

(7)

The "Total Realized Compensation" shown above includes all cash compensation as disclosed in the Summary Compensation Table and any income on the exercise of stock options and RSUs released during that calendar year.

Over the past seven years, Mr. Monié's realized compensation has been lower than the disclosed compensation in the Summary Compensation Table. Mr. Monié was promoted to the position of President and Chief Operating Officer in 2007 and was provided relocation from Singapore to the United States as well as a \$2,000,000 relocation bonus at that time. The income from the relocation bonus in addition to income tied to his expatriate compensation package and physical relocation was the primary driver behind his realized compensation reaching the level shown above. In 2008, Mr. Monié did not earn non-equity incentive plan compensation under the 2008 EIAP and only received his base salary and less than \$20,000 in other compensation. Mr. Monié resigned from the Company on August 23, 2010, resulting in no annual bonus being earned during 2010 and the cancellation of all stock awards granted in 2010, which were valued at \$1,682,492 on the date of grant. Mr. Monié was rehired by the Company on November 1, 2011 as President and COO. In January 2012, Mr. Monié was promoted to President and CEO and on October 1, 2013 his title was changed to CEO. While the 2013 Summary Compensation Table records the premium options Mr. Monié was granted, no income has been realized from this grant.

(8) Mr. Humes also served as our Chief Operating and Financial Officer from April 26, 2012 through September 30, 2013.

(9) Mr. Gupta was appointed to the position of Sr. Executive Vice President and President, Ingram Micro Mobility effective August 1, 2013.

Table of Contents

- (10) Mr. Maquet was appointed to the position of Sr. Executive Vice President, Corporate on August 1, 2013 and has transferred from the Belgium office to the Miami, Florida office.

- (11) Mr. Read was hired as President and Chief Operating Officer as of September 30, 2013. He received the first 50% (US\$180,000) of his sign-on bonus in his first paycheck and the remaining (50%) will be paid six months later in 2014. He was also awarded time-vested Restricted Stock Units worth US\$250,000 on the first trading day in October 2013 and they will vest on the first anniversary date of the grant as long as he remains employed by Ingram Micro. Compensation paid to Mr. Read during his time in 2013 as member of the Board of Directors is provided under “Director Compensation” earlier in this document.

Ingram Micro granted three separate awards of performance-based RSUs under our 2011 Incentive Plan on June 3, (1)2013 to reward achievement of financial goals that support increased shareholder value. The metrics are defined and discussed in more detail in “Compensation Discussion and Analysis” above.

Table of Contents

The first award of 82,317, 33,578, 16,789, and 15,950 RSUs at “Target”, respectively, to Messrs. Monie, Humes, Gupta and Maquet relate to PT performance metrics. Since the award provides only for a single estimated payout, that amount is reported as “Target”.

The second award of 123,475, 50,367, 25,184, and 23,924 RSUs at “Target”, respectively, to Messrs. Monie, Humes, Gupta and Maquet relate to EPS/OI/ROIC performance metrics. The maximum number of EPS/OI/ROIC RSUs available to vest are capped at 150% of “Target”; however, because when combined with TSR RSUs at “Target” of 100%, EPS/OI/ROIC RSUs cannot exceed 100% (combined no greater than 200%), “Maximum” is shown at 100% achievement.

The third award of 3,705, 1,511, 756, and 718 RSUs at “Threshold”, respectively, to Messrs. Monie, Humes, Gupta and Maquet relate to TSR performance metrics. “Maximum” is shown at 100% achievement.

Award granted under the 2013 EIAP. Pursuant to the 2013 EIAP, the threshold value can be further reduced down (2) to \$0 as a result of poor Return on Invested Capital. See the discussion above under “Compensation Discussion and Analysis — How Designed and Determined — Annual Executive Incentive Award Program”.

Mr. Monié received an additional grant of premium-priced Non-Qualified Stock Options (1,400,000 shares) on November 18, 2013 under the Ingram Micro 2011 Incentive Plan, as amended, with an exercise price of \$26.00 per share. The closing price of IM stock on November 18, 2013 was \$23.91. The options will vest in three equal annual (3) installments beginning November 18, 2014 and expire on November 18, 2017. The grant date fair value of the stock options shown in the table is based on a Black-Scholes \$3.5587 per share value on November 18, 2013 and was determined in accordance with ASC 718 using the following assumptions: stock price volatility of 25.59%; expected option life of 3 years; dividend yield of 0%; and risk free interest rate of 0.56%.

Mr. Read resigned from the Board of Directors and joined Ingram Micro as COO on September 30, 2013. Upon resignation from the Board of Directors his previous award was pro-rated and vested based on nine months of (4) service on the Board for 2013. Upon his hire as COO, he was granted four separate awards on October 1, 2013: 10,576 time-vested RSUs that vest on October 1, 2014; and performance shares under the following 2013 financial metrics: PT 27,982 RSUs; EPS/OI/ROIC 41,973 RSUs; and TSR 41,973 RSUs. His equity grants received as a non-employee member of the Board are reflected under “Director Compensation” earlier in this proxy.

(a) All values are based on the closing price (\$23.38) of Ingram Micro stock on the last trading day of the fiscal year (December 27, 2013).

Mr. Monié received a grant of premium-priced Non-Qualified Stock Options (1,400,000) on November 18, 2013 under the Ingram Micro 2011 Incentive Plan, as amended, with an exercise price of \$26.00 per share. The closing price of IM stock on November 18, 2013 was \$23.91. The options will vest in three equal annual installments (1) beginning November 18, 2014 and expire on November 18, 2017. The grant date fair value of the stock options shown in the table is based on a Black-Scholes \$3.5587 per share value on November 18, 2013 and was determined in accordance with ASC 718 using the following assumptions: stock price volatility of 25.59%; expected option life of 3 years; dividend yield of 0%; and risk free interest rate of 0.56%.

Performance-vesting RSUs were granted under the 2011 Performance Share Program on March 1, 2011 to reward achievement of goals that support increased shareholder value, and will be earned if Ingram Micro achieved (2) pre-established financial performance goals (EPS growth and average ROIC) over a three-year performance measurement period (2011-2013). On March

Table of Contents

3, 2014, the Committee approved the Company's 2011 Performance Share Program's performance results at 17.8% achievement of target results (the amount presented in this table). The shares vested on March 3, 2014.

Performance-vesting RSUs were granted on March 1, 2011 under the 2011 Performance Share Program. The 2011 (3)PT result exceeded the requirement resulting in 100% of the RSUs being earned, 50% vested on March 1, 2013 and 50% vested on March 1, 2014.

Mr. Monié received an additional grant of PT RSUs on November 1, 2011, which would be earned if Ingram Micro achieved pre-established PT performance goals over a one-year performance measurement period (fiscal year (4)2012). On March 5, 2013, the Committee approved the Company's PT performance results for fiscal 2012, which resulted in 100% achievement of this award (the amount presented in the table), which will vest 100% on November 1, 2014.

Mr. Monié received additional grants of EPS/ROIC RSUs (6,667) and PT RSUs (4,444) on February 1, 2012 under the 2011 Performance Share Program in recognition of his promotion to President & Chief Executive Officer. The (5)2011 PT result exceeded the requirement resulting in 100% of the PT RSUs (4,444) being earned, 50% (2,222) vested on March 1, 2013 and the remaining 50% (2,222) vested on March 3, 2014. On March 3, 2014, the Committee approved the Company's 2011 Performance Share Program's performance results at 17.8% achievement of target results (the amount presented in this table) and the EPS/ROIC shares will vest on March 3, 2014.

Performance-vesting RSUs were granted on June 1, 2012 under the 2012 Performance Share Program. The 2012 (6)PT result exceeded the requirement resulting in 100% achievement of the RSUs, which will vest 50% on June 1, 2014 and 50% on June 1, 2015.

Performance-vesting RSUs were granted on June 1, 2012 to reward achievement of goals that support increased shareholder value, and will be earned if Ingram Micro achieves pre-established financial performance goals (EPS (7)growth and average ROIC) over a three-year performance measurement period (2012-2014). If specific threshold performance levels are not met, no shares will be issued in 2015 in respect of such RSUs. The number in the table represents the amount that will vest upon 100% achievement of target results, which is also the maximum amount.

Performance-vesting RSUs were granted on June 1, 2012 to reward achievement of goals that support increased shareholder value, and will be earned if Ingram Micro's TSR over a three-year performance measurement period (8)(2012-2014) exceeds the three-year TSR of a specific peer group over the performance measurement period. If Ingram Micro's three-year TSR does not exceed the peer group's TSR, no shares will be issued in 2015 in respect of such RSUs. The number in the table represents the amount that will vest upon Ingram Micro significantly exceeding peer group results, which is the maximum amount.

Performance-vesting RSUs were granted on June 3, 2013 to reward achievement of goals that support increased shareholder value, and will be earned if Ingram Micro achieves pre-established financial performance goals (EPS, (9)OI & ROIC) over a three-year performance measurement period (2013-2015). If specific threshold performance levels are not met, no shares will be issued in 2016 in respect of such RSUs. The number in the table represents the amount that will vest upon 100% achievement of target results. Mr. Read's award was granted on October 1, 2013 and has the same measurement/performance criteria as all other NEOs' awards. The following shows the maximum that may be earned:

•Maximum at 150% for Mr. Monié is 185,213 units.

• Maximum at 150% for Mr. Humes is 75,551 units.

•Maximum at 150% for Mr. Gupta is 37,776 units.

•Maximum at 150% for Mr. Maquet is 35,886 units.

•Maximum at 150% for Mr. Read is 62,960 units.

(10)Performance-vesting RSUs were granted on June 3, 2013 to reward achievement of goals that support increased shareholder value, and will be earned if Ingram Micro's TSR over a three-year performance measurement period (2013-2015) exceeds the three-year TSR of a specific peer group over the performance measurement period. If Ingram Micro's three-year TSR does not exceed the peer group's TSR, no shares will be issued in 2016 in respect of such RSUs. The number in the table represents the amount that will vest upon Ingram Micro significantly exceeding peer group results and represents the amount that will vest upon 100% achievement of target results.

- The maximum combined payout for both the EPS, OI & ROIC and TSR plan is the combined total RSUs granted. Performance-vesting RSUs were granted on June 3, 2013 under the 2013 Performance Share Program. The 2013 PT result exceeded the requirement resulting in 100% achievement of the RSUs, which will vest 50% on June 3, 2015 and 50% on June 3, 2016. Mr. Read's award was granted on October 1, 2013 and has the same measurement/performance criteria as all other NEOs' awards.
- (11)
- (12) Mr. Read received an additional grant of time-vesting (10,576) RSUs on October 1, 2013 that will vest 100% on October 1, 2014.

(1) Value realized is the difference between the fair market value of a share of the Company's common stock on the day of exercise and the exercise price.

(2) Value realized is calculated by multiplying the gross number of vested RSUs by the closing price of the Company's common stock on the day the vesting occurred or, if the vesting occurred on a day the NYSE was closed for trading, the previous trading day.

(3) This vesting represents shares from Mr. Read's Board of Directors 2013 award which vested upon his resignation from the Board of Directors.

NONQUALIFIED DEFERRED COMPENSATION FOR FISCAL YEAR 2013

The following table provides information relating to nonqualified deferred compensation balances and contributions by the NEOs for the period indicated.

(1) Executive officers who are paid on the U.S. payroll may voluntarily participate in the Supplemental Plan, a nonqualified deferred compensation arrangement. The Supplemental Plan, in general, operates to restore 401(k) plan benefits, including Company matching contributions, which were reduced or limited by the Internal Revenue Code. Under terms of the Supplemental Plan, participants may elect to defer up to a combined 50% of their base salary and annual bonus between the Supplemental Plan and the 401(k) Plan. In conformance with Section 409A of the Code, deferral and distribution elections are made by each participant prior to the beginning of each calendar year. The Company will have the discretion to make an employer match on behalf of the participants who make plan deferrals for 2013 and remain employed through December 31, 2013. For the 2013 Plan year, the Company made an employer match in January 2014 equal to 50% of the deferrals that did not exceed 5% of eligible compensation, reduced by the 2013 employer matching contributions to the 401(k) Plan. Participants may elect to

have earnings, or losses, credited to their Supplemental Plan account as if these accounts were invested in the various investment options available under the Company's 401(k) Plan, but excluding investment in the Ingram Micro Stock Fund. Participants may redirect their investment in the various investment fund

options on a daily basis. Account balances are disbursed to participants upon their termination of employment with the Company based on the participant’s election prior to year of deferral. Participants may elect to receive their account balance as a lump-sum cash payment or in installment payments over 5, 10 or 15 years.

Executive contributions are not separately shown in the “Summary Compensation Table” but instead are deferrals from individuals’ salary and/or bonus amount shown in the “Summary Compensation Table”.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Ingram Micro maintains incentive programs, including award agreements, and Executive Officer Severance and Change in Control Policies which require Ingram Micro to provide payments and benefits to the NEOs in the event of a qualifying termination of employment with Ingram Micro and/or a change in control of Ingram Micro.

The chart below describes the termination provisions of each program and the award agreements, as well as any payments and benefits under the Executive Officer Severance and Change in Control Policies assuming the last date of employment for the NEO was the end of Ingram Micro’s fiscal year, December 28, 2013 (and therefore the cash incentive award would be considered “earned”) and/or that the change in control occurred on December 28, 2013, as applicable. These terms apply to all NEOs except those covered under individual agreements which are explained later in this section.

	Short Term Incentive — Cash (1)	Long-Term Incentives — Performance Shares and Cash If award is not assumed or substituted with an equivalent award by the successor corporation, it will become fully vested, and any performance targets applicable to the award shall be treated as satisfied.	Long-Term Incentive — Stock Options If option is not assumed or substituted with an equivalent award by the successor corporation, it will become fully vested.	Severance Pay and Benefits (Under Severance Policy or CIC Policy) (2)
Change in Control (No Termination)	None			None
Qualifying Termination in Connection with Change in Control	Under CIC Policy, a prorated target bonus for the year of termination will be paid (subject to signing release of claims).	Any performance targets applicable to these awards shall be treated as satisfied and forfeiture restrictions shall lapse. Award becomes fully vested.	Options become fully vested and remain exercisable through the earlier of the second anniversary of the termination date or expiration date per the terms of the grant.	1.5 times (or 2 times for the CEO) the sum of (i) the officer’s annual base salary, (ii) target annual bonus and (iii) the annualized cost of the Company-sponsored medical, dental and vision insurance benefits in effect on the date of termination. Participation in an outplacement program for up to one year, subject to a maximum cost of \$20,000.

Termination for Cause	None	Award shall immediately be cancelled.	All vested and unvested options are cancelled. The Committee, at its sole discretion, may cancel vested but unexercised options.	None

(1) Payment to be calculated and paid on the same basis and at the same time as the annual bonus payments to actively employed Ingram Micro executives under the 2013 EIAP.

Severance benefits provided under the Severance Policy and the CIC Policy are subject to the participant's execution of a release of claims and covenant agreement satisfactory to the Company and are payable in a lump sum cash payment.

Prior to January 1, 2007, the definition of retirement for long-term equity incentives under our equity incentive plan was 50 years of age and a minimum of five years of service. Effective January 1, 2007, the definition of retirement under our equity incentive plan for awards granted to participants was amended to provide that normal retirement is defined as age 65 or greater with five or more years of service and early retirement is defined as age 55 or greater with 10 or more years of service. These retirement provisions are applicable to all NEOs.

Payments Upon Termination Table

For purposes of this analysis, we assumed:

- a. the last date of employment for the NEO is the last business day of our last fiscal year, December 28, 2013;
- b. annual base salary at termination is equal to salary as of December 28, 2013;
- c. annual target incentive at termination is equal to target incentive as of December 28, 2013; and
- d. estimated value of accelerated vesting of equity is based on the closing price of our stock (\$23.38) on December 27, 2013 (the last trading day of our fiscal year) less, in the case of stock options, the applicable exercise price.

The shares awarded under the 2011 Performance Share Program vested on March 3, 2014. The table also includes the 2011, 2012 and 2013 Performance Share Programs tied to PT, which the Committee previously (1) approved at 100% achievement. While it is too early in the measurement period to predict the final achievement of the 2012 and 2013 Performance Share Program awards tied to EPS and ROIC, in order to estimate a value under each termination scenario it was assumed target level performance was achieved. Actual achievement and resulting payment for the 2012 and 2013 Performance Share Program awards will be determined in early 2015 and 2016, respectively. The payout values in the table are based on the

closing price (\$23.38) of Ingram Micro stock on December 27, 2013, which was the last trading day of our fiscal year. The 2012 and 2013 Performance Share Program awards tied to TSR are assumed to payout at target level performance; however, the actual achievement and resulting payment will not be determined until early 2015 and 2016, respectively.

Does not include stock options that are fully vested and exercisable. Each NEO had the following intrinsic value of vested and unexercised options as of December 28, 2013: Mr. Monié, \$882,552; Mr. Humes, \$929,798; and Mr. Gupta, \$298,717.

Basic Life and Accidental Death and Dismemberment benefits for U.S.-based NEOs are one (1) times earnings, (2) subject to a maximum of \$1,000,000 each. Upon death, all unvested stock options would immediately vest and the estate would have one year to exercise.

(3) Death and Disability: Under the terms of Mr. Gupta's employment contract, Mr. Gupta retains his life and disability insurance from Singapore. In the event of his death, Mr. Gupta's estate would receive \$2,078,184 (SGD 2,634,615) under his Singapore life insurance policy. Mr. Gupta would receive \$124,994 (SGD 158,462) under his Singapore disability insurance in the event of disability.

(4) Payments listed for Mr. Maquet have been converted from EUR to U.S. dollars using the same exchange rate as stated in footnote 1 of the "Summary Compensation Table" elsewhere in this proxy statement.

Mr. Maquet is retirement-eligible under the terms of our equity awards. Therefore, the amounts set forth under "Retirement" and "Involuntary Not for Cause Termination" include the retirement treatment with respect to his outstanding equity awards. With Mr. Maquet's transfer to the United States in August 2013, he is no longer tax-equalized to France nor will he be eligible for any repatriation/relocation benefits to France. However, Mr. Maquet retained certain French provisions under the terms of his transfer to the United States. Severance pay assumes the Company provided Mr. Maquet the required 6 months' notice prior to a termination by the Company without cause or change in control. If notice is not provided, base pay in lieu of notice will be added to payment. Under the terms of Mr. Maquet's French employment contract, Mr. Maquet would be eligible for a payment equivalent to 32 months of average salary (defined as base salary and target bonus) in the event of a termination by the Company without cause or change in control. Under the terms of Mr. Maquet's French employment contract, Mr. Maquet retains his life and disability insurance from France during 2013. In the event of his death or total permanent disability, Mr. Maquet's estate or Mr. Maquet would receive \$1,157,992 (EUR 841,075) under his French life insurance policy. Mr. Maquet would receive \$206,784 (EUR 150,192) under his French disability insurance in the event of partial disability.

PROPOSAL NO. 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

Recommendation of the Board of Directors

The Board of Directors recommends that you vote "FOR" the approval of the compensation of Ingram Micro's named executive officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC, which is designated as Proposal No. 2 on the enclosed proxy card.

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act"), Ingram Micro is asking its shareholders to vote to approve, on an advisory, non-binding basis, the compensation of its named executive officers as disclosed in this proxy statement in accordance with SEC rules. Please refer to "Compensation Discussion and Analysis", the compensation tables and the narrative discussion following the compensation tables for an overview of the compensation of Ingram Micro's named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the policies and practices described in this proxy statement.

Ingram Micro has a "pay-for-performance" philosophy that forms the foundation of all decisions regarding compensation of Ingram Micro's named executive officers. This compensation philosophy, and the program structure

approved by the Human Resources Committee, is central to Ingram Micro's ability to attract, retain and motivate individuals who can achieve superior financial results. This approach, which has been used consistently over the years, has resulted in Ingram Micro's ability to attract and retain the executive talent necessary to guide the Company during a period of tremendous growth and transformation.

This vote is advisory and therefore not binding on Ingram Micro, the Human Resources Committee of the Board, or the Board. The Board and the Human Resources Committee value the opinions of Ingram Micro shareholders and to the extent there is any significant vote against the named executive officer compensation as disclosed in this proxy statement, we will consider shareholders' concerns, and the Human Resources Committee will evaluate whether any actions are necessary to address those concerns.

The Company intends to hold its next “say on pay” advisory vote at the 2015 annual meeting of shareholders.

Vote Required

The affirmative vote of a majority of the shares of Ingram Micro common stock present in person or represented by proxy and entitled to vote on the proposal at the annual meeting is required for advisory approval of this proposal.

PROPOSAL NO. 3

RATIFICATION OF THE SELECTION OF PRICEWATERHOUSECOOPERS LLP
AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Recommendation of the Board of Directors

The Board of Directors recommends that you vote “FOR” the ratification of the selection of PricewaterhouseCoopers LLP (“PwC”) as our independent registered public accounting firm for the current fiscal year, which is designated as Proposal No. 3 on the enclosed proxy card.

PwC served as Ingram Micro’s independent registered public accounting firm for the 2013 fiscal year. PwC has advised Ingram Micro that it has no direct or indirect financial interest in Ingram Micro. Representatives of PwC are expected to be present at the 2014 annual meeting of shareholders, with the opportunity to make a statement should they desire to do so, and will be available to respond to appropriate questions from shareholders. We anticipate that our Audit Committee will retain PwC to continue to serve as Ingram Micro’s independent registered public accounting firm for 2014. See “Report of the Audit Committee”. The following fees were charged by PwC for 2012 and 2013 fiscal year services to Ingram Micro:

Audit Fees. PwC’s fees for auditing Ingram Micro’s annual financial statements and internal controls pursuant to the Sarbanes-Oxley Act of 2002, review of interim financial statements included in the Company’s Form 10-Q filings, and services that are normally provided by PwC in connection with statutory and regulatory filings or engagements were (1) \$8,366,000 for fiscal year 2012, of which \$4,811,000 was billed by PwC in fiscal 2013, and (2) \$9,093,000 for fiscal year 2013, of which \$5,121,000 will be billed by PwC in fiscal 2014. The actual amounts that will be paid in fiscal year 2014 may be different due to the impact of foreign exchange at the time the actual bills are paid.

Audit-Related Fees. PwC’s fees for assurance and related services that are reasonably related to the performance of the audit or review of our financial statements and are not reported under “Audit Fees” above for fiscal years 2012 and 2013 were \$1,157,000 and \$289,000, respectively, relating to due diligence services related to our acquisitions, agreed-upon or attestation procedures that are required to be delivered by the Company’s independent or statutory auditor pursuant to local law or regulations and/or corporate reorganization activities, as well as consultations by the Company’s management regarding the accounting or disclosure treatment of transactions or events and/or the actual or potential impact of proposed rules, standards or interpretations by the PCAOB, SEC, FASB, or other regulatory or standard setting bodies.

Tax Fees. PwC fees for services which were principally related to tax compliance and consulting matters were \$610,000 in fiscal year 2012 and \$575,000 in fiscal 2013. These tax fees related to consultations on technical tax matters, including assistance with U.S. Federal, state and local and international tax matters.

All Other Fees. There were no other services or related fees incurred or paid to PwC in fiscal year 2012 or 2013. Management is required to review and obtain the prior approval of the Audit Committee for all non-audit services proposed to be provided by the independent accountants. We review whether the provision of such services by the independent accountants would be compatible with the maintenance of PwC’s independence in the performance of its auditing functions for us.

The Audit Committee annually reviews its policy on audit and non-audit services performed by Ingram Micro’s independent registered public accounting firm. Unless a proposed service to be provided by Ingram Micro’s independent registered public accounting firm has received general pre-approval in accordance with the guidelines discussed below, it will require specific pre-approval by the Audit Committee. Any proposed services exceeding pre-approved fee levels will require additional pre-approval by the Audit Committee.

The annual audit services engagement terms and fees are subject to the specific pre-approval of the Audit Committee. The Audit Committee must approve any significant changes in terms, conditions and fees resulting from changes in audit scope, company structure or other matters. Additional fees in excess of 10% of the amount initially approved in connection with the annual audit services require additional pre-approval by the Audit Committee. With respect to certain categories of non-audit services, the Audit Committee has concluded that the provision of such services does not impair Ingram Micro's independent registered public accounting firm's independence, and the Audit Committee has provided (and the Audit Committee will annually

Table of Contents

review and provide) general pre-approved categories of services that may be provided by Ingram Micro's independent registered public accounting firm without obtaining pre-approval for each specific non-audit assignment.

The term of any pre-approval is generally twelve months from the date of pre-approval, unless the Audit Committee provides for a different period. The Audit Committee may revise the list of general pre-approved services from time to time, based on subsequent determinations. The Audit Committee may delegate pre-approval authority to one or more of its members. The member or members to whom such authority is delegated shall report any pre-approval decisions to the Audit Committee at its next scheduled meeting. In addition, on a periodic basis, Ingram Micro's management reports to the Audit Committee the services actually provided by Ingram Micro's independent registered public accounting firm pursuant to the Audit Committee's pre-approval policy.

All audit and non-audit services described above were provided pursuant to pre-approval policies of the Audit Committee.

REPORT OF THE AUDIT COMMITTEE

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Ingram Micro filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate this Report by reference therein.

The Audit Committee of the Board of Directors has furnished the following report.

The charter of the Audit Committee of the Board of Directors of Ingram Micro Inc. ("Ingram Micro") specifies that the purpose of the Audit Committee is to discharge its responsibilities as set forth in Ingram Micro's Amended and Restated Bylaws and to assist the Board's oversight of:

- the integrity of Ingram Micro's financial reporting process and systems of internal controls regarding finance, accounting, legal and ethical compliance;

- Ingram Micro's compliance with legal and regulatory requirements; and

- the independence and performance of Ingram Micro's independent external auditors and internal audit department.

In addition, the Audit Committee is charged with providing an avenue of open communication among Ingram Micro's independent registered public accounting firm, management, internal audit department, and Board of Directors.

The Audit Committee expects to consider further amendments to its Charter from time to time as rules and standards are revised and/or finalized by various regulatory agencies, including the SEC and the NYSE, and to address any changes in Ingram Micro's operations, organization or environment.

The Audit Committee meets with management periodically to consider the adequacy of Ingram Micro's disclosure and internal controls and compliance with applicable laws and company policies, as well as the quality of its financial reporting, including the application of critical accounting policies. As part of this process, the Audit Committee has, in connection with Ingram Micro's compliance with Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX 404"), reviewed on a periodic basis with management and Ingram Micro's independent registered public accounting firm, PricewaterhouseCoopers LLP ("PwC"), Ingram Micro's SOX 404 compliance process for 2013, and will continue this monitoring in subsequent years.

The Audit Committee oversees the company's hotline program and monitors its response to complaints as well as more generally discussing with management the company's procedures for preventing, detecting, or encouraging the reporting of fraud.

As part of its oversight activities, the Audit Committee monitors the scope and adequacy of Ingram Micro's internal auditing program, including reviewing staffing levels and steps taken to implement recommended improvements in internal controls. The Audit Committee discusses these matters with Ingram Micro's independent registered public accounting firm and with appropriate Company management and internal auditors.

The Audit Committee meets at least five times per year, in executive sessions with Ingram Micro's independent registered public accounting firm, and periodically with Ingram Micro's internal auditors, in each case without the presence of Ingram Micro's management.

The Audit Committee appoints Ingram Micro's independent registered public accounting firm for the purpose of issuing an audit report on Ingram Micro's annual financial statements or performing related work and approves the firm's compensation.

As part of its oversight of Ingram Micro's financial statements, the Audit Committee reviews and discusses with both management and Ingram Micro's independent registered public accounting firm all annual and quarterly financial statements,

including reviewing Ingram Micro’s specific disclosures under “Management’s Discussion and Analysis of Financial Condition and Results of Operations” prior to their issuance.

The Audit Committee reviewed and discussed with management Ingram Micro’s audited financial statements for the fiscal year ended December 28, 2013, including significant accounting and disclosure matters. Management has represented to the Audit Committee that the financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Audit Committee also discussed Ingram Micro’s earnings press releases, as well as financial information and outlook provided to analysts and rating agencies, in accordance with the NYSE corporate governance rules.

The Audit Committee received and reviewed the written disclosures and the letter from PwC required by applicable requirements of the Public Company Accounting Oversight Board regarding PwC’s communications with the Audit Committee concerning independence.

The Audit Committee discussed with PwC matters relating to its independence, including monitoring compliance with Ingram Micro’s pre-approval of non-audit services and performing a review of audit and non-audit fees. The Audit Committee also discussed with PwC the matters required to be discussed by Auditing Standard No. 16, Communications with Audit Committees, including the quality of Ingram Micro’s accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Ingram Micro’s Annual Report on Form 10-K for the fiscal year ended December 28, 2013, for filing with the SEC.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more shareholders sharing the same address by delivering a single proxy statement addressed to those shareholders. This process, which is commonly referred to as “householding,” potentially means extra convenience for shareholders and cost savings for companies. This year, a number of brokers with account holders who are Ingram Micro shareholders will be “householding” our proxy materials. A single proxy statement may be delivered to multiple shareholders sharing an address unless contrary instructions have been received from the affected shareholders. Once you have received notice from your broker that it will be “householding” communications to your address, “householding” will continue until you are notified otherwise or until you notify your broker or the Company that you no longer wish to participate in “householding.” If, at any time, you no longer wish to participate in “householding” and would prefer to receive a separate proxy statement and annual report, you may (1) notify your broker, (2) direct your written request to: Ingram Micro Inc., 1600 East Saint Andrew Place, Santa Ana, California 92705, Attention: Corporate Communications and Investor Relations Department or (3) contact our Investor Relations department by telephone at (714) 566-1000. Shareholders who currently receive multiple copies of the proxy statement or annual report at their address and would like to request “householding” of their communications should contact their broker. In addition, the Company will promptly deliver, upon written or oral request to the address or telephone number above, a separate copy of the annual report and proxy statement to a shareholder at a shared address to which a single copy of the documents was delivered.

ANNUAL REPORT

Our annual report for the fiscal year ended December 28, 2013, including the consolidated financial statements audited by PwC, independent registered public accounting firm, and their report thereon dated February 18, 2014, is being mailed to all shareholders with this proxy statement. In addition, a copy of our annual report, which includes our Form 10-K for the fiscal year ended December 28, 2013 (with exhibits 23.1, 31.1, 31.2, and 32.1 only), as filed with the SEC, will be sent to any shareholder without charge upon written request to: Ingram Micro Inc., 1600 East Saint Andrew Place, Santa Ana, California 92705, Attention: Corporate Communications and Investor Relations Department. Our annual report on Form 10-K can also be reviewed by accessing the SEC's Internet site at <http://www.sec.gov> or our Internet site at <http://www.ingrammicro.com>. This text is not an active link and our Internet site and the information contained on that site, or connected to that site, is not incorporated into this proxy statement.

OTHER MATTERS

As of the date of this proxy statement, we know of no business that will be presented for consideration at the annual meeting other than the items referred to above. If any other matter is properly brought before the meeting for action by shareholders, proxies in the enclosed form returned to us will be voted in accordance with the recommendation of the Board of Directors or, in the absence of such a recommendation, in accordance with the judgment of the proxy holders.

SHAREHOLDER PROPOSALS

Shareholders interested in submitting a proposal for inclusion in the proxy materials for our 2014 annual meeting of shareholders may do so by following the procedures prescribed in SEC Rule 14a-8. To be eligible for inclusion, our Corporate Secretary must receive shareholder proposals no later than December 22, 2014.

Shareholders may wish to have a proposal presented at the annual meeting of shareholders in 2015, but without the Company being required to include that proposal in the Company's proxy statement relating to that annual meeting. Such proposals must be received by the Corporate Secretary by March 7, 2015.

By order of the Board of Directors,

Larry C. Boyd
Executive Vice President,
Secretary and General Counsel
