REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator of
UnionBancorp, Inc. 401(k) Profit Sharing Plan
Ottawa, Illinois

We have audited the accompanying statement of net assets available for benefits of the UnionBancorp, Inc. 401(k) Profit Sharing Plan (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's Administrator. Our responsibility is to

Edgar Filing: UNIONBANCORP INC - Form 11-K

express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with U.S. generally accepted accounting principles

Our audit was conducted for the purpose of forming an opinion on the basic 2004 financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2004 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2004 financial statements taken as a whole.

UNIONBANCORP, INC.
401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the UnionBancorp, Inc. 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of UnionBancorp, Inc. (the Company) and certain of its subsidiaries, including UnionBank; UnionBank/West; UnionBank/Central; UnionBank/Northwest; and UnionFinancial Services and Trust Company. The Plan was established effective January 1, 1998 and covers all employees who have completed six months of service and are age 20 1/2 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The administrator of the Plan is UnionBancorp, Inc. (the Administrator) and the trustee of the Plan is UnionBank (the Trustee), which is a subsidiary of the Administrator. The Trustee is the custodian of the Plan's assets.

Contributions: Each year, participants may contribute up to the maximum allowed under Internal Revenue Code Sections 402(g) and 415 of their annual compensation. The Company can make a discretionary contribution, subject to certain limitations under applicable federal income tax laws and regulations, on an annual basis. The Company's discretionary contribution is allocated to participant accounts on the last day of the year based on the ratio of each participant's eligible compensation for the year to total eligible compensation for the year. The Company's discretionary matching contribution is allocated to participant accounts on the last day of the year based on each participant's voluntary contributions. The employer contributed 3% of eligible wages for the 2004 plan year.

Participant Accounts: Each participant's account is credited with that employee's contributions and an allocation of plan earnings. Employer contributions are allocated to participant accounts in proportion to employee contributions or employee compensation, as provided in the plan document. Plan earnings are allocated to participant accounts in proportion to the participant's account balance to total account balances in each investment. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Upon termination of a participant, the portion of the employer contribution account not vested will be forfeited and allocated to eligible participants as of the last day of the plan year for which the terminated participant receives a distribution.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon attainment of early retirement age (55) and completion of seven years of service or attainment of normal retirement age (65), death, or disability.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting: Participants are immediately vested in their voluntary contributions and any employer safe-harbor contributions plus actual earnings thereon. In the event that the Company makes matching contributions, a participant would be 100% vested after seven years of service. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested after seven years of credited service in accordance with the table below.

Years of Service -----	Percent Vested -----
Less than three	0%
Three	20
Four	40
Five	60
Six	80
Seven	100

Payment of Benefits: Upon retirement, death, disability, or other termination of employment with the Company, participants or designated beneficiaries may receive distributions of their vested accounts in lump-sum amounts.

Loan Provisions: Participants may borrow up to 50% of their account balance up to a maximum of \$50,000. Loan transactions are treated as a transfer from the investment fund to the participant notes fund. Loan terms range from one to five years except for the purchase of a primary residence which may be for a reasonable period of time. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the local prevailing rates as determined quarterly by the Plan administrator. Interest rates on loans outstanding at December 31, 2004 range from 5.0% to 10.5%. Principal and interest are paid ratably through semi-monthly payroll deductions, and repayments are reinvested into the participant's account according to the current investment election.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions in the investment options made available by the Administrator. The employee may elect to direct these contributions in multiples of 10%. Employer contributions are allocated in the same percentages that the employee has elected. The investment options are derived from a combination of various mutual funds and a money market fund. Plan participants are allowed to reallocate funds between investment options on a daily basis.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Accounting Method: The Plan uses the accrual basis of accounting based on accounting principles generally accepted in the United States of America.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investments: Investments in mutual funds are stated at quoted market prices. The fair value of money market accounts is the amount payable on demand at the reporting date. Investments in common stock are stated at fair value. The fair value of common stock is determined by a quoted market price. Purchases and sales of investments are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned. Participant loans are carried at their remaining balance, which approximates fair value.

Risks and Uncertainties: The Plan provides for various investment options in mutual funds and employer stock. The underlying investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and the participants' individual account balances.

NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of the Plan's termination, participants will become 100% vested in their accounts.
