**REPORT ON REVIEW BY INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

Board of Directors  
Entrust Financial Services, Inc.  
Denver, CO

We have reviewed the accompanying balance sheet of Entrust Financial Services, Inc. as of September 30, 2002 and the related statements of operations for the three and nine-month period ended September 30, 2002 and 2001, and the cash flows for the nine-months ended September 30, 2002 and 2001 included in the accompanying Securities and Exchange Commission Form 10-QSB for the period ended September 30, 2002. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with accounting standards generally accepted in the United States, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with generally accepted auditing standards, the balance sheet as of December 31, 2001, and the related statements of operations, stockholders' equity and cash flows for the year then ended (not presented herein). In our report dated April 3, 2002, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance

## Edgar Filing: ENTRUST FINANCIAL SERVICES INC - Form 10QSB/A

sheet as of September 30, 2002 is fairly stated in all material respects in relation to the balance sheet from which it has been derived.

### ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### Results of Operations:

In the first nine months of 2002, Entrust Mortgage, Inc., our wholly owned subsidiary, funded a total of \$171,939,490 in loans as compared to \$124,881,000 in loans for the same period ended September 30, 2001. This is an approximate 38% increase in loans funded over the comparable period in 2001. We fund non-conforming mortgages using our warehouse lines of credit to fund loan closings in order to sell the mortgages in the secondary market for a profit. We also earn fees paid by the borrower on mortgages we fund, and interest on the loans held for sale. The price the secondary markets pay for Entrust loans is determined by many economic factors. We make every effort to lock our loan rates with our secondary markets to maintain a constant margin on our mortgage loans sold. We also earn an overall positive spread on interest rates while our loans are held for sale. Certain fixed cost are the same regardless of the loan volume, so the more business we transact, the lower percentage of our volume these expenses will become.

We were profitable for the nine months ended September 30, 2002. This marks our sixth straight quarter of profitability. Revenues were also significantly higher for the same three months and nine months ended September 30, 2002 compared to the same period in the previous year. The source of our profit comes from a continuing increase in loan origination fees and interest income from increased funding volume. For the three months ended September 30, 2002, we had total revenues of \$3,309,554 compared to revenues of \$3,095,976 for the same period ending September 30, 2001. For the three months ended September 30, 2002, we had total operating expenses of \$3,168,389 compared to \$2,729,156 for the same period in 2001. Earnings were \$141,165 for these three months as compared to earnings of \$366,820 for the same period in 2001. Our payroll increased operating expenses include the payroll cost of adding to our management team, stock compensation paid to the expanded Advisory Board, expensing of warrants yet to be exercised, and the increased upfront expenses associated with our expansion. For the nine months ended September 30, 2002 we had total revenues of \$9,187,574, compared to total revenues of \$7,207,304 for the same period ended September 30, 2001. Total operating expenses for the nine months ended September 30, 2002 were \$8,621,113 compared to expenses of \$6,704,531 for the same period ended September 30, 2001. The major components of operating expenses are independent contractor fees, commissions, payroll and associated payroll costs, general and health insurance costs, rent and telephone expenses. We had a net profit of \$566,461, or approximately \$0.24 cents per share on a fully diluted basis for the nine months ended September 30, 2002, compared to a profit of \$502,773, or approximately \$0.20 cents per share on a fully diluted basis for the same period ended September 30, 2001.

Also, during the last fiscal quarter, we expensed \$77,000 for warrants we issued, but which have not yet be exercised. Even if these warrants are never exercised, the warrants will remain expensed. While we believe that such an expense should be taken when the warrants are exercised, and a discount to market price is realized, we adopted this accounting methodology, which is a new accounting requirement of the SEC. This new methodology will have the effect of lowering our earnings in fiscal quarters where warrants or options are issued by us.

Our mortgage operations continue to contribute most to our overall profitability. To maximize the benefit of this profitable sector in a market favorable to the mortgage industry, we plan to focus our expansion efforts and capital expenditures in our subsidiary Entrust Mortgage.

In the third quarter, we added to our upper management team, and have begun expansion of our mortgage operations. As a subsequent event in October 2002, we added approximately 2,000 additional square feet of office space to our Denver based headquarters. We added this space to accommodate our expansion plans. We believe that we should begin seeing the results of this expansion in the first quarter of 2003.

During this quarter, we made application for listing on the American Stock Exchange.

---

Liquidity and Capital Resources:

As of the end of the reporting period, we had cash or cash equivalents of \$717,730, compared to \$789,531 for the previous year:

Net cash used by our operating activities was \$4,863,418 for the nine months ended September 30, 2002, compared to net cash used of \$5,472,453 for the nine months ended September 30, 2001.

Cash flows used for investing activities was \$276,087 for the nine months ended September 30, 2002, compared to \$71,642 for the nine months ended September 30, 2001.

Cash flows provided from our financing activities accounted for \$4,998,387 for the nine months ended September 30, 2002, compared to \$6,225,507 for the nine months ended September 30, 2001. These amounts are primarily related to the use of our warehousing lines of credit.

At our current level of operations, our cash and cash equivalents are sufficient to meet our requirements. We are considering financing to fund our business expansion requirements, but have no specific plans at this time. Otherwise, we have no plans, proposals, arrangements, or understandings with respect to the sale or issuance of additional securities by us. We do not intend to pay dividends in the foreseeable future.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**
