PART I

Item 1. Description of Business.

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

Business Development.

Organization and Charter Amendments.

Piezo Instruments, Inc. (the "Company") was organized under the laws of the State of Utah on April 10, 1984 under the name "Core-Tech, Inc.", to engage in any lawful purpose.

The Company's initial authorized capital was \$50,000.00 consisting of 50,000,000 shares of one mill (\$.001) par value common voting stock. A copy of the Company's initial Articles of Incorporation is attached hereto and is incorporated herein by reference. See Part III, Item 1.

On November 12, 1985, the Company's Articles of Incorporation were amended to reflect a name change from "Core-Tech, Inc." to "Piezo Instruments, Inc." A copy of the Articles of Amendment to the Articles of Incorporation is attached hereto and is incorporated herein by reference. See Part III, Item 1.

On August 17, 1990 the Company was reinstated with the State of Utah after being suspended on June 12, 1990, for failure to file an annual report.

Material Changes in Control Since Inception and Related Business History.

On August 31, 1985, the Company acquired 100% of the issued and outstanding shares or subscriptions to purchase shares of common voting stock of Piezo Instruments, Inc., a Utah Corporation, in exchange for the issuance of 14,800,000 shares of the Company's "unregistered" and "restricted" common voting stock.

On June 14, 1984, pursuant to rule 504 of Regulation D of the Securities and Exchange Commission, the Company commenced the offer and sale to the public of 2,500,000 shares of its common voting stock at a price of \$.01 per share, for the total sum of \$25,000. The offering was completed on October 5, 1984.

Until 1987, the Company engaged in engineering, research, development, and merchandising of electronic and electronic and electromechanical devices, equipment, and accessories. The Company's activities were unsuccessful and it ceased active operations in 1987.

Business.

Other than the above-referenced matters and seeking and investigating potential assets, properties or businesses to acquire, the Company has had no business operations for over 5 years. To the extent that the Company intends to continue to seek the acquisition of assets, property or business that may benefit the Company and its stockholders, it is essentially a "blank check" company. Because the Company has limited assets and conducts no business, management anticipates that any such acquisition would require it to issue shares of its common stock as the sole consideration for the acquisition. This may result in substantial dilution of the shares of current stockholders. The Company's Board of Directors shall make the final determination whether to complete any such acquisition; the approval of stockholders will not be sought unless required by applicable laws, rules and regulations, its Articles of Incorporation or Bylaws, or contract. The Company makes no assurance that any future enterprise will be profitable or successful.

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

The Company is not currently engaging in any substantive business activity and has no plans to engage in any such activity in the foreseeable future. In its present form, the Company may be deemed to be a vehicle to acquire or merge with a business or company. The Company does not intend to restrict its search to any particular business or industry, and the areas in which it will seek out acquisitions, reorganizations or mergers may include, but will not be limited to, the fields of high technology, manufacturing, natural resources, service, research and development, communications, transportation, insurance, brokerage, finance and all medically related fields, among others. The Company recognizes that the number of suitable potential business ventures that may be available to it may be extremely limited, and may be restricted to entities who desire to avoid what these entities may deem to be the adverse factors related to an initial public offering ("IPO"). The most prevalent of these factors include substantial time requirements, legal and accounting costs, the inability to obtain an underwriter who is willing to publicly offer and sell shares, the lack of or the inability to obtain the required financial statements for such an undertaking, limitations on the amount of dilution to public investors in comparison to the stockholders of any such entities, along with other conditions or requirements imposed by various federal and state securities laws, rules and regulations. Any of these types of entities, regardless of their prospects, would require the Company to issue a substantial number of shares of its common stock to complete any such acquisition, reorganization or merger, usually amounting to between 80 and 95 percent of the outstanding shares of the Company following the completion of any such transaction; accordingly, investments in any such private entity, if available, would be much more favorable than any investment in the Company.

In the event that the Company engages in any transaction resulting in a change of control of the Company and/or the acquisition of a business, the Company will be required to file with the Commission a Current Report on Form 8-K within 15 days of such transaction. A filing on Form 8-K also requires the filing of audited financial statements of the business acquired, as well as pro forma financial information consisting of a pro forma condensed balance sheet, pro forma statements of income and accompanying explanatory notes.

Management intends to consider a number of factors prior to making any decision as to whether to participate in any specific business endeavor, none of which may be determinative or provide any assurance of success. These may include, but will not be limited to an analysis of the quality of the entity's management personnel; the anticipated acceptability of any new products or marketing concepts; the merit of technological changes; its present financial condition, projected growth potential and available technical, financial and managerial resources; its working capital, history of operations and future prospects; the nature of its present and expected competition; the quality and experience of its management services and the depth of its management; its potential for further research, development or exploration; risk factors specifically related to its business operations; its potential for growth, expansion and profit; the perceived public recognition or acceptance of its products, services, trademarks and name identification; and numerous other factors which are difficult, if not impossible, to properly or accurately analyze, let alone describe or identify, without referring to specific objective criteria.

Regardless, the results of operations of any specific entity may not necessarily be indicative of what may occur in the future, by reason of changing market strategies, plant or product expansion, changes in product emphasis, future management personnel and changes in innumerable other factors. Further, in the case of a new business venture or one that is in a research and development mode, the risks will be substantial, and there will be no objective criteria to examine the effectiveness or the abilities of its management or its

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

business objectives. Also, a firm market for its products or services may yet need to be established, and with no past track record, the profitability of any such entity will be unproven and cannot be predicted with any certainty.

Management will attempt to meet personally with management and key personnel of the entity sponsoring any business opportunity afforded to the Company, visit and inspect material facilities, obtain independent analysis or verification of information provided and gathered, check references of management and key personnel and conduct other reasonably prudent measures calculated to ensure a reasonably thorough review of any particular business opportunity; however, due to time constraints of management, these activities may be limited.

The Company is unable to predict the time as to when and if it may actually participate in any specific business endeavor. The Company anticipates that proposed business ventures will be made available to it through personal contacts of directors, executive officers and principal stockholders, professional advisors, broker dealers in securities, venture capital personnel, members of the financial community and others who may present unsolicited proposals. In certain cases, the Company may agree to pay a finder's fee or to otherwise compensate the persons who submit a potential business endeavor in which the Company eventually participates. Such persons may include the Company's directors, executive officers, beneficial owners or their affiliates. In this event, such fees may become a factor in negotiations regarding a potential acquisition and, accordingly, may present a conflict of interest for such individuals.

Although the Company has not identified any potential acquisition target, the possibility exists that the Company may acquire or merge with a business or company in which the Company's executive officers, directors, beneficial owners or their affiliates may have an ownership interest. Current Company policy does not prohibit such transactions. Because no such transaction is currently contemplated, it is impossible to estimate the potential pecuniary benefits to these persons.

Further, substantial fees are often paid in connection with the completion of these types of acquisitions, reorganizations or mergers, ranging from a small amount to as much as \$250,000. These fees are usually divided among promoters or founders, after deduction of legal, accounting and other related expenses, and it is not unusual for a portion of these fees to be paid to members of management or to principal stockholders as consideration for their agreement to retire a portion of the shares of common stock owned by them. In the event that such fees are paid, they may become a factor in negotiations regarding any potential acquisition by the Company and, accordingly, may present a conflict of interest for such individuals.

Principal Products and Services.

The limited business operations of the Company, as now contemplated, involve those of a "blank check" company. The only activities to be conducted by the Company are to manage its current limited assets and to seek out and investigate the acquisition of any viable business opportunity by purchase and exchange for securities of the Company or pursuant to a reorganization or merger through which securities of the Company will be issued or exchanged.

Distribution Methods of the Products or Services.

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

Management will seek out and investigate business opportunities through every reasonably available fashion, including personal contacts, professionals, securities broker dealers, venture capital personnel, members of the financial community and others who may present unsolicited proposals; the Company may also advertise its availability as a vehicle to bring a company to the public market through a "reverse" reorganization or merger.

Status of any Publicly Announced New Product or Service.

None; not applicable.

Competitive Business Conditions.

Management believes that there are literally thousands of "blank check" companies engaged in endeavors similar to those engaged in by the Company; many of these companies have substantial current assets and cash reserves. Competitors also include thousands of other publicly-held companies whose business operations have proven unsuccessful, and whose only viable business opportunity is that of providing a publicly-held vehicle through which a private entity may have access to the public capital markets. There is no reasonable way to predict the competitive position of the Company or any other entity in the strata of these endeavors; however, the Company, having limited assets and cash reserves, will no doubt be at a competitive disadvantage in competing with entities which have recently completed IPO's, have significant cash resources and have recent operating histories when compared with the complete lack of any substantive operations by the Company for the past several years.

Sources and Availability of Raw Materials and Names of Principal Suppliers.

None; not applicable.

Dependence on One or a Few Major Customers.

None; not applicable.

Patents, Trademarks, Licenses, Franchises, Concessions, Royalty Agreements or Labor Contracts.

None; not applicable.

Need for any Governmental Approval of Principal Products or Services.

Because the Company currently produces no products or services, it is not presently subject to any governmental regulation in this regard. However, in the event that the Company engages in a merger or acquisition transaction with an entity that engages in such activities, it will become subject to all governmental approval requirements to which the merged or acquired entity is subject.

Effect of Existing or Probable Governmental Regulations on Business.

The integrated disclosure system for small business issuers adopted by the Commission in Release No. 34-30968 and effective as of August 13, 1992, substantially modified the information and financial requirements of a "Small

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

Business Issuer," defined to be an issuer that has revenues of less than \$25 million; is a U.S. or Canadian issuer; is not an investment company; and if a majority-owned subsidiary, the parent is also a small business issuer; provided, however, an entity is not a small business issuer if it has a public float (the aggregate market value of the issuer's outstanding securities held by non-affiliates) of \$25 million or more.

The Commission, state securities commissions and the North American Securities Administrators Association, Inc. ("NASAA") have expressed an interest in adopting policies that will streamline the registration process and make it easier for a small business issuer to have access to the public capital markets. The present laws, rules and regulations designed to promote availability to the small business issuer of these capital markets and similar laws, rules and regulations that may be adopted in the future will substantially limit the demand for "blank check" companies like the Company, and may make the use of these companies obsolete.

Research and Development.

None; not applicable.

Cost and Effects of Compliance with Environmental Laws.

None; not applicable. However, environmental laws, rules and regulations may have an adverse effect on any business venture viewed by the Company as an attractive acquisition, reorganization or merger candidate, and these factors may further limit the number of potential candidates available to the Company for acquisition, reorganization or merger.

Number of Employees.

None.

Item 2. Description of Property.

The Company has no assets, property or business; its principal executive office address and telephone number are the business office address and telephone number of its Director, Valerie Keating, and are currently provided at no cost. Because the Company has had no business, its activities will be limited to keeping itself in good standing in the State of Utah, seeking out acquisitions, reorganizations or mergers and preparing and filing the appropriate reports with the Securities and Exchange Commission. These activities have consumed an insubstantial amount of management's time.

Item 3. Legal Proceedings.

The Company is not a party to any pending legal proceeding. To the knowledge of management, no federal, state or local governmental agency is presently contemplating any proceeding against the Company. No director, executive officer or affiliate of the Company or owner of record or beneficially of more than five percent of the Company's common stock is a party adverse to the Company or has a material interest adverse to the Company in any proceeding.

Item 4. Submission of Matters to a Vote of Security Holders.

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

No matter was submitted to a vote of the Company's security holders during the fourth quarter of the calendar year covered by this Report or during the two previous calendar years. Further, there have been no meetings of stockholders since before 1989.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters.

Market Information

There is no established "public market" for shares of common stock of the Company. The Company's common stock is listed on the OTC Bulletin Board of the National Association of Securities Dealers ("NASD") under the symbol "PIEZ". In any event, no assurance can be given that an established market for the Company's common stock will develop or be maintained.

The National Quotation Bureau has provided the following closing bid and ask quotations on the Company's common stock:

2001	CLOSING BID		CLOSING ASK	
	HIGH	LOW	HIGH	LOW
Nov. 20 (First Avail.)				
Thru	.02	.01	NONE	NONE
Dec. 31				

Holdings

The number of record holders of the Company's common stock as of March 15, 2002, is approximately 205.

Dividends

The Company has not declared any cash dividends with respect to its common stock and does not intend to declare dividends in the foreseeable future. The future dividend policy of the Company cannot be ascertained with any certainty, and until the Company completes any acquisition, reorganization or merger, as to which no assurance may be given, no such policy will be formulated. There are no material restrictions limiting, or that are likely to limit, the Company's ability to pay dividends on its common stock.

Sales of "Unregistered" and "Restricted" Securities Over The Past Three Years.

None;

Item 6. Management's Discussion and Analysis or Plan of Operation.

Plan of Operation.

The Company has not engaged in any material operations or had any revenues from operations during the last two calendar years. The Company's plan of

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

operation for the next 12 months is to continue to seek the acquisition of assets, properties or businesses that may benefit the Company and its stockholders. Management anticipates that to achieve any such acquisition, the Company will issue shares of its common stock as the sole consideration for such acquisition.

During the next 12 months, the Company's only foreseeable cash requirements will relate to maintaining the Company in good standing or the payment of expenses associated with reviewing or investigating any potential business venture, which the Company expects to pay from its cash resources. As of December 31, 2001 it had no cash or cash equivalents. If additional funds are required during this period, such funds may be advanced by management or stockholders as loans to the Company. Because the Company has not identified any such venture as of the date of this Report, it is impossible to predict the amount of any such loan. However, any such loan should not exceed \$25,000 and will be on terms no less favorable to the Company than would be available from a commercial lender in an arm's length transaction. As of the date of this Report, the Company is not engaged in any negotiations with any person regarding any such venture.

Results of Operations.

Other than seeking the acquisition of assets, properties or businesses that may benefit the Company and its stockholders, the Company has had no material business operations in the two most recent calendar years, or in the last five years.

At December 31, 2001, the Company's had no assets. See the Index to Financial Statements, Item 7 of this Report.

Liquidity.

INDEPENDENT AUDITORS' REPORT

Board of Directors and Stockholders
PIEZO INSTRUMENTS, INC.
Salt Lake City, Utah

We have audited the accompanying balance sheet of Piezo Instruments, Inc. [a development stage company] as of December 31, 2001, and the related statements of stockholders' equity/(deficit), operations, and cash flows for the years ended December 31, 2001 and 2000, and for the period from reinstatement [August 17, 1990] through December 31, 2001. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United State of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Piezo Instruments, Inc., as of December 31, 2001, and the results of operations and cash flows for the years ended December 31, 2001 and 2000, and for the period from reinstatement [August 17, 1990] through December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that Piezo Instruments, Inc. will continue as a going concern. As discussed in Note D to the financial statements, the Company has accumulated losses from reinstatement and presently has no prospects for commencing operations or generating revenue. These issues raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note D. The financial statements do not include any adjustment that might result from the outcome of this uncertainty.

PIEZO INSTRUMENTS, INC.
Notes to Financial Statements
December 31, 2001

NOTE A Summary of Significant Accounting Policies

Company Background

The Company originally incorporated under the laws of the State of Utah on April 10, 1984 using the name Core-Tech, Inc., to engage in various activities in the natural resources industry. On October 15, 1985 the Company entered into an agreement and plan of reorganization whereby Core-Tech, Inc. would acquire 100% of all outstanding shares of Piezo Instruments, Inc., a Utah Corporation. Core-Tech, Inc. issued 14,800,000 shares of \$.001 par value stock to the shareholders of Piezo Instruments, Inc. The acquisition of Piezo Instruments, Inc. by Core-Tech, Inc. was considered a "pooling of interests." At the annual meeting held on November 12, 1985, the stockholders of Core-Tech, Inc. voted to change the name of the Company to Piezo Instruments, Inc. and expanded the purpose of the Company to include the design, development, and marketing of electrical and other devices. The Company was not successful in this endeavor and eventually ceased all attempts. In 1990, the Company was reinstated but remains dormant. Piezo Instruments, Inc., is considered to be a development stage company.

Income Taxes

The Company applies Statement of Financial Accounting Standard (SFAS) No. 109, "Accounting For Income Taxes," which requires the asset and liability method of accounting for income taxes. The asset and liability method requires that the current or deferred tax consequences of all events recognized in the financial statements are measured by applying the

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

provisions of enacted tax laws to determine the amount of taxes payable or refundable currently or in future years. See Note C below.

Net Loss Per Common Share

Net loss per common share is based on the weighted average number of shares outstanding.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE B Cash

Cash is comprised of cash on hand or on deposit in banks. The Company has no cash as of December 31, 2001.

December 31, 2001

NOTE C Accounting for Income Taxes

Below is a summary of deferred tax asset calculations on net operating loss carry forward amounts. Loss carry forward amounts expire through 2021. A valuation allowance is provided when it is more likely than not that some portion of the deferred tax asset will not be realized. For the years ended December 31, 2001 and 2000, the Company had no income tax expenses due to operating losses during those periods. Any deferred tax benefit arising from the operating losses carried forward, would be offset entirely by a valuation allowance since it is not likely that the Company will be sufficiently profitable in the future to take advantage of the losses. The Company has no timing differences.

Deferred tax assets	Balance	Tax	Rate
Federal Loss carryforward (expires through 2021)	\$29,430	\$4,415	15%
State Loss carryforward (expires through 2016)	28,230	1,411	5%
Valuation allowance		(5,826)	
		\$0	
Deferred tax asset		\$0	

The allowance has increased \$1,465 from \$4,361 as of December 31, 2000. The amount shown on the balance sheet for income taxes payable represents the annual minimum franchise tax amount due to the State of Utah.

Edgar Filing: PIEZO INSTRUMENTS INC - Form 10KSB/A

NOTE D Liquidity

The Company has accumulated losses since reinstatement totaling \$29,430, has no assets and no operations at December 31, 2001. Financing for the Company's limited activities to date has been primarily provided by borrowing from a stockholder. The Company's ability to achieve a level of profitable operations and/or additional financing impacts the Company's ability to continue as it is presently organized. Management is currently seeking a well-capitalized merger candidate in order to commence its operations. Should management be unsuccessful in its merger activities, it will have a material adverse effect on the Company.

NOTE E Stockholder Loan

Stockholders have paid expenses and taxes on behalf of the Company in the amount of \$7,350 during the year ended December 31, 2001, \$2,076 during the year ended December 31, 2000, and \$19,904 in prior years. The Company has recorded a liability for these expenses to the stockholders. The unsecured loan bears no interest and is due on demand.

NOTE F Cancellation of Shares

In May, 1999, the Company canceled 1,000,000 shares of common stock that had been issued as part of an exchange of securities with another corporation in 1986. The original transaction was voided when planned operations never materialized and the shares were returned to the Company. All weighted average number of shares amounts presented in this report have been restated to reflect the cancellation of these shares retroactive to the reinstatement date.
