PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. You should read this entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference carefully, including the section entitled Risk Factors in our Annual Report on Form 10-K filed March 12, 2008 and incorporated herein by reference, before making an investment decision with respect to our common stock. Unless the context otherwise requires, references in this prospectus supplement to Arena, we, us, our or ours refer to Arena Resources, Inc. Terms used in this prospectus supplement will have the meanings ascribed to them in the base prospectus, unless otherwise specified. Unless indicated, all information presented in this prospectus supplement assumes that the underwriters' option to purchase additional shares to cover over-allotments is not exercised.

You should rely only on the information contained in this prospectus supplement and accompanying prospectus, including the documents incorporated by reference. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it.

About Our Company

We are engaged in oil and natural gas acquisition, exploration, development and production, with activities currently in Oklahoma, Texas, New Mexico and Kansas. Our current strategy is on developing our existing properties, while continuing to pursue acquisitions of oil and gas properties that provide immediate cash flow with upside development potential.

Since our inception in August 2000, we have built our asset base and achieved growth primarily through property acquisitions. From our inception through December 31, 2007, we have increased our proved reserves to approximately 55.4 million barrels of oil equivalent, or Boe. These reserves have been included in our Annual Reports on Form 10-K as filed with the Securities and Exchange Commission, or SEC, but have not been reported to any other federal agency. As of December 31, 2007, our estimated proved reserves had a pre-tax present value of future net revenues before income taxes discounted at 10%, or PV10, of approximately \$1.98 billion and a Standardized Measure of Discounted Future Net Cash Flows of approximately \$1.28 billion. The difference between these two amounts is the effect of income taxes. The Company presents the pre-tax PV-10 value, which is a non-GAAP financial measure, because it is a widely used industry standard which we believe is useful to those who may review this prospectus or our Annual Report on Form 10-K when comparing our asset base and performance to other comparable oil and gas exploration and production companies. We spent approximately \$302.8 million on acquisitions and capital projects during 2005, 2006 and 2007.

We have a portfolio of oil and natural gas reserves, with approximately 86% of our proved reserves consisting of oil and approximately 14% consisting of natural gas. Of those reserves approximately 26% of our proved reserves are classified as proved developed producing, or PDP, approximately 6% of our proved reserves are classified as proved developed non-producing, or PDNP, approximately 4% are classified as proved developed behind pipe, or PDBP, and approximately 64% are classified as proved undeveloped, or PUD.

Our estimates of proved reserves and related valuations as of December 31, 2007 are based on an analysis prepared by Lee Keeling and Associates, Inc., independent petroleum geological engineers.

Edgar Filing: ARENA RESOURCES INC - Form 424B2

Although our focus will be on development of our existing properties, we also intend to continue seeking acquisition opportunities which complement our current portfolio. We intend to fund our development activity primarily through use of a portion of the proceeds of this offering, from potential future offerings, from cash flow from operations and cash on hand; however, potential drawings on our credit facility would also be available for development projects or future acquisitions.

Recent Developments Subsequent to Our Year Ending December 31, 2007

Subsequent to December 31, 2007, in addition to matters that were reported by us in our Annual Report on Form 10-K for the year ended December 31, 2007, or which were thereafter reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, or in our Current Report on Form 8-K filed with the SEC on May 23, 2008 (see, Incorporation of Certain Documents by Reference), the following have occurred:

We borrowed an additional \$5,500,000 under our credit facility, which we have used or intend to use for continued development activities.

We issued an option to Mr. David Ricks, our Vice President of Operations, for 50,000 shares of our common stock. This option vests at the rate of 20% per year, and is exercisable at \$45.68 per share. The fair value of this option was \$915,270 based on the following assumptions: 3.09% interest rate, 45.12% volatility, 4.25 average expected life, and 0% dividend rate.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the discussion of risks under the section entitled "Risk Factors" in our Annual Report on Form 10-K filed March 12, 2008, under the heading "Risk Factors" beginning on page 3 of the base prospectus and in the documents we have incorporated by reference in this prospectus supplement that may materially affect our business, before making an investment decision related to our common stock. UNDERWRITING

Under the terms and subject to the conditions in an underwriting agreement dated May 28, 2008, the underwriters named below, for whom Dahlman Rose & Company, LLC is acting as representative, have severally agreed to purchase and we have agreed to sell to them, severally, the number of shares of common stock indicated below:

Name	Number of Shares
Dahlman Rose & Company, LLC	1,305,000
Tudor, Pickering, Holt & Co. Securities, Inc.	543,750
Capital One Southcoast, Inc.	326,250

The address for Dahlman Rose & Company is 142 West 57th Street, New York, New York. The address for Tudor, Pickering, Holt & Co. is 1111 Bagby, Suite 5100, Houston, Texas. The address for Capital One Southcoast, Inc. is 909 Poydras Street, Suite 1000, New Orleans, Louisiana.

The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for the shares of common stock covered by the underwriters over-allotment option described below.

The underwriters initially propose to offer part of the shares of common stock directly to the public at the offering price listed on the cover page of this prospectus supplement and part to certain dealers at that price less a concession not in excess of \$.05 per share. If all the shares are not sold at the public offering price, the representative may change the offering price and the other selling terms.

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to 326,250 additional shares of common stock at the purchase price listed above. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with the offering of the shares of common stock offered by this prospectus supplement. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares of common stock as the number listed next to the underwriter's name in the preceding table bears to the total number of shares of common stock listed next to the names of all underwriters in the preceding table.

The following table shows the per share and total purchase price, underwriting discounts and commissions, and proceeds before expenses to us. These amounts are shown assuming both no exercise and full exercise of the underwriter's option to purchase up to an additional 326,250 shares of common stock.

		Total	
	Per Share	No Exercise	Full Exercise
Purchase price	\$ 47.75	\$ 103,856,250	\$ 119,434,688

Proceeds, before expenses, to us	\$ 46.50	\$ 101,137,500	\$ 116,308,125

The estimated offering expenses payable by us, exclusive of the underwriting discounts and commissions, are approximately \$200,694.

Our shares of common stock are listed on the New York Stock Exchange under the trading symbol **ARD**.

Edgar Filing: ARENA RESOURCES INC - Form 424B2

We and each of our officers and directors listed under the caption Executive Officers and Directors in Item 10 of our annual report on Form 10-K for the fiscal year ended December 31, 2007 have agreed that, subject to specified exceptions, without the prior written consent of Dahlman Rose & Company, LLC on behalf of the underwriters, we and it will not, during the period ending 75 days from the date of this prospectus supplement:

directly or indirectly, issue, offer, sell, agree to issue, offer or sell, solicit offers to purchase, grant any call option, warrant or other right to purchase, purchase any put option or other right to sell, pledge, borrow or otherwise dispose of any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock, or make any announcement of, or filing with the SEC with respect to, any of the foregoing; or

enter into any swap, derivative or other transaction or arrangement that transfers to another, in whole or in part, any economic consequence of ownership of any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock;

whether any such transaction described above is to be settled by delivery of shares of common stock or such other securities, in cash or otherwise. In addition, each such person agrees that, without the prior written consent of Dahlman Rose & Company, LLC on behalf of the underwriters, it will not, during the period ending 75 days after the date of this prospectus supplement, exercise any right with respect to the registration of any shares of common stock or any security convertible into or exercisable or exchangeable for shares of common stock.

In order to facilitate the offering of shares of common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the shares of common stock. Specifically, the underwriters may sell more shares of common stock than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares of common stock available for purchase by the underwriters under the over-allotment option. The underwriters can close out a covered short sale by exercising the over-allotment option or purchasing shares of common stock in the open market. In determining the source of shares of common stock to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares of common stock compared to the price available under the over-allotment option. The underwriters may also sell shares of common stock in excess of the over-allotment option, creating a naked short position. The underwriters must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares of common stock in the open market after pricing that could adversely affect investors who purchase in this offering. As an additional means of facilitating this offering, the underwriters may bid for, and purchase, shares of common stock in the open market to stabilize the price of the shares of common stock. These activities may raise or maintain the market price of the shares of common stock above independent market levels or prevent or retard a decline in the market price of the shares of common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

We and the underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the underwriters may be required to make in respect of those liabilities.

A prospectus supplement in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. Dahlman Rose & Company, LLC may agree to allocate a number of shares of common stock for sale to its online brokerage account holders. Internet distributions will be allocated by the representative to underwriters that may make internet distributions on the same basis as other allocations.

Edgar Filing: ARENA RESOURCES INC - Form 424B2

Some of the underwriters and their affiliates were underwriters in previous offerings by us. Dahlman Rose & Company, LLC (142 West 57th Street, New York, New York) and its affiliates from time to time perform investment banking and other financial services for us and our affiliates for which they receive customary advisory or transaction fees, as applicable, plus out-of-pocket expenses.

This summary highlights information contained or incorporated by reference in this prospectus. You should read this entire prospectus carefully, including Risk Factors and the documents incorporated by reference, before making an investment decision with respect to our common stock. Unless the context otherwise requires, references in this prospectus to Arena, we, us, our or ours refer to Arena Resources, Inc.

You should rely only on the information contained in this prospectus, including the documents incorporated by reference. We have not authorized any other person to provide you with different information. If anyone provides you with different or inconsistent information, you should not rely on it.

About Our Company

We are engaged in oil and natural gas acquisition, exploration, development and production, with activities currently in Oklahoma, Texas, New Mexico and Kansas. Our current strategy is on developing our existing properties, while continuing to pursue acquisitions of oil and gas properties that provide immediate cash flow with upside development potential.

Since our inception in August 2000, we have built our asset base and achieved growth primarily through property acquisitions. From our inception through December 31, 2007, we have increased our proved reserves to approximately 55.4 million barrels of oil equivalent, or Boe. These reserves have been included in our Annual Reports on Form 10-K as filed with the SEC, but have not been reported to any other federal agency. As of December 31, 2007, our estimated proved reserves had a pre-tax present value of future net revenues before income taxes discounted at 10%, or PV10, of approximately \$1.98 billion and a Standardized Measure of Discounted Future Net Cash Flows of approximately \$1.28 billion. The difference between these two amounts is the effect of income taxes. The Company presents the pre-tax PV-10 value, which is a non-GAAP financial measure, because it is a widely used industry standard which we believe is useful to those who may review this prospectus or our Annual Report on Form 10-K when comparing our asset base and performance to other comparable oil and gas exploration and production companies. We spent approximately \$302.8 million on acquisitions and capital projects during 2005, 2006 and 2007.

We have a portfolio of oil and natural gas reserves, with approximately 86% of our proved reserves consisting of oil and approximately 14% consisting of natural gas. Of those reserves approximately 26% of our proved reserves are classified as proved developed producing, or PDP, approximately 6% of our proved reserves are classified as proved developed non-producing, or PDNP, approximately 4% are classified as proved developed behind pipe, or PDBP, and approximately 64% are classified as proved undeveloped, or PUD.

Our estimates of proved reserves and related valuations as of December 31, 2007 are based on an analysis prepared by Lee Keeling and Associates, Inc., independent petroleum geological engineers.

Although our focus will be on development of our existing properties, we also intend to continue seeking acquisition opportunities which complement our current portfolio. We intend to fund our development activity primarily through use of a portion of the proceeds of future offerings, from cash flow from operations and cash on hand; however, potential drawings on our credit facility would also be available for development projects or future acquisitions.

Recent Developments Subsequent to Our Year Ending December 31, 2007

Subsequent to December 31, 2007, in addition to matters that were reported by us in our Annual Report on Form 10-K for the year ended December 31, 2007, or which were thereafter reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, or in our Current Report on Form 8-K filed with the SEC on May 23, 2008 (see, "Incorporation of Certain Documents by Reference"), the following have occurred:

We borrowed an additional \$5,500,000 under our credit facility, which we have used or intend to use for continued development activities.

We issued an option to Mr. David Ricks, our Vice President of Operations, for 50,000 shares of our common stock. This option vests at the rate of 20% per year, and is exercisable at \$45.68 per share. The fair value of this option was \$915,270 based on the following assumptions: 3.09% interest rate, 45.12% volatility, 4.25 average expected life, and 0% dividend rate.

Common Stock

We intend to offer shares of our common stock, par value \$0.001 per share. In this prospectus we provide a general description of, among other things, our dividend policy and the methods by which the shares may be sold.

Corporate Information

Arena Resources, Inc. was incorporated in Nevada on August 31, 2000. Our principal executive offices are located at 6555 South Lewis Avenue, Tulsa, Oklahoma 74136, and our telephone number is (918) 747-6060.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the following risks and the risks and the discussion of risks under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007 and the documents we have incorporated by reference in this prospectus that summarize the risks that may materially affect our business before making an investment in our common stock. Please see "Incorporation of Certain Documents by Reference". In addition, you should also consider carefully the risks set forth under the heading "Risk Factors" in any prospectus supplement before investing in the securities offered by this prospectus. The occurrence of one or more of those risk factors could adversely impact our results of operations or financial condition.

Risks Relating to Our Business

If our indebtedness increases, it could reduce our financial flexibility.

We have a \$150 million credit facility in place with a current borrowing base of \$100 million. As of May 21, 2008, we had \$46,000,000 outstanding on our credit facility. If in the future we further utilize this facility, the level of our indebtedness could affect our operations in several ways, including the following:

- a significant portion of our cash flow could be used to service the indebtedness,
- a high level of debt would increase our vulnerability to general adverse economic and industry conditions,
- the covenants contained in our credit facility limit our ability to borrow additional funds, dispose of assets, pay dividends and make certain investments,
- a high level of debt could impair our ability to obtain additional financing in the future for working capital, capital expenditures, acquisitions, general corporate or other purposes.

Although we intend to utilize the proceeds from an offering under this prospectus, together with our anticipated cash flow from operations, to fund our projected capital expenditures and other operating costs through the remainder of this year, if market or other conditions cause us to delay selling all or any part of the shares offered hereunder, such delay could potentially result in our having to draw additional amounts under our line of credit.

In addition, our bank borrowing base is subject to semi-annual redeterminations. We could be forced to repay a portion of our bank borrowings due to redeterminations of our borrowing base. If we are forced to do so, we may not have sufficient funds to make such repayments. If we do not have sufficient funds and are otherwise unable to negotiate renewals of our borrowings or arrange new financing, we may have to sell significant assets. Any such sale could have a material adverse effect on our business and financial results.

The loss of senior management could adversely affect us.

To a large extent, we depend on the services of our senior management. The loss of our senior management Tim Rochford, our Chairman or Phillip Terry, our Chief Executive Officer could have a material adverse effect on our operations. While we have obtained key man life insurance policies on Mr. Rochford, any amount that we may recover under such policy may not adequately compensate us for the loss of the services of Mr. Rochford. We do not have employment agreements with either Mr. Rochford or Mr. Terry.

Risks Relating to Our Common Stock

The market price of our stock may be affected by a perceived market overhang.

Because we can offer an indeterminate number of shares of our common stock pursuant to the registration statement of which this prospectus is a part, it is possible that the market price of our common stock could be adversely impacted as a result of the uncertainty regarding the number of shares of our registered common stock that can be issued relatively easily into the market in the future at unknown prices.

Also, approximately 666,068 shares of our common stock are restricted shares under Rule 144, which could be currently sold under the provisions of that Rule.

Finally, as of May 21, 2008, there are warrants outstanding to purchase 258,708 shares of common stock, as well as options to purchase 2,680,000 shares of common stock (of which, options to acquire 875,000 shares are currently exercisable, with options to acquire an additional 980,000 shares vesting over the next two years, with the balance vesting over the next five years).

Substantial sales of our common stock, including shares issued upon the exercise of outstanding options and warrants, in the public market, or the perception that these sales could occur, may have a depressive effect on the market price of our common stock. Such sales or the perception of such sales could also impair our ability to raise capital or make acquisitions through the issuance of our common stock.

USE OF PROCEEDS

Unless we specify otherwise in any prospectus supplement, we will use the net proceeds from the sale of common stock offered in this prospectus to repay existing debt and for capital expenditures, which may include drilling and development of our properties, possible acquisitions of additional properties and any other purposes that we may specify. We may invest net proceeds temporarily until we use them for their stated purpose. We will not receive any proceeds from sales by selling shareholders.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock and we do not anticipate paying cash dividends in the foreseeable future. We currently intend to retain our earnings for use in our business. Future dividends on our common stock, if any, will be at the discretion of our board of directors and will depend on, among other things, our operations, capital requirements and surplus, general financial condition, contractual restrictions and such other factors as our board of directors may deem relevant. In addition, our credit facility prohibits us from paying dividends.

CAPITALIZATION

A prospectus supplement will include information on the Company's capitalization.

DESCRIPTION OF SECURITIES

The securities to be registered pursuant to this Registration Statement are of the same class as those securities previously registered by us on Form SB-2 (File No. 333-113712), as filed with the SEC on March 18, 2004, as amended, including the Rule 424(b)(1) prospectus filed August 10, 2004, and which description was incorporated by reference in our Registration Statement on Form 8-A12B filed August 10, 2004 (File No. 001-31657).

PLAN OF DISTRIBUTION

We may sell or distribute the securities included in this prospectus and any selling shareholders may sell our common stock through underwriters, through agents, to dealers, in private transactions, at market prices prevailing at the time of sale, at prices related to the prevailing market prices, or at negotiated prices.

In addition, we or selling shareholders may sell some or all of our common stock included in this prospectus through:

a block trade in which a broker-dealer may resell a portion of the block, as principal, in order to facilitate the transaction; purchases by a broker-dealer, as principal, and resale by the broker-dealer for its account; or ordinary brokerage transactions and transactions in which a broker solicits purchasers.

In addition, we or selling shareholders may enter into option or other types of transactions that require us or them to deliver our common stock to a broker-dealer, who will then resell or transfer the common stock under this prospectus. We may enter into hedging transactions with respect to our securities. For example, we may:

enter into transactions involving short sales of the shares of our common stock by broker-dealers; sell common stock short themselves and deliver the shares to close out short positions; enter into option or other types of transactions that require us to deliver common stock to a broker-dealer, who will then resell or transfer the common stock under this prospectus; or loan or pledge the common stock to a broker-dealer, who may sell the loaned shares or, in the event of default, sell the pledged shares.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with those derivatives, the third parties may sell securities covered by this prospectus and the applicable prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from us in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter and, if not identified in this prospectus, will be identified in the applicable prospectus supplement (or a post-effective amendment). In addition, we may otherwise loan or pledge securities to a financial institution or other third party that in turn may sell the securities short using this prospectus. Such financial institution or other third party may transfer its economic short position to investors in our securities or in connection with a concurrent offering of other securities.

Edgar Filing: ARENA RESOURCES INC - Form 424B2

Any broker-dealers or other persons acting on our behalf or the behalf of selling shareholders that participates with us or the selling shareholders in the distribution of the securities may be deemed to be underwriters and any commissions received or profit realized by them on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act of 1933, as amended, or the Securities Act. As of the date of this prospectus, we are not a party to any agreement, arrangement or understanding between any broker or dealer and us with respect to the offer or sale of the securities pursuant to this prospectus.

At the time that any particular offering of securities is made, to the extent required by the Securities Act, a prospectus supplement will be distributed, setting forth the terms of the offering, including the aggregate number of securities being offered, the purchase price of the securities, the initial offering price of the securities, the names of any underwriters, dealers or agents, any discounts, commissions and other items constituting compensation from us and any discounts, commissions or concessions allowed or reallocated or paid to dealers.

Underwriters or agents could make sales in privately negotiated transactions and/or any other method permitted by law, including sales deemed to be an at-the-market offering as defined in Rule 415 promulgated under the Securities Act, which includes sales made directly on or through the New York Stock Exchange, the existing trading market for our common stock, or sales made to or through a market maker other than on an exchange.

We will bear costs relating to all of the securities being registered under this Registration Statement.

As a result of requirements of the Financial Industry Regulatory Authority (FINRA), formerly the National Association of Securities Dealers, Inc. (NASD), the maximum commission or discount to be received by any FINRA member or independent broker/dealer may not be greater than eight percent (8%) of the gross proceeds received by us or any selling shareholder for the sale of any securities. If more than 10% of the net proceeds of any offering of common shares made under this prospectus will be received by FINRA members participating in the offering or affiliates or associated persons of such FINRA members, the offering will be conducted in accordance with NASD Conduct Rule 2710(h).
