- (1) Information about other selling security holders will be set forth in prospectus supplements, if required. Assumes that any other holders of debentures, or any future transferees, pledgees, donees or successors of or from any other such holders of debentures, do not beneficially own any common stock other than the common stock issuable upon conversion of the debentures at the initial conversion rate.
- (2) Assumes conversion of all of the holder's debentures at a maximum conversion rate of 38.7597 shares per \$1,000 principal amount. Fractions of a share are not included for the purposes of this calculation. The debentures were designed so that holders may at any time prior to maturity convert them into shares of our common stock at a conversion rate that will vary until September 15, 2008, depending on the applicable stock price, as described under "Description of the Debentures Conversion rights" in the prospectus. In addition, the conversion price will also be subject to adjustment as described under "Description of the Debentures Conversion rate adjustments" in the prospectus. As a result, the amount of common stock issuable upon conversion of the debentures is likely to increase or decrease in the future.
- (3) Calculated based on Rule 13d-3(d)(1)(i) of the Exchange Act, using 1,945,132,685 shares of common stock outstanding as of June 25, 2004.
- (4) Included in this amount is holder's option to purchase 20,500 shares of the Company's common stock.

Date of this prospectus is August 25, 2004
