SUMMARY

The information below is a summary of the more detailed information included elsewhere or incorporated by reference in this prospectus supplement. You should read carefully the following summary together with the more detailed information contained in this prospectus supplement, the accompanying prospectus and the information incorporated by reference into those documents, including the "Risk Factors" section beginning on page 4 of the accompanying prospectus and in our Annual Report on Form 10-K, as amended. This summary is not complete and does not contain all of the information you should consider when making your investment decision.

Our Company

We invest primarily in real estate serving the healthcare industry in the United States. We are a Maryland corporation and were organized to qualify as a self-administered real estate investment trust, or REIT, in 1985. We are headquartered in Long Beach, California, with offices in Chicago, Illinois, Nashville, Tennessee and San Francisco, California. We acquire, develop, lease, dispose and manage healthcare real estate and provide mortgage and other financing to healthcare providers. Our portfolio includes investments in the following healthcare segments: (i) senior housing; (ii) life science; (iii) medical office; (iv) hospital; and (v) skilled nursing. As of December 31, 2007, our portfolio of properties, excluding assets held for sale but including mortgage loans and properties owned by unconsolidated joint ventures, totaled 753 properties among the following segments: 275 senior housing, 105 life science, 269 medical office, 41 hospital and 63 skilled nursing.

Our executive offices are located at 3760 Kilroy Airport Way, Suite 300, Long Beach, California 90806, and our telephone number is (562) 733-5100.

Healthcare Industry

Healthcare is the single largest industry in the United States, or U.S., based on Gross Domestic Product, or GDP. According to the National Health Expenditures report released in January 2007 by the Centers for Medicare and Medicaid Services, or CMS, the healthcare industry was projected to represent 16.5% of U.S. GDP in 2008.

Senior citizens are the largest consumers of healthcare services. According to CMS, on a per capita basis, the 75 years and older segment of the population spends 76% more on healthcare than the 65 to 74-year-old segment and over 200% more than the population average.

The delivery of healthcare services requires real estate and, as a consequence, healthcare providers depend on real estate to maintain and grow their businesses. HCP believes that the healthcare real estate market provides investment opportunities due to the:

Compelling demographics driving the demand for healthcare services;

Specialized nature of healthcare real estate investing; and

Ongoing consolidation of the fragmented healthcare real estate sector.

Recent Developments

Standard & Poor's, a division of The McGraw-Hill Companies, stated on March 24, 2008 that, effective as of the close of trading on March 28, 2008, our common stock will be added to the S&P 500 Index. The S&P 500 Index is an index comprised of 500 leading companies in leading industries of the U.S. economy. Companies included in the index are selected by the S&P Index Committee, a team of Standard & Poor's economists and index analysts, whose goal is to ensure that the index remains a leading indicator of U.S. equities by following a set of published guidelines and policies.

USE OF PROCEEDS

We anticipate that the net proceeds from this offering, after deducting estimated expenses payable by us, will be approximately \$408.1 million. We intend to use the net proceeds from the offering to repay a portion of our outstanding indebtedness under our revolving line of credit facility, which we refer to as our revolving line of credit. Our revolving line of credit was entered into on August 1, 2007, has an initial \$1.5 billion capacity and matures on August 1, 2011. This revolving line of credit accrues interest at a rate per annum equal to LIBOR plus a margin ranging from 0.325% to 1.00%, depending upon our debt ratings. As of March 24, 2008, we had drawn \$1.0 billion from our revolving line of credit and the interest rate on our outstanding balance was 3.675%. The revolving line of credit was used to fund our investment in mezzanine loans as part of the financing for The Carlyle Group's \$6.3 billion purchase of Manor Care, Inc. and has been used for other general corporate purposes.
