CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price per Unit	Proposed Maximum Aggregate Offering Price	Amount of Registration Fee
Common Stock, par value \$0.01 per share(1)	5,980,000(2)	\$48.50	\$290,030,000	\$20,680(3)

- (1) Includes rights to purchase Series A Junior Participating Preferred Stock which are referred to as "Rights." Prior to the occurrence of certain events, the Rights will not be exercisable or evidenced separately from the registrant's common stock, will be transferred with and only with such common stock, and will have no value except as reflected in the market price of the shares of common stock to which they are attached.
- (2) Includes 780,000 shares of Common Stock issuable upon exercise of the underwriters' over-allotment option.
- (3) Calculated in accordance with Rule 457(r), payable in connection with the offering of the Common Stock and pursuant to this prospectus supplement.

**Registration No. 333-156376
 Filed pursuant to Rule 424(b)(2)**

**PROSPECTUS SUPPLEMENT
 (To Prospectus dated December 19, 2008)**

\$252,200,000

5,200,000 Shares of Common Stock

We are selling 5,200,000 shares of our common stock. We have granted the underwriters an option to purchase up to 780,000 additional shares of common stock.

Edgar Filing: ROYAL GOLD INC - Form 424B2

Our common stock is traded on the NASDAQ Global Select Market under the symbol "RGLD". The last reported sale price of our common stock on the NASDAQ Global Select Market on June 22, 2010 was \$51.28 per share. Our common stock is also traded on the Toronto Stock Exchange under the symbol "RGL".

Investing in our common stock involves risks. See "Risk Factors" beginning on page S-13.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if the prospectus or this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

	Per Share	Total(1)
Public Offering Price	\$ 48.50	\$ 252,200,000
Underwriting Discount	\$ 2.18	\$ 11,336,000
Proceeds to Royal Gold, Inc. (before expenses)(1)	\$ 46.32	\$ 240,864,000

(1) We have granted the underwriters an option exercisable for a period of 30 days from the date of this prospectus supplement to purchase up to 780,000 additional shares of common stock at the public offering price, less the underwriting discount.

The underwriters expect to deliver the shares to the purchasers on or about June 28, 2010.

ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying prospectus are part of a registration statement on Form S-3 (File No. 333-156376) that we filed with the Securities and Exchange Commission (the "SEC") and that became effective on December 22, 2008 utilizing an automatic shelf registration process. Under this shelf registration process, we may, from time to time, offer debt securities, preferred stock, common stock, warrants and depositary shares, of which this offering is a part. We have also filed this prospectus supplement and the accompanying prospectus, which we refer to as the Canadian prospectus, with the securities regulatory authorities in each of the provinces of Canada, other than Quebec. The securities qualified under the Canadian prospectus may be offered and sold in each of the provinces of Canada, other than Quebec, subject to any applicable securities laws.

This document is in two parts. The first part is this prospectus supplement, which describes the terms of this offering of common stock and also adds, updates and changes information contained in the accompanying prospectus and the documents incorporated herein by reference. The second part is the prospectus, which gives more general information, some of which may not apply to this offering of common stock. If the information contained in this prospectus supplement differs or varies from the information contained in the accompanying prospectus or any document incorporated herein by reference, you should rely on the information in this prospectus supplement. Before investing in our common stock, you should read both this prospectus supplement and the accompanying prospectus, as well as the additional information described under "Where You Can Find More Information" on page S-45 of this prospectus supplement.

Unless otherwise stated, information in this prospectus supplement assumes that the underwriters will not exercise their over-allotment option to purchase additional shares of our common stock, holders of exchangeable shares of RG Exchangeco Inc., a wholly-owned Canadian subsidiary of Royal Gold ("RG Exchangeco"), which are convertible on a one-for-one basis for Royal Gold common stock, will not convert their shares, and that no other person will exercise any other outstanding options to purchase shares of our common stock.

This document includes trade names and trademarks of other companies. All such trade names and trademarks appearing in this document are the property of their respective holders.

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

This prospectus supplement, the prospectus and the documents incorporated herein by reference contain certain references to future expectations and other forward-looking statements and information relating to us or to properties operated by others that are based on our beliefs and assumptions or those of management of the companies that operate properties on which we have royalties, as well as information currently available to us. Such forward-looking statements include statements regarding projected production and reserves received from the operators of our royalty properties. Additional written or oral forward-looking statements may be made by us from time to time in filings with the SEC or otherwise. Words such as "may," "could," "should," "would," "believe," "estimate," "expect," "anticipate," "plan," "forecast," "potential," "intend," "continue," "project" and similar expressions generally indicate forward-looking statements, which speak only as of the date the statement is made. Such forward-looking statements are within the meaning of that term in Section 27A of the Securities Act of 1933 (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). Forward-looking statements inherently involve risks and uncertainties, some of which cannot be predicted or quantified. Do not unduly rely on forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include:

changes in gold and other metals prices on which our royalties are paid or prices associated with the primary metal mined at our royalty properties;

Table of Contents

the production at or performance of our producing royalty properties;

decisions and activities of the operators of our royalty properties;

the ability of operators of our royalty properties to bring projects into production and operate in accordance with feasibility studies;

liquidity or other problems our operators may encounter;

unanticipated grade and geological, metallurgical, processing or other problems at our royalty properties;

mine operating and ore processing facility problems, pit wall or tailings dam failures, natural catastrophes such as floods or earthquakes, and access to raw materials, water and power;

changes in project parameters as plans of the operators of our royalty properties are refined;

changes in estimates of reserves and mineralization by the operators of our royalty properties;

economic and market conditions;

future financial needs;

federal, state and foreign legislation governing us or the operators of our royalty properties;

the availability of royalties for acquisition or other acquisition opportunities and the availability of debt or equity financing necessary to complete such acquisitions;

our ability to make accurate assumptions regarding the valuation, timing and amount of royalty payments when making acquisitions;

risks associated with conducting business in foreign countries, including application of foreign laws to contract and other disputes, environmental and permitting laws, community unrest and labor disputes, and enforcement and uncertain political and economic environments;

risks associated with issuances of substantial additional common stock or incurrence of substantial indebtedness in connection with acquisitions or otherwise;

acquisition and maintenance of permits and authorizations, completion of construction and commencement and continuation of production at our royalty properties;

Edgar Filing: ROYAL GOLD INC - Form 424B2

changes to management and key employees; and

failure to complete any future acquisitions;

as well as other factors described elsewhere in this prospectus supplement, and the accompanying prospectus, our Annual Report on Form 10-K for the fiscal year ended June 30, 2009 (filed on August 21, 2009), our Quarterly Report on Form 10-Q for the period ended September 30, 2009 (filed on November 6, 2009), our Quarterly Report on Form 10-Q for the period ended December 31, 2009 (filed on February 5, 2010), our Quarterly Report on Form 10-Q for the period ended March 31, 2010 (filed on May 7, 2010) and in future filings we make with the SEC. Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth in, contemplated by or underlying the forward-looking statements. We disclaim any obligation to update any forward-looking statement made herein, except as required by law. Readers are cautioned not to put undue reliance on forward-looking statements.

Table of Contents

CERTAIN DEFINITIONS

Company: Unless we have indicated otherwise, or the context otherwise requires, references to "the Company," "we," "us," and "Royal Gold" refer to Royal Gold, Inc. and its consolidated subsidiaries, except where it is clear that such terms refer to only Royal Gold, Inc.

Dollar or "\$": Unless we have indicated otherwise, or the context otherwise requires, references in this prospectus supplement to "\$" or "dollar" are to the lawful currency of the United States.

Gross Proceeds Royalty (GPR): A royalty in which payments are made on contained ounces rather than recovered ounces.

Gross Smelter Return (GSR) Royalty: A defined percentage of the gross revenue from a resource extraction operation, in certain cases reduced by certain contract-defined costs paid by or charged to the operator.

g/t: A unit representing grams/tonne.

Net Smelter Return (NSR) Royalty: A defined percentage of the gross revenue from a resource extraction operation, less a proportionate share of incidental transportation, insurance, refining and smelting costs.

Net Value Royalty (NVR): A defined percentage of the gross revenue from a resource extraction operation, less certain contract-defined transportation costs, milling costs and taxes.

Payable Ounces of Gold: Ounces of gold in concentrate payable to the operator after deduction of a percentage of gold in concentrate that is paid to a third-party smelter pursuant to smelting contracts.

Proven (Measured) Reserves: Reserves for which (a) quantity is computed from dimensions revealed in outcrops, trenches, workings or drill holes, and the grade is computed from the results of detailed sampling, and (b) the sites for inspection, sampling and measurement are spaced so closely and the geologic character is so well defined that the size, shape, depth and mineral content of the reserves are well established.

Probable (Indicated) Reserves: Reserves for which the quantity and grade are computed from information similar to that used for proven (measured) reserves, but the sites for inspection, sampling and measurement are farther apart or are otherwise less adequately spaced. The degree of assurance of probable (indicated) reserves, although lower than that for proven (measured) reserves, is high enough to assume geological continuity between points of observation.

Reserve: That part of a mineral deposit which could be economically and legally extracted or produced at the time of the reserve determination.

Royalty: The right to receive a percentage or other denomination of mineral production from a resource extraction operation.

Ton: A unit of weight equal to 2,000 pounds or 907.2 kilograms.

Tonne: A unit of weight equal to 2,204.6 pounds or 1,000 kilograms.

Table of Contents

TAX CONSIDERATIONS

We are not providing any tax advice as to the acquisition, holding or disposition of the shares of our common stock offered hereby. In making an investment decision, investors should consult their own tax advisors to determine the U.S. federal or state, and any applicable foreign or other tax consequences related to an investment in our common stock. See "Material United States Federal Income Tax Considerations for Non-U.S. Holders" on page S-41.

NOTICE TO UNITED KINGDOM AND EUROPEAN UNION INVESTORS

This document is only being distributed to and is only directed at (i) persons who are outside the United Kingdom or (ii) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the "Order") or (iii) high net worth companies, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (all such persons in (i), (ii) and (iii) above together being referred to as "relevant persons"). The shares are only available to, and any invitation, offer or agreement to subscribe, purchase or otherwise acquire such securities will be engaged in only with, relevant persons. Any person who is not a relevant person should not act or rely on this document or any of its contents.

In any EEA Member State that has implemented Directive 2003/71/EC (together with any applicable implementing measures in any Member State, the "Prospectus Directive"), this communication is only addressed to and is only directed at qualified investors in that Member State within the meaning of the Prospectus Directive.

Table of Contents

PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about Royal Gold, Inc. This summary does not contain all of the information that may be important to you in making an investment decision. For a more complete understanding of Royal Gold you should read carefully this entire prospectus supplement and the accompanying prospectus, including the "Risk Factors" section and the other documents we refer to and incorporate by reference. Unless otherwise indicated, "common stock" means our common stock, par value \$0.01 per share, offered by this prospectus supplement.

Royal Gold Overview

Royal Gold, together with its subsidiaries, is engaged in the business of acquiring and managing precious metals royalties. Royalties are passive (non-operating) interests in mining projects that provide the right to revenue or production from the project after deducting specified costs, if any. The Company owns royalties on 32 producing properties, 24 development stage properties and over 130 exploration stage properties, of which the Company considers 39 to be evaluation stage projects. The Company uses "evaluation stage" to describe exploration stage properties that contain mineralized material and on which operators are engaged in the search for reserves. Royal Gold does not conduct mining operations and its royalty agreements do not require it to contribute to capital costs, exploration costs, environmental costs or other operating costs on the properties on which it holds royalty interests. For the three months ended March 31, 2010, Royal Gold derived 81% of its total revenue from gold royalties, 3% of its total revenue from silver royalties, 10% of its total revenue from copper royalties, and 6% of its total revenue from other metal and energy royalties.

We are engaged in a continual review of opportunities to acquire existing royalties, to create new royalties through the financing of mining projects or to acquire companies that hold royalties. We have used both cash and our common stock in our acquisitions and we may issue substantial additional amounts of common stock as consideration in acquisitions in the future. At the current time we are evaluating or in discussions regarding a variety of different transactions that have varying likelihoods of being concluded. At this time we cannot provide assurance that all or any of the possible transactions will be concluded successfully.

See Risk Factors on page S-13 for further discussion on potential risks associated with potential future acquisitions.

Company Strengths

We believe that our core strengths include the following:

A long history of revenue and royalty reserve growth, as well as the creation or acquisition of royalties on significant development properties that we expect could generate strong future revenue;

A balanced mix of royalties on producing, development and exploration stage properties, with a focus on producing and development properties operated by proven, well-regarded operators, including Barrick Gold Corporation ("Barrick"), Newmont Mining Corporation ("Newmont"), AngloGold Ashanti Limited ("AngloGold"), Goldcorp Inc. ("Goldcorp"), Kinross Gold Corporation, Teck Resources Limited ("Teck"), Xstrata PLC and Vale S.A.;

A geographically diverse portfolio of royalties in largely stable geographic regions;

No requirements to contribute to capital, exploration, environmental or other operating costs at mine sites;

Organic growth when reserves are increased on a property on which we hold a royalty interest at no incremental cost to us as the royalty holder;

Table of Contents

Exposure to commodity price movements, with no historical practice of metal price hedging;

An historically strong liquidity position;

An experienced management team with proven skills in acquiring and managing precious metal royalty interests;

A strong history of successful precious metal royalty acquisitions and a pipeline of potential acquisitions in various stages of review;
and

A \$0.36 per share dividend for calendar 2010, representing a 12.5% increase in the dividend rate for calendar 2009, and a history of increasing our dividend for each of the past nine years.

Royal Gold's strengths are further discussed in the section below entitled "Royal Gold Business Model and Growth Strategy."

Royal Gold Business Model and Growth Strategy

Royal Gold is engaged in the business of acquiring and managing precious metals royalties. The Company seeks to acquire existing royalties and to create new royalties through the financing of mining, development or exploration projects in exchange for royalty interests. Royal Gold does not conduct mining operations. The key elements of the Company's business model and growth strategy are as follows:

Focus on Gold and Precious Metals through Royalty Ownership. Royal Gold has established its business model based on the premise that an attractive means to gain exposure to gold and precious metals prices is to acquire and hold royalty interests in gold and precious metal properties, rather than to engage directly in mining operations. By holding royalties, the Company benefits from (i) increases in commodity prices, (ii) production increases from properties subject to Royal Gold's royalty interests and (iii) reserve increases on properties subject to Royal Gold's royalty interests, potentially extending Royal Gold's revenue stream from such properties. Royal Gold is not required to contribute to capital costs, exploration costs, environmental costs or other operating costs on the properties on which it holds royalties and, as a result, Royal Gold historically has been able to achieve high margins and low overhead costs. The Company believes its exposure to operating risks are further reduced because its portfolio is comprised of royalties on properties operated by experienced and well regarded operators throughout the world, including Barrick, Newmont, AngloGold and Goldcorp.

Industry Experience and Relationships. Royal Gold relies on its experienced management team to identify opportunities and to structure creative approaches to acquire royalty interests, as well as to manage royalty interests once acquired. The Company's management team includes senior executives with many years of industry experience in geology, mine operations, mining law and mine financing. The management team maintains personal relationships throughout the industry, from major mining companies to exploration companies, landowners and prospectors, giving the Company an excellent platform from which to identify, target and obtain or create royalty interests.

Acquisition of Royalties on Producing Mines or Development Projects. Royal Gold actively seeks to acquire royalties on both producing mines and development projects and has successfully executed an acquisition strategy that has more than doubled the reserves subject to its royalty interests from calendar year-end 2005 through calendar year-end 2009. Producing royalties generate revenue, while development stage properties represent an important part of the Company's growth strategy. Development stage properties not only provide a pipeline of reserves subject to Royal Gold's royalty interests, but also provide potential future revenue should they begin production over the next several years as expected by the operators of our principal

Table of Contents

development projects. Royal Gold also considers evaluation and exploration stage properties to be an important component in maintaining a balanced royalty portfolio with potential for future growth. Royal Gold has acquired a portfolio of royalties on exploration and evaluation stage properties, some of which it believes could move into development stage and become producing mines.

We recently completed the acquisition of International Royalty Corporation ("IRC"), a Canadian royalty company, and the acquisition of a royalty on gold produced from the Andacollo project, a copper property ramping up production in Chile. The total purchase price of cash and equity for these acquisitions exceeded \$900 million. Both transactions were consistent with Royal Gold's growth strategy and substantially expanded the Company's royalty portfolio, adding a total of 85 royalty interests in 79 properties across 14 countries. These transactions further strengthened Royal Gold's market position as a leading precious metals royalty company with royalty interests on 189 properties across 21 countries, giving the Company a well-diversified, low geopolitical risk profile after the acquisitions. The IRC acquisition combined two companies with historically strong growth profiles based on royalty acquisitions, including combining Royal Gold and IRC's royalty interests at Pascua-Lama, a key development stage property. Through the Andacollo transaction, Royal Gold acquired a significant royalty on a key property operated by Teck, an experienced operator.

International Royalty Corporation Acquisition

On February 22, 2010, we acquired all of the issued and outstanding common shares of IRC. The purchase price for the IRC acquisition consisted of approximately \$350 million in cash, 5,234,086 shares of Royal Gold common stock (valued at \$230.4 million on February 22, 2010) and 1,806,649 exchangeable shares of RG Exchangeco (valued at \$79.5 million on February 22, 2010), which shares are convertible on a one-for-one basis for Royal Gold common stock at any time and have voting and dividend rights equivalent to Royal Gold common stock.

The IRC acquisition further complements and expands our royalty portfolio. The royalty portfolio we acquired through our acquisition of the shares of IRC included 11 producing royalties, 10 development stage royalties, 24 evaluation stage royalties and 35 exploration stage royalties. The producing royalties acquired through the IRC acquisition generated royalty revenue of approximately \$2.1 million from the completion of the acquisition on February 22, 2010 through March 31, 2010.

The key assets acquired from IRC include the following royalties:

a 0.47% to 3.15% sliding-scale NSR gold royalty on the Chilean portion of the development stage Pascua-Lama project, which is being developed by Barrick. In addition to the royalty acquired in the IRC acquisition, the Company owns a 0.20% to 1.33% sliding-scale NSR gold royalty at Pascua-Lama;

a 2.7% NSR royalty on the production from the Voisey's Bay nickel-copper-cobalt mine located in Newfoundland and Labrador, Canada, and operated by Vale Inco Ltd.;

a 2.5% GSR royalty on the production from the Inata gold mine located in northern Burkina Faso, West Africa, and operated by Avocet Mining PLC;

a 1.5% NSR royalty on the production from the Las Cruces copper project located in Andalusia, Spain, and operated by Inmet Mining;

a 1.5% NSR royalty on gold produced from approximately three million acres in Western Australia, including the Southern Cross, Gwalia Deeps and South Laverton mines, which are currently in production; and

Table of Contents

a 0% to 9.45% sliding-scale NSR royalty on all gold and silver production from the development stage Wolverine sulfide project located in Yukon Territory, Canada, and operated by Yukon Zinc.

Andacollo Royalty Acquisition

On January 25, 2010, we completed the acquisition of an interest in the gold produced from the sulfide portion of the Andacollo project in Chile (the "Andacollo Royalty") from a subsidiary of Teck for a purchase price of \$217.9 million in cash and 1,204,136 of the Company's common shares (valued at \$53.4 million on January 25, 2010).

The Andacollo Royalty will equal 75% of the gold produced from the sulfide portion of the deposit at the Andacollo mine until 910,000 payable ounces of gold have been sold, and 50% of the gold produced in excess of 910,000 payable ounces of gold. The mine, located about 34 miles southeast of the city of La Serena, Chile, produces copper from the oxide portion of the deposit and Teck is currently ramping up to produce both copper and gold from the sulfide portion of the deposit. The Andacollo Royalty will not cover copper production.

Once the mine is in full production, the operator expects the mill to have a capacity of 55,000 tonnes (60,630 tons) per day. Gold will be produced as a by-product of copper production. The operator estimates the gold recovery rate will be approximately 61%. The operator estimates that the mine will produce on average approximately 55,000 ounces of gold and 80,000 tonnes (88,185 tons) of copper in concentrate annually for the first 10 years of commercial production, with an estimated mine life of 20 years. The operator expects to reach full production in the third quarter of calendar 2010. Proven and probable reserves, as estimated by the operator as of December 31, 2009, for the sulfide portion are 396.6 million tonnes (437.2 million tons) with a grade of 0.38% copper and 0.13 g/t (0.004 ozs/ton) gold. This equates to 1.6 million contained ounces of gold. Reserves were estimated by the operator using a copper price of \$1.60 per pound and a gold price of \$500 per ounce.

Our other recent key acquisitions of producing and development stage properties include:

in fiscal 2009, a portfolio of 72 royalties from Barrick, including the remaining 70% of a royalty on the Mulatos gold mine located in Mexico (of which we previously owned 30%), as well as royalties on the Canadian Malartic gold project in Canada and the Siguiro gold mine in the Republic of Guinea;

in fiscal 2008, royalties on the Marigold gold project located in Nevada, the El Chanate mine located in Mexico and 13 royalties as part of our acquisition of Battle Mountain Gold Exploration Corp., including two royalties on the Dolores mine in Mexico;

in fiscal 2007, royalties on the Peñasquito mine located in Mexico and the Pascua-Lama project located in Chile; and

in fiscal 2006, a royalty on the Robinson mine located in Nevada, 30% of a royalty on the Mulatos mine (the remaining 70% of which was acquired in fiscal 2009 as described above) and four royalties on the Taparko mine located in Burkina Faso through a financing arrangement with High River Gold Mines.

Utilize Flexible Acquisition Approaches. Royal Gold has pursued a growth strategy using a variety of acquisition structures to grow its royalty portfolio, including: (i) the acquisition of existing royalties or portfolios of existing royalties, (ii) the creation of new royalties by providing financing or capital, including for exploration, development or acquisition activities, in exchange for royalties, and (iii) the acquisition of companies holding royalty assets. Royal Gold's ability to utilize various acquisition structures allows it to adapt to changing market conditions and to

Table of Contents

capitalize on the most current needs of mining companies. The Company takes a flexible approach to each royalty acquisition it examines, with consideration given to industry conditions as well as the various goals and capabilities of each operator or potential business partner.

Royalty Evaluation Criteria. Royal Gold believes there are substantial benefits to holding royalties on properties with significant reserves that represent long-lived assets. For example, through acquisitions, Royal Gold has increased its gold royalty interest at the Pascua-Lama project, which Royal Gold believes to be a principal development property, from 0.16 - 1.08% to 0.67 - 4.48%. The Company utilizes a series of technical, business and legal criteria by which it evaluates potential royalty acquisitions. Among the factors considered are: (i) quality of the asset, (ii) reputation of the operator, (iii) country risks, (iv) environmental risks, (v) timing of anticipated production, (vi) potential for reserve growth, (vii) overall size and likely mine life of the project, and (viii) strategic, financial and operating impact of the acquisition on Royal Gold. The Company relies on the operational experience and technical expertise of members of its management team, and on that of consultants, to evaluate mining properties and reserves in order to evaluate royalties for acquisition. Royal Gold believes its systematic evaluation of royalties combined with the operations and technical experience of its management team provides it with a competitive advantage in acquiring royalties.

Organic Growth through Reserve Replacement. In addition to acquiring royalties with existing or anticipated near-term production, Royal Gold seeks to acquire and manage royalties with substantial potential for further reserve growth. This provides cost-free upside from the exploration efforts of the operator because additional reserves, if mined, extend Royal Gold's revenue stream from the property with no additional cost to Royal Gold.

Possible Acquisitions

We are engaged in a continual review of opportunities to acquire existing royalties, to create new royalties through the financing of mining projects or to acquire companies that hold royalties. We currently, and generally at any time, have acquisition opportunities in various stages of active review, including, for example, our engagement of consultants and advisors to analyze particular opportunities, analysis of technical, financial and other confidential information, submission of indications of interest, obtaining or providing debt commitments for acquisition financing, participation in discussions regarding serving as a financing source in connection with royalty acquisitions, and considering involvement as a bidder in competitive auctions. Any one or more of our acquisitions could be material to us and significantly increase the size of our business. We could incur substantial additional indebtedness to fund acquisitions and/or could issue substantial amounts of common stock as consideration in an acquisition. We could also use all or a significant portion of the proceeds from this offering as consideration in an acquisition. We may use some or all of the proceeds of this offering to fund acquisition transactions. See "Use of Proceeds." See "Risk Factors Risks Related to Our Common Stock" for risks relating to additional issuance of equity securities and " Risks Related to Our Business" for risks relating to our future incurrence of indebtedness and our acquisition strategy.

Table of Contents

Principal Royalty Properties

Royal Gold's portfolio includes gold royalties on properties owned by various operating companies across six continents. While the Company maintains a strong royalty presence in Nevada, a jurisdiction with a long history of successful gold mining, we believe that an important aspect of our portfolio is to hold royalties in other parts of the world. Royal Gold's principal producing and development royalty properties outside of the United States are primarily located in Canada (Voisey's Bay, Canadian Malartic, Holt and Wolverine), Mexico (Peñasquito, Mulatos and Dolores), South America (Pascua-Lama and Andacollo) and West Africa (Taparko and Siguiri). The Company holds other royalties on properties in other countries, including Argentina, Australia, Bolivia, Brazil, Burkina Faso, Chile, Colombia, Dominican Republic, Finland, Ghana, Guatemala, Honduras, Nicaragua, Peru, the Republic of Guinea, Russia, Spain and Tunisia. The map below illustrates the location of our principal producing and development royalties.

Royal Gold's principal producing and development properties are listed below. Royal Gold considers both historical and future potential revenues in determining which royalties in its portfolio are principal to its business. Estimated future potential royalty revenues from both producing and development properties are based on a number of factors, including reserves subject to our royalty interests, production estimates, feasibility studies, metal price assumptions, mine life, legal status and other factors and assumptions, any of which could change and could cause Royal Gold to conclude that such royalties are no longer principal to its business.

Royal Gold's principal producing royalties are as follows:

four royalty interests on Cortez located in Nevada and operated by Barrick;

one royalty interest on the Robinson mine located in eastern Nevada and operated by a subsidiary of QuadraFNX Mining Ltd.;

one royalty interest on the Leeville mine located in Nevada and operated by a subsidiary of Newmont;

one royalty interest on the Goldstrike mine located in Nevada and operated by a subsidiary of Barrick;

Edgar Filing: ROYAL GOLD INC - Form 424B2

one royalty interest on the Peñasquito mine, covering both the oxide portion of the deposit and the sulfide portion of the deposit located in Zacatecas, Mexico, and operated by a subsidiary of Goldcorp;

Table of Contents

one royalty interest on the Mulatos mine located in Sonora, Mexico, and operated by a subsidiary of Alamos Gold, Inc.;

one royalty interest on the Voisey's Bay mine located in Newfoundland and Labrador, Canada, and operated by a subsidiary of Vale S.A.;

two royalty interests that are currently in effect, and two royalty interests that are not yet in effect, on the Taparko mine located in Burkina Faso and operated by a subsidiary of High River;

one royalty interest on the Siguiri mine located in the Republic of Guinea and operated by AngloGold;

one royalty interest on the Gwalia Deeps mine located in Western Australia and operated by St. Barbara; and

two royalty interests on the Dolores mine located in Chihuahua, Mexico, and operated by a subsidiary of Minefinders Corporation, Ltd.

Royal Gold's principal royalties on development properties are as follows:

one royalty interest on the Andacollo project located in Chile and operated by a subsidiary of Teck, which has begun ramping up production and is expected to begin making royalty payments to Royal Gold in the fourth quarter of this fiscal year;

one royalty interest on the Pascua-Lama project located in Chile and operated by a subsidiary of Barrick;

one royalty interest on the Canadian Malartic project located in Quebec, Canada, and operated by Osisko Mining Corporation.

one royalty interest on the Holt portion of the Holloway-Holt project located in Ontario, Canada, and operated by St Andrew Goldfields Ltd.; and

one royalty interest on the Wolverine project located in Yukon Territory, Canada, and operated by Yukon Zinc Corporation.

Royalty structure and detailed reserve information for all of Royal Gold's producing and development stage royalty properties are set forth in our Annual Report on Form 10-K (filed with the SEC on August 21, 2009) for the fiscal year ended June 30, 2009, under "Item 2, Properties, Reserve Information" as well as in our Current Report on Form 8-K filed with the SEC on June 7, 2010.

Additional Information

Our principal executive offices are located at 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202-1132. Our telephone number is (303) 573-1660.

We maintain a website at <http://www.royalgold.com>. Information presented or accessed through our website is not incorporated into, or made a part of, this prospectus supplement.

Table of Contents

The Offering

Common stock being offered by us	5,200,000 shares
Common stock to be outstanding immediately after this offering	52,783,911 shares
Use of proceeds	<p>We intend to use the net proceeds of this offering for general corporate purposes, including to repay debt and to fund acquisitions of additional royalty interests.</p> <p>We may use a portion of the proceeds to repay all or a portion of the outstanding amounts under our revolving credit facility with HSBC Bank USA, National Association ("HSBC Bank"), HSBC Securities (USA) Inc. and Scotiabanc Inc. ("Scotiabanc") or our term loan with HSBC Bank, HSBC Securities (USA) Inc. and the Bank of Nova Scotia.</p>
Underwriting (Conflict of Interest)	<p>HSBC Securities (USA) Inc. and its affiliate HSBC Bank are parties to, and HSBC Bank is a lender under, our revolving credit facility and term loan. In addition, Scotiabanc, an affiliate of Scotia Capital (USA) Inc., is a party to and lender under our revolving credit facility and the Bank of Nova Scotia, an affiliate of Scotia Capital (USA) Inc., is a party to and lender under our term loan. Our credit facility was negotiated on an arms' length basis and contains customary terms pursuant to which the lenders receive customary fees. As described above, we may use a portion of the net proceeds from this offering to repay borrowings under our revolving credit facility or term loan. Accordingly, because more than 5% of the net proceeds from this offering could potentially be paid to affiliates of the underwriters, this offering will be made in compliance with the requirements of Rule 2720 of the Conduct Rules of the NASD as administered by FINRA.</p> <p>We intend to invest net proceeds from this offering pending their use primarily in cash bank accounts, money market accounts that are invested in United States treasury bills or United States treasury-backed securities. See "Use of Proceeds" on page S-25 for further information regarding the use of proceeds from this offering.</p>
Risk factors	<p>An investment in our common stock involves a significant degree of risk. We urge you to carefully consider all of the information described in the section entitled "Risk Factors" beginning on page S-13.</p>

Dividend policy

We have paid a cash dividend on a quarterly basis on our common stock for each fiscal year beginning in fiscal 2000. For calendar 2010, we will pay a total dividend of \$0.36 per share, up from \$0.32 per share in calendar 2009. We currently plan to pay a quarterly dividend on a calendar year basis, subject to the discretion of our board of directors. Our board of directors, however, may determine not to declare a dividend based on a number of factors, including the gold price, economic and market conditions and funding requirements of our operations and opportunities that might arise in the future.

The number of shares of common stock that will be outstanding after the offering is based on 47,583,911 shares outstanding as of April 30, 2010. This number excludes:

1,632,220 exchangeable shares of RG Exchangeco outstanding as of April 30, 2010 that are convertible on a one-for-one basis for shares of Royal Gold common stock and one share of Special Voting Stock issued to give the exchangeable shares equivalent voting rights to Royal Gold common stock, all of which were issued in connection with our acquisition of IRC;

340,830 shares of common stock issuable upon exercise of outstanding options at a weighted average exercise price of \$25.27 per share, of which 287,104 shares of common stock are subject to options that are vested and immediately exercisable;

122,375 performance shares that vest upon achieving certain performance goals;

102,140 shares of common stock issuable upon exercise of outstanding stock-settled stock appreciation rights ("SSARs"), of which 24,833 shares are vested and immediately exercisable;

77,450 shares of common stock reserved for future issuance under our equity compensation plans; and

any of the 780,000 additional shares issuable pursuant to the underwriters' over-allotment option.

Table of Contents

Summary of Consolidated Financial Data

The following summary of consolidated financial data should be read together with "Management's Discussion and Analysis of Financial Condition and Results of Operations," our consolidated financial statements and related notes and other financial information contained in our Annual Report on Form 10-K (filed with the SEC on August 21, 2009) for the fiscal year ended June 30, 2009 and our Quarterly Report on Form 10-Q (filed with the SEC on May 7, 2010) for the period ended March 31, 2010, incorporated by reference in this prospectus supplement and the accompanying prospectus. We derived the consolidated statement of operations data for the years ended June 30, 2009, 2008 and 2007 from our audited consolidated financial statements. We derived the unaudited consolidated financial data for the nine months ended March 31, 2010 and 2009 from our unaudited consolidated financial statements, which include all adjustments, consisting only of normal recurring adjustments, that management considers necessary for a fair presentation of the information shown. Historical results are not necessarily indicative of the results to be expected in the future. On July 1, 2009, Royal Gold adopted a new accounting standard included in the Financial Accounting Standards Board Codification ("FASB ASC"), FASB ASC 810, Consolidations. The adoption of the new standard changed the presentation of our non-controlling (minority) interests. The following summary of consolidated financial data for fiscal years ended June 30, 2009, 2008 and 2007 reflect the presentation changes of the recently adopted accounting standard. Our consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States, which differ in certain respects from generally accepted accounting principles in Canada. Therefore our financial data contained in or incorporated by reference in this prospectus supplement may not be comparable to the financial data of Canadian companies.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below, as well as the other information included or incorporated by reference in this prospectus supplement, before making an investment decision. Our business, financial condition, results of operations and cash flows could be materially adversely affected by any of these risks. The market or trading price of our securities could decline due to any of these risks. In addition, please read "Special Note About Forward-Looking Statements" in this prospectus supplement, where we describe additional uncertainties associated with our business and the forward-looking statements included or incorporated by reference in this prospectus supplement. Please note that additional risks not presently known to us or that we currently deem immaterial may also impair our business and operations.

Risks Related to Our Business

We own passive interests in mining properties, and it is difficult or impossible for us to ensure properties are operated in our best interest.

All of our current revenue is derived from royalties on properties operated by third parties. The holder of a royalty interest typically has no authority regarding the development or operation of a mineral property. Therefore, we are not in control of decisions regarding development or operation of any of the properties on which we hold a royalty interest, and we have limited or no legal rights to influence those decisions.

Our strategy of having others operate properties on which we retain a royalty or other passive interest puts us generally at risk to the decisions of others regarding all operating matters, including permitting, feasibility analysis, mine design and operation, processing, plant and equipment matters and temporary or permanent suspension of operations, among others. These decisions are likely to be motivated by the best interests of the operator rather than to maximize royalty payments to us. Although we attempt to secure contractual rights, such as audit or access rights when we create new royalties, that will permit us to protect our interests, there can be no assurance that such rights will always be available or sufficient, or that our efforts will be successful in achieving timely or favorable results or in affecting the operation of the properties in which we have royalty interests in ways that would be beneficial to our stockholders.

Volatility in gold, silver, copper and other metal prices may have an adverse impact on the value of our royalty interests and may reduce our royalty revenues.

The profitability of our royalty interests is directly related to the market price of gold, silver, copper and other metal prices. The market price of each metal may fluctuate widely and is affected by numerous factors beyond the control of any mining company. These factors include metal supply, industrial and jewelry fabrication and investment demand, expectations with respect to the rate of inflation, the relative strength of the U.S. dollar and other currencies, interest rates, gold sales and loans by central banks, forward sales by metal producers, global or regional political, economic or banking crises and a number of other factors. If the market price of gold, copper or certain other metals should drop, then our royalty revenues could also drop. Our sliding-scale royalties at Cortez, Taparko and other properties amplify this effect.

When the gold price falls below a certain mark in a sliding-scale royalty, we receive a lower royalty rate on production. Furthermore, if gold, copper and certain other metal prices drop dramatically, we might not be able to recover our initial investment in royalty interests or properties. In addition, certain royalty agreements, such as that in place for our interest at Robinson, provide that future royalty payments to us are subject to adjustment based on commodity prices at a later date, three to four months in the case of Robinson, which can result in adjustments to our royalty revenue in later periods. Moreover, the selection of a royalty investment or of a property for exploration or development, the

Table of Contents

determination to construct a mine and place it into production, and the dedication of funds necessary to achieve such purposes are decisions that must be made long before the first revenues from production will be received. Price fluctuations between the time that decisions about exploration, development and construction are made and the commencement of production can have a material adverse effect on the economics of a mine and can eliminate or have a material adverse impact on the value of royalty interests.

The volatility in gold prices is illustrated by the following table, which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per ounce of gold, based on the London Bullion Market Association P.M. fix.

Gold Price Per Ounce (\$)

Year	High	Low
2000	312	263
2001	293	256
2002	349	278
2003	416	320
2004	454	375
2005	537	411
2006	725	525
2007	841	608
2008	1,011	713
2009	1,212	810
2010 (through June 18, 2010)	1,256	1,058

The volatility in silver prices is illustrated by the following table, which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per ounce of silver, based on the London Bullion Market Association P.M. fix.

Silver Price Per Ounce (\$)

Year	High	Low
2000	5.45	4.57
2001	4.82	4.07
2002	5.10	4.24
2003	5.97	4.37
2004	8.29	5.50
2005	9.23	6.39
2006	14.94	8.83
2007	15.82	11.67
2008	20.92	8.88
2009	19.18	10.51
2010 (through June 18, 2010)	19.64	15.14

The volatility in copper prices is illustrated by the following table, which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per pound of copper, based on the London Metal Exchange cash settlement price for copper Grade A.

Table of Contents**Copper Price Per Pound (\$)**

Year	High	Low
2000	0.89	0.76
2001	0.81	0.62
2002	0.75	0.67
2003	1.00	0.72
2004	1.43	1.10
2005	2.08	1.44
2006	3.65	2.15
2007	3.77	2.37
2008	4.08	1.26
2009	3.33	1.38
2010 (through June 18, 2010)	3.61	2.76

Our revenues are subject to operational and other risks faced by operators of our mining properties.

Although we are not required to pay capital costs or operating costs, our financial results are subject to hazards and risks normally associated with developing and operating mining properties, both for the properties where we may conduct exploration or indirectly for properties operated by others where we hold royalty interests. These risks include:

insufficient ore reserves;

fluctuations in production costs incurred by the operators or third parties that may make mining of ore uneconomical or impact the amount of reserves;

declines in the price of gold and other metals;

mine operating and ore processing facility problems;

economic downturns and operators' insufficient financing;

significant changes to environmental and other regulatory permitting requirements and restrictions;

challenges by non-mining interests to existing permits and mining rights, and to applications for permits and mining rights;

community unrest, labor disputes, strikes or work stoppages at mines;

geological problems;

pit wall or tailings dam failures or any underground stability issues;

natural catastrophes such as floods or earthquakes; and

the risk of injury to persons, property or the environment.

Operating cost increases can have a negative effect on the value of and income from our royalty interests by potentially causing an operator to curtail, delay or close operations at a mine site.

We depend on our operators for the calculation of royalty payments, and we may not be able to detect errors, or payment calculations may call for retroactive adjustments.

Our royalty payments are calculated by the operators of the properties on which we have royalties based on their reported production. Each operator's calculation of our royalty payments is subject to and dependent upon the adequacy of its production and accounting functions, and errors may occur

S-15

Table of Contents

from time to time in the calculations made by an operator. For example, the complex nature of mining and ownership of mining interests can result in errors regarding allocation of production, such as those that occurred in connection with our restatement of our consolidated financial statements for fiscal 2008. Certain royalty agreements require the operators to provide us with production and operating information that may, depending on the completeness and accuracy of such information, enable us to detect errors in the calculation of royalty payments that we receive. We do not, however, have the contractual right to receive production information for all of our royalty interests. As a result, our ability to detect royalty payment errors through our royalty monitoring program and its associated internal controls and procedures is limited, and the possibility exists that we will need to make retroactive royalty revenue adjustments. Some of our royalty contracts provide us the right to audit the operational calculations and production data for the associated royalty payments; however, such audits may occur many months following our recognition of the royalty revenue and may require us to adjust our royalty revenue in later periods. In addition, certain royalty agreements, such as our royalty agreement for the Robinson mine, provide that future royalty payments to us are subject to adjustment based on commodity prices at a later date, three to four months in the case of Robinson, which can result in adjustments to our royalty revenue in later periods.

During economic downturns, challenging credit markets and depressed prices of certain commodities, the ability of the operators of the properties on which we have royalties to meet liquidity needs or operate profitably may be affected, which in turn could have material adverse effects on the value of and revenue from our royalty interests. In addition, economic downturns may adversely affect our ability to obtain financing for additional royalty acquisitions.

The value of and revenue from our royalty interests may be materially adversely affected if commodity prices for the various metals on which we have royalties or which are the primary production at mines on which we have royalties decline significantly, as occurred with respect to copper during the second half of calendar 2008. For example, the decline in prices for copper negatively impacted our revenue for the three-month period ended December 31, 2008 by approximately \$3.3 million, in comparison to our total revenue for such period of approximately \$14.6 million. In addition, our royalty interests and revenues may be materially adversely affected if operators of the properties on which we have royalties do not, in light of prevailing economic conditions, have the financial strength or sufficient credit or other financing capability to cover the costs of operating or developing a mine, causing an operator to curtail, delay or close operations at a mine site. Further disruption and volatility of financial markets could also limit operators' access to the financing needed for operations. For these or other reasons, it is possible the operators could delay or cease making royalty payments to us. If any of the operators of the properties on which we have royalties suffer these material adverse effects, enter into bankruptcy or liquidation, or undergo a change of control, then our royalty interests and the value of and revenue from our royalty interests may be materially adversely affected. In addition, a continued economic downturn or credit crisis could adversely affect our ability to obtain debt or equity financing for additional royalty acquisitions.

We may experience difficulties in integrating the business of IRC and may not realize the anticipated benefits of the acquisition.

The recently completed acquisition of IRC involves the integration of companies that previously operated independently. As a result, the combination will present challenges to management, including possible unanticipated liabilities, unanticipated costs and diversion of management's attention. The difficulties Royal Gold's management encounters in the transition and integration processes could have an adverse effect on the revenues, level of expenses and operating results of the combined company. As a result of these factors, it is possible that any benefits expected from the combination will not be realized.

Table of Contents

Acquired royalty interests, particularly on development stage properties, are subject to the risk that they may not produce anticipated royalty revenues.

The royalty interests we acquire may not produce the anticipated royalty revenues. Royalty interests acquired on development stage properties are particularly sensitive to this risk. The success of our royalty acquisitions is based on our ability to make accurate assumptions regarding the valuation, timing and amount of royalty payments, particularly with respect to acquisitions of royalties on development stage properties. If the operator does not bring the property into production and operate in accordance with feasibility studies or other plans, then acquired royalty interests may not yield sufficient royalty revenues to be profitable. Furthermore, owners of development stage properties must obtain all necessary environmental permits and access to water, power and other raw materials needed for operations in order to begin production, and there can be no assurance owners will be able to do so. For example, the recently acquired royalty on the Andacollo project is one of our largest development stage acquisitions to date. The success of the Andacollo project depends upon, among other factors, the ability of the operator to complete the construction of and operate the mine and mill facilities for the sulfide portion of the deposit at the project, the ability of the operator to bring the project into commercial production and operate the mine successfully, the price of copper, the availability of resources necessary to construct and operate the project, including adequate water supply and rights of way, and receipt and maintenance of necessary environmental and other permits to operate the project. We also acquired royalties on 10 development stage properties in connection with our acquisition of IRC, including a royalty on the Wolverine sulfide project in Yukon Territory, Canada. Other principal development stage properties we have acquired include the Taparko project in Burkina Faso, which has experienced production delays, the Peñasquito and Dolores mines in Mexico, both ramping up production, Pascua-Lama in Chile, and the Canadian Malartic and Holt mining projects in Canada. The failure of any of these projects to produce anticipated royalty revenues may materially and adversely affect our financial condition, results of operations, cash flows and the other benefits we expect to achieve from the acquisition of the royalty interests.

We received significant revenue in fiscal 2009 from Cortez and this maturing mine is likely to experience production declines.

Approximately 22% and 33% of our revenues were derived from Cortez in fiscal years 2009 and 2008, respectively, and approximately 23% of our revenues were derived from Cortez for the nine months ended March 31, 2010 and 2009. We expect that revenue from our royalties at Cortez will continue to be a significant contributor to our revenue in future periods. As Cortez and other mines on which we have royalties mature, we can expect overall declines in production over the years unless operators are able to replace reserves that are mined through mine expansion or successful new exploration. There can be no assurance that the operators of Cortez or our other properties will be able to maintain or increase production or replace reserves as they are mined.

We may enter into acquisitions or other material royalty transactions at any time, including promptly after this offering.

We are engaged in a continual review of opportunities to acquire existing royalties, to create new royalties through the financing of mining projects or third party acquisitions or to acquire companies that hold royalties. We currently, and generally at any time, have acquisition opportunities in various stages of active review, including, for example, our engagement of consultants and advisors to analyze particular opportunities, analysis of technical, financial and other confidential information, submission of indications of interest, obtaining or providing debt commitments for acquisition financing, participation in discussions regarding serving as a financing source in connection with royalty acquisitions or negotiations for acquisitions, and considering involvement as a bidder in competitive auctions. Any such acquisition could be material to us and could significantly increase the size and

Table of Contents

scope of our business. In such event, we could issue substantial amounts of common stock or incur substantial additional indebtedness to fund the acquisition. Issuances of common stock would dilute the ownership of our existing stockholders and could reduce our earnings per share.

In addition, we may consider opportunities to restructure our royalties where we believe such restructuring would provide a long-term benefit to the Company, though such restructuring may reduce near-term revenues. For example, we restructured our royalties at Cortez in connection with the Barrick royalty portfolio acquisition, which reduced our royalty revenue from Cortez during the fiscal year ended June 30, 2009 by approximately \$1.1 million. We could enter into one or more acquisition or restructuring transactions at any time.

We may incur substantial indebtedness that could have adverse effects on our business.

We may incur substantial indebtedness in the future in connection with financing acquisitions, strategic transactions or for other purposes. If we were to incur substantial additional indebtedness, including increased bank borrowings, it may become difficult for us to satisfy our debt obligations, increase our vulnerability to general adverse economic and industry conditions, require us to dedicate a substantial portion of our cash flow from operations and proceeds of any equity issuances to make payments on our indebtedness, thereby reducing the availability of cash flow to fund acquisitions and dividends and other general corporate purposes, which may place us at a disadvantage to our competitors that have less debt or have other adverse effects on us. For example, we borrowed an aggregate of \$255 million under a revolving credit facility and term loan facility, largely in connection with our acquisition of IRC. We may use some of the proceeds from this offering to pay all or a portion of the outstanding amount under our revolving credit facility.

We may be unable to successfully acquire additional royalty interests at appropriate valuations.

Our future success depends upon our ability to acquire royalty interests at appropriate valuations, including through corporate acquisitions, to replace depleting reserves and to diversify our royalty portfolio. We anticipate that most of our revenues will be derived from royalty interests that we acquire or finance, rather than through exploration and development of properties. There can be no assurance that we will be able to identify and complete the acquisition of such royalty interests, or businesses that own desired royalty interests, at reasonable prices or on favorable terms.

If we are unable to successfully acquire additional royalty interests, or if the operators fail to convert non-mineralized material into reserves, the reserves subject to our royalties will decline as the producing properties on which we have royalties are mined. Furthermore, some of our royalties are subject to royalty caps after which we will no longer receive royalties. For example, two of our royalties at the Taparko mine and our royalty at the Siguiiri mine, both of which are principal producing properties, are expected to reach their caps within fiscal 2011. Once those royalty caps have been reached, we will no longer receive royalty revenue from those royalties, although two other, smaller royalties at Taparko commence when the two original royalties reach their cap. We may also experience negative reactions from the financial markets or operators of properties on which we seek royalties if we are unable to successfully complete acquisitions of royalty interests or businesses that own desired royalty interests. Each of these factors may adversely affect the trading price of our common stock or our financial condition or results of operations.

Estimates of reserves and mineralization by the operators of mines in which we have royalty interests are subject to significant revision.

There are numerous uncertainties inherent in estimating proven and probable reserves and mineralization, including many factors beyond our control and the control of the operators of mineral properties on which we have royalty interests. Reserve estimates on our royalty interests are prepared

Table of Contents

by the operators of the mining properties. We do not participate in the preparation or verification of such reports and have not independently assessed or verified the accuracy of such information. The estimation of reserves and of other mineralized material is a subjective process, and the accuracy of any such estimates is a function of the quality of available data and of engineering and geological interpretation and judgment. Results of drilling, metallurgical testing and production, and the evaluation of mine plans subsequent to the date of any estimate, may cause a revision of such estimates. The volume and grade of reserves recovered and rates of production may be less than anticipated. Assumptions about gold and other precious metal prices are subject to great uncertainty, and such prices have fluctuated widely in the past. Declines in the market price of gold or other precious metals also may render reserves or mineralized material containing relatively lower grades of ore uneconomical to exploit. Changes in operating and capital costs and other factors including short-term operating factors, such as the need for sequential development of ore bodies and the processing of new or different ore grades, may materially and adversely affect reserves. Finally, it is important to note that our royalties give us only small percentage interests in the production from the operators' aggregate reserves, and those percentage interests vary widely based on the individual royalty documents.

Estimates of production by the operators of mines in which we have royalty interests are subject to change, and actual production may vary materially from such estimates.

Production estimates are prepared by the operators of mining properties. There are numerous uncertainties inherent in estimating anticipated production attributable to our royalty interests, including many factors beyond our control and the control of the operators of properties in which we have royalty interests. We do not participate in the preparation or verification of production estimates and have not independently assessed or verified the accuracy of such information. The estimation of anticipated production is a subjective process and the accuracy of any such estimates is a function of the quality of available data, reliability of production history, variability in grade encountered, mechanical or other problems encountered, engineering and geological interpretation and operator judgment. Rates of production may be less than expected. Results of drilling, metallurgical testing and production, changes in commodity prices, and the evaluation of mine plans subsequent to the date of any estimate may cause actual production to vary materially from such estimates.

If title to properties is not properly maintained by the operators, our royalty revenues could decline.

The validity of unpatented mining claims, which constitute a significant portion of the properties on which we hold royalties in the United States, is often uncertain and such validity is always subject to contest. Unpatented mining claims are generally considered subject to greater title risk than patented mining claims, or real property interests that are held by absolute title to the land (known legally as "fee simple" ownership). Because unpatented mining claims are self-initiated and self-maintained, they possess some unique vulnerabilities not associated with other types of property interests. It is impossible to ascertain the validity of unpatented mining claims from public real property records, and therefore it can be difficult or impossible to confirm that all of the requisite steps have been followed for location and maintenance of an unpatented mining claim. If title to unpatented mining claims subject to our royalty interests has not been properly established or is not properly maintained, our royalty revenues could be adversely affected.

Royalty interests are subject to contest by operators of mining projects and holders of mining rights.

Our business includes the risk that operators of mining projects and holders of mining claims, tenements, concessions, mining licenses or other interests in land and mining rights may contest the existence, geographic extent, calculation, responsibility for payment or other aspects of our royalty interests. For example, the responsibility for paying our royalty interest on the Holt portion of the

Table of Contents

development stage Holloway-Holt mining project that we acquired in 2008 as part our acquisition of a portfolio of royalties from Barrick is being disputed, and there can be no assurance that the operator will develop the Holt portion of the project if it is made responsible for the entire royalty or that our royalty interest will not be reduced as a result of the dispute. While Royal Gold seeks to confirm the existence, validity and enforceability of the royalties it acquires, there can be no assurance that such disputes will not arise. As a general matter, royalty interests in mining projects or properties are subject to uncertainties and complexities arising from the application of contract and property laws governing private parties and/or local or national governments in the jurisdiction where mining projects are located.

Changes in federal and state legislation, including changes in mining taxes and royalties payable to governments, could decrease our royalty revenues.

In recent years, the United States Congress has considered a number of proposed major revisions to the General Mining Law of 1872 (the "General Mining Law"), which governs the creation, maintenance and possession of mining claims and related activities on federal public lands in the United States. Four such proposals are currently pending. Bills H.R. 699 and S. 140 were introduced in the Congress in January 2009 and S. 796 and H.R. 3201 were introduced in April and July, 2009, respectively. H.R. 699 would, if enacted, impose a royalty payable to the U.S. Government on existing and future production of minerals from unpatented mining claims in the United States, render certain federal lands unavailable for the location of unpatented mining claims, afford greater public involvement and regulatory discretion in the mine permitting process, provide for citizen suits against miners operating on federal lands, and impose new and stringent environmental operating standards and mined land reclamation requirements in addition to those already in effect.

If enacted, S. 140 would impose a royalty on production of minerals from patented and unpatented mining claims, as well as reclamation fees on all hard rock mining operations, and substantially increase existing annual fees paid to maintain unpatented mining claims.

If enacted, S. 796 would, among other things, impose a royalty on production of minerals from unpatented mining claims (except that production from permitted operations producing in commercial quantities on the date of enactment would be grandfathered), impose a land use fee on all federal lands included in mining permits, impose an abandoned mine land reclamation fee on all hardrock mining operations, afford greater public involvement and regulatory discretion in the mine permitting process and in determining appropriate financial assurance for completion of reclamation obligations, render certain federal lands unavailable for the location of unpatented mining claims, and impose new mined land reclamation requirements in addition to those already in effect.

H.R. 3201 would, if enacted, impose a royalty on production of minerals from unpatented mining claims located after the date of enactment, and impose an abandoned locatable mine land fee on production from unpatented mining claims.

If enacted, legislation such as H.R. 699, S. 140, S. 796 and H.R. 3201 could adversely affect the development of new mines and the expansion of existing mines, as well as increase the cost of all mining operations on federal lands, perhaps materially and adversely affecting mine operators and, therefore, our royalty revenue.

The effect of any revision of the General Mining Law on our royalty interests in the United States cannot be determined conclusively until such revision, if any, is enacted and challenges to the legislation, if any, have been finally resolved. In addition, a number of the properties on which we have royalties are located on U.S. federal lands that are subject to federal mining and other public land laws. Changes in federal or state laws or regulations promulgated under such laws could affect mine development and expansion, significantly increase regulatory obligations and compliance costs with respect to mine development and mine operations, increase the cost of holding mining claims or

Table of Contents

impose additional taxes imposed on mining operations, all of which could adversely affect our royalty revenue from such properties. By way of example, if a royalty, assessment, production tax, or other levy imposed on and measured by production is charged to the operator at Cortez, which is largely located on U.S. federal lands, the amount of that charge would be deducted from gross proceeds for calculation of our GSR1, GSR2 and GSR3 royalties, which would reduce our royalty revenues from these royalty interests.

Foreign operations and operation by foreign operators are subject to many risks.

We derived approximately 44% of our revenues from foreign sources during fiscal 2009, compared to 21% in fiscal 2008. We currently have interests in mines and projects outside of the United States in Argentina, Australia, Bolivia, Burkina Faso, Canada, Chile, Colombia, Finland, Honduras, Mexico, Nicaragua, the Republic of Guinea, Russia and Spain. We also evaluate precious metal royalty acquisitions or development opportunities in other parts of the world, including Central America, Europe, Republics of the former Soviet Union, Asia, Africa and South America. Our foreign activities are subject to the risks normally associated with conducting business in foreign countries. These risks include, depending on the country, such things as volatile exchange controls and currency fluctuations, inflation, limitations on repatriation of earnings, foreign taxation, foreign real estate, contract and environmental laws and enforcement, expropriation or nationalization of property, labor practices and disputes, changes in legislation, including changes in mining taxes and royalties payable to governments, that could substantially increase the cost of mining operations, and uncertain political and economic environments. There are also risks of war and civil disturbances, as well as other risks that could cause exploration or development difficulties or stoppages of operations, restrict the movement of funds or result in the deprivation or loss of contract or real property rights or the taking of property by nationalization or expropriation. Exploration licenses granted by some foreign countries do not include the right to mine, and in some jurisdictions the right to convert an exploration license into mining rights may not be automatic. Each country has discretion in determining whether to grant a license to mine. If an operator cannot secure a mining license following exploration of a property, or were to lose such a license, then the value of our royalty interest would be negatively affected or its validity undermined. Foreign operations also could be adversely impacted by laws and policies of the United States affecting foreign trade, investment and taxation. Furthermore, many of our operators are organized outside of the United States. Our royalty interests may be subject to the application of foreign laws to our operators, and their stockholders, including laws relating to corporate transactions, taxation, creditors' rights, bankruptcy and liquidation.

The mining industry is subject to significant environmental risks.

Mining is subject to potential risks and liabilities associated with pollution of the environment and the disposal of waste products occurring as a result of mineral exploration and production. Laws and regulations in the United States and abroad intended to ensure the protection of the environment are constantly changing and generally are becoming more restrictive and costly. Insurance against environmental risks (including potential liability for pollution or other hazards as a result of the disposal of waste products occurring from exploration and production) is not generally available to companies within the mining industry, such as the operators of the mines in which we hold a royalty interest, at a reasonable price. Furthermore, mining may be subject to significant environmental and other permitting requirements regarding the use of raw materials, particularly water, needed for operations. If an operator is forced to incur significant costs to comply with environmental regulations or becomes subject to environmental restrictions that limit its ability to continue or expand operations, or if an operator were to lose its right to use or access water or other raw materials necessary to operate a mine, our royalty revenues could be reduced, delayed, or eliminated. Environmental and permitting issues can also lead to significant cost burdens, interruptions or stoppage of operations at operating mines. Our development stage royalty properties, where permitting may not be complete, are

Table of Contents

most susceptible to these risks. Further, to the extent that we become subject to environmental liabilities for the time period during which we were operating properties, the satisfaction of any liabilities would reduce funds otherwise available to us and could have a material adverse effect on our financial condition, results of operations and cash flows.

We depend on the services of our President and Chief Executive Officer and other key employees and on the participation of our Chairman.

We believe that our success depends on the continued service of our key executive management personnel. Currently, Tony Jensen is serving as our President and Chief Executive Officer. Mr. Jensen's extensive commercial experience, mine operations background and industry contacts give us an important competitive advantage. Furthermore, our Chairman, Stanley Dempsey, who served as our Executive Chairman until his retirement in January 2009, remains closely involved with the Company. Mr. Dempsey's knowledge of the royalty business and long-standing relationships with participants in the mining industry are important to our success. The loss of the services of Mr. Jensen or other key employees could jeopardize our ability to maintain our competitive position in the industry. We currently do not have key person life insurance for any of our officers or directors.

Our disclosure controls and internal control over our financial reporting are subject to inherent limitations.

Management has concluded that as of the period ended June 30, 2009, our disclosure controls and procedures and our internal control over financial reporting were effective. Such controls and procedures, however, may not be adequate to prevent or identify existing or future internal control weaknesses due to inherent limitations that are beyond our control, including, but not limited to, our dependence on operators for the calculations of royalty payments as discussed in the above risk factor. As an example, we concluded that we had a material weakness in our internal control over financial reporting as of the fiscal year ended June 30, 2008, because we were not able to detect an operator's incorrect calculation of a certain royalty payment in a timely fashion. As a result, we restated our consolidated financial statements for the fiscal year ended June 30, 2008 (please see Item 9A of our Form 10-K/A, filed with the SEC on November 6, 2008, and Item 4 of Part I of our Form 10-Q filed with the SEC on November 10, 2008, for further discussion of the material weakness and restatement). While we believe we have remedied the material weakness in our internal control over financial reporting, inherent limitations that are beyond our control remain and there is a risk that material misstatements of operations and financial condition may not be prevented or detected on a timely basis by our internal controls over financial reporting and may require us to restate our financial statements. This could, in turn, adversely affect the trading price of our common stock and there is a risk that repeated restatements could result in an investigation by the SEC.

Risks Related to Our Common Stock

Our stock price may continue to be volatile and could decline.

The market price of our common stock has fluctuated and may decline in the future. The high and low sale prices of our common stock on the NASDAQ Global Select Market were \$37.50 and \$23.25 in the fiscal year ended June 30, 2007, \$35.42 and \$23.85 for the fiscal year ended June 30, 2008, \$49.81 and \$22.75 for the fiscal year ended June 30, 2009, \$55.96 and \$37.35 in the nine-month period ended March 31, 2010, and \$54.85 and \$46.51 for the period April 1, 2010 through June 22, 2010. On June 22, 2010, the closing sale price of our common stock as reported on the NASDAQ Global Select Market was \$51.28. The fluctuation of the market price of our common stock has been affected by many factors that are beyond our control, including:

the market price of gold and other metals;

interest rates;

Table of Contents

expectations regarding inflation;

the ability of operators to produce precious metals and develop new reserves;

currency values;

credit market conditions;

general stock market conditions; and

global and regional political and economic conditions.

Additional issuances of equity securities by us would dilute the ownership of our existing stockholders and could reduce our earnings per share.

We may issue equity in the future in connection with acquisitions, strategic transactions or for other purposes. For example, we issued 5,234,086 shares of common stock and 1,806,649 shares of exchangeable shares of RG Exchangeco that are convertible at any time on a one-for-one basis for shares of Royal Gold common stock in connection with our acquisition of IRC. Any such acquisition could be material to us and could significantly increase the size and scope of our business. To the extent we issue additional equity securities, the ownership of our existing stockholders could be diluted and our earnings per share would be reduced.

If a large number of shares of our common stock is sold in the public market, the sales could reduce the trading price of our common stock and impede our ability to raise future capital.

We cannot predict what effect, if any, future issuances by us of our common stock or of other equity will have on the market price of our common stock. In addition, the shares of common stock that we issue in connection with an acquisition may not be subject to resale restrictions. We may issue substantial additional shares of common stock or other securities in connection with acquisition transactions. The market price of our common stock could decline if certain large holders of our common stock, or recipients of our common stock in connection with an acquisition, sell all or a significant portion of their shares of common stock or are perceived by the market as intending to sell these shares other than in an orderly manner. In addition, these sales could also impair our ability to raise capital through the sale of additional common stock in the capital markets.

We may change our practice of paying dividends.

We have paid a cash dividend on our common stock for each fiscal year beginning in fiscal 2000. Our board of directors has discretion in determining whether to declare a dividend based on a number of factors, including prevailing gold prices, economic market conditions and funding requirements for future opportunities or operations. If our board of directors declines to declare dividends in the future or reduces the current dividend level, then our stock price could fall, and the success of an investment in our common stock would depend solely upon any future stock price appreciation. We have increased our dividends in prior years. There can be no assurance, however, that we will continue to do so. For example, if we were to materially increase our borrowings to conduct a material acquisition, our board of directors could elect to modify our practice of paying dividends and potentially reduce or eliminate dividends on common stock.

Certain anti-takeover provisions could delay or prevent a third party from acquiring us.

Provisions in our restated certificate of incorporation may make it more difficult for third parties to acquire control of us or to remove our management. Some of these provisions:

permit our board of directors to issue preferred stock that has rights senior to the common stock without stockholder approval;

Table of Contents

provide for three classes of directors serving staggered, three-year terms; and

require certain advanced notice of and information relating to stockholder nominations and proposals.

We are also subject to the business combination provisions of Delaware law that could delay, deter or prevent a change in control. In addition, we have adopted a stockholder's rights plan that imposes significant penalties upon a person or group that acquires 15% or more of our outstanding common stock without the approval of the board of directors. Any of these measures could prevent a third party from pursuing an acquisition of Royal Gold, even if stockholders believe the acquisition is in their best interests.

Table of Contents

USE OF PROCEEDS

The net proceeds from the sale of the shares of our common stock in this offering are estimated to be approximately \$240.3 million, based on a public offering price of \$48.50 per share and after deducting the underwriting discounts and commissions and estimated offering expenses.

We intend to use the net proceeds of this offering for general corporate purposes, including to repay debt and to fund acquisitions of additional royalty interests. We may use a portion of the net proceeds to repay all or a portion of the \$125 million, which is currently bearing a LIBOR margin of 2.25%, outstanding under our revolving credit facility with HSBC Bank, HSBC Securities (USA) Inc. and Scotiabanc, or to repay all or a portion of the \$123.5 million, which is currently bearing a LIBOR margin of 2.25%, outstanding under our term loan facility with HSBC Bank, HSBC Securities (USA) Inc. and the Bank of Nova Scotia. However, we may use the proceeds of this offering primarily for acquisitions. See "Prospectus Supplement Summary Possible Acquisitions" on page S-5 for a description of our acquisition strategy.

HSBC Securities (USA) Inc. and its affiliate HSBC Bank are parties to, and HSBC Bank is a lender under, our revolving credit facility. In addition, Scotiabanc, an affiliate of Scotia Capital (USA) Inc., is a party to and lender under our revolving credit facility and the Bank of Nova Scotia, an affiliate of Scotia Capital (USA) Inc., is a party to and lender under our term loan. Our revolving credit facility and our term loan were both negotiated on an arms' length basis and contain customary terms pursuant to which the lenders receive customary fees. As described above, we may use a portion of the net proceeds from this offering to repay borrowings under our revolving credit facility or term loan. Accordingly, because more than 5% of the net proceeds from this offering could potentially be paid to affiliates of the underwriters, this offering will be made in compliance with the requirements of Rule 2720 of the Conduct Rules of the NASD as administered by FINRA.

A Qualified Independent Underwriter is not necessary for this offering pursuant to FINRA Rule 2720(a)(1)(B).

We intend to invest the net proceeds from this offering pending their use primarily in cash bank accounts, money market accounts that are invested in United States treasury bills or United States treasury-backed securities.

Table of Contents**CAPITALIZATION**

The following table sets forth the total cash and equivalents and capitalization of Royal Gold as of March 31, 2010 and as adjusted to reflect the sale of 5,200,000 shares in this offering and the application of the net proceeds therefrom. The following table does not reflect the shares issuable upon the exercise or vesting of stock options, performance shares or SSARs, shares reserved for issuance under our equity compensation plans, shares exchangeable for the exchangeable shares of RG Exchangeco or any of the shares subject of the underwriters' over-allotment option, as described more fully below.

	As of March 31, 2010	
	Actual	As Adjusted
	(dollars in thousands, unaudited)	
Cash and equivalents	\$ 53,650	\$ 293,914
Long-term debt, including current portion	255,000	255,000
Equity:		
Preferred stock, \$.01 par value, 10,000,000 shares authorized; 0 shares issued and outstanding; as adjusted		
0 shares issued and outstanding		
Common stock, \$.01 par value, 100,000,000 shares authorized; 47,196,487 shares issued and outstanding; as adjusted	472	524
52,396,487 shares issued and outstanding		
Exchangeable shares, no par value, 1,806,649 issued and outstanding, less 32,756 exchanged; as adjusted		
1,806,649 issued and outstanding, less 32,756 exchanged		
Additional paid-in capital	1,077,207	1,317,419
Accumulated other comprehensive income	14	14
Accumulated earnings	46,326	46,326
Treasury Stock, at cost (74,730 shares)	(3,557)	(3,557)
Total Royal Gold stockholders' equity	1,120,462	1,360,726
Non-controlling interests	31,790	31,790
Total equity	1,152,252	1,392,516
Total capitalization	\$ 1,407,252	1,647,516

The number of shares of common stock that will be outstanding after the offering is based on 47,196,487 shares outstanding as of March 31, 2010. This number excludes:

1,773,893 exchangeable shares of RG Exchangeco outstanding as of March 31, 2010 that are convertible on a one-for-one basis for shares of Royal Gold common stock and one share of Special Voting Stock issued to give the exchangeable shares equivalent voting rights to Royal Gold common stock, all of which were issued in connection with our acquisition of IRC;

340,830 shares of common stock issuable upon exercise of outstanding options at a weighted average exercise price of \$25.27 per share, of which 287,104 shares of common stock are subject to options that are vested and immediately exercisable;

122,375 performance shares that vest upon achieving certain performance goals;

102,140 shares of common stock issuable upon exercise of outstanding SSARs, of which 24,833 shares are vested and immediately exercisable;

Edgar Filing: ROYAL GOLD INC - Form 424B2

77,450 shares of common stock reserved for future issuance under our equity compensation plans; and

any of the 780,000 additional shares issuable pursuant to the underwriters' over-allotment option.

S-26

Table of Contents**MARKET PRICE OF OUR COMMON STOCK**

Our common stock is quoted on the NASDAQ Global Select Market under the symbol "RGLD" and on the Toronto Stock Exchange under the symbol "RGL". The following table sets forth for each of the quarterly periods indicated the range of high and low sales prices in U.S. dollars of our common stock on the NASDAQ Global Select Market.

	High	Low
Year Ended June 30, 2007		
First Quarter	\$ 31.82	\$ 25.67
Second Quarter	37.50	24.12
Third Quarter	36.50	29.31
Fourth Quarter	30.87	23.25
Year Ended June 30, 2008		
First Quarter	\$ 34.36	\$ 23.85
Second Quarter	35.39	26.54
Third Quarter	35.42	27.51
Fourth Quarter	32.93	26.87
Year Ending June 30, 2009		
First Quarter	\$ 39.50	\$ 26.88
Second Quarter	49.45	22.75
Third Quarter	49.81	35.76
Fourth Quarter	48.69	34.16
Year Ending June 30, 2010		
First Quarter	\$ 49.35	\$ 37.35
Second Quarter	55.96	42.90
Third Quarter	50.98	41.19
Fourth Quarter (through June 22, 2010)	54.85	46.51

On June 22, 2010, the closing sale price of our common stock as reported on the NASDAQ Global Select Market was \$51.28 per share. On June 15, 2010, the number of our common stockholders of record was 1,003.

DIVIDEND HISTORY

We have paid a cash dividend on our common stock for each fiscal year beginning in fiscal 2000, which we have increased each fiscal year beginning in 2001. We currently plan to pay a dividend on a calendar year basis, subject to the discretion of our board of directors. Our board of directors may determine not to declare a dividend based on a number of factors, including the gold price, economic and market conditions, funding requirements of our operations and opportunities that might arise in the future.

We issued 1,806,649 exchangeable shares of RG Exchangeco that are convertible on a one-for-one basis for shares of Royal Gold common stock to stockholders of IRC in connection with our acquisition of IRC on February 22, 2010. As of April 30, 2010, 1,632,220 exchangeable shares are outstanding. The exchangeable shares are entitled to dividends at the same rate as the dividends that are declared on our common stock, and those dividends will be paid at the same time dividends are paid on our common stock.

For calendar 2010, we announced an annual dividend of \$0.36 per share of common stock, payable in four quarterly payments of \$0.09 each. We paid the first payment of \$0.09 per share on January 15, 2010, to stockholders of record at the close of business on January 4, 2010. We paid the second payment of \$0.09 per share and per exchangeable share of RG Exchangeco on April 16, 2010 to

Table of Contents

stockholders of record and holders of record of the exchangeable shares of RG Exchangeco at the close of business on April 2, 2010. We will pay the third payment of \$0.09 per share and per exchangeable share of RG Exchangeco on July 16, 2010 to stockholders of record and holders of record of the exchangeable shares of RG Exchangeco at the close of business on July 2, 2010.

For calendar 2009, we paid an annual dividend of \$0.32 per share of common stock, payable in four quarterly payments of \$0.08 each. We paid the first payment of \$0.08 per share on January 16, 2009, to stockholders of record at the close of business on January 2, 2009. We paid the second payment of \$0.08 per share on April 17, 2009 to stockholders of record at the close of business on April 3, 2009. We paid the third payment of \$0.08 per share on July 17, 2009 to stockholders of record at the close of business on July 2, 2009. We paid the fourth payment of \$0.08 per share on October 16, 2009 to stockholders of record at the close of business on October 2, 2009.

For calendar 2008, we paid an annual dividend of \$0.28 per share of common stock, payable in four quarterly payments of \$0.07 each. We paid the first payment of \$0.07 per share on January 18, 2008 to stockholders of record at the close of business on January 4, 2008. We paid the second payment of \$0.07 per share on April 18, 2008 to stockholders of record at the close of business on April 4, 2008. We paid the third payment of \$0.07 per share on July 18, 2008 to stockholders of record at the close of business on July 3, 2008. We paid the fourth payment of \$0.07 per share on October 17, 2008 to stockholders of record at the close of business on October 3, 2008.

Table of Contents**MANAGEMENT**

Shown below are the names, ages and positions of our directors and executive officers as of June 22, 2010.

Name	Age	Position
Stanley Dempsey	70	Chairman of the Board of Directors
Tony Jensen	48	Director, President and Chief Executive Officer
M. Craig Haase	67	Director
William Hayes	65	Director
S. Oden Howell, Jr.	70	Director
James W. Stuckert	72	Director
Donald Worth	77	Director
Karen Gross	56	Vice President and Corporate Secretary
William Heissenbuttel	44	Vice President of Corporate Development
Bruce C. Kirchhoff	50	Vice President and General Counsel
Stefan Wenger	37	Chief Financial Officer and Treasurer
William M. Zisch	52	Vice President of Operations

Stanley Dempsey has served as Chairman of our board of directors since January 2009 and served as our Executive Chairman from July 2006 to January 2009. He was our Chairman and Chief Executive Officer from August 1988 until June 2006. Mr. Dempsey also served as our President from May 2002 until August 2003 and our President and Chief Operating Officer from July 1987 to July 1988. From 1983 through June 1986, Mr. Dempsey was a partner in the law firm of Arnold & Porter. During the same period, he was a principal in Denver Mining Finance Company, a firm that provides financial, management and advisory services to the mining industry. From 1970 through 1983, Mr. Dempsey was employed by AMAX, Inc., a major international mining firm, serving in various managerial and executive capacities. Mr. Dempsey is a member of the board of directors of Taranis Resources. He is involved in various mining-related associations.

Tony Jensen has served on our board of directors since August 2004 and as our President and Chief Executive Officer since July 2006. Mr. Jensen served as our President and Chief Operating Officer from August 2003 until June 2006. Mr. Jensen has over 25 years of mining industry experience, including 18 years with Placer Dome Inc. His corporate and operations experience were developed both in the United States and in Chile where he occupied several senior management positions in mine production, corporate development and finance. Before joining the Company, he was the Mine General Manager of the Cortez Joint Venture from August 1999 to June 2003, currently a subsidiary of Barrick. Mr. Jensen is a director of the Industrial Advisory Board of the South Dakota School of Mines and Technology and is a member of the board of directors of the National Mining Association.

M. Craig Haase has served on our board of directors since July 2007. Mr. Haase is a retired mining executive. Mr. Haase served as Director, Executive Vice President and Chief Legal Officer of Franco-Nevada Mining Corporation, a publicly-traded precious metals royalty company, for more than 15 years prior to its acquisition by Newmont Mining Corporation in 2002. He served as a director of Newmont from March 2002 until he retired in May 2003. He served in a similar capacity at Euro-Nevada Mining Corporation from 1987 to 1999, when Euro-Nevada merged with Franco-Nevada. Mr. Haase was also Chairman and CEO for Gold Marketing Corporation of America, Inc., a physical gold export company from 1994 to 2002. He received his J.D. from the University of Illinois and was engaged in private practice from 1971 to 1990.

William Hayes has served on our board of directors since January 2008. Mr. Hayes is a retired mining executive. Mr. Hayes served in various management positions with Placer Dome Inc. from 1988 to 2006. He was Executive Vice President for Project Development and Corporate Affairs for Placer

Table of Contents

Dome Inc. from 2004 to 2006. From 1999 to 2004, he served as Executive Vice President Placer Dome Inc. for the USA and Latin America, and from 1994 to 1999 as Executive Vice President Placer Dome Inc. for Latin America. In 1995, he served as Chief Executive Officer of Mantos de Ore, Chile, at the La Coipa mine and was Chief Financial Officer there from 1988 to 1991. Mr. Hayes served as Vice President and Treasurer of Placer Dome from 1991 to 1994. From 1972 to 1987, Mr. Hayes served in various domestic and international financial positions with Exxon Corporation. Mr. Hayes is a director of Tethyan Copper Company, a copper mining and exploration business focused in the South Asian region, as well as of Antofagasta Minerals and Antofagasta PLC, copper mining companies focused on operations in Chile.

S. Oden Howell, Jr. has served on our board of directors since December 1993. Mr. Howell has been the President of Howell & Howell Contractors, Inc., a renovation contractor, and industrial and commercial painting contractor, since 1988. He is also the owner of Kessinger Service Industries, LLC, an industrial coatings contractor firm, Secretary/Treasurer of LCM Constructors, Inc., a general construction company located in Charleston, S.C. and Secretary/Treasurer of SemperFi Constructors, LLC, a service-disabled, veteran-owned small business located in Charleston, S.C. From 1972 until 1988, Mr. Howell was Secretary/Treasurer of Howell & Howell, Inc., an industrial and commercial painting contractor firm. Mr. Howell is a director of Keller Manufacturing Company and Paragon Door Designs, Inc.

James W. Stuckert has served on our board of directors since September 1989. Mr. Stuckert has been a Senior Executive of Hilliard, Lyons, Inc., a full service financial asset management firm, since 2004. Mr. Stuckert joined Hilliard, Lyons in 1962 and served in several capacities, including Chief Executive Officer, prior to being named Chairman in December 1995. He served as Chairman of the firm from December 1995 to December 2003.

Donald Worth has served on our board of directors since April 1999. Mr. Worth is a director of Sentry Select Capital Corporation, Cornerstone Capital Resources, Inc. and Tiomin Resources Inc. He is also a trustee of Labrador Iron Ore Royalty Income Fund. Mr. Worth has been involved in the mining industry since 1949. He formerly was a mining specialist and a vice president of Canadian Imperial Bank of Commerce (Canada) from July 1984 to August 1997, when he retired. He is involved with several professional associations in both Canada and the United States.

Karen Gross has served as our Vice President since June 1994 and Corporate Secretary since 1989. From 1987 until 1989, Ms. Gross was our Assistant Secretary. Ms. Gross is in charge of investor relations, public relations and ensuring our compliance with various corporate governance standards. Ms. Gross is involved with the National Investor Relations Institute, the Society of Corporate Secretaries and Governance Professionals and is a director of the Denver Gold Group, a mining-related association. Ms. Gross received her Bachelor of Arts degree in business administration from the University of Colorado-Denver.

William Heissenbuttel has served as our Vice President of Corporate Development since February 2007 and was our Manager of Corporate Development from April 2006 through January 2007. Mr. Heissenbuttel brings more than 20 years of corporate finance experience, with 15 of those years in project and corporate finance in the metals and mining industry. Mr. Heissenbuttel served as Senior Vice President from February 2000 to April 2006 and Vice President from 1999 to 2000 at N M Rothschild & Sons (Denver) Inc. From 1994 to 1999, he served as Vice President and Group Vice President at ABN AMRO Bank N.V. From 1987 to 1994, he was a Senior Credit Analyst and an Associate at Chemical Bank Manufacturers Hanover. Mr. Heissenbuttel holds a Master of Business Administration degree with a specialization in finance from the University of Chicago.

Bruce C. Kirchhoff has served as our Vice President and General Counsel since February 2007. Mr. Kirchhoff has over 20 years of experience representing hardrock and industrial minerals mining companies, as well as mineral exploration and development clients. From January 2004 through January

Table of Contents

2007, Mr. Kirchhoff was a partner with the law firm Carver Kirchhoff Schwarz McNab & Bailey, LLC. From January 2003 to December 2003, Mr. Kirchhoff was a partner with the law firm Carver & Kirchhoff, LLC, and from April 1996 through December 2002, Mr. Kirchhoff was a partner in the law firm Alfers & Carver, LLC. Prior to private practice, Mr. Kirchhoff was a senior attorney with Cyprus Amax Minerals Company from June 1986 through March 1996. Mr. Kirchhoff holds a J.D. from the University of Denver, a Masters of Science in Mineral Economics from the Colorado School of Mines, and a B.A. from Colorado College.

Stefan Wenger has served as our Chief Financial Officer since July 2006 and Treasurer since August 2007. Mr. Wenger was with PricewaterhouseCoopers LLP as a manager from June 2002 until March 2003. From September 2000 until June 2002, he was a manager with Arthur Andersen LLP. Mr. Wenger has over 14 years of experience in the mining and natural resources industry working in various financial roles. Mr. Wenger is a certified public accountant, is a graduate of Colorado State University with a Bachelors of Science degree in business administration and has completed the General Management Program at the Harvard Business School. He is a member of the Colorado Society of Certified Public Accountants and the American Institute of Certified Public Accountants.

William M. Zisch joined our team in March 2009 as our Vice President of Operations. Mr. Zisch has over 25 years of experience in the mining industry. Prior to joining Royal Gold, Mr. Zisch spent 12 years working for Newmont on both domestic and international assignments in technical, operating and executive positions. Most recently, Mr. Zisch served as Vice President of Planning for Newmont from March 2007 to March 2009, Vice President African Operations from March 2005 to March 2007 and Group Executive and Managing Director of West African Operations from October 2003 through September 2005. Prior to his tenure at Newmont, Mr. Zisch spent 16 years with FMC Company, starting in coal and then gold operations and advancing to operating and strategic sourcing roles in the chemical group. Mr. Zisch holds a Master of Business Administration degree from the Wharton School at the University of Pennsylvania and a bachelors degree in Mining Engineering from the Colorado School of Mines in Golden, Colorado.

Table of Contents**UNDERWRITING (CONFLICT OF INTEREST)**

HSBC Securities (USA) Inc., Goldman, Sachs & Co. and Scotia Capital (USA) Inc. are acting as the representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the number of shares set forth opposite that underwriter's name.

Underwriter	Number of Shares
HSBC Securities (USA) Inc.	1,352,000
Goldman, Sachs & Co.	1,352,000
Scotia Capital (USA) Inc.	1,222,000
National Bank Financial	416,000
CIBC World Markets Inc.	286,000
RBC Capital Markets Corporation	286,000
UBS Securities LLC	286,000
Total	5,200,000

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the over-allotment option described below) if they purchase any of the shares.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

The underwriters propose to offer some of the shares directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the shares to dealers at the public offering price less a concession not to exceed \$1.31 per share. If all of the shares are not sold at the initial offering price, the representatives may change the public offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We have granted to the underwriters an option, exercisable at any time on or before the 30th day after the date of this prospectus supplement, to purchase up to 780,000 additional shares of common stock at the public offering price less the underwriting discount. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment.

We and our executive officers and directors have agreed that, for a period of 90 days from the date of the underwriting agreement, we and they will not, without the prior written consent of HSBC Securities (USA) Inc., Goldman, Sachs & Co. and Scotia Capital (USA) Inc., dispose of or hedge any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock, except that our executive officers and directors may sell up to an aggregate of 68,625 shares of common stock during the lock-up period in connection with a vesting of the Company's performance shares. In addition, one of our directors and his spouse are permitted to sell up to an aggregate of 50,000 shares of our common stock during the lock-up period under a written plan outstanding on the date hereof, for trading securities adopted pursuant to Rule 10b5-1 under the Exchange Act. Our officers and directors are also permitted to transfer shares of common stock as bona fide gifts, provided that the donee or donees agree to be bound by the restrictions set forth in the lock-up agreements. Furthermore, we may enter into a contract to sell, file a registration statement with respect to and issue as consideration in connection with any acquisition of, or financing in exchange

Table of Contents

for, royalty interests or any acquisition of any corporation, the business of which includes the business of acquiring and/or holding royalty interests, up to 5% of the Company's common stock issued and outstanding immediately following the closing of this offering, provided that the recipient of such shares agrees in writing to be subject to the same lock-up restriction as us.

The common stock is listed on the NASDAQ Global Select Market under the symbol "RGLD" and is also traded on The Toronto Stock Exchange under the symbol "RGL".

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares of common stock.

	Paid by Royal Gold, Inc.	
	No Exercise	Full Exercise
Per share of common stock	\$ 2.18	\$ 2.18
Total	\$ 11,336,000	\$ 13,036,400

In connection with this offering, HSBC Securities (USA) Inc. on behalf of the underwriters, may purchase and sell shares of common stock in the open market. These transactions may include short sales, syndicate covering transactions and stabilizing transactions. Short sales involve syndicate sales of common stock in excess of the number of shares to be purchased by the underwriters in the offering, which creates a syndicate short position. "Covered" short sales are sales of shares made in an amount up to the number of shares represented by the underwriters' over-allotment option. In determining the source of shares to close out the covered syndicate short position HSBC Securities (USA) Inc. will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. Transactions to close out the covered syndicate short involve either purchases of the common stock in the open market after the distribution has been completed or the exercise of the over-allotment option. HSBC Securities (USA) Inc. may also make "naked" short sales of shares in excess of the over-allotment option. HSBC Securities (USA) Inc. must close out any naked short position by purchasing shares of common stock in the open market. A naked short position is more likely to be created if HSBC Securities (USA) Inc. is concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of bids for or purchases of shares in the open market while the offering is in progress.

HSBC Securities (USA) Inc. also may impose a penalty bid. Penalty bids permit HSBC Securities (USA) Inc. to reclaim a selling concession from a syndicate member when HSBC Securities (USA) Inc. repurchases shares originally sold by that syndicate member in order to cover syndicate short positions or make stabilizing purchases.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the common stock. They may also cause the price of the common stock to be higher than the price that would otherwise exist in the open market in the absence of these transactions. HSBC Securities (USA) Inc. may conduct these transactions on the NASDAQ Global Select Market or in the over-the-counter market, or otherwise. If HSBC Securities (USA) Inc. commences any of these transactions, it may discontinue them at any time.

In addition, in connection with this offering, some of the underwriters (and selling group members) may engage in passive market making transactions in the common stock on the NASDAQ Global Select Market prior to the pricing and completion of the offering. Passive market making consists of displaying bids on the NASDAQ Global Select Market no higher than the bid prices of independent market makers and making purchases at prices no higher than those independent bids and effected in response to order flow. Net purchases by a passive market maker on each day are limited to a specified

Table of Contents

percentage of the passive market maker's average daily trading volume in the common stock during a specified period and must be discontinued when that limit is reached. Passive market making may cause the price of the common stock to be higher than the price that otherwise would exist in the open market in the absence of those transactions. If the underwriters commence passive market making transactions, they may discontinue them at any time.

We estimate that the total expenses of this offering will be \$600,000.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. From time to time in the ordinary course of their respective businesses, certain of the underwriters and their affiliates have engaged in and may in the future engage in commercial banking, derivatives and/or financial advisory, investment banking and other commercial transactions and services with us and our affiliates for which they have received or will receive customary fees and commissions. HSBC Securities (USA), Inc., HSBC Bank, an affiliate of HSBC Securities (USA) Inc., and Scotiabanc, an affiliate of Scotia Capital (USA) Inc., have provided us with a revolving credit facility in the amount of \$125 million that has been and may be used to acquire producing royalties. In addition, HSBC Bank, HSBC Securities (USA) Inc. and the Bank of Nova Scotia, an affiliate of Scotia Capital (USA) Inc., have provided us with a \$130 million term loan facility. Our revolving credit facility and term loan were negotiated on an arms' length basis and contain customary terms pursuant to which the lenders receive customary fees. As described above, we may use a portion of the net proceeds from this offering to repay outstanding amounts under our revolving credit facility or under the term loan. Accordingly, because more than 5% of the net proceeds from this offering could potentially be paid to affiliates of the underwriters, this offering will be made in compliance with the requirements of Rule 2720 of the Conduct Rules of the NASD as administered by FINRA. See "Use of Proceeds" on page S-25 for more information.

A Qualified Independent Underwriter is not necessary for this offering pursuant to FINRA Rule 2720(a)(1)(B).

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the issuer.

This prospectus supplement and the accompanying prospectus in electronic format may be made available on the websites maintained by one or more of the underwriters. The representatives may agree to allocate a number of shares to underwriters for sale to their online brokerage account holders. The representatives will allocate shares to underwriters that may make Internet distributions on the same basis as other allocations. In addition, shares may be sold by the underwriters to securities dealers who resell shares to online brokerage account holders.

SELLING RESTRICTIONS

This offering is being made concurrently in the United States and in all of the provinces of Canada, except Quebec (the "Canadian Jurisdictions"), pursuant to the multijurisdictional disclosure system implemented by the securities regulatory authorities in the United States and Canada (the "MJDS Rule"). The shares will be offered in the United States and the Canadian Jurisdictions through the underwriters, either directly or through their respective U.S. or Canadian registered broker-dealer affiliates. As described below, subject to applicable law, the underwriters may offer the shares outside the United States and Canada.

Table of Contents

European Economic Area

Each of the underwriters has represented and agreed that, in relation to each member state of the European Economic Area which has implemented the Prospectus Directive (each a "Relevant Member State"), it has not made and will not make an offer to the public of any shares which are the subject of the offering contemplated by this prospectus supplement (the "Securities") in that Relevant Member State, except that it is permitted to have made and may make an offer to the public in that Relevant Member State of any Securities under the following exemptions under the Prospective Directive, if they have been implemented in that Relevant Member State:

(a) to legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;

(b) to any legal entity which has two or more of (1) an average of at least 250 employees during the last financial year, (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;

(c) by the underwriters to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of HSBC Securities (USA) Inc. for any such offer; or

(d) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Securities shall result in a requirement for the publication by Royal Gold or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an "offer to the public" in relation to any Securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any Securities to be offered so as to enable an investor to decide to purchase any Securities, as the same may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression "Prospectus Directive" means Directive 2003/71/EC and includes any relevant implementing measure in each Relevant Member State.

United Kingdom

Each of the underwriters has further represented and agreed that:

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of Financial Services and Markets Act 2000, as amended ("FSMA")) received by it in connection with the issue or sale of any shares which are the subject of the offering contemplated by this prospectus supplement in circumstances in which section 21(1) of FSMA does not apply to Royal Gold; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the shares in, from or otherwise involving the United Kingdom.

France

Each of the underwriters has further represented and agreed that:

(a) no prospectus (including any amendment, supplement or replacement thereto) has been prepared in connection with the offering of the Securities that has been approved by the *Autorité des marchés financiers* or by the competent authority of another state that is a contracting party to the Agreement on the European Economic Area and notified to the *Autorité des marchés financiers*;

Table of Contents

(b) no Securities have been offered or sold nor will be offered or sold, directly or indirectly, to the public in France;

(c) the prospectus or any other offering material relating to the Securities have not been distributed or caused to be distributed and will not be distributed or caused to be distributed to the public in France;

(d) such offers, sales and distributions have been and shall only be made in France to persons licensed to provide the investment service of portfolio management for the account of third parties, qualified investors (*investisseurs qualifiés*) and/or a restricted circle of investors (*cercle restreint d'investisseurs*), in each case investing for their own account, all as defined in Articles L. 411-2, D. 411-1, D. 411-2, D. 411-4, D. 734-1, D. 744-1, D. 754-1 and D. 764-1 of the *Code monétaire et financier*; and

(e) the direct or indirect distribution to the public in France of any so acquired Securities may be made only as provided by Articles L. 411-1, L. 411-2, L. 412-1 and L. 621-8 to L. 621-8-3 of the *Code monétaire et financier* and applicable regulations thereunder.

Australia

This document has not been lodged with the Australian Securities & Investments Commission and is only directed to certain categories of exempt persons. Accordingly, if you receive this document in Australia:

(a) You confirm and warrant that you are either:

(i) A "sophisticated investor" under section 708(8)(a) or (b) of the Corporations Act 2001 (Cth) of Australia ("Corporations Act");

(ii) A "sophisticated investor" under section 708(8)(c) or (d) of the Corporations Act and that you have provided an accountant's certificate to the company which complies with the requirements of section 708(8)(c)(i) or (ii) of the Corporations Act and related regulations before the offer has been made;

(iii) A person associated with the company under section 708(12) of the Corporations Act; or

(iv) A "professional investor" within the meaning of section 708(11)(a) or (b) of the Corporations Act, and

to the extent that you are unable to confirm or warrant that you are an exempt sophisticated investor, associated person or professional investor under the Corporations Act any offer made to you under this document is void and incapable of acceptance.

(b) You warrant and agree that you will not offer any of the shares issued to you pursuant to this document for resale in Australia within 12 months of those shares being issued unless any such resale offer is exempt from the requirement to issue a disclosure document under section 708 of the Corporations Act.

Brazil

For purposes of Brazilian law, this offer of the shares is addressed to you personally, upon your request and for your sole benefit, and is not to be transmitted to anyone else, to be relied upon by anyone else or for any other purpose either quoted or referred to in any other public or private document or to be filed with anyone without our prior, express and written consent.

Table of Contents

China

The shares may not be offered or sold directly or indirectly to the public in the People's Republic of China ("China") and neither this document, which has not been submitted to the Chinese Securities and Regulatory Commission, nor any other offering material or information contained herein relating to the shares may be supplied to the public in China or used in connection with any offer for the subscription or sale of shares to the public in China. The shares may only be offered or sold to China-related organizations that are authorized to engage in foreign exchange business and offshore investment from outside of China. Such China-related investors may be subject to foreign exchange control approval and filings requirements under the relevant Chinese foreign exchange regulations.

Germany

The shares have not been and will not be registered or authorized for distribution in Germany under the German Investment Act (*Investmentgesetz*) and accordingly, the shares, this document and any related material may not be, and are not being, distributed in Germany by way of a public offer, public advertising or in any similar manner under the German Investment Act. Therefore, an offer to purchase any shares is only being made to recipients to whom this document is personally addressed and may only be made in accordance with the German Investment Act and all other applicable laws in Germany governing the issue, offering and sale of the shares.

Hong Kong

The shares have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance. No advertisement, invitation or document, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) has been issued or will be issued in Hong Kong or elsewhere other than with respect to the shares which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance.

WARNING: The contents of this document have not been reviewed by any regulatory authority in Hong Kong. You are advised to exercise caution in relation to the offer. If you are in any doubt about any of the contents of this document, you should obtain independent professional advice.

Italy

The offering of the shares has not been cleared by the Italian Securities Exchange Commission (*Commissione Nazionale per le Società e la Borsa*, or the CONSOB) pursuant to Italian securities legislation and, accordingly, the shares may not and will not be offered, sold or delivered, nor may or will copies of this document or any other documents relating to the shares or the offer be distributed in Italy other than to professional investors (*operatori qualificati*), as defined in Article 31, paragraph 2 of CONSOB Regulation No. 11522 of July 1, 1998, as amended, or Regulation No. 11522, or in other circumstances where an exemption from the rules governing solicitations to the public at large applies in accordance with Article 100 of Legislative Decree No. 58 of February 24, 1998, as amended, or the Italian Financial Law, and Article 33 of CONSOB Regulation No. 11971 of May 14, 1999, as amended.

Any offer, sale or delivery of the shares or distribution of copies of this document or any other document relating to the shares or the offer in Italy may and will be effected in accordance with all

Table of Contents

Italian securities, tax, exchange control and other applicable laws and regulations, and in particular, will be:

- (a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Legislative Decree No. 385 of September 1, 1993, as amended, or the Italian Banking Law, the Italian Financial Law, Regulation No. 11522, and any other applicable laws and regulations;
- (b) in compliance with Article 129 of the Italian Banking Law and the implementing guidelines of the Bank of Italy; and
- (c) in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy.

Any investor purchasing shares in the offer is solely responsible for ensuring that any offer or resale of the shares it purchased in the offer occurs in compliance with applicable laws and regulations. This document and the information contained herein are intended only for the use of its recipient and are not to be distributed to any third party residing in or located in Italy for any reason. No person residing in or located in Italy other than the original recipients of this document may rely on it or its content.

In addition to the above (which shall continue to apply to the extent not inconsistent with the implementing measures of the Prospective Directive in Italy), after the implementation of the Prospectus Directive in Italy, the restrictions, warranties and representations set out under the heading " European Economic Area" above shall apply to Italy.

Japan

The securities have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (the Financial Instruments and Exchange Law) and each underwriter has agreed that it will not offer or sell any securities, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Law and any other applicable laws, regulations and ministerial guidelines of Japan.

Netherlands

The shares may not, directly or indirectly, be offered or acquired in the Netherlands and this document may not be circulated in the Netherlands, as part of an initial distribution or any time thereafter, other than to individuals or (legal) entities who or which qualify as qualified investors within the meaning of Article 1:1 of the Financial Supervision Act (*Wet op het financieel toezicht*) as amended from time to time.

Qatar

The offering of shares does not constitute a public offer in the State of Qatar under Law No. 5 of 2002 (the "Commercial Companies Law"). The shares are only being offered to a limited number of investors who are willing and able to conduct an independent investigation of the risks involved in an investment in such shares, or have sufficient knowledge of the risks involved in an investment in such shares or are benefiting from preferential terms under a directed share program for directors, officers and employees. No transaction will be concluded in the jurisdiction of the State of Qatar.

Table of Contents

Singapore

The offer or invitation which is the subject of this document is only allowed to be made to the persons set out herein. Moreover, this document is not a prospectus as defined in the Securities and Futures Act, Chapter 289 Singapore (the "SFA") and accordingly, statutory liability under the SFA in relation to the content of the document will not apply.

As this document has not been and will not be lodged with or registered as a document by the Monetary Authority of Singapore, this document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than: (i) to an institutional investor under Section 274 of the SFA; (ii) to a relevant person, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions, specified in Section 275 of the SFA; or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 of the SFA by a relevant person who is:

- (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for six months after that corporation or that trust has acquired the shares under Section 275 of the SFA except:
 - (i) to an institutional investor under Section 274 of the SFA or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets;
 - (ii) where no consideration is given for the transfer; or
 - (iii) by operation of law.

By accepting this document, the recipient hereof represents and warrants that he is entitled to receive such report in accordance with the restrictions set forth above and agrees to be bound by the limitations contained herein. Any failure to comply with these limitations may constitute a violation of law.

Spain

The shares have not been registered with the Spanish National Commission for the Securities Market and, therefore, no share may be publicly offered, sold or delivered, nor any public offer in respect of the shares made, nor may any prospectus or any other offering or publicity material relating to the shares be distributed in Spain by the international agents of any person acting on their behalf, except in compliance with Spanish laws and regulations.

Table of Contents

South Africa

This document is strictly private and confidential and does not constitute an offer to the public in terms of South African law. The document is being issued to a limited number of sophisticated investors, may not be reproduced or used for any other purpose, nor provided to any person other than the original recipient thereof, and is subject to restrictions on transferability.

Switzerland

This document, as well as any other material relating to the shares which are the subject of the offering contemplated by this prospectus, do not constitute an issue prospectus pursuant to Article 652a and/or 1156 of the Swiss Code of Obligations. The shares will not be listed on the SIX Swiss Exchange and, therefore, the documents relating to the shares, including, but not limited to, this document, do not claim to comply with the disclosure standards of the listing rules of SIX Swiss Exchange and corresponding prospectus schemes annexed to the listing rules of the SIX Swiss Exchange. The shares are being offered in Switzerland by way of a private placement, *i.e.*, to a small number of selected investors only, without any public offer and only to investors who do not purchase the shares with the intention to distribute them to the public. The investors will be individually approached by the issuer from time to time. This document, as well as any other material relating to the shares, is personal and confidential and does not constitute an offer to any other person. This document may only be used by those investors to whom it has been handed out in connection with the offering described herein and may neither directly nor indirectly be distributed or made available to other persons without express consent of the issuer. It may not be used in connection with any other offer and shall in particular not be copied and/or distributed to the public in (or from) Switzerland.

United Arab Emirates

This document has not been reviewed, approved or licensed by the Central Bank of the United Arab Emirates (the "UAE"), Emirates Securities and Commodities Authority or any other relevant licensing authority in the UAE including any licensing authority incorporated under the laws and regulations of any of the free zones established and operating in the territory of the UAE, in particular the Dubai International Financial Services Authority (the "DFSA"), a regulatory authority of the Dubai International Financial Centre (the "DIFC"). The issue of the shares does not constitute a public offer of securities in the UAE, DIFC and/or any other free zone in accordance with the Commercial Companies Law, Federal Law No. 8 of 1984 (as amended), DFSA Offered Securities Rules and the Dubai International Financial Exchange Listing Rules, accordingly, or otherwise.

The shares may not be offered to the public in the UAE and/or any of the free zones including, in particular, the DIFC. The shares may be offered, and this document may be issued, only to a limited number of investors in the UAE or any of its free zones (including, in particular, the DIFC) who qualify as sophisticated investors under the relevant laws and regulations of the UAE or the free zone concerned. Management of the company, and the underwriters represent and warrant that the shares will not be offered, sold, transferred or delivered to the public in the UAE or any of its free zones including, in particular, the DIFC.

Table of Contents

**MATERIAL UNITED STATES FEDERAL INCOME TAX
CONSIDERATIONS FOR NON-U.S. HOLDERS**

The following is a summary of the material United States federal income tax consequences to non-U.S. holders (defined below) of the ownership and disposition of the shares of common stock purchased in the offering.

This summary is based upon provisions of the Internal Revenue Code of 1986, as amended (the "Code"), Treasury Regulations, judicial decisions, and administrative determinations as of the date of this document. Those authorities may be changed, perhaps retroactively, so as to result in U.S. federal income tax consequences different from those summarized below. This summary does not represent a detailed description of the U.S. federal income tax consequences to you in light of your particular circumstances.

Except where noted, this summary deals only with holders who hold shares of our common stock as capital assets, and does not represent a detailed description of the U.S. federal income tax consequences applicable to you if you are subject to special treatment under the U.S. federal income tax laws, including if you are:

a broker or dealer in securities or currencies;

a financial institution;

a regulated investment company;

a real estate investment trust;

a tax-exempt organization;

an insurance company;

a person holding shares of our common stock as part of a hedging, integrated, conversion, wash or constructive sale transaction or a straddle or synthetic security;

a trader in securities that has elected the mark-to-market method of accounting for its securities;

a person liable for alternative minimum tax;

a person who acquired shares of our common stock in a compensatory transaction;

a person whose "functional currency" is not the U.S. dollar;

a "controlled foreign corporation";

a "foreign personal holding company";

a "passive foreign investment company";

a U.S. expatriate; or

an entity taxable as a partnership for U.S. federal income tax purposes or other pass-through entity or an owner thereof.

If a partnership holds shares of our common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding shares of our common stock, you are urged to consult your tax advisors.

THIS SUMMARY DOES NOT DISCUSS THE U.S. FEDERAL INCOME TAX CONSEQUENCES TO HOLDERS OF EXCHANGEABLE SHARES OF RG EXCHANGE CO THAT ARE CONVERTIBLE INTO SHARES OF OUR COMMON STOCK. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS ANY U.S. STATE OR LOCAL, ESTATE OR ALTERNATIVE MINIMUM TAX

S-41

Table of Contents

CONSEQUENCES TO HOLDERS WHO HOLD SHARES OF OUR COMMON STOCK. EACH HOLDER SHOULD CONSULT ITS OWN TAX ADVISOR REGARDING U.S. FEDERAL, STATE, LOCAL AND NON-U.S. TAX CONSEQUENCES.

As used herein, "non-U.S. holders" are beneficial owners of the shares of our common stock purchased in the offering, other than partnerships, that are not U.S. holders. "U.S. Holders" are beneficial owners of the shares of our common stock purchased in the offering that are for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States, any state of the United States or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

Our Common Stock

The rules governing United States federal income taxation of the acquisition, ownership and disposition, by a non-U.S. holder of our common stock are complex and no attempt is made herein to provide more than a summary of such rules.

Dividends

If distributions are paid on shares of our common stock, the distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. To the extent a distribution exceeds our current or accumulated earnings and profits, it will constitute a return of capital that is applied against and reduces, but not below zero, the adjusted tax basis of your shares in our common stock. Any remainder will constitute gain on the common stock, the treatment of which is described below under "Sale or Exchange of Common Stock." Dividends paid to a non-U.S. holder generally will be subject to withholding of U.S. federal income tax at the rate of 30% or such lower rate as may be specified by an applicable income tax treaty, the benefits of which may be available to a non-U.S. holder. If the dividend is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States, and, if an applicable tax treaty requires, is also attributable to a U.S. permanent establishment maintained by such non-U.S. holder, the dividend will not be subject to any withholding tax, provided certain certification requirements are satisfied (as described below), but will be subject to U.S. federal income tax imposed on net income on the same basis that applies to U.S. holders generally. A corporate non-U.S. holder under certain circumstances also may be subject to an additional branch profits tax equal to 30%, or such lower rate as may be specified by an applicable income tax treaty, the benefits of which may be available to a non-U.S. holder, on a portion of its effectively connected earnings and profits for the taxable year.

Non-U.S. holders should consult their own tax advisors regarding the potential applicability of any income tax treaty in their particular circumstances.

To claim the benefit of a tax treaty or to claim exemption from withholding because the income is effectively connected with the conduct of a trade or business in the United States, a non-U.S. holder must provide a properly executed Internal Revenue Service ("IRS") Form W-8BEN for treaty benefits

Table of Contents

or Form W-8ECI for effectively connected income, or such successor forms as the IRS designates, prior to the payment of dividends. These forms must be periodically updated. Non-U.S. holders generally may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund.

Sale or Exchange of Common Stock

A non-U.S. holder generally will not be subject to United States federal income tax and, in certain cases, withholding tax on the sale, exchange or other disposition of our common stock received in the offering unless

- (i.) the gain is effectively connected with a United States trade or business of the non-U.S. holder and, if an applicable tax treaty requires, is also attributable to a U.S. permanent establishment maintained by such non-U.S. holder;
- (ii.) in the case of a non-U.S. holder who is an individual, such holder is present in the United States for a period or periods aggregating 183 days or more during the taxable year of the disposition, and either (A) such holder has a "tax home" in the United States or (B) income from such disposition is attributable to an office or other fixed place of business maintained by such holder in the United States; or
- (iii.) Royal Gold is or has been a "United States real property holding corporation," or "USRPHC," as defined for U.S. federal income tax purposes.

Generally, a U.S. corporation is a USRPHC if at least 50% of the value of the real property and certain other assets consists of "U.S. real property interests." Because of our ownership of substantial royalty interests in natural resources assets in the United States, it is possible that we are, or may become, a USRPHC. Notwithstanding the foregoing, so long as our common stock is regularly traded on an established securities market, under applicable Treasury Regulations, non-U.S. holders who have never beneficially owned more than 5% of our common stock generally will not be subject to U.S. federal income tax on any gain realized on the sale, exchange or redemption of our common stock solely because we are or have been a USRPHC.

If a non-U.S. holder falls under clause (i) or (iii) above, such holder generally will be taxed on the net gain derived from a sale in the same manner as a U.S. holder and, in the case of (iii) above, such holder generally will be subject to a 10% withholding tax applied to the gross proceeds received. Any amount withheld as discussed above may be applied as a credit against the non-U.S. holder's substantive U.S. federal income tax liability. If an individual-non-U.S. holder falls under clause (ii) above, such individual generally will be subject to a flat 30% tax (or such lower rate as may be specified by an applicable income tax treaty) on the gain derived from a sale, which may be offset by certain U.S. capital losses (notwithstanding the fact that such individual is not considered a resident of the United States). Individual non-U.S. holders who have spent (or expect to spend) 183 days or more in the United States in the taxable year in which they contemplate a sale of common stock are urged to consult their tax advisors as to the tax consequences of such sale. In addition, if a corporate non-U.S. holder falls under clause (i) above, it may be subject to an additional branch profits tax on such effectively connected income at a 30% rate (or such lower rate as may be specified by an applicable income tax treaty).

Non-U.S. holders should consult their own tax advisors regarding the potential applicability of any income tax treaty to their particular circumstances.

Information Reporting and Backup Withholding Tax

Information reporting and backup withholding (currently at a 28% rate) may apply to dividends paid with respect to our common stock and to proceeds from the sale or other disposition of our common stock. In certain circumstances, non-U.S. holders may avoid information reporting and backup

Table of Contents

withholding if they certify under penalties of perjury as to their status as non-U.S. holders or otherwise establish an exemption and certain other requirements are met. Non-U.S. holders should consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Backup withholding is not an additional tax. Amounts withheld under the backup withholding rules from a payment to a non-U.S. holder generally may be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Effects of Certain New Legislation

Newly enacted legislation may impose withholding taxes on certain types of payments made to "foreign financial institutions" and certain other non-U.S. entities. Under this legislation, the failure to comply with additional certification, information reporting and other specified requirements could result in withholding tax being imposed on payments of dividends and sales proceeds to U.S. Holders that own the stock through foreign accounts or foreign intermediaries and to certain Non-U.S. Holders. The legislation imposes a 30% withholding tax on dividends on, and gross proceeds from the sale or other disposition of, our common stock paid to a foreign financial institution or to a foreign nonfinancial entity, unless (i) the foreign financial institution undertakes certain diligence and reporting obligations or (ii) the foreign non-financial entity either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. In addition, if the payee is a foreign financial institution, it generally must enter into an agreement with the U.S. Treasury Department that requires, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to certain other account holders. This legislation applies to payments made after December 31, 2012. Holders should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of our common stock.

THE U.S. FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY, IS NOT TAX ADVICE, AND MAY NOT BE APPLICABLE DEPENDING UPON A HOLDER'S PARTICULAR SITUATION. HOLDERS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO ALL TAX CONSEQUENCES TO THEM OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS, AND THE POSSIBLE EFFECTS OF ANY CHANGES THEREIN

LEGAL MATTERS

The validity of the common stock being offered hereby is being passed upon for us by Hogan Lovells US LLP, Denver, Colorado. Cleary Gottlieb Steen & Hamilton LLP, New York, New York, will pass upon certain legal matters for the underwriters.

EXPERTS

The consolidated financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this prospectus supplement by reference to the Annual Report on Form 10-K (filed with the SEC on August 21, 2009) for the fiscal year ended June 30, 2009, have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting. The consolidated financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial

Reporting) for IRC incorporated in this prospectus supplement by reference to the Current Report on Form 8-K/A filed with the SEC on February 23, 2010 for the fiscal years ended December 31, 2008 and December 31, 2007 and by reference to the Current Report on Form 8-K filed with the SEC on April 1, 2010 for the fiscal year ended December 31, 2009, have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a "shelf" registration statement on Form S-3 relating to the securities that are offered by this prospectus supplement. This prospectus supplement together with the accompanying prospectus do not contain all of the information contained in the registration statement and the exhibits to the registration statement. We strongly encourage you to read carefully the registration statement and the exhibits to the registration statement.

Any statement made in this prospectus supplement or the accompanying prospectus concerning the contents of any contract, agreement or other document is only a summary of the actual contract, agreement or other document. If we have filed any contract, agreement or other document as an exhibit to the registration statement, then you should read the exhibit for a more complete understanding of the document or matter involved.

We file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy the registration statement and any other document we file at the following SEC public reference room:

Judiciary Plaza
100 F Street, NE, Room 1580,
Washington D.C. 20549

You may obtain information on the operation of the public reference room in Washington, D.C. by calling the SEC at 1-800-SEC-0330. We file information electronically with the SEC. Our SEC filings are available from the SEC's Internet site at <http://www.sec.gov>, which contains reports, proxy and information statements and other information regarding issuers that file electronically. You may read and copy our SEC filings and other information at the NASDAQ Global Select Market at 1735 K Street, NW, Washington, D.C. 20006. You may also find our SEC filings under "Investor Relations" on our website at www.royalgold.com. The information on our website is not a part of this prospectus supplement or the accompanying prospectus.

INCORPORATION OF DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate by reference" the documents we file with the SEC, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this prospectus supplement, and information in documents that we file later with the SEC will automatically update and supersede information in this prospectus supplement and the accompanying prospectus. We incorporate by reference the documents listed below and any future filings we will make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, other than any portions of the respective filings that were furnished, rather than filed, pursuant to Item 2.02 or Item 7.01 of Current Reports on Form 8-K (including exhibits related thereto) or other applicable SEC rules, until the offering of our securities under this registration statement is completed or withdrawn:

1. our Annual Report on Form 10-K for the fiscal year ended June 30, 2009, filed on August 21, 2009, including portions of our Proxy Statement for the 2009 annual meeting of stockholders, filed on October 9, 2009, to the extent specifically incorporated by reference therein;

Edgar Filing: ROYAL GOLD INC - Form 424B2

Table of Contents

2. our Quarterly Reports on Form 10-Q for the quarter ended September 30, 2009, filed on November 6, 2009, for the quarter ended December 31, 2009, filed on February 5, 2010, and for the quarter ended March 31, 2010, filed on May 7, 2010; and
3. our Current Reports on Form 8-K as filed on July 28, 2009, August 24, 2009, August 27, 2009, September 28, 2009, October 19, 2009, November 18, 2009, November 20, 2009, November 23, 2009, December 18, 2009, December 21, 2009, December 23, 2009, January 15, 2010, January 21, 2010, January 22, 2010, January 26, 2010, February 18, 2010, February 19, 2010, February 22, 2010, February 23, 2010, March 12, 2010, April 1, 2010, May 26, 2010, June 7, 2010 and June 21, 2010.

We will provide a copy of the documents we incorporate by reference, at no cost, to any person who receives this prospectus supplement. To request a copy of any or all of these documents, you should write or telephone us at: Investor Relations, Royal Gold, Inc., 1660 Wynkoop Street, Suite 1000, Denver, CO 80202, (303) 573-1660.

PROSPECTUS

**Debt Securities
Preferred Stock
Common Stock
Warrants
Depositary Shares**

Royal Gold, Inc. may, in one or more offerings, offer and sell from time to time:

debt securities consisting of senior or subordinated notes and debentures and which may include terms by which they may be converted or exchanged for common stock, preferred stock or other securities;

shares of common stock, par value \$0.01 per share;

shares of preferred stock, par value \$0.01, in one or more series, which may include terms by which they may be converted into or exchanged for debt securities or common stock;

warrants to purchase debt securities, preferred stock, common stock or other securities; or

depositary shares.

In addition, this prospectus may be used by selling securityholders to offer these securities. This prospectus describes only the general terms of these securities and the general manner in which we will offer the securities. We, or the selling securityholders, will provide you with the specific terms of the particular securities being offered in supplements to this prospectus. Any prospectus supplement may also add, update, or change information contained in this prospectus. You should read this prospectus and each related prospectus supplement carefully before you make an investment decision. This prospectus may not be used to sell securities unless accompanied by a prospectus supplement.

The securities may be offered and sold by us or the selling securityholders through one or more underwriters, dealers or agents or directly to purchasers on a continuous or delayed basis. See "Plan of Distribution" beginning on page 24 of this prospectus.

Royal Gold's common stock is traded on the NASDAQ Global Select Market under the symbol "RGLD" and on the Toronto Stock Exchange under the symbol "RGL." The mailing address of our principal executive offices is 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202 and our telephone number is (303) 573-1660.

Investing in our securities involves risks. See "Risk Factors" beginning on page 5 of this prospectus and in documents Royal Gold files with the Securities and Exchange Commission that are incorporated in this prospectus by reference for certain risks and uncertainties relating to an investment in our securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This prospectus is dated December 19, 2008.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the Securities and Exchange Commission, or SEC, utilizing a "shelf" registration process. Under this shelf process, we may sell different types of securities described in this prospectus in one or more offerings. This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering and the securities offered by us in that offering. The prospectus supplement may also add, update or change information in this prospectus. You should read both this prospectus and any prospectus supplement together with additional information described under the headings "Where You Can Find More Information" and "Incorporation by Reference."

This prospectus contains summaries of certain provisions contained in some of the documents described herein, but reference is made to the actual documents for complete information. All of the summaries are qualified in their entirety by reference to the actual documents. Copies of some of the documents referred to herein have been filed or will be filed or incorporated by reference as exhibits to the registration statement of which this prospectus is a part, and you may obtain copies of those documents as described below in the section entitled "Where You Can Find More Information."

Unless we otherwise indicate or unless the context requires, all references in this prospectus to:

"Royal Gold," the "Company," "we," "us" and "our" refer to Royal Gold, Inc., except where the context otherwise requires or as otherwise indicated in this prospectus;

"common stock" means our common stock, par value \$0.01 per share; and

"securities" means the debt securities, common stock, preferred stock, warrants and depository shares described in this prospectus.

The information contained in this prospectus is not complete and may be changed. You should rely only on the information provided in or incorporated by reference in this prospectus, any prospectus supplement, or documents to which we otherwise refer you. We have not authorized anyone else to provide you with different information. We are not making an offer of any securities in any jurisdiction where the offer is not permitted. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is accurate as of any date other than the date of the document in which such information is contained or such other date referred to in such document, regardless of the time of any sale or issuance of a security.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a "shelf" registration statement on Form S-3 relating to the securities that may be offered by this prospectus. This prospectus is part of the registration statement and does not contain all the information in the registration statement. You will find additional information about us in the registration statement. In addition, we file annual, quarterly and current reports, proxy statements and other information with the SEC. You may inspect without charge any documents filed by us at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain copies of all or any part of these materials from the SEC upon the payment of certain fees prescribed by the SEC. Please call the SEC at 1-800-732-0330 for further information on the Public Reference Room. The SEC also maintains an Internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC. Our filings with the SEC are available to the public through the SEC's website at <http://www.sec.gov> and through our website at <http://www.royalgold.com>. You may also read and copy our SEC filings and other information at the offices of the NASDAQ Global Select Market, 1735 K Street, N.W., Washington, D.C. 20006.

Table of Contents

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate by reference" information into this document. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be part of this prospectus, and information that we file later with the SEC will automatically update and supersede the previously filed information and the information contained in this prospectus. We incorporate by reference the documents listed below and any future filings made by us with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act of 1934, as amended (the "Exchange Act"), other than any portions of the respective filings that were furnished, rather than filed, pursuant to Item 2.02 or Item 7.01 of Current Reports on Form 8-K (including exhibits related thereto) or other applicable SEC rules, prior to the termination or completion of the offerings under this prospectus:

The Registrant's Annual Report on Form 10-K/A filed on November 6, 2008;

The Registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2008, filed November 10, 2008;

The Registrant's Current Reports on Form 8-K as filed August 5, 2008, September 2, 2008, September 17, 2008, September 19, 2008, September 25, 2008, October 7, 2008, October 31, 2008, November 4, 2008, November 6, 2008 and November 7, 2008;

The description of the Registrant's Preferred Stock Purchase Rights contained in the Registrant's Registration Statement on Form 8-A under the Exchange Act filed on September 12, 1997, as amended by the Registrant's Registration Statement on Form 8-A/A filed September 10, 2007, together with any amendment or report filed with the Commission for the purpose of updating such description.

We make available free of charge through our Internet website at <http://www.royalgold.com> our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendment to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. Information contained on our Internet website is not a part of this prospectus or any prospectus supplement. We will provide a copy of the documents we incorporate by reference, at no cost, to any person who receives this prospectus. You may request a copy of these filings by writing or telephoning us at:

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement and the documents incorporated herein by reference contain or will contain certain references to future expectations, projections of production, reserve estimates and other forward-looking statements and information relating to us or to properties operated by others that are based on our beliefs and assumptions or those of management of the companies who operate properties on which we have royalties, as well as information currently available to management. Additional written or oral forward-looking statements may be made by the Company from time to time in filings with the SEC or otherwise. Words such as "may," "could," "should," "would," "believe," "estimate," "expect," "anticipate," "plan," "forecast," "potential," "intend," "continue," "project" and variations of these words, comparable words and similar expressions generally indicate forward-looking statements. Forward-looking statements inherently

Table of Contents

involve risks and uncertainties. Accordingly, actual results may differ materially from those expressed or implied by these forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, among others:

changes in gold and other metals prices;

the production at or performance of our producing royalty properties;

decisions and activities of the operators of our royalty properties;

the ability of operators to bring projects into production and operate in accordance with feasibility studies;

unanticipated grade and geological, metallurgical, processing or other problems at the properties;

changes in project parameters as plans of the operators are refined;

changes in estimates of reserves and mineralization by the operators of our royalty properties;

economic and market conditions;

future financial needs;

federal, state and foreign legislation governing us or the operators;

the availability of royalties for acquisition or other acquisition opportunities and the availability of debt or equity financing necessary to complete such acquisitions;

our ability to make accurate assumptions regarding the valuation and timing and amount of royalty payments when making acquisitions;

risks associated with conducting business in foreign countries, including application of foreign laws to contract and other disputes, environmental laws and enforcement and uncertain political and economic environments;

liquidity or other problems our operators may encounter, such as those that recently occurred at High River Gold Mines Ltd. ("High River") with respect to the Taparko project;

risks associated with issuances of substantial additional common stock in connection with acquisitions or otherwise; and

Edgar Filing: ROYAL GOLD INC - Form 424B2

risks associated with the incurrence of substantial additional indebtedness if we take such actions in connection with acquisitions or otherwise;

as well as other factors described elsewhere in our Annual Report on Form 10-K/A (filed on November 6, 2008) for the fiscal year ended June 30, 2008, our Quarterly Report on Form 10-Q for the period ended September 30, 2008 and in future filings we make with the SEC. Most of these factors are beyond our ability to predict or control. Future events and actual results could differ materially from those set forth in, contemplated by or underlying the forward-looking statements. Forward-looking statements speak only as of the date on which they are made. We disclaim any obligation to update any forward-looking statement made herein. Readers are cautioned not to put undue reliance on forward-looking statements.

Table of Contents

THE COMPANY

We, together with our subsidiaries, are engaged in the business of acquiring and managing precious metals royalties. Royalties are passive (non-operating) interests in mining projects that provide the right to revenue or production from the project after deducting specified costs, if any.

We seek to acquire existing royalties or to finance projects that are in production or near production in exchange for royalty interests. We also fund exploration on properties thought to contain precious metals and seek to obtain royalties and other carried ownership interests in such properties through the subsequent transfer of operating interests to other mining companies. Substantially all of our revenues are and will be expected to be derived from royalty interests. We do not conduct mining operations at this time. We focused on the management of our existing royalty interests, the acquisition of royalty interests through asset and corporate transactions, and the creation of royalty interests through financing and strategic exploration alliances.

Our principal producing royalty interests are as follows:

four royalty interests at the Cortez Pipeline Mining Complex ("Cortez") located in Nevada and operated by the Cortez Joint Venture, a joint venture between Barrick Cortez Inc. and Barrick Gold Finance Inc., both affiliates of Barrick Gold Corporation ("Barrick");

one royalty interest on the Robinson mine, located in eastern Nevada and operated by a subsidiary of Quadra Mining Ltd.;

one royalty interest on the Leeville Mining Complex, located in Nevada and operated by a subsidiary of Newmont Mining Corporation;

one royalty interest on the SJ Claims, covering portions of the Betze-Post mine located in Nevada and operated by a subsidiary of Barrick;

one royalty on the Peñasquito mine located in Zacatecas, Mexico and operated by a subsidiary of Goldcorp;

one royalty interest on the Mulatos mine, located in Sonora, Mexico and operated by a subsidiary of Alamos Gold, Inc.;

two royalty interests on the Taparko mine, located in Burkina Faso and operated by a subsidiary of High River;

one royalty interest on the Siguiri mine located in the Republic of Guinea and operated by AngloGold Ashanti;

two royalty interests on the Dolores mine located in Chihuahua, Mexico and operated by a subsidiary of Minefinders Corporation, Ltd.;

one royalty interest on the Mt. Goode Cosmos South mine located in Western Australia and operated by Xtrata.

We were incorporated under the laws of the State of Delaware on January 5, 1981. Our executive offices are located at 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202, and our telephone number is (303) 573-1660. We maintain a website at <http://www.royalgold.com> where general information about us is available, although we are not incorporating the contents of our website into this prospectus.

Table of Contents

RISK FACTORS

Our business, financial condition, results of operations and cash flows could be materially adversely affected by any of the following risks. The market or trading price of our securities could decline due to any of these risks. In addition, please read "Special Note About Forward-Looking Statements" in this prospectus, where we describe additional uncertainties associated with our business and the forward-looking statements included or incorporated by reference in this prospectus. Please note that additional risks not presently known to us or that we currently deem immaterial may also impair our business and operations. Additional risks, including those that relate to any particular securities that we offer, will be included in the applicable prospectus supplement.

Risks Related to Our Business

We received a majority of our revenues in fiscal year 2008 from two properties and maturing mines are likely to experience production declines.

In fiscal year 2008, approximately 33% and 24% of our revenues were derived from our royalties at Cortez and the Robinson mine, respectively, compared to approximately 44% and 26% in fiscal year 2007, respectively. We expect that revenue from our royalties at Cortez and Robinson will continue to be a significant, though less dominant, contributor to our revenue in future periods. Furthermore, as Cortez and other mines on which we have royalties mature we can expect overall declines in production over the years unless operators are able to replace reserves that are mined by mine expansion or successful new exploration. There can be no assurance that the operators of Cortez or the other properties will be able to maintain or increase production or replace reserves as they are mined.

We own passive interests in mining properties, and it is difficult or impossible for us to ensure properties are operated in our best interest.

All of our current revenue is derived from royalties on properties operated by third parties. The holder of a royalty interest typically has no authority regarding development or operation of a mineral property. Therefore, we are not in control of basic decisions regarding development or operation of any of the properties in which we hold a royalty interest, and we have limited or no legal rights to influence those decisions.

Our strategy of having others operate properties in which we retain a royalty or other passive interest puts us generally at risk to the decisions of others regarding all basic operating matters, including permitting, feasibility analysis, mine design and operation, processing, plant and equipment matters and temporary or permanent suspension of operations, among others. These decisions may be motivated by the best interests of the operator rather than to maximize royalties. Although we attempt to secure contractual rights that will permit us to protect our interests, there can be no assurance that such rights will always be available or sufficient, or that our efforts will be successful in achieving timely or favorable results or in affecting the operations of the properties in which we have royalty interests in ways that would be beneficial to our stockholders.

Volatility in gold, copper and other metal prices may have an adverse impact on the value of our royalty interests and reduce our royalty revenues.

The profitability of our royalty interests is directly related to the market price of gold and, to a lesser degree, copper and other metal prices. The market price of each metal fluctuates widely and is affected by numerous factors beyond the control of any mining company. These factors include metal supply, industrial and jewelry fabrication and investment demand, expectations with respect to the rate of inflation, the relative strength of the U.S. dollar and other currencies, interest rates, gold sales and loans by central banks, forward sales by metal producers, global or regional political, economic or banking crises, and a number of other factors. If the market price of gold, copper or certain other

Table of Contents

metals should drop, our royalty revenues would also drop. Our sliding-scale royalties at Cortez, Taparko and other properties amplifies this. When the gold price falls below the steps in a sliding-scale royalty, we receive a lower royalty rate on production. In addition, if gold, copper and certain other metal prices drop dramatically, we might not be able to recover our initial investment in royalty interests or properties. The selection of a royalty investment or of a property for exploration or development, the determination to construct a mine and place it into production, and the dedication of funds necessary to achieve such purposes are decisions that must be made long before the first revenues from production will be received. Price fluctuations between the time that decisions about exploration, development and construction are made and the commencement of production can have a material adverse effect on the economics of a mine, and can eliminate or have a material adverse impact on the value of royalty interests.

The volatility in gold prices is illustrated by the following table, which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per ounce of gold, based on the London Bullion Market Association P.M. fix.

Gold Price Per Ounce (\$)

Year	High	Low
1999	326	253
2000	312	263
2001	293	256
2002	349	278
2003	416	320
2004	454	375
2005	537	411
2006	725	525
2007	841	608
2008 (through December 11, 2008)	1,011	713

The volatility in silver prices is illustrated by the following table which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per ounce of silver, based on the London Bullion Market Association P.M. fix.

Silver Price Per Ounce (\$)

Year	High	Low
1999	5.75	4.88
2000	5.45	4.57
2001	4.82	4.07
2002	5.10	4.24
2003	5.97	4.37
2004	8.29	5.50
2005	9.23	6.39
2006	14.94	8.83
2007	15.82	11.67
2008 (through December 11, 2008)	20.92	8.88

The volatility in copper prices is illustrated by the following table, which sets forth, for the periods indicated (calendar year), the high and low prices in U.S. dollars per pound of copper, based on the London Metal Exchange cash settlement price for copper Grade A.

Table of Contents**Copper Price Per Pound (\$)**

Year	High	Low
1999	0.80	0.63
2000	0.89	0.76
2001	0.81	0.62
2002	0.75	0.67
2003	1.00	0.72
2004	1.43	1.10
2005	2.08	1.44
2006	3.65	2.15
2007	3.77	2.37
2008 (through December 11, 2008)	4.08	1.38

We depend on the services of our President and Chief Executive Officer, our Executive Chairman and other key employees.

We believe that our success depends on the continued service of our key executive management personnel. Currently, Tony Jensen is serving as President and Chief Executive Officer and Stanley Dempsey is serving as our Executive Chairman. Mr. Jensen's extensive commercial experience, mine operations background and industry contacts give us an important competitive advantage. Mr. Dempsey's knowledge of the royalty business and long- term standing relationship with the mining industry are important to the Company's success. Loss of the services of Mr. Jensen, Mr. Dempsey or other key employees could jeopardize our ability to maintain our competitive position in the industry. We currently do not have key person life insurance for any of our officers or directors.

Our revenues are subject to operational and other risks faced by operators of our mining properties.

Although we are not required to pay capital costs or most operating costs, our financial results are subject to hazards and risks normally associated with developing and operating mining properties, both for the properties where we may conduct exploration or indirectly for properties operated by others where we hold royalty interests. These risks include:

insufficient ore reserves;

fluctuations in production costs by the operators or third parties that may make mining of ore uneconomical or impact the amount of reserves;

declines in the price of gold and other metal prices;

economic downturns and operator's insufficient financing;

significant environmental and other regulatory restrictions;

labor disputes;

geological problems;

pit wall or tailings dam failures;

natural catastrophes such as floods or earthquakes; and

the risk of injury to persons, property or the environment.

Operating cost increases can have a negative effect on the value of and income from our royalty interests, by potentially causing an operator to curtail, delay or close operations at a mine site.

Table of Contents

In addition, the mining operator's calculation of our royalty payments is subject to and dependent upon the adequacy of their production and accounting functions, and errors may occur from time to time in the calculations of the operator. For example, the complex nature of mining and ownership of mining interests can result in errors regarding allocation of production, such as those that occurred in connection with our restatement of our consolidated financial statements for fiscal year 2008. We are provided with production information by the mining operator in certain royalty contracts that may enable us to detect errors in the royalty payments that we receive from certain royalty interests given our royalty monitoring program and its associated internal controls and procedures. We do not, however, receive production information for all royalty interests. As a result, our ability to detect royalty payment errors is limited and the possibility exists that we will need to make retroactive royalty revenue adjustments. Further, in some royalty contracts we have the right to audit the operational calculations and production data for the associated royalty payments and, when exercised, such audits may occur many months following our recognition of the royalty revenue. In addition, certain royalty agreements, such as Robinson, provide that royalty payments to us are subject to subsequent adjustment based on commodity prices at a later date, three to four months in the case of Robinson, which can result in adjustments to our royalty revenue in later periods. Hence, these royalty audits may result in the recognition by us of retroactive changes in previously disclosed royalty revenues.

A significant or prolonged economic downturn may affect the ability of our operators to meet operating costs and could have material adverse effects on the value of and revenue from our royalty interests.

The value of and revenue from our royalty interests may be materially negatively affected if commodity prices for metals on which we have royalties or which are the primary production at mines on which we have royalties decline significantly, as has occurred with respect to copper during 2008. In addition, our royalty interests and revenues may be materially negatively affected if our operators do not have the financial strength or sufficient financing to cover the costs of operating or developing a mine, causing an operator to curtail, delay or close operations at a mine site. Our operators' financial strength or ability to secure financing is affected by the regional and global conditions in which they operate. Many economists claim that the U.S. economy, and possibly the global economy, has entered into a recession as a result of the recent deterioration in the credit markets and the related financial crisis, as well as a variety of other factors. A significant economic slowdown may negatively affect many commodity prices and our operators' financial strength, and in turn, their ability to meet the costs of operating or developing the mines on which we have royalty interests. Furthermore, disruption and volatility of financial markets could also limit our operators' access to financing needed for operations. If any of our operators enter into bankruptcy or liquidation, or undergo a change of control, our royalty interests and the value of and income from our royalty interests may be materially negatively affected.

Estimates of reserves and mineralization by the operators of mines in which we have royalty interests are subject to significant revision.

There are numerous uncertainties inherent in estimating proven and probable reserves and mineralization, including many factors beyond our control or the control of the operators of mineral properties in which we have a royalty interest. Reserve estimates on our royalty interests are prepared by the operators of the mining properties. We do not participate in the preparation or verification of such reports and have not independently assessed or verified the accuracy of such information. The estimation of reserves and of other mineralization is a subjective process and the accuracy of any such estimates is a function of the quality of available data and of engineering and geological interpretation and judgment. Results of drilling, metallurgical testing and production, and the evaluation of mine plans subsequent to the date of any estimate, may cause revision of such estimates. The volume and grade of reserves recovered and rates of production may be less than anticipated. Assumptions about gold and other precious metal prices are subject to great uncertainty and such prices have fluctuated

Table of Contents

widely in the past. Declines in the market price of gold or other precious metals also may render reserves or mineralization containing relatively lower grades of ore uneconomical to exploit. Changes in operating and capital costs and other factors including short-term operating factors, such as the need for sequential development of ore bodies and the processing of new or different ore grades, may materially and adversely affect reserves.

Estimates of production by the operators of mines in which we have royalty interests are subject to change and actual production may vary materially from such estimates.

Production estimates are prepared by the operators of the mining properties. There are numerous uncertainties inherent in estimating anticipated production attributable to our royalty interests, including many factors beyond our control or the control of the operators of mineral properties in which we have royalty interests. We do not participate in the preparation or verification of production estimates and have not independently assessed or verified the accuracy of such information. The estimation of anticipated production is a subjective process and the accuracy of any such estimates is a function of the quality of available data, reliability of production history, variability in grade encountered, mechanical or other problems encountered, engineering and geological interpretation and operator judgment. Rates of production may be less than anticipated. Results of drilling, metallurgical testing and production, and the evaluation of mine plans subsequent to the date of any estimate may cause actual production to vary materially from such estimates.

We may incur substantial indebtedness that could have adverse effects on our business.

We may incur substantial indebtedness in the future in connection with financing acquisitions, strategic transactions or for other purposes. Any such acquisition could be material to us and could significantly increase the size and scope of our business. If we were to incur substantial additional indebtedness, it may make it difficult for us to satisfy our debt obligations, increase our vulnerability to general adverse economic and industry conditions, require us to dedicate a substantial portion of our cash flow from operations and proceeds of any equity issuances to payments on our indebtedness, thereby reducing the availability of cash flow to fund acquisitions and other general corporate purposes and place us at a competitive disadvantage to our competitors that have less debt or have other adverse effects on us. Furthermore, if future debt financing is not available to us when required or is not available on acceptable terms, we may be unable to grow our business, take advantage of opportunities to acquire additional royalties, or respond to competitive pressures or refinance maturing debt, any of which could have a material adverse effect on our operating results and financial condition.

We may be unable to successfully acquire additional royalty interests.

Our future success depends upon our ability to acquire royalty interests at appropriate valuations, including through corporate acquisitions, to replace depleting reserves and to diversify our royalty portfolio. We anticipate that most of our revenues will be derived from royalty interests that we acquire or finance, rather than through exploration and development of properties. There can be no assurance that we will be able to identify and complete the acquisition of such royalty interests, or businesses that own desired royalty interests, at reasonable prices or on favorable terms. In addition, we face competition in the acquisition of royalty interests. If we are unable to successfully acquire additional royalties, the reserves on properties currently covered by our royalties will decline as existing reserves are mined. Furthermore, we may experience negative reactions from the financial markets, our collaborative partners and employees if we are unable to successfully complete acquisitions of royalty interests or businesses that own desired royalty interests. Each of these factors may adversely affect the trading price of our common stock or financial results and operations.

Table of Contents

Acquired royalty interests may not produce anticipated royalty revenues.

The royalty interests we acquire may not produce the anticipated royalty revenues. The success of our royalty acquisitions is based on our ability to make accurate assumptions regarding the valuation and timing and amount of royalty payments, particularly acquisitions of royalties on development stage properties. If the operator does not bring the property into production and operate in accordance with feasibility studies or other plans, acquired royalty interests may not yield sufficient royalty revenues to be profitable. The Taparko project, which recently began production in Burkina Faso, and the Peñasquito project and Dolores project, both in initial production in Mexico, are among our largest development stage royalty acquisitions to date. In addition, our Pascua-Lama royalty acquisition in Chile and the Malartic royalty in Canada are in pre-production stage. The failure of these projects to produce anticipated royalty revenues may materially and adversely affect our financial condition, results of operations and cash flows.

We may experience operational and other difficulties if we complete one or more significant acquisitions.

As part of our business model and growth strategy, we are engaged in a continual review of opportunities to acquire existing royalties, including acquiring companies that hold royalties. When we acquire a company, we may experience the need to hire additional personnel, difficulties in integrating the acquired company, increases in our general and administrative expenses and other related problems. Furthermore, as part of the acquisition of a company or a group of royalties, we may acquire operating or working interests and other assets outside of our core focus of precious metal royalties. In the event we experience these difficulties in connection with one or more acquisitions, our business or financial results may be adversely affected.

Anticipated federal legislation could decrease our royalty revenues.

In recent years, the United States Congress has considered a number of proposed major revisions to the General Mining Law of 1872 (the "General Mining Law"), which governs the creation and possession of mining claims and related activities on federal public lands in the United States. Several proposals introduced in the past, such as Bill H.R. 2262, introduced in the Congress in May 2007, if enacted, would have imposed a royalty payable to the U.S. Government on existing and future production of minerals from unpatented mining claims in the United States. If enacted, such legislation could, among other provisions, render certain federal lands unavailable for the location of unpatented mining claims, afford greater public involvement in the mine permitting process, provide for citizen suits against miners operating on federal lands, and impose new and stringent environmental operating standards as well as new mined land reclamation requirements. If enacted, such legislation could adversely affect the development of new mines and the expansion of existing mines, as well as increase the cost of all mining operations on federal lands, perhaps materially and adversely affecting mine operators and therefore our royalty revenue.

The effect of any revision of the General Mining Law on our royalty interests in the United States cannot be determined conclusively until such revision, if any, is enacted and challenges to the legislation, if any, have been finally resolved. In addition, a number of the properties on which we have royalties are located on U.S. federal lands that are subject to federal mining and other public land laws. Changes in such laws or regulations promulgated under such laws could affect mine development and expansion and significantly increase regulatory obligations and compliance costs with respect to mine development and mine operations, which could adversely affect our royalty revenue from such properties. By way of example, if a royalty, assessment, production tax, or other levy imposed on and measured by production is charged to the operator at Cortez, which is largely located on U.S. federal lands, the amount of that charge would be deducted from gross proceeds for calculation of our GSR1, GSR2 and GSR3 royalties, which would reduce our royalty revenues from these royalties.

Table of Contents

The mining industry is subject to significant environmental risks.

Mining is subject to potential risks and liabilities associated with pollution of the environment and the disposal of waste products occurring as a result of mineral exploration and production. Laws and regulations in the United States and abroad intended to ensure the protection of the environment are constantly changing and generally are becoming more restrictive and costly. Insurance against environmental risks (including potential liability for pollution or other hazards as a result of the disposal of waste products occurring from exploration and production) is not generally available to the companies within the mining industry, such as the operators of the mines in which we hold a royalty interest, at a reasonable price. If an operator is forced to incur significant costs to comply with environmental regulations or becomes subject to environmental restrictions that limit its ability to continue or expand operations, it could reduce our royalty revenues. To the extent that we become subject to environmental liabilities for the time period during which we were operating properties, the satisfaction of any liabilities would reduce funds otherwise available to us and could have a material adverse effect on our financial condition, results of operations and cash flows.

If title to properties are not properly maintained by the operators, our royalty revenues may be decreased.

The validity of unpatented mining claims, which constitute a significant portion of the properties on which we hold royalties in the United States, is often uncertain and such validity is always subject to contest. Unpatented mining claims are generally considered subject to greater title risk than patented mining claims, or real property interests that are owned in fee simple. Because unpatented mining claims are self-initiated and self-maintained, they possess some unique vulnerabilities not associated with other types of property interests. It is impossible to ascertain the validity of unpatented mining claims from public real property records, and therefore it can be difficult or impossible to confirm that all of the requisite steps have been followed for location and maintenance of an unpatented mining claim. If title to unpatented mining claims included among our royalty properties has not been properly established or is not properly maintained, our royalty revenues could be adversely affected.

Royalty interests are subject to contest by operators of mining projects and holders of mining rights.

Our business includes the risk that operators of mining projects and holders of mining claims, tenements, concessions, mining licenses or other interests in land and mining rights may contest the existence or geographic extent of our royalty interests. While Royal Gold seeks to confirm the existence, validity and enforceability of the royalties it acquires, there can be no assurance that such disputes will not arise. As a general matter, royalty interests in mining projects or properties are subject to uncertainties and complexities arising from the application of contract and property laws governing private parties and/or local or national governments in the jurisdiction where mining projects are located.

Foreign operations and operation by foreign operators are subject to many risks.

We derived approximately 21% of our revenues from foreign sources in fiscal year 2008. Our foreign activities are subject to the risks normally associated with conducting business in foreign countries. This includes exchange controls and currency fluctuations, limitations on repatriation of earnings, foreign taxation, foreign real estate, contract and environmental laws and enforcement, expropriation or nationalization of property, labor practices and disputes, and uncertain political and economic environments. There are also risks of war and civil disturbances, as well as other risks that could cause exploration or development difficulties or stoppages, restrict the movement of funds or result in the deprivation or loss of contract or real property rights or the taking of property by nationalization or expropriation, without fair compensation. Exploration licenses granted by some foreign countries do not include the right to mine, and in some jurisdictions the right to convert an exploration license into mining rights may not be automatic. Each country has discretion in determining

Table of Contents

whether to grant a license to mine. If an operator cannot secure a mining license following exploration of a property, or were to lose such a license, the value of our royalty interest would be negatively affected or its validity undermined. Foreign operations also could be adversely impacted by laws and policies of the United States affecting foreign trade, investment, and taxation. Furthermore, many of our operators are organized outside of the United States. Our royalty interests may be subject to the application of foreign laws to our operators, and their stockholders, including laws relating to corporate transactions, bankruptcy and liquidation.

We currently have interests in projects in Australia, Argentina, Bolivia, Burkina Faso, Canada, Chile, Colombia, Finland, Ghana, Honduras, Mexico, Nicaragua, the Republic of Guinea and Russia. We also evaluate precious metal royalty acquisitions or development opportunities in other parts of the world, including, Central America, Europe, Republics of the former Soviet Union, Asia, Africa and South America.

We are also subject to the risks of operating in Burkina Faso, Ghana and the Republic of Guinea. Countries in the region have historically experienced periods of political uncertainty, exchange rate fluctuations, balance of payments and trade difficulties and problems associated with extreme poverty and unemployment, and laws regarding the ownership, operation and taxation of mining projects in these countries are subject to change. Any of these economic or political risks could adversely affect the Taparko, Siguiri or Benso projects.

Our operations in Mexico are subject to risks such as the effects of political developments and local unrest, and communal property issues. In the past, Mexico has experienced prolonged periods of weak economic conditions characterized by exchange rate instability, increased inflation and negative economic growth, all of which could occur again in the future. Any of these risks could adversely affect the Peñasquito and Dolores projects, as well as the Mulatos and El Chanate mines.

Our Martha royalty is subject to risks relating to operating in Argentina. Argentina, while currently economically and politically stable, has experienced political instability, currency fluctuations and changes in banking regulations in recent years. Future instability, currency value fluctuations or regulation changes could adversely affect our revenues from the Martha mine.

Our Don Mario royalty is subject to risks relating to operating in Bolivia. Bolivia has experienced political and social instability, corruption, regulation and tax law changes, an abundance of administrative procedures and the potential for nationalization of foreign business interests that could materially adversely affect the Don Mario mine.

We hold a royalty interest in an exploration property that is subject to the risks of operating in Russia. The economy of the Russian Federation continues to display characteristics of an emerging market, including extensive currency controls and potentially high inflation. The prospects for future economic stability in the Russian Federation are largely dependent upon the effectiveness of economic measures undertaken by the government, together with legal, regulatory and political developments. Russian laws, licenses and permits have been in a state of change and new laws may be given a retroactive effect.

Table of Contents

Risks Related to Our Common Stock

Our stock price may continue to be volatile and could decline.

The market price of our common stock has fluctuated and may decline in the future. The high and low sale prices of our common stock were \$41.66 and \$18.74 in the fiscal year ended June 30, 2006, \$37.50 and \$23.25 for the fiscal year ended June 30, 2007, \$35.42 and \$23.85 for the fiscal year ended June 30, 2008, and \$46.68 and \$22.75 for the period from July 1, 2008 through December 18, 2008. The fluctuation of the market price of our common stock has been affected by many factors that are beyond our control, including:

market prices of gold and other metals;

interest rates;

expectations regarding inflation;

ability of operators to produce precious metals and develop new reserves;

currency values;

general stock market conditions; and

global and regional political and economic conditions.

Additional issuances of equity securities by us would dilute the ownership of our existing stockholders and could reduce our earnings per share.

We may issue equity in the future in connection with acquisitions, strategic transactions or for other purposes. Any such acquisition could be material to us and could significantly increase the size and scope of our business. To the extent we issue additional equity securities, the ownership of our existing stockholders could be diluted and our earnings per share could be reduced.

If a large number of shares of our common stock is sold in the public market, the sales could reduce the trading price of our common stock and impede our ability to raise future capital.

We cannot predict what effect, if any, future issuances by us of our common stock or other equity will have on the market price of our common stock. In addition, our shares of common stock that we issue in connection with an acquisition may not be subject to resale restrictions. We issued approximately 1.14 million shares of our common stock in connection with the acquisition of Battle Mountain, which closed on October 24, 2007 and 3.98 million shares in connection with the conversion of all of our issued and outstanding Preferred Stock on March 10, 2008. We may issue substantial additional shares of common stock or other securities in connection with other acquisition transactions. The market price of our common stock could decline if certain large holders of our common stock, or recipients of our common stock in connection with an acquisition, sell all or a significant portion of their shares of common stock or are perceived by the market as intending to sell these shares other than in an orderly manner. In addition, these sales could also impair our ability to raise capital through the sale of additional common stock in the capital markets.

We may change our practice of paying dividends.

We have paid a cash dividend on our common stock for each fiscal year beginning in fiscal year 2000. Our board of directors has discretion in determining whether to declare a dividend based on a number of factors, including prevailing gold prices, economic market conditions, and funding requirements for future opportunities or operations. If our board of directors declines to declare dividends in the future, or reduces the current dividend level, our stock price could fall, and the success of an investment in our common stock would depend solely upon any future stock price appreciation.

Table of Contents

We have increased our dividends in prior years. There can be no assurance that we will continue to do so. For example, if we were to materially increase our borrowings to conduct a material acquisition, our board of directors could elect to modify our practice of paying dividends and potentially reduce or eliminate dividends on common stock.

Certain anti-takeover provisions could delay or prevent a third party from acquiring us.

Provisions in our restated certificate of incorporation may make it more difficult for third parties to acquire control of us or to remove our management. Some of these provisions:

permit our board of directors to issue preferred stock that has rights senior to the common stock without stockholder approval; and

provide for three classes of directors serving staggered, three-year terms.

We are also subject to the business combination provisions of Delaware law that could delay, deter, or prevent a change in control. In addition, we have adopted a stockholder's rights plan that imposes significant penalties upon a person or group that acquires 15% or more of our outstanding common stock without the approval of the board of directors. Any of these measures could prevent a third party from pursuing an acquisition of Royal Gold, even if stockholders believe the acquisition is in their best interests.

We have identified a material weakness in internal control over our financial reporting and as a result we were required to restate our financial results for the fiscal year ended June 30, 2008.

In connection with the restatement and our reassessment of our internal control over financial reporting pursuant to the rules promulgated by the SEC Section 404 of the Sarbanes-Oxley Act of 2002 and Item 308 of Regulation S-K, management has concluded that as of fiscal year ended June 30, 2008, our disclosure controls and procedures were not effective and that we had a material weakness in our internal control over financial reporting. Please refer to Item 9A of our Form 10-K/A, filed on November 6, 2008 and Item 4 of Part I of our Form 10-Q filed on November 10, 2008, for further discussion of the ineffectiveness of and material weakness in our controls as of June 30, 2008 and September 30, 2008. While we have made efforts to remediate such material weakness promptly and effectively, any additional material weaknesses or significant deficiencies could have a material adverse effect on our results of operations and financial condition, as well as impair our ability to meet our quarterly, annual, and other reporting requirements under the Securities Exchange Act of 1934, as amended, in a timely manner. These effects could in turn adversely affect the trading price of our common stock and could result in a material misstatement in consolidated financial statements and require a further restatement of our financial statements. Therefore, even if we are successful in strengthening our internal controls and procedures, such controls and procedures may not be adequate to prevent or identify existing or future internal control weaknesses. Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its known inherent limitations (such limitations are further discussed in Item 9A of our Form 10-K/A, filed on November 6, 2008 and Item 4 of Part I of our Form 10-Q filed on November 10, 2008). Because of such inherent limitations, there is a risk that material misstatements in results of operations and financial condition may not be prevented or detected on a timely basis by our internal controls over financial reporting.

We may face risks related to an SEC investigation and securities litigation in connection with the restatement of our financial statements.

We are not aware that the SEC has begun any formal or informal investigation in connection with accounting errors requiring restatement of the fiscal year ended June 30, 2008. If the SEC makes a determination, however, that in its view the Company has violated Federal securities laws, then the

Table of Contents

Company may face sanctions, including, but not limited to, monetary penalties and injunctive relief, which could adversely affect our business. In addition, the Company may in the future be subject to class action suits, other litigation, or regulatory proceedings or actions arising in relation to the restatement of our consolidated financial statements for the fiscal year ended June 30, 2008. We are unable to estimate what our liability might be in connection with such potential litigation or regulatory proceeding or action and any expenses not covered by available insurance or any adverse resolution of this potential litigation or regulatory proceeding or action, which could have a material adverse effect on our business, results of operations, cash flows, or financial condition. Further, any litigation, regulatory proceeding or action may be time consuming, and it may distract our management from the conduct of our business.

USE OF PROCEEDS

Unless we specify otherwise in a prospectus supplement, the net proceeds from the sale of securities offered from time to time using this prospectus will be used for our general corporate purposes, which may include repayment or refinancing of debt, acquisitions, working capital, capital expenditures and repurchases and redemptions of securities. We will not receive proceeds from sales of selling securityholders except as otherwise specified in an applicable prospectus supplement.

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

The following table sets forth the ratio of earnings to fixed charges and preferred stock dividends of Royal Gold for the periods indicated.

	Three Months	Fiscal Year Ended June 30				
	Ended September 30, 2008	2008	2007	2006	2005	2004
Ratio of earnings to fixed charges (unaudited)	26.72	41.10	23.28	77.89	112.64	80.91
Ratio of earnings to fixed charges and preferred stock dividends (unaudited)	26.72	11.13	23.28	77.89	112.64	80.91

For the purpose of computing the ratio of earnings to fixed charges, earnings consist of income from continuing operations before income taxes, minority interest and losses or earnings from equity investments plus fixed charges. Fixed charges consist of interest expensed and capitalized, amortization of debt issuance costs and that portion of rental expense we believe to be representative of interest. We issued 1,150,000 shares of 7.25% Mandatory Convertible Preferred Stock on November 9, 2007. On March 10, 2008, all of the shares of the 7.25% Mandatory Convertible Preferred Stock were converted into shares of common stock. For the purpose of computing the ratio of earnings to fixed charges and preferred stock dividends, earnings consist of income from continuing operations before income taxes, minority interests and losses or earnings from equity investments plus fixed charges and preferred stock dividends. Preferred stock dividends consist of dividends paid as part of the 7.25% Mandatory Convertible Preferred Stock issuance. As of the date of this prospectus, we no longer have any shares of preferred stock outstanding.

DESCRIPTION OF THE DEBT SECURITIES

The debt securities will rank either as senior debt or subordinated debt, and may be issued as convertible debt securities. The senior debt securities will be issued under an indenture between us and a trustee chosen by us. The subordinated debt securities will be issued under an indenture between us and a trustee chosen by us. In this prospectus, we may refer to the senior debt indenture and the subordinated debt indenture as the "indentures" and the senior debt trustee and the subordinated debt trustee as the "trustees." The following description summarizes the expected terms and provisions of the indentures and the debt securities, and is not complete. For more information, you should read the

Table of Contents

indentures, copies of which will be filed as exhibits to amendments to the registration statement which contains this prospectus or exhibits to a report filed pursuant to Section 13(a) or 15(d) of the Exchange Act that is incorporated into this prospectus. Further terms of the debt securities will be set forth in one or more prospectus supplements.

General

The debt securities are expected to be our direct unsecured obligations. The indentures are not expected to limit the aggregate principal amount of debt securities that may be issued. The debt securities may be issued from time to time in one or more series as authorized from time to time by our board of directors or by any of our authorized officers. The particular terms of the debt securities and any changes or additions to the general terms of the debt securities will be described in the prospectus supplement relating to the debt securities. The prospectus supplement will include the following:

the title of the debt securities;

the aggregate principal amount of the debt securities;

the price of the debt securities;

the date or dates on which the debt securities will mature and the right, if any, to extend such date or dates;

the rate or rates at which the debt securities will bear interest, if any, or the method by which such rate or rates shall be determined;

the date or dates from which interest shall accrue or the method by which such date or dates shall be determined, the interest payment dates on which interest shall be payable, the record dates for the determination of holders to whom interest is payable and, in the case of floating rate debt securities, the notice, if any, to holders regarding the determination of interest and the manner of giving such notice;

the place or places (other than the corporate trust office of the applicable trustee) where principal, premium or interest on the debt securities shall be payable, and the manner in which any such principal, premium or interest will be paid;

any mandatory or optional sinking fund or purchase fund or similar provisions;

the terms and conditions upon which, including when and at what price, the debt securities may be redeemed pursuant to any optional or mandatory redemption provisions;

any terms pursuant to which the debt securities may be convertible into equity or other securities;

whether the debt securities are to be issued in whole or in part in the form of one or more global securities and, if so, the depositary or any common depositary for such global securities;

Edgar Filing: ROYAL GOLD INC - Form 424B2

the terms and conditions, if any, upon which any global securities may be exchanged in whole or in part for definitive debt securities;

any index used to determine the amount of payment of principal or any premium or interest on the debt securities;

the application of any defeasance provisions to the debt securities;

whether the debt securities of a series are to be issued as original issue discount securities and the amount of discount at which they may be issued, and the portion of the principal amount of

Table of Contents

the debt securities which shall be payable upon declaration of acceleration of the maturity upon an event of default (if different than the principal amount);

if other than U.S. dollars, the currency or currency units in which the debt securities shall be denominated or in which payment of principal, premium and interest on the debt securities may be made;

any applicable U.S. federal income tax considerations;

the date of any series of debt securities; and

any other relevant terms of the debt securities.

The indentures relating to the senior debt securities and the subordinated debt securities are expected to contain certain usual and customary restrictive covenants pertaining to, among other things, incurrence of additional debt, creation of liens and limitations on certain transactions. It also is expected that the indentures will contain provisions relating to the modification and waiver of the indentures, discharge of obligations, legal defeasance and covenant defeasance.

All of the debt securities of a series need not be issued at the same time, and may vary as to interest rate, maturity and other provisions. Unless otherwise provided, a series may be reopened for issuance of additional debt securities of such series.

The indentures are not expected to contain provisions to afford you protection if there is a highly leveraged transaction or a change of control of Royal Gold, except as may be otherwise described in this prospectus or in any applicable prospectus supplement.

Senior Debt Securities

Senior debt securities will rank equally with all of our other unsecured debt other than subordinated debt securities or other indebtedness which by its terms is subordinated to our senior debt securities.

Subordinated Debt Securities

Subordinated debt securities will be subordinate and junior in the right of payment to all of our present or future senior indebtedness. "Senior indebtedness" is:

indebtedness for borrowed money, including senior debt securities, and

renewals, extensions, and modifications of such borrowed money,

unless it is specifically provided that such borrowed money or renewal, extension or modification is not senior indebtedness. If we or our selling securityholders are offering subordinated debt securities, the accompanying prospectus supplement or the information incorporated therein by reference will set forth the approximate amount of senior indebtedness outstanding as of a recent date.

Upon any distribution of our assets upon our dissolution, winding up, liquidation or reorganization, the payment of principal, premium and interest on our subordinated debt securities will be subordinated in right of payment to the prior payment in full of all of our senior indebtedness. By reason of such subordination, in the event of a distribution of assets upon insolvency, our general creditors may recover ratably more than holders of our subordinated debt securities. However, subordination shall not apply to money and securities held in trust to satisfy and discharge any subordinated debt securities by legal defeasance.

Table of Contents

Convertible Debt Securities

Debt securities issued under either of the indentures may provide for a right of conversion into equity securities. The terms and conditions governing any such conversion will be set forth in the prospectus supplement relating to the convertible debt securities, including:

the designation of the equity securities into which such debt securities are convertible;

the conversion price;

the conversion period;

whether conversion will be at our option or at the option of the holder of the convertible debt securities;

the events requiring an adjustment of the conversion price; and

the provisions affecting conversion in the event of the redemption of such debt securities.

Form, Exchange, Payment and Transfer

Unless otherwise specified in a prospectus supplement, we expect to issue the debt securities in fully registered form without coupons and in denominations of \$1,000 (or multiples of \$1,000). We will not impose a service charge for any transfer or exchange of the debt securities, but we or the trustee may require you to make a payment to cover any associated tax or other government charge.

If we issue debt securities in bearer form, the applicable prospectus supplement will describe the special restrictions and considerations, including special offering restrictions and special U.S. federal income tax considerations, applicable to those debt securities and to payment on and transfer and exchange of those debt securities. Bearer debt securities will be transferable by delivery.

Unless otherwise provided in a prospectus supplement, we expect to pay principal, premium or interest, and you may surrender for payment or transfer the debt securities, at the offices of the trustee. Alternatively, we may pay interest by check mailed to you at your address as it appears in the security register. We will make payment on debt securities in bearer form at such non-U.S. paying agencies as we may choose.

Book-Entry

We may issue the debt securities of a series in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a global depository, or its nominee, identified in the prospectus supplement. In this case, we will issue global securities in a denomination equal to the portion of the aggregate principal amount of outstanding debt securities of the series to be represented by such global security or securities. Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a global security may not be registered for transfer or exchange except by the global depository to a nominee for that global depository and except in the circumstances described in the prospectus supplement.

A prospectus supplement will provide the specific terms of the depository arrangement concerning any portion of a series of debt securities to be represented by a global security and a description of a global depository.

Table of Contents

Consolidation, Merger and Sale

Nothing contained in either indenture or any of the debt securities is expected to prevent our consolidation or merger with or into any other corporation or any sale or conveyance of all or substantially all of our property to any other corporation; *provided* that upon any such transaction, other than a consolidation or merger in which we are the continuing corporation, the payment of principal, premium and interest on all of the debt securities, and the performance and observance of all of the covenants and conditions of the indenture to be performed by us, is expressly assumed by the corporation formed by such consolidation or into which we shall have been merged, or by the corporation which shall have acquired such property.

Events of Default

The following are expected events of default under each indenture with respect to debt securities of any series issued thereunder:

a failure to pay principal or premium on any debt security of that series when due;

a failure to pay for a specified period, any interest on any debt security of that series when due;

certain events of bankruptcy, insolvency or reorganization; and

any other event of default provided with respect to debt securities of a series.

In general, if an event of default with respect to debt securities of any series occurs and is continuing, either the trustee or the holders of a specified percentage in aggregate principal amount outstanding of the debt securities of that series may declare the principal amount of all the debt securities of that series to be due and payable immediately. At any time after such a declaration of acceleration has been made, but before a judgment or decree based on acceleration has been obtained, the holders of a majority in aggregate principal amount of outstanding debt securities of that series may rescind and annul such acceleration.

Each indenture is expected to provide that, subject to the duty of the applicable trustee during a default to act with the required standard of care, the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request or direction of any holder unless such holder shall have offered the trustee reasonable indemnity. Subject to such indemnification provisions, the holders of a majority in aggregate principal amount of outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or to exercise any trust or power conferred on the trustee, with respect to the debt securities of that series.

Each indenture is expected to require us to furnish to the applicable trustee annually a statement as to the performance by us of our obligations under each indenture and as to any default in such performance.

Regarding the Trustees

We may maintain deposit accounts and conduct other banking transactions with one or more of the trustees, including borrowing in the ordinary course of business.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

General

The following description of our capital stock, together with the additional information in any applicable prospectus supplement, summarizes the material terms and provisions of our capital stock and various provisions of our restated certificate of incorporation, which we also refer to as our certificate of incorporation, and amended and restated bylaws, which we also refer to as our bylaws. For additional information about the terms of our capital stock, please refer to our restated certificate of incorporation, amended and restated bylaws, and amended and restated stockholder rights agreement that are incorporated by reference into the registration statement of which this prospectus is a part. The terms of these securities may also be affected by the general corporation law of the state of Delaware. The summary below is not intended to be complete and is qualified by reference to the provisions of applicable law and our restated certificate of incorporation, amended and restated bylaws and amended and restated stockholder rights agreement.

Our authorized capital stock consists of 100,000,000 shares of common stock, par value \$0.01 per share and 10,000,000 shares of preferred stock, par value \$0.01 per share. As of December 19, 2008, there were approximately 34,007,184 issued and outstanding shares of common stock and no shares of preferred stock issued or outstanding. Rights to purchase Series A Junior Participating Preferred Stock, \$0.01 par value per share (the "Series A Preferred Stock") have been distributed to holders of our common stock under our amended and restated rights agreement. A maximum of 500,000 shares of Series A Preferred Stock is currently authorized for issuance upon exercise of these rights.

Common Stock

Holders of common stock are entitled to one vote for each share held in the election of directors and on all other matters submitted to a vote of stockholders and do not have any cumulative voting rights. Holders of common stock are entitled to receive ratably such dividends, if any, when, as and if declared by the board of directors, out of funds legally available therefor, subject to any preferential dividend rights of any outstanding preferred stock.

Upon the liquidation, dissolution, or winding up of our company, the holders of common stock are entitled to receive ratably the net assets of the company available after payment of all debts and other liabilities, subject to the prior rights of any outstanding preferred stock. Holders of common stock have no preemptive, subscription, redemption, or conversion rights other than the right, when exercisable, to purchase one one-thousandth of a share of our Series A Junior Participating Preferred Stock as described further below. The outstanding shares of common stock are, and the shares offered by us by any prospectus supplement accompanying this prospectus will be, when issued and paid for, fully paid and non-assessable.

Preferred Stock

As of the date of this prospectus, we had no outstanding shares of preferred stock. Rights to purchase Series A Preferred Stock have been distributed to holders of our common stock under a rights agreement, and a maximum of 500,000 shares of Series A Preferred Stock are authorized for issuance on exercise of rights. Our preferred stock may be issued from time to time in one or more series, without stockholder approval. Subject to limitations prescribed by law, the board of directors is authorized to determine the voting powers (if any), designations, preferences and relative, participating, optional or other special rights, and qualifications, limitations or restrictions thereof, for each series of preferred stock that may be issued, and to fix the number of shares of each such series. Thus, the board of directors, without stockholder approval, could authorize the issuance of preferred stock with voting, conversion and other rights that could adversely affect the voting power and other rights of

Table of Contents

holders of common stock or other series of preferred stock or that could have the effect of delaying, deferring or preventing a change in control of our company.

Preferred stock will be issued under a certificate of designations relating to each series of preferred stock, subject to our certificate of incorporation. When a particular series of preferred stock is offered, the prospectus supplement will describe the specific terms of the securities, including:

the title and stated value of the preferred stock;

the number of shares of the preferred stock offered, the dividend and liquidation preference per share and the offering price of the preferred stock;

the dividend rate(s), period(s) and/or payment date(s) or method(s) of calculation of such rates, periods or dates applicable to the preferred stock;

whether the preferred stock will have preemptive rights;

the procedures for auction and remarketing, if any, of the preferred stock;

the sinking fund provisions, if applicable, for the preferred stock;

the redemption provisions, if applicable, for the preferred stock;

whether the preferred stock will be convertible into or exchangeable for other securities and, if so, the terms and conditions of conversion or exchange, including the conversion price or exchange ratio and the conversion or exchange period (or the method of determining the same);

whether the preferred stock will have voting rights and the terms of the voting rights, if any;

whether the preferred stock will be listed on any securities exchange;

the transfer agent for the preferred stock;

whether the preferred stock will be issued with any other securities and, if so, the amount and terms of such securities; and

any other specific terms, preferences or rights of, or limitations or restrictions on, the preferred stock.

Anti-Takeover Effects of Certain Provisions of Delaware Law and Our Restated Certificate of Incorporation and Amended and Restated Bylaws

Edgar Filing: ROYAL GOLD INC - Form 424B2

Effect of Delaware Anti-takeover Statute. We are subject to Section 203 of the Delaware General Corporation Law, an anti-takeover law. In general, Section 203 prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

prior to that date, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares of voting stock outstanding (but not the voting stock owned by the interested stockholder) those shares owned by persons who are directors and also officers and excluding employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or

Table of Contents

on or subsequent to that date, the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66²/₃% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines "business combination" to include the following:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation, or who beneficially owns 15% or more of the outstanding voting stock of the corporation at any time within a three year period immediately prior to the date of determining whether such person is an interested stockholder, and any entity or person affiliated with, controlling, or controlled by any of these entities or persons.

Restated Certificate of Incorporation and Amended and Restated Bylaws Provisions. Our restated certificate of incorporation and amended and restated bylaws include provisions that may have the effect of discouraging, delaying or preventing a change in control or an unsolicited acquisition proposal that a stockholder might consider favorable, including a proposal that might result in the payment of a premium over the market price for the shares held by stockholders. These provisions are summarized in the following paragraphs.

Classified Board of Directors. Our restated certificate of incorporation provides for our board to be divided into three classes of directors serving staggered three year terms. The classification of the board has the effect of requiring at least two annual stockholder meetings, instead of one, to replace a majority of the members of the board of directors.

Authorized but Unissued or Undesignated Capital Stock. Our authorized capital stock consists of 100,000,000 shares of common stock and 10,000,000 shares of preferred stock. The authorized but unissued (and in the case of preferred stock, undesignated) stock may be issued by the board of directors in one or more transactions. In this regard, our restated certificate of incorporation grants the board of directors broad power to establish the rights and preferences of authorized and unissued preferred stock. The issuance of shares of preferred stock pursuant to the board of director's authority described above could decrease the amount of earnings and assets available for distribution to holders of common stock and adversely affect the rights and powers, including voting rights, of such holders and may have the effect of delaying, deferring or preventing a change in control. The board of directors does not currently intend to seek stockholder approval prior to any issuance of preferred stock, unless otherwise required by law.

Special Meetings of Stockholders. Our amended and restated bylaws provide that special meetings of our stockholders may be called only by our chairman, chief executive officer, president or board of directors. Stockholders do not have the right to call special meetings or to bring business before special meetings.

Table of Contents

Stockholder Action by Written Consent. Under Delaware law, unless otherwise provided in a corporation's certificate of incorporation, any action that may be taken at a meeting of stockholders may be taken without a meeting and without prior notice if a written consent is signed by the holders of the minimum number of votes necessary to authorize the action at a meeting at which all shares entitled to vote were present and voted. Our amended and restated bylaws provide the same standard for written consent.

Notice Procedures. Our amended and restated bylaws establish advance notice procedures with regard to all stockholder proposals to be brought before meetings of our stockholders, including proposals relating to the nomination of candidates for election as directors, the removal of directors and amendments to our amended and restated certificate of incorporation or amended and restated bylaws. These procedures provide that notice of such stockholder proposals must be timely given in writing to our secretary prior to the meeting. Generally, to be timely, a stockholder who intends to bring matters before an annual meeting must provide advance notice of such intended action not less than 90 days nor more than 120 days prior to the meeting; except if less than 100 days notice was given or public disclosure was made for the meeting, advance notice of the matter is required to be given not less than 10 days after notice or public disclosure of the meeting, and notice as required by the Exchange Act. The notice of the matter generally must contain a brief description of the business desired to be brought before the annual meeting and if regarding the nomination of a director, all information required to be disclosed in solicitation of proxies for election of directors under Schedule 14A of the Exchange Act, the reasons for conducting the business at the annual meeting, the name and record address of such stockholder, the class and number of shares of Royal Gold stock owned by such stockholder, a description of any material interest of the stockholder in such business and whether such stockholder intends to solicit proxies from Royal Gold stockholders.

Stockholder Rights Plan

Rights to purchase Series A Junior Participating Preferred Stock, \$0.01 par value per share (the "Series A Preferred Stock") have been distributed to holders of our common stock under our amended and restated rights agreement. A maximum of 500,000 shares of Series A Preferred Stock is currently authorized for issuance upon exercise of these rights. The rights agreement provides that attached to each share of our common stock is one right that, when exercisable, entitles the holder to purchase one one-thousandth of a share of Series A Preferred Stock at a purchase price of \$175, subject to adjustment. In certain events, including when a person or group becomes the owner of 15% or more of our outstanding common stock (except by reason of share acquisitions by the Company) or when a person or group commences a tender offer or exchange offer for 15% or more of our outstanding common stock, the rights become exercisable. Exercise of the rights would entitle the holders of the rights (other than the acquiring person or group) to receive that number of one-thousandths of a share of Series A Preferred Stock with a market value equal to two times the exercise price of the rights. At any time after the rights become exercisable, but before the acquiring person or group has obtained 50% or more of our outstanding common stock, our board of directors, under certain circumstances, may exchange each of the rights for a share of common stock or one one-thousandth of a Series A Preferred Share or the preferred stock equivalent. Accordingly, exercise or exchange of the rights may cause substantial dilution to a person or group that attempts to acquire our company. The rights, which expire on September 10, 2017, may be redeemed at a price of \$.001 per right at any time until the tenth day following an announcement that an individual, corporation or other entity has acquired 15% or more of our outstanding common stock, except as otherwise provided in the rights agreement. The rights agreement makes the takeover of our company much more difficult.

Table of Contents

Limitation of Director Liability

As permitted by provisions of the Delaware General Corporation Law, our restated certificate of incorporation limits, in certain circumstances, the monetary liability of our directors for breaches of their fiduciary duties as directors. These provisions do not eliminate the liability of a director:

for a breach of the director's duty of loyalty to our company or its stockholders;

for acts or omissions by a director not in good faith or which involve intentional misconduct or a knowing violation of law;

arising under Section 174 of the Delaware General Corporation Law (relating to the declaration of dividends and purchase or redemption of shares in violation of the Delaware General Corporation Law); or

for any transaction from which the director derived an improper personal benefit.

In addition, these provisions do not limit our rights or the rights of our stockholders, in appropriate circumstances, to seek equitable remedies such as injunctive or other forms of non-monetary relief. Such remedies may not be effective in all cases.

Indemnification Arrangements

Our amended and restated bylaws provide that our company shall indemnify our directors and officers to the full extent permitted by Delaware law. Under such provisions any director or officer, who, in his or her capacity as such, is made or threatened to be made a party to any suit or proceeding, may be indemnified if the board determines such director or officer acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interest of the company. The amended and restated bylaws and the Delaware General Corporation Law further provide that such indemnification is not exclusive of any other rights to which such individuals may be entitled under the bylaws, any agreement, any vote of stockholders or disinterested directors, or otherwise.

We have entered into indemnification agreements with all of our current directors and officers to assure them that they will be indemnified to the extent permitted by our amended and restated bylaws and the Delaware General Corporation Law. The indemnification agreements provide our directors and officers indemnification against, among other things, any and all expenses, judgments, fines, penalties, and amounts paid in settlement by the director or officer, provide for the advancement of expenses incurred by the director or officer in connection with any proceeding and obligate the director or officer to reimburse Royal Gold for all amounts so advanced if it is subsequently determined, as provided in the indemnification agreements, that the director or officer is not entitled to indemnification. The indemnification agreements also provide certain methods and presumptions for determining whether the director or officer is entitled to indemnification, among other matters, as set forth in such agreement.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or persons controlling Royal Gold pursuant to Royal Gold's restated certificate of incorporation, amended and restated bylaws or any indemnification agreement, Royal Gold has been informed that in the opinion of the SEC such indemnification is against public policy as expressed under the Securities Act of 1933 and is therefore unenforceable.

Transfer Agent

The transfer agent for our common stock is Computershare Trust Company, Golden, Colorado; and Computershare Trust Company of Canada, Toronto, Ontario.

Table of Contents

DESCRIPTION OF DEPOSITARY SHARES

We may, at our option, elect to issue fractional shares of preferred stock rather than full shares of preferred stock. If we exercise this option, we will issue to the public receipts for depositary shares, and each of these depositary shares will represent a fraction (to be set forth in the applicable prospectus supplement) of a share of a particular series of preferred stock.

The shares of any series of preferred stock underlying the depositary shares will be deposited under a deposit agreement between us and a bank or trust company selected by us. The depositary will have its principal office in the United States and a combined capital and surplus of at least \$50,000,000. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable fraction of a share of preferred stock underlying the depositary share, to all of the rights and preferences of the preferred stock underlying that depositary share. Those rights may include dividend, voting, redemption, conversion and liquidation rights.

The depositary shares will be evidenced by depositary receipts issued under a deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of preferred stock underlying the depositary shares, in accordance with the terms of the offering. The material terms of the deposit agreement, the depositary shares and the depositary receipts will be described in a prospectus supplement relating to the depositary shares. You should also refer to the forms of the deposit agreement and depositary receipts that will be filed with the SEC in connection with the offering of the specific depositary shares.

DESCRIPTION OF WARRANTS

We may issue warrants, including warrants to purchase debt securities, preferred stock or common stock. Warrants may be issued independently or together with any equity or debt securities and may be attached to or separate from such equity or debt securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between Royal Gold and a warrant agent. The warrant agent will act solely as our agent in connection with the warrants of such series and will not assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants. Terms of the warrants and the applicable warrant agreement will be set forth in the applicable prospectus supplement, including:

the title of the warrants;

the aggregate principal amount of the warrants and the issue price of the warrants;

the number of securities for, and the price at, which the warrants are exercisable and the period during which the warrants may be exercised;

the currency or currencies, including composite currencies, in which the price of the warrants may be payable;

in the case of warrants to purchase preferred stock, the designation, number of shares, stated value and terms, such as liquidation, dividend, conversion and voting rights, of the series of preferred stock purchasable upon exercise of the warrants, and the price at which you may purchase such number of shares of preferred stock of such series upon such exercise;

in the case of warrants to purchase debt securities, the designation, aggregate principal amount, currencies, denominations and terms of the series of debt securities purchasable upon exercise of the warrants and the price at which you may purchase the debt securities upon exercise;

if applicable, the date on and after which the warrants and the related securities will be separately transferable;

Table of Contents

any provision adjusting the securities that may be purchased on exercise of the warrants, and the exercise price of the warrants, to prevent dilution or otherwise; and

any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

SELLING SECURITYHOLDERS

Selling securityholders may use this prospectus in connection with the resale of securities from time to time. The applicable prospectus supplement will identify the selling securityholders, the terms of the securities and other information regarding the transaction, such as the price of the securities, the names of any underwriter or broker-dealer, if used, and the commissions paid or discounts or concessions allowed to such underwriter or broker-dealer, where applicable. The selling securityholders may be deemed to be underwriters in connection with the securities they resell and any profits on the sales may be deemed to be underwriting discounts and commissions under the Securities Act. The selling securityholders will receive all the proceeds from their sale of securities. We will not receive any proceeds from sales by selling securityholders except as otherwise specified in an applicable prospectus supplement.

PLAN OF DISTRIBUTION

The Company or the selling securityholders may sell securities offered by means of this prospectus to one or more underwriters for public offering and sale by them or may sell such securities to investors directly or through agents. Any such underwriter or agent involved in the offer and sale of such securities will be named in the prospectus supplement relating to the securities. The Company will bear all costs, fees and expenses incurred in connection with the registration of the offering of securities under this prospectus.

Underwriters may offer and sell securities offered by means of this prospectus at a fixed price or prices, which may be changed, at prices related to the prevailing market prices at the time of sale or at negotiated prices. The Company or the selling securityholders also may, from time to time, authorize underwriters acting as the Company's agents to offer and sell securities by means of this prospectus upon the terms and conditions as are set forth in the prospectus supplement relating to such securities. In connection with a sale of securities offered by means of this prospectus, underwriters may be deemed to have received compensation from the Company or the selling securityholders in the form of underwriting discounts or commissions and may also receive commissions from purchasers of securities for whom they may act as agent. Underwriters may sell securities offered by means of this prospectus to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agent.

Any underwriting compensation paid by the Company or the selling securityholders to underwriters or agents in connection with the offering of securities offered by means of this prospectus, and any discounts, concessions or commissions allowed by underwriters to participating dealers, will be set forth in the applicable prospectus supplement. Underwriters, dealers and agents participating in the distribution of the offered securities may be deemed to be underwriters, and any discounts or commissions received by them and any profit realized by them upon the resale of the offered securities may be deemed to be underwriting discounts and commissions, under the Securities Act. Underwriters, dealers and agents may be entitled, under agreements entered into with the Company or the selling securityholders, to indemnification against and contribution toward certain civil liabilities, including liabilities under the Securities Act.

The Company or the selling securityholders may directly solicit offers to purchase our securities, and may directly sell the securities to institutional or other investors. The Company or the selling

Table of Contents

securityholders will describe the terms of direct sales in the prospectus supplement. The Company or the selling securityholders may authorize their respective agents and underwriters to solicit offers by certain institutions to purchase the securities at the public offering price under delayed delivery contracts. If the Company or the selling securityholders use delayed delivery contracts, the Company or the selling securityholders will disclose that they are using them in the prospectus supplement and will tell you when they will demand payment and delivery of the securities under the delayed delivery contracts. These delayed delivery contracts will be subject only to the conditions that the Company or the selling securityholders set forth in the prospectus supplement.

The Company or the selling securityholders may agree to sell securities to an underwriter for a delayed public offering and may further agree to adjustments before the public offering to the underwriters' purchase price for the securities based on changes in the market value of the securities. The prospectus supplement relating to any such public offering will contain information on the number of securities to be sold, the manner of sale or other distribution, and other material facts relating to the public offering.

The selling securityholders may also sell our securities in one or more privately negotiated transactions exempt from the registration requirements of the Securities Act pursuant to Rule 144 under the Securities Act, Section 4(1) of the Securities Act or other applicable exemptions, regardless of whether the securities are covered by the registration statement of which this prospectus forms a part. Such sales, if any, will not form part of the plan of distribution described in this prospectus. The selling securityholders will act independently of us in making decisions with respect to the timing, manner and size of each such sale.

Other than the common stock, all securities offered by this prospectus will be a new issue of securities with no established trading market. Any underwriter to whom securities are sold by us or the selling securityholders for public offering and sale may make a market in such securities, but such underwriters may not be obligated to do so and may discontinue any market making at any time without notice. The securities may or may not be listed on a national securities exchange or a foreign securities exchange, except for the common stock which is currently listed and traded on the NASDAQ Global Select Market and Toronto Stock Exchange. Any common stock sold by this prospectus will be listed for trading on the NASDAQ Global Select Market subject to official notice of issuance. The Company cannot give you any assurance as to the liquidity of the trading markets for any securities.

LEGAL MATTERS

The validity of the securities being offered by this prospectus will be passed upon for us by Hogan & Hartson LLP, Denver, Colorado.

EXPERTS

The consolidated financial statements and management's assessment of the effectiveness of internal control over financial reporting (which is included in Management's Report on Internal Control over Financial Reporting) incorporated in this prospectus by reference to the Annual Report on Form 10-K/A (filed on November 6, 2008) for the year ended June 30, 2008 have been so incorporated in reliance on the report (which contains an explanatory paragraph relating to the Company's restatement of its consolidated financial statements as described in Note 20A to the financial statements and also contains an adverse opinion on the effectiveness of internal control over financial reporting) of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.
