of incorporation		Identification No.)
3419 Virginia Beach Blvd., #252	Virginia Beach, VA. 23452	
(Address of principal executive offices)	(Zip Code)	
Registrant's telephone number, including area code: 757-306-6090		

Global Enterprises Group, Inc.
(Former name or former address, if changed since last report.)

Edgar Filing: GLOBAL HOUSING GROUP - Form 8-K

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- ☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01 Other Information.

Explanation on Non-Shell Status of the Company, Predictive Technology Group, Inc.

Rule 144, subpart (i), provides that exemption under the Rule is not available for share from an issuer which is currently or was at the time of issuance a shell Company at that term is defined in §230.405, or an asset-backed issuer, as defined in Item 1101(b) of Regulation AB §239.1101(b) of chapter 230 (The Securities Act of 1933).

The SEC deemed the Company registration statement effective February 2007, however, the Company's first four quarterly reports incorrectly displayed YES option to the question Indicate by check mark whether the registrant is a shell Company (found on the first page of each 2007 quarterly and year-end reports). This mistake was likely driven by a pre-2008 perception that nominal meant having less than \$1 million in operations. A shell company as defined in Rule 12b-2 of the Exchange Act requires a company to have a) no or nominal operations; and b) No or nominal assets, assets consisting solely of cash and cash equivalents; or assets consisting of any amount of cash and cash equivalents and nominal other assets.

On December 6, 2007 the SEC published Release 33-8869 which clarified the scope of the Rule 144 safe harbor exemption to include companies with limited operating history, which otherwise could be viewed as shell companies.

Rule 144(i)(1)(i) is not intended to capture a Start-up Company, or, in other words, a company with a limited operating history, in the definition of a reporting or non-reporting shell company, as we believe that such a company does not meet the conditions of having no or nominal operations (See SEC release 33-8869, page 48, footnote 172; SEC Revisions to Rule 144 and 145 file S7-11-07, 2007).

Despite the Company's limited non-cash assets in 2007, the Company was a start-up with a real business, business plan, marketing strategy, and a bona fide intent to grow. The Company's 2007 filings clearly show that its business model was focused on the distribution of a new category of bathroom plumbing products through wholesale, specialty and retail outlets. The Company had a physical office. Like many start-ups, it was staffed by Company directors, who worked without compensation to preserve outgoing cash flow. It planned to hire a sales force to expedite its penetration into targeted distribution channels. The Company clearly engaged in activities that are, at a minimum, sufficient to manifest a strong commitment to developing a legitimate business, and therefore it does not meet the condition of having no or nominal operations. Upon review of the Company's filings which included the 2007 quarterly and year end reports, it is evident that the Company is not and was not a SHELL COMPANY, and therefore it is eligible for the RULE 144 SAFE HARBOR exemption. Noteworthy, the Company's 2008 quarterly reports correctly displayed NO option to the question Indicate by check mark whether the registrant is a shell Company (found on the first page of each 2008 quarterly reports).

Therefore shareholders are not ineligible for legend removal under this provision. SEC release 33-8869 was reviewed in comparison to all known facts of this Company, and such shares and standing of this Company are not impeded by any application or definition of this Company having been a Shell during the pertinent time period necessary where such term would be applicable.

The Company correct this mistaken and incorrectly displayed YES option to the question Indicate by check mark whether the registrant is a shell Company with a four (4) amended quarterly and year-end reports transmitted on to the US SEC EDGAR Filing system on November 30, 2015 and December 1, 2015.

Thus, the Company has attached (below) all the public filings, as amended, for the 2007 operational year to further clarify the amendment on the mistake from YES to NO which supports the correctly reporting option to this question Indicate by check mark whether the registrant is a shell Company throughout the 2008 reports as "NO."

K-9 CONCEPTS, INC.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 28, 2007

(UNAUDITED)

NOTE 1. NATURE AND CONTINUANCE OF OPERATIONS

K-9 Concepts, Inc. ("the Company") was incorporated under the laws of State of Nevada on August 25, 2005. The Company is in the business of marketing and distribution of showerhead and related accessories. The Company is considered to be a development stage company and has not generated any significant revenues from operations.

Going concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As of February 28, 2007, the

Company has a working capital of \$16,061, has not yet achieved profitable operations and has accumulated a deficit of \$15,939 since inception. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with any certainty at this time and raise substantial doubt that the Company will be able to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern. Management believes that the Company has adequate funds to carry on operations for the upcoming fiscal year.

Unaudited Interim Financial Statements

The accompanying unaudited interim financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended August 31, 2006 included in the Company's Form SB-2 filed with the Securities and Exchange Commission. The interim unaudited financial statements should be read in conjunction with those financial statements

included in the Form SB-2. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the six months ended February 28, 2007 are not necessarily indicative of the

results that may be expected for the year ending August 31, 2007.

NOTE 2. RELATED PARTY TRANSACTIONS

The Company recognized donated services by directors of the Company for management fees, valued at \$500 per month, totaling \$3,000 for the six months ended to February 28, 2007 (\$Nil for the six months ended February 28, 2006). These transactions were recorded at the exchange amount which is the amount agreed to by the related parties.

NOTE 3. INCOME TAXES

At February 28, 2007, the Company has accumulated non-capital losses totaling \$15,939, which are available to reduce taxable income in future taxation years. These losses expire beginning 2026. The potential benefit of those losses, if any, has not been recorded in the financial statements as these losses are not likely to be realized.

FORWARD-LOOKING STATEMENTS

This Form 10-QSB includes "forward-looking statements" within the meaning of the "safe-harbor" provisions of the Private Securities Litigation Reform Act of 1995. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

All statements other than historical facts included in this Form, including
without limitation, statements under "Plan of Operation", regarding our

financial position, business strategy, and plans and objectives of management for the future operations, are forward-looking statements.

Although we believe that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, market conditions, competition and the ability to successfully complete financing.

ITEM 2. PLAN OF OPERATION

The success of our business plan depends on the strength of national and local new residential construction, home improvement and remodelling markets. Future downturns in new residential construction and home improvement activity may result in intense price competition among building materials suppliers, which may adversely affect our intended business.

The building products distribution industry is subject to cyclical market pressures and most impacted by changes in the demand for new homes and in general economic conditions that impact the level of home improvements. Our business success depends on anticipating changes in consumer preferences and on successful new product and process development and product re-launches in response to such changes. Consumer preferences for our products shift due to a variety of factors that affect discretionary spending, including changes in demographic and social trends and downturn in general economic conditions.

The building materials distribution industry is extremely fragmented and competitive. Our competition varies by product line, customer classification and geographic market. The principal competitive factors in our industry are pricing and availability of product, service and delivery capabilities, ability to assist with problem-solving, customer relationships, geographic coverage and breadth of product offerings. We compete with many local, regional and national building materials distributors and dealers.

Separate showers and baths have also become de rigueur in many households and increasingly a major component in the Personal Healthcare industry segment.

Showers have morphed into vertical spas and the use of multiple shower heads is also growing in popularity, often with multiple sprays for each head.

We are positioning ourselves to take advantage of current market and industry trends for the Personal Healthcare segment; including an increased emphasis on a personal health care lifestyle and an increased emphasis on spending time at home or "cocooning". Consumers in this industry segment wish to remain active and seek personal health care products to maintain a high quality of life. These "baby boomers" typically have more discretionary income, which are more likely spent on home remodelling projects (including projects to improve their pools and spas).

We intend to develop our retail network by initially focusing our marketing efforts on larger chain stores that sell various types of shower heads, such as Home Depot. These businesses sell more shower heads, have a greater budget for

in-stock inventory and tend to purchase a more diverse assortment of shower heads.

In 2007, we anticipate expanding our retail network to include small to medium size retail businesses whose businesses focus is limited to the sale of bathroom accessories. Any relationship we arrange with retailers for the wholesale distribution of our shower heads will be non-exclusive. Accordingly, we will compete with other shower head vendors for positioning of our products in retail space.

Even if we are able to receive an order commitment, some larger chains will only pay cash on delivery and will not advance deposits against orders. Such a policy may place a financial burden on us and, as a result, we may not be able to

deliver the order. Other retailers may only pay us 30 or 60 days after delivery, creating an additional financial burden.

We intend to retain one full-time sales person in the next six months, as well as an additional full-time sales person in the six months thereafter. These individuals will be independent contractors compensated solely in the form of commission based upon sales they arrange. We expect to pay each sales person 12% to 15% of the net profit we realize from such sales.

We therefore expect to incur the following costs in the next 12 months in connection with our business operations:

Marketing costs:	\$20,000
General administrative costs:	\$10,000
Total:	\$30,000

In addition, we anticipate spending an additional \$10,000 on administrative fees. Total expenditures over the next 12 months are therefore expected to be \$40,000.

While we have sufficient funds on hand to commence business operations, our cash reserves are not sufficient to meet our obligations for the next twelve-month period. As a result, we will need to seek additional funding in the near future. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock.

We may also seek to obtain short-term loans from our directors, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future equity financing.

If we are unable to raise the required financing, we will be delayed in conducting our business plan.

Our ability to generate sufficient cash to support our operations will be based upon our sales staff's ability to generate bamboo flooring sales. We expect to accomplish this by securing a significant number of agreements with large and small retailers and by retaining suitable salespersons with experience in the retail sales sector.

RESULTS OF OPERATIONS FOR PERIOD ENDING FEBRUARY 28, 2007

We did not earn any revenues in the six-month period ended February 28, 2007. During the same period, we incurred operating expenses of \$3,861 consisting of donated management fees of \$3,000, filing and transfer agent fees of \$750, travel and promotion costs of \$24, and bank charges of \$87.

At February 28, 2007, we had assets of \$16,061 consisting of \$15,965 in cash and \$96 in other receivables. We did not have any liabilities as of February 28, 2007.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors believe that there is substantial doubt that we will be able to continue as a going concern.

ITEM 3. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS

We evaluated the effectiveness of our disclosure controls and procedures as of February 28, 2007. This evaluation was conducted by Albert Au, our chief executive officer and Jeanne Mok, our principal accounting officer.

Disclosure controls are controls and other procedures that are designed to ensure that information that we are required to disclose in the reports we file pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported.

LIMITATIONS ON THE EFFECTIVE OF CONTROLS

Our management does not expect that our disclosure controls or our internal controls over financial reporting will prevent all error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, but no absolute, assurance that the objectives of a control system are met.

Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. These limitations also include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of a control. A design of a control system is also based upon certain assumptions about potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

CONCLUSIONS

Based upon their evaluation of our controls, Albert Au, our chief executive officer and Jeanne Mok, our principal accounting officer, have concluded that, subject to the limitations noted above, the disclosure controls are effective providing reasonable assurance that material information relating to us is made known to management on a timely basis during the period when our reports are

being prepared. There were no changes in our internal controls that occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect our internal controls.

PART II- OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any pending legal proceeding. Management is not aware of any threatened litigation, claims or assessments.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2007

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 1. BASIS OF PRESENTATION

Unaudited Interim Financial Statements

The accompanying unaudited interim financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions pertaining to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except

as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended August 31, 2006, included in the Company's Form 10-KSB filed with the Securities and Exchange Commission. These unaudited interim financial statements should be read in conjunction with the audited financial statements included in the Form 10-KSB. In the opinion of Management, all adjustments, considered necessary for fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for nine months ended May 31, 2007 are not necessarily indicative of the results that may be expected for the year ending August 31, 2007

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As of May 31, 2007, the Company has a working capital of \$9,041, has not yet achieved profitable operations and has accumulated a deficit of \$24,459 since inception. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with any certainty at this time and raises substantial doubt that the Company will be able to continue as a going concern. These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to

continue as a going concern. Management believes that the Company has adequate funds to carry on operations for the upcoming fiscal year.

NOTE 2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP").

USE OF ESTIMATES

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

ORGANIZATIONAL AND START-UP COSTS

Costs of start-up activities, including organizational costs, are expensed as incurred

<PAGE>

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2007

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

DEVELOPMENT STAGE COMPANY

The Company is in the development stage. Since its formation, the Company has not yet realized any revenues from its planned operations.

FOREIGN CURRENCY TRANSLATION

The reporting currency of the Company is the United States Dollar; functional currency of the Company is the U.S. Dollar. The accounts of other currencies are translated into US Dollars on the following basis:

Monetary assets and liabilities are translated at the current rate of exchange.

The weighted average exchange rate for the period is used to translate revenue, expenses, and gains or losses from the functional currency to the reporting currency.

The gain or loss on the foreign currency financial statements is reported as a separate component of stockholders' equity and not recognized in net income. Gains or losses on remeasurement from the recording currency are recognized in current net income.

Gains or losses from foreign currency transactions are recognized in current net income.

Fixed assets are measured at historical exchange rates that existed at the time of the transaction.

Depreciation is measured at historical exchange rates that existed at the time the underlying related asset was acquired.

The effect of exchange rate changes on cash balances is reported in the statement of cash flows as a separate part of the reconciliation of change in cash and cash equivalents during the period.

FINANCIAL INSTRUMENTS

As defined in Financial Accounting Standards Board ("FASB") No. 107, the company estimates whether the fair value of all financial instruments differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet, which need to be disclosed. The estimated fair values of amounts have been determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is required in interpreting market data to develop the estimates of fair value, and accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange.

<PAGE>

K-9 CONCEPTS, INC.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2007

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

FINANCIAL INSTRUMENTS (CONT'D)

The company's financial instruments consist of cash and accounts payable

and accrued liabilities. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values.

INCOME TAXES

The Company has adopted Statements of Financial Accounting Standards ("SFAS") No. 109 - "Accounting for Income Taxes". SFAS No. 109 requires the use of the asset and liability method of accounting of income taxes.

Under the asset and liability method of SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

LOSS PER SHARE

In accordance with SFAS No. 128 - "Earnings Per Share", the basic loss per common share is computed by dividing net loss available to common

stockholders by the weighted average number of common shares outstanding.

Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At May 31, 2007, the Company had no dilutive stock equivalents, accordingly diluted loss per share has not been presented.

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

STOCK-BASED COMPENSATION

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with SFAS No. 123 and the conclusions reached by the Emerging Issues Task Force ("EITF") in Issue No. 96-18 ("EITF 96-18"). Costs are measured at the estimated fair market value of the consideration received or the

estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by EITF 96-18.

The Company has also adopted the provisions of the FASB Interpretation No.44, Accounting for Certain Transactions Involving Stock Compensation - An Interpretation of Accounting Principles Board ("APB") Opinion No. 25 ("FIN 44"), which provides guidance as to certain applications of APB 25.

The Company has not adopted a stock option plan and has not granted any stock options. Accordingly, no stock-based compensation has been recorded to date.

NOTE 3.COMMON STOCK

In October 2005, the Company subscribed 2,000,000 shares of common stock at a price of @0.001 per share for total proceeds of \$2,000.

In November 2005, the Company subscribed 4,000,000 shares of common stock at a price of \$0.001 per share for total proceeds of \$4,000.

In March 2006, the Company subscribed 400,000 shares of common stock at a price of \$0.05 per share for total proceeds of \$20,000.

The total number of common authorized that may be issued by the Company is 75,000,000 shares of common stock with a par value of one-tenth of one cent (\$0.001) per share. No other class of shares is authorized.

During the period from August 25, 2005 (inception) to August 31, 2006, the Company subscribed 6,400,000 common shares for total cash proceeds of \$26,000.

At May 31, 2007, there were no outstanding stock options or warrants.

<PAGE>

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2007

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 3.COMMON STOCK (CONT'D)

COMMON SHARES

The common shares of the Company are all of the same class.

ADDITIONAL PAID-IN CAPITAL

The excess of proceeds received for shares of common stock over their par value of \$0.001, less share issue costs, is credited to additional paid-in capital.

NOTE 4. RELATED PARTY TRANSACTIONS

The Company recognized donated services by directors of the Company for

2007 management fees, valued at \$500 per month, totaling \$4,500 for the period from September 1, 2006 to May 31, 2007 and \$3,000 for the period from March 1, 2006 to August 31, 2006. These transactions were recorded at the exchange amount which is the amount agreed to by the related parties.

NOTE 5. INCOME TAXES

At May 31, 2007, the Company has accumulated non-capital losses totaling \$24,459, which are available to reduce taxable income in

future taxation years. These losses expire beginning 2027. The potential benefit of those losses, if any, has not been recorded in the financial statements as these losses are not likely to be realized.

<PAGE>

FORWARD-LOOKING STATEMENTS

This Form 10-QSB includes "forward-looking statements" within the meaning of the "safe-harbor" provisions of the Private Securities Litigation Reform Act of

1995. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

All statements other than historical facts included in this Form, including without limitation, statements under "Plan of Operation", regarding our financial position, business strategy, and plans and objectives of management for the future operations, are forward-looking statements.

Although we believe that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, market conditions, competition and the ability to successfully complete financing.

ITEM 2. PLAN OF OPERATION

The success of our business plan depends heavily on the strength of national and local new residential construction, home improvement and remodelling markets. Future downturns in new residential construction and home improvement activity may result in intense price competition among building materials suppliers, which may adversely affect our intended business.

The building products distribution industry is subject to cyclical market

pressures and most impacted by changes in the demand for new homes and in general economic conditions that impact the level of home improvements. Our business success depends on anticipating changes in consumer preferences and on successful new product and process development and product re-launches in response to such changes. Consumer preferences for our products shift due to a variety of factors that affect discretionary spending, including changes in demographic and social trends and downturn in general economic conditions.

The building materials distribution industry is extremely fragmented and

competitive. Our competition varies by product line, customer classification and geographic market. The principal competitive factors in our industry are pricing and availability of product, service and delivery capabilities, ability to assist with problem-solving, customer relationships, geographic coverage and breadth of product offerings. We compete with many local, regional and national building materials distributors and dealers.

Separate showers and baths have also become de rigueur in many households and increasingly a major component in the Personal Healthcare industry segment. Showers have morphed into vertical spas and the use of multiple shower heads is also growing in popularity, often with multiple sprays for each head.

We are positioning ourselves to take advantage of current market and industry trends for the Personal Healthcare segment; including an increased emphasis on a personal health care lifestyle and an increased emphasis on spending time at home or "cocooning". Consumers in this industry segment wish to remain active and seek personal health care products to maintain a high quality of life.

These "baby boomers" typically have more discretionary income, which are more likely spent on home remodelling projects (including projects to improve their pools and spas).

We intend to develop our retail network by initially focusing our marketing efforts on larger chain stores that sell various types of shower heads, such as Home Depot. These businesses sell more shower heads, have a greater budget for in-stock inventory and tend to purchase a more diverse assortment of shower heads. In 2007, we anticipate expanding our retail network to include small to

medium size retail businesses whose businesses focus is limited to the sale of bathroom accessories. Any relationship we arrange with retailers for the wholesale distribution of our shower heads will be non-exclusive. Accordingly, we will compete with other shower head vendors for positioning of our products in retail space.

Even if we are able to receive an order commitment, some larger chains will only pay cash on delivery and will not advance deposits against orders. Such a policy may place a financial burden on us and, as a result, we may not be able to deliver the order. Other retailers may only pay us 30 or 60 days after delivery, creating an additional financial burden.

We intend to retain one full-time sales person in the next six months, as well as an additional full-time sales person in the six months thereafter. These individuals will be independent contractors compensated solely in the form of commission based upon bamboo flooring sales they arrange. We expect to pay each sales person 12% to 15% of the net profit we realize from such sales.

We therefore expect to incur the following costs in the next 12 months in connection with our business operations:

Marketing costs:	\$20,000
General administrative costs:	\$10,000
Total:	\$30,000

In addition, we anticipate spending an additional \$10,000 on administrative fees. Total expenditures over the next 12 months are therefore expected to be \$40,000.

While we have sufficient funds on hand to commence business operations, our cash reserves are not sufficient to meet our obligations for the next twelve-

month period. As a result, we will need to seek additional funding in the near future. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock.

We may also seek to obtain short-term loans from our directors, although no such arrangement has been made. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any

future equity financing.

If we are unable to raise the required financing, we will be delayed in conducting our business plan.

Our ability to generate sufficient cash to support our operations will be based upon our sales staff's ability to generate bamboo flooring sales. We expect to accomplish this by securing a significant number of agreements with large and small retailers and by retaining suitable salespersons with experience in the retail sales sector.

RESULTS OF OPERATIONS FOR PERIOD ENDING MAY 31, 2007

We did not earn any revenues in the nine-month period ended May 31, 2007. During the same period, we incurred operating expenses of \$12,381 consisting of management fees of \$4,500, filing and transfer agent fees of \$5,750, professional fees of \$2,000, travel and promotion costs of \$24, and bank charges of \$107.

<PAGE>

At May 31, 2007, we had assets of \$9,041 consisting of \$8,945 in cash and \$96 in accounts receivable. We did not have any liabilities as of May 31, 2007.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors believe that there is substantial doubt that we will be able to continue as a

going concern.

ITEM 3 CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS

We evaluated the effectiveness of our disclosure controls and procedures as of May 31, 2007. This evaluation was conducted by Albert Au, our chief executive officer and Jeanne Mok, our principal accounting officer.

Disclosure controls are controls and other procedures that are designed to ensure that information that we are required to disclose in the reports we file pursuant to the Securities Exchange Act of 1934 is recorded,

processed, summarized and reported.

LIMITATIONS ON THE EFFECTIVE OF CONTROLS

Our management does not expect that our disclosure controls or our internal controls over financial reporting will prevent all error and fraud.

A control system, no matter how well conceived and operated, can provide only reasonable, but no absolute, assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. These limitations also include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of a control. A design of a control system is also based upon certain assumptions about potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

CONCLUSIONS

Based upon their evaluation of our controls, Albert Au, our chief executive officer and Jeanne Mok, our principal accounting officer, have concluded that, subject to the limitations noted above, the disclosure

controls are effective providing reasonable assurance that material information relating to us is made known to management on a timely basis during the period when our reports are being prepared. There were no changes in our internal controls that occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect our internal controls.

PART I

ITEM 1: DESCRIPTION OF BUSINESS

IN GENERAL

We have commenced operations as a distributor of Vitamin C shower heads and related accessories in both the mass wholesale and retail market throughout North America. However, there is no assurance that our current business model is commercially and economically viable. Further marketing of the product

in a broader distribution network will be required before a final evaluation as to the economic feasibility of the Company's business model is determined.

Economic feasibility refers to the ability of an enterprise to conduct its business operations in a profitable and cash-flow positive manner.

The Vitamin C shower head, a product designed by Everise Water Technology Ltd., a Hong Kong company, contains a small canister that releases a Vitamin C solution during operation that neutralizes chlorine and chloramines contained in the water. We are engaged in the marketing and distribution of Vitamin C shower heads and related accessories to the general public throughout North America. We are engaged in a marketing and sales distribution agreement with our supplier, Everise Water Technology Ltd. for the sales and distribution of Vitamin C shower heads and related accessories in North America.

We are also continuing to review other potential acquisitions of and sales and distribution arrangements with companies involved in the wholesale and manufacturing sectors. We are currently in the process of completing due diligence investigations of various opportunities in the leisure footwear and biotechnology sectors.

We will rely upon the stability of the North American retail sales market, and specifically continued growth in the personal healthcare sector, for the success of our business plan. Future downturns in consumer sentiment and spending and in home improvement activity may result in intense price competition among suppliers in the showerhead segment, which may adversely affect our intended business.

Our plan of operation is to enter into distribution agreements with mass merchandisers and home centers, providing for the sale of our Vitamin C shower head. We intend to develop our distribution network by initially focusing our marketing efforts on larger chain stores that sell various types of shower heads and vitamin supplements, such as Wal-Mart, Target, Home Depot, Lowe's

and Bed Bath & Beyond. These businesses sell more products in our targeted market segment, have a greater budget for in-stock inventory and tend to purchase a more diverse assortment of showerhead products and related accessories. In 2008, we anticipate expanding our retail network to include small to medium size retail businesses whose businesses focus is limited to the sale of bathroom accessories. Any relationship we arrange with retailers for the wholesale distribution of our flooring will be non-exclusive. Accordingly, we will compete with other showerhead product vendors for positioning of our products in retail space.

To date, we have primarily been involved in organizational activities and the initial marketing of Vitamin C shower heads and related accessories. We intend to retain one full-time sales person in the next six months, as well as an additional full-time sales person in the six months thereafter. These individuals will be independent contractors compensated solely in the form of commission based upon shower heads sales they arrange. We expect to pay each sales person 12% to 15% of the net profit we realize from such sales.

Even if we are able to receive order commitment from larger clients, some larger chains will only pay cash on delivery and will not advance deposits against orders. Such a policy may place a financial burden on us and, as a result, we may not be able to deliver the order. Other retailers may only pay us 30 or 60 days after delivery, creating an additional financial burden.

Although the shower head and related accessories market is mature in North America, our Vitamin C shower head product line might not gain acceptance in

the North American market.

SHOWERHEAD MARKET

Separate showers and baths have become common in many North American households. Showers have transformed into vertical spas, delivering hydro massage through a series of whirlpool jets arranged vertically in a shower-like enclosure, where water is propelled through the air, rather than through the

water as in a traditional whirlpool.

Shower components are often set on telescoping arms that are easily adjusted to accommodate users of different heights or to direct the jets to different parts of the body. Control valves have also become more sophisticated to meet the demands of multiple shower heads, including separate controls to adjust the thermostat and the volume.

Steam shower rooms are also gaining in popularity. They are usually self-enclosed units that function as a regular shower but also use a humidifying steam generator to produce a warm aura of relaxing water vapor.

We believe that we can take advantage of personal health care trends by providing a product to North Americans that will address their concerns regarding the quality and safety of the tap water that they use for showering.

AGREEMENT WITH OUR SUPPLIER

The Vitamin C shower head and related accessory products were developed and manufactured by Everise Water Technology Ltd. ("Everise"), a private Hong Kong based company. We are in the business of marketing and distributing items to the general public.

By a Marketing and Sales Distribution Agreement dated January 15, 2006, Everise has agreed to supply Vitamin C shower head and related accessories to us on a non-exclusive basis and to fulfill our written purchase orders for these

products in a timely manner. Upon placing an order, we are required to prepay Everise for 50% of the wholesale purchase price of the products that we order. Upon shipping, we are required to pay Everise the balance of the purchase order price. We are responsible for all shipping costs.

Everise's products consist of various shower heads made of hard white plastic or chrome. The shower heads also come with regular or massage components. Shower head unit wholesale prices range from \$42 to \$63 each. As well, Everise will supply us with Vitamin C cartridges to be inserted into each shower head.

Cartridges can be purchased as unscented or with one of three designer scents: sandalwood, lavender or geranium. The wholesale cost of an unscented cartridge is \$4.50. For a scented cartridge, the wholesale price is \$6.30.

Everise may change the price of any of its products that it supplies to us upon written notice. Either party may terminate the agreement upon 60 day's written notice.

Everise's Vitamin C shower head system is an ISO 9001 certified product. While the shower head is in operation, it releases a proprietary, granulated vitamin C based compound that neutralizes all chlorine or chloramine into the water stream. When the water is shut off, the Vitamin C cartridge stops releasing this compound.

SALES AND MARKETING STRATEGY

We intend to rely on sales representatives to market our shower heads and accessories. Initially, this marketing will be conducted by our directors: Albert Au and Jeanne Mok. Eventually, we will sell our products using a combination of sales representatives and distributors. This will provide a broad distribution network that allows us to efficiently distribute our products across a number of distribution channels to reach a greater number of consumers and distributors.

Our products will be primarily marketed to consumers through mass merchandisers and home centers such as Wal-Mart, Target, Home Depot, Lowe's and Bed Bath &

Beyond. These distributors and stores will be asked to sell our products to consumers. We will provide them with shower head inventory at wholesale prices. They will then sell them to consumers at retail prices. To date, we have not made arrangements with any retailers to sell the shower head products that we intend to distribute.

COMPLIANCE WITH GOVERNMENT REGULATION

We do not believe that government regulation will have a material impact on the way we conduct our business.

EMPLOYEES

We have no employees as of the date of this annual report other than our two directors.

RESEARCH AND DEVELOPMENT EXPENDITURES

We have not incurred any other research or development expenditures since our incorporation.

<PAGE>

SUBSIDIARIES

We do not have any subsidiaries.

PATENTS AND TRADEMARKS

We do not own, either legally or beneficially, any patents or trademarks.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this annual report before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS MAY FAIL.

Our business plan calls for ongoing expenses in connection with the marketing and sales of Vitamin C shower heads and accessories. We have not generated any revenue from operations to date.

We anticipate that additional funding will be needed for general administrative expenses and marketing costs. In order to expand our business operations, we anticipate that we will have to raise additional funding. If we are not able to raise the funds necessary to fund our business expansion objectives, we may have to delay the implementation of our business plan.

We do not currently have any arrangements for financing. Obtaining additional

funding will be subject to a number of factors, including general market conditions, investor acceptance of our business plan and initial results from our business operations. These factors may impact the timing, amount, terms or conditions of additional financing available to us. The most likely source of future funds presently available to us is through the sale of additional shares of common stock.

BECAUSE WE HAVE NOT YET COMMENCED BUSINESS OPERATIONS, WE FACE A HIGH RISK OF BUSINESS FAILURE.

We were incorporated on August 25, 2005 and to date have been involved primarily in organizational activities. We have not earned revenues as of the date of this prospectus. Accordingly, you cannot evaluate our business, and therefore our future prospects, due to a lack of operating history. To date, our business development activities have consisted solely of negotiating and executing a marketing and sales distribution agreement with Everise Water Technology Ltd., our supplier based in Hong Kong, and conducting initial marketing activities.

Potential investors should be aware of the difficulties normally encountered by development stage companies and the high rate of failure of such enterprises.

WE NEED TO CONTINUE AS A GOING CONCERN IF OUR BUSINESS IS TO SUCCEED.

Our business condition, as indicated in our independent accountant's audit report to our financial statements raises substantial doubt as to our

continuance as a going concern. To date, we have completed only part of our business plan and we can provide no assurance that we will be able to generate enough revenue from our business in order to achieve profitability. It is not possible at this time for us to predict with assurance the potential success of our business.

ANY ADDITIONAL FUNDING WE ARRANGE THROUGH THE SALE OF OUR COMMON STOCK WILL RESULT IN DILUTION TO EXISTING SHAREHOLDERS.

We must raise additional capital in order for our business plan to succeed. Our most likely source of additional capital will be through the sale of additional shares of common stock. Such stock issuances will cause stockholders' interests in our company to be diluted. Such dilution will negatively affect the value of an investor's shares.

OUR GROWTH MAY SUFFER IF AN ECONOMIC DOWNTURN IN OUR MAJOR MARKET INHIBITS PEOPLE FROM SPENDING THEIR DISPOSABLE INCOME ON HEALTH CARE PRODUCTS.

<PAGE>

Our growth depends significantly on continued economic growth in the health care sector in North America where we intend to distribute the Vitamin C shower heads. Because the shower heads are paid directly by the consumer out of disposable income and are not subject to reimbursement by third-party payers such as health insurance organizations, an economic downturn in the North American market could have an adverse effect on the sales and profitability of our products.

PRODUCT LIABILITY LAWSUITS COULD DIVERT OUR RESOURCES, RESULT IN SUBSTANTIAL LIABILITIES AND REDUCE THE COMMERCIAL POTENTIAL OF OUR PRODUCTS.

Our business exposes us to the risk of product liability claims that are inherent to the development, clinical testing and marketing of skin health products. These lawsuits may divert our management from pursuing our business strategy and may be costly to defend. In addition, if we are held liable in any of these lawsuits, we may incur substantial liabilities and may be forced to limit or forgo further commercialization of those products.

WE OPERATE IN A HIGHLY COMPETITIVE INDUSTRY. OUR FAILURE TO COMPETE EFFECTIVELY COULD ADVERSELY AFFECT OUR SALES AND GROWTH PROSPECTS.

The U.S. vitamin supplements and health product retail industry is a large and

highly fragmented industry. We compete primarily against other specialty distributors and retailers, supermarkets, drugstores, mass merchants, multi-level marketing organizations and mail order companies. This market is highly sensitive to the introduction of new products, which may rapidly capture a significant share of the market. Increased competition from companies that distribute through retail or wholesale channels could have a material adverse effect on our financial condition and results of operations.

Our competitors may have significantly greater financial, technical and marketing resources than we do. In addition, our competitors may be more effective and efficient in introducing new products. We may not be able to compete effectively, and any of the factors listed above may cause price reductions, reduced margins and losses of our market share.

WE SOURCE SHOWER HEAD PRODUCTS FROM HONG KONG AND ARE EXPOSED TO RISKS ASSOCIATED WITH DOING BUSINESS GLOBALLY.

We are subject to risks associated with changes in political, economic and social environments, local labor conditions, changes in laws, regulations and policies of foreign governments, as well as Canadian laws affecting activities of Canadian companies abroad, including tax laws and enforcement of contract and intellectual property rights. Many of these risks are beyond our control. Exchange rate fluctuations may increase the cost of sourced products and reduce our margins and profitability.

CHANGES IN REGULATORY STANDARDS FOR WATER USING APPLIANCES COULD NEGATIVELY IMPACT OUR BUSINESS SALES AND LIMIT OUR ABILITY TO DEVELOP AND MARKET OUR

PRODUCTS.

New regulatory initiatives could restrict our ability to develop new products.

There is no assurance that our future products will satisfy the rules and standards governing our industry, or that our existing rules and standards will not be changed in ways that negatively affect the sales of our products.

Furthermore, any future rule changes could further impair our ability to

differentiate our products from our competitors resulting in reduced sales and profitability.

BECAUSE WE RELY UPON ONE SUPPLIER FOR THE VITAMIN SHOWER HEAD PRODUCTS WE INTEND TO DISTRIBUTE, OUR BUSINESS WILL FAIL IF OUR SUPPLIER TERMINATES ITS RELATIONSHIP WITH US.

As a result of being totally dependent on a single supplier, Everise Water Technology Ltd., that is located in Hong Kong, we may be subject to certain risks, including changes in regulatory requirements, tariffs and other barriers, increased pressure, timing and availability of export licenses, foreign currency exchange fluctuations, the burden of complying with a variety of foreign laws and treaties, and uncertainties relative to regional, political and economic circumstances. Our agreement with Everise Water Technology Ltd. does not prevent it from supplying its shower head products to our competitors or directly to consumers. If this company modified or terminated its association

with us for any other reason, we would suffer an interruption in our business unless and until we found a substitute for that supplier. If we were unable to find a substitute for that supplier, our business would fail. Everise Water Technology Ltd. may cancel our marketing and sales distribution agreement upon 60 day's notice, without cause.

PURCHASER IS PURCHASING PENNY STOCK WHICH LIMITS THE ABILITY TO SELL THE STOCK.

The shares offered by this prospectus constitute penny stock under the Exchange

Act. The shares will remain penny stock for the foreseeable future. "Penny

stock" rules impose additional sales practice requirements on broker-dealers

who sell such securities to persons other than established customers and

accredited investors, that is, generally those with assets in excess of

\$1,000,000 or annual income exceeding \$200,000 or \$300,000 together with a

spouse. For transactions covered by these rules, the broker-dealer must

make a special suitability determination for the purchase of such securities

and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a disclosure schedule prescribed by the Commission relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative and current quotations for the securities. Finally, monthly statements must be sent disclosing recent price information on the limited market in penny stocks. Consequently, the "penny stock" rules may restrict the ability of broker-dealers to sell our shares of common stock. The market price of our shares would likely suffer as a result.

FORWARD-LOOKING STATEMENTS

This annual report contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are most likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in the "Risk Factors" section and elsewhere in this annual report.

<PAGE>

ITEM 2: DESCRIPTION OF PROPERTY

We do not own ownership or leasehold interest in any property. Our president, Mr. Bruce Biles, provides us with office space and related office services free of

charge.

ITEM 3: LEGAL PROCEEDINGS

There are no legal proceedings pending or threatened against us.

ITEM 4: SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted during the fourth quarter of our fiscal year to a vote of security holders, through the solicitation of proxies or otherwise.

PART II

ITEM 5: MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

MARKET INFORMATION

Our shares of common stock were quoted on the OTC Bulletin Board on July 11, 2007. However, during the fiscal year ended August 31, 2007, no trades of our common stock occurred through the facilities of the OTC Bulletin Board.

The quotations on the OTC Bulletin Board reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions.

We had 32 shareholders of record as at the date of this annual report.

DIVIDENDS

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. we would not be able to pay our debts as they become due in the usual course of business; or
2. our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

We have not declared any dividends, and we do not plan to declare any dividends in the foreseeable future.

ITEM 6: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We will rely upon the stability of the North American retail sales market for the success of our business plan. Because our products are paid directly by

the consumer out of disposable income, an economic downturn in the North American market could have an adverse effect on the sales and profitability of our products.

Our plan of operation for the twelve months following the date of this prospectus is to enter into agreements with shower head and health product wholesale distributors and retail stores, providing for the sale of shower heads.

We intend to develop our retail network by initially focusing our marketing efforts on larger chain stores that sell various types of shower heads and vitamin supplements. These businesses have a greater budget for in-stock inventory and tend to purchase a more diverse assortment of vitamin supplements and shower products. By mid-2008, we anticipate expanding our retail network to include small to medium size retail businesses whose businesses focus is limited to the sale of bathroom accessories. Any relationship we arrange with retailers for the wholesale distribution of our shower heads will be non-exclusive. Accordingly, we will compete with other vitamin supplement and shower head vendors for positioning our products in retail space.

Even if we are able to receive an order commitment, some larger chains will only pay cash on delivery and will not advance deposits against orders. Such a policy may place a financial burden on us and, as a result, we may not be able to deliver the order. Other retailers may only pay us 30 or 60 days after delivery, creating an additional financial burden.

We intend to retain one full-time sales person in the next six months, as well as an additional full-time sales person in the six months thereafter. These individuals will be independent contractors compensated solely in the form of commission based upon shower head sales they arrange. We expect to pay each sales person 12% to 15% of the net profit we realize from such sales.

We therefore expect to incur the following costs in the next 12 months in connection with our business operations:

Marketing costs:	\$20,000
General administrative costs:	\$10,000
Total:	\$30,000

In addition, we anticipate spending an additional \$10,000 on administrative fees. Total expenditures over the next 12 months are therefore expected to be \$40,000.

We do not have sufficient funds on hand to commence intended business operations and our cash reserves are not sufficient to meet our obligations for the next twelve-month period. As a result, we will need to seek additional funding in the near future. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock.

We may also seek to obtain short-term loans from our directors. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future equity financing.

If we are unable to raise the required financing, we will be delayed in conducting our business plan.

Our ability to generate sufficient cash to support our operations will be based upon our sales staff's ability to generate shower head sales. We expect to accomplish this by securing a significant number of agreements with large and small retailers and by retaining suitable salespersons with experience in the retail sales sector.

RESULTS OF OPERATIONS FOR THE FISCAL YEAR ENDED AUGUST 31, 2007

We did not earn any revenues during the fiscal year ended August 31, 2007. We have not fully implemented our sales and marketing strategy for our showerhead products and can therefore provide no assurance that our business model and

plan is economically feasible.

We incurred operating expenses in the amount of \$12,078 for the year ended February 28, 2007. These operating expenses were comprised of bank charges and interest fees of \$126, filing and transfer agent fees of \$11,598, management fees of \$6,000, professional fees of \$10,500 and travel and promotional costs of \$120.

Our net loss in fiscal 2007 (\$28,344) was higher than in fiscal 2006 (\$12,078) primarily due to the incurrence of filing and transfer agent fees of \$11,598 (2006 - \$0), although there was an increase in professional fees (\$4,348 in 2006 as compared to \$10,500 in 2007).

We have not attained profitable operations and are dependent upon obtaining financing to complete our proposed business plan. For these reasons, there is substantial doubt that we will be able to continue as a going concern.

ITEM 7: FINANCIAL STATEMENTS

K-9 CONCEPTS, INC.

(A Development Stage Company)

FINANCIAL STATEMENTS

AUGUST 31, 2007

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

BALANCE SHEETS

STATEMENT OF OPERATIONS

STATEMENT OF CASH FLOWS

STATEMENT OF STOCKHOLDERS' DEFICIT

NOTES TO THE FINANCIAL STATEMENTS

<PAGE>

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors

of K-9 Concepts, Inc.

(A Development Stage Company)

We have audited the accompanying balance sheets of K-9 Concepts Inc. (a development stage company) as of August 31, 2007 and 2006 and the statements of operations, stockholders' deficit and cash flows for the year ended August 31, 2007, the period from August 25, 2005 (inception) through August 31, 2006 and for the period from August 25, 2005 (inception) through August 31, 2007.

These financial statements are the responsibility of the Company's

management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the

financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, these financial statements present fairly, in all material respects, the financial position of K-9 Concepts, Inc. as of August 31, 2007 and 2006 and the results of its operations and its cash flows for the year ended August 31, 2007, the period from August 25, 2005 (inception) through August 31, 2006 and for the period from August 25, 2005 (inception) through August 31, 2007 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is in the development stage and has losses from operations since inception. These factors raise substantial doubt about

the Company's ability to continue as a going concern. Management's plans in this regard are described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

K-9 CONCEPTS, INC.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2007

(EXPRESSED IN US DOLLARS)

NOTE 1. NATURE AND CONTINUANCE OF OPERATIONS

K-9 Concepts, Inc. ("the Company") was incorporated under the laws of the State of Nevada on August 25, 2005. The Company is in the business of marketing and distribution items to the general public. The Company is considered to be a development stage company and has not generated any significant revenues from operations since its inception.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As of August 31, 2007, the Company has a working capital deficiency \$5,422, has not yet achieved profitable operations and has accumulated a deficit of \$40,422 since inception. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with any certainty at this time and raise substantial doubt that the Company will be able to continue as a going concern.

These financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern. Management believes that the Company has adequate funds to carry on operations for the upcoming fiscal year. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and or private placement of common stock.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

These financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP") and are presented in United States dollars.

USE OF ESTIMATES

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

FOREIGN CURRENCY TRANSLATION

The Company's functional currency is the Canadian dollar and reporting currency is the United States dollar. The Company has adopted SFAS No. 52 "Foreign Currency Translation" as of its inception. Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the balance sheet date. Non-monetary assets and liabilities denominated in foreign currencies are translated at rates of exchange in effect at the date of the transaction. Average monthly rates are used to translate revenues and expenses. Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in the determination of income. The Company has not, to the date of these financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

<PAGE>

K-9 CONCEPTS, INC.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2007

(EXPRESSED IN US DOLLARS)

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FINANCIAL INSTRUMENTS

The carrying value of cash, accounts payable and accrued liabilities

approximates their fair value because of the short-term maturity of these instruments. The Company's operations are in Canada and virtually all of its assets and liabilities are giving rise to significant exposure to market risks from changes in foreign currency rates. The financial risk is the risk to the Company's operations that arise from fluctuations in foreign exchange rates and the degree of volatility of these rates. Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk.

INCOME TAXES

The Company follows the liability method of accounting for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the estimated tax consequences attributable to differences between the financial statement carrying values and their respective income tax basis (temporary differences). The effect on deferred income tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. At August 31, 2007 a full deferred tax asset valuation allowance has been provided and no deferred tax asset benefit has been recorded.

LOSS PER SHARE

In accordance with SFAS No. 128 "Earnings Per Share", the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding.

Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At August 31, 2007, the Company had no dilutive stock equivalents, accordingly diluted loss per share is equal to basic

loss per share.

RECENT ACCOUNTING PRONOUNCEMENT

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities". This Statement permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently assessing the impact of SFAS No. 159 on its financial position and results of operations.

NOTE 3 COMMON STOCK

Authorized

75,000,000 common shares of stock with a par value of one tenth of one cent (\$0.001) per share.

Issued

During the period from August 25, 2005 (inception) to August 31, 2006, the Company issued 6,400,000 common shares for total cash proceeds of \$26,000.

The Company has not adopted a stock option plan and has not granted any stock options. Accordingly, no stock-based compensation has been recorded to date.

<PAGE>

K-9 CONCEPTS, INC.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2007

NOTE 4 DONATED CAPITAL

The Company recognized donated services by directors of the Company for management fees in fiscal 2007, valued at \$500 per month, totaling \$6,000 for the period from September 1, 2006 to August 31, 2007 and \$3,000 for the period from March 1, 2006 to August 31, 2006. These transactions were recorded at the exchange amount which is the amount agreed to by the related parties.

NOTE 5 INCOME TAXES

The following table summarizes the significant components of the Company's deferred tax assets:

	2007	2006
--	------	------

Deferred Tax Assets

Non-capital losses carryforward	\$ 13,750	\$ 4,106
---------------------------------	-----------	----------

Valuation allowance for deferred tax asset	(13,750)	(4,106)
--	----------	---------

Net deferred tax assets	\$ -	\$ -
-------------------------	------	------

At August 31, 2007, the Company has accumulated non-capital losses

totaling approximately \$40,000, which are available to reduce taxable income in future taxation years. These losses expire beginning 2026.

The potential benefit of those losses, if any, has not been recorded in the financial statements as these losses are not likely to be realized.

ITEM 8: CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A: CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS

We evaluated the effectiveness of our disclosure controls and procedures as of the end of the 2007 fiscal year. This evaluation was conducted with the participation of our chief executive officer and our principal accounting officer.

Disclosure controls are controls and other procedures that are designed to ensure that information that we are required to disclose in the reports we file pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported.

LIMITATIONS ON THE EFFECTIVE OF CONTROLS

Our management does not expect that our disclosure controls or our internal controls over financial reporting will prevent all error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, but no absolute, assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. These limitations also include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally,

controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of a control. A design of a control system is also based upon certain assumptions about potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

CONCLUSIONS

Based upon their evaluation of our controls, the chief executive officer and principal accounting officer have concluded that, subject to the limitations noted above, the disclosure controls are effective providing reasonable assurance that material information relating to us is made known to management on a timely basis during the period when our reports are being prepared. There were no changes in our internal controls that occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect our internal controls.

PART III

ITEM 9: DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

Name	Age	Position with Registrant	Served as a Director or Officer Since
------	-----	--------------------------	---------------------------------------

Albert Au 42 President, C.E.O, August 25, 2005

promoter and director

Jeanne Mok 36 Secretary, Treasurer, August 25, 2005

principal accounting

officer, principal

financial officer and

director

The following describes the business experience of the Company's directors and executive officers, including other directorships held in reporting companies:

MR. ALBERT AU has acted as our president, chief executive officer, secretary, treasurer and as a director since our incorporation on August 25, 2005. For the past 20 years, Mr. Au has been involved in marketing and sales as well as in conducting Asian trade and investments. He has been involved in the import and export of toys, as well as household goods, between China and various key South American markets such as Brazil, Chile and Argentina. He has also acted as a master country distributor for a large motorcycle/scooter manufacturer in China exporting to Argentina and Vietnam. In addition, Mr. Au was also previously the

master distributor for Tsingtao Brewery for Vietnam. He is currently a Vice-President for the Tiancheng Group, a large investment holding company and merchant bank under the CITIC Group. In that capacity, he is involved in the oversight of investments undertaken by Tiancheng in the Canadian market.

Mr. Au devotes 20% of his business time to our affairs. He is responsible for managing the implementation of our marketing strategy for the shower head products.

MS. JEANNE MOK has acted as our director since August 25, 2005. After graduating from England's Polam Hall School in 1990, where she majored in the fields of education and musical studies, Ms. Mok was employed as a teacher from 1991 to 1995 in Hong Kong's York English Kindergarten. Since 1995, she has owned and operated Famous Pet City, a Hong Kong-based distributor of pet products.

Ms. Mok devotes 10% of his business time to our affairs. She is responsible for overseeing our day to day affairs, including all administrative aspects. Along with Mr. Au, she is responsible for implementing our marketing and distribution strategies.

All directors are elected annually by our shareholders and hold office until the next Annual General Meeting. Each officer holds office at the pleasure of the board of directors. No director or officer has any family relationship with any other director or officer.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who beneficially own more than 10% of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Officers, directors and greater than 10% shareholders are required by SEC regulation to furnish us with copies of all Section 16(a) forms they file. Based on our review of the copies of such forms we received, we believe that during the fiscal year ended February 28, 2007

all such filing requirements applicable to our officers and directors
 were complied with exception that reports were filed late by the following
 persons:

Name and principal position	Number Transactions Known Failures			Required Form
	Of late	Not Timely	To File a	
Reports	Reported			

Albert Au	0	0	0	
-----------	---	---	---	--

(President and director)

Jeanne Mok	0	0	0

Of shares two people

The percent of class is based on 8,230,000 shares of common stock issued and outstanding as of the date of this annual report.

ITEM 12: CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

None of our directors or officers, nor any proposed nominee for election as a director, nor any person who beneficially owns, directly or indirectly, shares carrying more than 10% of the voting rights attached to all of our outstanding shares, nor any promoter, nor any relative or spouse of any of the foregoing persons has any material interest, direct or indirect, in any transaction since our incorporation or in any presently proposed transaction which, in either case, has or will materially affect us.

Our management is involved in other business activities and may, in the future become involved in other business opportunities. If a specific business opportunity becomes available, such persons may face a conflict in selecting

between our business and their other business interests. In the event that a conflict of interest arises at a meeting of our directors, a director who has such a conflict will disclose his interest in a proposed transaction and will abstain from voting for or against the approval of such transaction.

ITEM 13: EXHIBITS AND REPORTS

Exhibits

dated January 3, 2007

Reports on Form 8-K

We did not file any reports on Form 8-K during the last quarter of fiscal 2007.

ITEM 14: PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our principal accountants, Dale Matheson Carr-Hilton LaBonte, Chartered Accountants, rendered invoices to us during the fiscal periods indicated for the following fees and services:

	Fiscal year ended	Fiscal year ended
	August 31, 2006	August 31, 2007
Audit fees	\$5,000	\$5,000
Audit-related fees	Nil	Nil
Tax fees	Nil	Nil
All other fees	Nil	Nil

Audit fees consist of fees related to professional services rendered in

connection with the audit of our annual financial statements, the review of the financial statements included in each of our quarterly reports on Form 10-QSB.

Our policy is to pre-approve all audit and permissible non-audit services performed by the independent accountants. These services may include audit services, audit-related services, tax services and other services. Under our audit committee's policy, pre-approval is generally provided for particular services or categories of services, including planned services, project based services and routine consultations. In addition, we may also pre-approve particular services on a case-by-case basis. We approved all services that our independent accountants provided to us in the past two fiscal years.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

NOVEMBER 30, 2007

(EXPRESSED IN US DOLLARS)

(UNAUDITED)

NOTE 1.

BASIS OF PRESENTATION

Unaudited interim Financial Statements

The accompanying unaudited interim financial statements have been

prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions pertaining to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended August 31, 2007, included in the Company's Form 10-KSB filed with the Securities and Exchange Commission. These unaudited interim financial statements should be read in conjunction with the audited financial statements included in the Form 10-KSB. In the opinion of Management, all adjustments, considered necessary for fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the three months ended November 30, 2007 are not necessarily indicative of the results that may be expected for the year ending August 31, 2008.

NOTE 2. NOTES RECEIVABLE

On October 30, 2007, the Company loaned \$200,000 (Canadian \$200,000) to the Aussie Soles Group with an interest rate of 12% per annum, calculated and payable semi-annually. The note is unsecured and is repayable on demand. The note is repayable in Canadian funds.

On November 21, 2007, the Company loaned \$200,000 to the Aussie Soles Group with an interest rate of 12% per annum, calculated and payable

semi-annually. The note is unsecured and is repayable on demand.

At November 30, 2007, the Company has accrued \$2,526 in interest on these notes.

On October 31, 2007, the Company and the Aussie Soles Group executed a letter of intent, which expires January 31, 2008, whereby both parties agreed to negotiate exclusively regarding the proposed acquisition of the Aussie Soles Group by the Company. The Aussie Soles Group is involved in the design, production and global sales of Aussie Soles™ foot wear.

NOTE 3.RELATED PARTY TRANSACTIONS

During the period ended November 30, 2007 a director loaned the Company \$200,000 (Canadian \$200,000). The loan is unsecured, bears no interest and is repayable on demand. The loan is repayable in Canadian funds.

NOTE 4.COMMON STOCK

During the period ended November 30, 2007, the Company issued 750,000 units at \$0.40 per unit for cash proceeds of \$300,000. Each unit consists of one share of the Company's common stock and one stock purchase warrant. Each warrant is exercisable into one share of common stock at an exercise price of \$0.60 per share, for a period of two years.

On November 19, 2007, the Company received shareholder approval to amend

its Articles of Incorporation to effect a three (3) for one (1) forward

stock split of its authorized, issued and outstanding common stock so

that its issued and outstanding capital increases from 6,400,000 shares to 19,200,000 shares and increase the post-split authorized capital from 75,000,000 shares to 100,000,000 shares, \$0.001 par value per share. These amendments became effective on December 21, 2007, the date of filing with the Secretary of State of Nevada.

K-9 CONCEPTS, INC.

A DEVELOPMENT STAGE COMPANY

NOTES TO FINANCIAL STATEMENTS

NOVEMBER 30, 2007

(UNAUDITED)

NOTE 5.SUBSEQUENT EVENTS

On December 12, 2007, the Company executed a Private Placement Subscription Agreement where the Company issued 400,000 Units at \$0.40 per unit for total proceeds of \$160,000. Each unit consists of one share of the Company's common stock and one warrant. Each warrant is exercisable into one common stock at an exercise price of \$0.60 per warrant, for a period of two years.

On December 21, 2007 the Company filed an amended Articles of Incorporation with the Secretary of State of Nevada to effect a three (3) for one (1) forward stock split of its authorized, issued and outstanding common stock and to increase its authorized share capital to 100,000,000 common shares with a par value of \$0.001 (See note 4).

FORWARD-LOOKING STATEMENTS

This Form 10-QSB includes "forward-looking statements" within the meaning of the "safe-harbor" provisions of the Private Securities Litigation Reform Act of

1995. Such statements are based on management's current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements.

All statements other than historical facts included in this Form, including without limitation, statements under "Plan of Operation", regarding our financial position, business strategy, and plans and objectives of management for the future operations, are forward-looking statements.

Although we believe that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, market conditions, competition and the ability to successfully complete financing.

ITEM 2. PLAN OF OPERATION

The success of our business plan depends heavily on the strength of national and local new residential construction, home improvement and remodelling markets. Future downturns in new residential construction and home improvement activity may result in intense price competition among building materials suppliers, which may adversely affect our intended business.

The building products distribution industry is subject to cyclical market

pressures and most impacted by changes in the demand for new homes and in general economic conditions that impact the level of home improvements. Our business success depends on anticipating changes in consumer preferences and on successful new product and process development and product re-launches in response to such changes. Consumer preferences for our products shift due to a variety of factors that affect discretionary spending, including changes in demographic and social trends and downturn in general economic conditions.

The building products distribution industry is extremely fragmented and

competitive. Our competition varies by product line, customer classification and geographic market. The principal competitive factors in our industry are pricing and availability of product, service and delivery capabilities, ability to assist with problem-solving, customer relationships, geographic coverage and breadth of product offerings. We compete with many local, regional and national building materials distributors and dealers.

Separate showers and baths have also become de rigueur in many households and increasingly a major component in the Personal Healthcare industry segment. Showers have morphed into vertical spas and the use of multiple shower heads is also growing in popularity, often with multiple sprays for each head.

We are positioning ourselves to take advantage of current market and industry trends for the Personal Healthcare segment; including an increased emphasis on a personal health care lifestyle and an increased emphasis on spending time at home or "cocooning". Consumers in this industry segment wish to remain active and seek personal health care products to maintain a high quality of life.

These "baby boomers" typically have more discretionary income, which are more likely spent on home remodelling projects (including projects to improve their pools and spas).

We intend to develop our retail network by initially focusing our marketing efforts on larger chain stores that sell various types of shower heads, such as Home Depot. These businesses sell more shower heads, have a greater budget for in-stock inventory and tend to purchase a more diverse assortment of shower heads. In 2008, we anticipate expanding our retail network to include small to

medium size retail businesses whose businesses focus is limited to the sale of bathroom accessories. Any relationship we arrange with retailers for the wholesale distribution of our shower heads will be non-exclusive. Accordingly, we will compete with other shower head vendors for positioning of our products in retail space.

Even if we are able to receive an order commitment, some larger chains will only pay cash on delivery and will not advance deposits against orders. Such a policy may place a financial burden on us and, as a result, we may not be able to deliver the order. Other retailers may only pay us 30 or 60 days after delivery, creating an additional financial burden.

We are also continuing to review other potential acquisitions of and sales and distribution arrangements with companies involved in the wholesale and manufacturing sectors. During the quarter, we entered into a standstill letter agreement with Aussie Soles, a company involved in the leisure footwear industry with a view to acquire the licensing rights and assets of such company. We are currently in the process of completing due diligence investigations of Aussie Soles and also investigating various opportunities in the biotechnology and alternative energy sectors.

We intend to retain one full-time sales person in the next six months, as well as an additional full-time sales person in the six months thereafter. These individuals will be independent contractors compensated solely in the form of commission based upon bamboo flooring sales they arrange. We expect to pay each sales person 12% to 15% of the net profit we realize from such sales.

We therefore expect to incur the following costs in the next 12 months in connection with our business operations:

Marketing costs: \$20,000

General administrative costs: \$10,000

Total: \$30,000

In addition, we anticipate spending an additional \$10,000 on administrative fees. Total expenditures over the next 12 months are therefore expected to be \$40,000.

During the quarter, the Company announced that we are proceeding with the sale of up to \$600,000 in the private placement of its securities at \$0.40 per Unit.

Each Unit to consist of one share of the Company's common stock and one common share purchase warrant (a "Warrant"). Each Warrant is exercisable into one

share of Common Stock at an exercise price of US\$0.60 per Warrant Share, for a period of two years. The private placement is intended to finance potential acquisition and working capital requirements, including administrative expenses and costs incurred in connection with our review of potential projects.

Although upon the completion of the private placement financing, we will have sufficient funds for any immediate working capital needs, additional funding may still be required in the form of equity financing from the sale of our common stock. However, we do not have any arrangements in place for any future equity financing.

If we are unable to raise the required financing, we will be delayed in conducting our business plan.

Our ability to generate sufficient cash to support our operations will be based upon our sales staff's ability to generate sales. We expect to accomplish this by securing a significant number of agreements with large and small retailers and by retaining suitable salespersons with experience in the retail sales sector.

RESULTS OF OPERATIONS FOR PERIOD ENDING NOVEMBER 30, 2007

We did not earn any revenues in the three-month period ended NOVEMBER 30, 2007. During the same period, we incurred operating expenses of \$12,641 consisting of filing and transfer agent fees of \$6,150, professional fees of \$7,500, management fees of \$1,500, interest received of (\$2,526) and bank charges of \$17.

At NOVEMBER 30, 2007, we had assets of \$498,087 consisting of \$95,561 in cash and \$400,000 in notes receivable. We had current accrued liabilities of \$14,650 as of NOVEMBER 30, 2007.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors believe that there is substantial doubt that we will be able to continue as a going concern.

ITEM 3 CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS

We evaluated the effectiveness of our disclosure controls and procedures as of NOVEMBER 30, 2007. This evaluation was conducted by Albert Au, our chief executive officer and Jeanne Mok, our principal accounting officer.

Disclosure controls are controls and other procedures that are designed to ensure that information that we are required to disclose in the reports we file pursuant to the Securities Exchange Act of 1934 is recorded, processed, summarized and reported.

LIMITATIONS ON THE EFFECTIVE OF CONTROLS

Our management does not expect that our disclosure controls or our internal

controls over financial reporting will prevent all error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, but no absolute, assurance that the objectives of a control system are met. Further, any control system reflects limitations on resources, and the benefits of a control system must be considered relative to its costs. These limitations also include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of a control. A design of a control system is also based upon certain assumptions about potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

CONCLUSIONS

Based upon their evaluation of our controls, Albert Au, our chief executive

officer and Jeanne Mok, our principal accounting officer, have concluded that, subject to the limitations noted above, the disclosure controls are effective providing reasonable assurance that material information relating to us is made known to management on a timely basis during the period when our reports are being prepared. There were no changes in our internal controls that occurred during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect our internal controls.

PART II- OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any pending legal proceeding. Management is not aware of any threatened litigation, claims or assessments.

ITEM 2. CHANGES IN SECURITIES

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
