To the Participants and Employee Benefit Plans Committee of the

Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan (the Plan ) at December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) at December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Notes to Financial Statements**

**December 31, 2004 and 2003**

**1.** Description of Plan

The following description of the Watson Pharmaceuticals, Inc. Employees 401(k) Profit-Sharing Plan (the Plan ) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

**General**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

The Plan was adopted by Watson Pharmaceuticals, Inc., and certain subsidiaries (collectively, the Company ) on January 1, 1988. The Plan is a defined contribution plan covering substantially all employees of the Company who have met certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ( ERISA ) and is administered by the Employee Benefit Plans Committee of Watson Pharmaceuticals, Inc.

The Plan is intended to be a qualified defined contribution plan, which satisfies the requirements of Section 401(k) of the Internal Revenue Code, as amended (the IRC ). Under the IRC, participants are not liable for federal income taxes on employee contributions, Company contributions or Plan earnings thereon until such time as they are partially or completely withdrawn from the Plan.

From time to time the Company conducts self-audits of the Plan to ensure contributions under the Plan are made in accordance with its terms. In March 2004, the Company contributed an additional \$765,000 for the year ended December 31, 2003 and in December 2004, the Company contributed an additional \$568,000 for participants active in the Plan during the years ended December 31, 2002 and 2001.

During the third quarter of 2004, the Company implemented a workforce reduction in conjunction with the realignment of the Company s business strategy. The Company has determined that the workforce reduction does not represent a partial termination, as defined by the IRC.

### **Vesting**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

Participant contributions and related earnings are fully vested immediately. Participants vest in Company matching contributions at a rate of 33 1/3% each year until fully vested after three years. Benefits attributable to each participant will become fully vested in all accounts in the event of death, disability, normal retirement at age 65, or the complete or partial termination of the Plan.

### **Contributions**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

Participants may contribute from 1% to 20% of their total eligible compensation to the Plan, subject to a maximum dollar limitation as defined by the IRC. Participants may also make rollover contributions from other qualified plans.

The Company contributes 50% of the first 8% of total eligible compensation that a participant contributes to the Plan. In addition to these matching contributions, the Company may elect to make discretionary profit sharing contributions. The Company did not make any profit sharing contributions during the years ended December 31, 2004 and 2003.

**Participant Accounts**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

Each participant's account is credited with (a) participant contributions, (b) Company matching contributions, (c) discretionary profit-sharing contributions, if any and (d) an allocation of investment earnings, losses, or expenses thereon. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their accounts. Changes to these investment elections are allowed at any time.

### 2. Summary of Significant Accounting Policies

**Basis of Accounting**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

The financial statements of the Plan have been prepared on an accrual basis and in conformity with accounting principles generally accepted in the United States of America.

### **Use of Estimates**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statement of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

### **Risks and Uncertainties**

The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**Investment Valuation and Income Recognition**

## Edgar Filing: WATSON PHARMACEUTICALS INC - Form 11-K

The Plan's investments are stated at fair value. Investments in pooled separate accounts are stated at fair value, based on the net asset value of the composite portfolio. Net asset value is the fair market value of the securities on the last business day of the Plan year. Shares of registered investment company mutual funds and common stock are valued at quoted market prices. Participant loans are valued at the unpaid principal amount of the loan, which approximates fair value. The guaranteed interest accounts are recorded at fair market value. The guaranteed interest accounts provide a guaranteed interest rate for various specified periods of time as determined, or allowed, by the Plan. The rate credited is the rate in effect on the day when each deposit is directed to the account. The guaranteed interest accounts promise contract value for a benefit event, however, there is a possible market value adjustment when funds are withdrawn prior to their maturity, and thus, are not considered benefit responsive.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments, which consist of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

**Payment of Benefits**

Payments to participants are recorded when paid.

December 31, 2004. Expenses for administering the Watson Stock Fund are paid directly by the Company.

The Plan held Company common stock with fair values of \$6,157,000 and \$7,262,000 at December 31, 2004 and 2003, respectively. **5.** Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated June 24, 2002, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter, and the Company believes the Plan continues to be operated in compliance with the applicable requirements of the IRC.
