EXPLANATORY NOTE

PRIMEDIA Inc. (the Company) is filing this Quarterly Report on Form 10-Q/A for the period ended June 30, 2007 (Amendment or Second Quarter 2007 Form 10-Q/A Report) to amend its Quarterly Report on Form 10-Q for the period ended June 30, 2007 (Original Filing) that was filed with the Securities and Exchange Commission (SEC) on August 7, 2007.

This Second Quarter 2007 Form 10-Q/A Report includes a restated condensed consolidated balance sheet, statement of consolidated operations and statement of consolidated cash flows as of June 30, 2007 and for the three and six months ended June 30, 2007.

Subsequent to the issuance of the Company s condensed consolidated financial statements as of and for the three and six months ended June 30, 2007, the Company determined that for the three and six months ended June 30, 2007, it had incorrectly recorded, due to a non-cash clerical error, an income tax benefit of $1,422 in continuing operations and an income tax benefit of $491 in discontinued operations. As a result, the condensed consolidated balance sheet and the condensed statements of consolidated operations and cash flows have been restated from amounts previously reported to correct this error. See Note 15 for a reconciliation of previously reported and restated amounts for the periods shown.

For the convenience of the reader, this Second Quarter 2007 Form 10-Q/A Report sets forth the Original Filing in its entirety. This Second Quarter 2007 Form 10-Q/A Report includes currently-dated certifications from our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, as required by Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. Additionally, the Company has updated the subsequent events within Note 16, and the Management s Discussion and Analysis of Financial Condition and Results of Operations, which also give effect to the restatement; no other information in the Original Filing has been updated.

1. Summary of Significant Accounting Policies

Basis of Presentation

PRIMEDIA Inc., together with its subsidiaries, is herein referred to as either PRIMEDIA or the Company unless the context implies otherwise. In the opinion of the Company s management, the condensed consolidated financial statements present fairly the consolidated financial position of the Company as of June 30, 2007 and December 31, 2006, the results of consolidated operations of the Company for the three and six months ended June 30, 2007 and 2006 and consolidated cash flows of the Company for the six months ended June 30, 2007 and 2006. The adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The condensed consolidated balance sheet as of December 31, 2006 has been derived from the Company s audited consolidated balance sheet included in the Company s annual report on Form 10-K for the year ended December 31, 2006. All intercompany accounts and transactions have been eliminated in consolidation. These statements should be read in conjunction with the Company s annual consolidated financial statements and related notes for the year ended December 31, 2006, which are included in the Company s Annual Report on Form 10-K for the year ended December 31, 2006. The operating results for the three and six months ended June 30, 2007 are not necessarily indicative of the results that may be expected for a full year. Certain amounts in the prior periods condensed consolidated statement of operations and related notes have been reclassified due to discontinued operations to conform to the presentation for the three and six months ended June 30, 2007.

On August 1, 2007, the Company effected a one-for-six reverse stock split. The number of outstanding common shares have become one-sixth of their prior amount, and the par value remains at $0.01 per share. All references to share data in this Quarterly Report on Form 10-Q/A have been restated to reflect the reverse stock split. See Note 16 for further details.

Recent Accounting Pronouncements Adopted

SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements

During the fourth quarter of 2006, the Company adopted Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. During the fourth quarter of 2006, the Company concluded that deferred income tax benefits of approximately $7,500 should have been recorded during the year ended December 31, 2005 when it became apparent that certain taxable temporary differences would reverse as a result of classification of businesses as discontinued operations. Management believes that this error totaling approximately $7,500 was not material to the 2006 financial statements. Upon adoption of SAB No. 108 the Company recorded a cumulative effect adjustment as of January 1, 2006 to accumulated deficit of approximately $7,500, which was reflected in the Company s 2006 Annual Report on Form 10-K. Of this amount, approximately $5,500 and $2,000 had been recorded to income from discontinued operations in the first quarter and third quarter of 2006, respectively. The consolidated statement of operations for the six months ended June 30, 2006 has been restated to adjust for the impact of the SAB No. 108 adjustment.

FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes , effective for fiscal years beginning after December 15, 2006. This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial

statements in accordance with Statement of Financial Accounting Standard (SFAS) No. 109, Accounting for Income Taxes . This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that, in order to be recognized, tax benefits must be more likely than not to be sustained upon examination by taxing authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. Differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption were accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. See Note 9 for the adjustments that resulted from the Company s adoption of FIN 48.

2. Divestitures

The Company has classified the results of certain divested entities and entities planned for disposition as of June 30, 2007 as discontinued operations in accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets .

In the fourth quarter of 2005, the Company decided to pursue the sales of its History and Crafts groups, part of the Enthusiast Media segment. The Company completed the sale of the History group during the first quarter of 2006, for $17,000, resulting in a net gain of approximately $13,700. The sale of the Crafts group was completed during the third quarter of 2006.

In the fourth quarter of 2006, the Company announced that it had agreed to sell its Outdoors group (part of the Enthusiast Media segment), which consists primarily of its hunting, fishing, and shooting titles, for $170,000 in cash. The transaction was completed in January 2007 and the Company recorded a gain of $57,577. The net proceeds from this sale are subject to routine post-closing adjustments. The assets and liabilities of the Outdoors group are included in assets and liabilities of businesses held for sale on the accompanying condensed consolidated balance sheet as of December 31, 2006.

In the fourth quarter of 2006, the Company announced that it would classify the results of operations of its Education segment as discontinued operations, due to the Company actively pursuing the sale of this segment. The Company s Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a leading source of educational video; and PRIMEDIA Healthcare, a medical education business. During the second quarter, the Company completed the sale of Channel One for a loss of $6,399, of which $5,000 was recorded during the first quarter of 2007. Also during the second quarter of 2007, the Company completed the sale of Films Media Group, for a gain of $184. The remaining assets and liabilities of the Education segment are classified as businesses held for sale on the accompanying consolidated balance sheets as of June 30, 2007 and December 31, 2006 (see further discussion below).

In February 2007, the Company announced that its Board of Directors had authorized the Company to explore the sale of its Enthusiast Media segment. PRIMEDIA retained Goldman Sachs and Lehman Brothers to manage this process. In May 2007, the Company entered into an agreement to sell the Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007. The Company has applied the proceeds from the sale to pay down debt. See Note 16.

The results of these operations have been classified as discontinued for all periods presented.

Total revenues, net, and income before provision for income taxes included in discontinued operations on the accompanying condensed statements of consolidated operations are as follows:

	Three Months Ended June 30, 2007	2006	Six Months Ended June 30, 2007	2006
Total revenues, net	$ 145,715	$ 187,972	$ 291,819	$ 367,588
Income before provision for income taxes (1)	$ 31,628	$ 32,067	$ 52,684	$ 50,070

(1) Income before provision for income taxes above excludes gains (losses) on sale of businesses.

The losses on sales of businesses were $2,592 and $40 for the three months ended June 30, 2007 and 2006, respectively. The gains on sales of businesses were $50,779 and $13,668 for the six months ended June 30, 2007 and 2006, respectively.

During the first half of 2007, the Company recorded a tax benefit of approximately $61,000 related to the Enthusiast Media segment. This benefit, which is recorded as a component of discontinued operations, represents the tax consequences of the recharacterization of certain indefinite-lived intangible assets to definite-lived in connection with reclassification of the Enthusiast Media segment as held for sale during the first quarter of 2007 and was recorded when it became apparent that certain taxable temporary differences would reverse.

6. Goodwill, Intangible Assets and Other

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), the Company assesses goodwill and indefinite lived intangible assets for impairment at least once a year. The Company has established October 31 as its annual impairment test date. For the six months ended June 30, 2007 and 2006, there were no events or changes in circumstances requiring the Company to perform an impairment test related to goodwill, intangible assets or other finite lived assets, other than the decision to sell Enthusiast Media. There were no impairments recorded.

Amortization expense for other intangible assets still subject to amortization was $856 and $716 for the three months ended June 30, 2007 and 2006, respectively. Amortization expense for other intangible assets still subject to amortization was $1,592 and $1,394 for the six

The decrease in accrued expenses and other above is due to the Enthusiast Media segment assets and liabilities, which are classified as held for sale on the condensed consolidated balance sheet as of June 30, 2007.

8. Long-term Debt

Long-term debt consisted of the following:

	June 30, 2007	December 31, 2006
Borrowings under bank credit facilities	$ 492,500	$ 496,000
87⁄8% Senior Notes Due 2011	407,047	406,733

Senior Floating Rate Notes Due 2010	122,500	122,500
	1,316,857	1,320,043

Less: Current maturities of long-term debt	5,177	6,070
	$ 1,312,026	$ 1,316,959

During the first quarter of 2006, the Company purchased $7,025 principal amount of its 87⁄8% Senior Notes due May 15, 2011 in three different transactions for $6,832 plus $200 of accrued interest. In the second quarter of 2006, the Company redeemed $56,615 principal amount of its 87⁄8% Senior Notes due May 15, 2011 in six different transactions for $55,262 plus $400 of accrued interest. As a result of these transactions, the Company recorded a gain of $282 and $336, net of the write-off of unamortized deferred financing costs and bond discount for the three and six months ended June 30, 2006, respectively. This gain is included in the other income, net line on the accompanying condensed statements of consolidated operations.

The Senior Notes and the bank credit facilities all rank senior in right of payment to all subordinated obligations which PRIMEDIA Inc. (a holding company) may incur. The Senior Notes and bank credit facilities are secured by a pledge of stock of Consumer Source Inc. (formerly known as PRIMEDIA Companies Inc.). Consumer Source Inc. includes all of the business and related operations of PRIMEDIA Inc. The operating results of Consumer Source Inc. are the same as consolidated PRIMEDIA Inc., and their balance sheets are substantially the same, except that PRIMEDIA Inc. holds all of the Company s bank credit facilities, Senior Notes indebtedness, capital stock accounts and other miscellaneous balance sheet accounts.

Under the most restrictive covenants as defined in the bank credit facilities agreement, as amended on September 30, 2005, the Company must maintain a minimum interest coverage ratio, as defined, of 1.75 to 1 and

11

a minimum fixed charge coverage ratio, as defined, of 1.05 to 1. The maximum allowable debt leverage ratio, as defined in the bank credit facilities, is 6.25 to 1 and decreases to 6.00 to 1 on October 1, 2007.

The Senior Floating Rate Notes bear interest equal to the three-month LIBOR plus 5.375% per year. The interest rate of the Senior Floating Rate Notes was 10.735 % as of June 30, 2007.

During the third quarter of 2007, the Company restructured its financing arrangements. See Note 16 for further details.

9. Income Taxes

The Company adopted the provisions of FIN 48 on January 1, 2007. As a result of the implementation of FIN 48, the Company recognized a liability for uncertain tax positions and related interest and penalties of $16,126 which was accounted for as an increase to the January 1, 2007 balance of accumulated deficit, net of any valuation allowance impact. The liability is included in other non-current liabilities on the accompanying balance sheet as of June 30, 2007. The total amount of unrecognized tax benefits as of January 1, 2007 was $15,786, net of valuation allowance impact. Substantially all of this amount would, if recognized, have an effect on the effective income tax rate. In addition to the unrecognized tax benefits, the Company had $3,689 of interest and penalties accrued as of January 1, 2007.

The Company s policy is to recognize interest and penalties related to unrecognized tax benefits in the provision for income taxes.

The Company or one of its subsidiaries files income tax returns in the U.S. federal jurisdiction and various state and local jurisdictions, and the Company is routinely under audit by many different tax authorities. Management believes that its accrual for tax liabilities is adequate for all open audit years based on its assessment of many factors, including past experience and interpretations of tax law. This assessment relies on estimates and assumptions and may involve a series of complex judgments about future events. As a result of its net operating loss carryforwards, the Company is subject to federal examination for all years since 1992.

It is possible that federal, state and local tax examinations will be settled during the next twelve months. If any of these settlements do occur within the next twelve months, the Company would make any necessary adjustments to the liability for unrecognized tax benefits. Until formal resolutions are reached between the Company and the tax authorities, the determination of a possible audit settlement range with respect to the impact on uncertain tax benefits is not practicable. On the basis of present information, it is the opinion of the Company s management that any assessments resulting from the current examinations will not have a material adverse effect on the Company s consolidated financial statements. The Company does not think it is reasonably possible that any amount of liability currently subject to examination will significantly change within the next twelve months. However, the statute of limitations in select jurisdictions is expected to expire within the next twelve months and may result in a decrease of unrecognized tax benefits and accrued interest of $2,120.

During the quarter ended June 30, 2007, the Company s liability for unrecognized tax benefits increased by $1,707 to $24,103. An additional $577 and $929 of interest was accrued in the three and six months ended June 30, 2007, respectively.

The Company does not amortize the book basis of its indefinite-lived intangible assets, but continues to amortize these intangible assets for tax purposes. For the six months ended June 30, 2007 and 2006, provision for income taxes primarily consisted of deferred income taxes of $1,261 and $1,158, respectively. The Company expects that it will record approximately $1,250, to increase deferred tax liabilities during the remainder of 2007.

10. Provision for Restructuring Costs

In the second quarter of 2007, the Company s management approved a plan to reduce its annual corporate overhead expenses to an amount appropriate to service its continuing Consumer Source operations and relocate

its corporate headquarters from New York to Atlanta, where its Consumer Source business is located. The Company expects to complete this plan by March 31, 2008.

In 2006, the Company began cost reduction initiatives to streamline operations, reduce layers of management and consolidate real estate.

Details of the initiatives implemented and the payments made related to both the new and previously implemented plans during the six months ended June 30, 2007 and 2006 are presented in the following tables:

	Liability as of January 1, 2007	Net Provision for the Six Months Ended June 30, 2007	Payments/write-off during the Six Months Ended June 30, 2007	Liability as of June 30, 2007

(1) Excludes liabilities related to discontinued operations totaling $1,269 and $1,827 as of June 30, 2007 and January 1, 2007, respectively.

(2) Excludes liabilities related to discontinued operations totaling $2,965 and $2,511 as of June 30, 2006 and January 1, 2006, respectively.

(3) Includes $1,374 related to the Consumer Guides segment and $1,230 related to Corporate.

(4) Includes $270 related to the Consumer Guides segment and $7 related to Corporate.

The remaining liability related to real estate lease commitments for space that the Company no longer occupies, is expected to be paid through 2015. The employee-related termination costs are expected to be paid through 2008. To reduce the lease related costs, the Company has aggressively pursued subleases of its available office space. These leases have been recorded at their net present value amounts and are net of sublease income amounts. The Company evaluates the appropriateness of its reserves on a quarterly basis.

As a result of the implementation of this new plan, the Company has closed 6 office locations and has terminated a total of 107 individuals.

Liabilities of $3,335 and $3,485 representing the current portion of the provision for restructuring costs are included in accrued expenses and other on the condensed consolidated balance sheets as of June 30, 2007 and December 31, 2006, respectively. Liabilities of $20,325 and $21,208 representing the non-current portion of the provision for restructuring costs are included in other non-current liabilities on the condensed consolidated balance sheets as of June 30, 2007 and December 31, 2006, respectively.

11. Income per Common Share

Income per common share for the six months ended June 30, 2007 and 2006 has been determined based on net income divided by the weighted average number of common shares outstanding for all periods presented.

The securities that could potentially dilute basic earnings per share in the future consist of approximately 1,645,000 warrants at June 30, 2007 and 2006, and 3,063,777 and 3,383,963 stock options at June 30, 2007 and 2006, respectively.

On August 1, 2007, the Company effected a one-for-six reverse stock split. All references to share data above have been restated to reflect the reverse stock split. See Note 16 for further details.

12. Commitments and Contingencies

The Company is involved in ordinary and routine litigation incidental to its business. In the opinion of management, there is no pending legal proceeding that would have a material adverse effect on the condensed consolidated financial statements of the Company.

In 2005, the Company sold substantially all of the assets of Workplace Learning for the assumption of ongoing liabilities while retaining a secondary liability as the assignor of the building and satellite time leases. The Company received a third party guaranty of up to $10,000 against those lease obligations to reimburse the Company for lease payments made (the Guaranty). In the first half of 2006, the Company made payments on behalf of Workplace Learning pursuant to its secondary liability. During the second quarter of 2006, the Company recorded a liability for the fair value of the lease payments, net of sublease income, related to its secondary liability on the lease payments. At that time, the Company also recorded a receivable of $10,000 for the amount due from the third party guarantor for the lease payments. As a result of recording the receivable and liability during the second quarter, the Company has recorded a charge of approximately $7,200 to discontinued operations. In the second half of 2006, the Company commenced a lawsuit to collect on the Guaranty. During the fourth quarter of 2006, the Company determined that it was not probable that the third party would remit payment, as required under the Guaranty, and fully reserved for the $10,000 receivable with a charge to discontinued operations as of December 31, 2006. The Company continues to exercise all available legal remedies against the third party guarantor and to fulfill its secondary obligation regarding the Workplace Learning leases.

At June 30, 2007 and December 31, 2006, the Company has recorded a total liability of $14,997 and $16,156, respectively, for the fair value of the future lease payments, net of estimated sublease income, in the accompanying condensed consolidated balance sheets.

13. Business Segment Information

In the fourth quarter of 2006, the Company announced that it would classify the results of operations of its Education segment as discontinued operations, due to the Company actively pursuing the sale of this segment. The Company s Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a leading source of educational video; and PRIMEDIA Healthcare, a medical education business. During the second quarter of 2007, the Company completed the sales of Channel One and Films Media Group.

In February 2007, the Company announced that its Board of Directors had authorized the Company to explore the sale of its Enthusiast Media segment. PRIMEDIA retained Goldman Sachs and Lehman Brothers to manage this process. In May 2007, the Company entered into an agreement to sell the Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale is was completed on August 1, 2007. See Note 16.

The operating results of the Enthusiast Media and Education segments have been classified as discontinued operations for all periods presented.

The Company operates in one segment, the Consumer Guides segment, and has a Corporate function, which supports the Consumer Guides segment as well as the Enthusiast Media and Education segments, which are included in discontinued operations. The Consumer Guides segment is the nation s largest publisher and distributor of free publications, including *Apartment Guide, New Home Guide* and *Auto Guide* and operates related Internet sites.

Information regarding the operations of the Company is set forth below based primarily on the nature of the targeted audience. Corporate overhead represents items not allocated to other business segments.

PRIMEDIA evaluates performance based on several factors, of which the financial measure is segment earnings before interest, taxes, depreciation, amortization and other charges (Segment EBITDA). Other charges include non-cash compensation, provision for restructuring costs and loss on sale of businesses.

(1) Segment EBITDA represents the segments earnings before interest, taxes, depreciation, amortization and other charges. Segment EBITDA is not intended to be and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles), or as an indicator of the Company s operating performance. Segment EBITDA is presented herein because the Company s chief operating decision maker evaluates and measures each business unit s performance based on its Segment EBITDA results. PRIMEDIA believes that Segment EBITDA is an accurate indicator of its segments results, because it focuses on revenue and operating cost items driven by each operating managers performance, and excludes items largely outside of the operating managers control. Segment EBITDA as presented may not be comparable to similarly titled measures reported by other companies since not all companies necessarily calculate Segment EBITDA in an identical manner, and therefore, is not necessarily an accurate measure of comparison between companies.

14. Financial Information for Guarantors of the Company s Debt

The following consolidated financial information is required to be disclosed as the Company had outstanding registered debt as of June 30, 2007. The registered debt is comprised of all of the Company s Senior Notes as described in Note 8. The information that follows presents consolidating financial information as of June 30, 2007 and December 31, 2006 and for the three and six months ended June 30, 2007 and 2006 for a) PRIMEDIA Inc. (as the Issuer), b) the guarantor subsidiaries, which are, with limited exceptions, the restricted subsidiaries, represent the core PRIMEDIA businesses and exclude investment and other development properties included in the unrestricted category, c) the non-guarantor subsidiaries (primarily representing Internet assets and businesses, new launches and other properties under evaluation for turnaround or shutdown and foreign subsidiaries), which are with limited exceptions the unrestricted subsidiaries, d) elimination entries and e) the Company on a consolidated basis. Corporate operating expenses have been included in the operations of the guarantor subsidiaries. These reclassifications are in compliance with our debt agreements and have not had a material effect on the Company s debt covenant ratios as defined in the bank credit facilities. Certain 2006 amounts have been recast to conform to the 2007 presentation.

The consolidating financial information includes certain allocations of revenues, expenses, assets and liabilities based on management s best estimates which are not necessarily indicative of financial position, results of operations and cash flows that these entities would have achieved on a stand-alone basis and should be read in conjunction with the consolidated financial statements of the Company. The intercompany balances in the accompanying consolidating financial statements include cash management activities, management fees, cross promotional activities and other intercompany charges between PRIMEDIA Inc. and the business units and among the business units. The non-guarantor subsidiary results of operations include: internet operations, foreign operations, certain distribution operations, certain start-up magazine businesses, revenues and related expenses derived from the licensing of certain products of guarantor subsidiaries and expenses associated with the cross promotion by the guarantor subsidiaries of the activities of the non-guarantor subsidiaries. The transactions described above are billed, by the Company, at what the Company believes are market rates. All intercompany related activities are eliminated in consolidation. Consumer Source Inc. (formerly known as PRIMEDIA Companies Inc.) includes all of the businesses and related operations of PRIMEDIA Inc. The operating results of Consumer Source Inc. are the same as consolidated PRIMEDIA Inc., and their balance sheets are substantially the same, except that PRIMEDIA Inc. holds all of the Company s bank credit facilities, Senior Notes indebtedness, capital stock accounts and other miscellaneous balance sheet accounts.

The Company is herewith providing detailed information and disclosure as to the methodology used in determining compliance with the leverage ratio in the credit facilities agreement. Under its bank credit facilities and Senior Note agreements, the Company is allowed to designate certain businesses as unrestricted subsidiaries to the extent that the value of those businesses does not exceed the permitted amounts, as defined in these agreements. The Company has designated certain of its businesses as unrestricted (the Unrestricted Group), which primarily represent Internet businesses, trademark and content licensing and service companies, new launches (including traditional start-ups), other properties under evaluation for turnaround or shutdown and foreign subsidiaries. Except for those specifically designated by the Company as unrestricted, all businesses of the Company are restricted (the Restricted Group). Indebtedness under the bank credit facilities and Senior Note agreements is guaranteed by each of the Company s 100%-owned domestic subsidiaries in the Restricted Group in accordance with the provisions and limitations of the Company s bank credit facilities and Senior Note agreements. The guarantees are full, unconditional and joint and several. The Unrestricted Group does not guarantee the bank credit facilities or Senior Notes. For purposes of determining compliance with certain financial covenants under the Company s bank credit facilities, the Unrestricted Group s results (positive or negative) are not reflected in the Consolidated EBITDA of the Restricted Group which, as defined in the bank credit facilities agreement, excludes losses of the Unrestricted Group, non-cash charges and restructuring charges and is adjusted primarily for the trailing four quarters results of acquisitions and divestitures and estimated savings for acquired business.

16. Subsequent Events

Sale of Enthusiast Media Segment

In May 2007, the Company entered into an agreement to sell its Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007, and resulted in an estimated gain of approximately $461,400.

Debt Refinancing

On August 1, 2007, the Company completed the financing for a $350,000 senior secured bank credit facility. The new bank credit facility provides for two loan facilities: (1) a revolving credit facility with aggregate commitments of approximately $100,000 (the Revolving Facility),

which matures on August 1, 2013, and (2) a Term Loan B credit facility in an aggregate principal amount of $250,000 (the Term Loan B Facility), which matures on August 1, 2014 (the Term Loan B Maturity Date). The Company capitalized approximately $6,300 of financing fees associated with the new credit facilities.

Amounts borrowed under the Term Loan B Facility combined with the net proceeds received from the sale of the Enthusiast Media segment were used to repay all $492,500 principal amount of the Company s term loan, redeem all $410,015 principal amount of the Company s 87⁄8% Senior Notes due 2011, redeem $292,234 principal amount of the Company s 8.00% Senior Notes due 2013, redeem all $122,500 principal amount of the Company s Senior Floating Rate Notes due 2010, pay accrued interest on the Company s Senior Notes and pay financing fees. At the time of the debt refinancing, the Company recorded a loss of approximately $44,300, including a write-off approximately $8,700 of deferred financing fees, which will be included in other income (expense), net on the accompanying condensed statement of consolidated operations for the three and nine months ended September 30, 2007.

In addition, in September of 2007, the Company paid a one-time qualified dividend of $95,010 to PRIMEDIA shareholders.

Reverse Stock-Split

On August 1, 2007, the Company effected a 1-for-6 reverse stock split of its common stock. After the reverse stock split was effected, each PRIMEDIA stockholder received one new share of PRIMEDIA common stock in exchange for every six existing shares of PRIMEDIA common stock. The share amounts, including warrants and stock options, and earnings (loss) per share amounts presented in this report have been effected for the reverse stock split for all periods presented.

Item 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (dollars in thousands, except share and per share amounts)

Introduction

The following Management s Discussion and Analysis of Financial Condition and Results of Operations gives effect to the restatement discussed in Note 15 of the notes to the unaudited condensed consolidated financial statements.

PRIMEDIA Inc., together with its subsidiaries, is herein referred to as either PRIMEDIA or the Company.

The following discussion and analysis summarize the financial condition and operating performance of the Company and should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto.

Executive Summary

Our Business

PRIMEDIA Inc. is the parent company of Consumer Source Inc., the #1 publisher and distributor of free consumer guides in the U.S. with Apartment Guide, Auto Guide, and New Home Guide, distributing free consumer publications through its proprietary distribution network, DistribuTech, in more than 60,000 locations. Consumer Source owns and operates leading websites including ApartmentGuide.com, AutoGuide.com, NewHomeGuide.com, and America s largest online single unit rental property business, Rentals.com.

The Company s revenues are generated by its Consumer Guides business, from advertising (print and online) and third party distribution. PRIMEDIA s Operating expenses, for Segment EBITDA purposes, include cost of goods sold (paper, printing and binding), exclusive of depreciation and amortization of property and equipment; marketing and selling; distribution and circulation; editorial; and other general and corporate administrative expenses, excluding non-cash compensation (collectively referred to as Operating expenses). See *Why We Use the Term Segment EBITDA*.

Background

Historically, PRIMEDIA was a broad based media enterprise built from a series of acquisitions and comprised of numerous disparate assets. In recent years, in order to better focus on its core businesses and to reduce debt, the Company has been strategically divesting selective properties. As a result, the Company has now positioned itself as the number one publisher and distributor of free consumer publications in the U.S.

Additionally, to counter the effects of the continued weakness in the overall advertising environment, the Company has aggressively attacked its cost structure. The Company realigned and reorganized its management structure to better reflect its emphasis on delivering exceptional products and brands to the marketplace to achieve organic growth while managing costs. Organic growth represents growth of the Company s businesses, excluding acquisitions made during the periods compared. These initiatives have resulted in charges for restructuring costs to integrate Company operations and consolidate many back office functions and facilities, resulting in a significant reduction in the number of employees and office space, creating operational and financial efficiencies.

Overall, these actions have made the Company today a more efficient organization with a strengthened balance sheet and improved liquidity.

Business Trends

The Consumer Guides business is experiencing a period of significant change in real estate market conditions. High levels of condominium conversions and low vacancy rates reduced advertising revenue of Apartment Guide. More recently, conditions in the real property leasing and rental markets have continued to improve as the level of condominium conversions has slowed and vacancy rates have increased, particularly in the regions most impacted in prior years.

In the new home market, new construction has virtually halted in several geographic areas as builders sell off excess inventory. New Housing starts have continued to decline across all of the Company s operating markets except one. We track our penetration of the top builders in each market and the penetration into the number of their communities available to advertise, and we continue to increase this penetration from quarter to quarter.

Local automotive dealers continue to reduce newspaper advertising, as they explore alternative, cost-effective advertising. Local automotive dealers use a variety of media forms such as radio, television, newspapers and billboards. Though advertising budgets for this segment of the auto industry declined in 2006, we believe targeted print and online advertising, such as Auto Guide and Auto Guide.com, offer one of the most cost-effective advertising spends,.

Company Strategy

Making organic growth its top priority in 2007, the Company s strategy is to focus on growing its core targeted consumer guides, maintaining its industry-leading distribution network, and launching into new vertical markets.

The Company continues to implement this organic growth strategy through various actions, including:

- increasing penetration in existing markets;
- expanding into new cities;
- expanding product offerings; and
- enhancing the end-user experience through new technologies and online features.

At the same time, the Company continues to focus on cost reductions, which will be utilized to fund various elements of its growth strategy.

Sale of Enthusiast Media Segment

In May 2007, the Company entered into an agreement to sell its Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007, and resulted in an estimated gain of approximately $461,400.

Debt Refinancing

On August 1, 2007, the Company completed the financing for a $350,000 senior secured bank credit facility. The new bank credit facility provides for two loan facilities: (1) a revolving credit facility with aggregate commitments of approximately $100,000 (the Revolving Facility), which matures on August 1, 2013, and (2) a Term Loan B credit facility in an aggregate principal amount of $250,000 (the Term Loan B Facility), which matures on August 1, 2014 (the Term Loan B Maturity Date). The Company capitalized approximately $6,300 of financing fees associated with the new credit facilities.

Amounts borrowed under the Term Loan B Facility combined with the net proceeds received from the sale of the Enthusiast Media segment were used to repay all $492,500 principal amount of the Company s term loan, redeem all $410,015 principal amount of the Company s 87⁄8% Senior Notes due 2011, redeem $292,234 principal amount of the Company s 8.00% Senior Notes due 2013, redeem all $122,500 principal amount of the Company s Senior Floating Rate Notes due 2010, pay accrued interest on the Company s Senior Notes and pay financing fees. At the time of the debt refinancing, the Company recorded a loss of approximately $44,300, including a write-off approximately $8,700 of deferred financing fees, which will be included in other income (expense), net on the accompanying condensed statement of consolidated operations for the three and nine months ended September 30, 2007.

In addition, in September of 2007, the Company paid a one-time qualified dividend of $95,010 to PRIMEDIA shareholders.

27

Reverse Stock-Split

On August 1, 2007, the Company effected a 1-for-6 reverse stock split of its common stock. After the reverse stock split was effected, each PRIMEDIA stockholder received one new share of PRIMEDIA common stock in exchange for every six existing shares of PRIMEDIA common stock. All share amounts, including warrants and stock options, and earnings (loss) per share amounts presented in this report have been effected for the reverse stock split.

Transition Plan

The Company is in the process of relocating its corporate headquarters from New York to Atlanta, where its Consumer Source business is based. Why We Use the Term Segment EBITDA

Segment EBITDA represents each segment s earnings before interest, taxes, depreciation, amortization and other charges (Segment EBITDA). Other charges include non-cash compensation, provision for restructuring costs and loss on sale of businesses. PRIMEDIA believes that Segment EBITDA is an accurate indicator of its segments results, because it focuses on revenue and operating cost items driven by operating managers performance, and excludes items largely outside of operating managers control.

Segment EBITDA is not intended to be and should not be considered as an alternative to net income or loss (as determined in conformity with generally accepted accounting principles), or as an indicator of the Company s operating performance. Segment EBITDA is presented herein because the Company s chief operating decision maker, its Chairman, President and CEO, and the executive team evaluate and measure each business unit s performance based on its Segment EBITDA results. Segment EBITDA as presented may not be comparable to similarly titled measures reported by other companies since not all companies necessarily calculate Segment EBITDA in an identical manner, and therefore, is not necessarily an accurate measure of comparison between companies.

Why We Use the Term Free Cash Flow

Free Cash Flow is defined as net cash provided by operating activities adjusted for additions to property, equipment and other, exclusive of acquisitions, and capital lease payments (Free Cash Flow).

The Company believes that the use of Free Cash Flow enables the Company s chief operating decision maker, and the executive team to make decisions based on the Company s cash resources. Free Cash Flow also is considered to be an indicator of the Company s liquidity, including its ability to reduce debt and make strategic investments.

Free Cash Flow is not intended to represent cash flows from operating activities as determined in conformity with accounting principles generally accepted in the United States of America. Free Cash Flow as presented may not be comparable to similarly titled measures reported by other companies since not all companies necessarily calculate Free Cash Flow in an identical manner, and therefore, is not necessarily an accurate measure of comparison between companies.

Discontinued Operations

The transaction was completed in January 2007, and resulted in a gain of $57,577. The assets and liabilities of the Outdoors group are included in assets and liabilities of businesses held for sale on the accompanying condensed consolidated balance sheet as of December 31, 2006.

In the fourth quarter of 2006, the Company announced that it would classify the results of operations of its Education segment as discontinued operations, due to the Company actively pursuing the sale of this segment. The Company s Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a leading source of educational video; and PRIMEDIA Healthcare, a medical education business. During the second quarter of 2007, the Company completed the sales of Channel One and Films Media Group for a net gain (loss) of $(6,399) and $184, respectively. The remaining assets and liabilities of the Education segment are classified as businesses held for sale on the accompanying consolidated balance sheets as of June 30, 2007 and December 31, 2006 (see further discussion below).

The operating results of these operations have been classified as discontinued operations for all periods presented.

Results of Operations

Three Months Ended June 30, 2007 Compared to Three Months Ended June 30, 2006

Consolidated Results

Operating Income

Operating income was $5,656 in 2007 compared to $3,272 in 2006. The increase of $2,384 in operating income in 2007 resulted primarily from increased Segment EBITDA due to continued reductions in Corporate overhead. Expenses associated with adding retail distribution locations adversely impacted Consumer Source Segment EBITDA.

Net Income(Loss)

The Company had net income (loss) of $5,673 for the three months ended June 30, 2007 compared to $(2,115) for the same period of 2006. The increase is primarily due to the reduced Corporate Overhead expenses and reduced interest expense in 2007, partially offset by the loss on the sale of businesses during 2007 of $2,592. In addition, during the three months ended June 30, 2007 the Company s liability for unrecognized tax benefits increased by $1,707, and an additional $577 of interest was accrued due to the adoption of FIN 48.

Interest expense decreased to $29,031 in 2007 from $32,176 in 2006 primarily due to lower average debt levels, as the Company purchased $65,485 principal amount of its 87⁄8% Senior Notes, $5,190 principal amount of its 8.00% Senior Notes, and $52,500 principal amount of its Senior Floating Rate Notes during 2006. This decrease was partially offset by higher interest rates.

Consumer Guides Segment (includes *Apartment Guide*, *New Home Guide*, *Auto Guide, Rentals.com* and the *DistribuTech* distribution business)

Revenues, Net

Consumer Guides revenues were $81,570 and $81,283 for the three months ended June 30, 2007 and 2006, respectively. Consumer Guides revenues increased $287 or 0.4% in 2007 compared to 2006 as follows:

	Three Months Ended June 30, 2007	2006	Percent Change
Revenues, net:			
Advertising	$ 67,018	$ 67,291	(0.4)
Other	14,552	13,992	4.0
Total	$ 81,570	$ 81,283	0.4

The second quarter advertising revenue decline was driven primarily by Apartment Guide and Auto Guide, which is experiencing the full impact of quarter over quarter execution issues. Partially offsetting the second quarter advertising revenue decline was continued growth in New Home Guide and in the Company s online business serving advertisers of single unit real estate rentals, which the Company refers to as Rentals.com. Other revenue s slight increase was driven primarily by an increase in the total number of retail distribution locations, partially offset by the loss of third party revenue from the distribution of resale home guides, many of which have gone out of business during this resale housing industry downturn.

Apartment Guide, ApartmentGuide.com, Rentals.com: These businesses, which represent 76% of second quarter 2007 advertising revenue, experienced a 0.5% revenue decline in the quarter. However, this group experienced sequential quarterly growth versus the first quarter of 2007, reflecting the Company s actions throughout 2006 and 2007 to strengthen client relationships, promote the value of blended media, and add tools to better track results for advertisers. Some of the negative market forces that have caused abnormally high apartment occupancy rates and revenue pressure on Apartment Guide are abating, as fewer apartment communities are being converted to condominiums. However, while construction of new apartment communities is increasing across the country, this

activity remains below levels from more than two years ago, and occupancy rates remain high in many markets. Apartment Guide s addressable market is primarily advertisers of apartment communities with 50 or more units, whose listings comprise approximately 15% of the total rental market.

The Company s online single unit real estate rental business, Rentals.com, which address the approximately 85% of the listings not served by Apartment Guide, grew revenue 52% in the second quarter, partially offsetting declines in Apartment Guide. Rentals.com s online single unit real estate rental business is the leader in the market, with an estimated 62% of all paid single unit real estate rental listings on the Internet. The Company s online single unit real estate rental business primarily serves advertisers of single units, including rental houses, town homes, condos, apartments, and communities with less than 50 rental units. The Company spent the second quarter integrating acquisitions into Rentals.com, a single operating unit, while building out the sales force and infrastructure.

The Company completed testing of its MaxLeases product, with an official launch on June 28,2007. MaxLeases provides multi-family property managers with a sophisticated set of tools to capture, track, and report leads from all sources, including telephone, e-mail, and walk-ins. Property managers can use this information to measure and optimize their mix of marketing investments.

New Home Guide, NewHomeGuide.com: This business, representing 19% of second quarter 2007 advertising revenue, continued to deliver solid results with total revenue growth of 12% in the second quarter. This strong growth reflects New Home Guide having established itself as one of the most cost-effective and attractive media channels for home builders and demonstrates its ability to successfully adapt to changing market conditions. In the second quarter of 2007, the Company launched Neighborhood Maps in Charlotte, NC. The Company now publishes ten Neighborhood Maps in two markets. Neighborhood Maps are product line extensions in existing markets, providing advertisers with a promotional tool to reach consumers through local Chambers of Commerce, realtors, and relocation offices. The Company now has 37 New Home Guide publications (including Neighborhood Maps and Realtor Data Books) in 26 markets.

Auto Guide, AutoGuide.com: Auto Guide, representing 5% of second quarter 2007 advertising revenue, experienced a 32% revenue decline, in part due to the closing of the San Diego Auto Guide in the third quarter of 2006. Management has completed the conversion of all markets to a new guide format, and the upgrading of key management and publisher positions is expected to be completed in August, 2007. Auto Guide represents a $12 million revenue business based on annualizing average second quarter revenue. The Company started seeing progress during the second quarter including weekly revenue growth, classified ad growth, and dealer growth as the initiatives put in place in prior quarters began producing results.

DistribuTech: All of Consumer Source s print properties continue to benefit from the Company s leading distribution business, DistribuTech. Consumer Source s strategy is to continually optimize distribution for its own guides while minimizing cost. This optimization has historically caused, and will continue to cause, DistribuTech revenue to fluctuate. In the second quarter of 2007, DistribuTech grew revenue primarily by expanding store locations in various new and current retail programs including a large drug store chain. In addition, DistribuTech extended the contract term of a large grocery store chain, securing the Company s rights to be the exclusive distributor of free publications in this chain. Partially offsetting DistribuTech s revenue growth in the second quarter were the loss of a national client that changed its marketing strategy in late 2006, and certain customers going out of business, primarily resale home-oriented publications adversely impacted by the downturn in the resale housing industry, in which Consumer Source does not directly participate.

Segment EBITDA

Consumer Guides Segment EBITDA increased $75 or 0.4% in 2007, to $18,251 from $18,176 in 2006. Segment EBITDA margin remains the same at 22% for both 2007 and 2006.

32

Operating Income

Operating income decreased $946 or 6.7% to $13,264 in 2007 from $14,210 in 2006. This decrease was primarily driven by the increase in restructuring costs during 2007.

Corporate

Corporate Administrative Expenses

Corporate administrative expenses, excluding non-cash compensation, were $7,041 for the three months ended June 30, 2007, compared to $9,009 for the three months ended June 30, 2006. The decrease is primarily due to lower compensation expense resulting from headcount reductions and reduced professional fees.

Operating Loss

Corporate operating loss was $7,608 for the second quarter of 2007, down 30.4% compared to $10,938 for the second quarter of 2006. The decrease was mainly due to lower corporate administrative expenses as discussed above, as well as reduced non-cash compensation expense during 2007.

Discontinued Operations

Enthusiast Media

In February 2007, the Company announced that its Board of Directors had authorized the Company to explore the sale of its Enthusiast Media segment. PRIMEDIA retained Goldman Sachs and Lehman Brothers to manage this process. In May 2007, the Company entered into an agreement to sell the Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007.

Discontinued operations of the Enthusiast Media segment for the three months ended June 30, 2007 and 2006 include revenue of $139,519 and $173,456, respectively. Operating income for the three months ended June 30, 2007 and 2006, was $31,971 and $32,249, respectively. Included in discontinued operations for the three months ended June 30, 2007 and 2006 are losses on sales of businesses of $1,377 and $40, respectively.

Education

The Company classified the entire Education segment as discontinued operations during the fourth quarter of 2006. The Company s Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a leading source of educational video; and PRIMEDIA Healthcare, a medical education business. The Company completed the sales of Channel One and Films Media Group during the second quarter of 2007.

Discontinued operations of the Education segment include revenue of $6,196 and $14,516 for the three months ended June 30, 2007 and 2006, respectively. Operating loss was $6,089 and $2,431 for the three months ended June 30, 2007 and 2006, respectively. Included in discontinued operations is the gain (loss) on the sales of Channel One of $(1,399) and Films Media Group of $184 for the three months ended June 30, 2007.

Results of Operations

Six Months Ended June 30, 2007 Compared to Six Months Ended June 30, 2006

Consolidated Results

Operating Income

Operating income was $12,722 in 2007 compared to $8,715 in 2006. The increase of $4,007 in operating income in 2007 resulted from increased Segment EBITDA in the Consumer Guides segment and decreased Corporate overhead.

Net Income

The Company had net income of $110,327 in the six months ended June 30, 2007 compared to $315 in 2006. In 2007, net income includes a gain the sale of the businesses of $50,779. In addition, during the six months ended June 30, 2007, the Company s liability for unrecognized tax benefits increased by $4,628, and an additional $929 of interest was accrued due to the adoption of FIN 48.

Interest expense decreased to $58,111 in 2007 from $63,633 in 2006 primarily due to lower average debt levels, as the Company purchased $65,485 principal amount of its 8 7/8% Senior Notes, $5,190 principal amount of its 8.00% Senior Notes, and $52,500 principal amount of its Senior Floating Rate Notes during 2006, partially offset by higher interest rates.

Consumer Guides Segment (includes *Apartment Guide*, *New Home Guide*, *Auto Guide*, *Rentals.com* and the *DistribuTech* distribution business)

Revenues, Net

Consumer Guides revenues were $161,614 and $162,685 for the six months ended June 30, 2007 and 2006, respectively. Consumer Guides revenues decreased $1,071 or 0.7% in 2007 compared to 2006 as follows:

	Six Months Ended June 30, 2007	2006	Percent Change
Revenues, net:			
Advertising	$ 133,299	$ 134,383	(0.8)
Other	28,315	28,302	0.0
Total	$ 161,614	$ 162,685	(0.7)

Advertising revenues decreased by $1,084 in the six months ended June 30, 2007 compared to 2006 due primarily to continued weakness in Apartment Guide s operating environment and Auto Guide s execution issues from 2006. Growth in New Home Guides and the Company s online business serving advertisers of single unit real estate rentals partially offset the declines in Apartment Guide and Auto Guide. Other revenue s slight increase reflects DistribuTech s optimization of distribution locations as new locations were added in the first half of 2007.

Apartment Guide, ApartmentGuide.com, Rentals.com: Total advertising revenue declined 1.9% in the first half of 2007. Apartment Guide continues to face challenging market conditions marked by high occupancy rates and a reduced advertiser base as a result of lost apartment inventory from condominium conversions. Although the rate of condominium conversions has slowed considerably, the business experienced a year-over-year decline in revenue.

Declines in Apartment Guide were partially offset by 60% growth in the Company s online single unit real estate rental business, which the Company refers to as Rentals.com. Consumer Source s online single unit real estate rental business is the leader in the market, with an estimated 62% of all paid single unit real estate rental listings on the Internet. This lucrative segment of the marketplace accounts for approximately 85% of the total rental

market. The Company s online single unit real estate rental business primarily serves advertisers of single units, including rental houses, town homes, condos, apartments, and communities with less than 50 rental units.

New Home Guide, NewHomeGuide.com: This business, representing 19% of 2007 advertising revenue, continued to deliver strong results with total revenue growth of 15% in the first half of 2007. This strong growth reflects New Home Guide having established itself as one of the most cost-effective and attractive media channels for home builders and demonstrates its ability to successfully adapt to changing market conditions. In the first half of 2007, the Company launched a New Home Guide in Colorado Springs, CO, and three Neighborhood Maps in Charlotte, NC. The Company now publishes ten Neighborhood Maps in two markets. Neighborhood Maps are product line extensions in existing markets, providing advertisers with a promotional tool to reach consumers through local Chambers of Commerce, realtors, and relocation offices. The Company now has 37 New Home Guide publications (including Neighborhood Maps and Realtor Data Books) in 26 markets.

Auto Guide, AutoGuide.com: Auto Guide, representing 5% of 2007 advertising revenue, experienced a 27% revenue decline in the first half of 2007, primarily due the third quarter 2006 closing of the San Diego Auto Guide. Management has completed the conversion of all markets to a new guide format, and the upgrading of key management and publisher positions is expected to be completed in August, 2007. Auto Guide represents a $12 million revenue business based on annualizing average second quarter revenue, and continues to have significant revenue growth potential both within its existing markets and through expansion into new markets.

DistribuTech: All of Consumer Source s print properties continue to benefit from the Company s leading distribution business, DistribuTech. Consumer Source s strategy is to continually optimize distribution for its own guides while minimizing cost. This optimization has historically caused, and will continue to cause, DistribuTech revenue to fluctuate. DistribuTech revenue was essentially flat for the six months ended June 30, 2007, as compared to the same period of 2006. Contributing to this were the loss of a national client that changed its marketing strategy in late 2006, and certain customers going out of business, primarily resale home-oriented publications adversely impacted by the downturn in the resale housing industry, in which Consumer Source does not directly participate. These losses represented approximately 4% of DistribuTech revenue.

Segment EBITDA

Consumer Guides Segment EBITDA increased $1,741 or 4.8% in the six months ended June 30, 2007, to $37,652 from $35,911 in the same period of 2006, despite the slight decrease in revenue. This increase is primarily due to aggressive cost containment by management continued from 2006 into the first half of 2007. Segment EBITDA margin increased to 23% in first half of 2007 from 22% in the same period of 2006.

Operating Income

Operating income increased $224 or 0.8% to $29,041 in the six months ended June 30, 2007 from $28,817 in the same period of 2006. This increase was primarily driven by the increase in Segment EBITDA, partially offset by increases in restructuring costs.

Corporate

Corporate Administrative Expenses

Corporate administrative expenses, excluding non-cash compensation, were $13,777 for the six months ended June 30, 2007, compared to $16,919 for the six months ended June 30, 2006. The decrease is primarily due to lower compensation expense resulting from headcount reductions and reduced professional fees.

Operating Loss

Corporate operating loss was $16,319 for the six months ended June 30, 2007, down 18.9% compared to $20,102 for the six months ended June 30, 2006. The decrease was mainly due to lower corporate administrative expenses as discussed above, as well as reduced non-cash

compensation during 2007.

Discontinued Operations

Enthusiast Media

In February 2007, the Company announced that its Board of Directors had authorized the Company to explore the sale of its Enthusiast Media segment. PRIMEDIA retained Goldman Sachs and Lehman Brothers to manage this process. In May 2007, the Company entered into an agreement to sell the Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007.

Discontinued operations of the Enthusiast Media segment for the six months ended June 30, 2007 and 2006 include revenue of $275,099 and $337,603, respectively. Operating income for the six months ended June 30, 2007 and 2006, was $115,981 and $63,284, respectively. Included in discontinued operations are gains on sales of businesses of $56,994 and $13,668, respectively.

During the first half of 2007, the Company recorded a tax benefit of approximately $61,000 related to the Enthusiast Media segment. This benefit, which is recorded as a component of discontinued operations, represents the tax consequences of the recharacterization of certain indefinite-lived intangible assets to definite-lived in connection with reclassification of the Enthusiast Media segment as held for sale and was recorded when it became apparent that certain taxable temporary differences would reverse.

Education

The Company classified the entire Education segment as discontinued operations during the fourth quarter of 2006. The Company s Education segment was comprised of Channel One, a proprietary network for secondary schools; Films Media Group, a leading source of educational video; and PRIMEDIA Healthcare, a medical education business. The Company completed the sales of Channel One and Films Media Group during the second quarter of 2007.

Discontinued operations of the Education segment include revenue of $16,720 and $29,985 for the six months ended June 30, 2007 and 2006, respectively. Operating loss was $9,617 and $2,791 for the six months ended June 30, 2007 and 2006, respectively. Included in discontinued operations is a gain (loss) on the sale of Channel One of $(6,399) and Films Media Group of $184 for the six months ended June 30, 2007.

Liquidity, Capital and Other Resources

As of June 30, 2007, the Company had cash and unused credit facilities of $327,670, as further detailed below under Financing Arrangements , compared to $261,466 as of December 31, 2006. The amount as of June 30, 2007 includes the remaining net cash proceeds from the Company s sale of the Outdoors group in the first quarter of 2007. The use of this cash and unused credit facilities is subject to customary conditions in the Company s debt agreements. The Company s asset sales, debt redemption and investment in organic growth have facilitated its strategy to become a better strategically focused company while strengthening its balance sheet.

The Company believes its liquidity, capital resources and cash flow from operations are sufficient to fund planned capital expenditures, working capital requirements, interest and principal payments on its debt and other anticipated expenditures for the remainder of 2007 and for the foreseeable future. Under the Company s new credit facility, the Company has no significant scheduled commitment reductions until 2013.

Working Capital

Consolidated working capital, which includes current maturities of long-term debt, was $770,110 at June 30, 2007 compared to $27,837 at December 31, 2006. This increase is primarily due to the increase in assets of businesses held for sale at June 30, 2007 and the remaining cash proceeds from the Outdoors sale.

Cash Flow 2007 Compared to 2006

Net cash (used in) provided by operating activities was $(22,632) in 2007, compared to $10,374 in 2006. This decrease is primarily due to increased cash taxes paid primarily related to divestitures, and timing of receivables collections, partially offset by lower debt service. Free Cash Flow includes discontinued operations. For purposes of calculating net cash provided by operating activities, discontinued operations are included until sold or shut down.

Net cash provided by (used in) investing activities was $131,743 in 2007, compared to $(9,580) in 2006. This increase in cash is primarily due to cash received for the sale of the Outdoors group in the first quarter of 2007 of $170,000. This increase was partially offset by payments for the acquisitions of Rentalhouses.com and Modified Automotive Group during the first quarter of 2007.

Net cash used in financing activities was $3,899 in 2007, compared to $3,816 in 2006. The primary reason for the change is the absence of payments for repurchases of senior notes during 2007 compared to payments of $62,094 in 2006, partially offset by the net borrowings under credit agreements in 2006 of $60,000, compared to net repayments of $3,500 in 2007.

Free Cash Flow

The following table presents the Company s Free Cash Flow for the six months ended June 30, 2007 and 2006, respectively:

	Six Months Ended June 30, 2007	**2006**
Net cash (used in) provided by operating activities	$ (22,632)	$ 10,374
Additions to property, equipment and other (excluding acquisitions)	(11,990)	(10,767)
Capital lease payments	(571)	(1,879)
Free Cash Flow	$ (35,193)	$ (2,272)
Supplemental information:		
Cash interest paid, including interest on capital and restructured leases	$ 58,076	$ 64,718
Cash income taxes paid, net of refunds received	$ 16,943	$ 4,740
Cash paid for restructuring costs	$ 4,993	$ 2,715

The decrease in the Company s Free Cash Flow is primarily due to increased cash taxes paid primarily related to divestitures, and timing of receivables collections, partially offset by lower debt service.

Financing Arrangements

On August 1, 2007, the Company completed financing for a $350,000 senior secured bank credit facility, comprised of a $100,000 revolving loan facility and a $250,000 term loan.

The new bank credit facilities combined with the net proceeds received from the sale of the Enthusiast Media segment were used to repay all $492,500 principal amount of the Company s term loan, redeem all $410,015 principal amount of the Company s 87⁄8% Senior Notes due 2011, redeem $292,234 principal amount of the Company s 8.00% Senior Notes due 2013, redeem all $122,500 principal amount of the Company s Senior Floating Rate Notes due 2010, pay accrued interest on the Company s Senior Notes and pay financing fees.

The new bank credit facilities provides for two loan facilities: (1) a revolving credit facility with aggregate commitments of $100,000 (the Revolving Facility), which matures on August 1, 2013, and (2) a Term Loan B credit facility in an aggregate principal amount of $250,000 (the Term Loan B Facility), which matures on August 1, 2014 (the Term Loan B Maturity Date).

Amounts borrowed under the Revolving Facility bear interest, at the Company s option, at an annual rate of either the base rate plus an applicable margin ranging from 0.625% to 1.00% or the eurodollar rate plus an applicable margin ranging from 1.625% to 2.00%. The Term Loan B Facility bears interest, at the Company s option, at an annual rate of either the base rate plus an applicable margin ranging from 1.00% to 1.25% or the eurodollar rate plus an applicable margin ranging from 2.00% to 2.25%.

There are no scheduled commitment reductions under the Revolving Facility. The loans under the Term Loan B Facility are subject to scheduled repayment in quarterly installments of $625 each payable on March 31, June 30, September 30 and December 31 of each year commencing on March 31, 2008 and ending on June 30, 2014, followed by a final repayment of $233,750 on the Term Loan B Maturity Date.

Under the new credit facility, the Company s maximum allowable leverage ratio, as defined, is 5.25 to 1.

Financing arrangments as of June 30, 2007 were as follows:

Bank Credit Facilities

The bank credit facilities consisted of the following as of June 30, 2007:

	Revolver	Term B	Total
Bank Credit Facilities	$ 237,252	$ 492,500	$ 729,752
Borrowings Outstanding		(492,500)	(492,500)
Letters of Credit Outstanding	(20,622)		(20,622)
Unused Bank Commitments	$ 216,630	$	$ 216,630

With the exception of the term loan B and the Senior Floating Rate Notes, the amounts borrowed bear interest, at the Company s option, at either the base rate plus an applicable margin ranging from 0.125% to 1.5% or LIBOR plus an applicable margin ranging from 1.125% to 2.5%. The Senior Floating Rate Notes bear interest equal to three-month LIBOR plus 5.375% per year. The term loan B bears interest at base rate plus 1.25% or LIBOR plus 2.25% per year.

Under the bank credit facilities, the Company has agreed to pay commitment fees at a per annum rate of either 0.375% or 0.5%, depending on its debt to EBITDA ratio, as defined in the bank credit facilities agreement, on the daily average aggregate unutilized commitment under the revolving loan commitment. During the second quarter of 2007, the Company s commitment fees were paid at a weighted average rate of 0.5%. The Company also has agreed to pay certain fees with respect to the issuance of letters of credit and an annual administration fee. From time to time the Company may pay amendment fees under its bank credit facilities.

The commitments under the revolving loan portion of the bank credit facilities are subject to mandatory reductions semi-annually on June 30 and December 31, with the final reduction on June 30, 2008. The aggregate remaining mandatory reductions of the revolving loan commitments under the bank credit facilities are $79,084 in 2007 and a final reduction of $158,168 in 2008. To the extent that the total revolving credit loans outstanding exceed the reduced commitment amount, these loans must be paid down to an amount equal to or less than the reduced commitment amount. However, if the total revolving credit loans outstanding do not exceed the reduced commitment amount, then there is no requirement to pay down any of the revolving credit loans.

Remaining aggregate term loan payments under the bank credit facilities are $2,500 in 2007, $5,000 in 2008 through 2012 and $465,000 in 2013.

The bank credit facilities agreement, among other things, limits the Company s ability to change the nature of its businesses, incur indebtedness, create liens, sell assets, engage in mergers, consolidations or transactions with affiliates, make investments in or loans to certain subsidiaries, issue guarantees and make certain restricted payments including dividend payments on or repurchases of the Company s common stock in excess of $75,000 in any given year.

The bank credit facilities and Senior Note agreements of the Company contain certain customary events of default which generally give the banks or the noteholders, as applicable, the right to accelerate payments of outstanding debt. Under the bank credit facilities agreement, these events include:

- failure to maintain required covenant ratios, as described below;
- failure to make a payment of principal, interest or fees within five days of its due date;
- default, beyond any applicable grace period, on any aggregate indebtedness of PRIMEDIA exceeding $20,000;
- occurrence of certain insolvency proceedings with respect to PRIMEDIA or any of its material subsidiaries;
- entry of one judgment or decree involving a liability of $15,000 or more (or more than one involving an aggregate liability of $25,000 or more); and
- occurrence of certain events constituting a change of control of the Company.

The events of default contained in the Senior Notes are similar to, but generally less restrictive than, those contained in the Company s bank credit facilities.

8⅞% Senior Notes. The 8⅞% Senior Notes mature on May 15, 2011, with no sinking fund requirements, and have interest payable semi-annually in May and November at an annual rate of 8⅞%. Beginning in 2006, the 8⅞% Senior Notes became redeemable at 104.438% with annual reductions to 100% in 2009 plus accrued and unpaid interest. The unamortized discount for these notes totaled $2,968 and $3,598 at June 30, 2007 and 2006, respectively.

8% Senior Notes. The 8% Senior Notes mature on May 15, 2013 with no sinking fund requirements and have interest payable semi-annually in May and November at an annual rate of 8.00%.

Senior Floating Rate Notes. The Floating Rate Senior Notes mature on May 15, 2010 with no sinking fund and have interest payable quarterly in February, May, August and November at the annual rate equal to the three month LIBOR plus 5.375%.

Contractual Obligations

The Senior Notes and the bank credit facilities all rank senior in right of payment to all subordinated obligations which PRIMEDIA Inc. (a holding company) may incur. The Senior Notes and bank credit facilities are secured by a pledge of stock of Consumer Source Inc. (formerly known as PRIMEDIA Companies Inc.).

If the Company becomes subject to a change of control, as defined in the indentures governing the Senior Notes, each holder of the Senior Notes will have the right to require the Company to purchase any or all of its Senior Notes at a purchase price equal to 101% of the aggregate principal amount of the purchased Senior Notes plus accrued and unpaid interest, if any, to the date of purchase.

There are no required significant debt repayments until 2010. The contractual obligations of the Company as of June 30, 2007 are as follows:

		Payments Due by Period			
Contractual Obligations	**Total**	**Less than 1 year**	**1-3 years**	**4-5 years**	**After 5 years**

Total Contractual Obligations	$ 2,167,732	$ 161,784	$ 444,126	$ 619,566	$ 942,256

(1) Interest payments are based on the Company s projected interest rates and estimated principal amounts outstanding for the periods presented.

(2) Present value of expected future payments related to the acquisition of Automotive.com. The fair value of this liability is included in liabilities of businesses held for sale at June 30, 2007.

(3) Future rental commitments for the above operating leases have not been reduced by minimum noncancelable sublease rentals aggregating $61,742 as of June 30, 2007.

(4) Present value of expected future payments related to Workplace Learning lease obligations, exclusive of a third party guarantee for up to $10,000 to be applied to the Company s secondary liability . See *Contingencies* below for further detail.

The Company had no borrowings outstanding at June 30, 2007 under the revolving loan portion of the bank credit facility. The revolving loan portion of the bank credit facility matures in 2008, and the term loan B matures in 2013.

The Company has other commitments in the form of letters of credit, which include deferred purchase price liabilities, of $20,622 aggregate face value which expire on or before June 30, 2008.

The FIN 48 liability of $24,103 is excluded from the contractual obligations table as the Company is unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority.

Additional Payments

Under the provisions of the Automotive.com Stockholders Agreement, PRIMEDIA must make quarterly payments (the Additional Payments) to the minority shareholders of Automotive.com, as defined in the Automotive.com Stockholders Agreement. The additional payments are paid within 45 days of the end of each calendar quarter, with the last payment to be made within 45 days of the quarter ending December 31, 2008, or December 31, 2009, if the forward agreement is extended by the minority shareholders. The additional payments are recognized when the related contingency is resolved and the consideration is paid or becomes payable. The pro rata share of the additional payments made or estimated to be made to Automotive.com s Chief Executive Officer is recorded as compensation expense due to the nature of his ongoing relationship with Automotive.com. The remaining pro rata share of the Additional Payments to be made to the other minority shareholders is recorded as an adjustment to the purchase price of Automotive.com.

Off Balance Sheet Arrangements

The Company has no variable interest (otherwise known as special purpose) entities or off balance sheet debt, other than as related to operating leases in the ordinary course of business as disclosed above.

Covenant Compliance

Under the Company s new credit facility, the Company s maximum allowable leverage ratio, as defined, is 5.25 to 1.

Covenant compliance as of June 30, 2007 was as follows:

Under the most restrictive covenants as defined in the bank credit facilities agreement, as amended on September 30, 2005, except for those businesses specifically designated by the Company as unrestricted, all businesses of the Company (the Restricted Group), must maintain a minimum interest coverage ratio, as defined, of 1.75 to 1 and a minimum fixed charge coverage ratio, as defined, of 1.05 to 1. The maximum allowable debt leverage ratio, as defined in the bank credit facilities, is 6.25 to 1 and decreases to 6.00 to 1 on October 1, 2007.

The Company is herewith providing detailed information and disclosure as to the methodology used in determining compliance with the leverage ratio in the bank credit facility agreement. Under its bank credit facility and Senior Note agreements, the Company is allowed to designate certain businesses as unrestricted subsidiaries to the extent that the value of those businesses does not exceed the permitted amounts, as defined in these agreements. The Company has designated certain of its businesses as unrestricted (the Unrestricted Group), which represent primarily Internet businesses, trademark and content licensing and service companies, new launches (including traditional start-ups), other properties under evaluation for turnaround or shutdown and foreign subsidiaries. Indebtedness under the bank credit facilities and Senior Note agreements is guaranteed by each of the Company s domestic subsidiaries in the Restricted Group in accordance with the provisions and limitations of the Company s bank credit facilities and Senior Note agreements. The guarantees are full, unconditional and joint and several. The Unrestricted Group does not guarantee the bank credit facilities or Senior Notes. For purposes of determining compliance with certain financial covenants under the Company s bank credit facility, the Unrestricted Group s results (positive or negative) are not reflected in the Consolidated EBITDA of the Restricted Group which, as defined in the bank credit facilities agreement, excludes losses of the

Unrestricted Group, non-cash charges and restructuring charges and is adjusted primarily for the trailing four quarters results of acquisitions and divestitures and estimated savings for acquired businesses.

The following represents a reconciliation of EBITDA of the Restricted Group for purposes of the leverage ratio as defined in the bank credit facilities agreement to net income:

	For the Three Months Ended June 30, 2007	For the Twelve Months Ended June 30, 2007
EBITDA of the Restricted Group	$ 58,257	$ 219,415

The EBITDA loss of the Unrestricted Group, as defined in the bank credit facilities agreement, is comprised of the following categories:

	For the Three Months Ended June 30, 2007	For the Twelve Months Ended June 30, 2007

Related overhead and other charges	(1,189)	(5,433)
	$ (11,297)	$ (46,974)

The Company has established intercompany arrangements that reflect transactions, such as leasing, licensing, sales and related services and cross-promotion, between Company businesses in the Restricted Group and the Unrestricted Group which management believes are on an arms length basis and as permitted by the bank credit facilities and Senior Note agreements. These intercompany arrangements afford strategic benefits across the Company s properties and, in particular, enable the Unrestricted Group to utilize established brands and content, promote brand awareness and increase traffic and revenue to the properties of the Unrestricted Group. For company-wide consolidated financial reporting, these intercompany transactions are eliminated in consolidation.

The calculation of the Company s leverage ratio, as required under the bank credit facilities agreement for covenant purposes, is defined as the Company s consolidated debt divided by the EBITDA of the Restricted Group.

Contingencies and Other

The Company is involved in ordinary and routine litigation incidental to its business. In the opinion of management, there is no pending legal proceeding that would have a material adverse effect on the consolidated financial statements of the Company.

As of and for the six months ended June 30, 2007, no officers or directors of the Company have been granted loans by the Company, nor has the Company guaranteed any obligations of such persons.

In 2005, the Company sold substantially all of the assets of Workplace Learning for the assumption of ongoing liabilities while retaining a secondary liability as the assignor of the building and satellite time leases. The Company received a third party guaranty of up to $10,000 against those lease obligations to reimburse the Company for lease payments made (the Guaranty). In the first half of 2006, the Company made payments on behalf of Workplace Learning pursuant to its secondary liability. During the second quarter of 2006, the Company recorded a liability for the fair value of the lease payments, net of sublease income, related to its secondary liability on the lease payments. At that time, the Company also recorded a receivable of $10,000 for the amount due from the third party guarantor for the lease payments. As a result of recording the receivable and liability during the second quarter, the Company recorded a charge of approximately $7,200 to discontinued operations. In the second half of 2006, the Company commenced a lawsuit to collect on the Guaranty. During the fourth quarter of 2006, the Company determined that it was not probable that the third party would remit payment, as required under the Guaranty, and fully reserved for the $10,000 receivable with a charge to discontinued operations as a of December 31, 2006. The Company continues to exercise all available legal remedies against the third party guarantor and to fulfill its secondary obligation regarding the Workplace Learning leases.

At June 30, 2007 and December 31, 2006, the Company has recorded a total liability of $14,997 and $16,156, respectively, for the fair value of the future lease payments, net of estimated sublease income, in the accompanying consolidated balance sheet.

Critical Accounting Policies and Estimates

During the second quarter of 2007, there were no significant changes related to the Company s critical accounting policies and estimates as disclosed in the Company s annual report on Form 10-K for the year ended December 31, 2006.

Recent Accounting Pronouncements Adopted

SAB No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements

During the fourth quarter of 2006, the Company adopted Staff Accounting Bulletin (SAB) No. 108, Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements. During the fourth quarter of 2006, the Company concluded that deferred income tax benefits of approximately $7,500 should have been recorded during the year ended December 31, 2005 when it became apparent that certain taxable temporary differences would reverse as a result of classification of businesses as discontinued operations. Management believes that this error totaling approximately $7,500 is not material to the prior year s financial statements. Upon adoption of SAB No. 108, the Company recorded a cumulative effect adjustment as of January 1, 2006 to accumulated deficit of approximately $7,500. Of this amount, approximately $5,500 had previously been recorded to income from discontinued operations in the first quarter of 2006. The consolidated statement of operations for the six months ended June 30, 2006 has been restated to adjust for the impact of the SAB No. 108 adjustment.

FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes , effective for fiscal years beginning after December 15, 2006. This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with SFAS No. 109. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 requires that, in order to be recognized, tax benefits must be more likely than not to be sustained upon examination by taxing authorities. The amount recognized is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. Differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption should be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. FIN 48 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As a result of the implementation of FIN 48, the Company recognized a liability for uncertain tax positions and related interest and penalties of $16,126 which was accounted for as an increase to the January 1, 2007 balance of accumulated deficit, net of any valuation allowance impact. The liability is included in other non-current liabilities on the accompanying balance sheet as of June 30, 2007. During the three months ended June 30, 2007, the Company s liability for unrecognized tax benefits increased by $1,707 to $24,103. An additional $577 and $929 of interest was accrued in the three and six months ended June 30, 2007, respectively.

Subsequent Events

Sale of Enthusiast Media Segment

In May 2007, the Company entered into an agreement to sell its Enthusiast Media Segment for $1,177,900 to Source Interlink Companies, Inc., subject to certain post-closing adjustments. The sale was completed on August 1, 2007, and resulted in an estimated gain of approximately $461,400.

Debt Refinancing

On August 1, 2007, the Company completed the financing for a $350,000 senior secured bank credit facility. The new bank credit facility provides for two loan facilities: (1) a revolving credit facility with aggregate commitments of approximately $100,000 (the Revolving Facility), which matures on August 1, 2013, and (2) a Term Loan B credit facility in an aggregate principal amount of $250,000 (the Term Loan B Facility), which matures on August 1, 2014 (the Term Loan B Maturity Date). The Company capitalized approximately $6,300 of financing fees associated with the new credit facilities.

Amounts borrowed under the Term Loan B Facility combined with the net proceeds received from the sale of the Enthusiast Media segment were used to repay all $492,500 principal amount of the Company s term loan, redeem all $410,015 principal amount of the Company s 8⅞% Senior Notes due 2011, redeem $292,234 principal amount of the Company s 8.00% Senior Notes due 2013, redeem all $122,500 principal amount of the Company s Senior Floating Rate Notes due 2010, pay accrued interest on the Company s Senior Notes and pay financing fees. At the time of the debt refinancing, the Company recorded a loss of approximately $44,300, including a write-off approximately $8,700 of deferred financing fees, which will be included in other income (expense), net on the accompanying condensed statement of consolidated operations for the three and nine months ended September 30, 2007.

In addition, in September of 2007, the Company paid a one-time qualified dividend of $95,010 to PRIMEDIA shareholders.

Reverse Stock-Split

On August 1, 2007, the Company effected a 1-for-6 reverse stock split of its common stock. After the reverse stock split was effected, each PRIMEDIA stockholder received one new share of PRIMEDIA common stock in exchange for every six existing shares of PRIMEDIA common stock. All share amounts, including warrants and stock options, and earnings (loss) per share amounts presented in this report have been effected for the reverse stock split.

Impact of Inflation and Other Costs

The cost of paper was stable during 2006 and the first half of 2007. The Company s paper expense decreased approximately 11.16% during the six months ended June 30, 2007 compared to 2006. Paper cost represented approximately 4.60% and 4.96% of the Company s total operating expenses for the six months ended June 30, 2007 and 2006, respectively.

Seasonality

The Company s operations are minimally seasonal in nature.

- The majority of the Company s sales comprise 12-month contracts. Sales typically grow sequentially.
- The Company experiences modest seasonality in the categories of the single unit real estate listing and autos as both businesses decline in the winter months. These businesses represent a relatively small part of the total consumer guides business.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

During the second quarter of 2007, there were no significant changes related to the Company s market risk exposure.

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company s management, with the participation of the Company s Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer, has evaluated the effectiveness of the Company s disclosure controls and procedures as of the end of the period covered by this report.

Based on its evaluation, management identified a material weakness in the operation of the Company s internal controls limited to the accounting for income taxes as of June 30, 2007. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company s annual or interim financial statements will not be prevented or detected on a timely basis.

The issue identified that led management to conclude that a material weakness existed related to the determination that there was a non-cash, clerical error in the preparation of the Company s accounting for income taxes, related to the second quarter, under Financial Accounting Standards Board Interpretation Number 48 (FIN 48), Accounting for Uncertainty in Income Taxes. FIN 48, effective beginning with the 2007 fiscal year, which provides guidance on financial statement recognition of tax positions taken, or expected to be taken, in a tax return. Specifically, the Company discovered that benefit for income taxes was overstated by approximately $1.4 million for both the three and six months ended June 30, 2007, while discontinued operations, net of tax was overstated by approximately $0.5 million for the same periods. As a result, the Company restated its interim financial statements for the three and six months ended June 30, 2007. Management concluded that the principal factor contributing to the material weakness was an ineffective review process by the Company s internal personnel.

Because of the material weakness described above, management concluded that, as of June 30, 2007, the Company did not maintain effective internal control over financial reporting based on the criteria established in *Internal Control-Integrated Framework* issued by Committee of Sponsoring Organizations of the Treadway Commission.

We anticipate the actions described in our Annual Report for the year ended December 31, 2006 and resulting improvements in controls will strengthen our internal control over financial reporting relating to accounting for income taxes and will, over time, address the related material weakness that we discussed above. However, because the remedial actions relate to the hiring of additional personnel and many of the controls

in our system of internal controls rely extensively on manual review and approval, the successful operation of these controls for, at least, several quarters may be required prior to management being able to conclude that the material weakness has been remediated.

Changes in Internal Control Over Financial Reporting

During the quarter ended June 30, 2007, other than the material weakness noted above, there have not been any changes in the Company s internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.
