(1)	Senior floating-rate interests (Senior Loans) often require prepayments from excess cash flows or permit the borrowers to
	repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot
	be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities
	shown. However, it is anticipated that the Senior Loans will have an expected average life of approximately two to four years.
	The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior
	Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to
	a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and
	secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit
	(CD) rate or other base lending rates used by commercial lenders.

- (2) This Senior Loan will settle after September 30, 2008, at which time the interest rate will be determined.
- (3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (4) Defaulted security. Currently the issuer is in default with respect to interest payments.
- Unfunded or partially unfunded loan commitments. The Trust may enter into certain credit agreements all or a portion of
- which may be unfunded. The Trust is obligated to fund these commitments at the borrower's discretion.
- (6) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2008, the aggregate value of the securities is \$8,795,049 or 3.7% of the Trust s net assets.
- (7) Variable rate security. The stated interest rate represents the rate in effect at September 30, 2008.
- (8) Non-income producing security.

Debtor in Possession

- (9) Restricted security.
- (10) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of September 30, 2008. Net income allocated from the Investment in Cash Management Portfolio for the fiscal year to date ended September 30, 2008
- (11) Issuer is in default and security is currently not accruing interest.

A summary of financial instruments at September 30, 2008 is as follows:

Forward Foreign Currency Exchange Contracts

Sales

DIP

Settlement Date	Deliver	In Exchange For	$\mathbf{A}_{\mathbf{j}}$	Net Jnrealized ppreciation epreciation)
10/31/08	British Pound Sterling 4,234,602	United States Dollar 7,566,195	\$	239,235
10/31/08	Euro 15,818,887	United States Dollar 22,287,380		839,832
			\$	1,079,067

At September 30, 2008, the Trust had sufficient cash and/or securities to cover commitments under these contracts.

The cost and unrealized appreciation (depreciation) of investments of the Trust at September 30, 2008, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 508,624,822
Gross unrealized appreciation	\$ 565,094
Gross unrealized depreciation	(79,915,729)
Net unrealized depreciation	\$ (79,350,635)

Restricted Securities

At September 30, 2008, the Trust owned the following securities (representing less than 0.1% of net assets applicable to common shares) which were restricted as to public resale and not registered under the Securities Act of 1933 (excluding Rule 144A securities). The Trust has various registration rights (exercisable under a variety of circumstances) with respect to these securities. The value of these securities is determined based on valuations provided by brokers when available, or if not available, they are valued at fair value using methods determined in good faith by or at the direction of the Trustees.

	Date of			
Description	Acquisition	Shares	Cost	Value
Preferred Stocks				
Hayes Lemmerz International, Series A, Convertible	6/04/03	35	\$ 1,750	\$ 655
Key Plastics, LLC, Series A	4/26/01	15	15,000	0
Total		:	\$ 16,750	\$ 655

The Portfolio adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157 (FAS 157), Fair Value Measurements , effective January 1, 2008. FAS 157 established a three-tier hierarchy to prioritize the assumptions, referred to as inputs, used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including a fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

At September 30, 2008, the inputs used in valuing the Portfolio s investments, which are carried at value, were as follows:

	Investments in	Other Financia
Valuation Inputs	Securities	Instruments*

Level 1	Quoted Prices	\$ 8,620,399	\$ 1,079,067
Level 2	Other Significant Observable Inputs	419,906,977	
Level 3	Significant Unobservable Inputs	746,811	
Total		\$ 429,274,187	\$ 1,079,067

^{*}Other financial instruments are forwards not reflected in the Portfolio of Investments, which are valued at the unrealized appreciation (depreciation) on the instrument.

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Investment	Investments In Securities		
Balance as of June 30, 2008	\$	544,100		
Change in net unrealized appreciation (depreciation)		25,913		
Net purchases (sales)		(1,182)		
Accrued discount (premium)		(220)		
Net transfer to (from) Level 3		178,200		
Balance as of September 30, 2008	\$	746,811		

Interests in senior floating-rate loans (Senior Loans) for which reliable market quotations are readily available are valued generally at the average mean of bid and ask quotations obtained from an independent pricing service. Other Senior Loans are valued at fair value by the investment adviser under procedures approved by the Trustees. In fair valuing a Senior Loan, the investment adviser utilizes one or more of the following valuation techniques: (i) a matrix pricing approach that considers the yield on the Senior Loan relative to yields on other loan interests issued by companies of comparable credit quality; (ii) a comparison of the value of the borrower s outstanding equity and debt to that of comparable public companies; (iii) a discounted cash flow analysis; or (iv) when the investment adviser believes it is likely that a borrower will be liquidated or sold, an analysis of the terms of such liquidation or sale. In certain cases, the investment adviser will use a combination of analytical methods to determine fair value, such as when only a portion of a borrower s assets are likely to be sold. In conducting its assessment and analyses for purposes of determining fair value of a Senior Loan, the investment adviser will use its discretion and judgment in considering and appraising relevant factors. Fair value determinations are made by the portfolio managers of the Trust based on information available to such managers. The portfolio managers of other funds managed by the investment adviser that invest in Senior Loans may not possess the same information about a Senior Loan borrower as the portfolio managers of the Trust. At times, the fair value of a Senior Loan determined by the portfolio managers of other funds managed by the investment adviser that invest in Senior Loans may vary from the fair value of the same Senior Loan determined by the portfolio managers of the Trust. The fair value of each Senior Loan is periodically reviewed and approved by the investment adviser s Valuation Committee and by the Trustees based upon procedures approved by the Trustees. Junior Loans are valued in the same manner as Senior Loans.

Debt obligations, including listed securities and securities for which quotations are available, will normally be valued on the basis of market quotations provided by independent pricing services. The pricing services consider various factors relating to bonds and/or market transactions to determine market value. Short-term debt securities with a remaining maturity of sixty days or less are valued at amortized cost, which approximates market value. If short-term debt securities are acquired with a remaining maturity of more than sixty days, they will be valued by a pricing service. Equity securities listed on a U.S. securities exchange generally are valued at the last sale price on the day of valuation or, if no sales took place on such date, at the mean between the closing bid and asked prices therefore on the exchange where such securities are principally traded. Equity securities listed on the NASDAQ Global or Global Select Market generally are valued at the NASDAQ official closing price. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and asked prices or, in the case of preferred equity securities that are not listed or traded in the over-the-counter market, by an independent pricing service. Forward foreign currency exchange contracts are generally valued using prices supplied by a pricing vendor or dealers. Foreign securities and currencies are valued in U.S. dollars, based on foreign currency exchange rate quotations supplied by an independent quotation service. The independent service uses a proprietary model to determine the exchange rate. Inputs to the model include reported trades and implied bid/ask spreads. Investments for which valuations or market quotations are not readily available are valued at fair value using methods determined in good faith by or at the direction of the Trustees of the Fund considering relevant factors, data and information including the market value of freely tradable securities of the same class in the principal market on which such securities are normally traded.

The Trust may invest in Cash Management Portfolio (Cash Management), an affiliated investment company managed by Boston Management and Research (BMR), a subsidiary of Eaton Vance Management (EVM). Cash Management values its investment securities utilizing the amortized cost valuation technique permitted by Rule 2a-7 of the 1940 Act, pursuant to which Cash Management must comply with certain conditions. This technique involves initially valuing a portfolio security at its cost and thereafter assuming a constant amortization to maturity of any discount or premium.

Item 2. Controls and Procedures

(a) It is the conclusion of the registrant s principal executive officer and principal financial officer that the effectiveness of the registrant s current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the registrant on this Form N-Q has been recorded, processed, summarized and reported within the time period specified in the Commission s rules and forms and that the information required to be disclosed by the registrant on this Form N-Q has been accumulated and communicated to the registrant s principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.

(b) There have been no changes in the registrant s internal controls over financial reporting during the fiscal quarter for which the report is being filed that have materially affected, or are reasonably likely to materially affect the registrant s internal control over financial reporting.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
