**Nanometrics Reports Financial Results for the First Quarter of 2006**

MILPITAS, Calif., April 25, 2006    Nanometrics Incorporated (Nasdaq: NANO), a leading supplier of advanced integrated and standalone metrology equipment to the semiconductor industry, today announced its results for the first quarter ended April 1, 2006.

Revenues for the first quarter of 2006 were \$19.0 million, representing a 33 percent increase over fourth quarter 2005 revenues of \$14.2 million and a 19 percent decrease from restated revenues of \$23.4 million for the first quarter of 2005. Net loss for the first quarter of 2006 was \$1.3 million or \$0.10 per share. This compares to a net loss of \$2.1 million or \$0.16 per share for the fourth quarter of 2005 and net income of \$2.5 million or \$0.18 per diluted share for the restated first quarter of 2005.

Included in the net loss for the first quarter of 2006 is a non-cash charge of \$853,000 for stock-based compensation expenses as required with the adoption of Financial Accounting Standard 123R. The comparative net income and net loss figures for prior periods do not include such a charge.

We are pleased to report a 33 percent sequential increase in revenues for the first quarter of 2006 and a reduced net loss, stated Douglas J. McCutcheon, chief financial officer of Nanometrics. This sequential increase was comprised of a 37 percent sequential increase in product revenues and an 18 percent increase in service revenues. While the product revenue change is a function of customers' increasing need for our products, the service revenue change is a function of redoubled internal efforts to capture post-warranty revenue opportunities. Along with our increased revenue run rate and contributions from acquisitions, we will continue to work towards achieving our target operating model in 2006.

John Heaton, Nanometrics president and chief executive officer added, "Our performance in the first quarter is tangible evidence that our customers are spending and that the improvements we have

made to our business model should result in a return to profitability for Nanometrics. We are also executing on our plan to be a consolidator of this sector, having announced the acquisition of Soluris, Inc. in March and filed the proxy statement for the acquisition of Accent Optical Technologies, Inc. earlier this month. Overall, we are encouraged by what our customers are telling us and we are focused on continued execution of our stated goals for the year.
