Table of Contents

2014 COMPANY PERFORMANCE HIGHLIGHTS

The following summarizes our financial performance and other significant achievements during fiscal year 2014:

- We achieved an 84% total shareholder return (TSR), meaning that \$100 invested in our common stock on July 1, 2013 would have been worth approximately \$184 as of June 30, 2014, assuming the reinvestment of dividends;
- Mt. Milligan reached commercial production in February 2014, produced three straight quarters of volume growth, and in that time became our largest revenue generator as of the quarter ended June 30, 2014;
- We acquired new gold royalty or streaming interests:
 - Gold and copper royalty at Goldcorp's El Morro project;
 - Expansion of our current gold royalty at Barrick's Cortez mine;
 - Gold royalty on the southern end of Barrick's Goldrush project; and
 - Gold stream at Rubicon Minerals' Phoenix project.
- We maintained a strong balance sheet with over \$1 billion in uncommitted liquidity and low debt levels;
- We expanded and extended our revolving credit facility from a \$350 million facility maturing in May 2017 to a \$450 million facility maturing in January 2019; and
- We increased our cash dividend 5% to \$0.84 per share and paid \$53.4 million in dividends, representing a payout ratio of 36% of operating cash flow.

GOVERNANCE HIGHLIGHTS

We are committed to strong and sustainable corporate governance which protects and promotes long-term stockholder value. We recently expanded our governance practices and policies to include:

- Formalization of the role of a lead independent Director when our Chairman of the Board is not independent;
- Implementation of a shareholder engagement program;
- Adoption of a policy prohibiting our officers, Directors and employees from pledging Company stock; and
- Enhancement of our Board orientation program and annual Board and committee evaluation process.

BOARD OF DIRECTORS (page 8)

As a result of (1) the retirement of Stanley Dempsey (our former Chairman of the Board) in May 2014, (2) the conclusion of James W. Stuckert's Board service in November 2013, (3) the retirement of S. Oden Howell, Jr. in March 2014, and (4) the additions of C. Kevin McArthur and Christopher M.T. Thompson as Directors, the composition of our Board of Directors has changed significantly. The characteristics of our Board reflect the following enhanced attributes:

Independence	Average Board Tenure	Director Qualifications
All Directors other than the Chief Executive Officer are independent	The average tenure for our Directors' service on our Board of Directors is 4.5 years	Among other qualifications, every Director has substantial industry expertise

2014 CEO TAKE HOME PAY SUMMARY (page 24)

In addition to reporting our Chief Executive Officer's potential 2014 compensation on the date of grant in the Summary Compensation Table, we include a table showing the actual value of our CEO's Take Home Pay. We define Take Home Pay as actual base salary and actual bonus paid, the vested and in-the-money value of stock options (valued at the fiscal year-end closing stock price each year), vested restricted shares and vested performance shares. We believe that Take Home Pay is a more accurate reflection of the actual value realized by our CEO in the relevant periods.

COMPENSATION HIGHLIGHTS (page 22)

Our compensation program is highly correlated to Company performance and emphasizes long-term compensation incentives over cash compensation. Our compensation program is designed to:

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

- Attract and retain the highest caliber personnel on a long-term basis;
- Link rewards to sustainable business results;
- Emphasize creation of long-term stockholder value and achievement of strategic objectives;
- Discourage excessive risk-taking; and
- Encourage creativity and innovation.

Our Compensation, Nominating and Governance Committee implemented the following design elements when determining fiscal year 2014 executive compensation:

- Over 70% of compensation is performance-based and not guaranteed;
- Salaries are targeted near the 50th percentile of our benchmarking peer group, with the opportunity to receive total direct compensation between the 25th and 75th percentile depending on Company and individual performance;
- Short-term incentives are tied to specific business goals; and
- Long-term incentives align with stockholder interests and vest over a multi-year period.

PROXY STATEMENT

2014 ANNUAL MEETING OF STOCKHOLDERS

STOCKHOLDERS ENTITLED TO VOTE

This Proxy Statement is furnished to holders of:

- Royal Gold, Inc. common stock (common stock), and
- RG Exchangeco Inc. (RG Exchangeco) exchangeable shares (Exchangeable Shares);

each in connection with the solicitation of proxies on behalf of the Board of Directors of Royal Gold, Inc. (the Company or Royal Gold) to be voted at the 2014 Annual Meeting of Stockholders of the Company (the Annual Meeting) to be held on Friday, November 14, 2014, at 9:00 a.m. MST. Stockholders of record holding the following Royal Gold securities at the close of business on September 17, 2014 (the Record Date) are entitled to vote at the Annual Meeting and at all postponements and adjournments thereof:

- Common stock of the Company, par value \$0.01 per share, of which there were 64,810,458 shares outstanding as of the Record Date and entitled to vote, and
- Exchangeable Shares, of which there were 380,482 shares outstanding as of the Record Date and entitled to vote pursuant to the terms of the Special Voting Preferred Stock of the Company described below.

INTERNET AVAILABILITY OF PROXY MATERIALS

We utilize the Securities and Exchange Commission (the SEC) rules allowing us to furnish proxy materials through a notice and access model via the Internet. On or about October 1, 2014, we will furnish a Notice of Internet Availability to our stockholders of record and holders of the Exchangeable Shares containing instructions on how to access the proxy materials and to vote. In addition, instructions on how to request a printed copy of these materials may be found in the Notice. For more information on voting your stock, please see Voting Your Shares below.

VOTING YOUR SHARES

Royal Gold Common Stock

Each share of Royal Gold common stock that you own entitles you to one vote. If you are a stockholder of record, your proxy card shows the number of shares of Royal Gold common stock that you own. If your stock is held in the name of your broker, bank or another nominee (a Nominee), the Nominee holding your stock will send you a voting instruction form. You may elect to vote in one of three methods:

- **By Phone or Internet** - You may vote your shares by following the instructions on your notice card, proxy card or voting instruction form. If you vote by telephone or via the Internet, you do not need to return your proxy card.
 - **By Mail** - If this proxy statement was mailed to you, or if you requested a proxy statement be mailed to you, you may vote your shares by signing and returning the enclosed proxy card or voting instruction form. If you vote by proxy card, your proxy (each or any of the individuals named on the proxy card) will vote your shares as you instruct on the proxy card. If you vote by voting instruction form, the Nominee holding your stock will vote your shares as you instruct on the voting instruction form. If you sign and return the proxy card, but do not give instructions on how to vote your shares, your shares will be voted as recommended by the Board of Directors: (1) FOR the election of Directors as described herein under Proposal 1 - Election of Directors; (2) FOR ratification of the appointment of the Company's independent registered public accountants described
-

Table of Contents

herein under Proposal 2 - Ratification of Appointment of Independent Registered Public Accountants; and (3) FOR a non-binding advisory vote on the compensation of the Named Executive Officers described herein under Proposal 3 Advisory Vote on Compensation of Named Executive Officers.

- **In Person** - You may attend the Annual Meeting and vote in person. We will give you a ballot when you arrive. If your stock is held in the name of a Nominee, you must present a proxy from that Nominee in order to verify that the Nominee has not voted your shares on your behalf.

RG Exchangeco Inc. Exchangeable Shares

Holders of Exchangeable Shares are receiving these proxy materials in accordance with the provisions of the Exchangeable Shares and the voting and exchange trust agreement (the Voting Agreement) dated February 22, 2010, among Royal Gold, RG Exchangeco Inc. and Computershare Trust Company of Canada (the Trustee). Each Exchangeable Share has economic rights (such as the right to receive dividends and other distributions) that are, as nearly as practicable, equivalent to the economic rights applicable to shares of Royal Gold common stock. The Exchangeable Shares are exchangeable at any time at the option of the holders into shares of Royal Gold common stock on a one-for-one basis.

In accordance with the Voting Agreement, holders of Exchangeable Shares are effectively provided with voting rights for each Exchangeable Share that are nearly equivalent to the voting rights applicable to a share of Royal Gold common stock, and holders are entitled to instruct the Trustee how to vote their Exchangeable Shares. The Trustee holds one share of Special Voting Preferred Stock of the Company (the Royal Gold Special Voting Stock) that is entitled to vote on all matters on which the shares of Royal Gold common stock vote. The Royal Gold Special Voting Stock has a number of votes in respect of the Annual Meeting equal to the number of Exchangeable Shares outstanding on the Record Date. Based upon the foregoing, the Trustee will be entitled to cast up to 380,482 votes at the Annual Meeting. However, the Trustee will exercise each vote attached to the Royal Gold Special Voting Stock only on the basis of instructions received from the holders of record of the Exchangeable Shares. In the absence of instructions from a holder as to voting, the Trustee will not exercise any voting rights with respect to the Exchangeable Shares held by such holder.

If you are a holder of record of Exchangeable Shares, there are two ways to vote your Exchangeable Shares:

1. **By Mail** - You may vote by signing and returning the enclosed voting instruction form to the Trustee. This form permits you to instruct the Trustee to vote at the Annual Meeting. The Trustee must receive your voting instruction by 5:00 p.m. MST on November 10, 2014, at the address indicated on the voting instruction form or for an adjourned meeting not less than 48 hours before the time set for the holding of the adjourned meeting. This will give the Trustee time to tabulate the voting instructions and vote on your behalf.

2. **In Person** - Alternatively, if you wish to attend the meeting and vote in person rather than have the Trustee exercise voting rights on your behalf, you may instruct the Trustee (by following the procedures set forth in the enclosed voting instruction form) to give you or your designee a proxy to exercise the voting rights personally at the Annual Meeting. You may also instruct the Trustee to give a proxy to a designated representative of Royal Gold to exercise such voting rights.

Only holders of Exchangeable Shares whose names appear on the records of RG Exchangeco Inc. as the registered holders of Exchangeable Shares on the Record Date are entitled to instruct the Trustee as to how to exercise voting rights in respect of their Exchangeable Shares at the Annual Meeting. If on the Record Date your Exchangeable Shares were held, not in your name, but rather in the name of a Nominee, then you are the beneficial owner of shares held in street name and these proxy materials, if you have received them, are being forwarded to you by that Nominee. The Nominee holding your account is considered to be the stockholder of record for purposes of instructing the Trustee as to how to vote your Exchangeable Shares. As a beneficial owner, you have the right to direct your Nominee on how to instruct the Trustee to vote your Exchangeable Shares.

REVOCATION OF PROXY OR VOTING INSTRUCTION FORM

If you are a holder of common stock, you may revoke your proxy at any time before the proxy is voted at the Annual Meeting. This can be done by either submitting another properly completed proxy card with a later date, sending a written notice of revocation to the Vice President, General Counsel and Secretary of the Company with a later date or by attending the Annual Meeting and voting in person. You should be aware that simply attending the Annual Meeting will not automatically revoke your previously submitted proxy; rather you must notify a Company representative at the Annual Meeting of your desire to revoke your proxy and vote in person. Written notice revoking a proxy should be sent to the Vice President, General Counsel and Secretary, Royal Gold, Inc., 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202.

If you are a holder of Exchangeable Shares, you have the right to revoke any instructions previously given to the Trustee by giving written notice of revocation of such instructions to the Trustee or by executing and delivering to the Trustee a later-dated voting instruction by 5:00 p.m. MST on November 7, 2014, at the address indicated on the voting instruction form or for an adjourned meeting not less than 48 hours before the time set for the holding of the adjourned meeting.

Table of Contents

QUORUM AND VOTES REQUIRED TO APPROVE PROPOSALS

A majority of the outstanding shares of the Company's common stock and Exchangeable Shares entitled to vote, represented in person or by proxy, will constitute a quorum at a meeting of the stockholders. Abstentions and broker non-votes will be counted as being present in person for purposes of determining whether there is a quorum. A broker non-vote occurs when a Nominee holding shares for a beneficial owner does not vote those shares on a proposal because the Nominee does not have discretionary voting authority and has not received voting instructions from the beneficial owner with respect to that proposal.

With respect to Proposal 1, in an uncontested election of Directors, the election of a Director nominee will require an affirmative vote of the majority of the votes cast with respect to that Director nominee at a meeting at which a quorum is present. This means that the number of votes cast FOR a Director nominee must exceed the number of votes cast AGAINST that Director nominee in order for a Director to be elected at the Annual Meeting. The Election of Directors is a non-discretionary item. Therefore, if you hold your Royal Gold common stock through a Nominee and you do not instruct your Nominee how to vote with respect to the election of Directors, your Nominee cannot vote your shares on this proposal. Abstentions and broker non-votes will not be counted as votes FOR or AGAINST this proposal.

With respect to Proposal 2, the affirmative vote of a majority of the votes cast at a meeting at which a quorum is present shall be the act of the stockholders. Abstentions and broker non-votes will have no effect on the outcome of Proposal 2.

With respect to Proposal 3, the affirmative vote of a majority of the votes cast at a meeting at which a quorum is present shall be the act of the stockholders. However, as discussed in further detail in Proposal 3, this proposal is advisory in nature. Abstentions and broker non-votes will have no effect on the outcome of Proposal 3.

Cumulative voting is not permitted for the election of Directors. Under Delaware law, holders of common stock are not entitled to appraisal or dissenters' rights with respect to the matters to be considered at the Annual Meeting.

TABULATION OF VOTES

Votes at the Annual Meeting will be tabulated and certified by Broadridge Financial Solutions, Inc.

SOLICITATION COSTS

In addition to solicitation of proxies by mail or by electronic data transfers, the Company's Directors, officers or employees, without additional compensation, may make solicitations by telephone, facsimile, or personal interview. The Company engaged Morrow & Co., LLC to assist with the solicitation of proxies for a fee of \$15,000, plus expenses. All costs of the solicitation of proxies will be borne by the Company. The

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

Company will also reimburse the banks and brokers for their reasonable out-of-pocket expenses in forwarding proxy materials to beneficial owners of shares of common stock.

Proposal #1: Election of Class III Directors

The Company's Board of Directors consists of three classes of Directors, with each class of Directors serving for a three-year term and until their successors are duly elected and qualified. The Company's current Class I Directors are Messrs. Bogden and Jensen; the Class II Directors are Messrs. Hayes and Vance; and the Class III Directors are Messrs. Haase, McArthur and Thompson.

If the proxy is properly completed and received in time for the Annual Meeting, and if the proxy does not indicate otherwise, the represented shares will be voted FOR M. Craig Haase, C. Kevin McArthur and Christopher M.T. Thompson as Class III Directors of the Company. If any of the nominees for election as a Class III Director should refuse or be unable to serve (an event that is not anticipated), the proxy will be voted for a substitute nominee who is designated by the Board of Directors. Each Class III Director elected shall serve until the 2017 Annual Meeting, or until his successor is elected and qualified.

VOTE REQUIRED FOR APPROVAL

The Company's Amended and Restated Bylaws (Bylaws) require that each Director be elected by the majority of votes cast at a meeting at which a quorum is present with respect to such Director in uncontested elections. This means that the number of shares voted FOR a Director nominee must exceed the votes cast AGAINST that Director nominee. In a contested election (a situation in which the number of nominees exceeds the number of Directors to be elected), the standard for election of Directors would be a plurality of the shares represented in person or by proxy at any such meeting and entitled to vote on the election of Directors. This year's election is expected to be an uncontested election, and the majority vote standard will apply. If a nominee who is serving as a Director is not elected at the Annual Meeting, Delaware law provides that the Director would continue to serve on the Board as a holdover Director. Under the Company's Bylaws, each Director nominee who is serving as a Director has submitted a conditional resignation that becomes effective if such Director is not elected and the Board accepts the resignation. In that situation, the CNG Committee would make a recommendation to the Board of Directors on whether to accept or reject the resignation, or whether to take other action. The Board of Directors will act on the CNG Committee's recommendation and publicly disclose its decision and the rationale behind it within 90 days from the date of the certification of the election results. Absent a determination by the Board that it is in the best interest of the Company for a Director who has failed to be elected to remain on the Board, the Board will accept the resignation. The Director who tenders his resignation will not participate in the decision of the Board of Directors. If a nominee who was not already serving as a Director fails to receive a majority of votes cast with respect to his election at the Annual Meeting, Delaware law provides that the nominee does not serve on the Board as a holdover Director. All of the Class III Director nominees are currently serving on the Board of Directors.

Information concerning the nominees for election as Directors is set forth below under Board of Directors.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR

BOARD OF DIRECTORS COMPOSITION AND PRACTICES**Meetings and Attendance**

During the fiscal year ended June 30, 2014 (fiscal year 2014), the Board of Directors held four regular meetings, three of which included executive sessions of the independent Directors, seven special meetings and took action twice by unanimous written consent. Each Director attended, in person or by telephone, at least 75% of the aggregate number of meetings of the Board of Directors and of the Committee(s) of the Board of Directors on which he served. It is the Company's policy that each Director attends each Annual Meeting. All of the Directors, except Messrs. McArthur and Thompson (who had not yet joined the Board), attended last year's Annual Meeting.

Independence of Directors

The Board of Directors has determined that each Director, except for Mr. Jensen, who is the President and Chief Executive Officer of the Company, is independent under the listing standards of the NASDAQ Stock Exchange (NASDAQ). The Board of Directors has determined that

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

the Directors designated as independent have no relationship with the Company that would interfere with the exercise of their independent judgment in carrying out the responsibilities of a Director.

Board Structure

The Board of Directors does not have a prescribed policy on whether the roles of the Chairman and Chief Executive Officer should be separate or combined, but recognizes the value to the Company of having a non-executive Chairman. Mr. Hayes has served as Chairman of the Board since May 2014, as Chairman of the Audit and Finance Committee since November 2013, and as a Director of the Company since 2008. The Board of Directors has determined that Mr. Hayes is independent under the NASDAQ listing standards and that no relationship exists that would impair Mr. Hayes's independence.

On December 31, 2012, a new Toronto Securities Exchange (TSX) requirement took effect, providing that all directors of a TSX listed company must stand for re-election at each annual general meeting of stockholders. Royal Gold applied for and received a

Table of Contents

waiver of this requirement from the TSX in 2013 and an extension of the waiver in 2014, subject to disclosing receipt of the waiver in this Proxy Statement. The annual election of each director is not required under the laws of Delaware or NASDAQ rules.

Board Orientation and Composition

With the addition of C. Kevin McArthur and Christopher M.T. Thompson to the Board during fiscal 2014, the Company augmented its existing Board orientation program to efficiently introduce these new directors to the Company, and to expeditiously incorporate them into Board operations.

Messrs. McArthur and Thompson, as well as each of the other Directors, has corporate governance, industry and mining, leadership and risk management experience, in addition to other qualifications and expertise.

Board Oversight of Risk Management

The Board of Directors has overall responsibility for risk oversight with a focus on the most significant risks facing the Company. The Board of Directors relies upon the President and Chief Executive Officer to supervise day-to-day risk management. The President reports directly to the Board and certain Board Committees on such matters, as appropriate.

The Board of Directors delegates certain oversight responsibilities to its Committees. For example, while the primary responsibility for financial and other reporting, internal controls, compliance with laws and regulations, and ethics rests with the management of the Company, the Audit and Finance Committee provides risk oversight with respect to the Company's financial statements, the Company's compliance with certain legal and regulatory requirements and corporate policies and controls, and the independent auditor's selection, retention, qualifications, objectivity and independence. Additionally, the Compensation, Nominating and Governance Committee provides risk oversight with respect to the Company's compensation program, governance structure and processes, the Company's compliance with certain legal and regulatory requirements, and succession planning.

The Board also oversees a robust enterprise risk management program to identify, define, manage and, when necessary, mitigate risks confronting the Company. The enterprise risk management program is managed, reviewed and updated by management on an ongoing basis, and reviewed by the Board of Directors quarterly.

Audit and Finance Committee (AF Committee)

The AF Committee is a standing committee of the Board of Directors, consisting of William M. Hayes, as Chairman, Gordon J. Bogden and Christopher M.T. Thompson. All members of the AF Committee are independent under the NASDAQ listing standards and Rule 10A-3(b)(1) of

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

the Securities Exchange Act of 1934, as amended. The Board of Directors has determined that each of Messrs. Hayes, Bogden and Thompson is an audit committee financial expert as that term is defined in Item 407(d) of Regulation S-K. As an audit committee financial expert, Messrs. Hayes, Bogden and Thompson satisfy the NASDAQ financial literacy and sophistication requirements.

The AF Committee held seven meetings during fiscal year 2014. The Audit and Finance Committee Charter is available on the Company's website at www.royalgold.com.

The AF Committee assists the Board of Directors in its oversight of the integrity of the Company's financial statements and compliance with legal and regulatory requirements and corporate policies and controls. The AF Committee has the direct responsibility to retain and terminate the Company's independent registered public accountants, review reports of the independent registered public accountants, approve all auditing services and related fees and the terms of any agreements, and to pre-approve any non-audit services to be rendered by the Company's independent registered public accountants. The AF Committee monitors the effectiveness of the audit process and the Company's financial reporting, reviews the adequacy of financial and operating controls and evaluates the effectiveness of the AF Committee. The AF Committee is responsible for confirming the independence and objectivity of the independent registered public accountants. The AF Committee is also responsible for preparation of the AF Committee report for inclusion in the Company's Proxy Statement.

The AF Committee also reviews and provides oversight of the Company's financial strategy, capital structure and liquidity position, including review and oversight of transactions involving public offerings of the Company's equity and debt securities, transactions involving material debt obligations, dividend policies and practices, liquidity and cash flow position, tax strategy and tax compliance, and investment policies and strategy. The AF Committee also reviews and provides oversight of transactions and expenditures specifically delegated to it by the Board of Directors and performs such other financial oversight responsibilities as the Board of Directors may request.

In addition, the AF Committee reviews and approves all related-party business transactions in which any of the Company's officers, Directors or nominees for Director have an interest and that may be required to be reported in the Company's periodic reports and reports to the full Board of Directors about whether it has approved such a transaction. The standards applied by the AF Committee when reviewing and approving related-party transactions are found in the Audit and Finance Committee Charter,

Table of Contents

which provides, in pertinent part, that the Audit and Finance Committee shall review and approve any related-party business transactions, preferably in advance, in which the corporation's officers or Directors have an interest and that would be required to be reported by the corporation in its periodic reports pursuant to the rules and regulations of the SEC. Beyond this, when reviewing and approving transactions with related persons, the AF Committee will use applicable standards under Delaware law to approve or reject related-party transactions, including disinterested Director approval based on fairness to the Company and the best interests of the Company and its stockholders.

Compensation, Nominating and Governance Committee (CNG Committee)

The Board of Directors has a standing CNG Committee. The CNG Committee consists of M. Craig Haase, as Chairman, C. Kevin McArthur and Ronald Vance. All members of the CNG Committee are considered outside Directors, as defined under Section 162(m) of the Internal Revenue Code, non-employee Directors, as defined under Rule 16b-3 under the Securities Exchange Act of 1934, and each member is independent under applicable NASDAQ listing standards.

The CNG Committee held five meetings during the fiscal year and took action twice by unanimous written consent. The CNG Committee Charter is available on the Company's web site at www.royalgold.com.

The CNG Committee oversees the Company's compensation policies, plans and programs; it reviews and determines the compensation to be paid to executive officers; and it recommends compensation to be paid to the Company's Directors (which is approved by the full Board). The CNG Committee also administers and implements the Company's incentive compensation and equity-based plans. The CNG Committee is responsible for overseeing the preparation of the Compensation Discussion and Analysis and preparing the report on executive compensation for public disclosure in the Company's Proxy Statement.

The CNG Committee may form subcommittees and delegate to its subcommittees such power and authority as it deems necessary or advisable. The CNG Committee has no current intention to delegate any of its authority with respect to determining executive officer compensation to any subcommittee. The CNG Committee does not delegate its responsibilities with respect to executive compensation to any executive officer of the Company.

In addition to compensation matters, the CNG Committee also identifies or reviews individuals proposed to become members of the Board of Directors and recommends Director nominees. In selecting Director nominees, the CNG Committee assesses the nominee's independence and considers his or her experience and areas of expertise, including experience in the mining industry, diversity, perspective, broad business judgment and leadership, all in the context of the perceived needs of the Board of Directors at that time. The Company does not have a separate policy regarding the consideration of diversity in selecting Director nominees. However, the CNG Committee considers a diverse range of criteria in nominee selection including social, technical, political, management, legal, governance, finance and broader business experience as well as other areas of expertise. This is considered through discussions at the CNG Committee meetings.

The CNG Committee will consider Director candidates recommended by stockholders using the same criteria outlined above, provided such written recommendations are submitted to the Vice President, General Counsel and Secretary of the Company in accordance with the advance notice and other provisions of the Company's Bylaws.

The CNG Committee also advises the Board of Directors regularly on various corporate governance matters and principles, including regulatory actions impacting the Company. The CNG Committee reviews the content of and compliance with the Company's Board of Directors Governance Guidelines annually.

Compensation Committee Interlocks and Insider Participation

None of the members of the CNG Committee are or have been officers or employees of the Company. No interlocking relationship existed between our Board of Directors or our CNG Committee and the Board of Directors or compensation committee of any other company during fiscal year 2014.

Communication with Directors

Any stockholder who desires to contact the Company's Board of Directors may do so by writing to the Vice President, General Counsel and Secretary, Royal Gold, Inc., 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202. Any such communication should state the number of shares beneficially owned by the stockholder making the communication. The Vice President, General Counsel and Secretary will forward any such communication to the Chairman of the CNG Committee, and will forward such communication to other members of the Board of Directors as appropriate, provided that such communication addresses a legitimate business issue. Any communication relating to accounting, auditing or fraud will be forwarded to the Chairman of the AF Committee.

Code of Business Ethics and Conduct

The Company adopted a Code of Business Ethics and Conduct (the "Code") applicable to all of its Directors, officers and employees, including the President and Chief Executive Officer, the Chief Financial Officer and Treasurer, and other persons performing financial reporting functions. The Code is reviewed on a yearly basis. The Code is available on the Company's website at www.royalgold.com. The Code is designed to deter wrongdoing and promote (a) honest and ethical conduct; (b) full, fair, accurate, timely and understandable disclosures; (c) compliance with laws, rules and regulations; (d) prompt internal reporting of Code violations; and (e) accountability for adherence to the Code. The Company will post on its website any amendments to, or waivers from, any provision of the Code.

Board Governance Guidelines

The Board of Directors, upon recommendation from the CNG Committee, adopted Board of Directors' Governance Guidelines to assist the Board of Directors in the discharge of its duties and to serve the interests of the Company and its stockholders. The Board of Directors' Governance Guidelines are reviewed on a yearly basis. The Board of Directors' Governance Guidelines are available on the Company's website at www.royalgold.com.

Anti-Hedging, Anti-Pledging and Short Sale Policies

The Company's insider trading policy prohibits Directors, the Company's executive officers and employees on the Company's restricted trading list from trading in the Company's common stock on a short term basis, purchasing the Company's common stock on margin, short sales of Company stock, buying or selling put or call options or other derivative securities relating to Company stock, engaging in hedging or monetization transactions, such as collars, equity swaps, prepaid variable forwards and exchange funds with respect to the Company's common stock, pledging Company stock as security for any obligation, participating in investment clubs that invest in the Company's securities, holding the Company's securities in a margin account, and, other than pursuant to a qualified trading plan, placing open orders (i) of longer than three business days or (ii) ending after a trading window has closed.

Trading Controls

Directors, executive officers and employees on the Company's restricted trading list are required to receive the permission of the Company's Vice President, General Counsel and Secretary prior to entering into any transactions in Company securities, including gifts, grants and transactions involving derivatives. Generally, trading is permitted only during open trading periods. Directors, executive officers and employees on the Company's restricted trading list may enter into a trading plan under Rule 10b5-1 of the Securities Exchange Act of 1934, as amended. These trading plans may be entered into only during an open trading period and must be approved by the Company.

Certain Relationships and Related Transactions

The AF Committee's charter requires it to approve or ratify certain related party transactions. Any transaction with a related person, other than transactions available to all employees generally or involving aggregate amounts of less than \$120,000, must be approved or ratified by the AF Committee. The policy applies to all executive officers, Directors and their family members and entities in which any of these individuals has a substantial ownership interest or control.

In accordance with its charter, the disinterested members of the AF Committee considered and approved the following related party transaction during fiscal year 2014. Crescent Valley Partners, L.P. (CVP), formed in 1992, owns a 1.25% net value royalty on production of minerals from portions of Barrick Gold Corporation's Cortez gold mine in Nevada. A wholly-owned subsidiary of the Company, Denver Mining Finance Company (DMFC), is the general partner of CVP and prior to the transaction held an aggregate 31.633% limited partner interest. This interest equated to a 0.395% net value royalty on all of the lands covered by the royalty, except for the mining claims comprising the Crossroad Claims over which DMFC owned no royalty interest. On January 2, 2014, DMFC increased its ownership interest in the royalty by acquiring all or a portion of the limited partnership interests of nine CVP limited partners, aggregating 49.465% of the outstanding limited partnership interests, for aggregate consideration of approximately \$11.5 million. The limited partners from whom DMFC acquired limited partnership interests included our former Chairman of the Board of Directors, Stanley Dempsey, who retired from the Board on May 30, 2014, and two other former members of our Board: S. Oden Howell, who retired from the Board on March 13, 2014; and James Stuckert, whose Board service ended at our 2013 Annual Meeting. Mr. Dempsey sold 3.0% out of his total 3.063% limited partnership interest to DMFC for approximately \$0.7 million, Mr. Howell sold his entire 8.0% limited partnership interest for approximately \$1.9 million, and Mr. Stuckert sold his entire 24.5% limited partnership interest for approximately \$5.7 million. As a result of the transaction, DMFC now holds 81.098% of the outstanding limited partnership interests in CVP, equating to a 1.014% net value royalty on production from the lands covered by the royalty excluding the Crossroad Claims, and a 0.618% net value royalty on production from the Crossroads Claims. Upon recommendation of the AF Committee, the disinterested members of the Board also reviewed and approved the transaction.

Table of Contents**Director Compensation**

Royal Gold's compensation for non-employee Directors is designed to reflect current market trends and developments with respect to compensation of board members. The Company does not have a retirement plan for non-employee Directors. Executive officers who are also Directors are not paid additional compensation for their services on the Board of Directors. Therefore, Mr. Jensen, as President and Chief Executive Officer, does not receive any compensation for his services as a Director.

The CNG Committee is responsible for evaluating and recommending to the independent members of the Board of Directors the compensation for non-employee Directors. The independent members of the Board of Directors approve non-employee Director compensation based on the recommendation of the CNG Committee.

Director Compensation Peer Group Benchmarking

In May 2013, the CNG Committee retained Frederic W. Cook & Co., Inc. (Frederic W. Cook) to review executive compensation for fiscal year 2014, and Director compensation for fiscal year 2015. Frederic W. Cook presented a Director compensation benchmark study to the CNG Committee in July 2014 (the 2014 Study), which reviewed annual cash retainers, fees for attending Board and committee meetings, fees for committee membership, and the annualized present value of equity compensation for a benchmark peer group. Royal Gold's philosophy regarding Director compensation aligns with its philosophy toward executive compensation with a higher proportion of compensation in equity than cash. Specifically, we target 40% cash and 60% equity. The 2014 Study found that total Director compensation, on average, was in line with the peer median and recommended only minor adjustments to maintain the appropriate weighting between cash and equity compensation.

Proposal #2: Ratification of Appointment of the Independent Auditors for 2015

Independent Registered Public Accountants

The AF Committee and the Board of Directors are seeking stockholder ratification of the appointment of Ernst & Young LLP, an independent registered public accounting firm, to audit the consolidated financial statements of the Company for the fiscal year ending June 30, 2015.

The ratification of the appointment of Ernst & Young LLP is being submitted to the stockholders because the AF Committee and the Board of Directors believe this to be a good corporate practice. Should the stockholders fail to ratify this appointment, the AF Committee will review the matter.

Representatives of Ernst & Young LLP are expected to attend the Annual Meeting. They will have an opportunity to make a statement, if they so desire, and will have an opportunity to respond to appropriate questions from the stockholders.

Pre-Approval Policies and Procedures

The AF Committee has adopted a policy that requires advance approval for all audit, audit-related, tax services, and other services performed by the independent registered public accounting firm. The policy provides for pre-approval by the AF Committee of specifically defined audit and non-audit services. Unless the specific service has been previously pre-approved with respect to that year, the Audit and Finance Committee must approve the permitted service before the independent auditor is engaged to perform such service. The AF Committee has delegated to the Chairman of the AF Committee authority to approve certain permitted services, provided that the Chairman reports any such decisions to the AF Committee at its next scheduled meeting. The AF Committee pre-approved all of the services described above for the Company's 2014 fiscal year.

Proposal #3: Advisory Vote on Compensation of Named Executive Officers

We are asking stockholders to approve an advisory resolution on the compensation of our NEOs as described in the Compensation Discussion and Analysis, the compensation tables and related narrative discussion included in this Proxy Statement. This proposal, commonly known as a Say on Pay proposal, gives stockholders the opportunity to approve, reject or abstain from voting with respect to our fiscal year 2014 executive compensation programs and policies and the compensation paid to the NEOs. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs as described in this Proxy Statement.

The Board recommends a FOR vote because it believes that our compensation policies and practices are effective in achieving the Company's goals of paying a competitive salary, providing attractive annual and long-term incentives to reward growth and linking managements' interests with stockholders' interests.

Key characteristics of our executive officer compensation program include the following:

- Over 70% of our executive officers' total direct compensation for fiscal 2014 was performance based. Cash bonuses can only be awarded and performance-based restricted stock can only vest when the Company achieves at least \$175 million in Adjusted EBITDA (defined by the Company to mean earnings before interest, taxes, depreciation and amortization, and other non-cash charges); and performance stock awards will vest only if the Company achieves 10% compound annual growth in adjusted free cash flow per share, or 25% increments thereof.
- The Company's executive stock ownership program requires each of the Company's NEOs to own a number of shares valued at a multiple of his salary to assure that their interests are aligned with those of our stockholders.
- The Company believes perquisites for executives should be extremely limited in scope and value and, therefore, does not provide perquisites or other special benefits to the executive officers.
- The Company's LTIP expressly prohibits the re-pricing of stock options.
- The Company's executives may participate in our SARSEP Plan on the same terms as other eligible employees. The Company does not maintain a defined pension benefit plan.

- The employment agreements between the Company and the NEOs do not provide for excise tax gross-ups for change-in-control provisions.
- The Company applies a double trigger approach to vesting awards made under the Company's 2004 Omnibus Long-Term Incentive Plan (LTIP) in the event of a change-in-control. This means that vesting of these awards is accelerated upon a change-in-control only if the executive is also terminated under certain circumstances.

Stockholders are asked to approve the following advisory resolution:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby approved.

Although the vote on this proposal is advisory only, the CNG Committee will review and consider the voting results when evaluating our executive compensation program.

VOTE REQUIRED FOR APPROVAL

The affirmative vote of a majority of the votes cast at a meeting at which a quorum is present is required to approve this proposal.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR
APPROVAL OF THE ADVISORY RESOLUTION ON EXECUTIVE COMPENSATION.**

Compensation Discussion and Analysis

Compensation, Nominating and Governance Committee Report

The Compensation, Nominating and Governance Committee of the Board of Directors has reviewed and discussed with management the following Compensation Discussion and Analysis. Based on this review and discussion, the Compensation, Nominating and Governance Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement.

This report is provided by the following independent Directors, who comprise the Compensation, Nominating and Governance Committee:

M. Craig Haase, Chairman • C. Kevin McArthur • Ronald J. Vance

EXECUTIVE SUMMARY

Our executive compensation program is specifically designed to recruit, retain and reward high-performing executive officers who will: (1) drive company growth and profitability, (2) increase long-term value for our stockholders, (3) manage the Company in a responsible manner, and (4) maintain the Company's reputation for management excellence. Compensation is closely linked to performance when awarding variable pay elements, such as the annual cash bonus and long-term incentive plans.

Royal Gold's Compensation Objectives

The CNG Committee is responsible for, among other things, setting and administering our compensation philosophy, design, objectives and policies governing the compensation of our executive officers. The CNG Committee adopted the following compensation objectives:

- Attract and retain the highest caliber personnel on a long-term basis;
- Link rewards to sustainable business results;

- Emphasize creation of long-term stockholder value and achievement of strategic objectives;
- Discourage excessive risk-taking; and
- Encourage creativity and innovation.

Compensation Design Approach

The CNG Committee aims to provide a portfolio of compensation elements to executives, including base salary, annual cash bonus and long-term incentives. The majority of target compensation is offered in variable pay, with an emphasis on long-term equity, to best align our executives with stockholder interests.

- Over 70% of total direct compensation is performance-based and not guaranteed;
- Salaries are targeted near the 50th percentile of our peers, with opportunity to receive total direct compensation between the 25th and 75th percentile depending upon Company and individual performance;
- Short-term incentives (STI s) are tied to specific business and strategic goals; and
- Long-term incentives (LTI s) are aligned with stockholder interests and vest over a multi-year period.

WHAT'S NEW FOR FISCAL YEAR 2014

Fiscal 2014 Key Success Factors

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

The 2014 fiscal year was successful for Royal Gold, with an 84% total shareholder return (TSR).

- We acquired a royalty on the El Morro Project in the Third Region of Chile.
- We increased our interest in a net value royalty covering certain portions of the Pipeline mining complex at Cortez, and we acquired a royalty interest at the Goldrush deposit, both interests in Nevada, USA.
- We acquired a gold stream on the Phoenix Gold Project in Ontario, Canada.
- Production at Mt. Milligan began during the third quarter of calendar 2013, with commercial production reached during the first quarter of calendar 2014. Since that time, Mt. Milligan has become our single largest revenue generator.
- We expanded and extended our revolving credit facility from a \$350 million facility maturing in May 2017 to a \$450 million facility maturing in January 2019.
- We increased our calendar year dividend to \$0.84 per basic share, which is paid in quarterly installments throughout calendar year 2014. This represents a 5% increase compared with the dividend paid during calendar year 2013, and was the 13th straight year of increasing dividends.

Table of Contents**CEO Take Home Pay Compared to Grant Date Value Potential Compensation**

The following table shows the value of compensation realized by our Chief Executive Officer (CEO) at the end of fiscal 2014. It compares the potential compensation on the date of grant reported in the Summary Compensation Table (SCT) with the actual value of our CEO s Take Home Pay. We define Take Home Pay as actual base salary and actual bonus paid, the vested and in-the-money value of stock options (valued at the fiscal year-end closing stock price each year), vested restricted shares and vested performance shares.

We believe that Take Home Pay is a more accurate reflection of the actual value that our CEO realized in the period. In contrast, grant date fair value (the value used in SCT disclosure) estimates the potential value of compensation on the day it was granted using a number of assumptions, including Black Scholes Merton model expectations for option value. Importantly, the grant date fair value also assumes 100% vesting of all non-cash awards when, in fact, only 25% of the performance shares awarded in fiscal year 2012 have vested, and none of the performance shares awarded in fiscal years 2013 and 2014 have vested. We believe that comparing Take Home Pay with grant date fair value helps investors understand the sensitivity of our plan to actual financial and market performance, as well as distinguishing compensation actually received from theoretical compensation.

Table 2 - CEO Pay Versus Indexed Total Shareholder Return

	2012	2013	2014
SCT Pay	\$ 3,183	\$ 2,721	\$ 3,928
Take Home Pay*	\$ 4,286	\$ 2,903	\$ 2,296
1-Yr TSR	35%	-46%	84%
Indexed TSR	100.0	54.1	99.6

*Take Home Pay represents actual base salary and actual bonus paid, the vested and in-the-money value of stock options (valued at the fiscal year-end closing stock price each year), vested restricted shares and vested performance shares.

Despite 1-year total shareholder return increasing 84% in fiscal year 2014, Take Home Pay for 2014 is lower than the estimated grant date fair value, as none of our outstanding performance shares were earned in fiscal 2014 due to only partial achievement of our challenging goals.

Changes Made in Response to Investor Feedback and Governance Reviews

We view stockholder engagement as a year-round activity. At our 2013 annual meeting, stockholders showed their support for our executive compensation plan. While a majority supported our plan, the vote fell below our expectations. In response, members of our management met with several of our largest stockholders during the course of the year to solicit their input and feedback. These discussions generally confirmed support for our executive compensation plan and approach to pay for performance and also identified some areas for additional disclosure. Importantly, our largest stockholders also told us they evaluate our performance against companies we believe to be our peers – companies having comparable market capitalization in the precious metal mining and royalty business, where revenues are generally correlated with gold price performance.

Table of Contents

The CNG Committee carefully considered stockholder feedback as well as best governance practices in the gold mining industry in the design of and disclosure concerning our compensation plan. Specifically, the CNG Committee decided to:

- Expand disclosure regarding performance-related vesting and bonus criteria, including:
- Specifying STI and LTI targets and rationale for target selection;
- Specifying performance criteria and describing bonus calculations;
- Identifying growth in adjusted free cash flow per share (AFCFPS) as the specific performance metric triggering performance share vesting;
- Describe and show CEO Take Home Pay; and
- Adopt a policy prohibiting Directors and officers from pledging or hedging Company shares.

COMPENSATION BEST PRACTICES

Retention of Compensation Best Practices Already in our Plan

Investors tell us that many components of our existing executive compensation plan align with governance best practices, so we uphold these measures without any changes in 2014.

What We Do:

- Over 70% of our NEOs' direct compensation and over 80% of our CEO's direct compensation for fiscal 2014 was performance-based and not guaranteed.

- We will continue to use a company-selected peer group of gold-focused companies of comparable market capitalization, EBITDA and correlation to gold price when making benchmarking comparisons.
- Our executive stock ownership program requires the Company's NEOs to own a number of shares valued at a multiple of their salary to assure that their interests are aligned with those of our stockholders.
- The Board of Directors sets challenging short and long-term goals focused on generating long-term returns for stockholders.
- We engage with stockholders to solicit feedback on our compensation programs and any areas of concern.
- We continually monitor our compensation programs to assess and mitigate any compensation-related risks.
- We apply a "double trigger" approach to vesting awards made under the LTIP in the event of a change-in-control. This means that vesting of these awards is accelerated upon a change-in-control only if the executive is also terminated under certain circumstances.

What We Don't Do:

- We do not guarantee salary increases.
- We do not provide perquisites or other special benefits to the executive officers.
- The Company's LTIP expressly prohibits the re-pricing of stock options.

- We prohibit our Directors and officers from hedging or pledging Royal Gold stock.

Table of Contents

- The Company does not maintain a defined pension benefit plan or any special executive retirement plans. Our executives may participate in a Salary Reduction/Simplified Employee Pension Plan on the same terms as other eligible employees.
- The employment agreements between the Company and the NEOs do not provide for excise tax gross-ups for change-in-control provisions.

COMPENSATION DETERMINATIONS

Our Process

We Have High Expectations of Our Executives

Royal Gold is a lean organization, employing only twenty individuals and charging them with responsibility for successfully managing and growing the Company's business.

Our CNG Committee's Process is Independent

The CNG Committee establishes compensation objectives and reviews them annually with the Board of Directors. The CNG Committee also receives recommendations from independent compensation and benefits consultants as well as the CEO. In addition to receiving technical support and input on market practices, the CNG Committee's goal in utilizing compensation and benefits consultants is to receive external benchmark information for assessing compensation relative to the Company's peers.

The CNG Committee considers, but is not bound by, external recommendations in making annual bonus and long-term incentive award determinations. The CNG Committee conducts an annual review of the President and Chief Executive Officer's performance, and all determinations relating to the President and Chief Executive Officer's compensation are made by the CNG Committee independent from and without the presence of members of management.

We Use Compensation Consultants for Benchmarking and Analysis

The Company benchmarks the compensation of its Directors and its executive officers in alternating years, based upon studies conducted by independent compensation consultants reporting directly to the CNG Committee. In May 2013, the CNG Committee retained Frederic W. Cook to review executive compensation for fiscal year 2014, and Director compensation for fiscal year 2015. Frederic W. Cook presented an

executive compensation benchmark study to the CNG Committee in August 2013 (the 2013 Study), which reviewed the Company's base salaries, annual bonuses, benefits, non-cash compensation and long-term incentives in comparison with the Company's benchmark peer group, and provided a review of the competitiveness, fairness and effectiveness of each component of compensation. In June 2014, the CNG Committee engaged Towers Watson to assist with benchmarking best practices in executive compensation and governance as well as to provide input on selecting the most appropriate peer group. The CNG Committee conducted a conflict of interest assessment by using factors applicable to compensation consultants under SEC rules and NASDAQ listing standards, and determined that the consulting services provided by each of Frederic W. Cook and Towers Watson do not raise any conflicts of interest or independence concerns.

We Select Benchmarking Peers that Match Our Industry, Business Model, Market Cap, EBITDA and Correlation to Gold Price

The 2013 benchmark peer group, recommended by Frederic W. Cook with input from the CNG Committee and management, consisted of the same 11 companies which constituted the Company's previous benchmark peer group compiled in 2011 plus two additional companies, Eldorado Gold and Agnico Eagle Mines. The two new companies, larger than most of the prior peers, were added to better position the Company in the middle of the group in terms of market capitalization, as the Company's market capitalization grew relative to the prior peer group since the previous benchmarking study in 2011 from below median to the top quartile.

Royal Gold selects its peers based primarily on strong business model matches, with all companies specializing in gold or silver. We continue to find this an appropriate peer group due to the following factors:

- Our EBITDA is in the 35th percentile of the peer group. We believe EBITDA is the best measure for comparing Royal Gold to our peers due to our unique business model that results in approximately 80-85% of revenue reporting to EBITDA (typically much higher than other business models).
- Royal Gold's market capitalization is near the 69th percentile of its peers.
- Gold industry-specific peers share our correlation between company share price and gold prices.
- Gold industry-specific companies represent our closest competitive market for executive talent and an appropriate comparison for determining market pay practices.

Table of Contents

- During recent stockholder engagement conversations, several of our largest investors indicated that they consider our gold-focused peer group to be appropriate.

The following table represents a detailed comparison of our selected peer group.

We Compare Our Officer Compensation against our Benchmarking Peers

The 2013 Study utilized several data sets to compare the Company's NEO compensation with benchmark NEO compensation, including professional discipline comparisons, comparisons between the highest paid officers and our NEOs, and comparing our NEOs against the average of the second to fifth highest paid benchmark officers. The results of the 2013 Study were presented to the CNG Committee and referenced against fiscal 2013 salaries. As a group, the Company's executive officer fiscal 2013 cash compensation (salary and bonus) was, on average, at about the 23rd percentile, and total direct compensation (base salary, bonus and long-term incentives) was, on average, at about the 44th percentile. In light of the 2013 Study, and following other analyses and deliberation, the CNG Committee approved bonuses for fiscal 2013, as well as the base salaries and non-cash compensation awards for fiscal 2014 described below.

Base Salary

We Benchmark Base Salary at Median with Upside Based on Performance

Base salary is the fixed cash amount paid to an executive officer on a fiscal year cycle. Employment agreements for Messrs. Jensen, Heissenbittel, Kirchhoff, Wenger and Zisch provide a minimum salary level.

The CNG Committee believes it is appropriate to target base salary and cash bonuses near the median of the market, with the opportunity to receive total direct compensation between the 25th and 75th percentile depending upon Company and individual performance. In making compensation decisions, market data is evaluated for our benchmark peer group, as described above. In determining specific compensation amounts for executives, the CNG Committee considers both internal and external factors, including: (1) experience; (2) individual performance; (3) tenure; (4) role in achieving six key performance measures that the CNG Committee believes are the key drivers of the Company's long-term success and stock price appreciation (Key Performance Measures as described below); and (5) compensation compared to the Company's other officers and to the Company's benchmark peer group.

Table of Contents

In order to achieve competitive cash compensation, based on the 2013 Study, the CNG Committee approved an increase in base salary for Mr. Jensen from \$575,000 to \$593,000, Mr. Heissenbuttel from \$330,000 to \$360,000, Mr. Kirchhoff from \$285,000 to \$330,000, Mr. Wenger from \$305,000 to \$350,000 and Mr. Zisch from \$320,000 to \$350,000 for fiscal year 2014.

Bonus Awards

Cash Bonuses Are Only Awarded When the Corporate Performance Threshold is Achieved

Bonus payments are directly tied to the Key Performance Measures summarized in Table 4 below, but are only awarded if a specific corporate performance threshold is achieved. For fiscal 2014, the corporate performance threshold was \$175 million in Adjusted EBITDA. (The Company defines Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, and other non-cash charges.) Because the Company achieved approximately \$202 million in Adjusted EBITDA during fiscal 2014, the CNG Committee determined that the corporate performance threshold was met.

Determination of Bonus Awards if Adjusted EBITDA Hurdle is Achieved

Following is a summary of the Key Performance Measures considered by the CNG Committee.

Table 4 Key Performance Measures

Key Performance Measure	Why it is important
Revenue Growth	Finding new investments that will be accretive to total shareholder return
Cost Containment	Keeping costs low to maximize profit margins
Financial Strength	Ensuring we have the capital required to support revenue growth investments
Asset Protection	Making sure our existing assets continue to deliver value for stockholders

Governance

Operating in accordance with strong governance principles and aligning our company's interests with stockholders

Marketing

Maintaining a strong market valuation

If the corporate performance threshold is achieved, the CNG Committee evaluates the following criteria, taking into consideration recommendations from the Company's President and Chief Executive Officer: (i) the Company's performance against the Key Performance Measures, (ii) each individual executive's influence upon the same Key Performance Measures, and (iii) alignment of each executive officer's salary and cash bonus near the median of the Company's benchmark peers. Each executive officer receives a composite score based on the Company's performance on the Key Performance Measures and the degree to which the executive officer is determined to have influence over them. The composite score is then applied to the executive officer's target cash bonus range to determine a bonus amount. The CNG Committee has authority to exercise positive or negative discretion before making final bonus determinations, to permit consideration of an individual officer's exceptional or weak performance, as well as the dynamics of Royal Gold's business, the correlation of Royal Gold's share price to precious metals prices, the market volatility of such prices, and other prevailing industry economic factors. The CNG Committee did not exercise such discretion for any NEO when making final fiscal 2014 bonus determinations.

Table 5 summarizes the Company's performance and each NEO's influence as they relate to each of the Key Performance Measures.

Long-Term Incentives Designed to Align Management Objectives with Stockholders

The CNG Committee administers the 2004 Omnibus Long-Term Incentive Plan (LTIP), a long-term stock-based incentive plan designed to balance cash compensation with the need for sustainable results, and to align the interests of executive officers with the interests of stockholders. Long-term equity compensation is designed to incentivize executive officers to manage the Company's business over a multi-year period by delivering a significant portion of each officer's potential total compensation at a future date.

- The CNG Committee administers the LTIP by:
 - undertaking a careful risk analysis to assure that executive officers are guided by appropriate incentives while discouraged from taking excessive risk;

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

- establishing performance metrics and targets;
 - considering the degree to which targets have been met; and
 - determining the equity awards for our NEOs each year.
-
- The annual award of long-term of incentive awards is driven primarily by:
 - the Company's overall compensation goals for each individual executive officer;
 - the amount deemed appropriate to encourage the officer's best efforts on behalf of the Company;
 - the Company's desire to retain the officer as an employee;
 - the officer's relative level in the Company;
 - the individual officer's ability to impact strategic business goals; and
 - the individual officer's total compensation relative to total compensation of similarly situated officers in the peer group companies.

In determining the amount of equity awards made under the LTIP in August 2013, the CNG Committee considered the combination of base salary and bonus for each individual, and then approved equity awards that, when added to each individual's cash awards, would allow the individual to progress toward his or her total direct compensation target.

Table of Contents

In determining the form of equity awards made in August 2013, the CNG Committee considered the purposes intended to be served by the Company's three forms of equity awards, as discussed below.

Our Three Forms of Equity Awards Serve Different Purposes

The final determination of the amount and form of all equity awards is made by the CNG Committee. Because each form of equity serves a different purpose, and because the award of each form of equity is driven by different metrics, the CNG Committee does not utilize predetermined LTIP awards based upon a percentage of base salary.

The CNG Committee utilizes three forms of equity compensation:

- **Performance-Based Restricted Stock**, which is intended to drive retention, will not vest unless an Adjusted EBITDA hurdle is met at the end of the fiscal year in which the grant is made;
- **Stock Options and SARs**, which are intended to promote sustainable business results by aligning employee interests with increased stockholder returns; and
- **Performance Shares**, which are intended to incentivize our officers to attain difficult-to-reach strategic objectives – the achievement of threshold increases in adjusted free cash flow per share.

Equity is Granted Each Year, With No Off-Cycle Grants

Equity grants are made once annually, near the start of each fiscal year. Members of Royal Gold's management do not have authority to make off-cycle or ad-hoc equity grants. In the event of a new hire grant, approval is obtained prior to any grant being made either at a regularly scheduled CNG Committee meeting or by unanimous written consent of the CNG Committee.

Stock Options Are Not Subject to Any Future Price Adjustment

Stock options are considered long-term awards that are intended to drive stockholder value by aligning management and stockholders with regard to share price appreciation. The option exercise price is based on the closing price of the Company's common stock on the NASDAQ Global Select Market on the date of grant. Options have ten-year terms. For all of the NEOs, stock options vest in equal annual increments over three years beginning on the first anniversary of the grant. Stock options, once granted, are not subject to any future price adjustment.

We typically award the first \$100,000 in value of stock options in the form of incentive stock options (the limit for incentive stock options under the Internal Revenue Code), and amounts above \$100,000 are typically awarded in the form of stock-settled stock appreciation rights.

Stock-Settled Stock Appreciation Rights (SARs) Are Not Subject to Any Future Price Adjustment

SARs are similar to stock options in that a SAR is a right to receive, upon exercise, the excess of the fair market value of one share of stock on the date of exercise over the grant price of the SAR. Like incentive stock options, SARs are considered long-term awards that are intended to drive stockholder value by aligning management and stockholders with regard to share price appreciation. The exercise price of SARs is based on the closing price of the Company's common stock on the NASDAQ Global Select Market on the date of grant. SARs have ten-year terms. For all of the NEOs, SARs vest in equal annual increments over three years beginning on the first anniversary of the grant. SARs, once granted, are not subject to any future price adjustment.

Restricted Stock is Performance-Based and is Forfeited if Adjusted EBITDA is Less Than Target

Restricted stock awards focus on retention by securing the long-term commitment of our executives. Shares of restricted stock are considered issued and outstanding with respect to which executives may vote and receive dividends paid in the ordinary course to other Royal Gold stockholders.

Restricted stock awards granted prior to August 13, 2012, vested in equal one-third increments beginning on the fourth anniversary of the restricted stock grant date, with full vesting six years from the date of grant. However, vesting restricted stock beginning on the fourth anniversary of the date of grant did not deter certain talented employees from leaving the Company before the first tranche of restricted stock vested. To address this concern, while still encouraging employee retention and long-term commitment, the Board approved the CNG Committee's recommendation that, beginning on August 13, 2012, restricted

Table of Contents

stock awards will vest in equal one-third increments beginning on the third anniversary of the restricted stock grant date, with full vesting five years from the date of grant.

In addition to the time-based vesting requirements described above, in August 2012, the CNG Committee introduced a performance-based vesting requirement for restricted stock awards granted to the NEOs beginning with awards made for fiscal year 2013. If the Company does not meet an Adjusted EBITDA hurdle established for the ensuing fiscal year, then all of the shares of stock underlying the restricted stock grant must be forfeited. The CNG Committee determined that the Adjusted EBITDA hurdle for fiscal 2014, \$175 million, was achieved.

Performance Stock Awards are based on Growth in Adjusted Free Cash Flow per Share

Performance stock awards are intended to provide significant incentive to obtain long-term, non-dilutive growth performance. The portion of each executive officer's total compensation awarded in the form of performance shares varies for each officer. In awarding performance shares to any officer, the CNG Committee considers the officer's responsibilities and his or her ability to influence or meet certain performance objectives. Performance shares can only be earned if performance goals are met within five years of the date of grant. If the performance goals are not achieved by the end of the five year period, the performance shares are forfeited.

Performance shares granted for fiscal years 2012, 2013 and 2014 vest upon meeting a defined performance goal: 10% compounded annual growth in adjusted free cash flow per share (AFCFPS) on a trailing twelve-month basis. Free cash flow, on a per share basis, is an important indicator of the Company's financial health; and awarding performance stock based on incremental growth of AFCFPS closely aligns our executives' interest in achieving per-share performance with the same interest of our stockholders. The Company defines adjusted free cash flow, a non-GAAP financial measure, as operating income plus production taxes, exploration expenses, depreciation, depletion and amortization, non-cash charges and any impairment of mining assets, less non-controlling interests in operating income of consolidated subsidiaries. Performance stock may vest in increments over five years from the grant date. For example, a threshold level of 2.5% growth in compound AFCFPS is necessary for the minimum vesting of 25% of the performance shares. Maximum vesting is earned with achievement of 10% compound AFCFPS. (See Table 7 below.) The CNG Committee believes this goal has proven to be aggressive and supports strong capital growth.

Table 7 Growth in Adjusted Free Cash Flow per Share Required for Performance Sharing Vesting

Adjusted Free Cash Flow Per Share Achieved	% of Target	Award Funding Level
10%+ AFCFPS	100%	100%

5% AFCFPS	50%	50%
2.5% AFCFPS	25%	25%
<2.5% AFCFPS	<25%	0%

Performance shares are not considered issued and outstanding shares with respect to which executives may vote or receive dividends. Performance shares are settled with shares of the Company's common stock when they vest.

Edgar Filing: ROYAL GOLD INC - Form DEF 14A

As of the date of this proxy statement, 25% of the performance goals set for the performance shares awarded in fiscal year 2012 were met, and none of the performance goals set for the performance shares awarded in fiscal year 2013 or 2014 were met. As a result, 25% of the performance shares for fiscal year 2012 vested and were settled with common stock. For purposes of ASC 718 recognition of compensation expense, as of June 30, 2014, management determined that it is probable that:

- 0% of the remaining performance shares granted in fiscal year 2012 will vest in future periods;
- 0% of the performance shares granted in fiscal year 2013 will vest in future periods; and
- 25% of the performance shares granted in fiscal 2014 will vest in future periods.

Performance shares will not vest until the CNG Committee determines that performance objectives are actually met.

Company representatives engaged with stockholders to discuss the Company's compensation goals and pay program metrics. The choice of AFCFPS as the primary metric for the Company's performance share plan received strong support from the Company's stockholders. Moreover, the ability to vest incremental amounts of performance stock from each grant based upon sustained growth in AFCFPS coincides well with the lag between the Company's investment in long lead-time development projects and the Company's realization of financial returns on these investments. We believe that the strong support received from most of our investors for our performance share program reflects their understanding of the long-term nature of our business strategy and that our performance share program ensures alignment between investors, management and our business model.

Employment Agreements

Royal Gold entered into employment agreements with each of its NEOs, most recently in September 2013, to replace expiring agreements (other than in the case of Mr. Heissenbuttel, who entered into an initial employment agreement in September 2013). Pursuant to Mr. Jensen's employment agreement, Mr. Jensen will continue to serve as the Company's President and Chief Executive Officer and the Company's Board of Directors will continue to nominate Mr. Jensen for re-election as Director. Pursuant to individual employment agreements, Messrs. Wenger, Kirchhoff, Heissenbuttel and Zisch will continue to serve as the Company's Chief Financial Officer and Treasurer, Vice President, General Counsel and Secretary, Vice President Corporate Development, and Vice President Operations, respectively. The employment agreements are for one-year terms, renew automatically for four consecutive one-year periods, and will expire on September 15, 2018, unless either the Company or the executive timely elects not to renew the term of the employment agreement. As described below under the heading *Potential Payments upon Termination or Change of Control*, each employment agreement provides for severance compensation in certain events. None of the employment agreements provides for excise tax gross-ups for change-in-control provisions.

Benefit Programs

Benefit programs for the executive officers are generally common in design and purpose to those for the broad base of employees in the United States. The Company also maintains a Simplified Employee Pension Plan, known as a Salary Reduction/Simplified Employee Pension Plan (SARSEP Plan), in which all employees are eligible to participate. This plan was chosen because of regulatory compliance simplicity, avoidance of significant administrative expense, availability of tax-advantaged investment opportunities, and relative freedom from significant vesting or other limitations. The SARSEP Plan allows employees to reduce their pre-tax salary, subject to certain limitations, and to put this money into a tax deferred investment plan. This is a voluntary plan. Individuals may make contributions of up to the lesser of (i) 25% of their aggregate annual salary and bonus, or (ii) \$17,500, or if the employee is over age 50, \$23,000, for calendar year 2014. The Company may make non-elective contributions, up to 7% of an individual's annual salary and bonus, subject to limits. Those that do not participate in the SARSEP Plan receive a 3% employer contribution in accordance with the Plan. Employer contributions are immediately 100% vested. Total employee and employer contributions may not exceed the lesser of \$52,000 for calendar 2014 or 25% of total compensation for any individual.

Perquisites

The Company believes perquisites for executives should be extremely limited in scope and value and, therefore, does not provide perquisites or other special benefits to executive officers.

Executive Stock Ownership

Royal Gold's stock ownership requirements encourage its executive officers to achieve and maintain a minimum investment in the Company's common stock at levels set by the CNG Committee. The requirement incentivizes its executive officers to focus on improving long-term stockholder value and aligns the interests of management and stockholders. Royal Gold's executive stock ownership program requires each of the Company's executive officers to own a number of shares that is the equivalent to a multiple of his or her base salary. Unexercised stock options and SARs, unvested shares of restricted stock and unearned performance shares are not considered owned for purposes of the program. The multiple for the CEO is four times base salary, and the multiple for all other executive officers is two times base salary. (see Table 9 below.) Currently, the CEO owns 179,548 shares of the Company's common stock.

There is no timeframe in which the executive officers must meet ownership targets. The program also requires each executive officer to hold an aggregate of fifty percent (50%) of the shares of stock acquired pursuant to any grant of options, SARs, restricted stock or performance stock, net of any shares sold to cover withholding taxes, until such executive officer reaches his or her ownership target.

Tax Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a limit on the amount that a public company may deduct for compensation paid in any one year to the Company's Chief Executive Officer and certain other NEOs. The limitation does not apply to compensation that meets the requirements under Section 162(m) for qualifying performance based compensation. The Company and the CNG Committee review and consider the deductibility of executive compensation under Section 162(m). The CNG Committee usually seeks to satisfy the requirements necessary to allow the compensation of its named executive officers to be deductible under Section 162(m) of the Internal Revenue Code, but may also approve compensation that is not deductible under Section 162(m).

Post-Termination Compensation

The Company does not provide pension or other retirement benefits apart from the SARSEP Plan described above. The Company provides certain post-termination benefits pursuant to the terms of employment agreements and the LTIP described above under Employment Agreements on page 32 and below under the section titled Potential Payments upon Termination or Change-in-Control on page 38. None of the employment agreements provide for excise tax gross-ups for change-in-control provisions.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

Employment Agreements

Royal Gold entered into employment agreements with each of its NEOs, most recently in September 2013 to replace expiring agreements (other than in the case of Mr. Heissenbittel, who entered into an initial employment agreement in September 2013). Each of the employment

agreements provides post-termination benefits and benefits upon a change of control to the NEOs. None of the employment agreements provides for excise tax gross-ups.

Pursuant to the employment agreements, each of the NEOs will receive severance compensation upon an involuntary termination of employment by the Company without Cause, a voluntary termination of employment by the executive for Good Reason, or if the Company elects not to renew the employment term during the four-year renewal period. If such termination or non-renewal does not occur within the period from 90 days before a Change of Control through two years after a Change of Control, then the executive will be entitled to a lump-sum payment of one times his then base salary plus one times the average annual bonus paid to the executive for the prior three years. If such termination or non-renewal occurs within the period from 90 days before a Change of Control through two years after a Change of Control, the executive will be entitled to a lump-sum payment of two and one-half times his then base salary, in the case of Mr. Jensen, and one and one-half times his then base salary, in the case of Messrs. Wenger, Kirchhoff, Heissenbittel and Zisch, plus two and one-half times the average annual bonus paid for the prior three years, in the case of Mr. Jensen, and one and one-half times the average annual bonus paid for the prior three years, in the case of Messrs. Wenger, Kirchhoff, Heissenbittel and Zisch, and continued employee benefits for twelve months for each executive. Mr. Heissenbittel entered into his initial employment agreement with the Company in September 2013 and was not entitled to severance compensation before such time.

Under the terms of the employment agreements, an executive receives no severance compensation in the event of a termination by the Company for Cause, a voluntary termination by the executive without Good Reason, or if the executive elects not to renew the term of the employment agreement during the four-year renewal period.

The employment agreements contain (i) restrictions on the use of the Company's proprietary and confidential information and (ii) non-competition and non-solicitation provisions that apply during the term of the agreements and for the 12 months following

Table of Contents

termination of employment. If an executive breaches such restrictive covenants, the executive forfeits his right to the severance compensation due under his employment agreement, except to the extent required by law.

Cause is deemed to exist for purposes of the employment agreements if the executive (i) commits fraud, theft, embezzlement or misappropriation against the Company; (ii) is found guilty of a felony or any other crime involving moral turpitude; (iii) compromises Company proprietary and confidential information or engages in gross or willful misconduct that causes substantial and material harm to the Company; or (iv) materially breaches the employment agreement and fails to cure such breach. Good Reason is defined as the timely noticed and uncured occurrence of any of the following circumstances: (i) any material adverse change in the executive's title or responsibilities with the Company; (ii) any material reduction in the executive's base salary; (iii) receipt of notice of relocation of more than 50 miles from the job-site immediately prior to the effective date of the employment agreement; or (iv) if a Change of Control has occurred, failure to provide for the executive's participation in compensation plans that are not less favorable than those provided by the Company to similarly situated executive officers and those provided for under any plans in which the executive was participating immediately prior to the date on which a Change of Control occurs.

Change of Control means any of the following: (i) the dissolution or liquidation of the Company or a merger, consolidation, or reorganization of the Company in which the Company is not the surviving entity; (ii) a sale of substantially all of the assets of the Company to another person or entity; (iii) any transaction which results in any person or entity (other than persons who are stockholders or affiliates immediately prior to the transaction) owning fifty percent (50%) or more of the combined voting power of all classes of stock of the Company; or (iv) during any period of two consecutive years, a change in the majority membership on the Board of Directors, except as approved by the majority of Directors then still in office who were Directors at the beginning of such period.

2004 Omnibus Long-Term Incentive Plan

The award agreements under the LTIP provide accelerated vesting of stock options, shares of performance based restricted stock and performance stock awards upon an involuntary termination of employment without cause, a voluntary termination of employment for good reason or, for executives with employment agreements, if the Company elects not to renew the employment term during the four year renewal period under the employment agreement. If such termination or non-renewal occurs within two years after a change of control (or in the 90 days before a change of control under the terms of the award agreements granted in or after August 2013), then upon such termination or non-renewal, all stock options will become immediately exercisable and all shares of restricted stock (subject to satisfaction of any performance criteria) and performance stock awards will fully vest. If such termination or non-renewal does not occur within two years after a change of control (or in the 90 days before a change of control under the terms of the award agreements granted in or after August 2013), then upon such termination or non-renewal (i) all stock options will become immediately exercisable, (ii) a prorated portion of each grant of shares of restricted stock will vest (subject to satisfaction of any performance criteria) based on the period of employment from the date of grant to the date of termination or non-renewal and (iii) all or a portion of the performance stock awards will fully vest based on the number of performance stock awards to which the grantee would have been entitled taking into account the Company's performance through the last day of the fiscal quarter in which the termination or non-renewal takes place, determined in accordance with the Company's practices with respect to performance stock awards. The Company's restricted stock agreement, incentive stock option agreements granted in or after August 2013, and stock-settled stock appreciation rights agreements granted in or after August 2013, under the LTIP also provide that all unvested shares of restricted stock, unvested stock options and unvested stock appreciation rights will become immediately vested upon a termination, other than for Cause, after 15 years of service.

Other Employee Benefits

The Company provides life insurance benefits up to \$150,000 to all of its employees. The Company also provides long-term disability coverage to all of its employees that provides for 60% of monthly salary protection up to \$7,000 a month until age 65. Each of the NEOs shown below would be entitled to these amounts upon termination for death or disability.

The table below shows the estimated payments and benefits for each of our NEOs that would be provided as a result of termination or a change-in-control of the Company. Calculations for this table assume that the triggering event took place on June 30, 2014, the last business day of our 2014 fiscal year, except as noted. Calculations for amounts shown for awards under the Company's LTIP are based on the closing price of the Company's common stock on the NASDAQ Global Select Market on June 30, 2014, which was \$76.13 and, for Messrs. Jensen, Wenger, Kirchhoff and Zisch, other than as noted, based on acceleration benefits provided under award modification agreements entered into on September 15, 2008.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's officers and Directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership in the Company's equity securities to the Securities and Exchange Commission. Officers, Directors and greater than 10% stockholders are required by the regulations of the Securities and Exchange Commission to furnish the Company with copies of all Section 16(a) reports they file. OTHER BUSINESS

The Board of Directors knows of no other matters to be brought before the Annual Meeting. However, if other matters should come before the Annual Meeting, it is the intention of each person named in the proxy to vote such proxy in accordance with his own judgment on such matters.

STOCKHOLDER PROPOSALS

Stockholder proposals intended to be presented at the 2015 Annual Meeting of Stockholders and to be included in the Company's proxy materials for the 2015 Annual Meeting of Stockholders must be received by the Company at its principal executive office in Denver, Colorado, by June 3, 2015, if such proposals are to be considered timely and included in the proxy materials. The inclusion of any stockholder proposal in the proxy materials for the 2015 Annual Meeting of Stockholders will be subject to applicable rules of the Securities and Exchange Commission.

Stockholders may present proposals for the 2015 Annual Meeting that are proper subjects for consideration at the Annual Meeting even if the proposal is not submitted by the deadline for inclusion in the proxy materials. To do so, the proposal must be received not less than 90 but no more than 120 days prior to November 14, 2015 (which is the first anniversary of the 2014 Annual Meeting of Stockholders). If the number of Directors to be elected at the 2015 Annual Meeting is increased and there is no public announcement by the Company specifying the size of the increased Board at least 100 days before November 14, 2015 (which is the first anniversary of the 2014 Annual Meeting), the stockholder's notice with respect to nominees for any new positions created by such increase must be received not later than the close of business on the 10th day following the day on which such public announcement is first made by the Company.

Proxies for the 2015 Annual Meeting of Stockholders will confer discretionary authority to vote with respect to all proposals of which the Company does not receive proper notice by August 17, 2015.

ANNUAL REPORT ON FORM 10-K

Upon the written request of any record holder or beneficial owner of common stock entitled to vote at the Annual Meeting, the Company will provide, without charge, a copy of its Annual Report on Form 10-K including financial statements and any required financial statement schedules, as filed with the Securities and Exchange Commission for the fiscal year ended June 30, 2014. Requests for a copy of the Annual Report should be mailed, faxed, or sent via e-mail to Bruce C. Kirchhoff, Vice President, General Counsel and Secretary, Royal Gold, Inc., 1660 Wynkoop Street, Suite 1000, Denver, Colorado 80202-1132, 303-595-9385 (fax), or bkirchhoff@royalgold.com.

We have adopted a procedure called "householding," which the SEC has approved. Under this procedure, we deliver a single copy of the Notice and, if applicable, the proxy materials and the Annual Report to multiple stockholders who share the same address unless we received contrary instructions from one or more of the stockholders. This procedure reduces our printing costs, mailing costs, and fees. Stockholders who participate in householding will continue to be able to access and receive separate proxy cards. Upon written request, we will deliver promptly a separate copy of the Notice and, if applicable, the proxy materials and the Annual Report to any stockholder at a shared address to which we delivered a single copy of any of these documents.
