#### Item 8.01. Other Events.

As a result of a realignment in senior management reporting structure during the first quarter of 2015, we modified our internal financial reporting to better align internal reporting with how we manage our business. These modifications resulted in the separation of our former International Business segment into two unique reportable operating segments, which we refer to as (1) Western European Business segment and (2) Other International Business segment. Additionally, during the first quarter of 2015, we reassessed the nature of certain costs which were previously being allocated to the North American Records and Information Management Business and North American Data Management Business segments. As a result of this reassessment, we determined that certain product management functions, which were previously being performed to solely benefit our North American operating segments, are now being performed in a manner that benefits the enterprise as a whole. Accordingly, the costs associated with these product management functions are now included within the Corporate and Other Business segment. Previously reported segment information has been restated.

#### Item 9.01. Financial Statements and Exhibits.

Attached as Exhibit 99.1 to this Current Report are restated versions of Items 1, 2, 6, 7 and 15 of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014, as filed with the Securities and Exchange Commission on February 27, 2015, or our Original Annual Report, which reflect only the changes associated with the presentation of segment reporting discussed above. All other Items of our Original Annual Report remain unchanged. This Current Report should be read in conjunction with the portions of our Original Annual Report that have not been updated herein.
