NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in millions of Russian Rubles unless otherwise stated)

1. GENERAL INFORMATION AND DESCRIPTION OF BUSINESS

Public Joint-Stock Company Mobile TeleSystems (MTS PJSC , or the Company) is a company incorporated under the laws of the Russian Federation and having its registered address at 4, Marksistskaya Street, 109147, Moscow, Russian Federation.

Business of the Group MTS PJSC was incorporated on March 1, 2000, through the merger of MTS CJSC and Rosico TC CJSC, its wholly-owned subsidiary. MTS CJSC started its operations in the Moscow license area in 1994 and then began expanding through Russia and the CIS. MTS PJSC 's majority shareholder is Public Joint-Stock Financial Corporation Sistema or Sistema , whose controlling shareholder is Vladimir P. Yevtushenkov.

In these notes, MTS or the Group refers to the Company and its subsidiaries.

The Group provides a wide range of telecommunications services including voice and data transmission, internet access, pay TV, various value added services through wireless and fixed lines, as well as selling equipment and accessories. The Group 's principal operations are located in Russia, Ukraine, Turkmenistan, Uzbekistan and Armenia.

MTS completed its initial public offering in 2000 and listed its shares of common stock, represented by American Depositary Shares, or ADSs, on the New York Stock Exchange under the symbol MBT . Since 2003 common shares of MTS PJSC have been traded on the Public Joint-Stock Company Moscow Exchange MICEX-RTS (Moscow Exchange).

Since 2009, the Group has been developing its own retail network, operated by Russian Telephone Company JSC (RTC), a wholly owned subsidiary of MTS PJSC.

Seasonality The Group 's financial results are impacted by seasonality through the calendar year. Higher consumption of roaming services in May-September and increased demand for handsets and accessories before winter holidays enhance revenue from services and sales of goods for the second half-year. However, the Group doesn't view its

business as highly seasonal as defined by IAS 34, Interim Financial Reporting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND NEW ACCOUNTING PRONOUNCEMENTS

Basis of preparation These interim condensed consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting, and should be read in conjunction with the annual consolidated statements of the Group for the year ended December 31, 2015.

These interim condensed consolidated financial statements are unaudited and do not include all the information and disclosures required in the annual IFRS financial statements. The Group omitted disclosures which would substantially duplicate the information contained in its 2015 audited consolidated financial statements, such as accounting policies and details of accounts which have not changed significantly in amount or composition. Additionally, the Group has provided disclosures where significant events have occurred subsequently to the issuance of its annual consolidated statements of the Group for the year ended December 31, 2015.

Management believes that the disclosures in these interim condensed consolidated financial statements are adequate to make the presented information not misleading if these interim condensed consolidated financial statements are read in conjunction with the annual consolidated statements of the Group for the year ended December 31, 2015 and the notes related thereto. In the opinion of management, the financial statements reflect all adjustments necessary to present fairly the Group's financial position, financial performance and cash flows for the interim reporting period in accordance with IAS 34, Interim Financial Reporting. Operating results for the six months ended June 30, 2016 are not necessarily indicative of the results that may be expected for the year ended December 31, 2016.

PJSC MOBILE TELESYSTEMS AND SUBSIDIARIES

NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in millions of Russian Rubles unless otherwise stated)

These consolidated financial statements are prepared on a historical cost basis, unless disclosed otherwise. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Amounts in the consolidated financial statements are stated in millions of Russian Rubles, unless indicated otherwise.

The interim condensed consolidated financial statements of the Group as of June 30, 2016 and December 31, 2015 and for the six months ended June 30, 2016 and 2015 were authorized for issue by the Company's Chief Executive Officer on August 29, 2016.

Basis of consolidation The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company. Control is achieved only where the Company has the power over the entity, is exposed and has rights to variable returns, and is able to use its power over the entity to affect its amount of variable returns. The results of the controlled entities acquired or disposed of during the reporting period are included in the consolidated financial statements from the date, the Group achieves control over the entity, or until the date on which the Company ceases to control the entity. If necessary, the accounting policies of controlled entities are aligned with the accounting policy applied by the Group. All intra-group balances, income, expenses and cash flows are eliminated on consolidation.

Those entities where the Group exercises significant influence are recognized as associates and accounted for using the equity method. Significant influence is the power to participate in the financial and operating policies decisions of the investee but is not to control those policies. Investments in these entities are recognized at cost at the time of acquisition and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income. The carrying amount of the investment in such entities may include goodwill as the positive difference between the cost of the investment and Group's proportionate share in the fair values of the entity's identifiable assets and liabilities. The carrying amount of the investment accounted for using the equity method is tested for impairment provided there are indications of impairment. If the carrying amount of the investment exceeds its recoverable amount, an impairment loss is recognized in the amount of the difference. The recoverable amount is measured at the higher of fair value less costs of disposal and value in use. The Group presents its share in profits or losses in associates within operating profit if those interests are viewed as part of Group's core operations. As of June 30, 2016, only MTS Belarus was considered to be a part of Group's core operating activity. Shares in profits and losses of other Group's associates were presented as non-operating items.

The Group has joint operations with MTS Bank, a Group associate, relating to the development of the MTS Dengi project and with Vimpelcom, relating to construction of LTE base stations. Joint operations are characterized by the fact that the operators that have joint control over the

Edgar Filing: MOBILE TELESYSTEMS PJSC - Form 6-K

arrangement have a right to the assets, and obligations for the liabilities, relating to the arrangement. Respectively, each operator accounts for its share of the joint assets and liabilities, and recognizes its share of the output, revenues and expenses incurred under the arrangement.

Investments in shares of the companies over which the Group does not have control or ability to exercise significant influence are accounted for using the cost method. The Group does not evaluate cost-method investments for impairment unless there is an indicator of impairment.

(1) A wholly-owned subsidiary established to repurchase the Group's ADSs. Liquidated in May 2016.

(2) On August 5, 2016 the Group sold its stake in UMS (Note 12).

(3) A private company organized and existing as a private limited company under the laws of Ireland. The Group does not have any equity in MTS International. It was established for the purpose of raising capital through the issuance of debt securities on the Irish Stock Exchange followed by transferring the proceeds through a loan facility to the Group. In 2010 and 2013, MTS International issued \$750 million 8.625% notes due in 2020 and \$500 million 5.0% notes due in 2023, respectively (Note 6). The notes are guaranteed by MTS PJSC in the event of default. MTS International does not perform any other activities except those required for notes servicing. The Group bears all costs incurred by MTS International in connection with the notes' maintenance activities. Accordingly, the Group concluded that it exercises control over the entity.

Functional currency translation methodology As of June 30, 2016, the functional currencies of Group entities were as follows:

- For entities incorporated in the Russian Federation, MTS Finance, Dega and MTS International the Russian Ruble (RUB);
- For MTS Ukraine the Ukrainian Hryvna;
- For MTS Turkmenistan the Turkmenian Manat;
- For K-Telecom the Armenian Dram;
- For Universal Mobile Services (UMS) the Uzbek Sum;
- For MTS Belarus the Belorussian Ruble,
- For Nvision Czech Republic A.S. the Czech Koruna.

Foreign-currency transactions are translated into the functional currency at the exchange rates prevailing at the dates of the transactions. At the reporting date, monetary items denominated in foreign currencies are translated at the closing rate, whereas non-monetary items are stated at the exchange rate at the date of their recognition. Exchange rate differences are recognized in profit or loss.

For entities whose records are maintained in their functional currency, which is other than the reporting currency, all year-end assets and liabilities have been translated into U.S. Dollars at the period-end exchange rate set by local central banks. Subsequently, U.S. Dollars balances have been translated into Russian Rubles at the period-end exchange rate set by the Central Bank of Russia. Revenues and expenses have been translated at the average exchange rate for the period using cross-currency exchange rate via U.S. Dollar as described above. Translation differences resulting from the use of these rates are reported as a component of other comprehensive income.

NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in millions of Russian Rubles unless otherwise stated)

Management estimates The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates include allowance for doubtful accounts and inventory obsolescence, the valuation of assets acquired and liabilities assumed in business combinations, the recoverability of investments and the valuation of goodwill, property, plant and equipment and intangible assets, liability under put option agreement, certain provisions and financial instruments.

Significant accounting policies The accounting policies and methods of computation applied in the preparation of these interim condensed consolidated financial statements are consistent with those disclosed in the annual consolidated financial statements of the Group for the year ended December 31, 2015.

Standards, interpretations and amendments in issue but not yet effective The Group has not applied the following new and revised IFRSs that have been issued but not yet effective:

Amendments to IAS 12	Recognition of Deferred Tax Assets for Unrealized Losses (1)
IFRS 9	Financial Instruments (2)
Amendments to IFRS 2	Classification and measurement of Share-based Payment Transactions (2)
IFRS 15	Revenue from contracts with Customers (2)
IFRS 16	Leases (3)
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (4)

-
- (1) Effective for annual periods beginning on or after January 1, 2017, with earlier application permitted
 - (2) Effective for annual periods beginning on or after January 1, 2018, with earlier application permitted
 - (3) Effective for annual periods beginning on or after January 1, 2019, with earlier application permitted
 - (4) Effective date is not currently determined

IFRS 9, *Financial Instruments*. IFRS 9 governs the classification and measurement of financial assets and liabilities, derecognition, impairment and hedge accounting matters. The Group is currently evaluating the impact of these amendments on the Group's consolidated financial statements.

IFRS 15, *Revenue from Contracts with Customers*. This standard provides a single, principles-based five-step model for the determination and recognition of revenue to be applied to all contracts with customers. It replaces the existing standards IAS 18, *Revenue*, and IAS 11, *Construction Contracts*. The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Under the standard, an entity recognizes revenue when (or as) a performance obligation is satisfied, i. e. when control of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15. The Group is currently evaluating the impact of these amendments and the transition alternatives on the consolidated financial statements.

IFRS 16, *Leases*. This standard principally requires lessees to recognize assets and liabilities for all leases and to present the rights and obligations associated with these leases in the statement of financial position. Going forward, lessees will therefore no longer be required to make the distinction between finance and operating leases. For all leases, the lessee will recognize a lease liability in its statement of financial position for the obligation to make future lease payments. At the same time, the lessee will capitalize a right of use to the underlying asset which is generally equivalent to the present value of the future lease payment plus directly attributable expenditures. The standard also includes new provisions on the definition of a lease and its presentation, on disclosures in the notes, and on sale and leaseback transactions. The Group is currently evaluating the impact of these amendments on the consolidated financial statements.

Other mentioned IFRS pronouncements do not have a material impact on the Group's consolidated financial statements.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Group financial instruments are represented by various financial assets and liabilities, principal types of which are trade and other receivables and payables, cash and cash equivalents, investments, derivative instruments, notes and bank loans and put option over non-controlling interests.

The Group accounts for its financial assets and liabilities at amortized cost, except for derivative instruments, several marketable securities and liability under put option agreement, which are accounted for at fair value.

Table of Contents**PJSC MOBILE TELESYSTEMS AND SUBSIDIARIES****NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(Amounts in millions of Russian Rubles unless otherwise stated)*

The table below presents the fair value of financial instruments:

	Level of inputs	June 30, 2016	December 31, 2015
Assets			
Sistema International Funding S.A. Bonds due 2019 (related party) (Note 3, 9)	Level 1	69	75
Sistema Notes due in 2016 (series 04) (related party) (Notes 3,9)	Level 1		191
Derivative instruments	Level 2	17,569	25,027
<i>Cross-currency interest rate swap</i>		17,427	25,027
<i>Interest rate swap</i>		142	
Assets in Sistema-Capital trust management (related party) (Note 3, 9)	Level 2	2,603	
Liabilities			
Derivative instruments	Level 2	(554)	(676)
<i>Interest rate swap</i>		(554)	(676)
Liability under put option agreement	Level 3	(2,932)	(2,925)
Contingent consideration	Level 3	(128)	(115)

Changes in the Group's net assets and earnings resulted from fair value measurements of Level 3 liabilities were not significant for the six months ended June 30, 2016 and 2015.

In May 2016, the Group entered into trust agreement with the asset management company Sistema-Capital. The trust agreement provided for short-term profit-taking on operations with securities. This contract was not designated for hedge accounting purposes.

The fair value measurement of the Group's derivative instruments and assets in Sistema-Capital trust management is based on the observable yield curves for similar instruments and represents the estimated amount the Group would receive or pay to terminate these agreements at the reporting date, taking into account current interest rates, foreign exchange spot and forward rates.

The liability under put option agreement is measured at fair value using a discounted cash flow technique. The most significant quantitative inputs used to measure the fair value of the liability under put option agreement are presented in the table below:

Edgar Filing: MOBILE TELESYSTEMS PJSC - Form 6-K

Unobservable inputs	June 30, 2016		December 31, 2015	
Discount rate		13%		15%
Revenue growth rate	(1.4)	(1.6)% (av. -1.5%)	(1.6)	(4.6)% (av. -2.2%)
OIBDA margin		42.9-43.8% (av. 43.4%)		44.7-46.1% (av. 45.4%)

Carrying value of the Group's financial instruments accounted for at amortized cost approximates their fair value due to their short-term nature and market interest rates, except for issued loans and borrowings as disclosed in the table below:

	June 30, 2016		December 31, 2015	
	Fair value	Carrying value	Fair value	Carrying value
Borrowings	(284,742)	(285,452)	(340,201)	(348,012)

While management has used available market information in estimating the fair value of its financial instruments, the market information may not be fully reflective of the value that could be realized in the current circumstances.

Table of Contents**PJSC MOBILE TELESYSTEMS AND SUBSIDIARIES****NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS***(Amounts in millions of Russian Rubles unless otherwise stated)*

There were no transfers between levels of inputs within the hierarchy for the six months ended June 30, 2016 and 2015.

There were no transfers between the accounting categories of financial instruments during the six months ended June 30, 2016 and 2015.

10. SEGMENT INFORMATION

Management analyzes and reviews results of the Company's operating segments separately based on the nature of products and services, regulatory environments and geographic areas. MTS Group's management evaluates the segments' performance based on revenue and operating profit. Management does not analyze assets or liabilities by reportable segments.

The Group identified the following reportable segments:

Russia convergent: represents the results of mobile and fixed line operations, which encompasses services rendered to customers across regions of Russia, including voice and data services, transmission, broadband, pay-TV and various value-added services.

Moscow fixed line: represents the results of fixed line operations carried out in Moscow by the Group's subsidiary MGTS. MGTS is the only licensed PSTN operator in Moscow and considered a natural monopoly under Russian antimonopoly regulations. Consequently, substantial part of services provided by MGTS are subject to governmental regulation.

Ukraine: represents the results of mobile and fixed line operations carried out across multiple regions of Ukraine.

The *Other* category does not constitute a reportable segment. It includes the results of a number of other operating segments that do not meet the quantitative thresholds for separate reporting, such as Armenia, Uzbekistan, Turkmenistan, Satellite TV, Billing, System Integrator and Belarus.

The intercompany eliminations presented below primarily consist of sales transactions between segments conducted under the normal course of operations.

Financial information by reportable segment is presented below:

The consolidated operating profit is reconciled to the consolidated profit before tax on the face of the consolidated statement of profit or loss.

11. COMMITMENTS AND CONTINGENCIES

Capital commitments As of June 30, 2016, the Group had executed purchase agreements of approximately RUB 38,527 million to acquire property, plant and equipment, intangible assets and costs related thereto.

Operating leases The Group has entered into non-cancellable agreements to lease space for telecommunications equipment, offices and transmission channels, which expire in various years up to 2064. Rental expenses under the operating leases of RUB 3,665 million and RUB 3,017 million for the year ended June 30, 2016 and 2015, respectively, are included in selling, general and administrative expenses in the accompanying consolidated statement of profit or loss. Rental expenses under the operating leases of RUB 10,091 million and RUB 9,696 million for the year ended June 30, 2016 and 2015, respectively, are included in cost of services in the accompanying consolidated statement of profit or loss. Future minimum lease payments due under these leases at June 30, 2016 are as follows:

Payments due in	
2016	3,520
2017	2,232
2018	803
2019	450
2020	304
Thereafter	1,121
Total	8,430

Taxation In May 2016, the Russian tax authorities completed a tax audit of MTS PJSC for the years ended December 31, 2013 and 2012. Based on the results of this audit additional taxes, penalties and fines in the amount of RUB 575 million were accrued in the interim condensed consolidated financial statements for the six months ended June 30, 2016. The Group prepared and filed an appeal to the Federal Tax Service.

Pricing of revenue and expenses between each of the Group's subsidiaries and various discounts and bonuses to the Group's subscribers in the course of performing its marketing activities may be subject to transfer pricing rules.

The Group estimates the following contingent liabilities in respect of additional tax and customs settlements:

	June 30, 2016	December 31, 2015
Contingent liabilities for additional taxes other than income tax and customs settlements	325	419
Contingent liabilities for additional income taxes	1,662	413

Management believes that it has adequately provided for tax and customs liabilities in the accompanying consolidated financial statements. However, the risk remains that the relevant tax and customs authorities could take differing positions with regard to interpretive issues and the effect could be significant.

Licenses In July 2012, the Federal Service for Supervision in the Area of Communications, Information Technologies and Mass Media allocated MTS the necessary license and frequencies to provide LTE telecommunication services in Russia. Under the terms and conditions of the LTE license, the Group is obligated to fully deploy LTE networks within seven years, commencing from January 1, 2013, and deliver LTE services in each population center with over 50,000 inhabitants in Russia by 2019. Also, the Group is obligated to invest at least RUB 15 billion annually toward the LTE roll-out until the network is fully deployed.

In May 2007, the Federal Service for Supervision in the Area of Communications, Information Technologies and Mass Media awarded MTS a license to provide 3G services in Russia. The 3G license was granted subject to certain capital and other commitments.

In March 2015, upon winning a tender, MTS-Ukraine has acquired a nationwide license for the provision of UMTS (3G) telecommunications services. The license with the cost of UAH 2,715 million (RUB 6,015 million at the acquisition date) has been granted for 15 years. In accordance with the terms of the license MTS-Ukraine was required to launch 3G services in Ukraine by October, 2015, and provide coverage across Ukraine by April, 2020.

In accordance with the terms of the license, MTS-Ukraine also concluded agreements on conversion of provided frequencies with the Ministry of Defense of Ukraine, Ministry of Internal Affairs of Ukraine and State Service of Special Communications and Information Protection of Ukraine. As of December 31, 2015, MTS-Ukraine paid UAH 358 million (RUB 865 million as of the payment date) for conversion of frequencies and is liable to pay UAH 267 million (RUB 699 million as of June 30, 2016) adjusted for the rate of inflation in the years 2017-2018.

Management believes that as of June 30, 2016 the Group complied with conditions of aforementioned licenses.

Litigation In the ordinary course of business, the Group is a party to various legal and customs proceedings, and subject to claims, certain of which relate to developing markets and evolving fiscal and regulatory environments in which MTS operates. Management believes that the Group's liability, if any, in all such pending litigation, other legal proceeding or other matters will not have a material effect upon its financial condition, results of operations or liquidity of the Group.

Potential adverse effects of economic instability and sanctions in Russia In 2014 political and economic sanctions were introduced by the EU, US and other countries targeting certain Russian economic sectors. There is significant uncertainty regarding the extent and timing of further

(Amounts in millions of Russian Rubles unless otherwise stated)

sanctions. Also, Russian Ruble has materially depreciated against the U.S. Dollar and Euro and ruble interest rates have increased significantly after the Central Bank of Russia raised its key rate to 17% in December 2014. The decline of Russian Ruble continued in 2015 and partly reversed in the first half of 2016. The Central Bank of Russia has decreased its key rate to 11% as of December 31, 2015 and further to 10.5% in June 30, 2016. However, the key rate remains higher than in the beginning of the year 2014, when it was equal to 5.5%. Russia sovereign credit ratings also were decreased.

These factors resulted in a higher cost of capital, increased inflation and uncertainty regarding further economic growth, which could have a negative impact on the Group's business including ability to obtain financing on commercially reasonable terms. Management believes it is taking the appropriate measures to support the sustainability of the Group's business in the current circumstances. The Group has a hedging policy in place, which partly mitigated variability of cash outflows, denominated in foreign currencies.

Political and economic crisis in Ukraine During the year ended December 31, 2014, a deterioration in the political environment of Ukraine has led to general instability, economic deterioration and armed conflict in eastern Ukraine. The deterioration has further exacerbated the country's already weak macroeconomic trends, which have led to reduced credit ratings, significant depreciation of its national currency and increased inflation. During 2014, the Ukrainian Parliament adopted a law allowing for the imposition of sanctions against countries, persons and companies deemed by the Ukrainian government to threaten Ukrainian national interests, national security, sovereignty or the territorial integrity of Ukraine. The National Bank of Ukraine (NBU) passed a decree temporarily prohibiting Ukrainian companies to pay dividends to foreign investors. The decree was extended for a few times and its edition effective as of June 30, 2016 allows payment of dividends for the years 2014-2015, subject to certain restrictions. These circumstances, combined with continued political and economic instability in the country, could result in further negative impact on the Group's business including our financial position and results of operations.

Such risks especially apply to funds deposited in Ukrainian banks, whose liquidity is affected by the economic downturn. As of December 31, 2014, the Group held RUB 21,203 million in current accounts and deposits in Ukrainian banks, including RUB 5,072 million in Delta Bank. In December 2014, Delta Bank delayed customer payments and put limits on cash withdrawals. On March 2, 2015, NBU adopted a resolution declaring Delta Bank to be insolvent. The Group reserved the full amount of deposited funds (RUB 5,072 million) and related interest (RUB 66 million) as of December 31, 2014. During the year ended December 31, 2015, the Group created an additional reserve of RUB 1,698 million for cash balances deposited in distressed Ukrainian banks (including RUB 185 million for cash balances deposited in Delta Bank, RUB 868 million for cash balances deposited in bank Kyivska Rus and RUB 645 million for cash balances deposited in Platinum Bank) that was included as a component of operating expenses in the accompanying consolidated statement of profit or loss.

Edgar Filing: MOBILE TELESYSTEMS PJSC - Form 6-K

Also, in 2015 the Group entered in a factoring agreement in respect to cash balances deposited in bank Kyivska Rus, under which the factor is obliged to reimburse the Group for 45% of cash balance. As of June 30, 2016, the Group held RUB 2,734 million in current accounts and deposits in Ukrainian banks.

Anti-terror law On July 7, 2016 a packet of anti-terror laws (also known as Yarovaya-Ozerov packet of laws) was enacted. The packet provides for mandatory storage of recorded phone conversations, text messages of subscribers, images, sounds, video and other types of messages by telecommunications operators for certain periods of time. These requirements become effective starting July 1, 2018. Compliance with the packet may require construction of additional storage, processing and indexing centers and significant increase in the Group capital expenditures. This may adversely impact Group's financial indicators, in particular free cash flow.

The requirements of the packet of anti-terror laws are in the process of clarification and in-depth development. The Group will estimate the possible impact of the law packet on the Group's financial statements, including additional provisions, when the law packet requirements are sufficiently specified.

Investigations into former operations in Uzbekistan In March 2014, the Group received requests for the provision of information from the United States Securities and Exchange Commission (SEC) and the United States Department of Justice (DOJ) relating to a currently conducted investigation of the Group's former subsidiary in Uzbekistan.

In 2015, activities related to the Group's former operations in Uzbekistan have been referenced in a civil forfeiture complaints (The Complaints), filed by DOJ in the U.S. District Court, Southern District of New York (Manhattan), directed at certain assets of an unnamed Uzbek government official. The Complaints allege among other things that MTS and certain other parties made corrupt payments to the unnamed Uzbek official to assist their entering and operating in the Uzbekistan telecommunications market. The Complaints are solely directed towards assets held by the unnamed Uzbek official, and none of MTS's assets are affected by the Complaints.

The Company continues to cooperate with these investigations. The Company cannot predict the outcome of the investigations, including any fines or penalties that may be imposed, and such fines or penalties could be significant.

12. SUBSEQUENT EVENTS

Dividends repayment In June 2016 General Annual Shareholders meeting approved distribution of dividends based on results of 2015 financial year in amount RUB 14,01 per ordinary share or RUB 27,997 million . Dividends were paid in July 2016 in full amount.

Reduction of authorized capital In August 2016 the Group announced a reduction of its authorized capital for 68,031,987 treasury shares previously held by MTS Bermuda (from 2,066,413,562 to 1,998,381,575 ordinary registered shares). The Group incorporated and registered the respective changes in its Charter.
