FORM 10-Q

QUARTERLY REPORT
PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the Quarterly Period Ended April 3, 2016
Commission File No. 1-15983

MERITOR, INC.

(Exact name of registrant as specified in its charter)

Indiana	38-3354643
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

2135 West Maple Road, Troy, Michigan	48084-7186
(Address of principal executive offices)	(Zip Code)

(248) 435-1000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YesXNo

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Registration S-T during the preceding twelve months (or for such shorter period that the registrant was required to submit and post such files).

YesXNo

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer X Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes NoX

91,473,543 shares of Common Stock, \$1.00 par value, of Meritor, Inc. were outstanding on April 3, 2016.

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

Meritor, Inc. (the “company” or “Meritor”), headquartered in Troy, Michigan, is a premier global supplier of a broad range of integrated systems, modules and components to original equipment manufacturers (“OEMs”) and the aftermarket for the commercial vehicle, transportation and industrial sectors. The company serves commercial truck, trailer, military, bus and coach, construction and other industrial OEMs and certain aftermarkets. The condensed consolidated financial statements are those of the company and its consolidated subsidiaries.

Certain businesses are reported in discontinued operations in the condensed consolidated statement of operations, condensed consolidated statement of cash flows and related notes for all periods presented. Additional information regarding discontinued operations is discussed in Note 4.

In the opinion of the company, the unaudited condensed consolidated financial statements contain all adjustments, consisting solely of adjustments of a normal, recurring nature, necessary to present fairly the financial position, results of operations and cash flows for the periods presented. These statements should be read in conjunction with the company’s audited consolidated financial statements and notes thereto included in the Annual Report on Form 10-K, for the fiscal year ended September 30, 2015, as amended. The condensed consolidated balance sheet data as of September 30, 2015 was derived from audited financial statements but does not include all annual disclosures required by accounting principles generally accepted in the United States of America. The results of operations for the three and six months ended March 31, 2016 are not necessarily indicative of the results for the full year.

The company’s fiscal year ends on the Sunday nearest September 30. The second quarter of fiscal years 2016 and 2015 ended on April 3, 2016 and March 29, 2015, respectively. All year and quarter references relate to the company’s fiscal year and fiscal quarters, unless otherwise stated. For ease of presentation, September 30 and March 31 are used consistently throughout this report to represent the fiscal year end and second fiscal quarter end, respectively.

2. Earnings per Share

Basic earnings (loss) per share is calculated using the weighted average number of shares outstanding during each period. The diluted earnings (loss) per share calculation includes the impact of dilutive common stock options, restricted shares, restricted share units, performance share unit awards, and convertible securities, if applicable.

A reconciliation of basic average common shares outstanding to diluted average common shares outstanding is as follows (in millions):

	Three Months Ended March 31, 2016		Six Months Ended March 31, 2015	
Basic average common shares outstanding	91.3	97.9	91.9	97.9
Impact of restricted shares, restricted share units and performance share units	1.2	1.9	1.6	2.0
Impact of stock options	—	0.1	—	0.1
Impact of convertible notes	—	3.0	—	2.0
Diluted average common shares outstanding	92.5	102.9	93.5	102.0

In November 2015, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$10.51, which was the company’s share price on the grant date of December 1, 2015. The Board of Directors also approved a grant of 0.5 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with

the company under certain circumstances. The fair value of each restricted share unit was \$10.51, which was the company's share price on the grant date of December 1, 2015.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The actual number of performance share units that will vest depends upon the company's performance relative to the established performance metrics for the three-year performance period of October 1, 2015 to September 30, 2018, measured at the end of the performance period. The number of performance share units will depend on Adjusted EBITDA margin and Adjusted diluted earnings per share from continuing operations at the following weights: 50% associated with achieving an Adjusted EBITDA margin target and 50% associated with achieving an Adjusted diluted earnings per share from continuing operations target. The number of performance share units that vest will be between 0% and 200% of the grant date amount of 0.7 million performance share units.

In November 2014, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$13.74, which was the company's share price on the grant date of December 1, 2014. The Board of Directors also approved a grant of 0.4 million restricted share units to these executives. The restricted share units vest at the earlier of three years from the date of grant or upon termination of employment with the company under certain circumstances. The fair value of each restricted share unit was \$13.74, which was the company's share price on the grant date of December 1, 2014.

The actual number of performance share units that will vest depends upon the company's performance relative to the established performance metrics for the three-year performance period of October 1, 2014 to September 30, 2017, measured at the end of the performance period. The number of performance share units will depend on Adjusted EBITDA margin and Adjusted diluted earnings per share from continuing operations at the following weights: 75% associated with achieving an Adjusted EBITDA margin target and 25% associated with achieving an Adjusted diluted earnings per share from continuing operations target. The number of performance share units that vest will be between 0% and 200% of the grant date amount of 0.6 million performance share units.

In November 2013, the Board of Directors approved a grant of performance share units to all executives eligible to participate in the long-term incentive plan. Each performance share unit represents the right to receive one share of common stock or its cash equivalent upon achievement of certain performance and time vesting criteria. The fair value of each performance share unit was \$7.97, which was the company's share price on the grant date of December 1, 2013.

The actual number of performance share units that will vest depends upon the company's performance relative to the established M2016 goals for the three-year performance period of October 1, 2013 to September 30, 2016, measured at the end of the performance period. The number of performance share units will depend on meeting the established M2016 goals at the following weights: 50% associated with achieving an Adjusted EBITDA margin target, 25% associated with achieving a net debt including retirement benefit liabilities target, and 25% associated with achieving an incremental booked revenue target. The number of performance share units that vest will be between 0% and 200% of the grant date amount of 1.8 million performance share units including incremental share units that were issued subsequent to the December 1, 2013 grant date. There were 1.1 million and 1.0 million shares related to these performance share units included in the diluted earnings per share calculation for the three and six months ended March 31, 2016, respectively, as certain payout thresholds were achieved in the second quarter of fiscal year 2016 relative to the Adjusted EBITDA, net debt reduction and incremental booked revenue targets. There were 1.0 million and 0.8 million shares related to these performance share units included in the diluted earnings per share calculation for the three and six months ended March 31, 2015, respectively, as certain payout thresholds were achieved in the second quarter of fiscal year 2015.

For the three months ended March 31, 2016, the dilutive impact of previously issued restricted shares, restricted share units, and performance share units was 1.2 million, compared to 1.9 million share units for the same period in the prior fiscal year. For the six months ended March 31, 2016, the dilutive impact of previously issued restricted shares, restricted share units, and performance share units was 1.6 million, compared to 2.0 million share units for the same

period in the prior fiscal year. For the three and six months ended March 31, 2016, compensation cost related to restricted shares, restricted share units, performance share units and stock options was \$3 million and \$6 million, respectively, compared to \$3 million and \$5 million, respectively for the three and six months ended March 31, 2015.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

For each of the three- and six-month period ended March 31, 2016, options to purchase 0.7 million and 0.3 million shares of common stock, respectively, were excluded in the computation of diluted earnings per share because their exercise price exceeded the average market price for the periods and thus their inclusion would be anti-dilutive. For the three and six months ended March 31, 2016 the company's convertible senior unsecured notes were excluded from the computation of diluted earnings per share, as the company's average stock price during this period was less than conversion price for the notes. For the three and six months ended March 31, 2015, 3.0 million and 2.0 million shares, respectively, were included in the computation of diluted earnings per share because the average stock price during this period exceeded the conversion price for the 7.875 percent convertible notes due 2026.

3. New Accounting Standards

Accounting standards to be implemented

In April, 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-10, Revenue from Contracts with Customers (Topic 606), Identifying Performance Obligations and Licensing. The ASU provides guidance regarding the identification of performance and licensing obligations. The amendments in this update affect the guidance in ASU 2014-09, which is not effective yet. The effective date and the transition requirements for the amendments in ASU 2016-10 are the same as the effective date and transition requirements in ASU 2014-09 as described below. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09 and is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting. The ASU intends to simplify how share-based payments are accounted for. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. Early adoption is permitted. The company is assessing the potential impact of this new guidance on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606), Principal versus Agent Considerations (Reporting Revenue Gross versus Net) to clarify certain aspects of the principal-versus-agent guidance in its new revenue recognition standard. The amendments in this update affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in ASU 2016-08 are the same as the effective date and transition requirements of ASU 2014-09. Therefore, the company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 in connection with its planned implementation of ASU 2014-09. The company is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-07, Investments-Equity Method and Joint Ventures (Topic 323), Simplifying the Transition to the Equity Method of Accounting. The ASU will eliminate the requirement to apply the equity method of accounting retrospectively when a reporting entity obtains significant influence over a previously held investment. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. Early adoption is permitted. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

In March 2016, the FASB issued ASU 2016-06, Derivatives and Hedging (Topic 815), Contingent Put and Call Options in Debt Instruments. The ASU clarifies that an exercise contingency itself does not need to be evaluated to determine whether it is in an embedded derivative, just the underlying option. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. Early adoption is permitted. The company does not expect a material impact on its consolidated

financial statements from adoption of this guidance.

In March 2016, the FASB issued ASU 2016-05, Derivatives and Hedging (Topic 815), Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships. The update clarifies that a change in a counterparty to a derivative instrument designated as a hedging instrument would not require the entity to dedesignate the hedging relationship and discontinue the application of hedge accounting. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. Early adoption is permitted. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The update will require lessees to recognize a right-of-use asset and lease liability for substantially all leases. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2018, including interim periods within those fiscal periods. Early adoption is permitted. The company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2019 and is currently assessing the potential impact of this new guidance on its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities, which requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. The guidance is effective for fiscal periods beginning after December 15, 2017, including interim periods within those fiscal periods. Early adoption is permitted. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

In November 2015, the FASB issued ASU 2015-17, Balance Sheet Classification of Deferred Taxes, as part of its Simplification Initiative, which updates Income Taxes (Topic 740) guidance to eliminate the requirement for an entity to separate deferred tax liabilities and tax assets between current and noncurrent amounts in a classified balance sheet. Deferred taxes will be presented as noncurrent under the new standard. The guidance is effective for fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. Early adoption is permitted. The company plans to implement this standard in the fourth quarter of fiscal year 2016 and is assessing the potential impact of this new guidance on its consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory, which requires entities that measure inventory using first-in, first-out (FIFO) or average cost to measure inventory at the lower of cost and net realizable value. The standard is required to be adopted by public business entities in fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. The company is assessing the potential impact of this new guidance on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements - Going Concern (Subtopic 205-40), which provides guidance about management's responsibility in evaluating whether there is substantial doubt relating to an entity's ability to continue as a going concern and to provide related footnote disclosures as applicable. ASU 2014-15 is effective for the interim and fiscal periods ending after December 15, 2016. Early adoption is permitted. The company does not expect a material impact on its consolidated financial statements from adoption of this guidance.

In June 2014, the FASB issued ASU 2014-12, Compensation - Stock Compensation (Topic 718), Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could be Achieved After the Requisite Service Period. This guidance requires that an award with a performance target that affects vesting, and that could be achieved after the requisite service period, such as when an employee retires, but may still vest if and when the performance target is achieved, be treated as an award with performance conditions that affect vesting and the company apply existing guidance under ASC Topic 718, Compensation - Stock Compensation. The guidance is effective for fiscal periods beginning after December 15, 2015, including interim periods within those fiscal periods and may be applied either prospectively or retrospectively. The company is assessing the potential impact of this new guidance on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which requires companies to recognize revenue when a customer obtains control rather than when companies have transferred substantially all risks and rewards of a good or service and requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. ASU 2014-09 was originally effective for fiscal periods beginning after December 15, 2016, including interim periods within those fiscal periods. In August 2015, the FASB issued ASU 2015-14 which deferred the effective date of ASU 2014-09 by one year making it effective for fiscal periods beginning after December 15, 2017, including interim periods within those fiscal periods, while also providing for early adoption but not before the original effective date. The company plans to implement this standard in the first quarter of the fiscal year beginning October 1, 2018 and is currently evaluating the potential impact of this new guidance on its consolidated financial statements.

Accounting standards implemented during fiscal year 2016

In September 2015, the FASB issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments, which updates Business Combination (Topic 805) guidance to eliminate the requirement to restate prior period financial statements for measurement period adjustments. The guidance should be applied prospectively to measurement period adjustments that occur

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

after the effective date. The guidance is effective for fiscal periods beginning after December 15, 2015, including interim periods within those fiscal periods. Early adoption is permitted. The company adopted this standard in the first quarter of the fiscal year 2016. This guidance did not have a material impact on the company's consolidated financial statements.

In April 2014, the FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360) - Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. This guidance changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The guidance also requires new disclosure of both discontinued operations and certain other disposals that do not meet the definition of a discontinued operation. This guidance is to be applied prospectively and is effective for fiscal periods beginning on or after December 15, 2014, including interim periods within those fiscal periods. The company adopted this guidance in the first quarter of fiscal year 2016. The impact of this new guidance on the company's consolidated financial statements is dependent upon future business divestitures. Previous divestitures and amounts currently included in discontinued operations were not impacted.

4. Discontinued Operations

Results of discontinued operations are summarized as follows (in millions):

	Three Months Ended March 31, 2016		Six Months Ended March 31, 2015	
Sales	\$—	\$ —	\$—	\$ 1
Income (loss) before income taxes	\$(1)	\$ 3	\$(4)	\$ —
Benefit from income taxes	—	1	1	1
Income (loss) from discontinued operations attributable to Meritor, Inc.	\$(1)	\$ 4	\$(3)	\$ 1

Loss from discontinued operations attributable to the company for the three and six months ended March 31, 2016 was primarily related to changes in estimates related to legal costs incurred in connection with a previously divested business. Income from discontinued operations attributable to the company for the three and six months ended March 31, 2015 was primarily attributable to the settlement of indemnities on certain contingencies of previously divested businesses.

Total discontinued operations assets as of March 31, 2016 and September 30, 2015 were \$1 million and \$4 million, respectively, and total discontinued operations liabilities as of March 31, 2016 and September 30, 2015 were \$6 million and \$10 million, respectively.

5. Goodwill

In accordance with FASB Accounting Standards Codification (ASC) Topic 350-20, "Intangibles - Goodwill and Other", goodwill is reviewed for impairment annually during the fourth quarter of the fiscal year or more frequently if certain indicators arise. If business conditions or other factors cause the operating results and cash flows of a reporting unit to decline, the company may be required to record impairment charges for goodwill at that time.

The company tests goodwill for impairment at a level of reporting referred to as a reporting unit, which is an operating segment or one level below an operating segment (referred to as a component). A component of an operating segment is a reporting unit if the component constitutes a business for which discrete financial information is available and segment management regularly reviews the operating results of that component. When two or more components of an operating segment have similar economic characteristics, the components are aggregated and deemed a single

reporting unit. An operating segment is deemed to be a reporting unit if all of its components are similar, if none of its components are a reporting unit, or if the segment comprises only a single component.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

A summary of the changes in the carrying value of goodwill by the company's two reportable segments are presented below (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	Total
Beginning balance at September 30, 2015	\$ 239	\$ 163	\$402
Foreign currency translation	(3)	—	(3)
Balance at March 31, 2016	\$ 236	\$ 163	\$399

6. Restructuring Costs

Restructuring reserves, primarily related to unpaid employee termination benefits attributable mainly to the company's Commercial Truck & Industrial segment were \$9 million at March 31, 2016 and \$10 million at September 30, 2015, respectively. The changes in restructuring reserves for the six months ended March 31, 2016 and 2015 are as follows (in millions):

	Employee Termination Benefits	Plant Shutdown & Other	Total
Beginning balance at September 30, 2015	\$ 10	\$ —	\$10
Activity during the period:			
Charges to continuing operations	2	1	3
Cash payments – continuing operations	(4)	—	(4)
Total restructuring reserves at March 31, 2016	8	1	9
Less: non-current restructuring reserves	(3)	—	(3)
Restructuring reserves – current, at March 31, 2016	\$ 5	\$ 1	\$6
Balance at September 30, 2014	\$ 11	\$ —	\$11
Activity during the period:			
Charges to continuing operations	6	—	6
Cash payments – continuing operations	(3)	—	(3)
Other	(2)	—	(2)
Total restructuring reserves at March 31, 2015	12	—	12
Less: non-current restructuring reserves	(2)	—	(2)
Restructuring reserves – current, at March 31, 2015	\$ 10	\$ —	\$10

2016 Restructuring Costs: During the first six months of fiscal year 2016, the company recorded restructuring costs of \$3 million primarily associated with a labor reduction programs in China in the Commercial Truck & Industrial and Aftermarket and Trailer segments.

Consolidation of Certain Operations in 2015: During the first quarter of fiscal year 2015, the company recorded severance charges of \$3 million associated with the elimination of approximately 50 hourly and 20 salaried positions in the Commercial Truck & Industrial segment in connection with the consolidation of certain gearing and machining operations in North America. Restructuring actions associated with this program were substantially complete as of September 30, 2015.

Closure of a Corporate Engineering Facility in 2015: During the second quarter of fiscal year 2015, the company notified approximately 30 salaried and contract employees that their positions were being eliminated due to the planned closure of a corporate engineering facility. The company recorded severance expenses of \$1 million associated with this plan for the six months ended March 31, 2015. Restructuring actions associated with this program

were substantially complete as of September 30, 2015.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

European Labor Reduction in 2015: During the second quarter of fiscal year 2015, the company initiated a European headcount reduction plan intended to reduce labor costs in response to continued soft markets in the region. The company eliminated approximately 20 hourly and 20 salaried positions and recorded \$2 million of expected severance expenses in the Commercial Truck & Industrial segment in the second quarter of fiscal year 2015. Restructuring actions associated with this program were substantially complete as of June 30, 2015.

7. Income Taxes

For each interim reporting period, the company makes an estimate of the effective tax rate expected to be applicable for the full fiscal year pursuant to FASB ASC Topic 740-270, "Accounting for Income Taxes in Interim Periods." The rate so determined is used in providing for income taxes on a year-to-date basis. Jurisdictions with a projected loss for the year or an actual year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of including these jurisdictions on the quarterly effective rate calculation could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

Income tax expense (benefit) is allocated among continuing operations, discontinued operations and other comprehensive income ("OCI"). Such allocation is applied by tax jurisdiction, and in periods in which there is a pre-tax loss from continuing operations and pre-tax income in another category, such as discontinued operations or OCI, income tax expense is allocated to the other sources of income, with a related benefit recorded in continuing operations.

In prior years, the company established valuation allowances against its U.S. net deferred tax assets and the net deferred tax assets of its 100-percent-owned subsidiaries in France, the United Kingdom and certain other countries. In evaluating its ability to recover these net deferred tax assets, the company utilizes a consistent approach which considers its historical operating results, including an assessment of the degree to which any gains or losses are driven by items that are unusual in nature, and tax planning strategies. In addition, the company reviews changes in near-term market conditions and other factors that impact future operating results. Continued improvement in the company's operating results could lead to reversal of some or all of these valuation allowances in the future. However, the company continues to maintain the valuation allowances in these jurisdictions, as the company believes the negative evidence that it will be able to recover these net deferred tax assets continues to outweigh the positive evidence. In addition, the company performs the same analysis in jurisdictions not in a valuation allowance to determine if a valuation allowance is required.

Although the company was profitable in the U.S. in 2014 and 2015, it has not generated enough positive evidence to warrant a reversal of the U.S. valuation allowance, so it continues to record a full valuation allowance against the U.S. net deferred tax assets. While the weight of negative evidence related to cumulative losses continues to decrease, the company believes that the objectively-measured negative evidence outweighs the subjectively-determined positive evidence.

For the three months ended March 31, 2016, the company had approximately \$17 million of net pre-tax income compared to \$24 million of net pre-tax income in the same period in fiscal year 2015 in tax jurisdictions in which tax expense (benefit) is not recorded.

For the six months ended March 31, 2016, the company had approximately \$28 million of net pre-tax income compared to \$36 million of net pre-tax income in the same period in fiscal year 2015 in tax jurisdictions in which tax expense is not recorded. Income arising from these jurisdictions resulted in an adjustment to the valuation allowance,

rather than an adjustment to income tax expense.

8. Accounts Receivable Factoring and Securitization

Off-balance sheet arrangements

Swedish Factoring Facility: The company has an arrangement to sell trade receivables due from AB Volvo through one of its European subsidiaries. Under this arrangement, which terminates on June 28, 2016, the company can sell up to, at any point in time, €155 million (\$176 million) of eligible trade receivables. On March 29, 2016, Meritor signed an amendment to increase the commitment to €155 million from €150 million. All other terms of the arrangement remain unchanged. The company is working to extend this arrangement before its current maturity date. The receivables under this program are sold at face value and are excluded from the condensed consolidated balance sheet. The company had utilized €107 million (\$121 million) and €108 million (\$121 million) of this accounts receivable factoring facility as of March 31, 2016 and September 30, 2015, respectively.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The above facility is backed by a 364-day liquidity commitment from Nordea Bank which extends through December 2016. The commitment is subject to standard terms and conditions for this type of arrangement.

U.S. Factoring Facility: On February 19, 2016, the company entered into a new Receivables Purchase Agreement with Nordea Bank replacing a similar agreement that expired February 28, 2016. Under this new arrangement, which terminates on February 19, 2019, the company can sell up to, at any point in time, €80 million (\$91 million) of eligible trade receivables from AB Volvo and its U.S. subsidiaries through one of the company's U.S. subsidiaries, an increase of €15 million compared to the previous agreement. The amount of eligible receivables sold may exceed Nordea Bank's commitment at Nordea Bank's discretion. The receivables under this program are sold at face value and are excluded from the condensed consolidated balance sheet. The company had utilized €42 million (\$48 million) and €74 million (\$83 million) of this accounts receivable factoring facility as of March 31, 2016 and September 30, 2015, respectively.

United Kingdom Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo and its European subsidiaries through one of its United Kingdom subsidiaries. Under this arrangement, which expires in February 2018, the company can sell up to, at any point in time, €25 million (\$28 million) of eligible trade receivables. The receivables under this program are sold at face value and are excluded from the condensed consolidated balance sheet. The company had utilized €6 million (\$7 million) and €8 million (\$8 million) of this accounts receivable factoring facility as of March 31, 2016 and September 30, 2015, respectively. The agreement is subject to standard terms and conditions for these types of arrangements, including a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the program.

Italy Factoring Facility: The company has an arrangement to sell trade receivables from AB Volvo and its European subsidiaries through one of its Italian subsidiaries. Under this arrangement, which expires in June 2017, the company can sell up to, at any point in time, €30 million (\$34 million) of eligible trade receivables. The receivables under this program are sold at face value and are excluded from the condensed consolidated balance sheet. The company had utilized €17 million (\$19 million) and €22 million (\$24 million) of this accounts receivable factoring facility as of March 31, 2016 and September 30, 2015, respectively. The agreement is subject to standard terms and conditions for these types of arrangements including a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the program.

In addition to the above facilities, a number of the company's subsidiaries, primarily in Europe, factor eligible accounts receivable with financial institutions. Certain receivables are factored without recourse to the company and are excluded from accounts receivable in the condensed consolidated balance sheet. The amount of factored receivables excluded from accounts receivable under these arrangements was \$14 million and \$18 million at March 31, 2016 and September 30, 2015, respectively.

Total costs associated with all of the off-balance sheet arrangements described above were \$2 million and \$1 million in the three months ended March 31, 2016 and 2015, respectively, and \$4 million and \$3 million in the six months ended March 31, 2016 and 2015, respectively, and are included in selling, general and administrative expenses in the condensed consolidated statements of operations.

On-balance sheet arrangements

The company has a \$100 million U.S. accounts receivables securitization facility. On December 4, 2015, the company entered into an amendment which extends the facility expiration date to December 4, 2018. The maximum permitted priority-debt-to-EBITDA ratio as of the last day of each fiscal quarter under the facility is 2.25 to 1.00. This program is provided by PNC Bank, National Association, as Administrator and Purchaser, and the other Purchasers and Purchaser Agents from time to time (participating lenders), which are party to the agreement. Under this program, the company has the ability to sell an undivided percentage ownership interest in substantially all of its trade receivables (excluding the receivables due from AB Volvo and subsidiaries eligible for sale under the U.S. accounts receivable factoring facility) of certain U.S. subsidiaries to ArvinMeritor Receivables Corporation ("ARC"), a wholly-owned, special purpose subsidiary. ARC funds these purchases with borrowings from participating lenders under a loan agreement. This program also includes a letter of credit facility pursuant to which ARC may request the issuance of letters of credit issued for the company's U.S. subsidiaries (originators) or their designees, which when issued will constitute a utilization of the facility for the amount of letters of credit issued. Amounts outstanding under this agreement are collateralized by eligible receivables purchased by ARC and are reported as short-term debt in the condensed consolidated balance sheet. At March 31, 2016 and September 30, 2015, no amounts, including letters of credit, were outstanding under this program. This securitization program contains a cross default to the revolving credit facility. At certain times during any given month, the company may sell eligible accounts receivable under this program to fund intra-month working capital needs. In such months, the company would then typically utilize the cash received from customers throughout the month to repay the borrowings under the program. Accordingly, during any given month, the company may borrow under this program, amounts exceeding the amounts shown as outstanding at fiscal quarter ends.

9. Operating Cash Flow

The reconciliation of net income to cash flows provided by operating activities is as follows (in millions):

	Six Months Ended March 31, 2016	2015

Capitalized software costs, net	27	28
Non-current deferred income tax assets, net	28	28
Assets for uncertain tax positions	3	3
Prepaid pension costs	114	110
Other	17	15
Other assets	\$ 332	\$ 332

In accordance with FASB ASC Topic 350-40, costs relating to internally developed or purchased software in the preliminary project stage and the post-implementation stage are expensed as incurred. Costs in the application development stage that meet the criteria for capitalization are capitalized and amortized using the straight-line basis over the estimated economic useful life of the software.

The company holds a variable interest in a joint venture accounted for under the equity method of accounting. The joint venture manufactures components for commercial vehicle applications primarily on behalf of the company. The variable interest relates to a supply arrangement between the company and the joint venture whereby the company supplies certain components to the joint venture on a cost-plus basis. The company is not the primary beneficiary of the joint venture, as the joint venture partner has shared or absolute control over key manufacturing operations, labor relationships, financing activities and certain other functions of the joint venture. Therefore, the company does not consolidate the joint venture. At March 31, 2016 and September 30, 2015, the company's investment in the joint venture was \$45 million and \$42 million, respectively.

14. Unconsolidated Significant Subsidiary

Article 10 of Regulation S-X (Rule 10-01(b)(1)) requires separate interim period summarized income statement information for each 50-percent-or-less-owned subsidiary not consolidated that would have been a significant subsidiary for annual periods in accordance with Rule 3-09 of Regulation S-X. In accordance with this guidance, the company's non-consolidated joint venture Meritor WABCO Vehicle Control Systems' summarized income statement information is as follows (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2016	2015	2016	2015

Asbestos-related liabilities (see Note 20)	17	17
Indemnity obligations (see Note 20)	2	2
Other	53	54
Other current liabilities	\$ 253	\$ 279

The company records estimated product warranty costs at the time of shipment of products to customers. Warranty reserves are primarily based on factors that include past claims experience, sales history, product manufacturing and engineering changes and industry developments. Liabilities for product recall campaigns are recorded at the time the company's obligation is probable and can be reasonably estimated. Policy repair actions to maintain customer relationships are recorded as other liabilities at the time an obligation is probable and can be reasonably estimated. Product warranties, including recall campaigns, not expected to be paid within one year are recorded as a non-current liability.

A summary of the changes in product warranties is as follows (in millions):

	Six Months Ended March 31, 2016 2015	
Total product warranties – beginning of period	\$48	\$51

Long-term debt	\$ 978	\$ 1,036

⁽¹⁾ The 4.625 percent, convertible notes contained a put and call feature, which allowed for earlier redemption beginning in 2016. Substantially all of these notes were redeemed on March 1, 2016.

⁽²⁾ The 4.0 percent and 7.875 percent convertible notes contain a put and call feature, which allows for earlier redemption beginning in 2019 and 2020, respectively.

⁽³⁾ The 6.75 percent and 6.25 percent notes contain a call option, which allows for early redemption.

⁽⁴⁾ The 4.0 percent convertible notes due 2027 are presented net of \$1 million unamortized issuance costs as of March 31, 2016 and September 30, 2015.

⁽⁵⁾ The 7.875 percent convertible notes due 2026 are presented net of \$2 million and \$3 million unamortized issuance costs as of March 31, 2016 and September 30, 2015, respectively, and \$10 million original issuance discount as of March 31, 2016 and September 30, 2015.

⁽⁶⁾ The 6.75 percent notes due 2021 are presented net of \$5 million unamortized issuance costs as of March 31, 2016 and September 30, 2015.

⁽⁷⁾ The 6.25 percent notes due 2024 are presented net of \$8 million unamortized issuance costs as of March 31, 2016 and September 30, 2015.

Revolving Credit Facility

On May 22, 2015, the company entered into a second amendment of its senior secured revolving credit facility.

Pursuant to the revolving credit agreement as amended, the company has a \$499 million revolving credit facility, \$40 million of which matures in April 2017 for banks not electing to extend their commitments under the revolving credit facility, and \$459 million of which matures in February 2019. The availability under this facility is dependent upon various factors, including principally performance against certain financial covenants as highlighted below. Prior to May 22, 2015, \$89 million of the \$499 million revolving credit facility was scheduled to mature in April 2017 for banks not electing to extend their commitments under the revolving credit facility, and \$410 million was scheduled to mature in February 2019.

The availability under the revolving credit facility is subject to certain financial covenants based on (i) the ratio of the company's priority debt (consisting principally of amounts outstanding under the revolving credit facility, U.S. accounts receivable securitization and factoring programs, and third-party non-working capital foreign debt) to EBITDA and (ii) the amount of annual capital expenditures. The company is required to maintain a total priority-debt-to-EBITDA ratio, as defined in the agreement, of 2.25 to 1.00 or less as of the last day of each fiscal quarter throughout the term of the agreement.

The availability under the revolving credit facility is also subject to a collateral test, pursuant to which borrowings on the revolving credit facility cannot exceed 1.0x the collateral test value. The collateral test is performed on a quarterly basis. At March 31, 2016, the revolving credit facility was collateralized by approximately \$647 million of the company's assets, primarily consisting of eligible domestic U.S. accounts receivable, inventory, plant, property and equipment, intellectual property and the company's investment in all or a portion of certain of its wholly-owned subsidiaries.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Borrowings under the revolving credit facility are subject to interest based on quoted LIBOR rates plus a margin and a commitment fee on undrawn amounts, both of which are based upon the company's current corporate credit rating. At March 31, 2016, the margin over LIBOR rate was 325 basis points, and the commitment fee was 50 basis points.

Overnight revolving credit loans are at the prime rate plus a margin of 225 basis points.

Certain of the company's subsidiaries, as defined in the revolving credit agreement, irrevocably and unconditionally guarantee amounts outstanding under the revolving credit facility. Similar subsidiary guarantees are provided for the benefit of the holders of the publicly held notes outstanding under the company's indentures (see Note 23).

No borrowings were outstanding under the revolving credit facility at March 31, 2016 and September 30, 2015. The amended and extended revolving credit facility includes \$100 million of availability for the issuance of letters of credit. At March 31, 2016 and September 30, 2015, there were no letters of credit outstanding under the revolving credit facility.

Debt Securities

In December 2014, the company filed a shelf registration statement with the Securities and Exchange Commission, registering an unlimited amount of debt and/or equity securities that the company may offer in one or more offerings on terms to be determined at the time of sale. The December 2014 shelf registration statement superseded and replaced the shelf registration statement filed in February 2012, as amended.

Repurchase of Debt Securities

In February 2015, the company repurchased \$15 million principal amount of the company's 4.0 percent convertible notes due 2027. The notes were repurchased at a premium equal to approximately 6 percent of their principal amount. The repurchase of \$15 million principal amount of the company's 4.0 percent convertible notes was accounted for as an extinguishment of debt, and accordingly the company recognized an insignificant net loss on debt extinguishment, the majority of which is premium. The net loss on debt extinguishment is included in the consolidated statement of operations in interest expense, net. The repurchase was made under the company's equity and equity-linked repurchase authorizations (see Note 21).

On March 1, 2016, substantially all of the \$55 million of principal amount 4.625 percent convertible notes were repurchased at 100 percent of the face value of the notes. The repurchase was made under the company's equity and equity linked repurchase authorizations (see Note 21). The amount remaining available for repurchases under these authorizations was \$39 million at March 31, 2016.

Capital Leases

On March 20, 2012, the company entered into an arrangement to finance equipment acquisitions for various U.S. locations. Under this arrangement, the company can request financing from GE Capital Commercial, Inc. (GE Capital) for progress payments for equipment under construction, not to exceed \$10 million at any time. The financing rate is equal to the 30-day LIBOR plus 475 basis points per annum. Under this arrangement, the company can also enter into lease arrangements with GE Capital for completed equipment. The lease term is 60 months and the lease interest rate is equal to the 5-year Swap Rate published by the Federal Reserve Board plus 564 basis points. The company had \$8 million and \$10 million outstanding under this capital lease arrangement as of March 31, 2016 and September 30, 2015, respectively. In addition, the company had another \$9 million and \$7 million outstanding through other capital lease arrangements at March 31, 2016 and September 30, 2015, respectively.

Letter of Credit Facilities

On February 21, 2014, the company entered into an arrangement to amend and restate the letter of credit facility with Citicorp USA, Inc., as administrative agent and issuing bank, and the other lenders party thereto. Under the terms of

this amended credit agreement, the company has the right to obtain the issuance, renewal, extension and increase of letters of credit up to an aggregate availability of \$30 million through December 19, 2015. From December 20, 2015 through March 19, 2019, the aggregate availability is \$25 million. This facility contains covenants and events of default generally similar to those existing in the company's public debt indentures. There were \$22 million and \$24 million of letters of credit outstanding under this facility at March 31, 2016 and September 30, 2015, respectively. The company had another \$6 million of letters of credit outstanding through other letter of credit facilities at March 31, 2016 and September 30, 2015.

(Unaudited)

Export Financing Arrangements

The company entered into a number of export financing arrangements through its Brazilian subsidiary during fiscal year 2014. The export financing arrangements are issued under an incentive program of the Brazilian government to fund working capital for Brazilian companies in exportation programs. The arrangements bear interest at 5.5 percent and have maturity dates in 2016 and 2017. There was \$19 million and \$18 million outstanding under these arrangements at March 31, 2016 and September 30, 2015, respectively.

Other

One of the company's consolidated joint ventures in China participates in a bills of exchange program to settle its obligations with its trade suppliers. These programs are common in China and generally require the participation of local banks. Under these programs, the company's joint venture issues notes payable through the participating banks to its trade suppliers. If the issued notes payable remain unpaid on their respective due dates, this could constitute an event of default under the company's revolving credit facility if the defaulted amount exceeds \$35 million per bank. As of March 31, 2016 and September 30, 2015, the company had \$8 million and \$13 million, respectively, outstanding under this program at more than one bank.

18. Financial Instruments

Fair values of financial instruments are summarized as follows (in millions):

	March 31, 2016		September 30, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Cash and cash equivalents	\$ 94	\$ 94	\$ 193	\$ 193
Short-term debt	25	24	15	15
Long-term debt	978	958	1,036	1,123
Foreign exchange forward contracts (asset)	—	—	1	1
Foreign exchange forward contracts (liability)	2	2	3	3
Short-term foreign currency option contracts (asset)	—	—	1	1
Long-term foreign currency option contracts (asset)	—	—	1	1

The following table reflects the offsetting of derivative assets and liabilities (in millions):

	March 31, 2016			September 30, 2015		
	Gross Amounts Recognized	Gross Amounts Offset	Net Amounts Reported	Gross Amounts Recognized	Gross Amounts Offset	Net Amounts Reported
Derivative Asset						
Foreign exchange forward contract	—	—	—	1	—	1
Derivative Liabilities						
Foreign exchange forward contract	2	—	2	3	—	3
Fair Value						

The current FASB guidance provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical instruments (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 inputs use quoted prices in active markets for identical instruments.

Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar instruments in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related instrument.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest priority level input that is significant to the valuation. The company's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

Fair value of financial instruments by the valuation hierarchy at March 31, 2016 is as follows (in millions):

	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 94	\$ —	\$ —
Short-term debt	—	—	24
Long-term debt	—	946	12
Foreign exchange forward contracts (liability)	—	2	—

Fair value of financial instruments by the valuation hierarchy at March 31, 2015 is as follows (in millions):

	Level 1	Level 2	Level 3
Cash and cash equivalents	\$207	\$ —	—
Short-term debt	—	—	5
Long-term debt	—	1,093	38
Foreign exchange forward contracts (asset)	—	5	—
Short-term foreign currency option contracts (asset)	—	—	2
Long-term foreign currency option contracts (asset)	—	—	2

The tables below provide a reconciliation of changes in fair value of the Level 3 financial assets and liabilities measured at fair value in the condensed consolidated balance sheet for the three and six months ended March 31, 2016 and 2015, respectively. No transfers of assets between any of the Levels occurred during these periods.

Cash and cash equivalents — All highly liquid investments purchased with an original maturity of three months or less are considered to be cash equivalents. The carrying value approximates fair value because of the short maturity of these instruments. The company did not have any cash equivalents at March 31, 2016 or September 30, 2015.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Short- and long-term debt — Fair values are based on transaction prices at public exchange for publicly traded debt. For debt instruments that are not publicly traded, fair values are based on interest rates that would be currently available to the company for issuance of similar types of debt instruments with similar terms and remaining maturities.

Foreign exchange forward contracts — The company uses foreign exchange forward purchase and sale contracts with terms of one year or less to hedge its exposure to changes in foreign currency exchange rates. The fair value of foreign exchange forward contracts is based on a model which incorporates observable inputs including quoted spot rates, forward exchange rates and discounted future expected cash flows utilizing market interest rates with similar quality and maturity characteristics. For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of changes in the fair value of the contracts is recorded in Accumulated Other Comprehensive Loss in the statement of shareowners' equity and is recognized in operating income when the underlying forecasted transaction impacts earnings.

Foreign currency option contracts — The company uses option contracts to mitigate foreign currency exposure on expected future Indian rupee denominated purchases. The contracts were entered into during the third quarter of fiscal year 2014 with effective dates from the start of fiscal year 2015 through the end of fiscal year 2017. In the second quarter of fiscal year 2015, the company monetized its outstanding foreign currency option contracts and entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2015 through the end of fiscal year 2017. The fair value of the foreign currency option contracts is based on a third-party proprietary model, which incorporates inputs at varying unobservable weights of quoted spot rates, market volatility, forward rates, and time utilizing market instruments with similar quality and maturity characteristics. The company did not elect hedge accounting for these derivatives. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statement of operations. In the first six months of fiscal year 2016, net unrealized losses totaled \$1 million, all of which occurred during the first quarter of fiscal year 2016.

From time to time, the company will hedge against its foreign currency exposure related to translations to U.S. dollars of financial results denominated in foreign currencies. In the first quarter of fiscal year 2015, the company entered into a series of foreign currency option contracts with a total notional amount of \$48 million to reduce volatility in the translation of Brazilian real earnings to U.S. dollars. These foreign currency option contracts did not qualify for a hedge accounting election but were expected to mitigate foreign currency translation exposure of Brazilian real earnings to U.S. dollars. In the second quarter of fiscal year 2015, the company monetized these outstanding foreign currency option contracts and entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2015 through the end of fiscal year 2015. In the third and fourth quarters of fiscal year 2015, the company monetized these outstanding foreign currency option contracts. As of March 31, 2016 and September 30, 2015, there were no Brazilian real foreign currency option contracts outstanding.

Also, in the fourth quarter of fiscal year 2015, the company entered into a series of foreign currency contracts with total notional amounts of \$30 million and \$27 million to mitigate the risk of volatility in the translation of Swedish krona and euro earnings to U.S. dollars, respectively. During the first quarter of fiscal year 2016, the company entered into additional foreign currency contracts with total notional amounts of \$19 million and \$21 million to mitigate the risk of volatility in the translation of the Swedish krona and euro earnings to U.S. dollars, respectively. These foreign currency option contracts do not qualify for a hedge accounting election but are expected to mitigate foreign currency translation exposure of Swedish krona and euro earnings to U.S. dollars during fiscal year 2016. For the three and six months ended March 31, 2016, net unrealized losses totaled \$2 million. The fair value of the foreign currency option contracts is based on a third-party proprietary model, which incorporates inputs at varying unobservable weights of quoted spot rates, market volatility, forward rates, and time utilizing market instruments with similar quality and maturity characteristics. Changes in fair value associated with these contracts are recorded in the consolidated

statement of operations in other income, net.

Retirement benefits	\$ 611	\$ 632

The components of net periodic pension and retiree medical expense included in Selling, general and administrative expenses for the three months ended March 31 are as follows (in millions):

	2016		2015	
	Pension	Retiree Medical	Pension	Retiree Medical
Interest cost	27	5	18	5
Assumed return on plan assets	(25)	—	(28)	—
Recognized actuarial loss	6	3	7	5
Total expense (income)	\$8	\$ 8	\$(3)	\$ 10

The components of net periodic pension and retiree medical expense included in Selling, general and administrative expenses for the six months ended March 31 are as follows (in millions):

	2016		2015	
	Pension	Retiree Medical	Pension	Retiree Medical
Interest cost	33	9	36	10
Assumed return on plan assets	(50)	—	(56)	—
Recognized actuarial loss	12	6	14	10
Total expense (income)	\$(5)	\$ 15	\$(6)	\$ 20

20. Contingencies

Environmental

Federal, state and local requirements relating to the discharge of substances into the environment, the disposal of hazardous wastes and other activities affecting the environment have, and will continue to have, an impact on the operations of the company. The process of estimating environmental liabilities is complex and dependent upon evolving physical and scientific data at the sites, uncertainties as to remedies and technologies to be used and the outcome of discussions with regulatory agencies. The company records liabilities for environmental issues in the accounting period in which they are considered to be probable and the cost can be reasonably estimated. At environmental sites in which more than one potentially responsible party has been identified, the company records a liability for its allocable share of costs related to its involvement with the site, as well as an allocable share of costs related to insolvent parties or unidentified shares. At environmental sites in which Meritor is the only potentially responsible party, the company records a liability for the total probable and estimable costs of remediation before consideration of recovery from insurers or other third parties.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

The company has been designated as a potentially responsible party at nine Superfund sites, excluding sites as to which the company's records disclose no involvement or as to which the company's liability has been finally determined. Management estimates the total reasonably possible costs the company could incur for the remediation of Superfund sites at March 31, 2016 to be approximately \$17 million, of which \$2 million is probable and recorded as a liability. Included in reasonably possible amounts are estimates for certain remediation actions that may be required if current actions are deemed inadequate by the regulators.

In addition to the Superfund sites, various other lawsuits, claims and proceedings have been asserted against the company, alleging violations of federal, state and local environmental protection requirements, or seeking remediation of alleged environmental impairments, principally at previously disposed-of properties. For these matters, management has estimated the total reasonably possible costs the company could incur at March 31, 2016 to be approximately \$28 million, of which \$14 million is probable and recorded as a liability.

Included in the company's environmental liabilities are costs for on-going operation, maintenance and monitoring at environmental sites in which remediation has been put into place. This liability is discounted using discount rates in the range of 0.5 to 2.5 percent and is approximately \$8 million at March 31, 2016. The undiscounted estimate of these costs is approximately \$8 million.

The following are the components of the Superfund and non-Superfund environmental reserves (in millions):

	Superfund Sites	Non-Superfund Sites	Total
Beginning balance at September 30, 2015	\$ 2	\$ 14	\$ 16
Payments and other	—	(3)	(3)
Accruals	—	3	3
Balance at March 31, 2016	\$ 2	\$ 14	\$ 16

Environmental reserves are included in Other Current Liabilities (see Note 15) and Other Liabilities (see Note 16) in the condensed consolidated balance sheet.

The actual amount of costs or damages for which the company may be held responsible could materially exceed the foregoing estimates because of uncertainties, including the financial condition of other potentially responsible parties, the success of the remediation, discovery of new contamination and other factors that make it difficult to predict actual costs accurately. However, based on management's assessment, after consulting with outside advisors that specialize in environmental matters, and subject to the difficulties inherent in estimating these future costs, the company believes that its expenditures for environmental capital investment and remediation necessary to comply with present regulations governing environmental protection and other expenditures for the resolution of environmental claims will not have a material effect on the company's business, financial condition or results of operations. In addition, in future periods, new laws and regulations, changes in remediation plans, advances in technology and additional information about the ultimate clean-up remedies could significantly change the company's estimates. Management cannot assess the possible effect of compliance with future requirements.

Asbestos

Maremont Corporation ("Maremont"), a subsidiary of Meritor, manufactured friction products containing asbestos from 1953 through 1977, when it sold its friction product business. Arvin Industries, Inc., a predecessor of the company, acquired Maremont in 1986. Maremont and many other companies are defendants in suits brought by individuals claiming personal injuries as a result of exposure to asbestos-containing products.

Maremont had approximately 5,800 and 5,600 pending asbestos-related claims at March 31, 2016 and September 30, 2015, respectively. Although Maremont has been named in these cases, in the cases where actual injury has been alleged, very few claimants have established that a Maremont product caused their injuries. Plaintiffs' lawyers often sue dozens or even hundreds of defendants in individual lawsuits, seeking damages against all named defendants irrespective of the disease or injury and irrespective of any causal connection with a particular product. For these

reasons, the total number of claims filed is not necessarily the most meaningful factor in determining Maremont's asbestos-related liability.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Maremont's asbestos-related reserves and corresponding asbestos-related recoveries are summarized as follows (in millions):

	March 31, September 30,	
	2016	2015
Pending and future claims	\$ 71	\$ 71
Billed but unpaid claims	2	3
Asbestos-related liabilities	\$ 73	\$ 74
Asbestos-related insurance recoveries	\$ 37	\$ 41

A portion of the asbestos-related recoveries and reserves are included in Other Current Assets and Liabilities, with the majority of the amounts recorded in Other Assets and Liabilities (see Notes 11, 13, 15 and 16).

Pending and Future Claims: Maremont has engaged Bates White LLC ("Bates White"), a consulting firm with extensive experience estimating costs associated with asbestos litigation, to assist with determining the estimated cost of resolving pending and future asbestos-related claims that have been, and could reasonably be expected to be, filed against Maremont. Bates White prepares these cost estimates annually in September. Although it is not possible to estimate the full range of costs because of various uncertainties, Bates White advised Maremont that it would be possible to determine an estimate of a reasonable forecast of the cost of the probable settlement and defense costs of resolving pending and future asbestos-related claims, based on historical data and certain assumptions with respect to events that may occur in the future.

As of September 30, 2015, Bates White provided a reasonable and probable estimate that consisted of a range of equally likely possibilities of Maremont's obligation for asbestos personal injury claims over the next ten years of \$71 million to \$100 million. Management recognized a liability of \$71 million as of each of March 31, 2016 and September 30, 2015 for pending and future claims over the next ten years. The ultimate cost of resolving pending and future claims is estimated based on the history of claims and expenses for plaintiffs represented by law firms in jurisdictions with an established history with Maremont. Historically, Maremont has recognized incremental insurance receivables associated with recoveries expected for asbestos-related liabilities as the estimate of asbestos-related liabilities for pending and future claims changes. However, Maremont currently expects that its settled insurance coverage will not be sufficient to fully offset its expected asbestos-related liabilities through the end of the ten-year forecasted liability period.

Assumptions: The following assumptions were made by Maremont after consultation with Bates White and are included in their study:

- Pending and future claims were estimated for a ten-year period ending in fiscal year 2025;

- Maremont believes that the litigation environment could change significantly beyond ten years and that the reliability of estimates of future probable expenditures in connection with asbestos-related personal injury claims will decline for each year further in the future. As a result, estimating a probable liability beyond ten years is difficult and uncertain;

- On a per claim basis, defense and processing costs for pending and future claims will be at the level consistent with Maremont's prior experience;

- Potential payments made to claimants from other sources, including other defendants and 524(g) trusts favorably impact Maremont's estimated liability in the future; and

- The ultimate indemnity cost of resolving nonmalignant claims with plaintiffs' law firms in jurisdictions without an established history with Maremont cannot be reasonably estimated.

Recoveries: Maremont has insurance that reimburses a substantial portion of the costs incurred defending against asbestos-related claims. The insurance receivable related to asbestos-related liabilities is \$37 million and \$41 million as of March 31, 2016 and September 30, 2015, respectively. The receivable is for coverage provided by one insurance carrier based on a coverage in place agreement. Maremont currently expects to exhaust the remaining limits provided

by this coverage sometime in the next ten years. The difference between the estimated liability and insurance receivable is primarily related to exhaustion of settled insurance coverage within the forecasted period and proceeds from settled insurance policies. Amounts received from insurance settlements generally reduce recorded insurance receivables.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Maremont maintained insurance coverage with other insurance carriers that management believes also covers indemnity and defense costs. During fiscal year 2013, Maremont re-initiated lawsuits against these carriers, seeking a declaration of its rights to coverage for asbestos claims and to facilitate an orderly and timely collection of insurance proceeds. One of these insurance policies has been partially settled in cash. On December 12, 2015, Maremont received \$17 million, of which \$5 million was recognized as reduction in asbestos expense and \$12 million was recorded as a liability to the insurance carrier as it is required to be returned to the carrier if additional asbestos liability is not incurred. The settlement also provides additional recovery for Maremont if certain spending thresholds are met.

The amounts recorded for the asbestos-related reserves and recoveries from insurance companies are based upon assumptions and estimates derived from currently known facts. All such estimates of liabilities and recoveries for asbestos-related claims are subject to considerable uncertainty because such liabilities and recoveries are influenced by variables that are difficult to predict. The future litigation environment for Maremont could change significantly from its past experience, due, for example, to changes in the mix of claims filed against Maremont in terms of plaintiffs' law firms, jurisdictions and diseases; legislative or regulatory developments; Maremont's approach to defending claims; or payments to plaintiffs from other defendants. Estimated recoveries are influenced by coverage issues among insurers and the continuing solvency of various insurance companies. If the assumptions with respect to the estimation period, the nature of pending and future claims, the cost to resolve claims and the amount of available insurance prove to be incorrect, the actual amount of liability for Maremont's asbestos-related claims, and the effect on the company, could differ materially from current estimates and, therefore, could have a material impact on the company's financial condition and results of operations.

Rockwell International ("Rockwell") — ArvinMeritor, Inc. ("AM"), a subsidiary of Meritor, along with many other companies, has also been named as a defendant in lawsuits alleging personal injury as a result of exposure to asbestos used in certain components of Rockwell products many years ago. Liability for these claims was transferred at the time of the spin-off of the automotive business from Rockwell in 1997. Rockwell had approximately 3,200 and 3,000 pending active asbestos claims in lawsuits that name AM, together with many other companies, as defendants at March 31, 2016 and September 30, 2015, respectively.

A significant portion of the claims do not identify any of Rockwell's products or specify which of the claimants, if any, were exposed to asbestos attributable to Rockwell's products, and past experience has shown that the vast majority of the claimants will likely never identify any of Rockwell's products. Historically, AM has been dismissed from the vast majority of similar claims filed in the past with no payment to claimants. For those claimants who do show that they worked with Rockwell's products, management nevertheless believes it has meritorious defenses, in substantial part due to the integrity of the products involved and the lack of any impairing medical condition on the part of many claimants.

The Rockwell legacy asbestos-related reserves and corresponding asbestos-related recoveries are summarized as follows (in millions):

	March 31, September 30,	
	2016	2015
Pending and future claims	\$ 55	\$ 55
Billed but unpaid claims	3	3
Asbestos-related liabilities	\$ 58	\$ 58
Asbestos-related insurance recoveries	\$ 14	\$ 14

Pending and Future Claims: The company has engaged Bates White to assist with determining whether it would be possible to estimate the cost of resolving pending and future Rockwell legacy asbestos-related claims that have been, and could reasonably be expected to be, filed against the company. Bates White prepares these cost estimates annually in September. As of September 30, 2015, Bates White provided a reasonable and probable estimate that consisted of a

range of equally likely possibilities of Rockwell's obligation for asbestos personal injury claims over the next ten years of \$55 million to \$74 million. Management recognized a liability for the pending and future claims over the next ten years of \$55 million as of each of March 31, 2016 and September 30, 2015. The ultimate cost of resolving pending and future claims is estimated based on the history of claims and expenses for plaintiffs represented by law firms in jurisdictions with an established history with Rockwell.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Assumptions: The following assumptions were made by the company after consultation with Bates White and are included in their study:

• Pending and future claims were estimated for a ten-year period ending in fiscal year 2025;

• The company believes that the litigation environment could change significantly beyond ten years and that the reliability of estimates of future probable expenditures in connection with asbestos-related personal injury claims will decline for each year further in the future. As a result, estimating a probable liability beyond ten years is difficult and uncertain;

• On a per claim basis, defense and processing costs for pending and future claims will be at the level consistent with the company's prior experience;

• Potential payments made to claimants from other sources, including other defendants and 524(g) trusts favorably impact the company's estimated liability in the future; and

• The ultimate indemnity cost of resolving nonmalignant claims with plaintiff's law firms in jurisdictions without an established history with Rockwell cannot be reasonably estimated.

Recoveries: The insurance receivable related to asbestos-related liabilities was \$14 million as of each of March 31, 2016 and September 30, 2015. Included in these amounts are insurance receivables of \$9 million as of each of March 31, 2016 and September 30, 2015 that are associated with policies in dispute. Rockwell has insurance coverage that management believes covers indemnity and defense costs, over and above self-insurance retentions, for most of these claims. The company has initiated claims against certain of these carriers to enforce the insurance policies, which are in various stages of the litigation process. The company expects to recover some portion of the defense and indemnity costs it has incurred to date, over and above self-insured retentions, and some portion of the costs for defending asbestos claims going forward. The amounts recognized for policies in dispute are based on consultation with advisors, status of settlement negotiations with certain insurers and underlying analysis performed by management. The remaining receivable recognized is related to coverage provided by one carrier based on a coverage-in-place insurance arrangement. If the assumptions with respect to the estimation period, the nature of pending claims, the cost to resolve claims and the amount of available insurance prove to be incorrect, the actual amount of liability for Rockwell's asbestos-related claims, and the effect on the company, could differ materially from current estimates and, therefore, could have a material impact on the company's financial condition and results of operations.

Indemnifications

The company has provided indemnifications in conjunction with certain transactions, primarily divestitures. These indemnities address a variety of matters, which may include environmental, tax, asbestos and employment-related matters, and the periods of indemnification vary in duration.

In December 2005, the company guaranteed a third party's obligation to reimburse another party for payment of health and prescription drug benefits to a group of retired employees. The retirees were former employees of a wholly-owned subsidiary of the company prior to it being acquired by the company. The wholly-owned subsidiary, which was part of the company's light vehicle aftermarket business, was sold by the company in fiscal year 2006. Prior to May 2009, except as set forth hereinafter, the third party met its obligations to reimburse the other party. In May 2009, the third party filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code requiring the company to recognize its obligations under the guarantee. The company recorded a \$28 million liability in fiscal year 2009 for this matter. At March 31, 2016 and September 30, 2015, the remaining estimated liability for this matter was approximately \$13 million.

In connection with the sale of its interest in MSSC in October 2009, the company provided certain indemnities to the buyer for its share of potential obligations related to pension funding shortfall, environmental and other contingencies, and valuation of certain accounts receivable and inventories. At March 31, 2016, the company had no exposure under this indemnity. At September 30, 2015, the company's exposure was approximately \$1 million, which is included in

other liabilities in the condensed consolidated balance sheet.

The company is not aware of any other claims or other information that would give rise to material payments under such indemnifications.

Other

The company identified certain sales transactions for which value added tax was required to be remitted to certain tax jurisdictions for tax years 2009 through 2015. At March 31, 2016 and September 30, 2015, the company's estimate of the probable liability was \$10 million.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In March 2016, the company was served with a complaint filed against the company and other defendants in the United States District Court for the Eastern District of Michigan. The complaint is a proposed class action and alleges that the company violated federal and state antitrust and other laws in connection with a former business of the company's that manufactured and sold exhaust systems for automobiles. The alleged class is comprised of persons and entities that purchased or leased a passenger vehicle during a specified time period. In April the Company was served with a virtually identical suit also naming the company as a defendant on behalf of a purported class of automobile dealers. The company is reviewing the complaints and developing its response and intends to vigorously defend the claims. At this point, the company cannot estimate the ultimate impact on the company, and there can be no assurance that the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial position, results of operations or liquidity.

In April 2016, the company was served with several complaints filed against the company and other defendants in the United States District Court for the Northern District of Mississippi. These complaints allege damages, including diminution of property value, concealment/fraud and emotional distress resulting from alleged environmental pollution in and around a neighborhood in Grenada, Mississippi. Rockwell owned and operated a facility near the neighborhood from 1965 to 1985. The company is reviewing the complaints and developing its response and intends to vigorously defend the claims. The ultimate outcome of this litigation, and consequently, an estimate of the possible loss, if any, related to this litigation, cannot reasonably be determined at this time and no assurance can be given that the ultimate outcome would not materially adversely affect the company.

In addition, various lawsuits, claims and proceedings, other than those specifically disclosed in the condensed consolidated financial statements, have been or may be instituted or asserted against the company, relating to the conduct of the company's business, including those pertaining to product liability, warranty or recall claims, intellectual property, safety and health, contract and employment matters. Although the outcome of other litigation cannot be predicted with certainty, and some lawsuits, claims or proceedings may be disposed of unfavorably to the company, management believes the disposition of matters that are pending will not have a material effect on the company's business, financial condition, results of operations or cash flows.

21. Shareowners' Equity

Equity and Equity-Linked Repurchase Authorizations

In June 2014, the company's Board of Directors authorized the repurchase of up to \$210 million of its equity and equity-linked securities (including convertible debt securities), subject to the achievement of its M2016 net debt reduction target and compliance with legal and regulatory requirements and its debt covenants. In September 2014, the company's Board authorized the repurchase of up to \$40 million of its equity or equity-linked securities (including convertible debt securities) under the \$210 million authorization that may be made annually without regard to achievement of the M2016 net debt reduction target. These authorizations have no stated expiration. During the six months ended March 31, 2016, the company repurchased 3.9 million shares of common stock for \$43 million (including commission costs) pursuant to these authorizations. As of March 31, 2016, the company has repurchased 8.1 million shares of common stock for \$98 million (including commission costs), \$19 million principal amount of its 4.0 percent convertible notes due 2027, and substantially all of the \$55 million principal amount of its 4.625 percent convertible notes due 2026 pursuant to the equity and equity-linked repurchase authorizations. The amount remaining available for repurchase under the authorization was \$39 million as of March 31, 2016.

In January 2015, the Offering Committee of the company's Board of Directors approved a repurchase program for up to \$150 million aggregate principal amount of any of its public debt securities (including convertible debt securities) from time to time through open market purchases or privately negotiated transactions or otherwise, until September 30, 2016, subject to compliance with legal and regulatory requirements and the company's debt covenants. This repurchase program is in addition to the equity and equity-linked repurchase authorizations described above. The

amount remaining available for repurchases under this program is \$150 million as of March 31, 2016 and September 30, 2015.

22. Business Segment Information

The company defines its operating segments as components of its business where separate financial information is available and is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The company's Chief Operating Decision Maker ("CODM") is the Chief Executive Officer.

The company has two reportable segments at March 31, 2016, as follows:

The Commercial Truck & Industrial segment supplies drivetrain systems and components, including axles, drivelines and braking and suspension systems, primarily for medium- and heavy-duty trucks, military, construction, bus and coach, fire and emergency and other applications in North America, South America, Europe and Asia Pacific. This segment also includes the company's aftermarket businesses in Asia Pacific and South America; and

The Aftermarket & Trailer segment supplies axles, brakes, drivelines, suspension parts and other replacement parts to commercial vehicle and industrial aftermarket customers. This segment also supplies a wide variety of undercarriage products and systems for trailer applications in North America.

Segment EBITDA is defined as income (loss) from continuing operations before interest expense, income taxes, depreciation and amortization, non-controlling interests in consolidated joint ventures, loss on sale of receivables, restructuring expense and asset impairment charges. The company uses Segment EBITDA as the primary basis for the CODM to evaluate the performance of each of its reportable segments.

The accounting policies of the segments are the same as those applied in the condensed consolidated financial statements, except for the use of Segment EBITDA. The company may allocate certain common costs, primarily corporate functions, between the segments differently than the company would for stand alone financial information prepared in accordance with GAAP. These allocated costs include expenses for shared services such as information

technology, finance, communications, legal and human resources. The company does not allocate interest expense and certain legacy and other corporate costs not directly associated with the segment.

⁽¹⁾ Corporate assets consist primarily of cash, deferred income taxes and prepaid pension costs.

At March 31, 2016 and September 30, 2015, segment assets include \$210 million and \$256 million, respectively,

⁽²⁾ of accounts receivable sold under off-balance sheet accounts receivable factoring programs (see Note 8). These sold receivables are included in segment assets as the CODM reviews segment assets inclusive of these balances.

23. Supplemental Guarantor Condensed Consolidating Financial Statements

Rule 3-10 of Regulation S-X requires that separate financial information for issuers and guarantors of registered securities be filed in certain circumstances. Certain of the company's 100-percent-owned subsidiaries, as defined in the credit agreement (the "Guarantors"), irrevocably and unconditionally guarantee amounts outstanding under the senior secured revolving credit facility on a joint and several basis. Similar subsidiary guarantees were provided for the benefit of the holders of the notes outstanding under the company's indentures (see Note 17).

Schedule I of Rule 5-04 of Regulation S-X requires that condensed financial information of the registrant ("Parent") on a stand alone basis be filed when the restricted net assets of consolidated subsidiaries exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year. Certain subsidiaries in China, India and Brazil are restricted by law from transfer of cash by dividends, loans, or advances to Parent, which exceeded 25 percent of consolidated net assets of Parent as of September 30, 2015. As of March 31, 2016, the company's proportionate share of net assets restricted from transfer by law was \$37 million.

Index

MERITOR, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

In lieu of providing separate audited financial statements for the Parent and Guarantors, the company has included the accompanying condensed consolidating financial statements as permitted by Regulation S-X Rules 3-10 and 5-04. These condensed consolidating financial statements are presented on the equity method. Under this method, the investments in subsidiaries are recorded at cost and adjusted for the Parent's share of the subsidiary's cumulative results of operations, capital contributions and distribution and other equity changes. The Guarantors are combined in the condensed consolidating financial statements.

Basis of Presentation

Certain information and footnote disclosures normally included in financial statements prepared in conformity with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. As of March 31, 2016 and September 30, 2015, Parent-only obligations included \$611 million and \$631 million of pension and retiree medical benefits, respectively (see Note 19). All debt is debt of the Parent other than \$35 million and \$33 million at March 31, 2016 and September 30, 2015, respectively (see Note 17), and is primarily related to capital lease obligations and lines of credit. There were \$17 million cash dividends paid to the Parent by subsidiaries and investments accounted for by the equity method for the six months ended March 31, 2016 and \$37 million for the six months ended March 31, 2015.

MERITOR, INC.

Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operations

OVERVIEW

Meritor, Inc. (the "company", "our", "we" or "Meritor"), headquartered in Troy, Michigan, is a premier global supplier of a broad range of integrated systems, modules and components to original equipment manufacturers ("OEMs") and the aftermarket for the commercial vehicle, transportation and industrial sectors. The company serves commercial truck, trailer, military, bus and coach, construction, and other industrial OEMs and certain aftermarkets. Meritor common stock is traded on the New York Stock Exchange under the ticker symbol MTOR.

2nd Quarter Fiscal Year 2016 Results

Our sales for the second quarter of fiscal year 2016 were \$821 million, a decrease compared to \$864 million in the same period in the prior fiscal year. The decrease in sales was driven by lower production in the North America Class 8 truck market and South America and the effect of foreign exchange translation particularly in Brazil partially offset by increased market share in the North America market.

Adjusted EBITDA (see Non-GAAP Financial Measures below) for the second quarter of fiscal year 2016 was \$81 million compared to \$87 million in the same period in the prior fiscal year. Our Adjusted EBITDA margin (see Non-GAAP Financial Measures below) in the second quarter of fiscal year 2016 was 9.9 percent compared to 10.1 percent in the same period a year ago. The decline in Adjusted EBITDA and Adjusted EBITDA margin was driven by lower production volumes in North and South America and a non-recurring foreign currency hedge gain in the second quarter of 2015, which were partially offset by lower material, labor and burden costs.

Net income from continuing operations attributable to the company for the second quarter of fiscal year 2016 was \$33 million compared to \$39 million in the same period in the prior fiscal year. Adjusted income from continuing operations attributable to the company (see Non-GAAP Financial Measures below) for the second quarter of fiscal year 2016 was \$38 million compared to \$43 million in the same period in the prior fiscal year.

Cash flow provided by operating activities was \$44 million in the second quarter of fiscal year 2016 compared to cash flows provided by operating activities of \$38 million in the same period last year.

Equity and Equity-Linked Repurchase Authorization

On March 1, 2016, substantially all of the \$55 million of the 4.625% convertible notes were repurchased at 100 percent of the face value of the notes. The repurchase was part of the \$210 million equity and equity linked repurchase program. The amount remaining available for repurchase under the authorization was \$39 million at March 31, 2016.

Trends and Uncertainties

Industry Production Volumes

The following table reflects estimated on-highway commercial truck production volumes for selected original equipment (OE) markets for the three and six months ended March 31, 2016 and 2015 based on available sources and management's estimates.

	Three Months Ended March 31,			Six Months Ended March 31,		
	2016	2015	Change	2016	2015	Change
Estimated Commercial Truck production (in thousands):						
North America, Heavy-Duty Trucks	64	79	(19)%	136	156	(13)%
North America, Medium-Duty Trucks	64	57	12 %	124	115	8 %
North America, Trailers	68	69	(1)%	144	141	2 %
Western Europe, Heavy- and Medium-Duty Trucks	108	94	15 %	224	195	15 %
South America, Heavy- and Medium-Duty Trucks	15	24	(38)%	30	52	(42)%
India, Heavy- and Medium-Duty Trucks	94	74	27 %	168	132	27 %

North America:

We expect production volumes in North America to return to more normalized levels by historical standards in fiscal year 2016, which represents significantly decreased levels compared to those experienced in fiscal year 2015, particularly in the second half of fiscal year 2016.

50

MERITOR, INC.

Western Europe:

During fiscal year 2016, we expect production volumes in Western Europe to increase compared to the levels experienced in fiscal year 2015.

South America:

During fiscal year 2016, we expect the markets in South America to remain consistent with the depressed levels experienced in the second half of fiscal year 2015.

China:

During fiscal year 2016, we expect production volumes in China to remain relatively flat compared with levels experienced in fiscal year 2015.

India:

During fiscal year 2016, we expect production volumes in India to continue to improve compared to the levels experienced in fiscal year 2015.

Industry-Wide Issues

Our business continues to address a number of other challenging industry-wide issues including the following:

• Uncertainty around the global market outlook;

- Volatility in price and availability of steel, components and other commodities;

• Disruptions in the financial markets and their impact on the availability and cost of credit;

- Volatile energy and increasing transportation costs;

• Impact of currency exchange rate volatility;

• Consolidation and globalization of OEMs and their suppliers; and

• Significant pension and retiree medical health care costs.

Other

Other significant factors that could affect our results and liquidity in fiscal year 2016 and beyond include:

• Significant contract awards or losses of existing contracts or failure to negotiate acceptable terms in contract renewals;

• Failure to obtain new business;

• Our ability to manage possible adverse effects on our European operations, or financing arrangements related thereto, in the event one or more countries exit the European monetary union;

• Our ability to implement planned productivity, cost reduction, and other margin improvement initiatives;

• Our ability to work with our customers to manage rapidly changing production volumes;

• Our ability to recover and timing of recovery of steel price and other cost increases from our customers;

• Any unplanned extended shutdowns or production interruptions by us, our customers or our suppliers;

• A significant deterioration or slowdown in economic activity in the key markets in which we operate;

• Competitively driven price reductions to our customers;

• Potential price increases from our suppliers;

• Additional restructuring actions and the timing and recognition of restructuring charges, including any actions associated with the prolonged softness in markets in which we operate;

• Higher-than-planned warranty expenses, including the outcome of known or potential recall campaigns;

MERITOR, INC.

Uncertainties of asbestos claim litigation and the outcome of litigation with insurance companies regarding the scope of coverage and the long-term solvency of our insurance carriers; and

- Restrictive government actions by foreign countries (such as restrictions on transfer of funds and trade protection measures, including export duties, quotas and customs duties and tariffs).

NON-GAAP FINANCIAL MEASURES

In addition to the results reported in accordance with accounting principles generally accepted in the United States ("GAAP"), we have provided information regarding non-GAAP financial measures. These non-GAAP financial measures include Adjusted income (loss) from continuing operations, Adjusted diluted earnings (loss) per share from continuing operations, Adjusted EBITDA, Adjusted EBITDA margin, and Free cash flow.

Adjusted income (loss) from continuing operations and Adjusted diluted earnings (loss) per share from continuing operations are defined as reported income or loss from continuing operations and reported diluted earnings (loss) per share from continuing operations before restructuring expenses, asset impairment charges, non-cash tax expense related to the use of deferred tax assets in jurisdictions with net operating loss carry forwards, and other special items as determined by management. Adjusted EBITDA is defined as income (loss) from continuing operations before interest, income taxes, depreciation and amortization, non-controlling interests in consolidated joint ventures, loss on sale of receivables, restructuring expenses, asset impairment charges and other special items as determined by management. Adjusted EBITDA margin is defined as Adjusted EBITDA divided by consolidated sales from continuing operations. Free cash flow is defined as cash flows provided by (used for) operating activities less capital expenditures.

Management believes these non-GAAP financial measures are useful to both management and investors in their analysis of the company's financial position and results of operations. In particular, management believes that Adjusted EBITDA, Adjusted EBITDA margin and Adjusted diluted earnings (loss) per share from continuing operations are meaningful measures of performance as they are commonly utilized by management and the investment community to analyze operating performance in our industry. Further, management uses these non-GAAP financial measures for planning and forecasting future periods. Management believes that Free cash flow is useful in analyzing our ability to service and repay debt and return value directly to shareholders.

Adjusted income (loss) from continuing operations, Adjusted diluted earnings (loss) per share from continuing operations and Adjusted EBITDA should not be considered a substitute for the reported results prepared in accordance with GAAP and should not be considered as an alternative to net income as an indicator of our operating performance or to cash flows as a measure of liquidity. Free cash flow should not be considered a substitute for cash provided by (used for) operating activities, or other cash flow statement data prepared in accordance with GAAP, or as a measure of financial position or liquidity. In addition, these non-GAAP cash flow measures do not reflect cash used to repay debt or cash received from the divestitures of businesses or sales of other assets and thus do not reflect funds available for investment or other discretionary uses. These non-GAAP financial measures, as determined and presented by the company, may not be comparable to related or similarly titled measures reported by other companies. Set forth below are reconciliations of these non-GAAP financial measures to the most directly comparable financial measures calculated in accordance with GAAP.

Adjusted income from continuing operations attributable to the company and adjusted diluted earnings per share from continuing operations are reconciled to income from continuing operations attributable to the company and diluted earnings per share from continuing operations below (in millions, except per share amounts).

MERITOR, INC.

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

Sales

The following table reflects total company and business segment sales for the three months ended March 31, 2016 and 2015 (dollars in millions). The reconciliation is intended to reflect the trend in business segment sales and to illustrate the impact that changes in foreign currency exchange rates, volumes and other factors had on sales. Business segment sales include intersegment sales.

	Three Months Ended March 31,		Dollar Change Due To			
	2016	2015	Dollar Change	% Change	Currency	Volume/Other
Sales:						
Commercial Truck & Industrial						
North America	\$357	\$384	\$ (27)	(7)%	\$—	\$ (27)
Europe	140	144	(4)	(3)%	(3)	(1)
South America	32	49	(17)	(35)%	(12)	(5)
China	18	25	(7)	(28)%	(1)	(6)
India	42	38	4	11 %	(3)	7
Other	21	20	1	5 %	(1)	2
Total External Sales	\$610	\$660	\$ (50)	(8)%	\$(20)	\$(30)
Intersegment Sales	21	21	—	— %	(1)	1
Total Sales	\$631	\$681	\$ (50)	(7)%	\$(21)	\$(29)
Aftermarket & Trailer						
North America	\$181	\$176	\$ 5	3 %	\$(2)	\$ 7
Europe	30	28	2	7 %	(1)	3
Total External Sales	\$211	\$204	\$ 7	3 %	\$(3)	\$ 10
Intersegment Sales	7	8	(1)	(13)%	(1)	—
Total Sales	\$218	\$212	\$ 6	3 %	\$(4)	\$ 10

Total External Sales \$821 \$864 \$ (43) (5)% \$(23) \$ (20)

Commercial Truck & Industrial sales were \$631 million in the second quarter of fiscal year 2016, down 7 percent compared to the second quarter of fiscal year 2015. The decrease in sales was driven by lower production in the North America Class 8 truck market and South America and the effect of foreign exchange translation particularly in Brazil partially offset by increased market share in the North America market.

Aftermarket & Trailer sales were \$218 million in the second quarter of fiscal year 2016, up 3 percent compared to the second quarter of fiscal year 2015. The increase in sales was primarily driven by higher trailer production in North America.

Cost of Sales and Gross Profit

Cost of sales primarily represents materials, labor and overhead production costs associated with the company's products and production facilities. Cost of sales for the three months ended March 31, 2016 was \$700 million compared to \$749 million in the same period in the prior fiscal year, representing a decrease of 6.5 percent. Total cost of sales was 85.3 and 86.7 percent of sales for the three month periods ended March 31, 2016 and 2015, respectively.

The following table summarizes significant factors contributing to the changes in costs of sales during the second quarter of fiscal year 2016 compared to the same quarter in the prior year (in millions):

MERITOR, INC.

	Cost of Sales
Three Months Ended March 31, 2015	\$749
Volume, mix and other, net	(30)
Foreign exchange	(19)
Three Months Ended March 31, 2016	\$700

Changes in the components of cost of sales year over year are summarized as follows (in millions):

	Change in Cost of Sales
Lower material costs	\$ (45)
Lower labor and overhead costs	(10)
Other, net	6
Total change in costs of sales	\$ (49)

Material costs represent the majority of our cost of sales and include raw materials, composed primarily of steel and purchased components. Material costs for the three months ended March 31, 2016 decreased \$45 million compared to the same period in the prior fiscal year primarily due to lower volumes, the movement in foreign currency rates, material economics and material performance programs.

Labor and overhead costs decreased \$10 million compared to the same period in the prior fiscal year primarily due to the movement in foreign currency rates and savings associated with labor and burden cost reduction programs.

Gross margin for the three-month periods ended March 31, 2016 and 2015 was \$121 million and \$115 million, respectively. Gross margin, as a percentage of sales, was 14.7 and 13.3 percent for the three-month periods ended March 31, 2016 and 2015, respectively. This improvement in gross margin percentage was primarily driven by lower material, labor and burden costs.

Other Income Statement Items

Selling, general and administrative expenses ("SG&A") for the three months ended March 31, 2016 and 2015 are summarized as follows (dollars in millions):

	Three Months Ended March 31, 2016	% of sales	Three Months Ended March 31, 2015	% of sales	Increase (Decrease)
SG&A	Amount		Amount		
Loss on sale of receivables	\$(2)	(0.2)%	\$(1)	(0.1)%	\$1 0.1 pts
Short and long-term variable compensation	(7)	(0.9)%	(4)	(0.5)%	3 0.4 pts
All other SG&A	(51)	(6.2)%	(52)	(6.0)%	(1) 0.2 pts
Total SG&A	\$(60)	(7.3)%	\$(57)	(6.6)%	\$3 0.7 pts

All other SG&A, which represents normal selling, general and administrative expense, remained relatively flat year-over-year as a percentage of sales.

Restructuring costs of \$2 million and \$3 million were recorded in the three months ended March 31, 2016 and 2015, respectively. These costs primarily related to employee severance costs recognized by our Commercial Truck & Industrial segment.

Operating income increased by \$1 million from \$55 million in the second quarter of fiscal year 2015 to \$56 million in the same period in fiscal year 2016. Key items affecting operating income are discussed above.

Equity in earnings of affiliates decreased by \$2 million from \$9 million in the second quarter of fiscal year 2015 to \$7 million in the same period in fiscal year 2016.

Interest expense, net was \$21 million in the second quarter of fiscal years 2016 and 2015.

MERITOR, INC.

Provision for income taxes was \$7 million in the second quarter of fiscal year 2016 compared to \$6 million in the same period in the prior fiscal year. The increase in tax expense is primarily attributable to the recording of tax expense in jurisdictions in which we previously recognized a valuation allowance.

Income from continuing operations (before noncontrolling interests) decreased by \$6 million from \$39 million in the second quarter of fiscal year 2015 to \$33 million in the same period in fiscal year 2016. The reasons for the decrease are discussed above.

Loss from discontinued operations, net of tax was \$1 million in the second quarter of fiscal year 2016. For the same period in fiscal year 2015, income from discontinued operations, net of tax was \$4 million, which primarily related to the resolution of indemnities from certain previously divested businesses.

Net income attributable to Meritor, Inc. decreased by \$11 million from \$43 million in the second quarter of fiscal year 2015 to \$32 million in the same period in fiscal year 2016. The various factors affecting net income are discussed above.

Segment EBITDA and EBITDA Margins

Segment EBITDA is defined as income (loss) from continuing operations before interest expense, income taxes, depreciation and amortization, noncontrolling interests in consolidated joint ventures, loss on sale of receivables, restructuring expense, and asset impairment charges. We use Segment EBITDA as the primary basis for the Chief Operating Decision Maker ("CODM") to evaluate the performance of each of our reportable segments. Segment EBITDA margin is defined as Segment EBITDA divided by consolidated sales from continuing operations.

The following table reflects Segment EBITDA and Segment EBITDA margins for the three months ended March 31, 2016 and 2015 (in millions).

	Segment EBITDA			Segment EBITDA Margins		
	Three Months Ended March 31, 2016	2015	Change	Three Months Ended March 31, 2016	2015	Change
Commercial Truck & Industrial	\$56	\$57	\$ (1)	8.9 %	8.4 %	0.5 pts
Aftermarket & Trailer	28	30	(2)	12.8 %	14.2 %	(1.4) pts
Segment EBITDA	\$84	\$87	\$ (3)	10.2 %	10.1 %	0.1 pts

Significant items impacting year-over-year Segment EBITDA include the following (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	TOTAL
Segment EBITDA– Quarter ended March 31, 2015	\$ 57	\$ 30	\$ 87
Lower earnings from unconsolidated affiliates	(2)	—	(2)
Impact of foreign currency option contracts gains (prior year)	(5)	(1)	(6)
Impact of foreign currency translation	(2)	—	(2)
Volume, mix, pricing and other	8	(1)	7
Segment EBITDA – Quarter ended March 31, 2016	\$ 56	\$ 28	\$ 84

Commercial Truck & Industrial Segment EBITDA was \$56 million in the second quarter of fiscal year 2016, down \$1 million from the same period in the prior fiscal year. Segment EBITDA margin increased to 8.9 percent compared to 8.4 percent in the same period in the prior fiscal year. The increase in Segment EBITDA margin was driven primarily by lower material, labor and burden costs, which more than offset the one-time foreign exchange hedge gains recognized in the second quarter of 2015.

Aftermarket & Trailer Segment EBITDA was \$28 million in the second quarter of fiscal year 2016, down \$2 million from the same period in the prior fiscal year. Segment EBITDA margin decreased to 12.8 percent compared to 14.2 percent in the same period in the prior fiscal year. The decrease in Segment EBITDA and Segment EBITDA margin was primarily driven by unfavorable product mix.

MERITOR, INC.

Six Months Ended March 31, 2016 Compared to Six Months Ended March 31, 2015

Sales

The following table reflects total company and business segment sales for the six months ended March 31, 2016 and 2015 (in millions). The reconciliation is intended to reflect the trend in business segment sales and to illustrate the impact that changes in foreign currency exchange rates, volumes and other factors had on sales. Business segment sales include intersegment sales.

	Six Months Ended March 31,		Dollar Change Due To			
	2016	2015	Dollar Change	% Change	Currency	Volume/ Other
Sales:						
Commercial Truck & Industrial						
North America	\$722	\$747	\$(25)	(3)%	\$—	\$(25)
Europe	286	304	(18)	(6)%	(24)	6
South America	56	124	(68)	(55)%	(26)	(42)
China	39	52	(13)	(25)%	(2)	(11)
India	78	68	10	15 %	(6)	16
Other	42	43	(1)	(2)%	(5)	4
Total External Sales	\$1,223	\$1,338	\$(115)	(9)%	\$(63)	\$(52)
Intersegment Sales	41	46	(5)	(11)%	(6)	1
Total Sales	\$1,264	\$1,384	\$(120)	(9)%	\$(69)	\$(51)
Aftermarket & Trailer						
North America	\$350	\$346	\$4	1 %	\$(6)	\$ 10
Europe	57	59	(2)	(3)%	(5)	3
Total External Sales	\$407	\$405	\$2	— %	\$(11)	\$ 13
Intersegment Sales	14	15	(1)	(7)%	(5)	4
Total Sales	\$421	\$420	\$1	— %	\$(16)	\$ 17

Total External Sales \$1,630 \$1,743 \$(113) (6)% \$(74) \$(39)

Commercial Truck & Industrial sales were \$1,264 million in the first six months of fiscal year 2016, down 9 percent compared to the first six months of fiscal year 2015. The decrease in sales was impacted by lower production in the North America Class 8 truck market and South America and the effect of foreign exchange translation primarily driven by the strong U.S. dollar relative to the Brazilian real and euro.

Aftermarket & Trailer sales were \$421 million in the second quarter of fiscal year 2016, consistent with sales in the first six months of fiscal year 2015. Sales were relatively flat as higher trailer production in North America offset the unfavorable impact of the strengthening U.S. dollar against the euro compared to the same period in the prior fiscal year.

Cost of Sales and Gross Profit

Cost of sales primarily represents materials, labor and overhead production costs associated with the company's products and production facilities. Cost of sales for the six months ended March 31, 2016 was \$1,405 million compared to \$1,513 million in the same period in the prior fiscal year, representing a decrease of 7 percent. Total cost of sales was 86.2 and 86.8 percent of sales for the six month periods ended March 31, 2016 and 2015, respectively.

The following table summarizes significant factors contributing to the changes in costs of sales during the first six months of fiscal year 2016 compared to the same period in the prior year (in millions):

MERITOR, INC.

	Cost of Sales
Six months ended March 31, 2015	\$1,513
Volume, mix and other, net	(46)
Foreign exchange	(62)
Six Months Ended March 31, 2016	\$1,405

Changes in the components of cost of sales year over year are summarized as follows (in millions):

	Change in Cost of Sales
Lower material costs	\$(89)
Lower labor and overhead costs	(24)
Other, net	5
Total change in costs of sales	\$(108)

Material costs represent the majority of our cost of sales and include raw materials, composed primarily of steel and purchased components. Material costs for the six months ended March 31, 2016 decreased \$89 million compared to the same period in the prior fiscal year primarily due to lower volumes, movement in foreign currency rates, material economics and material performance programs.

Labor and overhead costs decreased \$24 million compared to the same period in the prior fiscal year primarily due to the movement in foreign currency rates and savings associated with labor and burden cost reduction programs.

Gross margin for the six-month periods ended March 31, 2016 and 2015 was \$225 million and \$230 million, respectively. Gross margin, as a percentage of sales, was 13.8 and 13.2 percent for the six-month periods ended March 31, 2016 and 2015, respectively. This improvement in gross margin percentage was primarily driven by lower material, labor and burden costs.

Other Income Statement Items

SG&A for the six months ended March 31, 2016 and 2015 are summarized as follows (dollars in millions):

	Six Months Ended March 31, 2016	% of sales	Six Months Ended March 31, 2015	% of sales	Increase (Decrease)	
SG&A	Amount		Amount			
Loss on sale of receivables	\$(4)	(0.2)%	\$(3)	(0.2)%	\$1	0.0 pts
Short and long-term variable compensation	(15)	(0.9)%	(12)	(0.7)%	3	0.2 pts
Insurance settlement	5	0.3 %	—	— %	(5)	(0.3) pts
All other SG&A	(102)	(6.3)%	(107)	(6.1)%	(5)	0.2 pts
Total SG&A	\$(116)	(7.1)%	\$(122)	(7.0)%	\$(6)	0.1 pts

In the first quarter of fiscal year 2016, we recognized \$5 million related to an insurance settlement for recoveries for defense and indemnity costs associated with Maremont asbestos liabilities.

All other SG&A, which represents normal selling, general and administrative expense, remained relatively flat year over year as a percentage of sales.

Restructuring costs of \$3 million compared to \$6 million were recorded during the first six months of March 31, 2016 and 2015, respectively. The costs incurred in the first six months of fiscal year 2016 primarily related to employee severance costs split between our Commercial Truck & Industrial segment and Aftermarket & Trailer segment.

During the first six months of fiscal year 2015, \$5 million of restructuring costs were recognized by our Commercial

Truck & Industrial segment and \$1 million by our corporate locations, primarily related to employee severance. Operating income was \$103 million in the first six months of fiscal year 2016 and 2015. Key items affecting operating income are discussed above.

MERITOR, INC.

Equity in earnings of affiliates decreased by \$1 million from \$18 million in the first six months of fiscal year 2015 to \$17 million in the same period in fiscal year 2016.

Interest expense, net increased by \$3 million from \$40 million in the first six months of fiscal year 2015 to \$43 million in the same period in fiscal year 2016. In the third and fourth quarters of fiscal year 2015, we issued new debt, the proceeds of which we used to fund contributions to our pension plans and to repurchase certain other debt obligations. This resulted in a higher long-term debt balance in the first six months of fiscal year 2016 compared to the same period in fiscal year 2015.

Provision for income taxes was \$14 million in the first six months of fiscal years 2016 compared to \$13 million in the same period in the prior fiscal year. The increase in tax expense was primarily attributable to the recording of tax expense in jurisdictions in which we previously recognized a valuation allowance.

Income from continuing operations (before noncontrolling interests) decreased by \$10 million from \$72 million in the first six months of fiscal year 2015 to \$62 million in the same period in fiscal year 2016. The reasons for the decrease are discussed above.

Loss from discontinued operations, net of tax was \$3 million in the first six months of fiscal year 2016. For the same period in fiscal year 2015, income from discontinued operations, net of tax was \$1 million, which included approximately \$4 million of income related to the resolution of indemnities from certain previously divested businesses.

Net income attributable to Meritor, Inc. decreased by \$14 million from \$72 million in the first six months of fiscal year 2015 to \$58 million in the same period in fiscal year 2016. The various factors affecting net income are discussed above.

Segment EBITDA and EBITDA Margins

The following table reflects Segment EBITDA and Segment EBITDA margins for the six months ended March 31, 2016 and 2015 (dollars in millions).

	Segment EBITDA			Segment EBITDA Margins		
	Six Months Ended March 31,			Six Months Ended March 31,		
	2016	2015	Change	2016	2015	Change
Commercial Truck & Industrial	\$108	\$113	\$ (5)	8.5 %	8.2 %	0.3 pts
Aftermarket & Trailer	48	55	(7)	11.4%	13.1 %	(1.7) pts
Segment EBITDA	\$156	\$168	\$ (12)	9.6 %	9.6 %	0.0 pts

Significant items impacting year-over-year Segment EBITDA include the following (in millions):

	Commercial Truck & Industrial	Aftermarket & Trailer	TOTAL
Segment EBITDA— Six months ended March 31, 2015	\$ 113	\$ 55	\$ 168
Lower earnings from unconsolidated affiliates	(1)	—	(1)
Impact of foreign currency options gains (prior year)	(5)	(1)	(6)
Impact of foreign currency translation	(7)	(1)	(8)
Volume, mix, pricing and other	8	(5)	3
Segment EBITDA – Six months ended March 31, 2016	\$ 108	\$ 48	\$ 156

Commercial Truck & Industrial Segment EBITDA was \$108 million in the first six months of fiscal year 2016, down \$5 million from the same period in the prior fiscal year. Segment EBITDA margin increased to 8.5 percent compared to 8.2 percent in the same period in the prior fiscal year. The increase in Segment EBITDA margin was primarily driven by lower material, labor and burden costs, partially offset by a non-recurring foreign currency hedge gain in the

second quarter of 2015.

Aftermarket & Trailer Segment EBITDA was \$48 million in the first six months of fiscal year 2016, down \$7 million from the same period in the prior fiscal year. Segment EBITDA margin decreased to 11.4 percent compared to 13.1 percent in the same period in the prior fiscal year. The decrease in Segment EBITDA and Segment EBITDA margin was primarily driven by unfavorable product mix, foreign currency impacts, and one-time costs associated with the launch of a new warehouse system.

Repurchase of common stock	(43)	(16)
Other financing activities	(2)	(6)
CASH USED FOR FINANCING ACTIVITIES	\$(100)	\$(38)

Cash used for financing activities was \$100 million in the first six months of fiscal year 2016 compared to \$38 million in the same period of fiscal year 2015. The increase in cash used for financing activities is primarily related to

the repurchase of substantially all of the \$55 million of principal amount 4.625 percent convertible notes and the \$43 million (including commission costs) of cash used to repurchase 3.9 million shares of our common stock in the first quarter of fiscal year 2016 compared to the \$16 million (including commission costs) on the repurchase of 1.2 million shares in the first six months of fiscal year 2015.

MERITOR, INC.

Liquidity

Our outstanding debt, net of discounts and unamortized debt issuance costs where applicable, is summarized as follows (in millions).

	March 31, September 30,	
	2016	2015
Fixed-rate debt securities	\$ 712	\$ 712
Fixed-rate convertible notes	270	324
Unamortized discount on convertible notes	(17)	(20)
Other borrowings	38	35
Total debt	\$ 1,003	\$ 1,051

Overview – Our principal operating and capital requirements are for working capital needs, capital expenditure requirements, debt service requirements, funding of pension and retiree medical costs, restructuring and product development programs. We expect fiscal year 2016 capital expenditures for our business segments to be approximately \$90 million.

We generally fund our operating and capital needs with cash on hand, cash flow from operations, our various accounts receivable securitization and factoring arrangements and availability under our revolving credit facility. Cash in excess of local operating needs is generally used to reduce amounts outstanding, if any, under our revolving credit facility or U.S. accounts receivable securitization program. Our ability to access additional capital in the long term will depend on availability of capital markets and pricing on commercially reasonable terms as well as our credit profile at the time we are seeking funds. We continuously evaluate our capital structure to ensure the most appropriate and optimal structure and may, from time to time, retire, repurchase, exchange or redeem outstanding indebtedness or common equity, issue new equity or debt securities or enter into new lending arrangements if conditions warrant. In December 2014, we filed a shelf registration statement with the Securities and Exchange Commission, registering an unlimited amount of debt and/or equity securities that we may offer in one or more offerings on terms to be determined at the time of sale. The December 2014 shelf registration statement superseded and replaced the shelf registration statement filed in February 2012, as amended.

We believe our current financing arrangements provide us with the financial flexibility required to maintain our operations and fund future growth, including actions required to improve our market share and further diversify our global operations, through the term of our revolving credit facility, which matures in February 2019.

MERITOR, INC.

Sources of liquidity as of March 31, 2016, in addition to cash on hand, are as follows (in millions):

	Total Facility Size	Utilized as of 3/31/16	Readily Available as of 3/31/16	Current Expiration
On-balance sheet arrangements:				
Revolving credit facility ⁽¹⁾	\$ 499	\$ —	\$ 499	February 2019 ⁽¹⁾

Letter of credit facility	25	22	3	March 2019
Total off-balance sheet arrangements	377	231	3	
Total available sources	\$ 976	\$ 231	\$ 576	

(1) The availability under the revolving credit facility is subject to a collateral test and a priority debt-to-EBITDA ratio covenant and a reduction to \$459 million in April 2017 as discussed under Revolving Credit Facility below.

(2) Availability subject to adequate eligible accounts receivable available for sale.

(3) Actual amounts may exceed bank's commitment at bank's discretion.

Cash and Liquidity Needs – Our cash and liquidity needs have been affected by the level, variability and timing of our customers' worldwide vehicle production and other factors outside of our control. At March 31, 2016, we had \$94 million in cash and cash equivalents.

At March 31, 2016, we had approximately \$44 million of our cash and cash equivalents held in jurisdictions outside of the U.S. that, if repatriated, could result in withholding taxes. It is our intent to reinvest those cash balances in our foreign operations and we will continue to meet our liquidity needs in the U.S. through ongoing cash flows from operations in the U.S., external borrowings or both.

Our availability under the revolving credit facility is subject to a collateral test and a priority debt-to-EBITDA ratio covenant, as defined in the credit agreement, which may limit our borrowings under such agreement as of each quarter end. As long as we are in compliance with those covenants as of the quarter end, we have full availability (up to the amount of collateral under the collateral test) under the revolving credit facility every other day during the quarter. Our future liquidity is subject to a number of factors, including access to adequate funding under our revolving credit facility, access to other borrowing arrangements such as factoring or securitization facilities, vehicle production schedules and customer demand. Even taking into account these and other factors, management expects to have sufficient liquidity to fund our operating requirements through the term of our revolving credit facility. At March 31, 2016, we were in compliance with all covenants under our credit agreement.

Equity and Equity-Linked Repurchase Authorization – In June 2014, our Board of Directors authorized the repurchase of up to \$210 million of our equity and equity-linked securities (including convertible debt securities), subject to the achievement of our M2016 net debt reduction target and compliance with legal and regulatory requirements and our debt covenants. In September 2014, our Board authorized the repurchase of up to \$40 million of our equity or equity-linked securities (including convertible debt securities) under the \$210 million authorization that may be made annually without regard to achievement of the M2016 net debt reduction target. These authorizations have no stated

expiration. As of March 31, 2016, we had repurchased 8.1 million shares of common stock for \$98 million (including commission costs), \$19 million principal amount of our 4.0 percent convertible notes due 2027, and substantially all of the \$55 million principal amount of our 4.625 percent convertible notes due 2026 pursuant to the equity and equity-linked repurchase authorizations (see Note 17 of the Notes to Condensed Consolidated Financial Statements in Part I of this Quarterly Report). The amount remaining available for repurchase under the authorization was \$39 million as of March 31, 2016.

MERITOR, INC.

Debt Repurchase Programs - In January 2015, the Offering Committee of our Board of Directors approved a repurchase program for up to \$150 million aggregate principal amount of any of our public debt securities (including convertible debt securities) from time to time through open market purchases or privately negotiated transactions or otherwise, until September 30, 2016, subject to compliance with legal and regulatory requirements and our debt covenants. This repurchase program is in addition to the equity and equity-linked repurchase authorizations described above. The amount remaining available for repurchases under the program was \$150 million as of March 31, 2016.

2026 Convertible Notes Repurchase Authorization - In May 2015, the Offering Committee of our Board of Directors approved a repurchase program for up to \$175 million aggregate principal amount at maturity of our 7.875 percent convertible notes due 2026 from time to time prior to September 30, 2015, subject to compliance with legal and regulatory requirements and our debt covenants. This repurchase program was in addition to the equity and equity-linked repurchase authorizations and debt repurchase program described above. This repurchase authorization expired on September 30, 2015.

Issuances of 2024 Notes - In fiscal year 2014, we completed a public offering of debt securities consisting of the issuance of \$225 million principal amount of 10-year, 6.25 percent notes due 2024 (the "Initial 2024 Notes"). The proceeds from the sale of the Initial 2024 Notes were \$225 million and, together with cash on hand, were used to repurchase \$250 million principal amount of our outstanding 10.625 percent notes due 2018.

In fiscal year 2015, we completed a public offering consisting of the issuance of an additional \$225 million aggregate principal amount of 6.25 percent notes due 2024 (the "Additional 2024 Notes"), in an underwritten public offering. The proceeds from the sale of the Additional 2024 Notes were used to replenish available cash used to pay \$179 million, including premium and fees, to repurchase \$110 million principal amount at maturity of our 7.875 percent convertible notes due 2026. We used the remaining net proceeds, along with cash, to purchase annuities to satisfy our obligations under our Canadian and German pension plans.

These Additional 2024 Notes constitute a further issuance of, and are fungible with, the \$225 million aggregate principal amount of the Initial 2024 Notes that we issued on February 13, 2014 and form a single series with the Initial 2024 Notes (collectively, the "2024 Notes"). The Additional 2024 Notes have terms identical to the Initial 2024 Notes, other than issue date and offering price, and have the same CUSIP number as the Initial 2024 Notes. Upon completion of the offering, the aggregate principal amount of outstanding notes of this series was \$450 million.

The 2024 Notes constitute senior unsecured obligations of Meritor and rank equally in right of payment with our existing and future senior unsecured indebtedness, and effectively junior to existing and future secured indebtedness. They are guaranteed on a senior unsecured basis by each of our subsidiaries from time to time guaranteeing the senior secured credit facility. Prior to February 15, 2017, we may redeem up to approximately \$79 million aggregate principal amount of the 2024 Notes with the net cash proceeds of one or more public sales of our common stock at a redemption price equal to 106.25 percent of the principal amount, plus accrued and unpaid interest, if any, provided that at least approximately \$146 million aggregate principal amount of the 2024 Notes remains outstanding after each such redemption. Prior to February 15, 2019, we may redeem, at our option, from time to time, the 2024 Notes, in whole or in part, at a redemption price equal to of 100 percent of principal amount of the 2024 Notes to be redeemed, plus the applicable premium as of the redemption date on the 2024 Notes to be redeemed, and any accrued and unpaid interest. On or after February 15, 2019, 2020, 2021 and 2022, we have the option to redeem the 2024 Notes, in whole or in part, at the redemption price of 103.125 percent, 102.083 percent, 101.042 percent, and 100.000 percent, respectively.

If a Change of Control (as defined in the indenture under which the 2024 Notes were issued) occurs, unless we have exercised our right to redeem the securities, each holder of the 2024 Notes may require us to repurchase some or all of such holder's securities at a purchase price equal to 101 percent of the principal amount to be repurchased, plus accrued and unpaid interest, if any.

Issuance of 2021 Notes - In May 2013, we completed a public offering of debt securities consisting of the issuance of \$275 million principal amount of 8-year, 6.75 percent notes due 2021 (the "2021 Notes"). The 2021 Notes were offered and sold pursuant to our shelf registration statement that was effective at the time of the offering. The proceeds

from the sale of the 2021 Notes were \$275 million and were primarily used to repurchase \$167 million principal amount of our 8.125 percent notes due 2015 through a cash tender offer. The 2021 Notes constitute senior unsecured obligations of the company and rank equally in right of payment with its existing and future senior unsecured indebtedness and effectively junior to existing and future secured indebtedness to the extent of the security therefor. They are guaranteed on a senior unsecured basis by each of the company's subsidiaries from time to time guaranteeing the senior secured credit facility. Prior to June 15, 2016, the company may redeem up to 35 percent of the aggregate principal amount of the 2021 Notes issued on the initial issue date with the net cash proceeds of one or more public sales of our common stock at a redemption price equal to 106.75 percent of the principal amount, plus accrued and unpaid interest, if any, provided that at least 65% of the aggregate principal amount of the 2021 Notes issued on the initial issue date remains outstanding after each such redemption. On or after June 15, 2016, 2017, 2018 and 2019, the company has the option to redeem the 2021 Notes, in whole or in part, at the redemption price of 105.063 percent, 103.375 percent, 101.688 percent, and 100.000 percent, respectively.

MERITOR, INC.

If a Change of Control (as defined in the indenture under which the 2021 Notes were issued) occurs, unless the company has exercised its right to redeem the securities, each holder of the 2021 Notes may require the company to repurchase some or all of such holder's securities at a purchase price equal to 101 percent of the principal amount, plus accrued and unpaid interest, if any.

Repurchase of 2026 Notes - In fiscal year 2015, we repurchased \$110 million principal amount at maturity of our 7.875 percent convertible notes due 2026, of which \$85 million were repurchased at a premium equal to approximately 64 percent of their principal amount in the third quarter of fiscal year 2015, and \$25 million were repurchased at a premium equal to approximately 58 percent of their principal amount in the fourth quarter of fiscal year 2015. The premium paid over par reflects the market price of these notes, which includes the embedded option value of the security. Since the conversion option with a conversion price of \$12 per share was in the money at the time of repurchase, this drove a significant premium. These repurchases were accounted for as extinguishments of debt, and accordingly, we recognized a net loss on debt extinguishment of \$24 million in fiscal year 2015. The net loss on debt extinguishment was included in the consolidated statement of operations in interest expense, net. The repurchases were made under our 2026 convertible notes repurchase authorization described above.

Repurchase of 2027 Notes - In fiscal year 2015, we repurchased \$19 million principal amount of our 4.0 percent convertible notes due 2027. The repurchases were accounted for as extinguishments of debt, and accordingly, we recognized an insignificant net loss on debt extinguishment. The net loss on debt extinguishment was included in the consolidated statement of operations in interest expense, net.

Revolving Credit Facility - On May 22, 2015, we entered into a second amendment of our senior secured revolving credit facility. Pursuant to the revolving credit agreement as amended, we have a \$499 million revolving credit facility, \$40 million of which matures in April 2017 for banks that elected not to extend their commitments under the revolving credit facility, and \$459 million of which matures in February 2019. The availability under this facility is dependent upon various factors, including principally performance against certain financial covenants as highlighted below. Prior to May 22, 2015, \$89 million of the \$499 million revolving credit facility was scheduled to mature in April 2017 for banks that elected not to extend their commitments under the revolving credit facility, and \$410 million was scheduled to mature in February 2019.

The availability under the revolving credit facility is subject to certain financial covenants based on (i) the ratio of our priority debt (consisting principally of amounts outstanding under the revolving credit facility, U.S. accounts receivable securitization and factoring programs, and third-party non-working capital foreign debt) to EBITDA and (ii) the amount of annual capital expenditures. We are required to maintain a total priority-debt-to-EBITDA ratio, as defined in the agreement, of 2.25 to 1.00 or less as of the last day of each fiscal quarter throughout the term of the agreement. At March 31, 2016, we were in compliance with all covenants under the revolving credit facility with a ratio of approximately 0.21x for the priority debt-to-EBITDA ratio covenant.

The availability under the revolving credit facility is also subject to a collateral test, pursuant to which borrowings on the revolving credit facility cannot exceed 1.0x the collateral test value. The collateral test is performed on a quarterly basis. At March 31, 2016, the revolving credit facility was collateralized by approximately \$647 million of our assets, primarily consisting of eligible domestic U.S. accounts receivable, inventory, plant, property and equipment, intellectual property and our investment in all or a portion of certain of its wholly-owned subsidiaries. Borrowings under the revolving credit facility are subject to interest based on quoted LIBOR rates plus a margin and a commitment fee on undrawn amounts, both of which are based upon our current corporate credit rating. At March 31, 2016, the margin over LIBOR rate was 325 basis points, and the commitment fee was 50 basis points. Overnight revolving credit loans are at the prime rate plus a margin of 225 basis points.

Certain of our subsidiaries, as defined in the revolving credit agreement, irrevocably and unconditionally guarantee amounts outstanding under the revolving credit facility. Similar subsidiary guarantees are provided for the benefit of the holders of the publicly-held notes outstanding under our indentures (see Note 23 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report).

No borrowings were outstanding under the revolving credit facility at March 31, 2016 and September 30, 2015. The amended and extended revolving credit facility includes \$100 million of availability for the issuance of letters of

credit. At March 31, 2016 and September 30, 2015, there were no letters of credit outstanding under the revolving credit facility.

MERITOR, INC.

U.S. Securitization Program – We have a \$100 million U.S. accounts receivables securitization facility. On December 4, 2015, the company entered into an amendment which extends the facility expiration date to December 4, 2018. The maximum permitted priority-debt-to-EBITDA ratio as of the last day of each fiscal quarter under the facility is 2.25 to 1.00. This program is provided by PNC Bank, National Association, as Administrator and Purchaser, and the other Purchasers and Purchaser Agents from time to time (participating lenders), which are party to the agreement. Under this program, we have the ability to sell an undivided percentage ownership interest in substantially all of our trade receivables (excluding the receivables due from AB Volvo and subsidiaries eligible for sale under the U.S. accounts receivable factoring facility) of certain U.S. subsidiaries to ArvinMeritor Receivables Corporation ("ARC"), a wholly-owned, special purpose subsidiary. ARC funds these purchases with borrowings from participating lenders under a loan agreement. This program also includes a letter of credit facility pursuant to which ARC may request the issuance of letters of credit issued for our U.S. subsidiaries (originators) or their designees, which when issued will constitute a utilization of the facility for the amount of letters of credit issued. Amounts outstanding under this agreement are collateralized by eligible receivables purchased by ARC and are reported as short-term debt in the condensed consolidated balance sheet. At March 31, 2016 and September 30, 2015, no amounts, including letters of credit, were outstanding under this program. This securitization program contains a cross default to our revolving credit facility. At March 31, 2016, we were in compliance with all covenants under our credit agreement (see Note 17 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report). At certain times during any given month, we may sell eligible accounts receivable under this program to fund intra-month working capital needs. In such months, we would then typically utilize the cash received from our customers throughout the month to repay the borrowings under the program. Accordingly, during any given month, we may borrow under this program in amounts exceeding the amounts shown as outstanding at fiscal quarter ends.

Capital Leases – On March 20, 2012, we entered into an arrangement to finance equipment acquisitions for various U.S. locations. Under this arrangement, we can request financing from GE Capital Commercial, Inc. (GE Capital) for progress payments for equipment under construction, not to exceed \$10 million at any time. The financing rate is equal to the 30-day LIBOR plus 475 basis points per annum. Under this arrangement, we can also enter into lease arrangements with GE Capital for completed equipment. The lease term is 60 months and the lease interest rate is equal to the 5-year Swap Rate published by the Federal Reserve Board plus 564 basis points. We had \$8 million and \$10 million outstanding under this capital lease arrangement as of March 31, 2016 and September 30, 2015, respectively. In addition, we had another \$9 million and \$7 million outstanding through other capital lease arrangements at March 31, 2016 and September 30, 2015, respectively.

Export financing arrangements – Certain of our current export financing arrangements were entered into through our Brazilian subsidiary pursuant to an incentive program of the Brazilian government to fund working capital for Brazilian companies in exportation programs. The arrangements bear interest at 5.5 percent and have maturity dates in 2016 and 2017. There was \$19 million and \$18 million, respectively, outstanding under these arrangements at March 31, 2016 and September 30, 2015.

Other – One of our consolidated joint ventures in China participates in a bills of exchange program to settle its obligations with its trade suppliers. These programs are common in China and generally require the participation of local banks. Under these programs, our joint venture issues notes payable through the participating banks to its trade suppliers. If the issued notes payable remain unpaid on their respective due dates, this could constitute an event of default under our revolving credit facility if the defaulted amount exceeds \$35 million per bank. As of March 31, 2016 and September 30, 2015, we had \$8 million and \$13 million, respectively, outstanding under this program at more than one bank.

Credit Ratings – At March 31, 2016, our Standard & Poor's corporate credit rating, senior secured credit rating, and senior unsecured credit rating were B+, BB and B, respectively. Our Moody's Investors Service corporate credit rating, senior secured credit rating, and senior unsecured credit rating were B1, Ba1 and B2, respectively. Any lowering of our credit ratings could increase our cost of future borrowings and could reduce our access to capital markets and result in lower trading prices for our securities.

Off-Balance Sheet Arrangements

Accounts Receivable Factoring Arrangements – We participate in accounts receivable factoring programs with a total amount utilized at March 31, 2016 of \$210 million, of which \$170 million was attributable to committed factoring facilities involving the sale of AB Volvo accounts receivables. The remaining amount of \$40 million was related to factoring by certain of our European subsidiaries under uncommitted factoring facilities with financial institutions. The receivables under all of these programs are sold at face value and are excluded from the consolidated balance sheet. Total facility size, utilized amounts, readily available amounts and expiration dates for each of these programs are shown in the table above under Liquidity.

The Swedish facility is backed by 364-day liquidity commitment from Nordea Bank which was renewed through December 2016. Commitments under all of our factoring facilities are subject to standard terms and conditions for these types of arrangements (including, in case of the U.K. and Italy commitments, a sole discretion clause whereby the bank retains the right to not purchase receivables, which has not been invoked since the inception of the respective programs).

MERITOR, INC.

Letter of Credit Facilities – On February 21, 2014, we amended and restated our letter of credit facility with Citicorp USA, Inc., as administrative agent and issuing bank, and the other lenders party thereto. Under the terms of this amended credit agreement, we had the right to obtain the issuance, renewal, extension and increase of letters of credit up to an aggregate availability of \$30 million through December 19, 2015. From December 20, 2015 through March 19, 2019, the aggregate availability is \$25 million. This facility contains covenants and events of default generally similar to those existing in our public debt indentures. We had \$22 million and \$24 million of letters of credit outstanding under this facility at March 31, 2016 and September 30, 2015, respectively. In addition, we had another \$6 million of letters of credit outstanding through other letter of credit facilities at March 31, 2016 and September 30, 2015.

Contingencies

Contingencies related to environmental, asbestos and other matters are discussed in Note 20 of the Notes to Condensed Consolidated Financial Statements in Part I of this Quarterly Report.

Critical Accounting Policies

Our defined benefit pension plans and retirement medical plans are accounted for on an actuarial basis, which requires the selection of various assumptions, including the mortality of participants. The mortality assumptions for participants in our U.S. plans incorporates future mortality improvements from tables published by the Society of Actuaries (SOA). We periodically review the mortality experience of our U.S. plans' participants against these assumptions.

In October 2014, the SOA issued new mortality and mortality improvement tables. We reviewed the new SOA mortality and mortality improvement tables and utilized our actuary to conduct a study based on our plan participants. We determined that the best representation of our plans' mortality was to utilize the new SOA mortality and mortality improvement tables as the reference table for credibility-weighted mortality rates, blended with our specific mortality based on the study conducted by our actuary. We incorporated the updated tables into our 2015 year-end measurement of the plans' benefit obligations.

New Accounting Pronouncements

New Accounting Pronouncements are discussed in Note 3 of the Notes to Condensed Consolidated Financial Statements in Item 1. Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to certain global market risks, including foreign currency exchange risk and interest rate risk associated with our debt.

As a result of our substantial international operations, we are exposed to foreign currency risks that arise from our normal business operations, including in connection with our transactions that are denominated in foreign currencies. In addition, we translate sales and financial results denominated in foreign currencies into U.S. dollars for purposes of our consolidated financial statements. As a result, appreciation of the U.S. dollar against these foreign currencies generally will have a negative impact on our reported revenues and operating income while depreciation of the U.S. dollar against these foreign currencies will generally have a positive effect on reported revenues and operating income. In the second quarter of fiscal year 2016, our reported financial results were affected by the strengthening of the U.S. dollar year over year against most currencies, particularly the Brazilian real.

We use foreign currency forward contracts to minimize the earnings exposures arising from foreign currency exchange risk on foreign currency purchases and sales. Gains and losses on the underlying foreign currency exposures are partially offset with gains and losses on our foreign currency forward contracts. Under this cash flow hedging program, we designate the foreign currency contracts (the "contracts") as cash flow hedges of underlying forecasted foreign currency purchases and sales. The effective portion of changes in the fair value of the contracts is recorded in Accumulated Other Comprehensive Loss ("AOCL") in the statement of shareholders' equity and is recognized in operating income when the underlying forecasted transaction impacts earnings. The contracts generally mature within 12 months.

We use foreign currency option contracts to mitigate foreign currency exposure on expected future Indian rupee denominated purchases. The contracts were entered into during the third quarter of fiscal year 2014 with effective dates from the start of fiscal year 2015 through the end of fiscal year 2017. In the second quarter of fiscal year 2015, we monetized our outstanding foreign currency option contracts and entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2015 through the end of fiscal year 2017. Changes in fair value associated with these contracts are recorded in cost of sales in the consolidated statements of operations.

From time to time, we hedge against foreign currency exposure related to translations to U.S. dollars of our financial results denominated in foreign currencies. In the first quarter of fiscal year 2015, due to the volatility of the Brazilian real as compared to the U.S. dollar, we entered into a series of foreign currency option contracts that did not qualify for hedge accounting but were expected to mitigate foreign currency translation exposure of Brazilian real earnings to U.S. dollars. In the second quarter of fiscal

MERITOR, INC.

year 2015, we monetized these outstanding foreign currency option contracts and entered into a new series of foreign currency option contracts with effective dates from the start of the third quarter of fiscal year 2015 through the end of fiscal year 2015. In the third and fourth quarters of fiscal year 2015, we monetized these outstanding foreign currency option contracts. As of March 31, 2016 and September 30, 2015, there were no Brazilian real foreign currency option contracts outstanding.

In the fourth quarter of fiscal year 2015 and first quarter of fiscal year 2016, due to the risk of volatility of the Swedish krona and euro as compared to the U.S. dollar, we entered into a series of foreign currency option contracts that do not qualify for hedge accounting but are expected to mitigate foreign currency translation exposure of Swedish krona and euro earnings to U.S. dollars. Changes in fair value associated with these contracts are recorded in other income, net, in the consolidated statements of operations.

Interest rate risk relates to the gain/increase or loss/decrease we could incur on our debt balances and interest expense associated with changes in interest rates. To manage this risk, we enter into interest rate swaps from time to time to economically convert portions of our fixed-rate debt into floating rate exposure, ensuring that the sensitivity of the economic value of debt falls within our corporate risk tolerances. It is our policy not to enter into derivative instruments for speculative purposes, and therefore, we hold no derivative instruments for trading purposes.

Included below is a sensitivity analysis to measure the potential gain (loss) in the fair value of financial instruments with exposure to market risk (in millions). The model assumes a 10% hypothetical change (increase or decrease) in exchange rates and instantaneous, parallel shifts of 50 basis points in interest rates.

Market Risk

	Assuming a 10% Increase in Rates	Assuming a 10% Decrease in Rates	Increase (Decrease) in
Foreign Currency Sensitivity:			
Forward contracts in USD ⁽¹⁾	\$ 1.1	\$ (1.1)	Fair Value
Forward contracts in Euro ⁽¹⁾	(2.6)	2.6	Fair Value
Foreign currency denominated debt ⁽²⁾	2.7	(2.7)	Fair Value
Foreign currency option contracts in USD	(0.3)	3.4	Fair Value
Foreign currency option contracts in Euro	(0.2)	1.0	Fair Value

	Assuming a 50 BPS Increase in Rates	Assuming a 50 BPS Decrease in Rates	Increase (Decrease) in
Interest Rate Sensitivity:			
Debt - fixed rate ⁽³⁾	\$ (28.2)	\$ 29.3	Fair Value
Debt – variable rate	—	—	Cash flow
Interest rate swaps	—	—	Fair Value

Includes only the risk related to the derivative instruments and does not include the risk related to the underlying (1) exposure. The analysis assumes overall derivative instruments and debt levels remain unchanged for each hypothetical scenario.

(2) At March 31, 2016, the fair value of outstanding foreign currency denominated debt was \$27 million. A 10% decrease in quoted currency exchange rates would result in a decrease of \$3 million in foreign currency

denominated debt. At March 31, 2016, a 10% increase in quoted currency exchange rates would result in an increase of \$3 million in foreign currency denominated debt.

At March 31, 2016, the fair value of outstanding debt was \$982 million. A 50 basis points decrease in quoted (3) interest rates would result in an increase of \$29 million in the fair value of fixed rate debt. A 50 basis points increase in quoted interest rates would result in a decrease of \$28 million in the fair value of fixed rate debt.

MERITOR, INC.

Item 4. Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934 (the “Exchange Act”), management, with the participation of the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2016. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that, as of March 31, 2016, our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms and to ensure that information required to be disclosed by us in the reports we file or submit is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the company’s internal control over financial reporting that occurred during the quarter ended March 31, 2016 that materially affected, or are reasonably likely to materially affect, the company’s internal control over financial reporting.

In connection with the rule, the company continues to review and document its disclosure controls and procedures, including the company’s internal control over financial reporting, and may from time to time make changes aimed at enhancing their effectiveness and ensuring that the company’s systems evolve with the business.

MERITOR, INC.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Except as set forth in Note 20 of the Notes to the Condensed Consolidated Financial Statements in Part I of this Quarterly Report on Form 10-Q, there have been no material developments in legal proceedings involving the company or its subsidiaries since those reported in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015, as amended.

Item 1A. Risk Factors

There have been no material changes in risk factors involving the company or its subsidiaries from those previously disclosed in the company's Annual Report on Form 10-K for the fiscal year ended September 30, 2015, as amended.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer repurchases

The table below sets forth information with respect to purchases made by or on behalf of us of shares of our common stock during the three months ended March 31, 2016:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
January 1- 31, 2016	—	\$ —	—	\$ —
February 1- 29, 2016	—	\$ —	—	\$ —
March 1- 31, 2016	—	\$ —	—	\$ —
Total	—	—	—	—

On June 23, 2014, we announced that our Board of Directors authorized the repurchase of up to \$210 million of our equity and equity-linked securities (including convertible debt securities), subject to the achievement of our M2016 net debt reduction target and compliance with legal and regulatory requirements and our debt covenants. In September 2014, our Board authorized the repurchase of up to \$40 million of our equity or equity-linked securities (including convertible debt securities) under the \$210 million authorization that may be made annually without regard to achievement of the M2016 net debt reduction target. These authorizations have no stated expiration. For the six months ended March 31, 2016, we repurchased 3.9 million shares of common stock for \$42 million. As of March 31, 2016, we have repurchased 8.1 million shares of common stock for \$97 million, \$19 million principal amount of our 4.0 percent convertible notes due 2027 and substantially all of the \$55 million principal amount of our 4.625 percent convertible notes due 2026 pursuant to the equity and equity-linked repurchase authorizations. The amount remaining available for repurchase under the authorization was \$39 million as of March 31, 2016.

The independent trustee of our 401(k) plans purchases shares in the open market to fund investments by employees in our common stock, one of the investment options available under such plans, and any matching contributions in company stock we provide under certain of such plans. In addition, our stock incentive plans permit payment of an option exercise price by means of cashless exercise through a broker and permit the satisfaction of the minimum statutory tax obligations upon exercise of options and the vesting of restricted stock units through stock withholding. There were no shares withheld in the second quarter of fiscal 2016 to satisfy tax obligations for exercise of options. In addition, our stock incentive plans also permit the satisfaction of tax obligations upon the vesting of restricted stock through stock withholding. There were no shares withheld in the second quarter of fiscal 2016 to satisfy tax obligations upon the vesting of restricted shares. The company does not believe such purchases or transactions described above are issuer repurchases for the purposes of this Item 2 of Part II of this Quarterly Report on Form

10-Q.

MERITOR, INC.

Item 5. Other Information

Cautionary Statement

This Quarterly Report on Form 10-Q contains statements relating to future results of the company (including certain projections and business trends) that are “forward-looking statements” as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are typically identified by words or phrases such as “believe,” “expect,” “anticipate,” “estimate,” “should,” “are likely to be,” “will” and similar expressions. Actual results may differ materially from those projected as a result of certain risks and uncertainties, including but not limited to reliance on major original equipment manufacturer (“OEM”) customers and possible negative outcomes from contract negotiations with our major customers, including failure to negotiate acceptable terms in contract renewal negotiations and our ability to obtain new customers; the outcome of actual and potential product liability, warranty and recall claims; our ability to successfully manage rapidly changing volumes in the commercial truck markets and work with our customers to manage demand expectations in view of rapid changes in production levels; global economic and market cycles and conditions; availability and sharply rising costs of raw materials, including steel, and our ability to manage or recover such costs; our ability to manage possible adverse effects on our European operations, or financing arrangements related thereto, in the event one or more countries exit the European monetary union; risks inherent in operating abroad (including foreign currency exchange rates, implications of foreign regulations relating to pensions and potential disruption of production and supply due to terrorist attacks or acts of aggression); rising costs of pension and other postemployment benefits; the ability to achieve the expected benefits of restructuring actions; the demand for commercial and specialty vehicles for which we supply products; whether our liquidity will be affected by declining vehicle productions in the future; OEM program delays; demand for and market acceptance of new and existing products; successful development of new products; labor relations of our company, our suppliers and customers, including potential disruptions in supply of parts to our facilities or demand for our products due to work stoppages; the financial condition of our suppliers and customers, including potential bankruptcies; possible adverse effects of any future suspension of normal trade credit terms by our suppliers; potential difficulties competing with companies that have avoided their existing contracts in bankruptcy and reorganization proceedings; potential impairment of long-lived assets, including goodwill; potential adjustment of the value of deferred tax assets; competitive product and pricing pressures; the amount of our debt; our ability to continue to comply with covenants in our financing agreements; our ability to access capital markets; credit ratings of our debt; the outcome of existing and any future legal proceedings, including any litigation with respect to environmental or asbestos-related matters; possible changes in accounting rules; and other substantial costs, risks and uncertainties, including but not limited to those detailed herein and from time to time in other filings of the company with the SEC. See also the following portions of our Annual Report on Form 10-K for the year ended September 30, 2015, as amended: Item 1. Business, “Customers; Sales and Marketing”; “Competition”; “Raw Materials and Supplies”; “Employees”; “Environmental Matters”; “International Operations”; and “Seasonality; Cyclicity”; Item 1A. Risk Factors; Item 3. Legal Proceedings; and Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations. These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as otherwise required by law.
