LETTER TO SHAREHOLDERS

December 2008

Dennis H. Ferro

President and Chief Executive Officer

Dear Shareholder:

We are pleased to provide the Semiannual Report for Evergreen Income Advantage Fund for the six-month period ended October 31, 2008 (the period).

World capital markets experienced unprecedented volatility in the final weeks of the period. Further evidence of deteriorating conditions in the global economy combined with uncertainty about government policy responses to cause stock and corporate bond valuations to plummet in both domestic and foreign markets. During October 2008, the final month of the period, the U.S. equity market experienced its worst one-month loss in more than 20 years, with the S&P 500® Index dropping by almost 17%. High yield corporate bonds performed almost as poorly. In contrast, U.S. Treasuries gathered strength, as safety-conscious investors appeared willing to accept yields that sometimes fell below 1%. The flight to quality extended to capital markets beyond the United States. Foreign sovereign government securities in industrialized nations held up relatively well, but international stock indexes declined by as much as 20% during October 2008 and the values of emerging market debt and foreign high yield corporate bonds also sank. Signs of global recession, meanwhile, continued to pressure commodities, while the prices of gold and the U.S. dollar strengthened.

Economic news grew steadily worse during the period, prompting major governments and central banks to search for new ways to intervene to re-stimulate growth. After months of deceleration, the U.S. economy finally contracted in the third quarter of 2008. Real Gross Domestic Product (GDP) fell by 0.5%, with consumer spending recording its greatest drop in three decades. News was hardly better overseas. The European Union's economic analysis bureau reported that the economy of the 15-nation Eurozone slipped into recession during the third quarter of 2008, with GDP falling by 0.2%. Outside of major developed economies, signs of economic slowing appeared in even the fastest-growing economies. In China, the central government announced a major fiscal program to stimulate growth while the central bank cut interest rates by one-half of one percentage point. Even after the period ended, evidence of further economic deterioration only continued. U.S. retail sales plummeted and durable goods orders sank, while new unemployment claims reached a 16-year high in mid-November 2008. Faced with widening evidence of economic deterioration, the central banks in the U.S. and other major industrialized nations injected added liquidity into the markets. In the U.S., the overnight bank lending rate stood at just 1.00% after the Federal Reserve Board (the Fed) slashed the fed funds rate to 1.00%. In

LETTER TO SHAREHOLDERS continued

November 2008, the federal government provided U.S.-based Citigroup with a second massive capital infusion and moved to guarantee the financial services giant against most losses on up to \$300 billion in troubled investments. Later, the Fed and the Treasury Department moved to inject more cash into the credit system by announcing plans to buy up to \$800 billion in securities backed by mortgages or consumer loans. At the same time, concerns grew about the faltering domestic automotive industry. Against this backdrop, President-elect Barack Obama announced his new economic team and began outlining additional plans to revive the U.S. economy.

During a volatile and challenging period in the capital markets, the investment managers of Evergreen Income Advantage Fund maintained a relatively conservative positioning in their investments in lower-rated, higher-yielding corporate bonds. They also made selective use of the fund's ability to borrow at short-term rates to make additional investments in higher-yielding securities.

As we look back over the extraordinary series of events during the period, we believe it is vitally important for all investors to keep perspective and remain focused on their long-term strategies. Most importantly, we continue to urge investors to pursue fully-diversified strategies in order to participate in future market gains and limit the risks of potential losses. If they haven't already done so, we encourage individual investors to work with their financial advisors to develop a diversified, long-term strategy and, most importantly, to adhere to it. Investors should keep in mind that the economy and the financial markets have had long and successful histories of adaptability, recovery, innovation and growth. Proper asset allocation decisions can have significant impacts on the returns of long-term portfolios.

Thank you for your continued support of Evergreen Investments.

Sincerely,

Dennis H. Ferro

1 Calculated based on average common shares outstanding during the period.

2 Total return is calculated assuming a purchase of common stock on the first day and a sale on the last day of the period reported. Dividends and distributions, if any, are assumed for purposes of these calculations to be reinvested at prices obtained under the Fund's Automatic Dividend Reinvestment Plan. Total return does not reflect brokerage commissions or sales charges.

3 Interest expense ratio relates to interest associated with borrowings and/or leverage transactions.

4 The net investment income (loss) ratio reflects distributions paid to preferred shareholders.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. ORGANIZATION

Evergreen Income Advantage Fund (the Fund) was organized as a statutory trust under the laws of the state of Delaware on December 3, 2002 and is registered as a diversified closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The primary investment objective of the Fund is to seek a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its investment objective.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Portfolio debt securities acquired with more than 60 days to maturity are fair valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in open-end mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined by the investment advisor in good faith, according to procedures approved by the Board of Trustees.

b. Repurchase agreements

Securities pledged as collateral for repurchase agreements are held by the custodian bank or in a segregated account in the Fund's name until the agreements mature. Collateral for certain tri-party repurchase agreements is held at the counterparty's custodian in a segregated account for the benefit of the Fund and the counterparty. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal. However, in the event of default or bankruptcy by the other party to the agreement, retention of the collateral may be subject to legal proceedings. The Fund will enter into repurchase agreements with banks and other financial institutions, which are deemed by

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

the investment advisor to be creditworthy pursuant to guidelines established by the Board of Trustees. In certain instances, the Fund's securities lending agent may provide collateral in the form of repurchase agreements.

c. When-issued and delayed delivery transactions

The Fund records when-issued or delayed delivery securities as of trade date and maintains security positions such that sufficient liquid assets will be available to make payment for the securities purchased. Securities purchased on a when-issued or delayed delivery basis are marked-to-market daily and begin earning interest on the settlement date. Losses may occur on these transactions due to changes in market conditions or the failure of counterparties to perform under the contract.

d. Loans

The Fund may purchase loans through an agent, by assignment from another holder of the loan or as a participation interest in another holder's portion of the loan. Loans are purchased on a when-issued or delayed delivery basis. Interest income is accrued based on the terms of the securities. Fees earned on loan purchasing activities are recorded as income when earned. Loans involve interest rate risk, liquidity risk and credit risk, including the potential default or insolvency of the borrower.

e. Securities lending

The Fund may lend its securities to certain qualified brokers in order to earn additional income. The Fund receives compensation in the form of fees or interest earned on the investment of any cash collateral received. The Fund also continues to receive interest and dividends on the securities loaned. The Fund receives collateral in the form of cash or securities with a market value at least equal to the market value of the securities on loan, including accrued interest. In the event of default or bankruptcy by the borrower, the Fund could experience delays and costs in recovering the loaned securities or in gaining access to the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

f. Interest rate swaps

The Fund may enter into interest rate swap contracts to manage the Fund's exposure to interest rates. Interest rate swaps involve the exchange between the Fund and another party of their commitments to pay or receive interest based on a notional principal amount.

The value of the swap contract is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an unrealized gain or loss. Payments made or received are recorded as realized gains or losses. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

g. Credit default swaps

The Fund may enter into credit default swap contracts. Credit default swaps involve an exchange of a stream of payments for protection against the loss in value of an underlying security or index in the event of default or bankruptcy. Under the terms of the swap, one party acts as a guarantor and receives a periodic stream of payments that is a fixed percentage applied to a notional principal amount over the term of the swap. The guarantor agrees to purchase the notional amount of the underlying instrument or index, at par, if a credit event occurs during the term of the swap. An index credit default swap references all the names in the index, and if there is a default, the credit event is settled based on that name's weight in the index. The Fund may enter into credit default swaps as either the guarantor or the counterparty.

Any premiums paid or received on the transactions are recorded as an asset or liability on the Statement of Assets and Liabilities and amortized. The value of the swap contract is marked-to-market daily based on quotations from an independent pricing service or market makers and any change in value is recorded as an unrealized gain or loss. Periodic payments made or received are recorded as realized gains or losses. In addition, payments received or made as a result of a credit event or termination of the contract are recognized as realized gains or losses. As guarantor, the Fund is subject to investment exposure on the notional amount of the swap and has assumed the risk of default of the underlying security or index. As counterparty, the Fund could be exposed to risks if the guarantor defaults on its obligation to perform, or if there are unfavorable changes in the fluctuation of interest rates or in the price of the underlying security or index.

h. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

i. Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

The Fund has adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) which prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. The Fund's financial statements have not been impacted by the adoption of FIN 48.

j. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

3. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), an indirect, wholly-owned subsidiary of Wachovia Corporation (Wachovia), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes. For the six months ended October 31, 2008, the advisory fee was equivalent to 0.99% of the Fund's average daily net assets applicable to common shareholders (on an annualized basis).

Tattersall Advisory Group, Inc., an indirect, wholly-owned subsidiary of Wachovia, is an investment sub-advisor to the Fund and is paid by EIMC for its services to the Fund.

On October 3, 2008, Wells Fargo & Company (Wells Fargo) and Wachovia announced that Wells Fargo agreed to acquire Wachovia in a whole company transaction that will include all of Wachovia's banking and other businesses. In connection with this transaction, Wachovia issued preferred shares to Wells Fargo representing approximately a 40% voting interest in Wachovia. Due to its ownership of preferred shares, Wells Fargo may be deemed to control EIMC. If Wells Fargo is deemed to control EIMC, then the existing advisory agreement between the Fund and EIMC and the sub-advisory agreement between EIMC and the Fund's sub-advisor would have terminated automatically in connection with the issuance of preferred shares. To address this possibility, on October 20, 2008 the Board of Trustees approved an interim advisory agreement with EIMC and an interim sub-advisory agreement with the sub-advisor with the same terms and conditions as the existing agreements, which became effective upon the issuance of the preferred shares. EIMC's receipt of the advisory fees under the interim advisory agreement is subject to the approval by shareholders of the Fund of a new advisory agreement with EIMC.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the six months ended October 31, 2008, EIMC voluntarily waived its advisory fee in the amount of \$643,131.

The Fund may invest in money market funds which are advised by EIMC. Income earned on these investments is included in income from affiliate on the Statement of Operations.

EIMC also serves as the administrator to the Fund and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets. For the six months ended October 31, 2008, the administrative fee was equivalent to 0.08% of the Fund's average daily net assets applicable to common shareholders (on an annualized basis).

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

The Fund has placed a portion of its portfolio transactions with brokerage firms that are affiliates of Wachovia. During the six months ended October 31, 2008, the Fund paid brokerage commissions of \$1,621 to Wachovia Securities, LLC.

4. CAPITAL SHARE TRANSACTIONS

The Fund has authorized capital of 100,000,000 common shares with no par value. For the six months ended October 31, 2008 and the year ended April 30, 2008, the Fund issued 0 and 194,312 common shares, respectively.

The Fund has issued 7,840 shares of Auction Market Preferred Shares (Preferred Shares) consisting of six series, each with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on each series of Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. During the six months ended October 31, 2008, the Preferred Shares experienced failed auctions and the Fund paid dividends to the holders of Preferred Shares based on the maximum rate allowed under the governing documents for the Preferred Shares. The annualized dividend rate was 4.69% during the six months ended October 31, 2008 included the maximum rate for the dates on which auctions failed. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on each series of Preferred Shares through its most recent dividend payment date.

On April 30, 2008, the Fund secured debt financing from a multi-seller commercial paper conduit administered by a major financial institution (the Facility) in order to redeem a portion of the Fund's outstanding Preferred Shares. The Fund's borrowings under the Facility are generally charged interest at a rate based on the rates of the commercial paper notes issued by the Facility to fund the Fund's borrowings or at the London Interbank Offered Rate (LIBOR) plus 4%. During the six months ended October 31, 2008, the Fund incurred an effective interest rate of 2.89% on the borrowings, which was based on the rates of the commercial paper notes issued by the Facility and paid interest of \$3,645,606, representing 0.95% of the Fund's average daily net assets applicable to common shareholders on an annualized basis. The Fund has pledged its assets to secure borrowings under the Facility. The Fund pays, on a monthly basis, a liquidity fee at an annual rate of 1.25% of the total commitment amount and a program fee at an annual rate of 1.25% on the daily average outstanding principal amount of borrowings. A structuring fee of \$2,940,000 was paid by EIMC on behalf of the Fund, which represents 1.00% of the financing available to the Fund under the Facility. This fee is being amortized over three years. During the six months ended October 31, 2008, the Fund recognized amortization expense of \$429,589. The Fund will reimburse EIMC over the three year period.

On June 10, 2008, 60% of Preferred Shares had been redeemed through funding under the Facility.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Each series of Preferred Shares is redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared). Each series of Preferred Shares is also subject to mandatory redemption at \$25,000 per share plus any accumulated or unpaid dividends (whether or not earned or declared) if the asset coverage with respect to the outstanding Preferred Shares fell below 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting separately as a single class, have the right to elect at least two Trustees at all times. The remaining Trustees will be elected by holders of common shares and Preferred Shares, voting together as a single class.

5. INVESTMENT TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities (excluding short-term securities) were \$680,261,165 and \$794,198,521, respectively, for the six months ended October 31, 2008.

On May 1, 2008, the Fund implemented Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). FAS 157 establishes a single authoritative definition of fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 establishes a fair value hierarchy based upon the various inputs used in determining the value of the Fund's investments. These inputs are summarized into three broad levels as follows:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

As of October 31, 2008, the inputs used in valuing the Fund's assets, which are carried at fair value, were as follows:

Valuation Inputs		Investments in Securities	Other Financial Instruments*
Level 1	Quoted Prices	\$ 194,102,980	\$ 0
Level 2	Other Significant Observable Inputs	782,949,724	(48,822)
Level 3	Significant Unobservable Inputs	0	0
Total		\$ 977,052,704	\$ (48,822)

* Other financial instruments include swap contracts.

As of October 31, 2008, the Fund had unfunded loan commitments of \$24,389,581.

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

During the six months ended October 31, 2008, the Fund loaned securities to certain brokers. At October 31, 2008, the value of securities on loan and the total value of collateral received for securities loaned amounted to \$12,621,569 and \$13,569,437, respectively.

At October 31, 2008, the Fund had the following interest rate swap contracts outstanding:

Expiration	Notional Amount	Counterparty	Cash Flows Paid by the Fund	Cash Flows Received by the Fund	Unrealized Gain (Loss)

On October 31, 2008, the aggregate cost of securities for federal income tax purposes was \$1,279,761,871. The gross unrealized appreciation and depreciation on securities based on tax cost was \$2,268,412 and \$304,977,579, respectively, with a net unrealized depreciation of \$302,709,167.

As of April 30, 2008, the Fund had \$34,717,634 in capital loss carryovers for federal income tax purposes with \$7,717,772 expiring in 2014, \$11,808,863 expiring in 2015 and \$15,190,999 expiring in 2016.

For income tax purposes, capital losses incurred after October 31 within the Fund's fiscal year are deemed to arise on the first business day of the following fiscal year. As of April 30, 2008, the Fund incurred and elected to defer post-October losses of \$25,406,217.

6. EXPENSE REDUCTIONS

Through expense offset arrangements with the Fund's custodian, a portion of fund expenses has been reduced.

7. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of his or her duties as a Trustee. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts is based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. REGULATORY MATTERS AND LEGAL PROCEEDINGS

The Evergreen funds, EIMC and certain of EIMC's affiliates are involved in various legal actions, including private litigation and class action lawsuits. In addition, certain Evergreen funds, EIMC and certain of EIMC's affiliates are currently, and may in the future be, subject to regulatory inquiries and investigations.

The SEC and the Secretary of the Commonwealth, Securities Division, of the Commonwealth of Massachusetts are conducting separate investigations of EIMC and EIS concerning alleged issues surrounding the drop in net asset value of the Evergreen Ultra Short Opportunities Fund (the "Ultra Short Fund") in May and June 2008. In addition, three purported class actions have been filed in the U.S. District Court for the District of Massachusetts relating to the same events; defendants include various Evergreen entities and Evergreen Fixed Income Trust and its Trustees. The cases generally allege that investors in the Ultra Short Fund suffered losses as a result of (i) misleading statements in Ultra Short Fund's prospectus, (ii) the failure to accurately price securities in the Ultra Short Fund at different points in time and (iii) the failure of the Ultra Short Fund's risk disclosures and description of its investment strategy to inform investors adequately of the actual risks of the fund.

EIMC does not expect that any of the legal actions, inquiries or investigations currently pending or threatened will have a material adverse impact on the financial position or operations of any of the Evergreen funds to which these financial statements relate. Any publicity surrounding or resulting from any legal actions or regulatory inquiries involving EIMC or its affiliates or any of the Evergreen Funds could result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses or have other adverse consequences on the Evergreen funds.

9. NEW ACCOUNTING PRONOUNCEMENTS

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161), an amendment of FASB Statement No. 133. FAS 161 requires enhanced disclosures about (a) how and why a fund uses derivative instruments, (b) how derivative instruments and hedging activities are accounted for, and (c) how derivative instruments and related hedging activities affect a fund's financial position, financial performance, and cash flows. Management of the Fund does not believe the adoption of FAS 161 will materially impact the financial statement amounts, but will require additional disclosures. This will include qualitative and quantitative disclosures on derivative positions existing at period end and the effect of using derivatives during the reporting period. FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008.

In September 2008, FASB issued FASB Staff Position No. FAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB*

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161. This FASB Staff Position (1) amends FASB Statement No. 133 to require disclosures by sellers of credit derivatives, including credit derivatives embedded in a hybrid instrument (2) amends FASB Interpretation No. 45 to require additional disclosure about the current status of the payment/performance risk of a guarantee and (3) clarifies the effective date of FAS 161. Management of the Fund does not believe the adoption of this FASB Staff Position will materially impact the financial statement amounts, but will require additional disclosures. This FASB Staff Position is effective for reporting periods (annual or interim) ending after November 15, 2008.

10. SUBSEQUENT DISTRIBUTIONS

The Fund declared the following distributions to common shareholders:

Declaration Date	Record Date	Payable Date	Net Investment Income
October 17, 2008	November 17, 2008	December 1, 2008	\$0.10940
November 21, 2008	December 15, 2008	January 2, 2009	\$0.10940
December 4, 2008	January 16, 2009	February 2, 2009	\$0.10940

These distributions are not reflected in the accompanying financial statements.

AUTOMATIC DIVIDEND REINVESTMENT PLAN (unaudited)

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan (the Plan). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by Computershare Trust Company, N.A., as agent for shareholders in administering the Plan (Plan Agent), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as dividends) payable either in shares or in cash, nonparticipants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant s account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (newly issued common shares) or (ii) by purchase of outstanding common shares on the open market (open market purchases) on the New York Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions (market premium), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant s account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium (market discount), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent s open market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND'S INVESTMENT ADVISORY AGREEMENT

Each year, the Fund's Board of Trustees determines whether to approve the continuation of the Fund's investment advisory agreements. In September 2008, the Trustees, including a majority of the Trustees who are not interested persons (as that term is defined in the 1940 Act) of the Fund, Tattersall Advisory Group, Inc. (the Sub-Advisor), or EIMC (the independent Trustees), approved the continuation of the Fund's investment advisory agreements. (References below to the Fund are to Evergreen Income Advantage Fund; references to the funds are to the Evergreen funds generally.)

At the same time, the Trustees considered the continuation of the investment advisory agreements for all of the funds. The description below refers in many cases to the Trustees' process for considering, and conclusions regarding, all of the funds' agreements. In all of its deliberations, the Board of Trustees and the independent Trustees were advised by independent counsel to the independent Trustees and counsel to the funds.

The review process. In connection with its review of the funds' investment advisory agreements, the Board of Trustees requests and evaluates, and EIMC and any sub-advisors furnish, such information as the Trustees consider to be reasonably necessary in the circumstances. The Trustees began their 2008 review process at the time of the last advisory contract-renewal process in September 2007. In the course of their 2007 review, the Trustees identified a number of funds that had experienced either short-term or longer-term performance issues. During the 2008 review process, the Trustees monitored each of these funds in particular for changes in performance and for the results of any changes in a fund's investment process or investment team. In addition, during the course of the year, the Trustees regularly reviewed information regarding the investment performance of all of the funds, paying particular attention to funds whose performance since September 2007 indicated short-term or longer-term performance issues.

In spring 2008, a committee of the Board of Trustees (the Committee), working with EIMC management, determined generally the types of information the Board would review as part of its 2008 review process and set a timeline detailing the information required and the dates for its delivery to the Trustees. The Board engaged the independent data provider Keil Fiduciary Strategies LLC (Keil) to provide fund-specific and industry-wide data containing information of a nature and in a format generally prescribed by the Committee, and the Committee worked with Keil and EIMC to develop appropriate groups of peer funds for each fund. The Committee also identified a number of expense, performance, and other issues and requested specific information as to those issues.

The Trustees reviewed, with the assistance of an independent industry consultant retained by the independent Trustees, the information that EIMC, the Sub-Advisor, and Keil provided. The Trustees formed small groups to review individual funds in greater detail.

ADDITIONAL INFORMATION (unaudited) continued

In addition, the Trustees considered information regarding, among other things, brokerage practices of the funds, the use of derivatives by the funds, strategic planning for the funds, analyst and research support available to the portfolio management teams, and information regarding the various fall-out benefits received directly and indirectly by EIMC and its affiliates from the funds. The Trustees requested and received additional information following that review.

The Committee met several times by telephone during the 2008 review process to consider the information provided by EIMC. The Committee then met with representatives of EIMC. In addition, over the period of this review, the independent Trustees discussed the continuation of the funds' advisory agreements with representatives of EIMC and in multiple private sessions with independent legal counsel at which no personnel of EIMC were present. At a meeting of the full Board of Trustees in September, the Committee reported the results of its discussions with EIMC, and the full Board met with representatives of EIMC and engaged in further review of the materials provided to it, and approved the continuation of each of the advisory and sub-advisory agreements.

In considering the continuation of the agreements, the Trustees did not identify any particular information or consideration that was all-important or controlling, and each Trustee attributed different weights to various factors. The Trustees evaluated information provided to them both in terms of the funds generally and with respect to each fund, including the Fund, specifically as they considered appropriate. Although the Trustees considered the continuation of the agreements as part of the larger process of considering the continuation of the advisory contracts for all of the funds, their determination to continue the advisory agreements for each of the funds was ultimately made on a fund-by-fund basis.

This summary describes a number of the most important, but not necessarily all, of the factors considered by the Board and the independent Trustees.

Information reviewed. The Board of Trustees and committees of the Board of Trustees meet periodically during the course of the year. At those meetings, EIMC presents a wide variety of information regarding the services it performs, the investment performance of the funds, and other aspects of the business and operations of the funds. At those meetings, and in the process of considering the continuation of the agreements, the Trustees considered information regarding, for example, the funds' investment results; the portfolio management teams for the funds and the experience of the members of those teams, and any recent changes in the membership of the teams; portfolio trading practices; compliance by the funds, EIMC, and the Sub-Advisor with applicable laws and regulations and with the funds' and EIMC's compliance policies and procedures; risk evaluation and oversight procedures at EIMC; services provided by affiliates of EIMC to the funds and shareholders of the funds; and other information relating to the nature, extent, and quality of services provided by EIMC and the Sub-Advisor. The Trustees considered a

number of changes in portfolio management personnel at EIMC and its advisory affiliates in the year since September 2007. The Trustees also considered changes in personnel at the funds and EIMC, including the appointment of a new Chief Compliance Officer for the funds in June of 2007 and a new Chief Investment Officer at EIMC in August of 2008.

The Trustees considered the rates at which the funds pay investment advisory fees, and the efforts generally by EIMC and its affiliates as sponsors of the funds. The data provided by Keil showed the management fees paid by each fund in comparison to the management fees of other peer mutual funds, in addition to data regarding the investment performance of the funds in comparison to other peer mutual funds. The Trustees were assisted by an independent industry consultant in reviewing the information presented to them.

The Trustees noted that, in certain cases, EIMC and/or its affiliates provide advisory services to other clients that are comparable to the advisory services they provide to certain funds. The Trustees considered the information EIMC provided regarding the rates at which those other clients pay advisory fees to EIMC or its affiliates for such services. Fees charged to those other clients were generally lower than those charged to the respective funds. In respect of these other accounts, EIMC noted that the compliance, reporting, and other legal burdens of providing investment advice to mutual funds generally exceed those required to provide advisory services to non-mutual fund clients such as retirement or pension plans. The Trustees also considered the investment performance of those other accounts managed by EIMC and its affiliates, where applicable, and concluded that the performance of those accounts did not suggest any substantial difference in the quality of the service provided by EIMC and its affiliates to those accounts.

The Trustees considered the transfer agency fees paid by the funds to an affiliate of EIMC. They reviewed information presented to them showing that the transfer agency fees charged to the funds were generally consistent with industry norms.

The Trustees also considered that EIMC serves as administrator to the funds and receives a fee for its services as administrator. In their comparison of the advisory fee paid by the funds with those paid by other mutual funds, the Trustees considered administrative fees paid by the funds and those other mutual funds. The Board considered that EIS, an affiliate of EIMC, serves as distributor to the funds generally and receives fees from the funds for those services. They considered other so-called "fall-out" benefits to EIMC and its affiliates due to their other relationships with the funds, including, for example, soft-dollar services received by EIMC attributable to transactions entered into by EIMC for the benefit of the funds and brokerage commissions received by Wachovia Securities, LLC, an affiliate of EIMC, from transactions effected by it for the funds. The Trustees also noted that the funds pay sub-transfer agency fees to various financial institutions that hold fund shares in omnibus accounts, and that Wachovia Securities, LLC and its affiliates receive such payments from the funds in respect of client accounts they hold in omnibus arrange-

ments, and that an affiliate of EIMC receives fees for administering the sub-transfer agency payment program. In reviewing the services provided by an affiliate of EIMC, the Trustees noted that an affiliate of EIMC had won recognition from Dalbar customer service each year since 1998, and also won recognition from National Quality Review for customer service and for accuracy in processing transactions in 2008. They also considered that Wachovia Securities, LLC and its affiliates receive distribution-related fees and shareholder servicing payments (including amounts derived from payments under the funds' Rule 12b-1 plans) in respect of shares sold or held through it. The Trustees also noted that an affiliate of EIMC receives compensation for serving as a securities lending agent for a number of the funds.

In the period leading up to the Trustees' approval of continuation of the investment advisory agreements, the Trustees were mindful of the financial condition of Wachovia Corporation ("Wachovia"), EIMC's parent company. They considered the possibility that a significant adverse change in Wachovia's financial condition could impair the ability of EIMC or its affiliates to perform services for the funds at the same level as in the past. The Trustees concluded that any change in Wachovia's financial condition had not to date had any such effect, but determined to monitor EIMC's and its affiliates' performance, and financial conditions generally, going forward in order to identify any such impairment that may develop and to take appropriate action.

Nature and quality of the services provided. The Trustees considered that EIMC and its affiliates generally provide a comprehensive investment management service to the funds. They noted that EIMC and the Sub-Advisor formulate and implement an investment program for the Fund. They noted that EIMC makes its personnel available to serve as officers of the funds, and concluded that the reporting and management functions provided by EIMC with respect to the funds were generally satisfactory. The Trustees considered the investment philosophy of the Fund's portfolio management team, and considered the in-house research capabilities of EIMC and its affiliates, as well as other resources available to EIMC, including research services available to it from third parties. The Board considered the managerial and financial resources available to EIMC and its affiliates, and the commitment that the Wachovia organization has made to the funds generally. On the basis of these factors, they determined that the nature and scope of the services provided by EIMC and the Sub-Advisor were consistent with their respective duties under the investment advisory agreements and appropriate and consistent with the investment programs and best interests of the funds.

The Trustees noted the resources EIMC and its affiliates have committed to the regulatory, compliance, accounting, tax and oversight of tax reporting, and shareholder servicing functions, and the number and quality of staff committed to those functions, which they concluded were appropriate and generally in line with EIMC's responsibilities to the Fund and to the funds generally. The Board and the disinterested Trustees concluded, within

the context of their overall conclusions regarding the funds' advisory agreements, that they were generally satisfied with the nature, extent, and quality of the services provided by the Sub-Advisor and EIMC, including services provided by EIMC under its administrative services agreements with the funds.

Investment performance. The Trustees considered the investment performance of each fund, both by comparison to other comparable mutual funds and to broad market indices. The Trustees noted that, for the one- and three-year periods ended December 31, 2007, the net asset value performance of the Fund's common shares had exceeded that of the Fund's benchmark index, the Merrill Lynch High Yield Master Index. The Trustees noted that the net asset value performance of the Fund's common shares was in the second quintile for the one-year period ended December 31, 2007, and in the fourth quintile for the three-year period ended December 31, 2007, of the non-Evergreen funds against which the Trustees compared the Fund's performance.

The Trustees discussed each fund's performance with representatives of EIMC. In each instance where a fund experienced a substantial period of underperformance relative to its benchmark index and/or the non-Evergreen fund peers against which the Trustees compared the fund's performance, the Trustees considered EIMC's explanation of the reasons for the relative underperformance and the steps being taken to address the relative underperformance. The Trustees also noted that EIMC had appointed a new Chief Investment Officer in August of 2008 who had not yet had sufficient time to evaluate and direct remedial efforts with respect to funds that have experienced a substantial period of relative underperformance. The Trustees emphasized that the continuation of the investment advisory agreement for a fund should not be taken as any indication that the Trustees did not believe investment performance for any specific fund might not be improved, and they noted that they would continue to monitor closely the investment performance of the funds going forward.

Advisory and administrative fees. The Trustees recognized that EIMC does not seek to provide the lowest cost investment advisory service, but to provide a high quality, full-service investment management product at a reasonable price. They also noted that EIMC has in many cases sought to set its investment advisory fees at levels consistent with industry norms. The Trustees noted that, in certain cases, a fund's management fees were higher than many or most other mutual funds in the same Keil peer group. However, in each case, the Trustees determined on the basis of the information presented that the level of management fees was not excessive. The Trustees noted that the management fee paid by the Fund was higher than the management fees paid by a majority of the non-Evergreen funds against which the Trustees compared the Fund's management fee, but near the median of that group, and that the level of profitability realized by EIMC in respect of the fee did not appear excessive.

Economies of scale. The Trustees considered that, in light of the fact that the Fund was not making a continuous offering of its shares, the likelihood of economies of scale following the Fund's initial offering was relatively low, although they determined to continue to monitor the Fund's expense ratio and the profitability of the investment advisory agreements to EIMC in light of future growth of the Fund.

Profitability. The Trustees considered information provided to them regarding the profitability to the EIMC organization of the investment advisory, administration, and transfer agency (with respect to the open-end funds only) fees paid to EIMC and its affiliates by each of the funds. They considered that the information provided to them was necessarily estimated, and that the profitability information provided to them, especially on a fund-by-fund basis, did not necessarily provide a definitive tool for evaluating the appropriateness of each fund's advisory fee. They noted that the levels of profitability of the funds to EIMC varied widely, depending on among other things the size and type of fund. They considered the profitability of the funds in light of such factors as, for example, the information they had received regarding the relation of the fees paid by the funds to those paid by other mutual funds, the investment performance of the funds, and the amount of revenues involved. In light of these factors, the Trustees concluded that the profitability of any of the funds, individually or in the aggregate, should not prevent the Trustees from approving the continuation of the agreements.

Matters Relating to Approval of Interim Investment Advisory and Sub-Advisory Agreements. Following the Trustees' approval of the continuation of the funds' investment advisory agreements, Wells Fargo & Company (Wells Fargo) announced that it had agreed to acquire Wachovia in a whole company transaction that will include all of Wachovia's banking and other businesses, including EIMC. As a result of this transaction, the funds' investment advisory and sub-advisory agreements were expected to terminate. Accordingly, on October 20, 2008 the Board of Trustees approved interim investment advisory and sub-advisory agreements for the funds. In approving these interim advisory arrangements, the Trustees noted EIMC's representation that the scope and quality of the services provided to the funds during the term of the interim contracts would be at least equivalent to the scope and quality of the services provided under the previous advisory agreements and that the terms of the interim agreements are substantially similar to the funds' previous advisory agreements except that the interim agreements will be in effect for a period of no more than 150 days and certain advisory fees will be placed in escrow until new advisory agreements are approved.

- 1 The Board of Trustees is classified into three classes of which one class is elected annually. Each Trustee serves a three-year term concurrent with the class from which the Trustee is elected. Each Trustee, except Ms. Kosel, oversaw 94 Evergreen funds as of December 31, 2007. Ms. Kosel became a Trustee on January 1, 2008. Correspondence for each Trustee may be sent to Evergreen Board of Trustees, P.O. Box 20083, Charlotte, NC 28202.
- 2 It is possible that Mr. Pettit may be viewed as an interested person of the Fund, as defined in the 1940 Act, because of his law firm's representation of affiliates of Wells Fargo & Company (Wells Fargo). Wells Fargo and Wachovia Corporation announced on October 3, 2008 that Wells Fargo agreed to acquire Wachovia Corporation in a whole company transaction that will include the Fund's investment advisor, EIMC. The Trustees are treating Mr. Pettit as an interested trustee for the time being.
- 3 Mr. Wagoner is an interested person of the Fund because of his ownership of shares in Wachovia Corporation, the parent to the Fund's investment advisor.
