ITEM 1. DESCRIPTION OF BUSINESS

History of Business

Emvelco Corp., formerly known as (“f/k/a”) Euroweb International Corp., is a Delaware corporation and was organized on November 9, 1992. It was a development stage company through December 1993. Emvelco Corp. and its consolidated subsidiaries are collectively referred to herein as “Emvelco” or the “Company”. Emvelco’s business that was first implemented in 1997 is identifying, developing and operating companies within emerging industries for the purpose of consolidation and sale if favorable market conditions exist. Although the Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities as presented in order to develop its core businesses as well as outside of its core business.

In 1997, Emvelco entered the Internet field in Hungary and grew through various acquisitions not only in Hungary, but also in the Czech Republic, Slovakia and Romania.

In December 2004, Emvelco disposed of its 100% interest in its subsidiary in Czech Republic and in April 2005, Emvelco sold its 100% interest in its subsidiary in Slovakia.

In October 2005, the Company entered into the information technology (“IT”) sector by acquiring 100% ownership of Navigator Informatika Rt. (“Navigator”), a Hungary-based provider of IT outsourcing, applications development and IT consulting services.

On December 19, 2005, the Company entered into a definitive Share Purchase agreement with Invitel Tavkozlesi Szolgaltato Rt. (“Invitel”) for the sale of its two Internet and telecommunication related operating subsidiaries, Euroweb Internet Szolgaltato Rt. (“Euroweb Hungary”) and Euroweb Romania S.A. (“Euroweb Romania”). Pursuant to the Agreement, the Company sold and, Invitel purchased, 100% of its interest in Euroweb Hungary and Euroweb Romania. The closing occurred on May 23, 2006 and the Company exited the internet service provider (“ISP”) industry. The purchase price was \$30.0 million.

On June 11, 2006, the Board of Directors of Emvelco, as part of its strategy to redirect the Company into new markets, voted to pursue an investor role in development and real estate business opportunities through focusing on the financial aspects of developing majority or minority owned affiliates, providing loans for the development of property, engaging in the financing segments for development of property and the construction of various types of facilities and investing in real estate opportunities. The Company commenced its investments in the real estate industry through its former wholly-owned subsidiary, Emvelco RE Corp (“ERC”), f/k/a Euroweb RE Corp. in June 2006.

In September 2006, ERC formed Lorraine Properties, LLC (“Lorraine”), a Nevada limited liability company. In October 2006, ERC acquired majority ownership in non-operational asset holding companies as follows: 66.67% of Stanley Hills LLC (“Stanley”), a Nevada limited liability company and 51% of 846 AR Huntley, LLC (“Huntley”), a California limited liability company. On December 31, 2006, Emvelco and its wholly owned subsidiary ERC entered into an Agreement and Plan of Exchange (“Exchange Agreement”) with Verge Living Corporation (“Verge”), a Nevada corporation and its sole shareholder and unaffiliated third party, The International Holdings Group Ltd. (“TIHG”), a corporation formed and registered in the Marshall Islands. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued new shares to TIHG in exchange for 100% of the outstanding securities of Verge. After the exchange, Emvelco owned 43.33% of ERC and TIHG owned 56.67% of ERC. Verge became a wholly-owned subsidiary of ERC.

On February 16, 2007, the Company completed the disposal of Navigator and exited from the IT outsource industry, which has been classified as a discontinued operation as of December 31, 2006. Accordingly, the Company's principal operations are solely for financial investments in development and real estate.

On May 14, 2007, the Company entered into a Stock Transfer and Assignment of Contract Rights Agreement (the "Stock Transfer Agreement") with ERC, ERC's principal shareholder TIHG, and ERC's wholly owned subsidiary Verge. Pursuant to the Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) (the "Shares") in ERC to TIHG to submit to ERC for cancellation and return to treasury. ERC, TIHG and Verge agreed to assign (the "Assignment") to the Company all rights in and to that certain Investment Agreement, dated as June 19, 2006, and all amendments thereto (collectively, the "Investment Agreement") wherein ERC (from funds available to ERC from the Company) agreed to provide secured loans to Verge for the construction of a multi-use condominium and commercial property in Las Vegas, Nevada (the "Verge Property") and for other projects and properties as provided therein.

The consideration payable to the Company under the Stock Transfer Agreement was \$500,000, which in TIHG's discretion, may be added to the outstanding loan amount owing to the Company by ERC pursuant to the secured line of credit agreement (the "Line of Credit") with ERC, entered into on June 14, 2006, pursuant to which the Company agreed to loan ERC up to \$10.0 million. In December 2006, the Board of Directors and Audit Committee of the Company approved an increase of the Line of Credit up to \$20.0 million. ERC can use this line for the various different projects they are engaged in. The loans are payable on demand and accrue interest at 12% per annum.

As of December 31, 2006, the outstanding Line of Credit owed to the Company was approximately \$12 million. Under the Stock Transfer Agreement, in no event shall the Line of Credit exceed eighty percent (80%) of the fair market value of the Verge Property. As a condition precedent to the Stock Transfer Agreement, a current appraisal of the Verge Property was presented and delivered to the Company within two weeks of the date of the Stock Transfer Agreement. As of December 31, 2007, the outstanding Line of Credit owed to the Company was approximately \$763 thousand, which was eliminated upon consolidation.

The effective date of the Stock Transfer Agreement was January 1, 2007 (the "Effective Date"). All rights assigned to the Company under the Investment Agreement will be considered to be assigned as of the Effective Date. Accordingly, as of the Effective Date, the Company became the sole secured and primary beneficiary under the Investment Agreement, and the Company had no ownership interest in ERC.

As of the Effective Date, under the Investment Agreement, each loan made to Verge is due on demand or upon maturity on January 14, 2008. If the Company requests that the funds be paid on demand prior to maturity, then Verge shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid in the form of shares of common stock of the Company, which will be computed by dividing the dollar amount of the 10% discount by the market price of the Company's shares of common stock. The terms of the loans require that the Company, be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Verge Property. In addition, the Company has the right to acquire the Verge Property for a purchase price of \$15,000,000 through January 1, 2015. The purchase is payable in \$10,000,000 in cash and \$5,000,000 in shares of common stock of the Company.

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors intend to transfer rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction, pursuant to which the Investors and/or the Investors' affiliates acquired together about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

The above transaction was closed on November 2, 2007. Upon closing, Verge became a fully owned subsidiary of AGL and the Company owns 58.3% of AGL and consolidates AGL's results in these financial statements.

Through its subsidiaries and series of agreements with ERC, the Company developed and sold in 2007 three properties in the Los Angeles vicinity. The Company has currently two other residential single families' homes under development in Los Angeles vicinity.

Currently, the Company has majority ownership of a subsidiary with operations outside the United States. The Company's headquarters are now located in West Hollywood, California.

The Company has entered into a term sheet which provides that the Company will purchase an entity that owns certain gas development rights, all the mineral acreage and land rights for drilling on that certain property located in Texas (the "Gas Lease Rights"). Specifically, the Company will purchase all the outstanding membership interests of Davy Crockett Gas Company, LLC, a Nevada limited liability company ("DCG"), which currently owns the Gas Lease Rights. The purchase price shall be \$50 million, which shall be payable in 50,000,000 shares of common stock of the Company. At closing the Company will issue 25,000,000 shares of common stock and then will issue as additional 5 million shares upon each of the first five wells going into production. The purchase price may be increased up to \$250 million based on actual proven developed product. The Company is still undertaking due diligence in connection with proof of good title to the Gas Lease Rights. The transaction was presented to the Board of Directors for approval at a meeting on March 13, 2008. The terms and provisions of the Gas Lease Rights and acquisition thereof is delineated in the Agreement and Plan of Exchange (the "Agreement and Plan of Exchange"). The transaction is subject to a Proxy Statement to be delivered to the Shareholders.

If the DCG acquisition is consummated, DCG will become a wholly-owned subsidiary of the Company and the outstanding membership interests will be exchanged by the holders thereof for shares of the Company. The shares of Emvelco common stock that holders of DCG's membership interest will be entitled to receive pursuant to the Agreement and Plan of Exchange are expected to represent approximately 83% of the shares of the Company immediately following the consummation of the transaction. If the fifth well goes into production, the DCG membership interest will then own 91% of the Company. DCG, headquartered in Bel Air, is a newly formed LLC, which holds certain development rights for gas drilling in Crockett County, Texas.

Based on the operations of ERC throughout the year and as a result of the Exchange Agreement, the Company's ownership structure as of December 31, 2006, which is discussed further below, was as follows:

- Emvelco directly owns 43.33% of ERC, a real estate development company, 25.1% of Micrologic, Inc. ("Micrologic"), a software development company incorporated in Nevada, and 50% of an investment holding company EA Emerging Ventures Corp. ("EVC"), through a joint venture with Ashfield Finance LLC ("Ashfield").
- ERC directly owns real estate development companies as follows: 100% of Verge, 51% of Huntley, 66.67% of Stanley and 100% of Lorraine. Stanley is a related party as its minority owner is D'vora Attia, sister of Yossi Attia, the Company's CEO.
- ERC directly owns 33.33% of AP Holdings Limited ("AP Holdings"), a Jersey Company. AP Holdings is a related party, as its majority owner is Shalom Attia, the brother of Yossi Attia, the Company's CEO. AP Holdings is a non-operational holding company which owns 100% of Atia Projekt d.o.o, a Croatian Company ("Atia Project"), a real estate development company.

On June 14, 2006, the Company entered into a secured line of credit agreement (the "Line of Credit") with ERC, pursuant to which the Company agreed to loan ERC up to \$10.0 million. In December 2006, the Board of Directors and Audit Committee of the Company approved an increase of the Line of Credit up to \$20.0 million. ERC can use this line for the various different projects they are engaged in. The loans are payable on demand and accrue interest at 12% per annum. As of December 31, 2007, the outstanding Line of Credit owed to the Company was approximately

\$763 thousand, which was eliminated upon consolidation.

6

On June 19, 2006, ERC entered into the Investment Agreement with Verge, f/k/a The Aquitania Corp. and AO Bonanza Las Vegas, Inc., pursuant to which ERC, within its sole discretion, agreed to provide secured loans to Verge, as part of the Line of Credit described above, which is not to exceed the amount of \$10.0 million. Verge is developing the Verge Property in downtown Las Vegas, Nevada, where it intends to build approximately 296 condominiums plus commercial space. Verge obtained entitlements to the Verge Property, and has advised that it expects to break ground and commence sales during 2007. Each loan provided to Verge is due on demand or upon maturity on January 14, 2008. All loans are secured by a first deed of trust, assignment of rents and security agreement with respect to the property, along with American Land Title Association (“ALTA”) title policy issued by a title company.

In October 2006, as part of developing the Company’s financial real estate development business, ERC acquired a majority ownership in two real estate companies, Huntley and Stanley, which are planning for the development of two to three unit residences. In September, ERC also formed Lorraine, which are lots designated for an apartment or condominium complex containing 14 multi-family units. ERC is also developing single family homes in Los Angeles known as the Harper, Edinburgh and Laurel projects.

On December 31, 2006, Emvelco and its wholly-owned subsidiary ERC entered into an Exchange Agreement with Verge and its sole shareholder, TIHG an unaffiliated third party. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued new shares to TIHG in exchange for 100% of the outstanding securities of Verge. After the exchange, Emvelco owned 43.33% of ERC and TIHG owned and control 56.67% of ERC. Verge became a wholly-owned subsidiary of ERC.

On May 14, 2007, pursuant to the Stock Transfer Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) in ERC to TIHG to submit to ERC for cancellation and return to treasury. ERC, TIHG and Verge agreed to assign to the Company all rights in and to the Investment Agreement.

The consideration payable to the Company under the Stock Transfer Agreement was \$500,000, which in TIHG’s discretion, may be added to the outstanding loan amount owing to the Company by ERC pursuant to the secured line of credit agreement (the "Line of Credit") with ERC, entered into on June 14, 2006, pursuant to which the Company agreed to loan ERC up to \$10.0 million. In December 2006, the Board of Directors and Audit Committee of the Company approved an increase of the Line of Credit up to \$20.0 million. ERC can use this line for the various different projects they are engaged in. The loans are payable on demand and accrue interest at 12% per annum.

As of December 31, 2006, the outstanding Line of Credit owing to the Company is approximately \$12 million. Under the Stock Transfer Agreement, in no event shall the Line of Credit exceed eighty percent (80%) of the fair market value of the Verge Property. As a condition precedent to the Stock Transfer Agreement, a current appraisal of the Verge Property was presented and delivered to the Company within two weeks of the date of the Stock Transfer Agreement.

On May 14, 2007, the Company entered into a Stock Transfer and Assignment of Contract Rights Agreement (the “Stock Transfer Agreement”) with ERC, ERC’s principal shareholder TIHG, and ERC’s wholly owned subsidiary Verge. The effective date of the Stock Transfer Agreement was January 1, 2007 (the "Effective Date"). All rights assigned to the Company under the Investment Agreement will be considered to be assigned as of the Effective Date. As of the Effective Date, under the Investment Agreement, each loan made to Verge is due on demand or upon maturity on January 14, 2008. The Company and Verge agreed to extend the term of the agreement until funds are available for repayment, which is expected in the year ending December 31, 2008. Interest continues to accrue at 12% per annum. If the Company requests that the funds be paid on demand prior to maturity, then Verge shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid in the form of shares of common stock of the Company, which will be computed by dividing the dollar amount of the 10% discount by the market price of the Company's shares of common stock. The terms of the loans require that the Company, be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Verge Property. OTHER INVESTMENTS

(a) EA Emerging Ventures Corp. ("EVC").

On August 30, 2006, the Company entered into an agreement by and between the Company and Ashfield Finance LLC ("Ashfield"), a Delaware limited liability company to form, develop and initially fund EVC, a Nevada Corporation. The agreement was developed for the purpose of identifying Electronic Design Automation ("EDA") and IT development projects, as well as potential financing of real estate properties related thereto and other business ventures and investments. EVC is owned 50% by the Company and 50% by Ashfield. The Company shall provide the initial funds for implementation of the business purposes of the joint venture and shall be entitled to a first priority return on any proceeds or income received by EVC. Ashfield shall provide services in the area of business, finance and taxation advice and has entered into a Consulting Agreement with EVC regarding these services. In consideration for such services, Ashfield shall receive its 50% interest as well as a payment of \$10,000 per month. EVC is evaluating various projects, although at the present time, has not presented the Company with a specific project for consideration. EVC is a shell company as of the date of this filing. As of December 31, 2007, EVC remains a shell company and is not yet entitled to receive \$10,000 per month.

(b) Micrologic, Inc.

On October 11, 2006, as the first transaction in connection with the agreement with Ashfield (where Ashfield and EVC accepted no consideration) (see above), the Company entered into a Term Sheet that will be formally documented in a contract with associated exhibits, License Agreement and Warrants by and between the Company and Dr. Danny Rittman - a third party, in connection with the formation and initial funding of Micrologic, Inc. ("Micrologic"), a Nevada corporation, for the design and production of EDA applications and Integrated Circuit ("IC") design processes; specifically, the development and production of the NanoToolBox™ tools suite which shortens the time to market factor. NanoToolBox™ is a smart platform that is designed to accelerate IC's design time and shrink time to market factor. The Term Sheet provides for an initial investment by the Company of up to \$1.0 million, with warrants to purchase additional equity for additional investment. Initially, the Company owns 25.1% and Dr. Rittman owns 74.9% of Micrologic, Inc. but such equity positions would be revised depending upon the exercise of the warrants as follows: (1) Warrant A - the Company shall be granted a two year option to acquire an additional 10% of Micrologic for \$1.0 million (2) Warrant B - the Company shall be granted a three year option to acquire an additional 15% of Micrologic for \$3.0 million. The consideration of warrants A and B can be paid at the discretion of the Company, 50% in cash and 50% in the Company's shares. As of December 31, 2006, \$50,000 was transferred by the Company as part of this commitment and no warrants were purchased. Micrologic will enter into a License Agreement with Dr. Danny Rittman, which grants Micrologic the right to technology invented, owned and registered by Dr. Rittman. Parties agreed that this investment will be handled directly between Micrologic and Emvelco without the involvement of EVC or Ashfield; however, the Company has no influence over the operation of Micrologic. The Company and Dr. Rittman are working on finalizing these agreements, which have not been signed as of the date of this report.

From January 1 2007, after the exchange with TIHG, ERC is no longer a controlled subsidiary of the Company and is not consolidated. The Company's interest in Micrologic has been consolidated as of January 1, 2007 in accordance with FIN46R, "Consolidation of Variable Interest Entities", due to Micrologic's sole reliance on the Company to finance its' ongoing business activities. Emvelco has exposure to a majority of the expected losses and/or expected residual returns of Micrologic. (See Note 4 in the financial statements - Investment in Micrologic). On November 15, 2007, the Company entered into a Settlement and Release Agreement and Amendment No. 1 (the "Amendment") to that certain Term Sheet Agreement (the "Agreement") which was entered into by and between Dr. Danny Rittman ("Rittman") and the Company and which the Amendment is entered into by and between the same parties. Pursuant to the Agreement, the Company was obligated to fund Micrologic \$1 million and has funded \$400,000 to date. Pursuant to the Amendment, the Company shall only be required to fund an additional \$50,000 for a total investment of \$450,000, and shall receive ten percent (10%) equity ownership in Micrologic. The Amendment also contains a settlement and release clause releasing the parties from any further obligations to each other. As of December 31, 2007, the Company has consolidated the results of operation of Micrologic, however, pursuant to the Settlement and Release Agreement, the Company will not consolidate the balance sheet at December 31, 2007, nor will it consolidate future results of operations.

(C) AP Holdings Limited - A Jersey Corporation ("AP Holdings")

As a result of the Exchange Transaction entered into on December 31, 2006, ERC, through Verge, acquired a 33.33% equity investment in AP Holdings Limited, a Jersey Company for \$3.0 million which was paid in cash at closing. AP Holdings, a non-operational holding Company owns 100% of Atia Projekt d.o.o. ("Atia Project"), a Croatian company engaged in real estate development. The Company has no influence over the operation of AP Holdings. The majority owner (66.67%) of AP Holdings is Shalom Atia, the brother of the Company's Chief Executive Officer. During the accounting related to the Exchange Transaction, it was determined that there is no accounting value associated with this investment and therefore, the fair value of AP Holdings is its cost as of December 31, 2007.

(D) The Atia Group Limited

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors invested in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors transferred rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction, pursuant to which the Investors and/or the Investors' affiliates acquired together about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, exercised its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option to be exercised in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000. Based on the actual closing and exchange of shares with AGL, where Sitnica became fully owned subsidiary of AGL, the Company did not exercise its Sitnica option.

This transaction was closed on November 2, 2007. Upon closing, Verge and Sitnica became fully owned subsidiaries of AGL and the Company owns 58.3% of AGL and consolidates AGL's results in these financial statements.

History of Acquisitions and Dispositions - ISP and IT industry

Emvelco participated in the ISP market in Central Europe through various acquisitions of companies in that geographic area. In 2005, the scope of the Company's business activity was changed by the decision to sell the Company's operations in the ISP market and furthermore by the acquisition of Navigator, a company active in the IT services industry. In 2007, the Board also approved the exit from IT service industry, and completed the exit with the sale of Navigator. Currently, the Company has no operations in Hungary. A history of the Company's acquisitions and disposals within the ISP and IT industry are presented below.

Hungary

On January 2, 1997, the Emvelco acquired all of the outstanding stock of three Hungarian ISPs for a total purchase price of approximately \$1,785,000, consisting of 28,800 shares of common stock of the Company and \$1,425,000 in cash (collectively, the "1997 Acquisitions"). The 1997 Acquisitions included the following:

- EUNET (Hungary Ltd.) for a cost of \$1,000,000 in cash, and the assumption of \$128,000 in liabilities;
- E-Net Hungary Telecommunications and Multimedia for a cost of \$200,000 in cash and \$150,000 in stock (12,000 shares); and
- MS Telecom Rt. for a cost of \$225,000 in cash and \$210,000 in stock (16,800 shares).

Subsequent to completion of these acquisitions, all three Hungarian companies were combined and merged into a new Hungarian entity, Euroweb Hungary. On November 22, 1998, the Company sold 51% of the outstanding shares of Euroweb Hungary to Pantel Rt. ("Pantel") for \$2,200,000 in cash and an agreement to increase the share capital of

Euroweb Hungary by \$300,000 without changing the ownership ratio. In February 2004, the Company acquired the 51% of Euroweb Hungary that it had sold to Pantel. The consideration paid by the Company for the 51% interest comprised \$2,105,000 in cash and a guarantee that Euroweb Hungary will purchase at least \$3,000,000 worth of services from Pantel in each of the three years ending December 31, 2006. The purchase commitment was fulfilled by Euroweb Hungary.

On June 9, 2004, the Company acquired all of the outstanding shares of Elender, an ISP located in Hungary that provides Internet access to the corporate and institutional (public) sector and, amongst others, 2,300 schools in Hungary. Consideration paid in the amount of \$9,350,005 consisted of \$6,500,000 in cash and 677,201 of the Company's shares of common stock, valued at \$2,508,353 excluding registration cost, and \$391,897 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors).

Under the terms of this agreement, the Company placed 248,111 unregistered shares of newly issued stock (in the name of the Company) with an escrow agent as security for approximately \$1.5 million loans payable to former shareholders of Elender. The shares will be returned to the Company from escrow once the outstanding loans have been fully repaid. However, if there is a default on the outstanding loan, then the shares will be issued to the other party and the Company is then obliged to register the shares. As of December 31, 2005, the Company repaid all of the loans that were outstanding. In January 2006, the Company acquired and subsequently cancelled the shares that were put into escrow.

On October 7, 2005, the Company acquired all of the outstanding shares of Navigator, a Hungary-based provider of IT outsourcing, applications development and IT consulting services. Consideration paid in the amount of \$10,760,772 consisted of \$8,500,000 in cash and 441,566 shares of the Company's common stock valued at \$1,752,134 excluding registration cost, and \$508,638 in transaction costs (consisting primarily of professional fees incurred related to attorneys, accountants and valuation advisors).

On December 19, 2005, Emvelco entered into a share purchase agreement with Invitel for the sale of Euroweb Hungary and Euroweb Romania. The purchase price for the subsidiaries specified in the share purchase agreement was approximately \$30 million. As part of the closing, approximately \$6 million of the cash proceeds paid by Emvelco were paid to Euroweb Hungary in exchange for the 85% ownership of Navigator currently held by Euroweb Hungary. This cash was used by Euroweb Hungary for the repayment of an approximately \$6 million bank loan obtained for the acquisition of Navigator. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006.

On February 16, 2007, the Company completed the disposal of Navigator. The purchase price paid to the Company is \$3,200,000 in cash and the transfer to the Company of 622,531 shares of the Company. On May 3, 2007 the Company surrendered 622,531 stock certificates together with stock powers to American Stock Transfer & Trust Company, the Company's transfer agent for cancellation and return to Treasury.

Romania

On May 19, 2000, the Company purchased all of the Internet related assets of Sumitkom Rokura, S.R.L., an ISP in Romania, for \$1,561,125 in cash. The acquisition was accounted for as an asset purchase with a value of \$1,150,000 being assigned to the customer lists acquired.

On June 14, 2000, the Company acquired all of the outstanding shares of capital stock of Mediator S.A., an ISP in Romania for \$2,040,000 in cash and the assumption of a \$540,000 liability to the former owner payable in annual installments of \$180,000, commencing on June 1, 2001. As part of the closing, approximately \$6 million of the cash proceeds paid by Emvelco were paid to Euroweb Hungary in exchange for the 85% ownership of Navigator currently held by Euroweb Hungary. This cash was used by Euroweb Hungary for the repayment of an approximately \$6 million bank loan obtained for the acquisition of Navigator. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006.

Czech Republic

On June 11, 1999, the Company acquired all of the participating interests of Luko CzechNet, an ISP in the Czech Republic, for a total cost of \$1,862,154, including 90,000 shares of the Company's common stock and 50,000 options valued at \$2.00 per share; the balance paid in cash. On December 16, 2004, the Company sold all of its shares in its wholly-owned subsidiary, Euroweb Czech for cash of \$500,000. Additionally, as a part of the transaction, the Company forgave \$400,000 of loans receivable from Euroweb Czech.

Slovakia

On July 15, 1999, the Company acquired all of the outstanding shares of capital stock of EUNet Slovakia, an ISP in the Slovak Republic, for a total cost of \$813,299 including 47,408 shares of the Company's common stock valued at \$400,005 issued August 9, 1999; the balance was paid in cash. This acquisition was effective as of August 1, 1999.

The Company made another acquisition of a Slovak ISP on July 15, 1999 with the purchase of 70% of the outstanding shares of Dodo s.r.o.'s subsidiary, R-Net, for a total cost of \$630,234, including 29,091 shares of the Company's common stock valued at \$200,000 issued August 13, 1999; the balance was paid in cash. This acquisition was effective as of August 1, 1999.

On September 23, 1999 and November 16, 1999, the Company acquired from Slavia Capital o.c.p., a.s. 70% and 30%, respectively, of the issued and outstanding stock of Global Network Services a.s.c., a Slovakian corporation providing Internet service primarily to businesses located in Bratislava and other major cities in Slovakia for a total purchase price of \$1,633,051, including 71,114 shares of the Company's common stock valued at \$499,929 issued on September 23, 1999; the balance was paid in cash. The acquisition of 70% of Global Network Services a.s.c. was effective as of October 1, 1999.

On April 21, 2000, the Company acquired all of the outstanding capital stock of Iinternet SR, s.r.o., an ISP in the Slovak Republic, for \$1,029,299 in cash. Goodwill arising on this purchase was \$945,200. This acquisition was effective May 1, 2000.

On May 22, 2000, the Company acquired the remaining 30% of R-Net (the initial 70% being acquired in 1999) for \$355,810 in cash. Goodwill arising on this purchase was \$357,565.

All of the Company's Slovakian operations were then merged into one company under the name of Euroweb Slovakia. On April 15, 2005, Emvelco sold 100% of its interest in its wholly-owned subsidiary Euroweb Slovakia to DanubiaTel a.s. The purchase price was \$2,700,000.

Euroweb Hungary, Euroweb Slovakia, Euroweb Czech, Euroweb Romania and Navigator are classified as discontinued operations in the Company's financial statements for all periods presented.

History of Acquisitions and Dispositions - Financial Investment and Real Estate Industry

On June 11, 2006, the Company commenced operations in the financial aspects of the real estate industry through the acquisition of a non-operational, wholly-owned subsidiary, ERC, which was acquired for a stock purchase price totally \$1,000. The primary activity of ERC includes development and subsequent sale of real estate, as well as investment in the form of loans provided to, or ownership acquired in, property development companies, directly or via majority or minority owned affiliates.

In the third quarter of 2006, ERC acquired the following non-operational asset holding companies: 51% in Huntley for a purchase price of \$510, 66.67% of Stanley for a purchase price \$667 and 100% of Lorraine for a capital contribution of \$1,000.

On December 31, 2006, Emvelco and its wholly-owned subsidiary ERC entered into an Exchange Agreement with Verge and its sole shareholder, TIHG. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued 1,308 new shares to TIHG in exchange for 100% of the outstanding securities of Verge, resulting in TIHG having voting control over ERC. Subsequent to the exchange, Emvelco owned 43.33% of ERC, while TIHG owned the remaining 56.67%. Verge became a wholly-owned subsidiary of ERC.

On May 14, 2007, pursuant to the Stock Transfer Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) in ERC to TIHG to submit to ERC for cancellation and return to Treasury. ERC, TIHG and Verge agreed to assign to the Company all rights in and to the Investment Agreement.

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors intend to transfer rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction, pursuant to which the Investors and/or the Investors' affiliates acquired about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

The transaction was closed on November 2, 2007. Upon closing, Verge became a fully owned subsidiary of AGL and the Company owns 58.3% of AGL and consolidates AGL's results in the financial statements.

Through its subsidiaries and series of agreements with ERC, the Company developed and sold three properties in Los Angeles vicinity in the year ended December 31, 2007. The Company has two other residential single family homes under development in Los Angeles vicinity.

Products and Services

Upon completion of the sale of Navigator in February 2007, which is presented as discontinued operations for the year ended December 31, 2006; the Company no longer operates within the IT outsourcing industry.

Emvelco's business that was first implemented in 1997 is identifying, developing and operating companies within emerging industries for the purpose of consolidation and sale if favorable market conditions exist. Although the Company primarily focuses on the operation and development of its core businesses, the Company pursues consolidations and sale opportunities as presented in order to develop its core businesses as well as outside of its core business. Since June 2006, the Company has focused on the financial aspects of acquisition, development, management, rental and sale of commercial, multi-family and residential real estate properties located primarily the United States of America ("US") and Croatia. The Company is also engaged in investment and financing activities, as well as conducting real estate operations on its own properties. During 2007, the Company developed and sold three properties and as of December 31, 2007 the Company has two additional properties under development. In addition, the Company has entered into a term sheet and is conducting due diligence with respect an oil and gas opportunity.

Organization

Project management

The Company employs six full-time professionals including management, in its West Hollywood, California headquarters. Headquarter personnel are responsible for project management, bid-management and operations service management activities. Their main tasks involve creating business and interaction with subsidiaries and vendors.

Employees

As of April 11, 2008, the Company employed a total of thirteen full-time employees.

Government Regulations

The Company's subsidiary or affiliate operations are subject to building, environmental and other codes, ordinances, zoning, building design and regulations of various federal, state, and local governing authorities to comply with building permit, as well as on-going-inspections, including local regulations which impose restrictive zoning and density requirements in order to limit the number of homes that can eventually be built within the boundaries of a particular property or locality. We must satisfy valuation standards and site, material and construction requirements of those authorities. More stringent requirements could be imposed in the future on homebuilders and developers, thereby increasing the cost of compliance.

In addition, the Company is subject to various licensing, registration and filing requirements in connection with the construction, advertisement and sale of homes in its communities. Although these laws have increased our overall costs, they have not had a material effect on the Company.

Competition

The real estate development business is highly competitive and fragmented. We compete with numerous real estate developers of varying sizes, ranging from local to national in scope, some of which have greater sales and financial resources than we have.

Our dedication to customer satisfaction is evidenced by our consumer and value-based brand approach to product development, and we believe that this dedication distinguishes us in the homebuilding industry and will contribute to our long-term competitive advantage. The real estate industry in the United States, however, is highly competitive. In each of our market areas, there are numerous real estate developers with which we compete. We also compete with the resale of existing house inventory. Any provider of housing units, for-sale or to rent, including apartment builders, may be considered a competitor. Conversion of apartments to condominiums further provides certain segments of the population an alternative to traditional housing, as well as manufactured housing. We compete primarily on the basis of price, reputation, design, location and quality of our homes. The real estate industry is affected by a number of economic and other factors including: (1) significant national and world events, which impact consumer confidence; (2) changes in the costs of building materials and labor; (3) changes in interest rates; (4) changes in other costs associated with home ownership, such as property taxes and energy costs; (5) various demographic factors; (6) changes in federal income tax laws; (7) changes in government mortgage financing programs, and (8) availability of sufficient mortgage capacity. In addition to these factors, our business and operations could be affected by shifts in demand for new homes.

Sub-Prime Lending

The current situation in the US mortgage market is tightening, whereby many borrowers are having a difficult time obtaining financing. The tightening of the market is the result of several factors: an increase in home foreclosures; an increase in the failure of mortgage companies; a steep decline in funding available mortgages (primarily sub prime mortgage but also A credit mortgages) and a decline in housing prices. Management does not believe this will hinder sales because its projects are unique and the Company has already sold the vast majority of the condo units.

Risk Factors

In addition to the other information contained in this Annual Report on Form 10-KSB, the following risk factors should be considered carefully in evaluating our business. Our business, financial condition, or results of operations or future prospects could be materially adversely affected by operating results, and could cause our actual results to differ materially from our plans, projections, or other forward-looking statements included in "Item 6. Management's Discussion and Analysis of Financial Condition and Results of Operations" below and elsewhere in this Report on

Form 10-KSB.

We have incurred a loss from continuing operations for the prior periods and we will again incur net losses if we are unable to generate sufficient revenue and control costs.

We incurred a loss from continuing operations of \$10,899,790 for the year ended December 31, 2007 and \$2,279,285 for the year ended December 31, 2006. We may not achieve profitability on a quarterly or annual basis in the future. If revenues grow more slowly than we anticipate, or if operating expenses exceed our expectations or cannot be adjusted accordingly, we will continue to incur losses. Our future performance is dependent upon the successful development and marketing of our services and products and additional acquisition about which there is no assurance. Any future success that we might enjoy will depend upon many factors, including factors out of our control or which cannot be predicted at this time. These factors may include changes in or increased levels of competition, including the entry of additional competitors and increased success by existing competitors, changes in general economic conditions, increases in operating costs, including costs of supplies, personnel and equipment, reduced margins caused by competitive pressures and other factors. These conditions may have a materially adverse effect upon us or may force us to reduce or curtail operations.

15

We are vulnerable to concentration risks because our operations are currently almost exclusive to the Las Vegas, Nevada, Los Angeles, California, and Croatia real estate market.

Our real estate activities are entirely located in Las Vegas, Los Angeles, and Croatia. Because of our geographic concentration and limited number of projects, our operations are more vulnerable to local economic downturns and adverse project-specific risks than those of larger, more diversified companies. Accordingly, the performance of the Nevada, California, and Croatia economies has a significant impact on our revenues and consequently the underlying values of our properties.

Aggressive attempts by certain parties to restrict growth in the area of our holdings may in the future have a negative effect on our development and sales activities.

Although the efforts of certain special interest groups have not experienced, but may be experienced in the future, which negatively impact our development and sales activities; we will protect and defend our rights to the development entitlements of our properties.

If we are unable to generate sufficient cash from operations, we may find it necessary to curtail our development activities.

Significant capital resources will be required to fund our development expenditures. Our performance continues to be dependent on future cash flows from real estate sales and rental income from our financial real estate developments, and there can be no assurance that we will generate sufficient cash flow or otherwise obtain sufficient funds to meet the expected development plans for our properties.

Our results of operations and financial condition are greatly affected by the performance of the real estate industry.

Our real estate activities are subject to numerous factors beyond our control, including local real estate market conditions (both where our properties are located and in areas where our potential customers reside), substantial existing and potential competition, general national, regional and local economic conditions, fluctuations in interest rates and mortgage availability and changes in demographic conditions. Real estate markets have historically been subject to strong periodic cycles driven by numerous factors beyond the control of market participants.

Real estate investments often cannot easily be converted into cash and market values may be adversely affected by these economic circumstances, market fundamentals, competition and demographic conditions. Because of the effect these factors have on real estate values, it is difficult to predict with certainty the level of future sales or sales prices that will be realized for individual assets.

Our real estate operations are also dependent upon the availability and cost of mortgage financing for potential customers, to the extent they finance their purchases, and for buyers of the potential customers' existing residences.

Unfavorable changes in market and economic conditions could hurt occupancy or rental rates. The market and economic conditions may significantly affect rental rates. Occupancy and rental rates in our market, in turn, may significantly affect our profitability and our ability to satisfy our financial obligations. The current situation in the US mortgage market is tightening, whereby many borrowers are having a difficult time obtaining financing. The tightening of the market is the result of several factors: an increase in home foreclosures; an increase in the failure of mortgage companies; a steep decline in funding available mortgages (primarily sub prime mortgage but also A credit mortgages) and a decline in housing prices. Management does not believe this will hinder sales because this project is unique and the Company has already sold the vast majority of the condo units, yet can not predict the global or nationwide effects of such crisis. The risks that may affect conditions in our market include the following:

- the economic climate, which may be adversely impacted by industry slowdowns and other factors;
- local conditions, such as oversupply of office space and the demand for office space;
- the inability or unwillingness of tenants to pay their current rent or rent increases; and
- competition from other available office buildings and changes in market rental rates.

Our operations are subject to an intensive regulatory approval process, which may influence the cost of developments.

Before we can develop a property, we must obtain a variety of approvals from local and state governments with respect to such matters as zoning, density, parking, and subdivision, site planning and environmental issues. Certain of these approvals are discretionary by nature. Because certain government agencies and special interest groups may

expressed concerns about our development plans in or near Los Angeles, Las Vegas and Croatia, our ability to develop these properties and realize future income from our properties could be delayed, reduced, prevented or made more expensive.

Certain special interest groups may opposed our plans and have taken various actions to partially or completely restrict development in some areas, including areas where some of our most valuable properties are located.

We have actively opposed these actions. We currently do not believe unfavorable rulings would have a significant long-term adverse effect on the overall value of our property holdings. However, because of the regulatory environment that has exists in the Las Vegas, Los Angeles, and Croatia and the intensive opposition of certain interest groups, there can be no assurance that such expectations will prove correct.

Our operations are subject to governmental environmental regulation, which can change at any time and generally would result in an increase to our costs.

Real estate development is subject to state and federal regulations and to possible interruption or termination because of environmental considerations, including, without limitation, air and water quality and protection of endangered species and their habitats. We are making, and will continue to make, expenditures with respect to our real estate development for the protection of the environment. Emphasis on environmental matters will result in additional costs in the future.

The real estate business is very competitive and many of our competitors are larger and financially stronger than we are which may affect our sales activities and margins

The real estate business is highly competitive. We compete with a large number of companies and individuals, and many of them have significantly greater financial and other resources than we have. Our competitors include local developers who are committed primarily to particular markets and also national developers who acquire properties throughout the U.S and Croatia.

Our operations are subject to natural risks. Our performance may be adversely affected by weather conditions that delay development or damage property.

The U.S. military intervention in Iraq, the terrorist attacks in the U.S. on September 11, 2001 and the potential for additional future terrorist acts have created economic, political and social uncertainties that could materially and adversely affect our business. It is possible that further acts of terrorism may be directed against the U.S. domestically or abroad, and such acts of terrorism could be directed against properties and personnel of companies such as ours. Moreover, while our property and business interruption insurance covers damages to insured property directly caused by terrorism, this insurance does not cover damages and losses caused by war. Terrorism and war developments may materially and adversely affect our business and profitability and the prices of our common stock in ways that we cannot predict at this time.

Our future success is dependent, in part, on the performance and continued service of our Chief Executive Officer and our ability to attract additional qualified personnel. If we are unable to do so our results from operations may be negatively impacted.

Our success will be dependent on the personal efforts of Yossi Attia, Chief Executive Officer. The loss of the services of Mr. Attia could have a material adverse effect on our business and prospects. We do not have and do not intend to obtain "key-man" insurance on the life of any of our officers. The success of our company is largely dependent upon our ability to hire and retain additional qualified management, marketing, technical, financial and other personnel. Competition for qualified personnel is intense, and there can be no assurance that we will be able to hire or retain additional qualified management. The inability to attract and retain qualified management and other personnel will have a material adverse effect on our company as our key personnel are critical to our overall management as well as the development of our technology, our culture and our strategic direction.

Possible Future Capital Needs.

The Company currently anticipates that its available cash resources will be sufficient to meet its presently anticipated working capital for at least the next 12 months. The Company, however, required obtaining additional financial resources for the development of properties. Therefore, the Company may need to raise additional funds in order to support more rapid expansion and capital expenditure, acquire complementary businesses or technologies or take advantage of unanticipated opportunities through public or private financing, strategic relationships or other arrangements. There can be no assurance that such additional funding, if needed, will be available on terms acceptable to the Company, or at all. If adequate funds are not available on acceptable terms, the Company may be unable to develop or enhance its services and products or take advantage of future opportunities either of which could have a material adverse effect on the Company's business, results of operations and financial condition.

No Dividends.

It has been the policy of the Company not to pay cash dividends on its common stock. At present, the Company will follow a policy of retaining all of its earnings, if any, to finance the development and expansion of its business.

Potential Issuance of Additional Common and Preferred Stock.

The Company is currently authorized to issue up to 35,000,000 common shares. The Board of Directors of the Company will have the ability, without seeking stockholder approval, to issue additional shares of common stock in the future for such consideration as the Board of Directors may consider sufficient. The issuance of additional common stock in the future will reduce the proportionate ownership and voting power of the common stock offered hereby. The Board of Directors of the Company is also authorized to issue up to 5,000,000 shares of preferred stock, the rights and preferences of which may be designated in series by the Board of Directors. To the extent of such authorization, such designations may be made without stockholder approval. The designation and issuance of series of preferred stock in the future would create additional securities which may have voting, dividend, liquidation preferences or other rights that are superior to those of the common stock, which could effectively deter any takeover attempt of the Company.

Potential Issuance of Additional Common Stock in our majority owned subsidiary AGL

On January 30, 2008, Atia Group f/k/a Kidron Industrial Holdings, Ltd. ("Atia Group"), of which the Company is a principal shareholder, notified the Company that it had entered into two (2) material agreements (wherein the Company was not a party but will be directly affected by their terms) with Trafalgar Capital Specialized Investment Fund ("Trafalgar"). Specifically, Attia Group and Trafalgar entered into a Committed Equity Facility Agreement ("CEF") in the amount of 45,683,750 New Israeli Shekels (approximately US\$12 million per the exchange rate at the Closing) and a Loan Agreement ("Loan Agreement") in the amount of US \$500,000 (collectively, the "Finance Documents") pursuant to which Trafalgar grants Atia Group financial backing. The Company is not a party to the Finance Documents. Upon full implantation of said agreements, AGL may issue considerable amount of new shares to Trafalgar as fees, which may dilute the Company holdings substantially, as such new issuing is calculated based on actual average price of AGL shares in the Tel Aviv Stock Exchange - See Item 8B below.

Risks Related to the Proposed Oil and Gas Segment

The number of shares that DCG member will be entitled to receive is dependent upon the results of operations for DCG. As a result, your ownership percentage in the combined company may be diluted in the future.

We are currently evaluating acquiring DCG, which is engaged in the oil and gas industry in Texas. The closing of the acquisition is subject to finalizing due diligence and definitive documents. On the closing date, we will issue 25,

000,000 shares of common stock to the members of DCG, which will be followed with additional 25,000,000 in five increments of 5,000,000 shares each upon the first five wells going into gas production. However, based on the future results of DCG, the members of DCG may be entitled to receive up to a maximum of 250,000,000 shares of common stock of Emvelco. As a result, although the existing shareholders of Emvelco will hold about 17% of the outstanding shares of common stock of Emvelco, upon closing, depending upon the results of DCG, the existing shareholders may only hold about 2% of the issued and outstanding shares of Emvelco.

Because the lack of a public market for DCG's members interest makes it difficult to evaluate the fairness of the Agreement and Plan of Exchange, the members of DCG may receive consideration in the Agreement and Plan of Exchange that is greater than or less than the fair market value of DCG's capital stock.

DCG is privately-held and its membership interests are not traded in any public market. The lack of a public market makes it extremely difficult to determine the fair market value of DCG. Since the percentage of Emvelco equity to be issued to DCG members was determined based on negotiations between the parties, it is possible that the value of Emvelco common stock to be issued to DCG stockholders in connection with the Agreement and Plan of Exchange will be greater than the fair market value of DCG. Alternatively, it is possible that the value of the shares of Emvelco common stock to be issued in connection with the Agreement and Plan of Exchange will be less than the fair market value of DCG.

If the conditions to the Agreement and Plan of Exchange are not met, the transaction may not occur.

Even if the necessary approvals are obtained from the stockholders of Emvelco specified conditions must be satisfied or waived for the Agreement and Plan of Exchange to be consummated. These conditions, which are described in detail in the Agreement and Plan of Exchange include:

- the issuance of Emvelco's common stock in the Agreement and Plan of Exchange, the change of control, the amendment to Emvelco's certificate of incorporation to increase the authorized shares of capital stock;
- the representations and warranties of the other party set forth in the Agreement and Plan of Exchange being true and correct as of the date of the agreement and the date the Agreement and Plan of Exchange occurs, except for (i) those representations and warranties that address matters only as of a particular date and (ii) breaches, inaccuracies or omissions of such representations and warranties which have neither had nor reasonably would be expected to have a material adverse effect on the other party;
- the other party to the Agreement and Plan of Exchange having performed or complied with all of the agreements and covenants required by the Agreement and Plan of Exchange to be performed by such party at or before completion of the Agreement and Plan of Exchange;
- no material adverse effect with respect to the other party to the Agreement and Plan of Exchange having occurred;
- the amendments to Emvelco's certificate of incorporation increasing the authorized capital stock having become effective; and
- Emvelco receiving an opinion from its financial advisor, Sophos Investment Limited, that the Agreement and Plan of Exchange is fair to Emvelco's stockholders from a financial point of view as of the execution date of the Agreement and Plan of Exchange.

Each of the conditions listed above may be waived by the party or parties whose obligations to complete the Agreement and Plan of Exchange are so conditioned. For purposes of these conditions, the Agreement and Plan of Exchange provides that "material adverse effect" means any circumstance that, individually or in the aggregate, has or would reasonably be expected to have a material adverse effect on the business, assets, liabilities, condition or results of operation of the other party, taken as a whole, subject to certain exceptions as stated in the Agreement and Plan of Exchange. We cannot assure you that all of the conditions will be satisfied. If the conditions are not satisfied or waived, the Agreement and Plan of Exchange will not occur or will be delayed, and we may lose some or all of the intended benefits of the Agreement and Plan of Exchange

Risks Related to Emvelco's Business

If the Agreement and Plan of Exchange with DCG is not consummated, we will need substantial additional funding to identify and develop our real estate opportunities and for our future operations.

In the event the Agreement and Plan of Exchange with DCG is not consummated, we will need to identify additional real estate opportunities, which will require a commitment of substantial funds to conduct the costly and time-consuming research and due diligence approvals and bring our product candidates to market. We will need to raise substantial additional capital to fund our future operations. We cannot be certain that additional financing will be available on acceptable terms, or at all. To the extent we raise additional funds by issuing equity securities; our existing stockholders will be diluted. If additional funds are raised through the issuance of debt securities, these securities are likely to have rights, preferences and privileges senior to our common stock and preferred stock.

Moreover, we may enter into financing transactions at prices that represent a substantial discount to market price. A negative reaction by investors and securities analysts to any discounted sale of our equity securities could result in a decline in the market price of our common stock.

Risks Related to the Company's Financial Results and Need for Financing

The combined company's operations in the real estate and oil and gas areas may never achieve or sustain profitability.

DCG is a newly formed oil and gas development company and has no operating history. As DCG was formed specifically to consummate this transaction, to date, DCG has not derived any revenue. DCG does anticipate that it will generate revenue from the sale of oil and/or gas for foreseeable future. If DCG's is unable to generate revenue through the sale of oil and gas or Emvelco is unable to generate sales in connection with the development of its real estate opportunities, the company may never become profitable. Even if the company achieves profitability in the future, it may not be able to sustain profitability in subsequent periods.

The combined company will require substantial additional funding promptly after the consummation of the Agreement and Plan of Exchange to continue developing its real estate and oil and gas operations, which may not be available to the combined company on acceptable terms, or at all. Any such financing will dilute your ownership interest in the combined company.

The combined company will need to raise substantial additional capital to explore additional real estate opportunities as well as develop its oil and gas projects. We do expect that the cash on hand held by Emvelco and DCG at closing will not be sufficient to meet the combined company's cash requirements beyond June 2008. We currently estimate that the combined company will need to raise approximately \$50,000,000 in financing during 2008.

The combined company will need to raise substantial additional capital to explore additional real estate, gas and oil and energy related opportunities.

Until the combined company can generate a sufficient amount of revenue to finance its cash requirements, which the combined company may never do, the combined company expects to finance future cash needs primarily through public or private equity offerings, debt financings or strategic collaborations. Sales of additional equity securities will reduce your ownership percentage in the combined company. The combined company does not know whether additional financing will be available on acceptable terms, or at all. If the combined company is not able to secure additional equity or debt financing when needed, the combined company may not be able to explore its real estate and oil and gas ventures. This could lower the economic value of these collaborations to the combined company.

Risks Related to the Company's Proposed Oil and Gas Business

We intend to acquire rights for oil and gas development properties that are located in Texas, making us vulnerable to risks associated with operating in one geographic area.

Our operations are focused in Texas, which means that our targeted properties are geographically concentrated in that area. As a result, we may be disproportionately exposed to the impact of delays or interruptions of production from these wells caused by significant governmental regulation, transportation capacity constraints, curtailment of production or interruption of transportation of natural gas produced from the wells in these basins.

If we are unable to obtain funding our business operations will be harmed.

We intend to raise funds the sale of shares of our Common Stock. We will require funding to meet increasing capital costs associated with our operations. We will be unable to fund our planned capital program if we are unable to secure funding. We do not know if financing will be available when needed, or if it is available, if it will be available on acceptable terms. The lack of available future funding may prevent us from implementing our business strategy.

Drilling for and producing oil and natural gas are high-risk activities with many uncertainties that could adversely affect our business, financial condition, or results of operations.

Our future success will depend on the success of our exploitation, exploration, development, and production activities. Our oil and natural gas exploration and production activities are subject to numerous risks beyond our control; including the risk that drilling will not result in commercially viable oil or natural gas production. Any future decision to Plan of Exchange, explore, develop, or otherwise exploit prospects or properties will depend in part on the evaluation of data obtained through geophysical and geological analyses, production data and engineering studies, the results of which are often inconclusive or subject to varying interpretations. Our cost of drilling, completing and operating wells are often uncertain before drilling commences. Overruns in budgeted expenditures are common risks that can make a particular project uneconomic. Further, many factors may curtail, delay, or cancel drilling, including the following:

- delays imposed by or resulting from compliance with regulatory requirements;
- pressure or irregularities in geological formations;
- shortages of or delays in obtaining equipment, including drilling rigs, and qualified personnel;
- equipment failures or accidents;
- adverse weather conditions;

- reductions in oil and natural gas prices;
- title problems; and
- Limitations in the market for oil and natural gas.

Our business involves numerous operating hazards for which our insurance and other contractual rights may not adequately cover our potential losses.

Our operations are subject to certain hazards inherent in drilling for oil or natural gas, such as blowouts, reservoir damage, and loss of production, loss of well control, punchthroughs, craterings, or fires. The occurrence of these events could result in the suspension of drilling operations, equipment shortages, damage to or destruction of the equipment involved and injury or death to rig personnel.

Operations also may be suspended because of machinery breakdowns, abnormal drilling conditions, failure of subcontractors to perform or supply goods or services or personnel shortages. Damage to the environment could also result from our operations, particularly through oil spillage or extensive uncontrolled fires. We may also be subject to damage claims by other oil and gas companies.

Although we and/or our operating partners will maintain insurance in the areas in which we operate, pollution and environmental risks generally are not fully insurable. Our insurance policies and contractual rights to indemnity may not adequately cover our losses, and we do not have insurance coverage or rights to indemnity for all risks. If a significant accident or other event occurs and is not fully covered by insurance or contractual indemnity, it could adversely affect our financial position and results of operations.

Acquisitions are a part of our business strategy and are subject to the risks and uncertainties of evaluating recoverable reserves and potential liabilities.

Our proposed business strategy will be based on an acquisition program. We are seeking to acquire working interests or serve as the developer on various projects. Possible future acquisitions, if any, could result in our incurring additional debt, contingent liabilities, and increased expenses, all of which could have a material adverse effect on our financial condition and operating results. We could be subject to significant liabilities related to our acquisitions.

The successful acquisition of producing and non-producing properties requires an assessment of a number of factors, many of which are inherently inexact and may prove to be inaccurate. These factors include:

- evaluating recoverable reserves,
- estimating future oil and gas prices,
- estimating future operating costs,
- future development costs,
- the costs and timing of plugging and abandonment and potential environmental and other liabilities,
- assessing title issues, and
- Other factors.

Our assessments of potential acquisitions will not reveal all existing or potential problems, nor will such assessments permit us to become familiar enough with the properties fully to assess their capabilities and deficiencies. In the course of our due diligence, we may not inspect every well, platform, or pipeline. Inspections may not reveal structural and environmental problems, such as pipeline corrosion or groundwater contamination, when they are made.

We may not be able to obtain contractual indemnities from a seller of a property for liabilities that we assume or the contractual indemnification we do receive may be inadequate to cover the liabilities we do assume. We may be required to assume the risk of the physical condition of acquired properties in addition to the risk that the acquired properties may not perform in accordance with our expectations. As a result, some of the acquired businesses or properties may not produce revenues, reserves, earnings or cash flow at anticipated levels and in connection with these acquisitions, we may assume liabilities that were not disclosed to or known by us or that exceed our estimates.

Our ability to complete acquisitions could be affected by competition with other companies and our ability to obtaining financing or regulatory approvals.

In pursuing acquisitions, we will compete with other companies, many of which have greater financial and other resources to acquire attractive companies and properties. Competition for acquisitions may increase the cost of, or cause us to refrain from, completing acquisitions. Our strategy of completing acquisitions is dependent upon, among other things, our ability to obtain debt and equity financing and, in some cases, regulatory approvals. Our ability to pursue our acquisition strategy may be hindered if we are not able to obtain financing or regulatory approvals.

Competitive industry conditions may negatively affect our ability to conduct operations.

Competition in the oil and gas industry is intense, particularly with respect to the acquisition of properties. Major and independent oil and gas companies actively bid for desirable oil and gas properties, as well as for the equipment, supplies, labor and services required to operate and develop their properties. Many of our competitors have financial resources that are substantially greater than ours, which may adversely affect our ability to compete within the industry.

We have no long-term contracts to sell oil and gas.

We do not have any long-term supply or similar agreements with governments or other authorities or entities for which we act as a producer. We are therefore dependent upon our ability to sell oil and gas at the prevailing wellhead market price. There can be no assurance that Plan of Exchange will be available or that the prices they are willing to pay will remain stable.

Oil and gas prices fluctuate, and low prices for an extended period of time are likely to have a material adverse impact on our business, results of operations and financial condition.

Our revenues, profitability and future growth and reserve calculations depend substantially on reasonable prices for oil and gas. These prices also affect the amount of our cash flow available for capital expenditures and working capital. In addition, the prices of oil and natural gas may affect our ability to borrow money or raise equity capital. Lower prices may also reduce the amount of oil and gas that we can produce economically. Among the factors that can cause fluctuations in the prices for oil and gas are:

- domestic and foreign supply, and perceptions of supply, of oil and natural gas;
- level of consumer demand;
- political conditions in oil and gas producing regions;
- weather conditions;
- world-wide economic conditions;
- domestic and foreign governmental regulations; and
- price and availability of alternative fuels.

Reserve estimates depend on many assumptions that may turn out to be inaccurate. Any material inaccuracies in these reserve estimates or underlying assumptions will materially affect the quantities and present value of our reserves.

The process of estimating oil and natural gas reserves is complex. It requires interpretations of available technical data and many assumptions, including assumptions relating to economic factors. Any significant inaccuracies in these interpretations or assumptions could materially affect the estimated quantities and present value of reserves shown in our financial statements.

In order to prepare our estimates, we must project production rates and timing of development expenditures. We also must analyze available geological, geophysical, production and engineering data. The extent, quality and reliability of this data can vary. The process also requires economic assumptions about matters such as oil and natural gas prices, drilling and operating expenses, capital expenditures, taxes and availability of funds. Therefore, estimates of oil and natural gas reserves are inherently imprecise.

Actual future production, oil and natural gas prices, revenues, taxes, development expenditures, operating expenses and quantities of recoverable oil and natural gas reserves most likely will vary from our estimates. Any significant variance could materially affect the estimated quantities and present value of reserves in our financial statements. In addition, we may adjust estimates of proved reserves to reflect production history, results of exploration and development, prevailing oil and natural gas prices and other factors, many of which are beyond our control.

You should not assume that the present value of future net revenues from our proved reserves is the current market value of our estimated oil and natural gas reserves. In accordance with SEC requirements, we generally base the estimated discounted future net cash flows from our proved reserves on prices and costs on the date of the estimate. Actual future prices and costs may differ materially from those presented using the present value estimate.

We are subject to extensive government regulations.

Our proposed business is affected by numerous federal, state and local laws and regulations, including energy, environmental, conservation, tax and other laws and regulations relating to the oil and gas industry. These include, but are not limited to:

- the prevention of waste,
- the discharge of materials into the environment,
- the conservation of oil and natural gas,
- pollution,
- permits for drilling operations,
- drilling bonds, and
- reports concerning operations, the spacing of wells, and the unitization and pooling of properties.

Failure to comply with any laws and regulations may result in the assessment of administrative, civil and criminal penalties, the imposition of injunctive relief or both. Moreover, changes in any of these laws and regulations could have a material adverse effect on our business. In view of the many uncertainties with respect to current and future laws and regulations, including their applicability to us, we cannot predict the overall effect of such laws and regulations on our future operations.

Risks Related to the Securities Market and Ownership of the Combined Company's Common Stock

The combined company's shares of common stock may be required to re-apply for listing on the NASDAQ Capital Market, which would adversely affect your ability to sell your shares of the combined company's common stock.

Although management does not believe that this transaction is a "reverse merger" as that term is defined by Rule 4340, the transaction will result in a change in control as a result of the issuance of the Emvelco shares to the DCG members. In the event that NASDAQ considers this transaction to be a "reverse merger", the combined company may be required to meet NASDAQ's initial listing requirements at the time of closing of the Agreement and Plan of Exchange. These requirements include a number of quantitative criteria, including a requirement that the combined company's stockholders' equity immediately after the Agreement and Plan of Exchange exceeds \$5.0 million, that the combined company's common stock satisfies a \$4.00 per share minimum bid price immediately after closing of the Agreement and Plan of Exchange and that the combined company maintain a public float of common stock of at least \$15.0 million. If we are required to meet the initial listing criteria, there can be no assurance that we will be able to meet these standards and, as a result, we may be delisted from NASDAQ.

If the combined company is unable to obtain a new listing on the NASDAQ Capital Market, the combined company may seek to have its stock quoted on the FINRA's OTC Bulletin Board, which is an inter-dealer, over-the-counter market that provides significantly less liquidity than the NASDAQ Capital Market, or in a non-NASDAQ over-the-counter market, such as the "pink sheets." Quotes for stocks included on the OTC Bulletin Board/pink sheets are not as widely listed in the financial sections of newspapers as are those for the NASDAQ Capital Market. Therefore, prices for securities traded solely on the OTC Bulletin Board may be difficult to obtain and holders of the combined company's common stock may be unable to resell their securities at any price.

If the combined company is forced to move trading of its common stock to the FINRA's OTC Bulletin Board, the combined company's common stock will be a "penny stock" under Rule 3a51-1 under the Securities Exchange Act of 1934, or the Exchange Act. Compliance with the penny stock requirements would make it more difficult for you to resell your shares to third parties or to dispose of them in the public market or otherwise. Securities broker-dealers would not be permitted to recommend the combined company's common stock and would only be permitted to trade in it on an unsolicited basis. Additionally, Section 15(g) of the Exchange Act and Rule 15g-2 require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Moreover, Rule 15g-9 requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to:

- obtain from the investor information concerning his or her financial situation, investment experience and investment objectives;
- reasonably determine, based on that information, that transactions in penny stock are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions;
-

provide the investor with a written statement setting forth the basis on which the broker-dealer made this determination; and

- receive a signed and dated copy of this statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives.

If the combined company's common stock is required to meeting the initial listing standards and does not satisfy such listing on the NASDAQ Capital Market, the price of the combined company's common stock may decline and the liquidity of the common stock may be significantly reduced. In addition, failure to maintain a NASDAQ Capital Market listing may negatively affect the combined company's ability to obtain necessary additional equity or debt financing on favorable terms or at all.

The stock price of the company's common stock is likely to be volatile and you may lose all, or a substantial portion, of your investment.

The trading price of the combined company's common stock following completion of the Agreement and Plan of Exchange is likely to be volatile and could be subject to wide fluctuations in price in response to various factors, many of which are beyond the combined company's control including, among others, market perception of the Agreement and Plan of Exchange and DCG's business operations, the combined company's need for substantial additional financing shortly following the closing of the Agreement and Plan of Exchange. Such fluctuations may be even more pronounced in the trading market shortly following this merger. These broad market and industry factors may seriously harm the market price of the combined company's common stock, regardless of the combined company's actual operating performance. In addition, in the past, following periods of volatility in the overall market and the market price of a company's securities, securities class action litigation has often been instituted against these companies. This litigation, if instituted against the combined company, could result in substantial costs and a diversion of management's attention and resources.

Neither Emvelco nor DCG has ever paid cash dividends on its common stock, and we do not anticipate that the company will pay any cash dividends on its common stock in the foreseeable future.

Neither Emvelco nor DCG has ever declared or paid cash dividends on its common stock. We do not anticipate that the combined company will pay any cash dividends on its common stock in the foreseeable future. The combined company intends to retain all available funds and any future earnings to fund the development and growth of its business. As a result, capital appreciation, if any, of the combined company's common stock will be your sole source of gain for the foreseeable future.

The Company maintains a general liability insurance policy, course of construction policy for each property. Management's opinion is that the properties are adequately covered by insurance.

ITEM 3. LEGAL PROCEEDINGS

From time to time, we are a party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not involved currently in legal proceedings other than detailed below that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations. We may become involved in material legal proceedings in the future.

On April 26, 2006, a lawsuit was filed in the Delaware Court of Chancery (the "Court") by a stockholder of the Company against the Company, each of the Company's Directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owned 39.81% of the Company's outstanding common stock at the date of the lawsuit. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually, and as a class action on behalf of certain of the Company's common stockholders, excluding defendants and their affiliates. The plaintiff alleged that the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and required approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleged the defendants breached their fiduciary duties in connection with the sale of the Subsidiaries, as well as the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denies any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding ("MOU") providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the MOU, the Board of Directors of the Company agreed to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the Proxy Statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the SEC on May 3, 2006.

The parties entered into a stipulation of settlement on April 3, 2007. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, the Company has agreed to attorneys' fees and expenses to plaintiff's counsel in the amount of \$151,000. Pursuant to the stipulation of settlement, the Company sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, and, as stated above, the Order was entered on June 8, 2007.

The Company filed a complaint in the Superior Court for the County of Los Angeles, against a foreign attorney. The case was filed on February 14, 2007, and service of process has been done. In the complaint the Company is seeking judgment against this attorney in the amount of approximately 250,000 Euros (approximately \$316,000 as of the date of actual transferring the funds), plus interest, costs and fees. Defendant has not yet appeared in the action. The Company believes that it has a meritorious claim for the return of monies deposited with defendant in a trust capacity, and, from the documents in the Company's possession, there is no reason to doubt the validity of the claim. During April 2007 defendant returned \$92,694 (70,000 Euros at the relevant time) which netted to \$72,694 post legal expenses; the Company has granted him a 15-day extension to file his defense. Post the extension and in lieu of not filing a defense, the Company filed for a default judgment. On October 25, 2007 the Company obtained a California Judgment by court after default against the attorney for the sum of \$249,340.65. ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND 6 RESULTS OF OPERATIONS

As of December 31, 2007, the Company and its subsidiaries have four projects in development as follows:

(a) Verge project

On June 19, 2006, ERC entered into the Investment Agreement with Verge, pursuant to which ERC, within its sole discretion, has agreed to provide secured loans to Verge not to exceed the amount of \$10,000,000. The loan is secured via first trust deed as well as Lender ALTA title policy for \$10,000,000.

Verge is an asset company developing the Verge Property, consisting of real property in downtown Las Vegas, Nevada, where it intends to build up to 296 condominiums (number of units may be changed due to realignment and redesign) plus commercial space. Verge obtained entitlements to the Verge Property, and has advised that it expects to break ground in 2008. Sales commenced during 2007.

Each loan provided to Verge is due on demand or upon maturity on January 14, 2008. The Company and Verge agreed to extend the term of the agreement until funds are available for repayment, which is expected in the year ending December 31, 2008. Interest continues to accrue at 12% per annum. All loans are secured by a first deed of trust, assignment of rents and security agreement with respect to the property, along with ALTA (American Land Title Association) title policy.

If ERC requests that the funds be paid on demand prior to maturity, then Verge shall be entitled to reduce the amount requested to be prepaid by 10%. The 10% discount will be paid to Verge in the form of shares of common stock of Emvelco, which will be computed by dividing the dollar amount of the 10% discount by the market price of Emvelco's shares of common stock.

The terms of the loans require that ERC to be paid-off the greater of (i) the principal including 12% interest per annum or (ii) 33% of all gross profits derived from the Property.

Said line of credit was increased via an Amendment to the Investment Agreement up to \$20 Million with the same original terms.

On December 31, 2006, the Company and its subsidiary ERC entered into an Exchange Agreement with Verge and its sole shareholder, THIG. Pursuant to the Exchange Agreement, ERC issued new shares to THIG in exchange for 100% of the outstanding securities of Verge. After the exchange, Euroweb owns 43.33% of ERC and THIG own 56.67%. Verge Living Corporation and its subsidiaries became a wholly-owned subsidiary of ERC.

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors intend to transfer rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction,

pursuant to which the Investors and/or the Investors' affiliates acquired about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

As of December 31, 2007, Verge is a wholly owned subsidiary of the Company's majority owned subsidiary, the Atia Group Limited ("AGL"). The Company owns 58.3% of the outstanding stock of AGL.

(b) Sitnica d.o.o. Sitnica project

The Croatian subsidiary of AGL obtained the rights to 25 consecutive lots (hereinafter - the "Land" or the "Assets") from the Atia Project at the value of these assets on the books of the Atia Project. In view of the fact that these real estate assets are held for an as yet undetermined future use, Sitnica reported this real estate as investment real estate in accordance with Accounting Standard No. 16 of the Israel Accounting Standards Board. The subsidiary elected to measure the investment real estate at fair value as its accounting policy. This treatment is consistent with FAS 141, *Business Combination*. Gains deriving from a change between the cost of the assets and their fair value derive mainly from the consolidation of individual assets into one large lot, the value of which as a single unit is greater than the costs of its parts.

(c) Crescent Heights project

The Company, formed and organized 610 N. crescent Heights, LLC, a California limited liability company (the "CH LLC") on August 13, 2007 as wholly owned subsidiary to purchase and develop that certain property located at 610 North Crescent Heights, Los Angeles, California 90048 (the "CH Property"). The CH Property was acquired for \$900,000 not including closing costs. On November 13, 2007 the CH LLC finalized a construction loan with East West Bank of \$1,440,000. The CH Property is under development.

(d) Dickens project

The Company, formed and organized 13059 Dickens LLC, a California limited liability company (the "Dickens LLC") on November 20, 2007 to purchase and develop that certain property located at 13059 Dickens Street, Studio City, California 91604 (the "Dickens Property"). On December 5, 2007, the Dickens LLC entered into an All Inclusive Deed of Trust, All Inclusive Promissory Note in the principal amount of \$1,065,652, Escrow Instructions and Grant Deed in connection with the purchase of the Dickens Property. Pursuant to the All Inclusive Deed of Trust and All Inclusive Promissory Note, the Dickens LLC purchased the Dickens Property for the total consideration of \$1,065,652 from Kobi Louria ("Seller"), an unrelated third party and fifty percent (50%) owner of the Dickens LLC. The Company and Seller formed the Dickens LLC to own and operate the Dickens Property and to develop a single family residence at the location. The Dickens LLC is owned 50/50 by the Company and Seller. Escrow closed on December 18, 2007. The Dickens Property is under design as exiting house was demolished on February 2008. Development is expected to commence in the second quarter of 2008.

As of December 31, 2006, Emvelco operated in the US through its minority owned affiliate, ERC, a Nevada corporation and its subsidiaries. For the period from June 11, 2006 through December 30, 2006, ERC was a wholly owned subsidiary of Emvelco. Accordingly, the net loss of ERC is presented in the Company's statement of operations for that period. On December 31, 2006, the Company entered into an exchange agreement with TIHG, whereby TIHG became the primary beneficiary of ERC. Thus, the Company is not required to consolidate ERC, but rather report the Company's interest in ERC by using the equity method.

The Company's position is based on a detailed analysis conducted by management of FASB Interpretation No. 46R: *Consolidation of Variable Interest Entities, an interpretation of ARB No. 51* ("FIN 46R"), the accounting pronouncements governing consolidation.

Under its FIN 46R analysis, the Company determined that ERC is a variable interest entity. This in turn required a determination as to which enterprise is the primary beneficiary. The Company determined that TIHG, rather than Emvelco, is the primary beneficiary. The Company performed an analysis of the calculated expected losses of ERC. Of these amounts 56.67% was allocated to TIHG. Because Emvelco is not the primary beneficiary of ERC, Emvelco should not consolidate ERC under FIN 46R, but should report the 43.33% interest in ERC using the equity method. Accordingly, TIHG should consolidate ERC.

As a result of the Company's analysis set forth above, the Company determined that, under FIN 46R, the Company will not consolidate ERC for the year ended December 31, 2006.

On May 14, 2007, pursuant to the Stock Transfer Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) in ERC to TIHG to submit to ERC for cancellation and return to Treasury. ERC, TIHG and Verge agreed to assign to the Company all rights in and to the Investment Agreement.

On April 15, 2005, the Company disposed of Euroweb Slovakia a.s. ("Euroweb Slovakia") for cash in the amount of \$2,700,000 and, as a result, has ceased operations in Slovakia.

On December 15, 2005, our Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement with third party - Invitel Tavkozlesi Szolgaltato Rt. ("Invitel"), a Hungarian joint stock company, to sell 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006 upon our receipt of the first part of the purchase price of \$29,400,000. The remaining part of the purchase price of \$613,474 was fully paid in two installments: \$232,536 in June and \$380,938 in the beginning of July 2006. The purchase price was partly utilized for the repayment of \$6,044,870 Commerzbank loan in order to ensure debt free status of the subsidiaries, and partly for settlement of \$2,130,466 of transaction costs.

On February 16, 2007, the Company completed the sale of Navigator for \$3,200,000 in cash and the transfer to the Company of 622,531 shares of the Company. The closing of the sale of Navigator occurred on February 16, 2007. On May 3, 2007 the Company surrendered said 622,531 stock certificates together with stock powers to American Stock Transfer & Trust Company the Company's transfer agent for return to Treasury and cancellation.

The sale of Euroweb Slovakia, Euroweb Hungary, Euroweb Romania and Navigator met the criteria for presentation as discontinued operations under the provisions of Statement of Financial Accounting Standards ("SFAS") No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). Therefore, Euroweb Slovakia, Euroweb Hungary, Euroweb Romania and Navigator are reclassified as discontinued operations in the financial statements of the Company in 2006.

The Company operates in financial investment in real estate development for subsequent sales, Investment and Financing Activities, directly or through its subsidiaries currently in the USA and Croatia.

In June 2006, the Company commenced operations in the real estate industry through ERC and its subsidiaries. ERC has commenced developments in the real estate industry, which must satisfy the parameters set by the Board of Directors as follows:

- Any investment in the real estate opportunity (the “Proposed RE Investment”), including loans, shall not exceed a planned period of three years;
- The expected return on investment on the Proposed RE Investment will be at minimum 15% per year;
- The Proposed RE Investment will not be leveraged in excess of more than \$1.50 for each \$1.00 invested in equity; and
- Each Proposed RE Investment will have a clear exit strategy (i.e. purchase, development and sale) and no Proposed RE Investment intent will be to acquire income producing real estate.

Acquisitions and Disposals

(a) Disposal of ERC, Verge and Acquisition of AGL

On June 11, 2006, the Company commenced operations in the financial aspects of the real estate industry through the acquisition of a non-operational, wholly-owned subsidiary, ERC, which was acquired for a stock purchase price totally \$1,000. The primary activity of ERC includes development and subsequent sale of real estate, as well as investment in the form of loans provided to, or ownership acquired in, property development companies, directly or via majority or minority owned affiliates. In the third quarter of 2006, ERC acquired the following non-operational asset holding companies: 51% in Huntley for a purchase price of \$510, 66.67% of Stanley for a purchase price \$667 and 100% of Lorraine for a capital contribution of \$1,000. On December 31, 2006, Emvelco and its wholly-owned subsidiary ERC entered into an Exchange Agreement with Verge and its sole shareholder, TIHG. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued 1,308 new shares to TIHG in exchange for 100% of the outstanding securities of Verge, resulting in TIHG having voting control over ERC. Subsequent to the exchange, Emvelco owned 43.33% of ERC, while TIHG owned the remaining 56.67%. Verge became a wholly-owned subsidiary of ERC. On May 14, 2007, pursuant to the Stock Transfer Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) in ERC to TIHG to submit to ERC for cancellation and return to Treasury. ERC, TIHG and Verge agreed to assign to the Company all rights in and to the Investment Agreement.

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors intend to transfer rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction, pursuant to which the Investors and/or the Investors' affiliates acquired about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, further intends to exercise its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option is exercisable in the amount of \$4,000,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, intends to exercise its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option is exercisable in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

Said transaction was closed on November 2, 2007. Upon closing, Verge became a fully owned subsidiary of AGL and the Company owns 58.3% of AGL and consolidates AGL's results in the financial statements.

(b) Disposal of Euroweb Hungary, Euroweb Romania and Navigator

On May 23, 2006, the closing of the sale of Euroweb Hungary and Euroweb Romania occurred upon our receipt of the first part of the purchase price of \$29,400,000. The remaining part of the purchase price of \$613,474 was fully paid in two installments: \$232,536 in June and \$380,938 in the beginning of July 2006. The purchase price was partly utilized for the repayment of \$6,044,870 Commerzbank loan in order to ensure debt free status of the subsidiaries, and partly for settlement of \$2,130,466 of transaction costs.

On February 16, 2007, the Company completed the sale of Navigator for \$3,200,000 in cash and the transfer to the Company of 622,531 shares of the Company for cancellation. The closing of the sale of Navigator occurred on February 16, 2007. On May 3, 2007 the Company surrendered said 622,531 stock certificates together with stock powers to American Stock Transfer & Trust Company the Company's transfer agent for cancellation and return to Treasury.

Plan of operation

The Company's plan of operation for the next 12 months will include the following components:

We plan to finance and invest in development of existing projects (Verge, Sitnica, Dickens, and Crescent Heights projects), including obtaining financing of Verge Living for the purpose of commencing or continuing the projects in 2008. Our plan is to proceed with financial investment in real estate developments in the US and Croatia. This phase of development will include the following elements:

(a) Attempting to raise bond or debt financing through Verge and AGL if possible. Any cash receipt from financing will be utilized partly by the Company's financial investment in real estate developments in the US and partly by further real estate developments in Croatia. In connection with Verge financing, the Company anticipates spending approximately \$1,000,000 on professional fees over the next 12 months in order to facilitate our financial investment, by creating more strength to the financial investments of the Company.

(b) The Company anticipates spending approximately \$250,000 on professional fees over the next 12 months in order to file the requirements under the Securities Laws.

(c) The Company and Davy Crockett Gas Company LLC, a privately-held Nevada corporation ("DCG"), have entered into an agreement and plan of exchange, pursuant to which we will acquire all of the issued and outstanding securities of DCG. If the DCG acquisition is consummated, DCG will become a wholly-owned subsidiary of Emvelco and outstanding membership interest will be exchange by the holders thereof for shares of Emvelco. DCG headquartered in Bel Air is a newly formed LLC which holding certain development rights for Gas drilling in Crockett County, TX. The closing of the acquisition is subject to due diligence and finalizing definitive documentation.

(d) Subject to obtaining adequate financing, the Company anticipates that it will be spending approximately \$20,000,000 over the next 12 month period pursuing its stated plan of investment operation, subject of obtaining financing. The Company's present cash reserves are not sufficient for it to carry out its plan of operation without substantial additional financing. The Company is currently attempting to arrange for financing through mezzanine arrangements, debt or equity that would enable it to proceed with its plan of investment operation.

The Company's actual expenditures and business plan may differ from the one stated above. Its board of directors may decide not to pursue this plan as a whole or part of it. In addition, the Company may modify the plan based on available financing.

The US real estate market trends are toward a soft market in the last year. Management believes that the "softer market" is due to the Federal Reserve Bank Policy of major fluctuations in interest rates (in order to depress inflation trends). Such fluctuations in interest rates make financing more expensive, and more difficult to obtain. The Company anticipates that it will be spending approximately \$20 million over the next 12 month period pursuing its stated plan of investment operation. The Company believes that its liquidity will not be enough for implementing its plan, and the Company has confidence that subject to actual pre-sales, it will obtain financing to complete its projects in the short-term as well as in the long-term. If actual sales will not be adequate, the Company will not continue spending its existing cash, and therefore it can avoid liquidity problems.

The Company's primary source of liquidity comes from divesting its ISP business in Central Eastern Europe, which was concluded on May 2006, when it completed the disposal of Euroweb Hungary and Euroweb Romania to Invitel. In February 2007, the Company closed the disposal of Navigator, which added approximately \$3.2 million net of cash to its internal source of liquidity.

Our external source of liquidity is based on a project by project basis. The Company intends to obtain financial investment in land and construction loans from commercial lenders for its development activities, as well as financial suit for DCG.

The residential real estate market in Southern California, Nevada and Croatia is more active during spring and summer. It is the Company's desire to complete its financial development during the summer, to increase the potential for a fast sale. In some markets, such as Nevada, regulations allow for the sale of units from plans. As a result, these seasonal factors should not affect the financial condition or results of operation, though they may have a moderate effect on the liquidity position of the Company.

Critical Accounting Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumptions and disclosures. We choose accounting policies within US GAAP that management believes are appropriate to accurately and fairly report our operating results and financial position in a consistent manner. Management regularly assesses these policies in light of current and forecasted economic conditions. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information presently available. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions for a number of reasons. Our accounting policies are stated in Note 2 to the 2007 Consolidated Financial Statements. We identified the following accounting policies as critical to understanding the results of operations and representative of the more significant judgments and estimates used in the preparation of the consolidated financial statements: impairment of goodwill, allowance for doubtful accounts, acquisition related assets and liabilities, accounting of income taxes and analysis of FIN46R as well as FASB 67.

- Investment in Real Estate and Commercial Leasing Assets. Real estate held for sale and construction in progress is stated at the lower of cost or fair value less costs to sell and includes acreage, development, construction and carrying costs and other related costs through the development stage. Commercial leasing assets, which are held for use, are stated at cost. When events or circumstances indicate that an asset's carrying amount may not be recoverable, an impairment test is performed in accordance with the provisions of SFAS 144. For properties held for sale, if estimated fair value less costs to sell is less than the related carrying amount, then a reduction of the assets carrying value to fair value less costs to sell is required. For properties held for use, if the projected undiscounted cash flow from the asset is less than the related carrying amount, then a reduction of the carrying amount of the asset to fair value is required. Measurement of the impairment loss is based on the fair value of the asset. Generally, we determine fair value using valuation techniques such as discounted expected future cash flows.

Our expected future cash flows are affected by many factors including:

- a) The economic condition of the Las Vegas, Nevada and Los Angeles, California market, and the Croatian market;
- b) The performance of the real estate industry in the markets where our properties are located;
- c) Our financial condition, which may influence our ability to develop our real estate; and
- d) Governmental regulations.

Because any one of these factors could substantially affect our estimate of future cash flows, this is a critical accounting policy because these estimates could result in us either recording or not recording an impairment loss based on different assumptions. Impairment losses are generally substantial charges. We are currently in the beginning state of development of real estates, therefore no impairment is required. Any impairment charge would more likely than not have a material effect on our results of operations.

The estimate of our future revenues is also important because it is the basis of our development plans and also a factor in our ability to obtain the financing necessary to complete our development plans. If our estimates of future cash flows from our properties differ from expectations, then our financial and liquidity position may be compromised, which could result in our default under certain debt instruments or result in our suspending some or all of our development activities.

- **Allocation of Overhead Costs.** We periodically capitalize a portion of our overhead costs and also allocate a portion of these overhead costs to cost of sales based on the activities of our employees that are directly engaged in these activities. In order to accomplish this procedure, we periodically evaluate our “corporate” personnel activities to see what, if any, time is associated with activities that would normally be capitalized or considered part of cost of sales. After determining the appropriate aggregate allocation rates, we apply these factors to our overhead costs to determine the appropriate allocations. This is a critical accounting policy because it affects our net results of operations for that portion which is capitalized. In accordance with paragraph 7 of SFAS No. 67, we only capitalize direct and indirect project costs associated with the acquisition, development and construction of a real estate project. Indirect costs include allocated costs associated with certain pooled resources (such as office supplies, telephone and postage) which are used to support our development projects, as well as general and administrative functions. Allocations of pooled resources are based only on those employees directly responsible for development (i.e. project manager and subordinates). We charge to expense indirect costs that do not clearly relate to a real estate project such as salaries and allocated expenses related to the Chief Executive Officer and Chief Financial Officer.
- **Revenue Recognition.** In accordance with SFAS No. 66, “Accounting for Sales of Real Estate,” we recognize revenues from property sales when the risks and rewards of ownership are transferred to the buyer, when the consideration received can be reasonably determined and when we have completed our obligations to perform certain supplementary development activities, if any exist, at the time of the sale. Consideration is reasonably determined and considered likely of collection when we have signed sales agreements and have determined that the buyer has demonstrated a commitment to pay. The buyer’s commitment to pay is supported by the level of their initial investment, our assessment of the buyer’s credit standing and our assessment of whether the buyer’s stake in the property is sufficient to motivate the buyer to honor its obligation to us. This is a critical accounting policy because for certain sales, we use our judgment to determine the buyer’s commitment to pay us and thus determine when it is proper to recognize revenues.

We recognize our rental income based on the terms of our signed leases with tenants on a straight-line basis. We recognize sales commissions and management and development fees when earned, as lots or acreages are sold or when the services are performed.

- **Accounting for Income Taxes:** We recognize deferred tax assets and liabilities for the expected future tax consequences of transactions and events. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. If necessary, deferred tax assets are reduced by a valuation allowance to an amount that is determined to be more likely than not recoverable. We must make significant estimates and assumptions about future taxable income and future tax consequences when determining the amount of the valuation allowance. In addition, tax reserves are based on significant estimates and assumptions as to the relative filing positions and potential audit and litigation exposures related thereto. To the extent the Company establishes a valuation allowance or increases this allowance in a period, the impact will be included in the tax provision in the statement of operations.

Commitments and contingencies

Effective July 1, 2006, the Company entered into a five-year employment agreement with Yossi Attia as the President of ERC which commenced on July 1, 2006 and provides for annual compensation of \$240,000 and an annual bonus of not less than \$120,000 per year, as well as an annual car allowance for the same period. Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K's - See Disposal of ERC, Verge and Acquisition of AGL), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. Pursuant to the Upswing Agreement, the Investors intend to invest in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). Based on closing of said transaction, on July 23, 2007 the Company issued a straight note to Upswing for the amount of \$2,000,000. As the Company defaulted on said note, on April 11, 2008 the parties amended the note terms, by adding a contingent convertible feature to the note, as well as extend its Maturity Date in no event sooner than January 22, 2013. The outstanding debt represented by this Note (including accrued Interest) may be converted to ordinary common shares of the Company only if The Company issues during any six (6) month period subsequent to the date of this Note, 25,000,000 (twenty five million) or more shares of its common stock. Effect of Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48") as an interpretation of SFAS No. 109, "Accounting for Income Taxes". This Interpretation clarifies the accounting for uncertainty in income taxes recognized by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on de-recognition of tax benefits previously recognized and additional disclosures for unrecognized tax benefits, interest and penalties. The evaluation of a tax position in accordance with this Interpretation begins with a determination as to whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. A tax position that meets the more-likely-than-not recognition threshold is then measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement for recognition in the financial statements. The Company adopted FIN 48 on January 1, 2007 and the adoption did not have a material impact on the Company.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This Statement is required to be adopted by the Company on July 1, 2008. Management is currently assessing the impact of the adoption of this Statement.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement provides entities the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Management is currently evaluating the impact of adopting this Statement.

Forward-Looking Statements

As a result, the Company's actual results for future periods could differ materially from those anticipated or projected.

Reference is made to the audited Consolidated Financial Statements of the Company as of December 31, 2007 and for the years ended December 31 2006, beginning with the index hereto on page F-1.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

DELOITTE RESIGNATION -

As the Company disclosed in its Form 8-K filed April 30, 2007, on April 25, 2007 (the "Resignation Date"), Deloitte Kft. (the "Former Auditor") advised the Company that it has resigned as the Company's independent auditor. The Former Auditor performed the audit for the one year period ended December 31, 2005, which report did not contain any adverse opinion or a disclaimer of opinion, nor was it qualified as to audit scope or accounting principles. During the Company's two most recent fiscal years and during any subsequent interim period prior to the Resignation Date, there were no disagreements with the Former Auditor, with respect to accounting or auditing issues of the type discussed in Item 304(a)(iv) of Regulation S-B.

Prior to the Resignation Date, the Former Auditor advised the Company that it had raised certain issues relating to the accounting of ERC. As of December 31, 2006, the Company owned 43.33% of the outstanding securities of ERC. The Former Auditor believed that this communication was a disclosable event pursuant to Item 304(a)(v). The issues raised by the Former Auditor related to the recording of the cost of real estate purchased by Verge (a wholly owned subsidiary of ERC), the production of records relating to loans made to VLC and the valuation of land in connection with Lorraine Properties, LLC (a wholly owned subsidiary of ERC). Management of the Company disagrees with the aforementioned statements and believes that it has adequately explained each of the above inquires made by the Former Auditor. Further, prior to being advised of the above issues, the Company maintained that ERC and its subsidiaries do not need to be consolidated in the Company's financial statements, which such position was subsequently confirmed by a detailed analysis by management and an independent third party consultant of the accounting pronouncements governing consolidation.

The Former Auditor advised the Company that it intended to furnish a letter to the Company, addressed to the Staff, stating that it agreed with the statements made herein or the reasons why it disagreed. The letter from the Former Auditor was filed as an amendment to Form 8-K on May 14, 2007.

Appointment of New Auditors - Robison, Hill & Co. ("RHC") -

On April 26, 2007, the Company engaged Robison, Hill & Co. ("RHC") as its independent registered public accounting firm for the Company's fiscal years ended December 31, 2007 and 2006. The decision to engage RHC as the Company's independent registered public accounting firm was approved by the Company's Board of Directors, and ratify the selection of Robison Hill & Co. as our independent auditors for the fiscal year ending December 31, 2007, by our shareholders meeting that took place on December 7, 2007.

During the two most recent fiscal years and through April 26, 2007, the Company has not consulted with RHC regarding either:

1. the application of accounting principles to any specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither a written report was provided to the Company nor oral advice was provided that RHC concluded was an important factor considered by the Company in reaching a decision as to the accounting, auditing or financial reporting issue; or
2. any matter that was either subject of disagreement or event, as defined in Item 304(a)(1)(iv)(A) of Regulation S-B and the related instruction to Item 304 of Regulation S-B, or a reportable event, as that term is explained in Item 304(a)(1)(iv)(A) of Regulation S-B.

ITEM 8A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

As of the end of the period covered by this Annual Report, we conducted an evaluation, under the supervision and with the participation of our Chief Executive Officer (Principal Executive, Financial and Accounting Officer), of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based upon this evaluation, our Chief Executive Officer (Principal Executive, Financial and Accounting Officer) concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and which also are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer (Principal Executive, Financial and Accounting Officer), to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting of the Company. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management, with the participation of our principal executive officer, financial and accounting officer, has evaluated the effectiveness of our internal control over financial reporting as of December 31, 2007 based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, because of the Company's limited resources and limited number of employees, management concluded that, as of December 31, 2007, our internal control over financial reporting is not effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. generally accepted accounting principles.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this annual report.

Limitations on Effectiveness of Controls and Procedures

Our management, including our Chief Executive Officer (Principal Executive, Financial and Accounting Officer), does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Changes in internal controls

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or 15d-15 under the Exchange Act that occurred during the quarter ended December 31, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Notwithstanding the foregoing, on April 19, 2007, the Company received a NASDAQ Staff Determination (the "Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(14) requiring the Company to file its Form 10-KSB for the year ended December 31, 2006 with the Securities and Exchange Commission and that its securities are, therefore, subject to delisting from the NASDAQ Capital Market. The Company requested and received a hearing before a NASDAQ Listing Qualifications Panel (the "Panel") to review the Determination.

On May 17, 2007, the Company received a NASDAQ Additional Staff Determination (the "Additional Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(14) requiring the Company to file its Form 10-QSB for the quarter ended March 31, 2007 with the Securities and Exchange Commission and that that this failure serves as an additional basis for why its securities are subject to delisting from the NASDAQ Capital Market. The Company will review the Additional Determination at its Panel hearing. There can be no assurance that the Panel will grant the Company's request for continued listing.

The Panel hearing took place on May 31, 2007, and the panel determined that the Company complies with NASDAQ Rules.

On November 1, 2007, the Company received a NASDAQ Staff Determination (the "Determination") indicating that the Company has failed to comply with the requirement for continued listing set forth in Marketplace Rule 4310(c)(4) requiring the Company to maintain a minimum bid price of \$1.00 and that its securities are, therefore, subject to delisting from the NASDAQ Capital Market if it does not regain compliance by April 29, 2008. If the bid price of the Company's common stock closes at \$1.00 per share or more for a minimum of 10 consecutive business days anytime prior to April 29, 2008, then the NASDAQ Staff will provide written notification that it complies with the Rule. In the event that the Company does not meet the minimum bid requirement by April 29, 2008 but satisfies all initial listing criteria, the Company will be given a 180 day extension to meet the minimum bid price. In the event that the Company does not meet the initial listing criteria, NASDAQ will provide the Company with written notification that the Company's securities will be delisted, which such determination may be appealed by the Company.

On February 11, 2008, the Company received a decision letter from The NASDAQ Stock Market LLC ("NASDAQ") informing the Company that it has regained compliance with Marketplace Rule 5310(c)(4). The Staff letter noted that the closing bid price of the Company's common stock has been at \$1.00 per share or greater for at least 10 consecutive business days.

ITEM 8B. OTHER INFORMATION

On January 30, 2008, Atia Group f/k/a Kidron Industrial Holdings, Ltd. ("Atia Group" or "AGL"), of which the Company is a principal shareholder, notified the Company that it had entered into two (2) material agreements (wherein the Company was not a party but will be directly affected by their terms) with Trafalgar Capital Specialized Investment Fund ("Trafalgar"). Specifically, Atia Group and Trafalgar entered into a Committed Equity Facility Agreement ("CEF") in the amount of 45,683,750 New Israeli Shekels (approximately US\$12,000,000.00 per the exchange rate at the Closing) and a Loan Agreement ("Loan Agreement") in the amount of US \$500,000 (collectively, the "Finance Documents") pursuant to which Trafalgar grants Atia Group financial backing. The Company is not a party to the Finance Documents.

The CEF sets forth the terms and conditions upon which Trafalgar will advance funds to Atia Group. Trafalgar is committed under the CEF until the earliest to occur of: (i) the date on which Trafalgar has made payments in the aggregate amount of the commitment amount (45,683,750 New Israeli Shekels); (ii) termination of the CEF; and (iii) thirty-six (36) months. In consideration for Trafalgar providing funding under the CEF, the Atia Group will issue Trafalgar ordinary shares, as existing on the dual listing on the Tel Aviv Stock Exchange (TASE) and the London Stock Exchange (LSE) in accordance with the CEF. As a further inducement for Trafalgar entering into the CEF, Trafalgar shall receive that number of ordinary shares as have an aggregate value calculated pursuant to the CEF, of U.S. \$1,500,000.

The Loan Agreement provides for a discretionary loan in the amount of \$500,000 ("Loan") and bears interest at the rate of eight and one-half percent (8½%) per annum. The Loan is to be used by Atia Group for the sole purpose of investment in its subsidiary Sitnica d.o.o. which controls the Samobor project in Croatia. The security for the Loan shall be a pledge of Atia Group's shareholder equity (75,000 shares) in Verge Living Corporation.

The aforementioned transactions as set forth under a non-binding term sheet were reported on the Company's Form 8K on December 5, 2007.

Simultaneously, on the same date as the aforementioned Finance Documents, the Company entered into a Share Exchange Agreement (the "Share Exchange Agreement") with Trafalgar. The Share Exchange Agreement provides that the Company must deliver, from time to time, and at the request of Trafalgar, those shares of Atia Group, in the event that the ordinary shares issued by Atia Group pursuant to the terms of the Finance Documents are not freely tradable on the Tel Aviv Stock Exchange or the London Stock Exchange. In the event that an exchange occurs, the Company will receive from Trafalgar the same amount of shares that were exchanged. The closing and transfer of each trench of the Exchange Shares shall take place as reasonably practicable after receipt by the Company of a written notice from Trafalgar that it wishes to enter into such an exchange transaction. To date, all of the Company's shares in Atia Group are restricted by Israel law for a period of six (6) months since the issuance date, and then such shares may be released in the amount of one percent (1%) (From the total outstanding shares of Atia Group which is the equivalent of approximately 1,250,000 shares per quarter), subject to volume trading restrictions.

Trafalgar is an unrelated third party comprised of a European Euro Fund registered in Luxembourg as FIS (Fund Investment Special) and regulated by the CSSF. Trafalgar has assets currently in excess of US \$150 million. The Company, its subsidiaries, officers and directors are not affiliates of Trafalgar or its officers.

Officers, Directors and greater than 10 percent stockholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

Specific due dates for such reports have been established by the SEC and the Company is required to disclose in this Proxy Statement any failure to file reports by such dates during fiscal 2007. Based solely on its review of the copies of such reports received by it, or written representations from certain reporting persons that no Forms 5 were required for such persons, the Company believes that during the fiscal year ended December 31, 2007, there was no failure to comply with Section 16(a) filing requirements applicable to its officers, Directors and ten percent stockholders.

As no executive officer of the Company received compensation during 2007 approaching \$1 million, and the Company does not believe that any executive officer’s compensation is likely to exceed \$1 million in 2007, the Company has not developed an executive compensation policy with respect to qualifying compensation paid to its executive officers for deductibility under Section 162(m) of the Code.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

To the Board of Directors and Shareholders
Emvelco Corp., and Subsidiaries

We have audited the accompanying consolidated balance sheets of Emvelco Corp., and Subsidiaries as of December 31, 2007 and 2006 and the related consolidated statements of operations, comprehensive income, stockholder's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financials statements of Atia Group Ltd., a 58.3% owned subsidiary, which statements reflect total assets of \$812,910 as of December 31, 2007 and total revenues of \$847,743 for the period from September 13, 2007 (date of acquisition) to December 31, 2007. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Atia Group Ltd., is based solely on the report of the other auditors.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audit and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Emvelco Corp., and Subsidiaries as of December 31, 2007 and 2006 and the results of its operations and its cash flows for the years ended December 31, 2007 and 2006 in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

1. Organization and Business

Emvelco Corp. ("Emvelco"), formerly known as Euroweb International Corp., is a Delaware Corporation, which was incorporated on November 9, 1992. Emvelco and its consolidated subsidiaries are collectively referred to herein as the "Company". The Company's authorized capital stock consists of 35,000,000 shares with a par value of \$0.001 per share. As of December 31, 2007, there are 5,889,074 shares issued and outstanding.

The Company invests in the development and real estate development, financing and investments business through Emvelco RE Corp. ("ERC") and its subsidiaries in the United States of America ("US"). The Company commenced operations in the investment real estate industry through the acquisition of an empty, non-operational, wholly-owned subsidiary, ERC, which was acquired in June 2006. Primary activity of ERC includes investment, development and subsequent sale of real estate, as well as investment in the form of loans provided to, or ownership acquired in, property development companies, directly or via majority or minority owned affiliates. The Company's headquarters are located in West Hollywood, California.

On December 15, 2005, the Board of Directors decided to sell 100% of Euroweb Internet Szolgaltato Rt. ("Euroweb Hungary") and Euroweb Romania S.A. ("Euroweb Romania"). On December 19, 2005, the Company entered into a share purchase agreement to sell 100% of the Company's interest in Euroweb Hungary and Euroweb Romania. The closing of the sale of Euroweb Hungary and Euroweb Romania occurred on May 23, 2006. For the year ended December 31, 2006, the Euroweb Hungary and Euroweb Romania operations have been presented as discontinued operations in the Company's consolidated financial statements (see Note 10).

Emvelco and its wholly-owned subsidiary ERC entered into an Agreement and Plan of Exchange ("Exchange Agreement") dated December 31, 2006 with Verge Living Corporation ("Verge"), a Nevada corporation, and Verge's sole shareholder, The International Holdings Group Ltd. ("TIHG") a corporation formed and registered in the Marshall Islands, controlled by a third party. The Exchange Agreement closed on December 31, 2006. Pursuant to the Exchange Agreement, ERC issued shares to TIHG in exchange for 100% of the outstanding securities of Verge Living Corporation ("Verge"). Subsequent to the exchange, Emvelco ownership in ERC was diluted to 43.33%, while TIHG owned the remaining 56.67%. Verge became a wholly-owned subsidiary of ERC (see Note 9). ERC directly owns 33.33% of AP Holdings Limited ("AP Holdings"), a Jersey Island non operating holding Company. AP Holdings owns 100% of Atia project d.o.o, a Croatian Company ("Atia project"), a real estate development company.

As a result of the Exchange Agreement, as well as the operation of ERC throughout the year, the Company's ownership structure at December 31, 2006 was as follows:

- Emvelco owned 43.33% of ERC, and 25.1% of Micrologic, Inc. ("Micrologic, Inc") a software development company incorporated in Nevada.

Emvelco Corp.
Notes to Consolidated Financial Statements

- ERC owns real estate development via non-operational asset companies as follows:
 - 100% of Verge
 - 100% of Lorraine
 - 66.67% of Stanley
 - 51% of AR Huntley
 - 33.33% of AP Holdings
- AP Holdings owns 100% of Atia project.

On February 16, 2007, the Company entered into a Sale and Purchase Agreement (the "Agreement") to sell a 100% of Navigator Informatika Rt. ("Navigator"), a wholly-owned subsidiary of the Company. For the year ended December 31, 2006, the operations of Navigator have been presented as discontinued operations in the Company's consolidated financial statements (see Note 10). In 2006, the Navigator assets were examined for impairment and the net assets of Navigator were written down to fair value of \$4,034,191. The resulting impairment charge was \$5,598,438, which is presented in the financial statements in the income from discontinued operations in 2006. (See Note 10)

On May 14, 2007, the Company entered into a Stock Transfer and Assignment of Contract Rights Agreement (the "Agreement") with ERC, ERC's principal shareholder TIHG and ERC's wholly owned subsidiary Verge. Pursuant to the Agreement, the Company transferred and conveyed its 1,000 Shares (representing a 43.33% interest) (the "Shares") in ERC to TIHG to submit to ERC for cancellation and return to Treasury (see Note 16).

Based on series of agreements commencing June 5, 2007 and following by July 23, 2007 (as reported on the Company's Form 8-K filed June 11, 2007), the Company, the Company's chief executive officer Yossi Attia, and Darren Dunckel - CEO of ERC (collectively, the "Investors") entered into an Agreement (the "Upswing Agreement") with a third party, Upswing, Ltd. (also known as Appswing Ltd., hereinafter referred to as "Upswing"). Pursuant to the Upswing Agreement, the Investors invested in an entity listed on the Tel Aviv Stock Exchange - the Atia Group Limited, f/k/a Kidron Industrial Holdings Ltd (herein referred to as AGL). In addition, the Investors transferred rights and control of various real estate projects to AGL. The Investors and AGL then effected a transaction, pursuant to which the Investors and/or the Investors' affiliates acquired about 76% of the AGL in consideration of the transfer of the rights to the various real estate projects (including Verge) to AGL (the "Transaction"). Upswing, among other items, advised the Investors on the steps necessary to effectuate the contemplated transfer of real estate project rights to AGL.

Pursuant to the Notice, the Company, subject to performance under the Upswing Agreement, exercised its option (the "Sitnica Option") to purchase ERC's derivative rights and interest in Sitnica d.o.o. through ERC's holdings (one-third (1/3) interest) in AP Holdings Limited ("AP Holdings"), a company organized under the Companies (Jersey) Law 1991, which equates to a one-third interest in Sitnica d.o.o. (excluding ERC's interest in AP Holdings). The Sitnica Option was exercised in the amount of \$4,250,000, payable by reducing the outstanding loan amount owing to the Company under the Investment Agreement by \$3,550,000 and reducing the Company's deposit with Shalom Atia, Trustee of AP Holdings, by \$450,000.

Emvelco Corp.
Notes to Consolidated Financial Statements

On October 15, 2007, Emvelco delivered that certain Notice of Exercise of Options ("Notice") to ERC, TIHG, Verge and Darren C. Dunckel, individual, President of ERC and/or representative of the foregoing parties. Pursuant to the Notice, Emvelco, subject to performance under the Upswing Agreement, exercised its option (the "Verge Option") to purchase a multi-use condominium and commercial property in Las Vegas, Nevada, via the purchase and acquisition of all outstanding shares of common stock of Verge. The Verge Option was exercised in the amount of \$5,000,000 payable in cash, but in no event is the option exercisable prior to Verge breaking ground, plus conversion of \$10,000,000 loans given to Verge into Equity as consideration for 75,000 shares of Verge.

The transaction was closed on November 2, 2007. Upon closing, Verge and Sitnica became fully owned subsidiaries of AGL. The Company owns 58.3% of AGL and consolidates AGL's results in these financial statements.

As a result of the transactions above, the Company's ownership structure at December 31, 2007 was as follows:

- 58.3% of Atia Group Limited
- 10% of Micrologic
- Atia Group Limited owns:
- 100% of Verge Living Corporation

100% of Sitnica

The Company has entered into the final stages of negotiation on a term sheet which provides that the Company will purchase and receive from an entity that owns certain gas development rights, all the mineral acreage and land rights for drilling on that certain property located in Texas (the "Gas Lease Rights"). The initial purchase price shall be \$25 million as the first increment, followed by an additional 5 increments of \$5,000,000 each, contingent upon actual production of the first five wells. The purchase price may be increased up to \$250 million based on actual proven developed producing. In consideration of the actual assignment of the Gas Lease Rights, the Company shall issue a minimum of 25 million new EMVELCO shares to the Seller upon closing followed by 5 increments of 5,000,000 shares each for each of the first five wells going into production, wherein the share price shall be at an agreed upon price of \$1.00 per share in exchange for all the shares of the entity that may be transferring the Gas Lease Rights. The Company is undertaking due diligence and upon proof of good title to the Gas Lease Rights, the transaction was presented to the Board of Directors for approval on April xx, 2008. The terms and provisions of the Gas Lease Rights will be delineated in a definitive agreement. The transaction may be subject to a Proxy Statement to be delivered to Shareholders.

If the Davy Crockett Gas Company, LLC ("DCG") acquisition is consummated, DCG will become a wholly-owned subsidiary of the Company and outstanding membership interest will be exchanged by the holders thereof for shares of the Company. The shares of Emvelco common stock that holders of DCG's membership interest will be entitled to receive pursuant to the Agreement and Plan of Exchange are expected to represent approximately upon closing about 83% of the shares of the Company immediately following the consummation of the Agreement and Plan of Exchange of DCG. If the fifth well goes into production, the DCG membership interest will then own 91% of the Company. DCG headquartered in Bel Air is a newly formed LLC which holds certain development rights for gas drilling in Crockett County, Texas.

2. Summary of Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Basis of consolidation

The consolidated financial statements include the accounts of Emvelco, its majority-owned subsidiaries and all variable interest entities for which the Company is the primary beneficiary. All intercompany balances and transactions have been eliminated upon consolidation.

The consolidated financial statements include the accounts of Emvelco and the subsidiaries it controls. Control is determined based on ownership rights or, when applicable, whether the Company is considered the primary beneficiary of a variable interest entity. For the period from June 14, 2006 to December 30, 2006, ERC was a wholly owned subsidiary of Emvelco and the results of operations are presented in the consolidating financial statements. The Company owns 58.3% of AGL and consolidates AGL's results in these financial statements for the period started November 2, 2007 and ended on December 31, 2007.

Emvelco Corp.
Notes to Consolidated Financial Statements

Variable Interest Entities

Under Financial Accounting Standards Board (“FASB”) Interpretation No. 46 (revised December 2003) “Consolidation of Variable Interest Entities” (“FIN 46R”), the Company is required to consolidate variable interest entities (“VIE's”), where it is the entity’s primary beneficiary. VIE's are entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. The primary beneficiary is the party that has exposure to a majority of the expected losses and/or expected residual returns of the VIE.

Based on the Company’s analysis at the date of acquisition, as well as all other reconsideration events as defined under FIN 46R, management determined that despite the various ownership interests, Emvelco was not the primary beneficiary of ERC and all of its subsidiaries, including Lorraine, Stanley, AP Holdings, and Huntley. Therefore, Emvelco does not consolidate ERC as of December 31, 2006. The primary beneficiary of ERC is TIGH, an unrelated company, which owns 56.67% of ERC, and will therefore consolidate ERC.

Based on the transactions, which were closed on November 2, 2007, the Company owns 58.3% of Atia Group Limited (AGL). Since the company is the primary beneficiary, the financial statements of AGL are consolidated into these financial statements.

Use of estimates

The preparation of consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Fair value of financial instruments

The carrying values of cash equivalents, notes and loans receivable, accounts payable, loans payable and accrued expenses approximate fair values.

Revenue recognition

The Company applies the provisions of Securities and Exchange Commission’s (“SEC”) Staff Accounting Bulletin (“SAB”) No. 104, “Revenue Recognition in Financial Statements” (“SAB 104”), which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. The Company recognizes revenue when persuasive evidence of an arrangement exists, the product or service has been delivered, fees are fixed or determinable, collection is probable and all other significant obligations have been fulfilled.

Revenues from rent income are recognized on a straight-line basis over the term of the lease. Rent income received prior to the due date is deferred.

Revenues from property sales are recognized in accordance with Statement of Financial Accounting Standards (“SFAS”) No. 66, “Accounting for Sales of Real Estate,” when the risks and rewards of ownership are transferred to the buyer, when the consideration received can be reasonably determined and when Emvelco has completed its obligations to perform certain supplementary development activities, if any exist, at the time of the sale. Consideration

is reasonably determined and considered likely of collection when Emvelco has signed sales agreements and has determined that the buyer has demonstrated a commitment to pay. The buyer's commitment to pay is supported by the level of their initial investment, Emvelco's assessment of the buyer's credit standing and Emvelco's assessment of whether the buyer's stake in the property is sufficient to motivate the buyer to honor their obligation to it.

Emvelco Corp.
Notes to Consolidated Financial Statements

Revenue from fixed price contracts is recognized on the percentage of completion method. The percentage of completion method is also used for condominium projects in which the Company is a real estate developer and all units have been sold prior to the completion of the preliminary stage and at least 25% of the project has been carried out. Percentage of completion is measured by the percentage of costs incurred to balance sheet date to estimated total costs. Selling, general, and administrative costs are charged to expense as incurred. Profit incentives are included in revenues, when their realization is reasonably assured. Provisions for estimated losses on uncompleted projects are made in the period in which such losses are first determined, in the amount of the estimated loss of the full contract. Differences between estimates and actual costs and revenues are recognized in the year in which such differences are determined. The provision for warranties is provided at certain percentage of revenues, based on the preliminary calculations and best estimates of the Company's management.

Cost of revenues

Cost of revenues includes the cost of real estate sold and rented as well as costs directly attributable to the properties sold such as marketing, selling and depreciation. For the years ended December 31, 2007, the costs of revenues related to sale of the three real estate projects was approximately \$6.5 million. For the years ended December 31, 2006, there were no costs of revenues related to the rental income recorded.

Real estate

Real estate held for development is stated at the lower of cost or market. All direct and indirect costs relating to the Company's development project are capitalized in accordance with SFAS No. 67 "Accounting for Costs and Initial Rental Operations of Real Estate Projects". Such standard requires costs associated with the acquisition, development and construction of real estate and real estate-related projects to be capitalized as part of that project. The realization of these costs is predicated on the ability of the Company to successfully complete and subsequently sell or rent the property.

Treasury Stock

Treasury stock is recorded at cost. Issuance of treasury shares is accounted for on a first-in, first-out basis. Differences between the cost of treasury shares and the re-issuance proceeds are charged to additional paid-in capital.

Foreign currency translation

The Company considers the United States Dollar ("US Dollar" or "\$") to be the functional currency of Emvelco and its subsidiaries, with the exception of Navigator (presented as a discontinued operation), which has the Hungarian Forint as its functional currency, the majority owned subsidiary, AGL, which reports its financial statements in New Israeli Sheqel.(N.I.S) The reporting currency of the Company is the US Dollar and accordingly, all amounts included in the consolidated financial statements have been presented or translated into US Dollars.

Emvelco Corp.
Notes to Consolidated Financial Statements

For non-US subsidiaries that do not utilize the US Dollar as its functional currency, assets and liabilities are translated to US Dollars at year-end exchange rates, and income and expense items are translated at weighted-average rates of exchange prevailing during the year. Translation adjustments are recorded in "Accumulated other comprehensive income" within stockholders' equity.

Foreign currency transaction gains and losses are included in the consolidated results of operations for the periods presented.

Cash and cash equivalents

Cash and cash equivalents include cash at bank and money market funds with maturities of three months or less at the date of acquisition by the Company.

Marketable securities

The Company determines the appropriate classification of all marketable securities as held-to-maturity, available-for-sale or trading at the time of purchase, and re-evaluates such classification as of each balance sheet date in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities" ("SFAS 115"). In accordance with Emerging Issues Task Force ("EITF") No. 03-01, "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investment" ("EITF 03-01"), the Company assesses whether temporary or other-than-temporary gains or losses on its marketable securities have occurred due to increases or declines in fair value or other market conditions.

Other than those classified within discontinued operations (see Note 10), the Company did not have any marketable securities within continuing operations for the years ended December 31, 2007 and 2006.

Property and equipment

Property and equipment are stated at cost, less accumulated depreciation. The Company provides for depreciation of property and equipment using the straight-line method over the following estimated useful lives:

Software	3 years
Computer equipment	3-5 years
Other furniture equipment and fixtures	5-7 years

The Company's policy is to evaluate the appropriateness of the carrying value of long-lived assets. If such evaluation were to indicate an impairment of assets, such impairment would be recognized by a write-down of the applicable assets to the fair value. Based on the evaluation, no impairment was indicated in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144").

Equipment purchased under capital leases is stated at the lower of fair value and the present value of minimum lease payments at the inception of the lease, less accumulated depreciation. The Company provides for depreciation of leased equipment using the straight-line method over the shorter of estimated useful life and the lease term. During the years ended December 31, 2007 and 2006, the Company did not enter into any capital leases.

Emvelco Corp.
Notes to Consolidated Financial Statements

Recurring maintenance on property and equipment is expensed as incurred.

Any gain or loss on retirements and disposals is included in the results of operations in the period of the retirement or disposal. No retirements and disposals occurred for the years ended December 31, 2007 and 2006 for the Company's continuing operations.

Goodwill and intangible assets

Goodwill results from business acquisitions and represents the excess of purchase price over the fair value of identifiable net assets acquired at the acquisition date. There was goodwill recorded in the transaction with AGL totaling \$11.4 million (See Note 9). There was no goodwill related to the Company's continuing operations for the years ended December 31 2006.

In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets", goodwill is tested for impairment annually and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Management evaluates the recoverability of goodwill by comparing the carrying value of the Company's reporting units to their fair value. Fair value is determined based a market approach. For the year ended December 31, 2007, an analysis was performed on the goodwill associated with the investment in AGL, and impairment was charged against the P&L for approximately \$10.2 million.

Intangible assets that have finite useful lives, whether or not acquired in a business combination, are amortized over their estimated useful lives, and also reviewed for impairment in accordance with SFAS 144. On July 22, 2007, the Company entered into a \$2 million note payable agreement with Appswing, which included an option to convert the debt into equity. Accordingly, the Company recorded in intangible assets related to the discount on the issuance of debt. The estimated value of the conversion feature is approximately \$976,334, and will be reported as interest expense over the anticipated repayment period of the debt. There were no intangible assets related to the Company's continuing operations for the year ended December 31, 2006.

Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing income (loss) attributable to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings (loss) per share reflects the effect of dilutive potential common shares issuable upon exercise of stock options and warrants. There were no dilutive options and warrants for the year ended 2007 and 2006. Stock options and warrants convertible into 690,125 and 779,067 shares of common stock, respectively, were excluded from the computation of diluted earnings per share since such options and warrants have an exercise price in excess of the average market value of the Company's common stock during the periods.

Comprehensive income

Comprehensive income includes all changes in equity except those resulting from investments by and distributions to owners.

Business segment reporting

Based on the closing of the AGL transaction on November 2, 2007, the Company manages its continuing operations in two geographic locations, however both locations primarily manage the real estate development business and

accordingly the Company has concluded that it has one operating segment, real estate development.

Income taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets are reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Deferred tax assets and liabilities, are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Stock-based compensation

Effective January 1, 2006, the Company adopted SFAS No. 123R, "Share-Based Payment" ("SFAS 123R"). Under SFAS 123R, the Company is required to measure the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The measured cost is recognized in the statement of operations over the period during which an employee is required to provide service in exchange for the award. Additionally, if an award of an equity instrument involves a performance condition, the related compensation cost is recognized only if it is probable that the performance condition will be achieved.

Prior to the adoption of SFAS 123R, the Company accounted for stock-based employee compensation using the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and related interpretations, and chose to adopt the disclosure-only provisions of Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-based Compensation" ("SFAS 123"), as amended by SFAS No. 148, "Accounting for Stock-Based Compensation — Transition and Disclosure" ("SFAS 148"). Under APB 25, the Company did not recognize expense related to employee stock options because the exercise price of such options was equal to the quoted market price of the underlying stock at the grant date.

The Company adopted SFAS 123R using the modified prospective method, which requires the application of the accounting standard as of January 1, 2006, the first day of the Company's fiscal year 2006. Under this method, compensation cost recognized during the year ended December 31, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested, as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123 and amortized on a straight-line basis over the requisite service period, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R amortized on a straight-line basis over the requisite service period. Results for prior periods have not been restated.

As a result of adopting SFAS 123R on January 1, 2006, the Company's loss from continuing operations before income taxes and loss from continuing operations are \$270,695 higher and net income is \$270,695 lower than if it continued to account for share-based compensation under APB 25. Basic and diluted earnings per share are \$0.05 lower than if the Company continued to account for share-based compensation under APB 25. The adoption of SFAS 123R had no impact on cash flows.

See Note 14 for a further discussion on stock-based compensation plans.

The Company estimates the fair value of each option award on the date of the grant using the Black-Scholes option valuation model. Expected volatilities are based on the historical volatility of the Company's common stock over a

period commensurate with the options' expected term. The expected term represents the period of time that options granted are expected to be outstanding and is calculated in accordance with SEC guidance provided in the SAB 107, using a "simplified" method. The risk-free interest rate assumption is based upon observed interest rates appropriate for the expected term of the Company's stock options.

The Company did not grant any share-based payments during the year ended December 31, 2007.

F-14

Emvelco Corp.
Notes to Consolidated Financial Statements

The following table shows total non-cash stock-based employee compensation expense included in the consolidated statement of operations for the years ended December 31, 2007 and 2006:

Categories of cost and expenses	Year ended December 31, 2007	Year ended December 31, 2006
Compensation and related costs	\$ 36,817	\$ 21,241
Consulting, professional and directors fees	43,416	249,454
Total stock-based compensation expense	\$ 80,233	\$ 270,695

There was no expense related to options and warrants granted to consultants recorded in the year ended December 31, 2007. In addition to stock-based compensation expense for employees and directors, the Company recognized compensation expense of \$70,511 in the year ended December 31, 2006 related to options and warrants granted to consultants. Therefore, total stock based compensation for both employees and consultants was \$80,233 and \$340,206 for the years ended December 31, 2007 and 2006, respectively.

Recently Issued But Not Yet Adopted Accounting Standards

In July 2006, the FASB issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48") as an interpretation of SFAS No. 109, "Accounting for Income Taxes". This Interpretation clarifies the accounting for uncertainty in income taxes recognized by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on de-recognition of tax benefits previously recognized and additional disclosures for unrecognized tax benefits, interest and penalties. The evaluation of a tax position in accordance with this Interpretation begins with a determination as to whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. A tax position that meets the more-likely-than-not recognition threshold is then measured at the largest amount of benefit that is greater than 50 percent likely of being realized upon ultimate settlement for recognition in the financial statements. The Company adopted FIN 48 on January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the FASB having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. This Statement is required to be adopted by the Company on July 1, 2008. The Company is currently assessing the impact of the adoption of this Statement.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities — including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. This statement provides entities the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. Management is currently evaluating the impact of adopting this Statement.

Emvelco Corp.
Notes to Consolidated Financial Statements

3. Line of Credit and Restricted Cash

The Company's real estate investment operations require substantial up-front expenditures for land development contracts and construction. Accordingly, the Company requires a substantial amount of cash on hand, as well as funds accessible through lines of credit with banks or third parties, to conduct its business. The Company has financed its working capital needs on a project-by-project basis, primarily with loans from banks and debt via the All Inclusive Trust Deed Agreement (AITDA), and with the existing cash of the Company.

On August 28, 2006, the Company entered into a \$4,000,000 Revolving Line of Credit ("line of credit") with a commercial bank. As security for this credit facility, the Company deposited \$4,000,000 into a certificate of deposit ("CD") as collateral for a two year period. The CD earns interest at a rate of 5.25% annually, and any interest earned on the CD is restricted from withdrawal and must remain in the account for the entire term.

On November 21, 2006, the Company deposited an additional \$4,000,000 into another CD with the same restrictions on withdrawal. This CD matures on November 21, 2008 and the deposit bears an interest rate of 5.12% annually.

The interest rate on the line of credit is 5.87% annually.

As of December 31, 2007, the outstanding balance on the line of credit including interest was \$8,401,154 and the balance of the related certificate of deposit including interest was \$8,518,985.

At December 31, 2007, the outstanding loan balances were as follows:

Project name	Bank name/financial institution	Principal Amount	Annual Interest Rate	Expiration
General financing (line of credit)	EastWestBank	\$ 8,000,000	5.87%	2008
Total principal amounts of loans		\$ 8,000,000

Long term portion of loans		\$ 8,000,000		

The Company's debt repayment schedule, excluding interest, as of December 31, 2007 is as follows:

As of December 31, 2007, the Company has accrued and recorded that payment as a reduction to this loan receivable balance. The Company's consideration paid to acquire 58.3% of AGL's outstanding stock was as follows:

As such, the Company recorded an impairment of goodwill at December 31, 2007 in the amount of \$10,245,377

Emvelco Corp.
Notes to Consolidated Financial Statements

For U.S. Federal income tax purposes, the Company had unused net operating loss carry forwards at December 31, 2006 of approximately \$15.2 million available to offset future taxable income. From the \$15.2 million of losses, \$1.2 million expire in various years from 2008-2010, \$1.6 million expires in 2011, and the remaining \$12.4 million expire in various years from 2016 through 2026. In addition, the Company has a capital loss carryover for US income tax purposes of approximately \$5.4 million. \$2.1 million of the loss is from 2004 and will expire after 2009. The remainder of the capital loss, \$3.3 million, will expire after 2010.

In May 2006, the Company sold Euroweb Hungary and Euroweb Romania, which resulted in the utilization of approximately \$10M of the capital loss carry forwards and net operating loss carry forwards. As further discussed in Note 10, the results of operations of Euroweb Hungary and Euroweb Romania are presented as discontinued operations in the consolidated statements of operations.

The Tax Acts of some jurisdictions contain provisions which may limit the net operating loss and capital loss carry forwards available to be used in any given year if certain events occur, including significant changes in ownership interests. As a result of various equity transactions, management believes the Company experienced an "ownership change" in the second half of 2006, as defined by Section 382 of the Internal Revenue Code, which limits the annual utilization of net operating loss carry forwards incurred prior to the ownership change. As calculated, the Section 382 limitation does not necessarily impact the ultimate recovery of the U.S. net operating loss; although it will defer the realization of the tax benefit associated with certain of the net operating loss carry forwards.

The Company recorded a full valuation allowance against the net deferred tax assets. In assessing deferred tax assets, management considers whether it is more likely than some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences and tax loss carry forwards become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes that it is more likely than not that the Company will not realize the benefit of these deductible differences, net of existing valuation allowances at December 31, 2007.

Undistributed earnings of the Company's indirect investment into foreign subsidiaries are currently not material. Those earnings are considered to be indefinitely reinvested; accordingly, no provision for US federal and state income tax has been provided thereon. Upon repatriation of those earnings, in the form of dividends or otherwise, the Company would be subject to both U.S. income taxes (subject to an adjustment for foreign tax credits) and withholding taxes payable to the various foreign countries. Determination of the amount of unrecognized deferred U.S. income tax liability is not practicable due to the complexities associated with its hypothetical calculation.

Taxation of companies in Israel:

The Company's subsidiary AGL is taxed in Israel under the provisions of the Israel Tax Ordinance (New Version) 1961 (hereinafter - the "Ordinance"). Until 31 December 2007, AGL was subject to the Income Tax Law (Inflationary Adjustments) - 1985, whereby the results of operations for tax purposes are measured on a "real" basis" by adjusting the income for changes in the ICPI. Commencing on 1 January 2008, this law has been cancelled and transition provisions were set out. Accordingly, the results of operations will be measured for tax purposes on a nominal basis. Tax rates applicable to the income of the Company: On July 25, the Israeli parliament passed an amendment to the Income Tax Ordinance (No. 147) - 2005 (hereinafter - the "Amendment") which stipulates, among other things, that the corporate tax rate will be gradually reduced to the following tax rates: 2006 - 31%; 2007 - 29%; 2008 - 27%; 2009 -

26%; 2010 and thereafter - 25%.

Taxation in Croatia (Sitnica)

Corporate tax - Regular income is taxed in Croatia (hereinafter - "Croatian Corporate Tax") at a rate of 20%. Therefore, income from construction, sale or rental of real estate in Croatia is liable for Croatian Corporate Tax at this rate. Tax losses may be carried forward over a five-year period but they cannot be carried back to prior periods. There is no limit to the amount of the loss that can be carried forward.

Recognition of financing expenses for tax purposes - Financing expenses are tax deductible in Croatia. However, a distinction is made between loans from third parties and loans granted or guaranteed by related parties. According to the thin financing rules in Croatia, the company may not take into account for tax purposes interest charges on loans received from foreign shareholders holding at least 25% of the share capital or voting rights in the Company, if the amount of the loan is four times the share of the shareholder in the capital of the borrower at any given point in time during the tax period. This law applied to loans granted by a third party but guaranteed by a shareholder.

VAT and purchase tax - The sale of apartments and commercial properties is subject to VAT of 22%. However, the part of the purchase price attributed to land is exempt from VAT, but is subject to purchase tax of 5%. According to Croatian law, the purchaser is required to pay the purchase tax and the VAT. This law is also applicable to the sale of buildings for business purposes.

Notes to Consolidated Financial Statements

On April 26, 2006, a lawsuit was filed in the Delaware Court of Chancery (the "Court") by a stockholder of the Company against the Company, each of the Company's Directors and CORCYRA d.o.o., a stockholder of the Company that beneficially owned 39.81% of the Company's outstanding common stock at the date of the lawsuit. The Complaint is entitled Laurence Paskowitz v. Csaba Toro et al., C.A. No. 2110-N and was brought individually, and as a class action on behalf of certain of the Company's common stockholders, excluding defendants and their affiliates. The plaintiff alleged that the proposed sale of 100% of the Company's interest in the Company's two Internet and telecom related operating subsidiaries (the "Subsidiaries") constitutes a sale of substantially all of the Company's assets and required approval by a majority of the voting power of the Company's outstanding common stock under Section 271 of the Delaware General Corporation Law. The plaintiff also alleged the defendants breached their fiduciary duties in connection with the sale of the Subsidiaries, as well as the disclosures contained in the proxy statement filed on April 24, 2006. The plaintiff applied for a temporary restraining order seeking to enjoin the special meeting on May 15, 2006.

The Company denies any and all allegations of wrongdoing; however, in the interests of conserving resources, on April 28, 2006, the parties to the litigation entered into a Memorandum of Understanding ("MOU") providing for, subject to confirmatory discovery by plaintiff, the negotiation of a formal stipulation of a settlement of the litigation. Pursuant to the MOU, the Board of Directors of the Company agreed to: (i) increase the vote required to approve the sale of 100% of the Company's interest in the Subsidiaries, (ii) revise the disclosure within the Proxy Statement to eliminate the bonus of up to US \$400,000, which the Compensation Committee of the Company had the option to pay to select members of management, as the Board of Directors had previously elected to terminate the ability to pay such bonus and (iii) provide supplemental disclosure as contained in the Supplemental Proxy Statement to be mailed to stockholders and filed with the SEC on May 3, 2006.

The parties entered into a stipulation of settlement on April 3, 2007. The settlement will provide for dismissal of the litigation with prejudice and is subject to Court approval. As part of the settlement, the Company has agreed to attorneys' fees and expenses to plaintiff's counsel in the amount of \$151,000. Pursuant to the stipulation of settlement, the Company sent out notices to the members of the class on May 3, 2007. A fairness hearing took place on June 8, 2007, and, as stated above, the Order was entered on June 8, 2007.

The Company filed a complaint in the Superior Court for the County of Los Angeles, against a foreign attorney. The case was filed on February 14, 2007, and service of process has been done. In the complaint the Company is seeking judgment against this attorney in the amount of approximately 250,000 Euros (approximately \$316,000 as of the date of actual transferring the funds), plus interest, costs and fees. Defendant has not yet appeared in the action. The Company believes that it has a meritorious claim for the return of monies deposited with defendant in a trust capacity, and, from the documents in the Company's possession, there is no reason to doubt the validity of the claim. During April 2007 defendant returned \$92,694 (70,000 Euros at the relevant time) which netted to \$72,694 post legal expenses; the Company has granted him a 15-day extension to file his defense. Post the extension and in lieu of not filing a defense, the Company filed for a default judgment. On October 25, 2007 the Company obtained a California Judgment by court after default against the attorney for the sum of \$249,340.65. However, management does not have any information on the collectibles of said judgment that entered in court.

Verge, a wholly owned subsidiary of the Company's subsidiary via AGL, is involved in legal proceedings in connection with the ongoing Chapter 11 bankruptcy proceedings of Prudential Americana LLC of Las Vegas, NV. Through February 29, 2008, Prudential is the broker of record for the condominium project being developed by Verge. Verge currently has approximately \$50,000 on deposit as an advanced payment of the brokerage commissions. Verge presently owes, according to Prudential, \$70,000 in monthly progress billings and Verge contends that it is entitled to offset the \$50,000 against these progress billings. Verge believes Prudential breached fiduciary duties in

connection with Prudential's performance as a broker and has filed a Proof of Claim in Chapter 11 proceedings in excess of \$9 million. As of today, the Company does not believe it will have a material liability in relation to these charges.

On November 21, 2007 LM Construction filed a demand for arbitration proceeding against the Company in connection with amounts due for general contracting services provided by them during the construction of the Company Sales Center. The Company agreed to enter into arbitration, deny any wrongdoing and counterclaim damages. Amount in dispute are approximately \$67,585 and are included in other current liabilities on the balance sheet.

Sub-Prime Crisis

The mortgage credit markets in the U.S. have been experiencing difficulties as a result of the fact that many debtors are finding it difficult to obtain financing (hereinafter - the "Sub-prime crisis"). The sub-prime crisis resulted from a number of factors, as follows: an increase in the volume of repossessions of houses and apartments, an increase in the volume of bankruptcies of mortgage companies, a significant decrease in the available resources for purposes of financing through mortgages, and in the prices of apartments. The financing of the project of the Verge subsidiary is contingent upon the future impact of the sub-prime crisis on the financial institutions operating in the U.S. The sub-prime crisis may have an impact on the ability of the Verge subsidiary to procure the financing required to complete its construction project and on the terms of the financing, if procured, and it may also impact in the ability of the customers of the Company to procure mortgages, if necessary, and on the terms under which the mortgages will be obtained.
