The information appearing under the caption "Description of the Securities We Are Offering – Description of the Warrants" commencing on page S-18 of the Prospectus is hereby supplemented and amended by adding the information below. All references contained in the Prospectus relating to the Series A Warrants and the Series C Warrants shall be deemed by virtue of the filing of this Supplement to refer to the Amended and Restated Series A Warrants and the Amended and Restated Series C Warrants, respectively.

Amendment to Series A and Series C Warrants

On November 22, 2010, IsoRay, Inc., a Minnesota corporation (the "Company"), entered into a Securities Purchase Agreement (the "Agreement") with a certain purchaser identified on the signature pages thereto (the "Buyer"). Pursuant to the terms of the Agreement, the Company sold (the "Offering") to the Buyer, in a registered offering, an aggregate of 2,250,000 shares of the Company's common stock, par value \$0.001 per share (the "Shares"). As part of the transaction, the Buyer also received four series of warrants (collectively, the "Warrants") - (i) Series A Warrants in an amount equal to \$500,000 divided by the lower of \$1.50 and 90% of the average of the 3 lowest volume weighted average prices out of the 15 trading days preceding the exercise date (with a floor of \$0.75 for a maximum of 666,667 shares of common stock issuable upon exercise of the Series A Warrants); (ii) Series B Warrants in an amount equal to 25% of the number of shares of common stock issued at the Closing, or Series B Warrants exercisable for 562,500 shares of common stock; (iii) Series C Warrants in an amount equal to 125% of the number of shares of common stock issued at the Closing, or Series C Warrants exercisable for 2,812,500 shares of common stock; and (iv) Series D Warrants in an amount equal to 125% of the number of shares of common stock issued at the Closing, or Series D Warrants exercisable for 2,812,500 shares of common stock but the Series D Warrants will only be exercisable to the extent that any of the Series C Warrants may not be exercised due to NYSE AMEX shareholder approval requirements limiting the number of overall below-market securities issuable to no greater than 4,418,026 shares of common stock. As a result of this limitation, the total number of Series A, B and C Warrants that may be issued will not exceed Warrants exercisable for an aggregate of 2,168,026 shares of common stock, and Series D Warrants are expected to be issued to purchase 1,873,641 shares of common stock, assuming the Series A Warrants are exercisable for the maximum number of shares of common stock.

The Company and the Buyer have elected to amend and restate the Series A and Series C Warrants pursuant to an Amendment Agreement entered into between the parties as of December 27, 2010 (the "Warrant Amendment Agreement"). The amended and restated Series A and Series C Warrants (collectively, the "Amended Warrants") to be revised pursuant to the Warrant Amendment Agreement contain the following revisions – (i) the Series A Warrant's expiration date is extended from 90 days to 120 days; (ii) the Series C Warrant's anti-dilution provisions are deleted and replaced with a prohibition on dilutive issuances without the warrant holder's consent; and (iii) the Series C Warrant's provision requiring payment of a cash fee upon failure to timely deliver the warrant shares has been deleted.

As a result of the extension of the expiration date of the Series A Warrant, the Company may now require the exercise of the amended Series A Warrant only on the 120th day after issuance subject to meeting certain equity conditions and to 90% of the average of the lowest three weighted average prices of the common stock during the 15 consecutive trading days preceding the expiration date being in excess of \$0.75.
