Article 43 to the Company's Articles of Association refers to the compliance of the shareholders of the Company with the License which is defined in Article 1.1 of the Articles of Association to mean the General License for the Provision of Mobile Radio Telephone Services issued by the Ministry of Communications dated April 7, 1998 only.

Since the Company has applied to the Ministry of Communications to grant additional telecom licenses, it is proposed to amend Article 43 to the Company's Articles of Association so that it will cover the obligation of the shareholders and the Company to comply with the terms of the License (as defined in the Articles of Association) and any other telecommunications license(s) held by the Company from time to time. The amendments to Article 43 to the Articles of Association are attached hereto as Annex F .

It is proposed that at the AGM the following resolution be adopted:

RESOLVED, to approve the amendments to Article 43 to the Articles of Associations of the Company, as attached hereto as Annex F .

The affirmative vote of the holders of 75% of the Ordinary Shares present, in person or by proxy, and voting on the matter is required for this amendment to our Articles of Association.

The Board of Directors recommends a vote FOR approval of this proposed resolution.

RESTRICTIONS ON VOTING RIGHTS

Partner conducts its operations pursuant to a license granted to Partner by the Minister of Communications of the State of Israel. Partner's Articles of Association and, with respect to shareholders other than shareholders of Partner prior to its public offering, Partner's license contain provisions that may cause the suspension of voting rights of the holders of Ordinary Shares or ADSs if such voting rights would breach the ownership limits contained in our license. These limits prohibit the transfer or acquisition of 10% or more of Partner's means of control and acquisition of control of the Company without the consent of the Minister of Communications in Israel, and restrict cross-control and cross-ownership of other mobile telephone operators in Israel, and shareholdings and agreements which may reduce or harm competition. Ordinary Shares or Ordinary Shares represented by ADSs held in breach of these limits may be considered as dormant shares. Notwithstanding anything to the contrary in this Proxy Statement, dormant shares will not bear any rights to which the holders would otherwise be entitled, other than the right to receive dividends and other distributions to shareholders (including the right to participate in rights offerings). Specifically, the holders of dormant shares will not have voting rights with respect to their dormant shares, nor will they have the right to participate in general meetings of shareholders.

Any shareholder seeking to vote at the AGM must notify the Company prior to the vote, or, if the vote is by deed of vote, must so indicate on the deed of vote, if any of the shareholder's holdings in Partner or the shareholder's vote requires the consent of the Minister of Communications due to a breach by the shareholder of the restrictions on the transfer or acquisition of means of control or acquisition of control of Partner, or the provisions regarding cross-ownership or cross-control of other mobile telephone operators in Israel, in each case as specified in sections 21 and 23 of Partner's license. If a shareholder does not provide such notification, the shareholder shall not vote and, if the shareholder has voted, his or her vote shall not be counted.

The translation was made solely for convenience. The translated dollar figures should not be construed as a representation that the Israeli currency amounts actually represent, or could be converted into, dollars.

Accounting principles

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP).

b. Principles of consolidation:

- 1) The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary (together - the Group).
- 2) Intercompany balances between the Company and its subsidiary have been eliminated.

c. Inventories

Inventories of cellular telephones (handsets) and accessories are stated at the lower of cost or estimated net realizable value. Cost is determined on the first-in, first-out basis.

The Company determines its allowance for inventory obsolescence and slow moving inventory, based upon expected inventory turnover, inventory aging and current and future expectations with respect to product offerings.

d. Non-marketable securities

These investments are stated at cost, less provision for impairment losses, see note 2.

f. License and deferred charges:

1) License:

The license (see also 1a(2) above) is stated at cost and is amortized by the straight-line method over the utilization period of the license starting January 1, 1999.

Following the extensions of the license (as described in note 1a(2) above) the unamortized balance of the Company's existing license as well as the cost of the additional spectrum put into service are amortized on a straight-line basis over the period ending in 2022.

2) Deferred charges:

a) Costs relating to the obtaining of long-term credit lines are deferred and amortized using the effective interest rate determined for the borrowing transactions over the life of line of credit.

b) Issuance costs relating to Notes payable (see note 6) are amortized using the effective interest rate stipulated for the Notes.

g. Impairment of long-lived assets

The Company has adopted Statement of Financial Accounting Standards No. 144 (FAS 144), Accounting for the Impairment or Disposal of Long-Lived Assets. FAS 144 requires that long-lived assets, including certain intangible assets, to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Under FAS 144, if the sum of the expected future cash flows (undiscounted and without interest charges) of the long-lived assets is less than the carrying amount of such assets, an impairment loss would be recognized, and the assets written down to their estimated fair values.

h. Cash equivalents

The Company considers all highly liquid investments, which include short-term bank deposits (up to 3 months from date of deposit) that are not restricted as to withdrawal or use, to be cash equivalents.

i. Comprehensive income

The Company has no comprehensive income components other than net income.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES (continued):

j. Revenue recognition

Revenues from services primarily consist of charges for airtime, roaming and value added services provided to the Company's customers, are recognized upon performance of the services, net of credits and adjustments for services discounts. Revenues from pre-paid calling cards are recognized upon customer's usage of the cards. Revenues from sale of handsets and accessories are recognized upon delivery and the transfer of ownership to the subscriber.

Emerging Issues Task Force (EITF) Issue 00-21, Revenue Arrangements with Multiple Deliverables addresses the accounting, by a vendor, for contractual arrangements in which multiple revenue-generating activities will be performed by the vendor. It is effective prospectively for all arrangements entered into in fiscal periods beginning after June 15, 2003. EITF Issue 00-21 addresses when and, if so, how an arrangement involving multiple deliverables should be divided into separate units of accounting. The Company adopted EITF Issue 00-21 in the year ended December 31, 2003. The adoption had no impact on its financial position and results of operations. Based on EITF 00-21, the Company determined that the sale of handsets with accompanying services constitutes a revenue arrangement with multiple deliverables. Accordingly consideration received for handsets, up to their fair value, that is not contingent upon the delivery of additional items (such as the services), is recognized as equipment revenues, when revenue recognition criteria for the equipment as stated above are met. Consideration for services is recognized as services revenues, when earned.

k. Concentration of credit risks allowance for doubtful accounts

The Company's revenues are derived from a large number of customers. Accordingly, the Company's trade balances do not represent a substantial concentration of credit risk. An appropriate provision for doubtful accounts is included in the accounts of the Company. The allowance charged to expenses (including bad debts), determined as a percentage of specific debts doubtful of collection, based upon historical experience, for the years ended December 31, 2003, 2004 and 2005 totaled NIS 15,601,000, NIS 21,256,000 and NIS 28,739,000 (\$ 6,244,000) (see note 13a), respectively.

The cash and cash equivalents as of December 31, 2005 are deposited mainly with leading Israeli banks. Therefore, in the opinion of the Company, the credit risk inherent in these balances is remote.

During 2003 and 2004, the Company factored most of its long-term trade receivables resulting from sales of handsets. The factoring was made through clearing companies, on a non-recourse basis. The sale of accounts receivable was recorded by the Company as a sales transaction under the provisions of Statement of Financial Accounting Standards No.140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities .

The resulting costs were charged to financial expenses-net , as incurred. During the years ended December 31, 2003, 2004 and 2005, the Company factored NIS 295,827,000, NIS 331,611,000 and NIS 7,834,000 (\$1,702,000), respectively, from long-term trade receivables.

NOTE 1 SIGNIFICANT ACCOUNTING POLICIES (continued):

l. Handsets warranty obligations

The provision for handsets warranty obligations is calculated at the rate of 1.5%-3.5% of the cost of the handsets sold, see note 13c. The Company has entered into several agreements under which the supplier does not provide any warranty but rather provides additional handsets to satisfy its warranty obligation. In these cases, the Company provides for warranty costs at the same time as the revenues are recognized.

m. Advertising expenses

Advertising expenses are charged to the statement of operations as incurred. Advertising expenses for the years ended December 31, 2003, 2004 and 2005 totaled NIS 99,061,000, NIS 115,909,000 and NIS 97,651,000 (\$ 21,215,000), respectively.

n. Deferred income taxes

Deferred taxes are determined utilizing the asset and liability method, based on the differences between the amounts presented in these financial statements and those taken into account for tax purposes, in accordance with the applicable tax laws. Valuation allowances are provided if, based upon the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized (see note 10d).

Deferred tax assets and liabilities are presented as current or long-term items in accordance with the nature of assets or liabilities to which they relate. Deferred tax assets in respect of carryforward tax losses are presented as current or long-term assets, according to their expected utilization date.

o. Foreign currency transactions and balances

Balances in, or linked to, foreign currency are stated on the basis of the exchange rates prevailing at balance sheet dates. For foreign currency transactions included in the statements of operations, the exchange rates at transaction dates are used. Transaction gains or losses arising from changes in the exchange rates used in the translation of such balances are carried to financial income or expenses.

p. Derivative financial instruments (derivatives)

The Company has adopted FAS 133, as amended, which establishes accounting and reporting standards for derivatives, including certain derivatives embedded in other contracts, and for hedging activities. Under FAS 133, all derivatives are recognized on the balance sheet at their fair value. On the date that the Company enters into a derivative contract, it designates the derivative, for accounting purposes, as: (1) hedging instrument, or (2) non-hedging instrument. Any changes in fair value are to be reflected as current gains or losses or other comprehensive gains or losses, depending upon whether the derivative is designated as a hedge and what type of hedging relationship exists. Changes in fair value of non-hedging instruments are carried to financial expenses-net on a current basis. To date, the Company did not have any contracts that qualify for hedge accounting under FAS 133.

The Company occasionally enters into commercial (foreign currency) contracts in which a derivative instrument is embedded . This embedded derivative is separated from the host contract and carried at fair value when (1) the embedded derivative possesses economic characteristics that are not clearly and closely related to the economic characteristics of the host contract and (2) a separate, stand-alone instrument with the same terms would qualify as a derivative instrument (see note 12).

q. Earning Per Share (EPS)

Basic EPS is computed by dividing net income by the weighted average number of shares outstanding during the years.

Diluted EPS reflects the increase in the weighted average number of shares outstanding that would result from the assumed exercise of employee stock options, calculated using the treasury-stock-method.

r. Stock based compensation

The Company accounts for employee stock based compensation under the intrinsic value model in accordance with Accounting Principles Board Opinion No. 25 Accounting for Stock Issued to Employees (APB 25) and related interpretations. In accordance with FAS 123 Accounting for Stock-Based Compensation (FAS 123), the Company discloses pro forma data assuming the group had accounted for employee stock option grants using the fair value-based method defined in FAS 123. As to the Recently issued revised FAS 123, see t. below. Compensation cost for employee stock option plans is charged to shareholders' equity, on the date of grant of the options, under deferred compensation costs and is then amortized over the vesting period using the accelerated method of amortization.

The weighted average fair value of options granted using the Black & Scholes option-pricing model during 2003, 2004 and 2005 is NIS 26.96, NIS 18.98 and NIS 21.36 (\$4.64), respectively. The fair value of each option granted is estimated on the date of grant based on the following weighted average assumptions: weighted average dividend yield of 0%; expected volatility of 62%, 55% and 58%, respectively; risk-free interest rate: 2003 4.5%, 2004 4%, 2005 3.5%; weighted expected life: 2003 9 years; 2004 and 2005 5 years.

s. Asset retirement obligations

The Company has adopted as of January 1, 2003 FAS 143 Accounting for Asset Retirement Obligations (FAS 143). FAS 143 requires that an asset retirement obligation (ARO) associated with the retirement of a tangible long lived asset be recognized as a liability in the period in which it is incurred and becomes determinable (as defined by the standard), with an offsetting increase in the carrying amount of the associated asset. The cost of the tangible asset, including the initially recognized ARO, is depreciated such that the cost of the ARO is recognized over the useful life of the asset.

The ARO is recorded at fair value, and the accretion expense will be recognized over time as the discounted liability is accreted to its expected settlement value. The fair value of the ARO is measured using expected future cash out flows discounted at the Company's credit-adjusted risk-free interest rate.

The Company is subject to asset retirement obligations associated with its cell sites operating leases. These lease agreements contain clauses requiring restoration of the leased site at the end of the lease term, creating asset retirement obligations, see also

t. Recently issued accounting pronouncements:

1) FAS 123 (revised 2004) Share-based Payment

In December 2004, the Financial Accounting Standards Board (FASB) issued the revised Statement of Financial Accounting Standards (FAS) No. 123, Share-Based Payment (FAS 123R), which addresses the accounting for share-based payment transactions in which the company obtains employee services in exchange for (a) equity instruments of the company or (b) liabilities that are based on the fair value of the company's equity instruments or that may be settled by the issuance of such equity instruments. In March 2005, the SEC issued Staff Accounting Bulletin No. 107 (SAB 107) regarding the SEC's interpretation of FAS 123R.

FAS 123R eliminates the ability to account for employee share-based payment transactions using APB Opinion No. 25 Accounting for Stock Issued to Employees, and requires instead that such transactions be accounted for using the grant-date fair value based method. This Statement will be effective for public companies at the beginning of their next fiscal year that begins after June 15, 2005 (first quarter of 2006 for the Company). Early adoption of FAS 123R is encouraged. This Statement applies to all awards granted or modified after the Statement's effective date. In addition, compensation cost for the unvested portion of previously granted awards that remain outstanding on the Statement's effective date shall be recognized on or after the effective date, as the related services are rendered, based on the awards grant-date fair value as previously calculated for the pro-forma disclosure under FAS 123.

The Company expects that upon the adoption of FAS 123R, as of January 1, 2006, the Company will apply the modified prospective application transition method, as permitted by the Statement. Under such transition method, upon the adoption of FAS 123R, the Company's financial statements for periods prior to the effective date of the Statement will not be restated.

Compensation expense for outstanding awards for which the requisite service had not been rendered as of the effective date will be recognized over the remaining service period using the compensation cost calculated for pro-forma disclosure purposes under FAS 123. At December 31, 2005, unamortized compensation expenses related to outstanding unvested options, as determined under FAS 123, that the Company expect to record during 2006 was approximately NIS 20 million (net of forfeited rate).

t. Recently issued accounting pronouncements (continued):

- 2) FAS 154 Accounting Changes and Error Corrections a replacement of Accounting Principles Board Opinion (APB) No. 20 and FASB Statement No. 3.

In June 2005, the Financial Accounting Standards Board issued FAS No. 154,

"Accounting Changes and Error Corrections - a replacement of APB Opinion No. 20

and FASB Statement No. 3". This Statement generally requires retrospective application to prior periods financial statements of changes in accounting principle. Previously, Opinion No. 20 required that most voluntary changes in accounting principle were recognized by including the cumulative effect of changing to the new accounting principle in net income of the period of the change.

FAS 154 applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. This Statement shall be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 (Year 2006 for the company). The Company does not expect the adoption of this statement will have a material impact on the Company's results of operations, financial position or cash flows.

NOTE 2 **INVESTMENTS IN NON-MARKETABLE SECURITIES**

The Company and its subsidiary had entered into agreements with a number of technological companies in the early stages of development of cellular products (hereafter the start-up companies). Under the agreements, the Group supplied infrastructure and support services which the start-up companies need to develop their products, in consideration of options and shares in those companies.

Based on the financial position of the companies, management is of the opinion that the fair value of the securities granted to the Group, on the grant date and as of December 31, 2005 is not material.

The Group's holdings in the start-up companies (current and fully diluted) do not exceed 15% of the share capital of any one of them and does not give the Group significant influence over any one of them. Therefore, the investments therein are presented on a cost basis.

During 2003, the Company recorded an impairment loss of approximately NIS 3.5 million, in respect of the above investments.

As of December 31, 2004 and 2005, the balance of these investments was fully impaired.

NOTE 5 LONG-TERM BANK LOANS

On April 14, 2005 the Company entered into a new \$550 million bank credit facility. The facility is divided into two tranches: a six year \$450 million term loan facility (Facility A) and a six year \$100 million revolving loan facility (Facility B), and is secured by a first ranking floating charge on the Company's assets. Bank Hapoalim B.M., Bank Leumi Le-Israel B.M. and Israel Discount Bank Ltd. are providing the facility, in which United Mizrahi Bank Ltd. is also participating. The new credit facility replaced the Company's previous facility.

With effect May 1, 2005, the Company exercised an option to reduce Facility A to \$150 million (in addition to an advance of approximately \$25 million carried over from the Company's previous facility, which on balance sheet date, was reduced to \$18 million), and to change the final maturity date of both facilities to September 1, 2009. As a result, the total maximum availability under the new credit facility is approximately \$268 million.

The amount drawn from Facility A is to be repaid in yearly installments with a final maturity of September 1, 2009. Facility B may be drawn and repaid until September 1, 2009.

The credit facility is a dollar denominated facility, and advances may be drawn in different currencies, see c. below.

NOTE 7 **LIABILITY FOR EMPLOYEE RIGHTS UPON RETIREMENT:**

- a. Israeli labor laws and agreements require payment of severance pay upon dismissal of an employee or upon termination of employment in certain other circumstances. The Company's severance pay liability to its employees, mainly based upon length of service and the latest monthly salary (one month's salary for each year worked), is reflected by the balance sheet accrual under the liability for employee rights upon retirement . The Company records the liability as if it was payable at each balance sheet date on an undiscounted basis. The liability is partly funded by purchase of insurance policies and the amounts funded are included in the balance sheet under investments and long-term receivables, as funds in respect of employee rights upon retirement . The policies are the Company's assets and under labor agreements, subject to certain limitations, they may be transferred to the ownership of the beneficiary employees.
- b. The severance pay expenses for the years ended December 31, 2003, 2004 and 2005 were approximately NIS 20 million, NIS 27 million and NIS 24 million (approximately \$ 5 million), respectively.
- c. Cash flows information regarding the company's liability for employee rights upon retirement:
 - 1. The Company expects to contribute NIS 21 million (\$ 4.6 million) in respect of severance pay in 2006.
 - 2. Due to the relatively young age of the Company's employees, benefit payments to employees reaching retirement age in the next 10 years, are not material. The amounts were determined based on the employees' current salary rates and the number of service years that will accumulate upon their retirement date. These amounts do not include amounts that might be paid to employees who will cease working for the Company before their normal retirement age.

The Company is committed to pay royalties to the Government of Israel on its income from cellular services as defined in the Regulations (see below), which includes all kinds of income of the Company from the granting of Bezeq services under the license including airtime, roaming services and non-recurring connection fees, but excluding income transferred to another holder of a communications license and deducting bad debts, payments to another communication licensee in respect of interconnection, payments for roaming services to foreign operators and expenses related to the sale of equipment.

On June 18, 2001, the Knesset's Finance Committee approved the Telecommunications (Royalties) Regulations, 2001 (hereafter the Regulations). NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 8 COMMITMENTS AND CONTINGENCIES (continued):

At this stage, and until the claim is recognized as a class action, the Company and its legal council are unable to evaluate the probability of success of such claim, and therefore no provision has been made.

In addition the Company and its legal council are of the opinion that even if the request to recognize this claim as a class action is granted, and even if the plaintiff's arguments are accepted, the outcome of the claim will be significantly lower than the abovementioned amount.

- 2) On April 13, 2003, a claim was filed against the Company and other cellular telecommunication companies, together with a request to recognize this claim as a class action, for alleged violation of antitrust law, alleging that no fee should have been collected for incoming SMS messages or alternatively, that the fee collected is excessive and that it is a result of illegal co-operation between the defendants. The amount of the claim against all the defendants is estimated at approximately NIS 90 million (or according to the claimant's response NIS 100 million per year until 1.3.2005). The Company filed its response on October 1, 2003. The claimants have filed their response to the Company's response on July 12, 2005. A hearing is scheduled for April 26, 2006.

At this stage, no hearings have taken place and unless and until the claim is recognized as a class action, the Company and its legal council are unable to evaluate the probability of success of such claim, and therefore no provision has been made.

- 3) The Company does not have building permits for many of its cell sites and as a result is involved in numerous legal actions (including criminal proceedings against officers and directors) relating to this issue.

Most of these proceedings have been settled under plea bargain arrangements, whereby the Company has paid fines of insignificant amounts.

Management, based upon current experience and the opinion of legal counsel, does not believe that these legal actions will result in significant costs to the Company. The accounts do not include a provision in respect thereof.

- 4) Section 197 of the Building and Planning Law states that a property owner has the right to be compensated by a local planning committee for reductions in property value as a result of a new building plan. On January 3, 2006, the National Council for Planning and Building published an interim decision conditioning the issuance of cell site permits by local planning and building councils upon indemnification, by the cellular operators, against reduction in property value. The Company provided to local authorities (24) letters of undertaking to provide such indemnifications for the benefit of the local authority within 30 days from the enactment of a law or a final court decision requiring such indemnifications. Management, based on the opinion of legal counsel, cannot at this date, determine the effect, if any, of the above letters of undertaking on the financial results and financial position of the Company.
- 5) The Company is a party to various claims arising in the ordinary course of its operations. Management, based upon the opinion of its legal counsel, is of the opinion that the ultimate resolution of these claims will not have a material effect on the financial position of the Company, its result of operations and cash flows. The accounts do not include a provision in respect thereof.

NOTE 12 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued):**b. Derivative financial instrument foreign exchange risk management**

The Company enters into foreign currency derivative transactions in order to protect itself against the risk that the eventual dollar cash flows resulting from the anticipated payments in respect of purchases of handsets and capital expenditures in foreign currency will be affected by changes in exchange rates. In addition the Company enters into derivative transactions in order to protect itself against the increase in the CPI in respect of the principal of the CPI-linked Notes payable. However, these contracts do not qualify for hedge accounting under FAS 133.

The Company does not hold or issue derivative financial instruments for trading purposes.

As the counterparties to the derivatives are Israeli banks, the Company considers the inherent credit risks remote.

The notional amounts of foreign currency derivatives as of December 31, 2004 and 2005 are as follows:

NOTE 12 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued):**c. Fair value of financial instruments**

The financial instruments of the Company as of December 31, 2005 consist mainly of non-derivative assets and liabilities (items included in working capital and long-term liabilities); the Company also has some derivatives, which are presented at their fair value.

In view of their nature, the fair value of the financial instruments included in working capital is usually identical or close to their carrying value. The fair value of long-term loans approximates the carrying value, since they bear interest at rates close to the prevailing market rates. Regarding the fair value of Notes payable see note 6.

The fair value of derivatives as of December 31, 2005, is a liability of approximately NIS 7 million (approximately \$1.5 million) and an asset of approximately NIS 5.1 million (approximately \$1.1 million) (December 31, 2004 a liability of approximately NIS 55.3 million).

PARTNER COMMUNICATIONS COMPANY LTD.**REPORT OF THE BOARD OF DIRECTORS FOR THE
YEAR ENDED DECEMBER 31, 2005**

The following report is a summary only, and is not intended to be a comprehensive review of our business and results of our operations and financial condition for the year 2005. The report is based upon and should be read in conjunction with Partner's Form 20-F for the year ended December 31, 2005, as filed with the Securities and Exchange Commission on May 18, 2006 (the "Form 20-F"). In particular, you should read the risk factors appearing in the Form 20-F for a discussion of a number of factors that affect and could affect Partner's financial condition and results of operations.

This report, as well as the Form 20-F, may include forward-looking statements within the meaning of Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe harbor provisions of the US Private Securities Litigation Reform Act of 1995. All statements other than statements of historical facts included in this report are forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about Partner and we undertake no obligation to publicly update or revise them.

In this report, references to \$ and US dollars are to United States dollars and references to NIS are to New Israeli Shekels. This report contains translations of NIS amounts into US dollars at NIS 4.603=US\$1.00 as published by the Bank of Israel, solely for the convenience of the reader.

Results of Operations for the Year Ended December 31, 2005 Compared to the Year Ended December 31, 2004

Revenues in 2005 were NIS 5,122.9 million (US\$ 1,113.0 million), down 0.3% from NIS 5,140.7 million in 2004.

Revenues in 2005 from services were NIS 4,619.9 million (US\$ 1,003.7 million), approximately equal to the revenues from services in 2004 of NIS 4,615.8 million. Compared with 2004, total network minutes in 2005 increased by 12.8%, offset by a 12.9% dilution in the average tariff per minute including incoming calls. The increase in total network minutes was driven primarily by an expanding subscriber base which grew by 8.1% from the end of 2004 to the end of 2005. The dilution in the average tariff per minute compared with 2004 was driven primarily by the reduction in interconnection tariffs which went into effect in March 2005, as well as increased competition and the increased weight of business subscribers in our customer base. The average business subscriber generates substantially more minutes of use than post-paid private and prepaid subscribers, whilst their average tariff per minute is materially lower.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Revenues in 2005 from equipment were NIS 503.0 million (US\$ 109.3 million), a decrease of 4.2% from NIS 525.0 million in 2004. The decrease in 2005, compared with 2004, was driven by a decrease in the average revenue per sale.

Data and content revenues, including SMS messages, in 2005 were NIS 404.2 million (US\$ 87.8 million), accounting for 7.9% of total revenues or 8.7% of service revenues, up from NIS 351.1 million, or 6.8% of total revenues, 7.6% of service revenues, in 2004, despite the reduction in SMS interconnection tariffs. The increase in 2005, compared with 2004, was driven by data and content non-SMS service revenues which increased by 34.5%. Revenues from SMS services in 2005 decreased by 4.0% compared with 2004, reflecting the reduction in SMS interconnect tariffs from March 2005, as mandated by the Ministry of Communications. In 2005, SMS messages accounted for approximately 42% of data and content revenues, compared with approximately 50% in 2004.

Cost of revenues in 2005 increased by 4.2% to NIS 3,766.4 million (US\$ 818.2 million) from NIS 3,615.0 million in 2004.

Cost of revenues services in 2005 increased by 4.8% to NIS 3,022.5 million (US\$ 656.6 million), from NIS 2,885.1 million in 2004. The increase was primarily driven by the increased depreciation and amortization of over NIS 100 million which was recorded following the launch of the 3G network towards the end of 2004 together with the additional network expenses associated with the 3G network.

Cost of revenues equipment in 2005 increased by 1.9% to NIS 743.9 million (US\$ 161.6 million) from NIS 729.9 million in 2004. The increase was driven primarily by the marketing of more advanced and higher cost handsets and approximately 5% growth in sales transactions to new and upgrading subscribers.

Gross profit for 2005 was NIS 1,356.6 million (US\$ 294.7 million), the equivalent of 26.5% of revenues, down 11.1% from NIS 1,525.7 million, or 29.7% of revenues, in 2004. The decrease can be primarily attributed to the increased depreciation, amortization and network expenses related to the Company's 3G network.

Selling and marketing expenses in 2005 were NIS 272.9 million (US\$ 59.3 million), a decrease of 16.1% from NIS 325.2 million in 2004. The decrease was principally due to reductions in distribution and advertising costs.

General and administrative expenses in 2005 were NIS 180.8 million (US\$ 39.3 million), a decrease of 0.2% from NIS 181.1 million in 2004. The decreases in general and administrative expenses, as with the decreases in selling and marketing expenses, reflect cost-cutting measures the Company put in place as part of its plan to mitigate the effects of the inter-carrier termination rate reductions that were mandated by the Ministry of Communications.

Operating profit for 2005 was NIS 902.9 million (US\$ 196.2 million), a decrease of 11.4% from NIS 1,019.3 million in 2004. As a percentage of revenues, operating profit decreased from 19.8% in 2004 to 17.6% in 2005. The decrease can be primarily attributed to the impact of the inter-carrier termination rate reductions that were mandated by the Ministry of Communications, as well as the increased depreciation, amortization and network expenses related to the Company's 3G network.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Financial expenses in 2005 were NIS 345.4 million (US\$ 75.0 million), an increase of 32.6% from NIS 260.5 million in 2004. The increase was primarily driven by a one-off charge in the amount of NIS 63 million related to the redemption of the US\$ 175 million 13% Senior Subordinated Notes on August 15, 2005, interest charges related to both the redeemed Notes and the new CPI-linked shekel-denominated Notes and a one-off amortization of capitalized expenses related to the Company's previous bank facility.

Income before taxes for 2005 was NIS 557.5 million (US\$121.1 million) down 26.5% compared to NIS 758.8 million in 2004.

Net income in 2005 was NIS 354.6 million (US\$ 77.0 million) or earnings of NIS 2.19 (US\$ 0.48) per basic ADS or share (NIS 2.17 per diluted ADS or share), representing a 24.8% decrease from NIS 471.6 million, or earnings of NIS 2.57 per basic ADS or share (NIS 2.56 per diluted ADS or share), in 2004. The decrease in 2005 net income compared with 2004 resulted primarily from the financial expenses related to the restructuring of the Company's debt, the impact of the inter-carrier termination rate reductions that were mandated by the Ministry of Communications, and the increased depreciation, amortization and network expenses related to the Company's 3G network.

During 2005, our net active subscribers increased by 189,000, or 8.1%.

As of December 31, 2005 our net active subscriber base was 2,529,000, accounting for an approximate market share of 32%. The Company's subscriber base at the end of December 2005 included approximately 507,000 business subscribers (20% of the base), approximately 1,268,000 postpaid private subscribers, (50% of the base), and approximately 754,000 prepaid subscribers, (30% of the base). Of the Company's subscriber base, approximately 103,000 were 3G subscribers. Net new active subscribers in the business sector accounted for approximately 39% of net new active subscribers in the year.

The annual churn rate in 2005 increased to 13.6% from 12.0% in 2004. The increase was primarily due the prepaid sector.

Average monthly usage per subscriber (MOU) for 2005 was 294 minutes, an increase of 2.8% compared with 286 minutes in 2004. In 2005, average monthly revenue per subscriber (ARPU) was NIS 156 (US\$ 33.9), a decrease of 8.2% compared with approximately NIS 170 in 2004. The decrease in ARPU is attributed primarily to the reduction in interconnection charges mandated by the Ministry of Communications, despite the increase in MOU.

In 2005, handset subsidies per new subscriber increased compared with 2004. However, the average cost of acquiring a new subscriber (SAC) in 2005 decreased to NIS 282 (US\$ 61.3) from NIS 295 in 2004. The reduction reflects a reduction in non-handset subsidy components of SAC including commissions.

Cash flows generated from operating activities in 2005 (NIS 1006.3 or US\$ 218.6 million) net of cash flows from investing activities (NIS 546.7 million or \$US 118.7 million), totaled NIS 459.6 million (US\$ 99.9 million). Cash flows generated from operating activities in 2004 (NIS 1272.8 million), net of cash flows from investing activities (NIS 673.6 million) totaled NIS 599.2 million in 2004, a decrease of 23.3%. The decrease was primarily due to a decrease in cash flows from operating activities, offset by a decrease in the level of investment in fixed assets. The main reasons for the decrease in cash flows from operating activities were the payment of one-off charges related to the redemption of the US\$ 175 million 13% Senior Subordinated Notes, interest charges related to both the redeemed Notes and the new CPI-linked shekel-denominated Notes and inventory charges

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

From January 1, 2003 to December 31, 2005, we made cumulative net capital expenditures of approximately NIS 1,319 million, of which NIS 486 million (\$106 million) was incurred in 2005.

In March 2005, we completed a debt offering, raising NIS 2.0 billion in a public offering in Israel of the Notes due 2012. In April 2005 we entered into a new credit facility as part of our 2005 Refinancing, consisting of a \$450 million term loan facility and a \$100 million revolving loan facility, replacing our previous bank facility. In May 2005, we exercised an option to reduce the term facility from \$450 million to \$150 million.

In April 2005, we used approximately NIS 1,074 million of the proceeds from our 2005 Refinancing to repurchase approximately 33.3 million shares from our Israeli founding shareholders, representing approximately 18.1% of our outstanding shares immediately before the repurchase.

- 21.2 Any of the said Means of Control, or a part of them, in the Licensee, may not be transferred in any way, if as a result of the transfer, control in the Licensee will be transferred from one person to another, unless given the Minister's prior written consent.
- 21.3 No control shall be acquired, either direct or indirect, in the Licensee, and no person, whether on his/her own or together with his/her relative or with those acting with him/her on a regular basis, shall acquire in it ten percent (10%) or more of any of the Means of Control in the Licensee, whether all at once or in parts, unless given the Minister's prior written consent.
- 21.4 Subject to what is stated above in this clause, no Means of Control shall be transferred, either directly or indirectly, in a way that will cause the share of an MRT Operator in the Licensee to be reduced from twenty-five (25%) of the voting rights in the general meeting and of the right to appoint a Director or General Manager, unless five (5) years have elapsed from the date of License award; if five (5) years have elapsed from the date of License award, an MRT Operator's share may decrease from twenty-five percent (25%) to the extent of selling the entire Means of Control held by it to another, all subject to the approval of the Minister both for the reduction in the MRT Operator's share of the Means of Control in the Licensee, and with regard to the buyer; for the matter of this clause, MRT Operator has the same meaning as set out in clause 14.1B.
- 21.5 ¹Despite the provisions of sub-clauses 21.1 and 21.3 above, should there occur a transfer or purchase of a percentage of Tradable Means of Control in the Licensee requiring consent under clauses 21.1 and 21.3 (other than a transfer of purchase that results in a transfer of control), without the Minister's consent having been sought, the Licensee shall report this to the Minister in writing, and shall make an application to the Minister to approve the said transfer or purchase of the Means of Control in the Licensee, within 21 days of the date on which the Licensee became aware of such.
