DEFENSE INDUSTRIES INTERNATIONAL, INC.  
AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
FOR THE SIX MONTHS ENDED JUNE 30, 2010 AND 2009 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

- A. The accompanying unaudited interim consolidated financial statements as of June 30, 2010 and for the six month period then ended (the “interim financial statements”) were prepared in a condensed form in accordance with the instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, changes in shareholders’ equity, cash flows and all the data and notes which are required when preparing annual financial statements, in conformity with generally accepted accounting principles accepted in the United States.
- B. The accounting principles used in the presentation of the interim financial statements are consistent with those principles used in the presentation of the latest annual financial statements. All significant accounting policies have been applied consistently with the year ended December 31, 2009.
- C. The preparation of the interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for fair presentation of the interim financial statements have been included. The results of operations for the six months period ended June 30, 2010, are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. The interim financial statements should be read in conjunction with the Company’s annual financial statements as of December 31, 2009 and for the year then ended and the accompanying notes thereto.

D. Principles of Consolidation

The interim financial statements include the accounts of Defense Industries International, Inc., its wholly owned subsidiaries, Export Erez USA, Inc., Rizzo Inc.(doing business as Owen Mills Company), Export Erez, Ltd. (“Export Erez”), Mayotex, Ltd. (“Mayotex”), Dragonwear Trading Ltd. (“Dragonwear”), and Achidatex Nazareth Elite (1977) Ltd. (“Achidatex”).

During 2009, Dragonwear ceased its operations and was dissolved and deleted from the Register of Companies on March, 14, 2010. Dragonwear had no operational activities, therefore, its discontinuance had no impact for measurement and disclosure purposes in all reported periods.

All significant inter-company accounts and transactions have been eliminated in consolidation.

DEFENSE INDUSTRIES INTERNATIONAL, INC.  
AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
FOR THE SIX MONTHS ENDED JUNE 30, 2010 AND 2009 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (Continue)

E. Per share data

Basic net income per share of common stock is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted net income per share of common stock is computed based on the weighted average number of shares of common stock and common stock equivalents outstanding during the period. For the six months ended June 30, 2010 and 2009 common stock underlying a warrant instrument, dated June 15 2005, exercisable into 202,500 shares of common stock were not included in diluted income (loss) per share because their effect is anti-dilutive. Such warrant instrument has expired on June 30, 2010 and has no further force and effect.

F. Fair value

The Company categorizes the fair value of its financial assets and liabilities according to the hierarchy of Financial Accounting Standard Board ("FASB") Accounting Standards Codification ("ASC") No. 820 "Fair Value Measurements and Disclosures", which establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements.

FASB ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. FASB ASC 820 also requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs, as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities;
- Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or
- Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The Company's trading securities and bank deposits are measured at fair value based on quoted market prices in active markets for identical assets (Level 1).

The Company funds in respect to employees' rights upon retirement are measured at fair value based upon unobservable inputs (Level 3).

In addition to the assets and liabilities described above, our financial instruments also include cash, accounts receivable, other receivables, accounts payable, accounts payable to related parties, accrued expenses and other payables. The fair value of these financial instruments was not materially different from their carrying value at June 30, 2010 and December 31, 2009 due to the short-term maturity of these instruments.

DEFENSE INDUSTRIES INTERNATIONAL, INC.  
AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
FOR THE SIX MONTHS ENDED JUNE 30, 2010 AND 2009 (UNAUDITED)

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES (Continue)

H. Recent accounting pronouncements issued and adopted in the reported period

With the exception of those stated below, there have been no recent accounting pronouncements or changes in accounting pronouncements during the six months ended June 30, 2010, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, that are of material significance, or have potential material significance, to the Company.

Effective January 1, 2010, the Company adopted the FASB's ASU No. 2010-06 "Improving Disclosures about Fair Value Measurements". The updated guidance related to fair value measurements and disclosures, which requires a reporting entity to disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and to describe the reasons for the transfers. In addition, in the reconciliation for fair value measurements using significant unobservable inputs, or Level 3, a reporting entity should disclose separately information about purchases, sales, issuances and settlements (that is, on a gross basis rather than one net number). The updated guidance also requires that an entity should provide fair value measurement disclosures for each class of assets and liabilities and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and non-recurring fair value measurements for Level 2 and Level 3 fair value measurements. The guidance is effective for interim or annual financial reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. The Company has updated its disclosures to comply with the updated guidance; however, adoption of the updated guidance did not have an impact on the Company's consolidated results of operations or financial condition.

DEFENSE INDUSTRIES INTERNATIONAL, INC.  
AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
FOR THE SIX MONTHS ENDED JUNE 30, 2010 AND 2009 (UNAUDITED)

NOTE 2

ISORAD AGREEMENT

On December 17, 2008, Mayotex entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd. ("Sarino") to cooperate in the manufacture of optical grade Germanium crystals and sales of lenses to be used in optical and infra-red night vision products utilizing the Germanium crystals (the "Sarino Agreement").

On December 21, 2008, Mayosar Ltd. (incorporated by Mayotex and Sarino) ("Mayosar"), through its wholly owned subsidiary Isorad IR Optics Ltd., ("Optics"), entered into an agreement to purchase the Germanium Crystals Business of Isorad Ltd., an Israeli governmental company ("Isorad"). The Isorad Agreement provided for the purchase of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications ("Isorad Agreement"). As of June 30, 2010, Isorad has not met certain conditions set out in the Isorad Agreement and, based on a legal advice received, this agreement has not been consummated.

Subsequent to the balance date, in August 2010, Mayosar, Optics and Isorad Ltd. executed an addendum to the 2008 agreement, according to which the parties confirmed the validity of the Isorad Agreement.

Pursuant to the Sarino Agreement:

(1) Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

(2) In consideration of the above, Mayotex paid Sarino \$1 million, out of which, \$300,000 will be non-refundable to Mayotex upon 24 months following the execution of the Isorad Agreement, and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable consideration is secured by Sarino's interest in Mayosar and personal guarantees provided by Sarino Crystal Technologies Ltd.'s controlling shareholders.

(3) Mayotex agreed to provide Mayosar with a loan of up to \$2 million. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

As of June 30, 2010, Mayotex provided loans of \$1 million to Sarino and \$1 million to Mayosar. Such payments are recognized as refundable deposits pending resolution of the Isorad Agreement.

Pursuant to the Isorad Agreement, Optics is to pay royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement (the "Effective Date"), with a minimum amount of approximately \$133,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$53,000 per year during the following years of the royalties payment period.

DEFENSE INDUSTRIES INTERNATIONAL, INC.  
AND SUBSIDIARY COMPANIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENT  
FOR THE SIX MONTHS ENDED JUNE 30, 2010 AND 2009 (UNAUDITED)

NOTE 2 ISORAD AGREEMENT (Continue)

Pursuant to the Isorad Agreement, Isorad was granted the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. Such right was recently extended for an additional 12-month period. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within the above period, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics' share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics' share capital.

Optics has the right during the four year period following the Effective Date to redeem and purchase from Isorad its option to purchase 5% of its shares and to cancel its commitment to pay royalties under the Isorad agreement, in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

As of the balance sheet date Management assesses its legal position and is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements should be fully refunded to the Company in the event that the Isorad Agreement is not consummated.

NOTE 3 INVENTORIES

Consist of:

	June 30, 2010	December 31, 2009
Raw materials (1)	\$ 3,994,296	\$ 2,597,759
Work in progress	579,656	642,132
Finished goods	950,077	884,250
	\$ 5,524,030	\$ 4,124,141

(1) As of June 30, 2010 and December 31, 2009, includes advanced payments to purchase inventory for \$340,931 and \$52,894, respectively.

NOTE 4 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business segments: sales to the civilian market and the military market.

The military and the civilian markets are further broken down between Israel (local) and other (export) sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because assets are used in more than one segment and any allocation would be impractical.

A. Sales and Income from Operations:

	Civilian		Military		Consolidated
	Local	Export	Local	Export	
<b>For the six months ended June 30, 2010:</b>

NOTE 5

COMMITMENTS AND CONTINGENCIES

- A. On February 11, 2009, a lawsuit was filed in the Jerusalem District Court (the "Court") against our subsidiary, Achidatex, its chief executive officer, Mr. Avraham Haztor, and our subsidiary Export Erez USA Inc. The plaintiff filed a petition to add Export Erez Ltd., or Export Erez, as a defendant in the claim. Export Erez objected to the plaintiff's petition, however, the Court accepted the petition and ruled that Export Erez will be added as a defendant in the claim. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, by failing to register patents for the technology underlying the sandals worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.6 million). Achidatex filed a statement of defense rejecting the plaintiff's claims and a claim against the plaintiff and others for a declaratory judgment that the plaintiff has breached his contractual undertakings towards Achidatex. Achidatex's petition to consolidate its claim with the plaintiff's claim was ordered by the Court and the claims are now being heard together. Achidatex also filed a petition to remove the claim against Mr. Haztor and Export Erez USA Inc. based on the assertion that there is no contractual or any other kind of privity between the plaintiff and Mr. Haztor and Export Erez USA Inc. and, therefore, no cause of action against them exists. This petition is pending. The Company intends to vigorously defend against the claim. Due to the preliminary stage of the above claims, the Company and its legal advisors cannot currently assess the outcome or possible adverse effect on our financial position or results of operations.
- B. On April 7, 2010, a lawsuit was filed against Achidatex and another lawsuit was filed against Export Erez in the Nazareth Magistrates' Court (the "Nazareth Court"), each to obtain an eviction order for the premises leased by these subsidiaries. The plaintiffs in the suits, a company owned by the former shareholders of Achidatex and a company owned by the Company's principal shareholder, allege that Achidatex and Export Erez each materially breached their respective lease agreement with the plaintiff, dated January 1, 2008. The premises from which the plaintiff seeks to evict Achidatex and Export Erez, are used by Achidatex and Export Erez to conduct their operational activities. The parties to the above claim have reached a settlement of the dispute and the lawsuit was withdrawn by the plaintiff.
- C. On July 12 2010, a lawsuit was filed in the Tel-Aviv Regional Labor Court (the "Labor Court") against the Company, its subsidiaries Mayotex and Export Erez (the "Group") and against an officer of the Group, by a former employee. The plaintiff alleges that the Group breached her employment agreement and violated certain Israeli labor related legislation, by not paying her severance payment, payment in lieu of vacation, recuperation payments, contribution to Study Fund, due to her claiming to being subject to sexual harassment and consequently violation of certain applicable Israeli legislation, not making the payments due to the employee during the prior notice period and compensation for overtime. The amount claimed under the above claim is NIS 1,472,035 (\$379,880). The Company believes that the amounts under the claim are exaggerated and that the exposure of the claim (if any) is not material to the business of the Group. The Company intends to vigorously defend its position. The Labor Court has imposed a gag order on the parties to the lawsuit.

NOTE 6

SUBSEQUENT EVENTS

On August 2010, Mayosar, Optics and Isorad Ltd. executed an addendum to the Isorad Agreement, according to which the parties confirmed the validity of the Isorad Agreement. (For further information regarding the Isorad Agreement see Note 2).

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This discussion should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations for the Year Ended December 31, 2009 contained in our 2009 Annual Report on Form 10-K. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

The following is management's discussion and analysis of certain significant factors which have affected our financial position and operating results during the periods included in the accompanying consolidated financial statements, as well as information relating to the plans of our current management.

### Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

### Material Trends

**Local Military Market.** The demand for our products increased significantly in the first quarter of 2009, mainly due to the effect of the hostilities between Israel and the Hamas in Gaza, which took place in December 2008 and January 2009. During the end of 2009 and the first quarter of 2010, the demand for our products decreased due to a break in the hostilities in Gaza. We believe that the demand for our products from the Israeli Ministry of Defense will continue at the current levels during the remainder of 2010.

As of August 12, 2010, we had a backlog of firm orders from the Israeli Ministry of Defense of approximately \$1.9 million, including orders of approximately \$1.2 million that we received subsequent to June 30, 2010. In the six month periods ended June 30, 2010 and 2009, sales to the Israeli Ministry of Defense were \$2.5 million and \$4.1 million, accounting for 41.7% and 44.1% of our sales, respectively.

**Export Military Market.** Our customers in this market are military and law enforcement organizations mostly in South America, North America, Africa and Europe. Their budgets fluctuate, and as a result, we cannot identify definite trends in these markets.

Since 2003, we have increased our export efforts and are continuing our efforts to strengthen our position in our existing export markets in the U.S., South America, Asia and Europe, and to extend our presence to new export

markets in South America, Africa, Europe and Australia. Any future success in such markets is mainly dependant on our marketing efforts, our ability to be competitive in our pricing and the quality of our products.

The following table presents details of our export military sales during the three and six month periods ended June 30, 2010 and 2009:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Sales to South America	\$249,083	\$453,889	\$467,443	\$1,208,416
Sales to North America	6,042	176,654	7,356	176,654
Sales to Europe and Asia	91,403	372,923	434,852	832,657
Sales to Africa	84	201,136	2,261	1,387,491
Total Export Military Sales	\$346,612	\$1,204,602	\$911,912	\$3,605,218

**Local Civilian Market.** Our product range for the civilian market is diversified. In the three and six month periods ended June 30, 2010, our local market business increased to \$651,489 and \$1,685,147, respectively, compared to \$334,054 and \$1,155,330 for the three and six month periods ended June 30, 2009, mainly due to sales of armored vehicles for civilian purposes. We expect to maintain the same level of revenues in the third quarter, due to marketing efforts and increased demand for armor in the civilian market.

The following table sets forth the breakdown of sales by segment for the three and six month periods ended June 30, 2010 and 2009:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
Local civilian market	\$651,489	\$334,054	\$1,685,147	\$1,155,330
Export civilian market	379,087	262,394	608,718	422,853
Local military market	1,510,626	1,775,087	2,675,768	4,206,024
Export military market	346,612	1,204,602	911,912	3,605,218
Total	\$2,887,814	\$3,576,137	\$5,881,545	\$9,389,425

**Backlog.** We had approximately \$5.2 million of unfilled customer orders at June 30, 2010, compared to \$2.6 million of unfilled customer orders at June 30, 2009. Of our \$5.2 million of unfilled customer orders at June 30, 2010, approximately \$1.8 million was attributable to orders from military customers in South America, approximately \$0.1 million was attributable to orders from military customers in Europe and Asia, approximately \$1.1 million was attributable to orders from military customers in Africa, approximately \$0.3 million was attributable to the local civilian market, approximately \$0.3 million was attributable to the U.S. civilian market and approximately \$1.6 million was attributable to the Israeli Ministry of Defense.

**Current Economic Overview.** We generate revenues from sales of our products to the civilian and military markets. Accordingly, our business is affected by economic conditions. The volatile economic conditions of 2009 continued into 2010 and slowed down our sales process and complicated our ability to conduct transactions. The current economic climate and the uncertainty in the global economic conditions could impact the ability of our customers, including governmental entities, to make capital expenditures, thereby affecting their ability to purchase our products. Our business and financial performance, including collection of our accounts receivable, realization of inventory and recoverability of assets including investments, may be adversely affected if economic conditions deteriorate or continue to be volatile. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions. The uncertainty in the financial markets may limit our

ability to obtain financing for our working capital requirements.

Exchange rate fluctuation. Exchange rate fluctuations affect our financial results in several ways. Most of our deposits and a portion of our tradable securities are linked to the rate of exchange between the U.S. dollar and the NIS. Accordingly, a devaluation of the U.S. dollar against the NIS is reflected as comprehensive income in our consolidated statement. In the period ended June 30, 2010, the NIS appreciated in relation to the U.S. dollar at a rate of 2.65%.

In addition, we develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS, while most of our export sales are denominated in U.S. dollars. Under U.S. GAAP we report all of our sales in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported sales while the devaluation of the U.S. dollar against the NIS increases our reported sales.

Our cost of sales and operating expenses are affected in the same manner. Most of our purchases of raw material are made in U.S. dollars while most of our labor and other operating expenses are in NIS, however, under U.S. GAAP we report our cost of sales and operating expenses in U.S. dollars. Accordingly, appreciation of the U.S. dollar against the NIS reduces our reported cost of sales and operating expenses while the devaluation of the U.S. dollar against the NIS increases our reported cost of sales and operating expenses.

In the quarter ended June 30, 2010, the NIS depreciated against the U.S. dollar by approximately 2.65%, and our financial results were negatively impacted. Exchange rates between the U.S. dollar and the NIS fluctuate continuously. As a result, exchange rate fluctuations and especially larger periodic devaluations will have an impact on our profitability and period-to-period comparisons of our results. We cannot assure you that in the future our results of operations will not be materially adversely affected by currency fluctuations.

#### Sarino Agreement

On December 17, 2008, our subsidiary, Mayotex Ltd., or Mayotex, entered into an agreement with Sarino Crystal Technologies Ltd. and Sarino Optronics Ltd., or Sarino, to cooperate in the manufacture of optical grade Germanium crystals and sales of lenses to be used in optical and infra-red night vision products utilizing the Germanium crystals, or the Sarino Agreement.

On December 21, 2008, Mayosar Ltd., or Mayosar, which was incorporated by Mayotex and Sarino, through its wholly owned subsidiary Isorad IR Optics Ltd., or Optics, entered into an agreement, or the Isorad Agreement, to purchase the Germanium Crystals Business of Isorad Ltd., an Israeli governmental company, or Isorad. The Isorad Agreement provided for the purchase of certain know-how, equipment, inventories and production activities of Germanium Crystals for lenses used in infra-red night vision system applications.

After a period of uncertainty, in August 2010, Mayosar, Optics and Isorad Ltd. executed an addendum to the 2008 agreement, according to which the parties confirmed the validity of the Isorad Agreement.

#### Pursuant to the Sarino Agreement:

Mayotex and Sarino agreed to incorporate Mayosar, with Mayotex being the majority shareholder owning 50.1% and Sarino owning 49.9%. As majority shareholder, Mayotex will have operational control of Mayosar.

In consideration of the above, Mayotex paid Sarino \$1 million, out of which \$300,000 is non-refundable to Mayotex upon 24 months following the execution of the Isorad Agreement, and the remaining \$700,000 will be earned by Sarino based on 10% of sales over \$3 million and up to \$10 million during the first 36 months of operations. Amounts not earned are to be refunded to Mayotex, including interest of Libor + 2% per annum. The refundable

consideration is secured by Sarino's interest in Mayosar and personal guarantees provided by Sarino Crystal Technologies Ltd.'s controlling shareholders.

Mayotex agreed to provide Mayosar with a loan in the aggregate amount of \$2 million under a timetable to be determined by Mayosar's board of directors. Such loan will bear interest at the rate of Libor + 2%, and is payable from profits generated by Mayosar.

As of June 30, 2010, Mayotex has provided loans of \$1.0 million to Sarino and \$1.0 million to Mayosar. Such payments are recognized as refundable deposits pending resolution of the Isorad Agreement.

Pursuant to the Isorad Agreement, Optics is to pay annual royalties of 3% out of sales for a period of 15 years commencing the effective date of the Isorad Agreement, or the Effective Date, with a minimum amount of approximately \$133,000 payable per year during the first 18 months or until the date of completion of the transfer of the site of the Germanium Crystals Business, whichever is earlier (this payment includes a reimbursement of costs for the usage of the site and equipment in this initial period), and approximately \$53,000 per year during the following years of the royalties payment period.

Pursuant to the Isorad Agreement, Isorad has the right to acquire 5% of the share capital of Optics on a fully diluted basis for their nominal value during the 24 month period beginning on the Effective Date. Such right was recently extended with an additional 12-month period. If the Israeli Government does not approve the 5% purchase of the Optics shares by Isorad within the above period, the right to acquire the shares will expire and Isorad will be entitled to a payment of \$75,000.

In the event of an allotment of shares to Isorad, representing 5% of Optics' share capital, Mayosar will issue to Mayotex additional shares of Mayosar on a pro rata basis, in order for Mayotex to retain a 50.01% indirect interest in Optics' share capital.

Optics has the right during the four year period following the Effective Date to redeem its commitment to pay royalties under the Isorad Agreement in consideration of a fixed payment of \$750,000, less all royalties paid to Isorad through that date.

As of the balance sheet date Management assesses its legal position and is of the opinion, based on legal advice received, that the amounts paid under the Sarino and Isorad agreements should be fully refunded to the Company in the event that the Isorad Agreement is not consummated.

## Results of Operations

### Key Indicators

Our management views revenues, the sources of our revenues, gross profit margin and the level of inventory compared to revenues as the key performance indicators in assessing our company's financial condition and results of operations. While our management believes that demand for our products will continue to grow, our business is subject to a high degree of volatility because of the impact of geopolitical events, government budgeting, and competition.

### Three Months Ended June 30, 2010 Compared with Three Months Ended June 30, 2009

Net Revenues. Net revenues for the three months ended June 30, 2010 decreased to \$2,887,814 from \$3,576,137 in the three months ended June 30, 2009, a decrease of 19%. The decrease is mainly attributable to a decrease of approximately \$0.86 million in our export military market segment and a decrease of approximately \$0.26 million in our local military segment, which was offset by an increase of approximately \$0.3 million in our local civilian market segment and an increase of approximately \$0.1 million in our export civilian market segment. The decrease in revenues in our local military market segment is attributable to a decrease in demand for our products from the Israeli Ministry of Defense and the decrease in revenues in our export military market is attributable to a general decrease in demand for our products in this market. The increase in revenues in our civilian market segment is mainly due to sales of armored vehicles for civilian purposes. We expect to maintain the same level of revenues in the next quarter.

**Gross Profit.** Gross profit for the three months ended June 30, 2010 was \$168,780 compared to \$752,625 for the three months ended June 30, 2009. Our gross profit margin for the three months ended June 30, 2010 decreased to 5.8% compared to 21% for the three months ended June 30, 2009. This decrease in gross profit is primarily attributable to the decrease in revenues from sales. The decrease in gross profit margin is primarily attributable to the 19.2% decrease in revenues while our cost of sales decreased by only 3.7%, which is primarily due to our fixed costs that are not revenue dependent.

**Selling Expenses.** Selling expenses for the three months ended June 30, 2010 increased by 46.2% to \$216,735 from \$148,279 for the three months ended June 30, 2009. The increase in our selling expenses was primarily attributable to sales consulting expenses incurred during the period in an effort to increase future sales.

**General and Administrative Expenses.** General and administrative expenses for the three months ended June 30, 2010 increased by 54% to \$702,886 from \$456,474 for the three months ended June 30, 2009. The increase in general and administrative expenses was attributable primarily to an increase of \$198,183 in salaries and \$69,560 in professional fees.

**Compensation from Israeli Government.** In the three months ended June 30, 2009, our subsidiaries Export Erez and Mayotex received \$53,002 and \$170,911, respectively, as compensation from the Israeli Government under the "Property Tax and Compensation Payments for War Damages" regulations, for the loss of employment days and potential revenues during 2007 to 2009 due to the security and military situation in the area in which Export Erez and Mayotex were located.

**Financial Income(Expenses), Net.** We had financial income, net of \$241,714 for the three months ended June 30, 2010 compared to financial expenses, net of \$224,056 for the three months ended June 30, 2009. Our financial income is primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a profit of \$134,577 for the three months ended June 30, 2010 compared to a loss of \$233,599 for the three months ended June 30, 2009.

**Other Income, Net.** We had other income, net for the three months ended June 30, 2010 of \$39,839 as compared to other income, net of \$57,001 for the three months ended June 30, 2009. Our other income in three months ended June 30, 2010 is attributable to a \$41,477 gain derived from sales of tradable securities and a \$194 unrealized gain on tradable securities, offset by a \$1,833 loss derived from revaluation of funds in respect of employee rights upon retirement,. Our other income in the three months ended June 30, 2009 is attributable to a \$42,489 gain derived from revaluation of funds in respect of employee rights upon retirement, a \$4,805 gain derived from sales of tradable securities and a \$9,707 unrealized gain on tradable securities.

**Income Tax Expense.** Our income tax expense for the three months ended June 30, 2010 was \$2,859 compared to income tax expense of \$73,375 for the three months ended June 30, 2009. The decrease in income tax expense was mainly due to the decrease in our income before income taxes in the three months ended June 30, 2010.

**Net Income (Loss).** For the three months ended June 30, 2010, our consolidated net loss was \$472,147 compared to net income of \$131,355 for the three months ended June 30, 2009.

#### Six Months Ended June 30, 2010 Compared with Six Months Ended June 30, 2009

**Net Revenues.** Net revenues for the six months ended June 30, 2010 decreased to \$5,881,545 from \$9,389,425 in the six months ended June 30, 2009, a decrease of 37.4%. The decrease is mainly attributable to a decrease in revenues attributable to our local military and export military market segments. In the six-month period ended June 30, 2010, revenues from our local military market segment decreased by approximately \$1.5 million and our revenues

from our military export market segment decreased by approximately \$2.7 million. These decreases were partially offset by an increase of \$529,817, or 45.9%, in the local civilian market attributable to increased sales to our existing customers in this market, including sales of civilian trucks covers.

**Gross Profit.** Gross profit for the six months ended June 30, 2010 was \$772,159 compared to \$2,244,353 for the six months ended June 30, 2009. This decrease in gross profit is primarily attributable to the decrease in revenues. Our gross profit margin for the six months ended June 30, 2010 decreased to 13.1% compared to 23.9% for the six months ended June 30, 2009.

**Selling Expenses.** Selling expenses for the six months ended June 30, 2010 increased by 0.1% to \$332,507 from \$332,055 for the six months ended June 30, 2009. The increase in our selling expenses was attributable primarily to sales consulting expenses incurred during the period in an effort to increase future sales, which was offset in great measure by lower commissions due to the decrease in sales in our export civilian market.

**General and Administrative Expenses.** General and administrative expenses for the six months ended June 30, 2010 increased by 42% to \$1,400,295 from \$986,368 for the six months ended June 30, 2009. The increase in general and administrative expenses was attributable primarily to an increase of \$321,746 in salaries and \$105,818 in professional fees.

**Financial Income, Net.** We had financial income, net of \$151,680 for the six months ended June 30, 2010 compared to financial income, net of \$216,969 for the six months ended June 30, 2009. Our financial income is primarily due to the change in the U.S. dollar exchange rate versus the NIS, which resulted in a gain of \$134,577 for the six months ended June 30, 2010 compared to a gain of \$157,368 for the six months ended June 30, 2009.

**Other Income, Net.** We had other income, net for the six months ended June 30, 2010 of \$90,211 as compared to other income, net of \$221,205 for the six months ended June 30, 2009. Our other income in six months ended June 30, 2010 is mainly attributable to the revaluation of funds in respect of employee rights upon retirement of \$8,852, an unrealized gain of \$58,752 on tradable securities and a gain from dissolving Dragonwear of \$22,879, offset by a loss derived from sales of tradable securities of \$272. Our other income in the six months ended June 30, 2009 is mainly attributable to revaluation of funds in respect of employee rights upon retirement of \$81,240, a gain derived from sales of tradable securities of \$24,680 and an unrealized gain of \$115,285 on tradable securities.

**Income Tax Expense.** Our income tax expense for the six months ended June 30, 2010 was \$7,984 compared to income tax expense of \$358,226 for the six months ended June 30, 2009. The decrease in income tax expense was mainly due to the decrease in our income before income taxes in the six months ended June 30, 2010.

**Net Income (Loss).** In the six months ended June 30, 2010, our consolidated net loss of controlling interest was \$726,736, compared to net income of \$1,229,791 for the six months ended June 30, 2009.

#### Liquidity and Capital Resources

As of June 30, 2010, we had \$3,149,841 in cash and cash equivalents, \$2,323,542 in trading securities and working capital of \$9,251,245 as compared to \$3,783,631 in cash and cash equivalents, \$2,312,048 in trading securities and working capital of \$10,150,359 at December 31, 2009.

The current economic climate and the uncertainty in the global financial markets resulting from the disruption in credit markets may affect our ability to raise additional funds in the future, if required. There can be no assurance that such additional financing will be available to us, or if available, will be on terms favorable to our company. We believe that the company has sufficient cash or working capital to satisfy its operational requirement over the next 12 months.

## Cash Flows

The following table summarizes our cash flows for the periods presented:

	Six months ended	
	June 30, 2010	June 30, 2009
Net cash (used in) provided by operating activities	\$(216,068 )	\$983,638
Net cash (used in) provided by investing activities	(127,511 )	2,066,130
Net cash used in financing activities	(161,257 )	(1,431,949)
Net increase in cash and cash equivalents	(633,789 )	1,691,571
Cash and cash equivalents at beginning of period	3,783,631	1,719,921
Cash and cash equivalents at end of period	3,149,842	3,411,492

Operating activities. Net cash used in operating activities was \$216,068 for the six months ended June 30, 2010 as compared to \$983,638 provided by operating activities in the six months ended June 30, 2009. This was primarily provided from our net loss of \$726,736, a decrease in trading securities of \$51,347, an increase in other current assets of \$256,113, and a increase in inventory of \$1,537,363, offset by a increase in accounts payable of \$1,018,418, an increase in other current liabilities of \$269,240, and a decrease in accounts receivable of \$749,306.

Investing activities. Net cash used in investing activities was \$127,511 for the six months ended June 30, 2010 as compared to \$2,066,130 net cash provided by investing activities in the six months ended June 30, 2009. During the six months ended June 30, 2010, \$113,729 was used to purchase fixed assets and \$13,782 was used for the purchase of a business.

Financing activities. Net cash used in financing activities was \$161,257 for the six months ended June 30, 2010 as compared to \$1,431,949 net cash used in financing activities for the six months ended June 30, 2009. During the six months ended June 30, 2010, we incurred additional short-term debt of \$97,615 and repaid \$148,961 of long-term debt, which was offset by proceeds from long-term debt of \$85,319.

Most of our large contracts, which are Israeli Governmental contracts, are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have endeavored to balance our accounts payable and accounts receivable.

We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

## Foreign Currency Exchange Risk

We develop products in Israel and sell them in Israel, North and South America, Asia, Africa and several European countries. Our sales in Israel are denominated in NIS while most of our export sales are denominated in U.S. dollars. In addition, our labor expenses are primarily paid in NIS while our expenses for raw materials are paid primarily in U.S. dollars. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our foreign currency exposure is significant due to the depreciation of the U.S. dollar versus the NIS. We expect our exposure will continue to be significant, since a significant portion of the prices of our raw material purchases, as well as part of our sales are denominated in U.S. dollars.

In the year ended December 31, 2009, the inflation rate in Israel was 3.91% and the NIS appreciated in relation to the U.S. dollar at a rate of 0.71%, from NIS 3.802 per \$1 on December 31, 2008 to NIS 3.775 per \$1 on December 31, 2009. In the period ended June 30, 2010, inflation in Israel was 1.34% while the NIS appreciated in relation to the U.S. dollar at a rate of 2.65%. If future inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of such devaluation lags behind increases in inflation in Israel, our results of operations may be materially adversely affected.

We did not enter into any foreign exchange contracts in the three months ended June 30, 2010.

#### Inflation and Seasonality

We do not believe that our operating results have been materially affected by inflation during the preceding two years. There can be no assurance, however, that our operating results will not be affected by inflation in the future. Our business is subject to minimal seasonal variations with slightly increased sales historically in the second and third quarters of fiscal year. We expect to continue to experience slightly higher sales in the third quarter, and slightly lower sales in the fourth and first quarters, as a result of reduced sales on nondairy frozen desserts during those periods.

#### Off-balance Sheet Arrangements

None.

#### Contractual Obligations

The following table summarizes our contractual obligations and commercial commitments as of June 30, 2010.

Contractual Obligations	Total	Less than 1 year	Payments due by Period		
			2 -3 years	4 -5 years	more than 5 years
Long-term debt obligations	\$476,621	\$253,662	\$218,658	\$4,301	\$-
Estimated interest payments on long-term debt obligations	31,522	19,942	11,557	23	-
Operating lease obligations	758,590	507,565	251,025	-	-
<b>Total</b>	<b>\$1,266,733</b>	<b>\$781,169</b>	<b>\$481,240</b>	<b>\$4,324</b>	<b>\$-</b>

#### Critical Accounting Policies

A discussion of our critical accounting policies was provided in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2009. There were no significant changes to these policies during the three and six months ended June 30, 2010.

#### Recent Accounting Pronouncements

See Note 1H to the unaudited condensed consolidated financial statements included in Part I, Item 1, Financial Statements, of this Quarterly Report on Form 10-Q.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

##### Interest Rate Risk

We do not believe that we have any material exposure to interest rate risk other than sensitivity to prevailing interest rates that may affect income from our cash deposits and marketable securities.

## Foreign Exchange Risk

Most of our sales are currently denominated in dollars, while the majority of our operating expenses are incurred in foreign currencies, principally the NIS. As a result, the decrease in the value of the U.S. dollar against these currencies has resulted in increased expenses for our company. In 2007, 2008 and 2009, the U.S. dollar depreciated against the NIS by approximately 9%, 1% and 1%, respectively. In the first six months of 2010, the U.S. dollar appreciated by approximately 2.65% in relation to the NIS.

## Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934, or the Exchange Act, reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our chief executive officer and chief financial officer to allow timely decisions regarding required disclosure. Our management, including our chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures, as defined under Exchange Act Rule 13a-15(e), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of such date, our disclosure controls and procedures were effective.

## Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended June 30, 2010 that has materially affected, or is reasonably likely to materially affect, our internal controls over financial reporting. . The company has hired the services of an external controller for the purposes of assisting the Company with preparation of the financial reports.

## PART II - OTHER INFORMATION:

### Item 1. Legal Proceedings

On February 11, 2009, a lawsuit was filed in the Jerusalem District Court (the "Court") against our subsidiary, Achidatex, its chief executive officer, Mr. Avraham Haztor, and our subsidiary Export Erez USA Inc. The plaintiff filed a petition to add Export Erez Ltd., or Export Erez, as a defendant in the claim. Export Erez objected to the plaintiff's petition, however, the Court accepted the petition and ruled that Export Erez will be added as a defendant in the claim. The suit alleges that Achidatex materially breached its agreement with the plaintiff, dated February 22, 2000, relating to the development of inflatable mine-field crossing enabling sandals, by failing to register patents for the technology underlying the sandals worldwide and only registered patents in the United States. The plaintiff further claims that the defendants, jointly and severally, committed a breach of trust. The plaintiff is seeking damages in the amount of NIS 10 million (approximately \$2.6 million). Achidatex filed a statement of defense rejecting the plaintiff's claims and a claim against the plaintiff and others for a declaratory judgment that the plaintiff has breached his contractual undertakings towards Achidatex.

Achidatex's petition to consolidate its claim with the plaintiff's claim was ordered by the Court and the claims are now being heard together. Achidatex also filed a petition to remove the claim against Mr. Haztor and Export Erez USA Inc. based on the assertion that there is no contractual or any other kind of privity between the plaintiff and Mr. Haztor and Export Erez USA Inc. and, therefore, no cause of action against them exists. This petition is pending. We intend to vigorously defend against the claim. Due to the preliminary stage of the above claims, we and our legal advisors cannot currently assess the outcome or possible adverse effect on our financial position or results of

operations.

25

---

On April 7, 2010 a lawsuit was filed against Achidatex and another lawsuit was filed against Export Erez in the Nazareth Magistrates' Court (the "Court"), each to obtain an eviction order for the premises leased by these subsidiaries. The plaintiff in the suits, a company owned by the former shareholders of Achidatex, and a company owned by our Company's principal shareholder, alleges that Achidatex and Export Erez each materially breached their respective lease agreement with the plaintiff, dated January 1, 2008. The premises from which the plaintiff seeks to evict Achidatex and Export Erez are used by Achidatex and Export Erez to conduct their operational activities. The parties to the above claim have reached a settlement of the dispute and the lawsuit was withdrawn by the plaintiff.

On 12 July 2010, a lawsuit was filed in the Tel-Aviv Regional Labor Court (the "Labor Court") against the Company, its subsidiaries Mayotex and Export Erez (the "Group") and against an officer of the Group, by a former employee. The plaintiff alleges that the Group breached her employment agreement and violated certain Israeli labor related legislation, by not paying her severance payment, payment in lieu of vacation, recuperation payments, contribution to Study Fund, due to her claiming to being subject to sexual harassment and consequently violation of certain applicable Israeli legislation, not making the payments due to the employee during the prior notice period and compensation for overtime. The amount claimed under the above claim is NIS 1,472,035 (\$379,880). The Company believes that the amounts under the claim are exaggerated and that the exposure of the claim, (if any), is not material to the business of the Group. The Company intends to vigorously defend its position. The Labor Court has imposed a gag order on the parties to the lawsuit.

Item 1A. Risk Factors

There have been no material changes to our "Risk Factors" set forth in Item 1A. of our Annual Report on Form 10-K for the year ended December 31, 2009.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. (Removed and Reserved)

Item 5. Other Information

None.

Item 6. Exhibits

31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.

31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a) of the Securities Exchange Act, as amended.

32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
