As a result of the change in the future corporate tax rate, the deferred tax liability has increased in the amount of approximately NIS 12 million, as of December 31 2011, with a corresponding increase in deferred tax expenses recorded in Q4 2011.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe harbor provisions of the US Private Securities Litigation Reform Act of 1995. Words such as "believe", "anticipate", "expect", "intend", "seek", "will", "plan", "could", "may", "project", "goal", "target" and similar expressions often identify forward-looking statements but are not the only way we identify these statements. All statements other than statements of historical fact included in this press release regarding our future performance, plans to increase revenues or margins or preserve or expand market share in existing or new markets, reduce expenses and any statements regarding other future events or our future prospects, are forward-looking statements.

We have based these forward-looking statements on our current knowledge and our present beliefs and expectations regarding possible future events. These forward-looking statements are subject to risks, uncertainties and assumptions about Partner, consumer habits and preferences in cellular telephone usage, trends in the Israeli telecommunications industry in general, the impact of current global economic conditions and possible regulatory and legal developments. For a description of some of the risks we face, see "Item 3D. Key Information - Risk Factors", "Item 4. - Information on the Company", "Item 5. - Operating and Financial Review and Prospects", "Item 8A. - Consolidated Financial Statements and Other Financial Information - Legal and Administrative Proceedings" and "Item 11. - Quantitative and Qualitative Disclosures about Market Risk" in the Company's 2010 Annual Report (20-F) filed with the SEC on March 21, 2011. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this press release might not occur, and actual results may differ materially from the results anticipated. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The financial results presented in this press release are preliminary un-audited financial results. The results were prepared in accordance with IFRS, other than EBITDA and free cash flow before interest payments, which are non-GAAP financial measures.

The financial information is presented in NIS millions (unless otherwise stated) and the figures presented are rounded accordingly.

Use of Non-GAAP Financial Measures:

Earnings before financial interest, taxes, depreciation, amortization and exceptional items ('EBITDA') is presented because it is a measure commonly used in the telecommunications industry and is presented solely to enhance the understanding of our operating results. This measure, however, should not be considered as an alternative to operating income or income for the year as indicators of our operating performance. Similarly, this measure should not be considered as an alternative to cash flow from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of our historic operating results nor is it meant to be predictive of potential future results.

Reconciliation between our net cash flow from operating activities and EBITDA on a consolidated basis is presented in the attached summary financial results.
