Item 5. Other Events.

On July 15, 2003, Dynegy Inc. (Dynegy) issued a press release relating to the commencement of a tender offer and consent solicitation by Dynegy Holdings Inc. (Dynegy Holdings) for certain of its outstanding public notes, and proposed private placement offerings (a) by Dynegy Holdings of approximately \$1.2 billion of second-priority senior secured notes to be issued in one or more series, which second-priority senior secured notes are expected to be guaranteed by the guarantors that are currently guarantors under Dynegy Holdings' existing bank credit facility, and (b) by Dynegy of approximately \$300 million of convertible debentures to be convertible into Dynegy's Class A common stock and guaranteed by Dynegy Holdings. Additionally, Dynegy announced that an agreement in principle has been reached with ChevronTexaco Corporation (ChevronTexaco) to exchange the \$1.5 billion of Series B Mandatorily Convertible Redeemable Preferred Stock currently held by a ChevronTexaco subsidiary for \$225 million in cash, \$225 million of newly issued Dynegy Junior Unsecured Subordinated Notes due 2016 and \$400 million of newly issued Dynegy Series C Convertible Preferred Stock. Dynegy expects the net proceeds of the proposed private placement offerings, together with existing cash on hand, will be used to repay outstanding indebtedness, including notes purchased in the tender offer and consent solicitation, certain indebtedness outstanding under the credit facility and amounts outstanding under the secured financing tied to its Midwest generation assets, and to pay certain transaction fees and related expenses. In addition, Dynegy expects that in connection with obtaining the required bank consents to the foregoing transactions, the lenders under Dynegy Holdings' existing bank credit facility will require that a minimum amount of proceeds be raised in the proposed private placement offerings before any such proceeds may be used to fund the \$225 million cash payment under the proposed Series B preferred stock exchange.

The second-priority senior secured notes and the convertible debentures to be offered in the proposed private placements will not be registered under the Securities Act of 1933 or any state securities laws and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act of 1933 and any applicable state securities laws.

Each of these events is subject to a number of conditions, including bank consents, as further described in the subject press release. A copy of Dynegy's July 15th press release is attached hereto as Exhibit 99.1 and is incorporated herein by this reference.
