**COINSTAR, INC.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**Three and Nine Month Periods Ended September 30, 2006 and 2005**

**(unaudited)**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Description of company:* Incorporated as a Delaware company in 1993, Coinstar is a multi-national company offering a range of 4th Wall solutions for the retailers' storefronts consisting of self-service coin counting, electronic payment ( e-payment ) services such as money transfer services, stored value cards, payroll cards, prepaid MasterCard® cards and prepaid wireless products via point-of-sale terminals and non-coin-counting kiosks, and entertainment services such as skill-crane machines, bulk vending machines and kiddie rides. We have also made strategic investments in Video Vending New York, Inc. (d.b.a. DVDXpress ) and Redbox Automated Retail, LLC ( Redbox ), to offer self-service DVD kiosks where consumers can rent or purchase movies. Our services, in one form or another, are currently offered in supermarkets, mass merchandisers, warehouse clubs, drugstores, universities, shopping malls and convenience stores in the United States, Canada, Mexico, Puerto Rico and the United Kingdom. As of September 30, 2006, we had a total of approximately 13,100 coin-counting machines installed, over 295,000 entertainment services machines installed, over 19,500 locations where our point-of-sale terminals were installed and over 400 non-coin-counting kiosks installed.

*Basis of presentation:* The unaudited consolidated financial statements of Coinstar, Inc. included herein reflect all adjustments, consisting only of normal recurring adjustments which, in the opinion of management, are necessary to present fairly our consolidated financial position, results of operations and cash flows for the periods presented.

These financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC ) and in accordance with United States generally accepted accounting principles ( GAAP ) for interim financial information. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such SEC rules and regulations. These financial statements should be read in conjunction with our audited financial statements and the accompanying notes included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005, filed with the SEC. The results of operations for the three and nine month periods ended September 30, 2006, are not necessarily indicative of the results to be expected for any future quarter or for the entire fiscal year. Acquisitions are recorded and included in our results of operations as of and for the period subsequent to the date acquired.

*Principles of consolidation:* The accompanying consolidated financial statements include the accounts of Coinstar, Inc., our wholly-owned subsidiaries and other entities where we hold a controlling interest. All significant intercompany balances and transactions have been eliminated in consolidation.

*Use of estimates:* The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These judgments are difficult as matters that are inherently uncertain directly impact their valuation and accounting. Actual results may vary from management's estimates and assumptions.

We have estimated the value of our entertainment services coin-in-machine which was approximately \$8.2 million and \$5.0 million at September 30, 2006, and December 31, 2005, respectively. Coin-in-machine represents the cash deposited into our entertainment services machines at period end which has not yet been collected. Based on our estimate of coin-in-machine, we have recognized the related revenue, the corresponding reduction to inventory and increase to accrued liabilities which represents the direct operating expenses associated with the coin-in-machine estimate.

*Income taxes:* During the three months ended September 30, 2006, we adopted the indefinite reversal criterion of Accounting Principles Board Opinion ( APB ) No. 23, *Accounting for Income Taxes - Special Areas* ( APB23 ) for our United Kingdom subsidiaries. APB 23 specifies that United States income taxes should not be recorded on the undistributed earnings of a foreign subsidiary if those undistributed earnings have been or will be invested indefinitely in that subsidiary. During the three months ended September 30, 2006, we determined that the undistributed earnings of our United Kingdom subsidiaries will be permanently invested in our United Kingdom operations to support continued growth.

## Edgar Filing: COINSTAR INC - Form 10-Q

*Stock-based compensation:* Effective January 1, 2006, we adopted the fair value recognition provisions of Financial Accounting Standards Board ( FASB ) Statement No. 123 (revised 2004), *Share-Based Payment* ( SFAS 123(R) ) using the modified prospective transition method. Under this transition method, compensation expense recognized includes the estimated fair value of stock options granted on and subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS 123(R), and the estimated fair value of the portion vesting in the period for options granted prior to, but not vested as of January 1, 2006, based on the grant date fair value

**Table of Contents**

estimated in accordance with the original provisions of SFAS No. 123, *Accounting for Stock-Based Compensation* ( SFAS 123 ). In accordance with the modified-prospective transition method, results for prior periods have not been restated.

Prior to the January 1, 2006, adoption of SFAS 123(R), we accounted for stock-based awards to employees using the intrinsic value method in accordance with APB Opinion No. 25, *Accounting for Stock Issued to Employees*. All options granted under the stock-based compensation plans had an exercise price equal to the fair market value of the stock at the date of grant. Accordingly, no compensation expense, other than for restricted stock, was recognized for our stock-based compensation associated with stock options.

The following table illustrates the effect on net income and net income per share for the three and nine month periods ended September 30, 2005, had we applied the fair value recognition provision of SFAS 123 to the stock option awards. Disclosures for the three and nine month periods ended September 30, 2006, are not presented because the amounts are recognized in the consolidated financial statements.

|  | Nine Month Period<br>Ended Sept. 30, 2005<br>(Pro Forma)<br>(in thousands except<br>per share data) | Three Month Period<br>Ended Sept. 30, 2005<br>(Pro Forma)<br>(in thousands except<br>per share data) |
|--|---|--|
| Net income as reported:  | \$ 16,753   | \$ 6,820   |
| Add:   |   |  |
| Total stock-based compensation expense included in the determination of net income as reported, net of taxes of \$94 and \$33 for the nine and three months ended Sept. 30, 2005, respectively | 147   | 51   |
| Deduct:  |   |  |
| Total stock-based compensation determined under fair value based method for all awards, net of taxes of \$1,569 and \$482 for the nine and three months ended Sept. 30, 2005, respectively     | (3,711)   | (1,189)  |
| Pro forma net income:  | \$ 13,189   | \$ 5,682   |
| Net income per share:  |   |  |
| Basic:   |   |  |
| As reported  | \$ 0.66   | \$ 0.27  |
| Pro forma  | 0.52  | 0.22   |
| Diluted:   |   |  |
| As reported  | \$ 0.65   | \$ 0.27  |
| Pro forma  | 0.52  | 0.22   |

The fair value for stock awards was estimated at the date of grant using the Black-Scholes-Merton ( BSM ) option valuation model. Options granted are valued using the single option valuation approach and compensation expense is recognized using a straight-line method. Total stock-based compensation expense recognized in the consolidated statement of operations for the three and nine month periods ended September 30, 2006, was \$1.4 million and \$4.3 million, respectively, before income taxes. The related deferred tax benefit for non-qualified stock option expense was approximately \$360,000 and \$1.1 million, respectively, for the three and nine month periods ended September 30, 2006. No amount of stock-based compensation expense was capitalized as part of the carrying cost of our assets.

SFAS 123(R) requires that stock-based compensation expense be recognized only for those options and awards expected to vest. Therefore, stock-based compensation expense for the three and nine month periods ended September 30, 2006, have been reduced for estimated forfeitures. Forfeitures are estimated at the date of grant based on our historical experience and expectations of future behavior. Prior to adoption of SFAS 123(R), the effect of forfeitures on the pro forma expense amounts was recognized as the forfeitures occurred.

**Table of Contents**

The fair value for stock awards was estimated using the BSM option valuation model with the following weighted average assumptions.

|   | Nine Month Periods   |             | Three Month Periods  |             |
|---|----------------------|-------------|----------------------|-------------|
|   | Ended Sept. 30, 2005 |             | Ended Sept. 30, 2005 |             |
|   | 2006                 | (Pro Forma) | 2006                 | (Pro Forma) |
| Expected term (in years)                | 3.6                  | 4.9         | 3.6                  | 4.4         |
| Expected stock price volatility         | 47%                  | 54%         | 45%                  | 50%         |
| Risk-free interest rate                 | 4.6%                 | 3.7%        | 4.8%                 | 4.1%        |
| Expected dividend yield                 | 0.0%                 | 0.0%        | 0.0%                 | 0.0%        |
| Estimated fair value per option granted | \$ 9.75              | \$ 11.66    | \$ 10.07             | \$ 8.55     |

The expected term of the options represents the estimated period of time from grant until exercise and is based on historical experience of similar awards, giving consideration to the contractual terms, vesting schedules and expectations of future employee behavior. Expected stock price volatility is based on historical volatility of our stock for a period at least equal to the expected term. The risk-free interest rate is based on the implied yield available on United States Treasury zero-coupon issues with an equivalent remaining term. We have not paid dividends in the past and do not plan to pay any dividends in the near future.

The following table presents the impact of our adoption of SFAS 123(R) on selected line items from our condensed consolidated financial statements for the nine and three months ended September 30, 2006.

|   | Nine Month Periods                      |                                    | Three Month Periods                     |                                    |
|---|---|------------------------------------|---|------------------------------------|

|   | As Reported<br>Following SFAS<br>123(R) | If Reported<br>Following<br>APB 25 | As Reported<br>Following SFAS<br>123(R) | If Reported<br>Following<br>APB 25 |
| Condensed consolidated statement of operations: |   |                                    |   |                                    |
| Income from operations                          | \$ 34,617                               | \$ 38,491                          | \$ 13,509                               | \$ 14,741                          |
| Income before taxes                             | \$ 23,971                               | \$ 27,847                          | \$ 9,433                                | \$ 10,665                          |
| Net income                                      | \$ 13,587                               | \$ 16,499                          | \$ 5,289                                | \$ 6,227                           |
| Net income per share:                           |   |                                    |   |                                    |
| Basic   | \$ 0.49                                 | \$ 0.60                            | \$ 0.19                                 | \$ 0.23                            |
| Diluted   | \$ 0.49                                 | \$ 0.59                            | \$ 0.19                                 | \$ 0.22                            |

Prior to the adoption of SFAS 123(R) we presented all tax benefits resulting from the exercise of stock options as operating cash inflows in the consolidated statements of cash flows, in accordance with the provisions of the Emerging Issues Task Force ( EITF ) Issue No. 00-15, *Classification in the Statement of Cash Flows of the Income Tax Benefit Received by a Company upon Exercise of a Nonqualified Employee Stock Option*. SFAS 123(R) requires the benefits of tax deductions in excess of the compensation cost recognized for those options to be classified as financing cash inflows when they are realized rather than operating cash inflows, on a prospective basis. Excess tax benefits generated during the nine month period ended September 30, 2006, were not material.

*Recent accounting pronouncements:* In November 2005, the FASB issued Staff Position No. FAS 123(R)-3, *Transition Election Related to Accounting for the Tax Effect of Share-Based Payment Awards* ( FSP 123(R)-3 ). This pronouncement provides an alternative method of calculating the excess tax benefits available to absorb any tax deficiencies recognized subsequent to the adoption of SFAS 123(R). We have up to one year from the effective date of FSP 123(R)-3 to make a one-time election to adopt the transition method. We are currently evaluating these alternative methods.

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* ( FIN 48 ). This interpretation clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, and disclosure. FIN 48 is effective for fiscal years beginning after December 15, 2006. We are currently in the process of evaluating the impact FIN 48 will

## Edgar Filing: COINSTAR INC - Form 10-Q

have on our Consolidated Financial Statements.

In September 2006, the SEC staff issued Staff Accounting Bulletin ( SAB ) 108 Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements (SAB 108). SAB 108 requires that public companies utilize a dual-approach to assessing the quantitative effects of financial misstatements. This dual approach includes both an income statement focused assessment and a balance sheet focused assessment. The guidance in SAB 108 must be applied to annual financial statements for fiscal years ending after November 15, 2006. The Company is currently assessing the impact that adoption of SAB 108 will have on its consolidated financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measures ( SFAS 157 ), which defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measures required under other accounting

pronouncements, but does not change existing guidance as to whether or not an instrument is carried at fair value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. We are currently reviewing the provisions of SFAS 157 to determine the impact to the Company s consolidated financial statements.

*Reclassifications:* Certain reclassifications have been made to the prior period amounts to conform to the current period presentation.

**Table of Contents****NOTE 2: TRAVELEX MONEY TRANSFER LIMITED - ACQUISITION**

On May 31, 2006, we acquired Travelex Money Transfer Limited ( TMT ) for \$27.5 million in cash. The acquisition was effected pursuant to the Agreement for the Sale and Purchase of the Entire Issued Share Capital of Travelex Money Transfer Limited dated April 30, 2006, between Travelex Limited, Travelex Group Limited and Coinstar. In addition to the purchase price, we incurred an estimated \$1.6 million in transaction costs, including costs relating to legal, accounting and other directly related charges. During the three months ended September 30, 2006, a working capital payment of \$2.8 million was made to TMT. As a result of the payment, which was pursuant to the acquisition agreement, the associated goodwill balance increased. The results of operations of TMT from June 1, 2006, to September 30, 2006, are included in our consolidated statement of operations.

TMT is one of the leading money transfer networks in terms of agent locations and countries in which they do business. In addition to company-owned locations, TMT has agreements with banks, post offices, and other retail locations to supply its service. TMT was established in mid-2003 and uses leading edge Internet-based technology to provide consumers with an easy-to-use, reliable and cost-effective way to send money around the world. We acquired TMT in order to enhance our e-pay offerings, diversify our service offerings and expand our geographic reach internationally. The assets and operations of TMT are included in our e-payment services business results and are shown as part of our international business segment in Note 7.

The acquisition was recorded under the purchase method of accounting and the purchase price was allocated based on the fair value of the assets acquired and liabilities assumed.

The total purchase consideration consists of the following:

|                                     | (in thousands) |
|-------------------------------------|----------------|
| Cash paid for acquisition of TMT    | \$ 27,484      |
| Estimated acquisition related costs | 1,582          |
|                                     | \$ 29,066      |

The total purchase consideration has been allocated to the assets acquired and liabilities assumed, including identifiable intangible assets, based on their respective fair values at the acquisition date. The accounting for the purchase price allocation is preliminary and is subject to possible adjustments in the future, based on our final analysis of certain liabilities. The following unaudited condensed balance sheet data presents the preliminary determination of the fair value of the assets acquired and liabilities assumed.

|                                   | (in thousands)   |
|-----------------------------------|------------------|
| <b>Assets acquired:</b>           |                  |
| Cash and cash equivalents         | \$ 2,801         |

|                                   | 11,575           |
| <b>Total consideration</b>        | <b>\$ 29,066</b> |

**Table of Contents**

Goodwill of \$21.8 million, representing the excess of the purchase price over the fair value of tangible and identifiable intangible assets acquired in the merger, will not be amortized, consistent with the guidance in FASB Statement No. 142, *Goodwill and Other Intangible Assets* ( SFAS 142 ). No amount of this goodwill is expected to be deductible for tax purposes. We engaged a third-party consultant and used expectations of future cash flows to estimate the fair value of the acquired intangible assets and a portion of the purchase price was allocated to the following identifiable intangible assets:

| (in thousands, except years)         | Purchase Price | Estimated Useful lives in Years | Estimated             |
|--------------------------------------|----------------|---------------------------------|-----------------------|
|                                      |                |                                 | Weighted Average      |
|                                      |                |                                 | Useful lives in Years |
| Intangible assets:                   |                |                                 |                       |
| Internal use software                | \$ 4,690       | 5.00                            | 2.64                  |
| Agent relationships                  | 2,900          | 10.00                           | 3.26                  |

| Tradename and non-compete agreements | 280            | 2.00                            | 0.07                  |
| Total                                | \$ 8,890       |                                 | 6.77                  |

Amortization expense relating to this acquisition for the three and nine month periods ended September 30, 2006, was approximately \$0.2 million and \$0.5 million, respectively. Based on identified intangible assets recorded as of September 30, 2006, and assuming no subsequent impairment of the underlying assets, the annual estimated aggregate amortization expense will be as follows:

| Amortization |         |
|--------------|---------|
| Year         | Expense |
| 2006         | \$ 921  |
| 2007         | 1,474   |
| 2008         | 1,399   |
| 2009         | 1,399   |
| 2010         | 1,384   |
| 2011         | 826     |
| 2012         | 436     |
| 2013         | 351     |
| 2014         | 290     |
| 2015         | 290     |
| 2016         | 120     |

The following unaudited pro forma information represents the results of operations for Coinstar, Inc. inclusive of TMT for the three and nine month periods ended September 30, 2006 and 2005, as if the acquisition had been consummated as of January 1, 2006 and January 1, 2005, respectively. This pro forma information does not purport to be indicative of what may occur in the future:

In March 2006, one of our existing vehicle lease agreements was amended, resulting in a change of classification of the lease from operating to capital. Non-cash purchases of vehicles financed by capital lease obligations related to this amendment resulted in the capitalization of approximately \$7.5 million in the first quarter of 2006.

**NOTE 4: COMPREHENSIVE INCOME**

Comprehensive income, net of related tax effects, is as follows:

**NOTE 5: STOCK-BASED COMPENSATION PLANS**

*Stock options and awards:* Stock options and awards are granted to employees under the 2000 Amended and Restated Equity Incentive Plan (the 2000 Plan ) and the 1997 Amended and Restated Equity Incentive Plan (the 1997 Plan ). Options awarded since 2005 vest annually over 4 years and expire after 5 years. Prior to 2005, options awarded generally vest over 4 years and expire after 10 years. We issue new shares of our common stock upon exercise of stock options.

A summary of stock option activity during the nine month period ended September 30, 2006, is as follows:

| Shares | Weighted<br>average<br>exercise | Weighted<br>average remaining<br>contractual term | Aggregate intrinsic<br>value<br>(in thousands) |
|--------|---------------------------------|---|--|

**Table of Contents**

As of September 30, 2006, total unrecognized stock-based compensation expense related to unvested stock options was approximately \$7.0 million. This expense is expected to be recognized over a weighted average period of approximately 23 months. During the three and nine month periods ended September 30, 2006, the total intrinsic value of stock options exercised was approximately \$358,000 and \$1.3 million, respectively.

Stock options have been granted to officers and employees from 1997 to 2006 to purchase common stock at prices ranging from \$5.37 to \$32.48 per share, which represented market value at the date of grant and our best estimate of market value for grants issued prior to our initial public offering. Starting with the adoption of SFAS 123(R) on January 1, 2006, we started recognizing any compensation expense related to the options issued under either the 2000 Plan or the 1997 Plan.

At September 30, 2006, there were 5,131,123 shares of unissued common stock reserved for issuance under all the stock plans of which 2,466,421 shares were available for future grants. The following table summarizes information about common stock options outstanding at September 30, 2006:

| Exercise Price | Options Outstanding                                 |   | Options Exercisable                                 |                                 |
|----------------|---|---|---|---------------------------------|
|                | Number of options outstanding at September 30, 2006 | Weighted average remaining contractual life | Number of options exercisable at September 30, 2006 | Weighted average exercise price |
| \$ 5.37        | 574,068   | 5.52  | 441,890   | \$ 15.00                        |
| \$ 18.20       | 669,195   | 5.96  | 523,385   | 20.19                           |
| \$ 21.25       | 605,291   | 5.11  | 423,622   | 22.99                           |
| \$ 23.31       | 678,598   | 5.99  | 133,619   | 24.42                           |
| \$ 24.91       | 137,550   | 5.55  | 92,858  | 28.96                           |
|                | 2,664,702   | 5.66  | 1,615,374   | 20.36                           |

*Restricted stock awards:* Restricted stock awards are granted to certain officers and non-employee directors under the 1997 Plan, which vest annually over four years and one year, respectively. During 2005, the Company granted 85,050 restricted stock awards with a weighted average fair value of \$24.49 per share, the respective market price stock at grant date. The restricted share units require no payment from the grantee and compensation cost is recorded based on the market price on the grant date and is recorded equally over the vesting period. Compensation expense related to restricted stock awards totaled approximately \$348,000 and \$213,000 for the nine month periods ended September 30, 2006 and September 30, 2005, respectively. Compensation expense related to restricted stock awards totaled approximately \$130,000 and \$75,000 for the three month periods ended September 30, 2006 and September 30, 2005, respectively.

As of September 30, 2006, total unrecognized stock-based compensation expense related to unvested restricted stock awards was approximately \$1.1 million. This expense is expected to be recognized over a weighted average period of approximately 33 months. During the nine month period ended September 30, 2006, the total fair value of restricted stock awards vested was approximately \$300,000. During the three month period ended September 30, 2006, no restricted stock awards vested.

The following table presents summary restricted stock award activity for the nine months ended September 30, 2006:

|                                | Shares   | Weighted average grant date fair value |
|--------------------------------|----------|--|
| Non-vested, December 31, 2005  | 82,750   | \$ 24.49                               |
| Granted                        | 7,500    | 22.77                                  |
| Vested                         | (12,050) | 24.90                                  |
| Forfeited                      |          |  |
| Non-vested, September 30, 2006 | 78,200   | 24.25                                  |

**Table of Contents****NOTE 6: INCOME PER SHARE**

Basic net income per share is computed by dividing the net income available to common stockholders for the period by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and potential common shares outstanding (if dilutive) during the period. Potential common shares, composed of incremental common shares issuable upon the exercise of stock options and warrants, are included in the calculation of diluted net income per share to the extent such shares are dilutive.

The following table sets forth the computation of basic and diluted net income per share for the periods indicated:

|   | Nine Month Periods<br>Ended September 30, |           | Three Month Periods<br>Ended September 30, |          |
|---|---|-----------|--|----------|
|   | 2006                                      | 2005      | 2006                                       | 2005     |
| (in thousands)  |   |           |  |          |
| <b>Numerator:</b>   |   |           |  |          |
| Net income  | \$ 13,587                                 | \$ 16,753 | \$ 5,289                                   | \$ 6,820 |
| <b>Denominator:</b>                                       |   |           |  |          |
| Weighted average shares for basic calculation             | 27,692                                    | 25,372    | 27,607                                     | 25,491   |
| Incremental shares from employee stock options and awards | 285                                       | 265       | 303  | 194      |
| Weighted average shares for diluted calculation           | 27,977                                    | 25,637    | 27,910                                     | 25,685   |

For the nine month periods ended September 30, 2006 and 2005, options and unvested restricted stock awards to acquire 1.2 million and 1.2 million shares of common stock, respectively, were excluded from the computation of dilutive net income per common share because their impact would be antidilutive. For the three month periods ended September 30, 2006 and 2005, 1.0 million and 1.6 million shares were excluded, respectively.

**NOTE 7: BUSINESS SEGMENT INFORMATION**

SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*, requires that companies report separately in the financial statements certain financial and descriptive information about operating segments profit or loss, certain specific revenue and expense items and segment assets. The method for determining what information is reported is based on the way that management organizes the operating segments for making operational decisions and assessments of financial performance. Our chief operating decision maker is considered to be the Chief Executive Officer ( CEO ). We are organized into two reportable business segments: the North American business (which includes the United States, Canada, Mexico and Puerto Rico), and our International business (which includes the United Kingdom). The total revenue of the North American segment mainly relates to operations located within the United States, and the total revenue of the International segment mainly relates to the operations located within the United Kingdom. Goodwill arising from our acquisition of TMT has been included in the international business segment. Goodwill arising from all other acquisitions has been allocated to the North American segment.

Currently, we do not use product line financial performance as a basis for business operating decisions. However, our CEO does analyze our revenue based on revenue generated from our coin-counting and e-payment services business separate from revenue generated from our entertainment service business. Revenue for these two product lines is as follows:

|                                      | Nine Month Periods<br>Ended September 30,<br>2006 |                   | Three Month Periods<br>Ended September 30,<br>2006 |                   |

**NOTE 8: RELATED PARTY TRANSACTIONS**

Randall J. Fagundo, President of our entertainment services subsidiary, is a member of a limited liability company which has agreed to lease to Coinstar a 31,000 square foot building located in Louisville, Colorado. The terms of the agreement provide for a ten year lease term, commencing March 1, 2003, at monthly rental payments ranging from \$25,353 for the first year to \$33,076 for the tenth year, together with additional payments in respect of the tenant's proportionate share of the maintenance and insurance costs and property tax assessments for the leased premises. We believe that the terms of this lease are comparable to those that would be entered into between unrelated parties on an arms length basis.

Levine Investments Limited Partnership, a shareholder of Coinstar, has agreed to lease to Coinstar three buildings located in Arlington Heights, Illinois, Van Nuys, California and Chandler, Arizona. The terms of these agreements, commencing November 1, 2005, provide for monthly rental payments ranging from \$16,250 to \$22,000, together with additional payments in respect of the tenant's proportionate share of the maintenance and insurance costs and property tax assessments for the leased premises. These leases expire at various times through November 1, 2007. We believe that the terms of these leases are comparable to those that would be entered into between unrelated parties on an arms length basis.

Approximately \$2.2 million of our accounts receivable balance is due from a related party of our e-payment subsidiary. This receivable arose in the ordinary course of business and relates to the purchase of prepaid air time.

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion and analysis should be read in conjunction with the Consolidated Financial Statements and related Notes included elsewhere in this Quarterly Report on Form 10-Q. Except for the consolidated historical information, the following discussion contains forward-looking statements that involve risks and uncertainties, such as our objectives, expectations and intentions. Our actual results could differ materially from results that may be anticipated by such forward-looking statements and discussed elsewhere herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below, those discussed under the caption Risk Factors and those discussed elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made in this report and in our other reports filed with the SEC that attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.*

#### **Overview**

We are a multi-national company offering a range of 4<sup>th</sup> Wall solutions for retailers' storefronts consisting of self-service coin counting; entertainment services such as skill-crane machines, bulk vending machines and kiddie rides; and e-payment services such as stored value cards, payroll cards, prepaid MasterCard® cards, prepaid wireless products and money transfer services. We also offer self-service DVD kiosks where consumers can rent or purchase movies through our strategic investments in DVDXpress and Redbox. These products and services are convenient, reliable, safe and fun. Providing a combination of our 4<sup>th</sup> Wall products and services greatly expands our cross-selling opportunities. We also offer a range of point-of-sale terminals, stand-alone e-payment kiosks and e-payment enabled coin-counting machines in drugstores, universities, shopping malls, supermarkets and convenience stores in the United States and the United Kingdom.

We launched our business in North America with the installation of the first Coinstar® coin-counting machine in the early 1990s, and in 2001 we began offering our coin services in the United Kingdom. Our coin-counting machines have counted and processed more than 290 billion coins worth more than \$15.0 billion in more than 420 million self-service transactions. We now own and operate approximately 13,100 coin-counting machines (approximately 7,300 of which are e-payment enabled) in the United States, Canada, Puerto Rico and the United Kingdom and more than 295,000 entertainment services machines in the United States, Puerto Rico and Mexico. We also utilize more than 19,500 point-of-sale terminals and over 400 non-coin-counting kiosks for e-payment services in the United States and the United Kingdom.

Our strategy, embodied in our 4<sup>th</sup> Wall concept, is based on cross-selling our full range of products and services to retailers in each of these historically separate categories. In addition, we believe that we will increase operating efficiencies by combining and concentrating our products and services in our retailers' storefronts. While the entertainment services market is relatively mature and has experienced slow growth, we believe that we have significant opportunities in combining it with self-service coin counting, e-payment services and DVD kiosks.

We expect to continue devoting significant resources to building our sales organization in connection with our 4<sup>th</sup> Wall cross-selling strategy, adding administrative personnel to support our growing organization and developing the information technology systems and infrastructure necessary to support our products and services. We expect to continue evaluating new marketing and promotional programs to increase consumer utilization of our services as well as further expand our product research and development efforts.

#### **Coin services**

We are the leader in the self-service coin-counting services market. We own and operate the only multi-national fully automated network of self-service coin-counting machines. We estimate that at any one time, there is approximately \$10.5 billion worth of coin sitting idle in households in the United States. In 2005, consumers processed more than \$2.3 billion worth of coin through our coin-counting machines.

We own and service all of our coin-counting machines. Consumers feed loose change into the machines, which count the change and then dispense vouchers or, in some cases, at the consumer's election, issue e-payment products. Each voucher lists the dollar value of coins counted, less our transaction fee, which is typically 8.9% of the value of coins counted. In certain cases, when an e-payment product is issued instead of a voucher, the consumer does not pay a fee.

#### **Entertainment services**

We are the leading owner and operator of skill-crane and bulk vending machines in the United States. We estimate that the market for our entertainment services is approximately \$1.1 billion annually in the United States.

**Table of Contents**

Our entertainment services machines consist primarily of skill-crane machines, bulk vending machines and kiddie rides, which total over 295,000 pieces of equipment. Generally, approximately 65% of our entertainment services revenue is derived from skill-crane machines that dispense plush toys, novelties and other items. As with our coin services business, we own and service all of our entertainment services machines, providing a convenient, fun and trouble-free service to retailers and consumers.

**E-payment services**

We offer e-payment services, including loading prepaid wireless accounts, loading and reloading stored value cards, loading and reloading prepaid MasterCard® cards and prepaid phone cards, provide payroll card services and, with the acquisition of Travelex Money Transfer Limited ( TMT ), now offer money transfer services. We believe these and other e-payment services represent a significant growth opportunity for us. We offer various e-payment services through point-of-sale terminals, stand-alone e-payment kiosks and e-payment-enabled coin-counting machines in supermarkets, drugstores, universities, shopping malls and convenience stores. We have relationships with national wireless carriers, such as Sprint, Verizon, T-Mobile, Virgin Mobile and Cingular Wireless. We generate revenue for ourselves and pay our retailers and agents a fee through our commissions earned on the sales of e-payment services.

**Results of Operations**

The following table shows revenue and expense as a percent of revenue for the periods indicated:

|                                   | Nine Month Periods<br>Ended September 30, |        | Three Month Periods<br>Ended September 30, |        |

| Income from operations            | 8.7%                                      | 10.6%  | 9.6%                                       | 11.9%  |

**Three Month Periods Ended September 30, 2006 and 2005***Revenue*

Revenue increased to \$140.0 million or 18.0% in the three months ended September 30, 2006, from \$118.7 million for the comparable prior year period. Our revenue increased as a result of two primary factors, the acquisition of additional entertainment and e-payment subsidiaries during the second half of 2005 and an increase in coin-counting activity. The increase in coin-counting activity is primarily due to a greater number of installed machines and increased trial and repeat usage.

Revenue for our coin and e-payment services increased 19.7% from \$58.8 million for the three months ended September 30, 2005, to \$70.4 million for the three months ended September 30, 2006, as a result of an increase in the number of transactions, an increase in the number of coin-counting machines and e-payment point-of-sale locations in service and the volume of coins processed by the machines in service during this period. The total dollar value of coins processed through our network increased to approximately \$695 million during the three months ended September 30, 2006, from approximately \$635 million for the comparable prior year period. The installed base of coin-counting machines was approximately 13,100 at September 30, 2006, up from approximately 12,400 machines at September 30, 2005.

Entertainment services revenue increased 16.2% from \$59.9 million for the three months ended September 30, 2005 to \$69.6 million for the three months ended September 30, 2006. This increase was primarily due to our increased installed machine base after our acquisition of The Amusement Factory L.L.C. ( Amusement Factory ) during the fourth quarter of 2005. Our installed base of entertainment machines increased from approximately 183,000 at September 30, 2005 to approximately 295,000 at September 30, 2006. The increase was primarily noted in our bulk vending machines. Our entertainment services revenue is derived primarily from skill-crane machines, which generally comprises

Edgar Filing: COINSTAR INC - Form 10-Q

approximately 65% of our entertainment services revenue, and bulk vending machines installed in retail locations.

---

## **Table of Contents**

### *Direct Operating Expenses*

Direct operating expenses for our 4<sup>th</sup> Wall product and service offerings consist of expenses associated with our coin-counting, entertainment services and e-payment services operations and support, as follows:

For coin services and e-payment services, these expenses consist primarily of the cost of (1) the percentage of transaction fees we pay to our retailers, (2) coin pick-up, transportation and processing expenses and (3) field operations support and related expenses.

For entertainment services, these expenses consist primarily of (1) the fees we pay our retailers as commissions, (2) the cost of plush toys and other products dispensed from the skill-crane and bulk-vending machines and (3) field operations support and related expenses.

Direct operating expenses increased to \$90.7 million in the three months ended September 30, 2006, from \$78.0 million in the comparable prior year period. As the majority of our direct operating expenses are variable expenses, these expenses increased primarily due to our increased revenues during the three months ended September 30, 2006, compared to the three months ended September 30, 2005. Additionally, as of January 1, 2006, we adopted SFAS 123(R) which requires us to expense stock option compensation. Approximately \$257,000 of stock compensation expense has been recognized as direct operating expense during the three months ended September 30, 2006. Direct operating expenses as a percentage of revenue decreased to 64.8% in the three months ended September 30, 2006, from 65.7% in the comparable prior year period. As part of our strategy, we are focused on achieving cost efficiencies. These efficiencies primarily include savings associated with combining our field service operations, creating a more efficient route structure and reducing the amount of drive time. We plan to complete our field service integration by year end, and expect to realize ongoing operational savings during the remainder of 2006 and the foreseeable future.

### *Marketing*

Our marketing expenses consist primarily of marketing, advertising and public relations efforts in existing market regions and startup marketing expenses incurred to launch new services as well as existing services in new regional markets.

Marketing expenses increased to \$4.6 million in the three months ended September 30, 2006, from \$2.8 million in the comparable prior year period. We have been directing most of our advertising dollars toward regional broadcasting and promotions as we introduce e-payment features on our coin-counting machines and other e-payment product channels like our gift card mall offerings. During the third quarter of 2006 we increased our national advertising media with cable television and magazine ads. We continue to expand our gift card and e-certificate offerings regionally and will use regional advertising to introduce these products in new markets. This directed marketing and advertising approach continues driving increased trial and repeat usage of both our coin services offerings and e-payment products. Since our national marketing expenditures increased, marketing as a percentage of revenue increased to 3.3% in the three months ended September 30, 2006, from 2.3% in the comparable prior year period.

### *Research and Development*

Our research and development expenses consist primarily of development costs to design complementary new product ideas to enhance our existing products and services on our coin-counting machine software, network applications, machine improvements and new product development. We intend to continue to invest in research and development.

Research and development expenses increased to \$1.5 million in the three months ended September 30, 2006, from \$1.4 million in the comparable prior year period due to ongoing product development. Since revenues increased significantly and our research and development expenditures remained relatively consistent, research and development expenses as a percentage of revenue decreased to 1.0% for the three months ended September 30, 2006, from 1.2% in the comparable prior year period.

### *General and Administrative*

Our general and administrative expenses consist primarily of administrative support for field operations, customer service, systems and engineering support, computer network operations, finance, human resources, occupancy expenses, legal expenses and insurance.

General and administrative expenses increased to \$14.7 million for the three months ended September 30, 2006, from \$9.5 million in the comparable prior year period. General and administrative expenses increased due to several factors including the adoption of SFAS 123(R) on January 1, 2006, acquisitions of businesses after the third quarter of 2005 and higher consulting costs related to internal control, legal and other compliance during 2006. Approximately \$1.0 million of the

---

**Table of Contents**

total stock compensation expense recognized during the third quarter of 2006 was allocated to general and administrative expenses. General and administrative expenses as a percentage of revenue increased to 10.5% in the three months ended September 30, 2006, from 8.0% in the comparable prior year period.

*Depreciation and Other*

Our depreciation and other expenses consist primarily of depreciation charges on our installed coin-counting and entertainment services machines as well as on computer equipment and leased automobiles. In certain instances, we prepay amounts to our retailers that are treated as machine installation costs. These costs are expensed over the contract term. The expense is included in depreciation and other expenses in the accompanying consolidated statements of operations and cash flows.

Depreciation and other expenses increased to \$13.4 million in the three months ended September 30, 2006, from \$11.7 million in the comparable prior year period. Depreciation expense increased primarily due to our increased base of installed machines, primarily bulk vending machines. Depreciation and other expenses as a percentage of revenue decreased to 9.6% in the three months ended September 30, 2006, from 9.9% in the comparable prior year period.

*Amortization of Intangible Assets*

Our amortization expense consists of amortization of intangible assets including retailer and agent relationships that were valued in connection with our acquisitions.

Amortization of intangible assets increased to \$1.7 million in the three months ended September 30, 2006, from \$1.1 million in the comparable prior year period. Amortization expense of intangible assets increased due to acquisitions of our subsidiary companies over the past twelve months. Our intangible assets are mainly comprised of the value assigned to acquired retailer and agent relationships, and to a lesser extent, acquired internally developed software from our subsidiary companies. Amortization expense as a percentage of revenue increased to 1.2% in the three months ended September 30, 2006, from 1.0% in the comparable prior year period.

*Other Income and Expense*

Interest income and other, net, increased to \$487,000 in the three months ended September 30, 2006, from \$345,000 in the comparable prior year period.

Losses from equity investments were \$443,000 in the three months ended September 30, 2006, compared to income of \$127,000 in the comparable prior year period. Our equity investments currently consist of non-controlling investments in our e-payment and DVD kiosk services.

Interest expense increased to \$4.1 million in the three months ended September 30, 2006, from \$3.4 million in the comparable prior year period. The increased interest expense is primarily due to increasing interest rates over the year.

*Income Tax Expense*

The effective income tax rate for the third quarter of 2006 was 43.9% compared with 39.1% for the third quarter of 2005. The increase in 2006 is primarily attributable to the tax treatment of incentive stock options ( ISOs ) under SFAS 123(R), which are now expensed for financial statement reporting purposes, however, are not generally deductible for tax purposes. This has the effect of decreasing book income as compared to taxable income, thus increasing the overall effective tax rate. The effective tax rate also differed from the federal statutory rate in both periods mainly due to state taxes. In accordance with APB 23, we have not recorded United States income taxes for our United Kingdom subsidiaries. During the three months ended September 30, 2006, we determined that the undistributed earnings of our United Kingdom subsidiaries will be permanently invested in our United Kingdom operations to support continued growth.

*Nine Month Periods Ended September 30, 2006 and 2005*

*Revenue*

Revenue increased to \$396.4 million in the nine months ended September 30, 2006, from \$334.1 million for the comparable prior year period. Our revenue grew as a result of two primary factors, the acquisition of additional entertainment and e-payment subsidiaries during the second

## Edgar Filing: COINSTAR INC - Form 10-Q

half of 2005 and an increase in coin-counting activity. The increase in coin-counting activity is primarily due to a greater number of installed machines and increased trial and repeat usage.

---

**Table of Contents**

Revenue for our coin and e-payment services increased from \$161.9 million for the nine months ended September 30, 2005, to \$188.4 million for the nine months ended September 30, 2006, or 16.4%, as a result of an increase in the number of transactions, an increase in the number of coin-counting machines and e-payment point-of-sale locations in service and the volume of coins processed by the machines in service during this period. The total dollar value of coins processed through our network increased to approximately \$1.9 billion during the nine months ended September 30, 2006, from approximately \$1.7 billion for the comparable prior year period.

Entertainment services revenue increased 20.8% from \$172.2 million for the nine months ended September 30, 2005 to \$208.0 million for the nine months ended September 30, 2006. This increase was primarily due to our increased installed machine base after our acquisition of Amusement Factory during the fourth quarter of 2005. Our installed base of entertainment machines increased from approximately 183,000 at September 30, 2005 to approximately 295,000 at September 30, 2006. The increase was primarily noted in our bulk vending machines.

*Direct Operating Expenses*

Direct operating expenses increased to \$263.4 million in the nine months ended September 30, 2006, from \$225.3 million in the comparable prior year period. As the majority of our direct operating expenses are variable expenses, these expenses increased primarily due to our increased revenues during the nine months ended September 30, 2006, compared to the nine months ended September 30, 2005. Additionally, as of January 1, 2006, we adopted SFAS 123(R) which requires us to expense stock option compensation. Approximately \$789,000 of stock compensation expense has been recognized as direct operating expense during the nine months ended September 30, 2006. Direct operating expenses as a percentage of revenue decreased to 66.5% in the nine months ended September 30, 2006, from 67.4% in the comparable prior year period. As part of our strategy, we are focused on achieving cost efficiencies. These efficiencies primarily include savings associated with combining our field service operations, creating a more efficient route structure and reducing the amount of drive time. We plan to complete our field service integration by year end, and expect to realize ongoing operational savings during the remainder of 2006 and the foreseeable future.

*Marketing*

Marketing expenses increased to \$8.9 million in the nine months ended September 30, 2006, from \$5.7 million in the nine months ended September 30, 2005. During 2006, we have increased our national advertising expenditures compared to 2005 by advertising on national cable networks and magazine publications. In addition, during both 2006 and 2005, we used regional advertising to introduce e-payment products as they became available in various areas of the country. This marketing and advertising approach continues driving increased trial and repeat usage of both our coin services offering and e-payment products. Marketing as a percentage of revenue increased to 2.3% in the nine months ended September 30, 2006, from 1.7% in the comparable prior year period.

*Research and Development*

Research and development expenses decreased to \$4.1 million in the nine months ended September 30, 2006, from \$4.3 million in the comparable 2005 period due to ongoing cost containment measures and timing of expenditures. Since revenues increased and our research and development expenditures remained relatively consistent, research and development expenses as a percentage of revenue decreased to 1.0% for the nine months ended September 30, 2006, from 1.3% in the comparable prior year period.

*General and Administrative*

General and administrative expenses increased to \$41.2 million for the nine months ended September 30, 2006, from \$26.8 million in the comparable prior year period. General and administrative expenses increased due to several factors including the adoption of SFAS 123(R) on January 1, 2006, acquisitions of businesses after the first half of 2005 and higher consulting costs related to internal control, legal and other compliance during 2006. Approximately \$3.2 million of the total stock compensation expense recognized during the nine months ended September 30, 2006, was allocated to general and administrative expenses. General and administrative expenses as a percentage of revenue increased to 10.4% in the nine months ended September 30, 2006, from 8.0% in the comparable prior year period.

*Depreciation and Other*

Depreciation and other expenses increased to \$39.6 million in the nine months ended September 30, 2006, from \$33.5 million in the comparable prior year period. Depreciation expense increased primarily due to our increased base of installed machines, primarily bulk vending machines. Depreciation and other expenses as a percentage of revenue was 10.0% for both the nine months ended September 30, 2006 and 2005.

---

**Table of Contents***Amortization of Intangible Assets*

Amortization of intangible assets increased to \$4.5 million in the nine months ended September 30, 2006, from \$3.3 million in the comparable prior year period. Amortization expense of intangible assets increased due to acquisitions of our subsidiary companies over the past twelve months. Our intangible assets are mainly comprised of the value assigned to acquired retailer and agent relationships and, to a lesser extent, acquired internally developed software from our subsidiary companies. Amortization expense as a percentage of revenue increased to 1.1% in the nine months ended September 30, 2006, from 1.0% in the comparable prior year period.

*Other Income and Expense*

Interest income and other, net, increased to \$1.4 million in the nine months ended September 30, 2006, from \$1.1 million in the comparable prior year period.

Income from equity investments decreased to \$52,000 in the nine months ended September 30, 2006, from \$442,000 in the comparable 2005 period. Our equity investments currently consist of non-controlling investments in our e-payment and DVD kiosk services.

Interest expense and interest expense related to early retirement of debt increased to \$11.8 million in the nine months ended September 30, 2006, from \$9.3 million in the comparable prior year period. The increased interest expense is primarily due to increasing interest rates over the year and our early paydown of \$16.9 million term debt during March 2006. The early paydown of our term debt accelerated recognition of approximately \$238,000 of interest expense from deferred financing fees recorded as early retirement of debt expense.

*Income Tax Expense*

The effective income tax rate for the nine months ended September 30, 2006, was 43.3% compared with 39.0% for the nine months ended September 30, 2005. The increase in 2006 is primarily attributable to the tax treatment of ISOs under SFAS 123(R), which are now expensed for financial statement reporting purposes, however, are not generally deductible for tax purposes. This has the effect of decreasing book income as compared to taxable income, thus increasing the overall effective tax rate. The effective tax rate also differed from the federal statutory rate in both periods mainly due to the impact of state taxes. In accordance with APB 23, we have not recorded United States income taxes for our United Kingdom subsidiaries. During the three months ended September 30, 2006, we determined that the undistributed earnings of our United Kingdom subsidiaries will be permanently invested in our United Kingdom operations to support continued growth.

**Liquidity and Capital Resources**

Our business involves collecting and processing large volumes of cash, most of it in the form of coins. We present three categories of cash on our balance sheet: cash and cash equivalents, cash in machine or in transit, and cash being processed. Cash in machine or in transit represents coin residing in our coin-counting or entertainment services machines or being transported or counted by carriers which is not immediately available to us until it has been collected and deposited. Cash being processed represents coin residing in our coin-counting or entertainment services machines or being processed by carriers which we are mainly obligated to use to settle our accrued liabilities payable to our retailers.

As of September 30, 2006, we had cash and cash equivalents, cash in machine or in transit, and cash being processed totaling \$162.1 million, which consisted of cash and cash equivalents immediately available to fund our operations of \$30.7 million, cash in machine or in transit of \$61.4 million and cash being processed of \$70.0 million. Working capital was \$81.7 million at September 30, 2006, compared with \$101.2 million at December 31, 2005. The decrease in net working capital was primarily the result of cash paid to retire \$18.3 million of term debt, of which \$16.9 million was a mandatory early retirement of debt based on an excess cash sweep position in our credit facility agreement and \$1.4 million was for scheduled quarterly principal payments, as well as the normal variances of our accounts payable and other accrued liabilities balances due to timing of payments.

Net cash provided by operating activities was \$68.9 million for the nine months ended September 30, 2006, compared to net cash provided by operating activities of \$56.9 million for the nine months ended September 30, 2005. Cash provided by operating activities increased even though net income was lower for the nine months ended September 30, 2006, than the comparable prior year period as the result of an increase of non-cash expenses included in net income for the period ended September 30, 2006, as well as a decreased use of cash from changes in operating assets and liabilities. The increase of cash provided by operating activities during the period ended September 30, 2006, was mainly due to higher non-cash expenses for depreciation and recognition of stock-based compensation compared to the comparable prior year period.

---

**Table of Contents**

Net cash used by investing activities for the nine month period ended September 30, 2006, was \$56.1 million compared to \$56.3 million in the comparable prior year period. Net cash used by investing activities consisted primarily of acquisition of subsidiary companies and capital expenditures made in each of the nine month periods ended September 30, 2006 and 2005, mainly for the purchase of coin and entertainment machines. As of September 30, 2006, we had entered into certain purchase agreements with suppliers of our machines, which require aggregate future purchases for coin and entertainment machines and components in the amount of \$12.2 million.

Net cash used by financing activities for the nine month period ended September 30, 2006, was \$27.7 million. This amount represented cash used to make scheduled principal payments of \$1.4 million and an additional mandatory principal payment of \$16.9 million on our term loan, repurchase of our common stock of \$8.0 million and \$4.1 million on capital lease payments, offset by net proceeds from the exercise of stock options of \$2.7 million. Net cash provided by financing activities for the nine months ended September 30, 2005 was \$0.3 million.

On May 31, 2006, we acquired TMT for \$27.5 million in cash. The acquisition was effected pursuant to the Agreement for the Sale and Purchase of the Entire Issued Share Capital of Travelex Money Transfer Limited dated April 30, 2006, between Travelex Limited, Travelex Group Limited and Coinstar. In addition to the purchase price, we incurred an estimated \$1.6 million in transaction costs, including costs relating to legal, accounting and other directly related charges. During the three months ended September 30, 2006, a working capital payment of \$2.8 million was made to TMT. As a result of the payment, which was pursuant to the acquisition agreement, the associated goodwill balance increased. The results of operations of TMT for the months of June through September 2006 are included in our consolidated statement of operations.

On December 1, 2005, we invested \$20.0 million to obtain a 47.3% interest in Redbox. We are accounting for our ownership under the equity method in our consolidated financial statements. Our 47.3% interest in this investment includes a conditional consideration agreement to contribute an additional \$12.0 million if Redbox achieves certain targets within a one year period.

On August 5, 2005, we entered into a credit agreement to provide DVDExpress with a \$4.5 million credit facility. On July 28, 2006, the credit agreement was amended to incrementally increase the credit commitment amount up to \$7.3 million at set measurement dates extending through July 1, 2007. Loans made pursuant to the credit facility are secured by a first security interest in substantially all of DVDExpress' assets as well as a pledge of their capital stock. Interest on the unpaid balance of the loan will be at an annual rate equal to LIBOR plus three percent. As of September 30, 2006, DVDExpress has drawn down \$5.5 million on this credit facility. On December 7, 2005 we signed an asset purchase option agreement that allows Coinstar to purchase substantially all of DVDExpress' business assets and liabilities in exchange for any outstanding debt and accrued interest on the credit facility plus \$10,000 and contingent consideration of up to \$3.5 million based on achievement of specific conditions. Effective December 7, 2005, we have consolidated the fair value of DVDExpress' financial results into our consolidated financial statements in accordance with FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities* (FIN 46R).

As of September 30, 2006, our goodwill balance was \$206.8 million. During the current year we acquired TMT, allocating \$21.8 million to goodwill. Our goodwill balance increased an additional \$5.2 million in the first nine months of 2006 primarily due to purchase price adjustments relating to working capital and earnout payments from our acquisitions.

On July 7, 2004, we entered into a senior secured credit facility to finance our acquisition of American Coin Merchandising, Inc. (ACMI, n/k/a Coinstar Entertainment Services Inc.). This facility provided for advances totaling up to \$310.0 million, consisting of a \$60.0 million revolving credit facility and a \$250.0 million term loan facility. Fees for this facility of approximately \$5.7 million are being amortized over the life of the revolving line of credit and the term loan which are 5 years and 7 years, respectively. Loans under this facility are secured by a first security interest in substantially all of our assets and the assets of our subsidiaries, as well as a pledge of our subsidiaries' capital stock. The credit facility matures on July 7, 2011. As of September 30, 2006, our original term loan balance of \$250.0 million had been reduced to \$187.4 million.

Advances under this credit facility may be made as either base rate loans (the higher of the Prime Rate or Federal Funds Effective Rate) or LIBOR rate loans at our election. Applicable interest rates are based upon either the LIBOR or base rate plus an applicable margin dependent upon a consolidated leverage ratio of outstanding indebtedness to EBITDA (to be calculated in accordance with the terms specified in the credit facility). Our consolidated leverage ratios are based upon either LIBOR plus 200 basis points or the base rate plus 100 basis points. At September 30, 2006, our interest rate on this facility was 7.51%. On October 10, 2006, due to decreases in the LIBOR rate, our interest rate was adjusted to 7.37%.

The credit facility contains standard negative covenants and restrictions on actions by us including, without limitation, restrictions on indebtedness, liens, fundamental changes or dispositions of our assets, payments of dividends or common stock repurchases, capital expenditures, foreign investments, acquisitions, sale and leaseback transactions and swap agreements, among other restrictions. In addition, the credit facility requires that we meet certain financial covenants, ratios

---

**Table of Contents**

and tests, including maintaining a maximum consolidated leverage ratio and a minimum interest coverage ratio, as defined in the agreement. As of September 30, 2006, we were in compliance with all covenants.

Following our mandatory debt paydown of \$16.9 million this year, our quarterly principal payments were reduced from \$522,000 to \$479,000. These quarterly principal payments will continue until March 31, 2011. The remaining principal balance of \$178.8 million will be due July 7, 2011, the maturity date of the facility. Commitment fees on the unused portion of the facility, currently 37.5 basis points, may vary and are based on our consolidated leverage ratio.

On September 23, 2004, we purchased an interest rate cap and sold an interest rate floor at zero net cost, which protects us against certain interest rate fluctuations of the LIBOR rate, on \$125.0 million of our variable rate debt under our credit facility. The interest rate cap and floor became effective on October 7, 2004 and expires on October 9, 2007. The interest rate cap and floor consists of a LIBOR ceiling of 5.18% and a LIBOR floor that steps up in each of the three years beginning October 7, 2004, 2005 and 2006. The LIBOR floor rates are 1.85%, 2.25% and 2.75% for each of the respective three-year periods. Under this interest rate hedge, we will continue to pay interest at prevailing rates plus any spread, as defined by our credit facility, but will be reimbursed for any amounts paid on LIBOR in excess of the ceiling. Conversely, we will be required to pay the financial institution that originated the instrument if LIBOR is less than the respective floor rates. We have recognized the fair value of the interest rate cap and floor as an asset of \$304,000 at September 30, 2006.

Under the terms of our existing credit facility, we are permitted to repurchase up to \$3.0 million of our common stock plus proceeds received after July 7, 2004, from the issuance of new shares of capital stock under our employee equity compensation plans. As of September 30, 2006, the authorized cumulative proceeds received from option exercises or other equity purchases under our equity compensation plans totaled \$13.3 million bringing the total authorized for purchase under our credit facility to \$16.3 million. After taking into consideration our share repurchases of \$8.0 million during the year, the remaining amount authorized for repurchase under our credit facility is \$8.3 million.

Apart from our credit facility limitations, on October 27, 2004, our Board of Directors authorized repurchase of up to \$22.5 million of our common stock plus additional shares equal to the aggregate amount of net proceeds received after January 1, 2003, from our employee equity compensation plans. This authorization would currently allow us to repurchase up to \$17.8 million of our common stock, however, we will not exceed our credit facility limits.

As of September 30, 2006, we had seven irrevocable letters of credit that totaled \$17.2 million. These letters of credit, which expire at various times through December 2007, are available to collateralize certain obligations to third parties. As of September 30, 2006, no amounts were outstanding under these letters of credit.

As of September 30, 2006, our net deferred income tax assets totaled \$10.6 million. In the nine months ended September 30, 2006, we recorded \$10.4 million of income tax expense, which, as a result of our federal and state NOL carryforwards, will not result in cash payments for income taxes other than those required by some foreign jurisdictions and states, and federal alternative minimum taxes. We paid \$1.4 million for income taxes during the nine months ended September 30, 2006.

**Off-Balance Sheet Arrangements**

As September 30, 2006, off-balance sheet arrangements are comprised of our conditional consideration agreement related to our equity investments, obligations under our interest rate hedge, purchase commitments, our operating leases and letters of credit. We have no other off-balance sheet arrangements that have had or are reasonably likely to have a material current or future effect on our financial condition or consolidated financial statements.

**Table of Contents****Contractual Obligations**

The tables below summarize our contractual obligations and other commercial commitments as of September 30, 2006:

| Contractual Obligations            | Total      | Payments Due by Period |             |             |               |
|------------------------------------|------------|------------------------|-------------|-------------|---------------|
|                                    |            | Less than 1 year       | 1 - 3 years | 4 - 5 years | After 5 years |
| As of September 30, 2006           |            | (in thousands)         |             |             |               |
| Long-term debt                     | \$ 187,389 | \$ 1,917               | \$ 3,835    | \$ 181,637  | \$            |
| Capital lease obligations (1)      | 14,477     | 6,733                  | 6,793       | 951         |               |
| Operating leases (2)               | 10,344     | 4,457                  | 3,995       | 1,297       | 595           |
| Purchase obligations (3)           | 21,205     | 21,205                 |             |             |               |
| Asset retirement obligations (4)   | 1,610      |                        |             |             | 1,610         |
| Total contractual cash obligations | \$ 235,025 | \$ 34,312              | \$ 14,623   | \$ 183,885  | \$ 2,205      |

- (1) Capital lease obligations represent gross minimum lease payments, which include interest.
- (2) One of our lease agreements is a triple net operating lease. Accordingly, we are responsible for other obligations including, but not limited to, taxes, insurance, utilities and maintenance as incurred.
- (3) Purchase obligations consist of outstanding purchase orders issued in the ordinary course of our business.
- (4) Asset retirement obligations represent total estimated costs for future retirement of machines. In accordance with FASB Interpretation No. 47, *Accounting for Asset Retirement Obligations - an Interpretation of FASB Statement No. 143*, we recorded a liability based on an estimated fair value of these total future asset retirement obligations.

| Other Commercial Commitments | Total     | Amount of Commitment Expiration Per Period |             |             |               |
|------------------------------|-----------|--|-------------|-------------|---------------|
|                              |           | Less than 1 year                           | 1 - 3 years | 4 - 5 years | After 5 years |
| As of September 30, 2006     |           | (in thousands)                             |             |             |               |
| Letters of credit            | \$ 17,217 | \$ 16,217                                  | \$ 1,000    | \$          | \$            |
| Total commercial commitments | \$ 17,217 | \$ 16,217                                  | \$ 1,000    | \$          | \$            |

We believe our existing cash, cash equivalents and amounts available to us under our credit facility will be sufficient to fund our cash requirements and capital expenditure needs for at least the next 12 months. After that time, the extent of additional financing needed, if any, will depend on the success of our business. If we significantly increase installations beyond planned levels, or if coin counting machine volumes generated or entertainment services machine plays are lower than historical levels, our cash needs may increase. Furthermore, our future capital requirements will depend on a number of factors, including cash required by future acquisitions, consumer usage, the timing and number of machine installations, the number of available installable machines, the type and scope of service enhancements and the cost of developing potential new product and service offerings and enhancements.

**Table of Contents****Quarterly Financial Results**

The following table sets forth selected unaudited quarterly financial information for the last eight quarters. This information has been prepared on the same basis as our audited consolidated financial statements and includes, in the opinion of management, all normal and recurring adjustments that management considers necessary for a fair presentation of the quarterly results for the periods. The operating results for any quarter are not necessarily indicative of the results for future periods. Certain reclassifications have been made to the prior year balances to conform with the current year presentation.

|   | Three Month Periods Ended                            |                     |                      |                  |                   |                  |                   |                  |

(1) Includes the impact of expensing stock option compensation under SFAS 123(R).

**Seasonality**

We have historically experienced seasonality in our coin services revenues, with highest revenues experienced in the third calendar quarter, followed by the fourth calendar quarter, and relatively lower revenues in the first half of the year. Our entertainment revenues also experienced seasonality, with peak revenues in the fourth quarter and periods surrounding the Easter holiday season. We expect our results of operations will continue to fluctuate both as a result of seasonal fluctuations and our revenue mix between relatively higher margin coin and e-payment services and relatively lower margin entertainment services.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The following discussion about our market risk involves forward-looking statements. Actual results could differ from those projected in our forward-looking statements.

## Edgar Filing: COINSTAR INC - Form 10-Q

We are subject to the risk of fluctuating interest rates in the normal course of business, primarily as a result of our credit facility and investment activities that generally bear interest at variable rates. Because our investments have maturities of three months or less, and our credit facility interest rates are based upon either the LIBOR or base rate plus an applicable margin, we believe that the risk of material loss is low and that the carrying amount of these balances approximates fair value. For our debt obligation which has a variable interest rate, the average rate presented reflects our projected credit facility interest rate of LIBOR plus a margin of 2.0% and the impact of our interest rate hedge on \$125.0 million of the outstanding debt balance.

**Table of Contents**

The table below presents principal amounts, at book value, by year of maturity and our average interest rate.

| Liabilities<br>(in thousands) | Expected Maturity Date |          |          |          |          |            | September 30, 2006 |               | Average<br>interest<br>rate |
|-------------------------------|------------------------|----------|----------|----------|----------|------------|--------------------|---------------|-----------------------------|
|                               | 2006                   | 2007     | 2008     | 2009     | 2010     | Thereafter | Total              | Fair<br>Value |                             |
| Long-term debt:               |                        |          |          |          |          |            |                    |               |                             |
| Variable rate                 | \$ 479                 | \$ 1,917 | \$ 1,918 | \$ 1,917 | \$ 1,918 | \$ 179,240 | \$ 187,389         | \$ 187,389    | 7.1%                        |

We have variable-rate debt that, at September 30, 2006, had an outstanding balance of \$187.4 million. Under the terms of our credit facility, we have entered into a zero net cost interest rate hedge on \$125.0 million of this outstanding debt balance which will decrease our sensitivity to changes in the LIBOR rate. Based on our outstanding debt obligations and our interest rate hedge as of September 30, 2006, an increase of 1.0% in interest rates over the next year would increase our annualized interest expense, net of interest income earned on our interest rate hedge, and related cash payments by approximately \$625,000; a decrease of 1.0% in interest rates over the next year would decrease our annualized interest expense and related cash payments by approximately \$1.8 million. Such potential increases or decreases are based on certain simplified assumptions, including minimum quarterly principal repayments made on variable-rate debt for all maturities and an immediate, across-the-board increase or decrease in the level of interest rates with no other subsequent changes for the remainder of the periods.

**Item 4. Controls and Procedures**

We maintain a set of disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act)). Management, with the participation of our chief executive officer and chief financial officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report and has determined that such disclosure controls and procedures are effective.

We also maintain a system of internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act). No changes in our internal control over financial reporting occurred during the quarter ended September 30, 2006, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II. OTHER INFORMATION****Item 1A. Risk Factors**

*You should carefully consider the risks described below before making an investment decision. The risks and uncertainties described below are not the only risks facing our company. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations. If any of the following risks actually occur, our business could be harmed, the trading price of our common stock could decline and you could lose all or part of your investment.*

*Certain statements in the risks described below are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include any statement that may predict, forecast, indicate, or imply future results, performance, or achievements. Forward-looking statements can be identified by the use of terminology such as believe, anticipate, expect, estimate, future, may, will, seek, should, project, potential, continue, plans, intends, likely, or other similar words or phrases. Except for historical matters, the matters discussed in this Quarterly Report on Form 10-Q and other statements or filings we make from time to time may be forward-looking statements. We caution you that forward-looking statements involve risks and uncertainties that may cause actual results to differ materially from the forward-looking statements. We are including this cautionary statement to make applicable and take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 for any such forward-looking statements.*

***The termination, non-renewal or renegotiation on materially adverse terms of our contracts with one or more of our significant retailers could seriously harm our business, financial condition and results of operations.***

We derive substantially all of our revenue from two sources: coin-counting machines installed in high-traffic supermarkets and entertainment services machines installed in supermarkets, mass merchandisers, restaurants, bowling centers, truckstops, warehouse clubs and similar

locations. The success of our business depends in large part on our ability to

---

**Table of Contents**

maintain contractual relationships with our existing retailers in locations where we can operate profitably. If we are unable to maintain or renew such contracts with our existing retailers, our business, financial condition and results of operations could be significantly impaired. For example, our coin and entertainment services agreements with Wal-Mart, Inc. and the Kroger Company account for approximately 27.1% and 11.2% of our consolidated revenue, respectively. If we are unable to provide existing retailers like Wal-Mart and Kroger with direct and indirect benefits that are superior to or competitive with other providers or systems (including coin-counting systems which the retailers could operate themselves or through a third party) or alternative potential uses of the floor space that our machines occupy, we may encounter difficulties maintaining existing retailer relationships.

Our typical contract term ranges from one to three years and automatically renews until we or our retail partner gives notice of termination before a certain time period prior to the end of the current term. Certain contract provisions with some of our retailers vary, including product offerings, the service fee we pay each retailer, frequency of service, and the ability to cancel the contract upon notice after a certain period of time. Our entertainment services relationship with Wal-Mart is governed by a contract that Wal-Mart may terminate at any time. Cancellation of this contract would seriously harm our business and reputation.

***We may be unable to continue to pay our retailers a service fee that allows us to operate our coin-counting and entertainment services machines at historical levels of profitability.***

We face ongoing pricing pressure from our retailers to increase the service fee we pay to them on coin and entertainment services or to make other financial concessions to win or retain business. If we are unable to respond effectively to ongoing pricing pressures, we may fail to retain certain retailers. These fee arrangements are based on our evaluation of certain unique factors with the retailer, such as total revenue, e-payment capabilities, long-term non-cancelable contracts, installation of our machines in high-traffic and/or urban or rural locations, new product commitments and other criteria. Together with other factors, an increase in service fees paid to our retailers could significantly increase our expenses relative to coin and entertainment services in future periods.

***We may be unable to attract new retailers and penetrate new markets and distribution channels.***

In order to continue our coin-counting and entertainment services machine installation growth, we will need to attract new retailers and develop operational or unit production cost efficiencies that make it feasible for us to penetrate lower density markets and/or new distribution channels. We may be unable to attract new retailers or drive down costs relating to the manufacture, installation or servicing of coin-counting or entertainment services machines to levels that would enable us to operate profitably in lower density markets or new distribution channels. If we are unable to do so, our future operating results could be adversely affected.

***We may be unable to identify and define product trends, as well as to anticipate, gauge and react to changing consumer demands in a timely manner.***

To be competitive, we need to develop new services that are accepted by the market and establish third-party relationships necessary to develop and commercialize such services. For example, toy and other products dispensed in our entertainment services machines must appeal to a broad range of consumers whose preferences cannot be predicted with certainty and are subject to change. If we misjudge the market for our toy products, we may be faced with significant excess inventories for some products and missed opportunities for other products. In addition, because we place orders for toy products well in advance of purchases by consumers, we could experience excess inventory if our consumers purchase fewer products than anticipated. In order to develop and commercialize new non-entertainment vending products or services, we will need to enhance the capabilities of our coin-counting machines and our network and establish market acceptance of such products or services. We cannot assure you that new or additional products or services that we may attempt to commercialize will be successful.

***We may be unable to achieve the strategic and financial objectives for our entry into the entertainment services business, and our failure to do so could materially and adversely affect our business, operating results and financial condition.***

We first entered the entertainment services business as a result of our acquisition of ACMI in July 2004. Since that time, we have expanded this line of business through other acquisitions, such as Amusement Factory. Our entertainment services business now represents our largest source of revenue. There are a number of financial and operational risks associated with our entry into this line of business. For example,

We may be unable to leverage the comparatively lower growth and lower margin entertainment services business with our coin-counting business.

---

**Table of Contents**

We may be unable to duplicate the operating results for the entertainment services business in line with pre-acquisition historical results or our expectations.

We may be unable to successfully integrate the acquired businesses' disparate operational, technical and administrative functions. Acquisition integration will take time and will divert significant management attention and other assets.

We may be unable to adequately anticipate and address the operational risks that are peculiar to this line of business. For example, as compared to our coin-counting business, our entertainment services business incurs higher operating expenses, due in part to such factors as maintaining inventory of consumer products to support our skill-crane and bulk vending machine business. Our experience in evaluating inventory of this kind is limited.

We may have assumed unknown liabilities when we acquired various entities and assets that now comprise our entertainment services business.

We may incur adverse accounting charges. For example, in connection with our acquisition of ACMI, we recorded approximately \$136.1 million of goodwill in connection with the acquisition that will not be amortized, but instead must be tested periodically for impairment. Any impairment of this goodwill in the future could result in substantial charges to our operating results.

We are subject to certain operational restrictions in view of our senior secured credit facility used to finance our acquisition of ACMI. For these and other reasons, we may be unable to achieve the strategic and financial objectives for our entry into the entertainment services business. Our failure to do so could materially and adversely affect our business, operating results and financial condition.

***We have substantial indebtedness.***

On July 7, 2004, we entered into a senior secured credit facility to finance our acquisition of ACMI. The credit facility consists of a \$60.0 million revolving credit facility and a \$250.0 million term loan facility, of which \$62.6 million has been repaid. The credit facility bears interest at variable rates pegged to prevailing interest rates. As a result, our operating results are exposed to risks of fluctuations in interest rates. Loans made pursuant to the credit facility are secured by a first security interest in substantially all of our assets and the assets of our subsidiaries, as well as a pledge of our subsidiaries' capital stock. The credit facility matures on July 7, 2011.

This debt financing may limit our ability to effect future financings or may negatively impact our business, financial condition, results of operations and growth. Substantial financial leverage poses the risk that we may not be able to generate sufficient cash flow to service the indebtedness, or to adequately fund our operations. Moreover, the credit facility governing our indebtedness contains financial and other covenants that could impair our flexibility to pursue growth opportunities. The credit facility contains negative covenants and restrictions relating to such things as certain common stock repurchases, liens, investments, capital expenditures, indebtedness, cash payments of dividends, and fundamental changes or dispositions of our assets. In addition, the credit facility requires that we meet certain financial covenants, ratios and tests, including maintaining a maximum consolidated leverage ratio and a minimum interest coverage ratio, all as defined in the credit facility. If the covenants are not met, our lenders would be entitled, under certain circumstances, to declare our indebtedness immediately due and payable.

***Competitive pressures could seriously harm our business, financial condition and results of operations.***

Our coin-counting business faces competition from supermarket retailers, banks and other companies that purchase and operate coin-counting equipment from companies such as ScanCoin AB, Cummins-Allison Corporation and others. Our retailers may choose to replace our coin-counting machines with competitor machines and operate such machines themselves or through a third party. In addition, retailers, some of which have significantly more resources than us, may decide to enter the self-service coin-counting business. Some banks and other competitors already provide coin-counting free of charge or for an amount that yields very low margins or that may not generate a profit at all. An expansion of the coin-counting services provided by any of these competitors could materially and adversely affect our business and results of operations.

Our entertainment services business faces competition from a number of regional and local operators of entertainment services equipment. Many of these competitors are engaged in expansion programs, and we experience intense competition for new locations and acquisition candidates.

## Edgar Filing: COINSTAR INC - Form 10-Q

Our entertainment services equipment also competes with other vending machines, coin-operated entertainment devices, and seasonal and bulk merchandise for sites within retail locations. We may be unable to maintain current sites in the retail locations or to obtain new sites in the future on attractive terms or at all. It is

---

**Table of Contents**

possible that a well-financed vending machine manufacturer or other vending machine operator with existing relationships with our retailers could compete with us in certain markets or capture additional market share at our expense.

***Defects, failures or security breaches in our coin-counting machines operating system could harm our business.***

The operation of our coin-counting machines depends on sophisticated software, computer networking and communication services that may contain undetected errors or may be subject to failures. These errors may arise particularly when new services or service enhancements are added. We have in the past experienced limited delays and disruptions resulting from upgrading or improving our operating systems. Future upgrades or improvements that may be necessary to expand and maintain our business could result in delays or disruptions that could seriously harm our operations. We also rely on a long-distance telecommunication network that is not owned by us and is subject to service disruptions. Further, while we have taken significant steps to protect the security of our network, security breaches may result from intentional acts of third parties or from computer viruses. Any service disruptions, whether due to errors or delays in our software or computing systems, interruptions or breaches in the communications network, or security breaches of the computer network system, could seriously harm our business, financial condition and results of operations.

***Lack of consumer confidence, whether real or perceived, in our coin-counting machines could harm our business.***

The accuracy of the coin-counting functionality of our machines is important to consumers and our retailers. The failure to maintain consumer confidence in our technology and systems could harm our business. Our inability to collect the data from our coin-counting machines could lead to a delay in processing coins and crediting the accounts of our retailers for vouchers that have already been redeemed. Any loss or delay in collecting coin data could seriously harm our operations.

***We may be unable to adequately protect or enforce our patents and other proprietary rights.***

Our success depends, in part, on our ability to protect our intellectual property and maintain the proprietary nature of our technology through a combination of patents, licenses and other intellectual property arrangements, without infringing the proprietary rights of third parties. We have over 60 United States and international patents relevant to aspects of self-service coin-counting, including patents regarding machine networking, fraud avoidance and voucher authentication. We also have additional patent applications pending in the United States and several foreign jurisdictions directed to our coin-counting and e-payment technologies.

Our patents may not be held valid if challenged, pending patent applications may not be issued, and other parties may claim rights in or ownership of our patents and other proprietary rights. Since many patent applications in the United States are not publicly disclosed until the patent is issued, others may have filed applications, which, if issued as patents, could cover our products or technology. Patents issued to us may be circumvented or fail to provide adequate protection of our technologies. Our competitors might independently develop or patent technologies that are substantially equivalent or superior to our technologies.

We also rely on trademarks, copyrights, trade secrets and other proprietary intellectual property to develop and maintain our competitive position. Although we protect our intellectual property in part by confidentiality agreements with our employees, consultants, vendors and corporate partners, these parties may breach these agreements. We may have inadequate remedies for any such breach and our trade secrets may otherwise become known or be discovered independently by our competitors. The failure to protect our intellectual property rights effectively or to avoid infringing the intellectual property rights of others could seriously harm our business, financial condition and results of operations.

Certain parties may assert claims of patent infringement or misappropriation against us based on current or pending United States and/or foreign patents, copyrights or trade secrets, or contracts. If such claims were successful, our business could be harmed. Defending our company and our retailers against these types of claims, regardless of their merits, could require us to incur substantial costs and divert the attention of key personnel. Parties making these types of claims may be able to obtain injunctive or other equitable relief, which could effectively block our ability to provide our coin-counting service and operate our coin-counting equipment in the United States and abroad. Such types of claims could also result in an award of substantial damages. If third parties have or obtain proprietary rights that our products infringe, we may be unable to obtain necessary licenses from others at a reasonable cost or at all. For example, we have from time to time engaged in discussions with a former supplier, ScanCoin AB, in an effort to clarify certain contract rights and obligations as well as ownership of certain of our intellectual property. In addition, if we instigate litigation to enforce our patents or protect our other proprietary rights, or to determine the validity and scope of other parties' proprietary rights, such litigation could cause us to spend significant financial and management resources.

**Table of Contents**

*Acquisitions involve risks that could harm our business and impair our ability to realize potential benefits from such acquisitions.*

As part of our business strategy, we have in the past sought and may in the future seek to acquire or invest in businesses, products or technologies that we feel could complement or expand our business. We may be unable to adequately address the financial, legal and operational risks raised by such acquisitions, which could harm our business and prevent us from realizing the projected benefits of the acquisitions. Further, the evaluation and negotiation of potential acquisitions, as well as the integration of an acquired business, will divert management time and other resources. In addition, we cannot assure you that any particular transaction, even if successfully completed, will ultimately benefit our business. Certain financial and operational risks related to acquisitions that may have a material impact on our business are:

use of cash resources and incurrence of debt and contingent liabilities in funding acquisitions,

stockholder dilution if an acquisition is consummated through an issuance of our securities,

amortization expenses related to acquired intangible assets and other adverse accounting consequences,

costs incurred in identifying and performing due diligence on potential acquisition targets that may or may not be successful,

difficulties and expenses in assimilating the operations, products, technology, information systems or personnel of the acquired company,

impairment of relationships with employees, retailers and affiliates of our business and the acquired business,

the assumption of known and unknown liabilities of the acquired company, including intellectual property claims,

entrance into markets in which we have no direct prior experience, and

impairment of goodwill arising from our acquisitions.

*Our future operating results may fluctuate.*

Our future operating results will depend significantly on our ability to continue to drive new and repeat consumer utilization of our coin-counting services and entertainment services equipment, our ability to develop and commercialize new products and services and the costs incurred to do so, and our ability to successfully integrate new lines of business into our operations. Our operating results have a history of fluctuating. Our future operating results also may fluctuate based upon many factors, including:

the transaction fee we charge consumers to use our services,

the amount of service fees that we pay to our retailers,

## Edgar Filing: COINSTAR INC - Form 10-Q

our ability to establish or maintain relationships with significant retailers,

the commercial success of our retailers, which could be affected by such factors as severe weather, strikes or general economic conditions,

fluctuations in revenue generated by our coin-counting and entertainment services equipment,

fluctuations in product cost and of operations caused by various factors including rising petroleum costs, labor costs and transportation costs,

our ability to effectively manage the product mix of our entertainment services equipment to maximize consumer preferences,

fluctuations in interest rates, which affects our debt service obligations,

the timing of, and our ability to develop and successfully commercialize, product enhancements and new products,

the level of product and price competition,

our success in maintaining and expanding our network and managing our growth,

the successful operation of our coin-counting network,

activities of and acquisitions or announcements by competitors,

the impact from any impairment of goodwill related to our acquisitions,

fluctuations in consumer spending patterns, and

relationships with manufacturers and suppliers.

---

## **Table of Contents**

In addition, we have historically experienced seasonality in our coin services business, with highest revenues experienced in the third calendar quarter, followed by the fourth calendar quarter, and relatively lower revenues in the first half of the year. Our entertainment business has also experienced seasonality, with peak revenues in the fourth quarter and periods surrounding the Easter holiday season. While our entertainment services business may offset the historical seasonality of the coin-counting business to some degree, we expect our results of operations will continue to fluctuate both as a result of seasonal fluctuations and our revenue mix between relatively higher margin coin and e-payment services and relatively lower margin entertainment services.

### ***Higher petroleum prices may adversely affect our operating results and reduce our profitability.***

We purchase a substantial amount of goods overseas, particularly plush toys and other products dispensed from our entertainment services machines, resulting in significant transportation-related costs. Petroleum-based resins are used in the manufacture of these products. In addition, we operate a large number of vehicles used by our field service personnel for the purpose of servicing and maintaining our coin-counting and entertainment services machines. Significant increases in petroleum prices during prior periods have negatively impacted our results of operations. The cost of petroleum is volatile and may increase as a result of natural disasters, political and geopolitical issues and otherwise. Further increases in petroleum prices may have an adverse affect on our operating results.

### ***We depend upon third-party manufacturers, suppliers and service providers***

We conduct limited manufacturing operations and depend on outside parties to manufacture key components of our coin-counting and entertainment services machines. We intend to continue to expand our installed base for coin-counting machines in North America and in the United Kingdom and for entertainment services machines in the United States and Mexico. Such expansion may be limited by the manufacturing capacity of our third-party manufacturers and suppliers. Third-party manufacturers may not be able to meet our manufacturing needs in a satisfactory and timely manner. If there is an unanticipated increase in demand for coin-counting machine or entertainment services equipment installations, we may be unable to meet such demand due to manufacturing constraints.

We obtain some key hardware components used in the coin-counting machines and entertainment services equipment from a limited number of suppliers. We may be unable to continue to obtain an adequate supply of these components in a timely manner or, if necessary, from alternative sources. If we are unable to obtain sufficient quantities of components or to locate alternative sources of supply on a timely basis, we may experience delays in installing or maintaining coin-counting machines or entertainment services equipment, either of which could seriously harm our business, financial condition and results of operations.

We rely on third-party service providers for substantial support and service efforts that we currently do not provide directly. In particular, we contract with third-party providers to arrange for pick-up, processing and deposit of coins as well as limited servicing of our machines. We generally contract with a single transportation provider and coin processor to service a particular region and either party generally can terminate the contracts with advance notice ranging from 30 to 90 days. We do not currently have, nor do we expect to have in the foreseeable future, the internal capability to provide back-up coin processing service in the event of a sudden disruption in service from a commercial coin processor. Any failure by us to maintain our existing coin processing relationships or to establish new relationships on a timely basis or on acceptable terms could harm our business, financial condition and results of operations.

### ***There are risks associated with conducting our business and sourcing goods internationally.***

We currently have coin operations in Canada and the United Kingdom. We also now have entertainment services equipment operating in Mexico. We expect to continue increasing our deployment of both coin-counting machines and entertainment services equipment internationally. Exchange rate fluctuations, restrictions on the repatriation of funds, adverse changes in tax, tariff and trade regulations, difficulties with foreign distributors and difficulties in managing an organization outside the United States could seriously harm the development of our business and ability to operate profitably.

In addition, substantially all of the plush toys and other products dispensed from our entertainment services machines are produced by foreign manufacturers, including a majority purchased directly from manufacturers in China. We purchase our other vending products from vendors who obtain a significant percentage of such products from foreign manufacturers. As a result, we are subject to changes in governmental policies, the imposition of tariffs, import and export controls, transportation delays and interruptions and political and economic disruptions that could disrupt the supply and timely delivery of products from such manufacturers. A reduction or interruption in supplies or a significant increase in the price of one or more supplies necessary for our toy manufacture, such as petroleum, could have a material adverse effect on our business. We also could be affected by labor strikes in the sea shipping, trucking and railroad industries. Such disruptions could interrupt supplies or increase our transportation costs and thereby reduce profit margins in a particular period.

---

## **Table of Contents**

***Our business, operating results and financial condition can be adversely affected by severe weather, natural disasters and other events beyond our control, such as fires, power failures, telecommunications loss and terrorist attacks.***

Our operational and financial performance is a direct reflection of customer use of and our ability to operate and service our coin-counting and entertainment services machines installed in retail and similar locations. Severe weather, natural disasters and other events beyond our control can, for extended periods of time, significantly reduce customer use of our machines as well as interrupt our own ability to manufacture, operate and service our machines. In some cases, severe weather, natural disasters and other events beyond our control may result in the total loss of our machines, which losses may not be fully covered by our insurance. For example, the hurricanes occurring in the gulf coast region of the United States in 2005 caused damage or operational interruptions to some of the retail and other locations where our machines are installed.

***We are subject to federal, state, local and foreign laws and government regulation specific to our business.***

Our business is subject to federal, state, local and foreign laws and government regulation, including government regulation relating to coins, toy safety, child protection, vehicle safety, access to machines in public places, charitable fundraising, the transfer of money or things of value, weights and measures, gaming, sweepstakes, contests and consumer protection. The application of existing laws and regulations, changes in or enactment of new laws and regulations that apply or may in the future apply to our current or future products or services, changes in governmental authorities' interpretation of the application of various government regulations to our business, or the failure or inability to gain and retain required permits and approvals could materially and adversely affect our business in the future. In addition, certain jurisdictions may also require us to hold certain licenses, permits and approvals in connection with the operation of our coin-counting and entertainment services machines. For example, in Washington state, skill-crane machines are subject to the licensing requirements of the Washington State Gambling Commission. There can be no assurance that we will be granted all necessary permits or approvals in the future or that current permits and approvals will be renewed. Given the unique nature of our business and new products and services we may develop in the future, the application of various laws and regulations to our business is uncertain.

Failure to comply with the laws and regulatory requirements of federal and state authorities could result in, among other things, revocation of required licenses or registrations, loss of approved status, termination of contracts with banks or retail representatives, administrative enforcement actions and fines, class action lawsuits, cease and desist orders and civil and criminal liability. The occurrence of one or more of these events could materially adversely affect our business, financial condition and results of operations.

***Our acquisition of TMT and the TMT Business subjects us to additional federal, state, local and foreign laws and government regulation, including regulatory risks relating to the operation of the TMT Business while we apply for our own licenses and approvals.***

On May 31, 2006, we acquired TMT, a company that is in the business of offering consumer remittance services, which we refer to as the TMT Business. In connection with the acquisition of TMT, we entered into a Transitional Services Agreement, ( "TSA" ), with Travelex Limited, ( "Travelex" ), the seller of TMT.

Under the TSA, affiliates of Travelex will continue to operate the TMT Business in certain jurisdictions, including the United States, until May 31, 2007 or until we obtain any required licenses or approvals to conduct the TMT Business in these jurisdictions and the business is transferred to us. There is no assurance that we will receive these required licenses or approvals before May 31, 2007 or thereafter, or that the TMT Business can be transferred to us in certain jurisdictions including in the United States.

Travelex and its affiliates are responsible for legal compliance and related risk with respect to the TMT Business in the United States and certain other jurisdictions under the TSA until the TMT Business in such jurisdictions is transferred. If Travelex or its affiliates or its or their employees violate a legal requirement in any of these jurisdictions, including a United States state or federal law or regulation applicable to the TMT Business, such a violation may delay or preclude the transfer of the TMT Business in that jurisdiction to us, or the violation may increase our costs of transferring the TMT Business or operating the TMT Business after the transfer.

When the TMT Business in the United States is transferred, we will be responsible for compliance with a variety of state laws and regulations, including licensing requirements, applicable to the TMT Business. Upon the transfer of the TMT Business in the United States, we also will be subject to United States federal anti-money laundering laws, including United States Department of the Treasury registration requirements, and the requirements of the Office of Foreign Assets Control, which prohibit transmitting money to specified countries or to or on behalf of prohibited individuals or entities. If we were to transmit money to or on behalf of, or otherwise conduct business with, a prohibited individual or entity, we could be required to pay significant damages, including fines and penalties. The USA PATRIOT Act mandates several anti-money laundering

---

## **Table of Contents**

requirements. Any violation of anti-money laundering laws could lead to significant fines and/or penalties, and could limit our ability to conduct business in the United States and other jurisdictions.

In addition, the TMT Business is subject to international regulation, which varies from country to country. In certain countries in which we operate, we are required to maintain licenses or other governmental approvals in order to operate the TMT Business. As described above, we will be responsible for compliance with these laws and regulatory requirements in those countries subject to the TSA when the TMT Business in those countries is transferred. Although most countries in which we operate or will operate the TMT Business do not regulate this business to the same degree as the United States, this could change in the future.

Failure to comply with the laws and regulatory requirements of the United States (both federal and state requirements) and those of the other countries in which we will operate the TMT Business could result in, among other things, revocation of required licenses or registrations, loss of approved status, termination of contracts with banks or retail representatives, administrative enforcement actions and fines, penalties or other damages, class action lawsuits, cease and desist orders, and/or other civil and criminal liability. The occurrence of one or more of these events could adversely affect our business, financial condition and results of operations. Furthermore, additions to or changes in the laws, regulations or other industry practices and standards in the United States or any of the foreign countries in which the TMT Business operates could also increase our compliance and other costs of doing business, require significant systems redevelopment, reduce the market for or value of our products or services or render our products or services less profitable or obsolete, lead to a loss of agents, and have an adverse effect on our results of operations.

***Recall of any of the products dispensed by our entertainment services machines or by the entertainment services industry generally could adversely affect our entertainment services business.***

Our entertainment services machines, and the entertainment services industry generally, are subject to regulation by the Consumer Product Safety Commission and similar state and international regulatory authorities. The toys and other products dispensed from our entertainment services machines could be subject to involuntary recalls and other actions by regulatory authorities. Concerns about product safety may lead us to voluntarily recall or discontinue offering selected products. Defects in any of our products distributed through our entertainment services machines could result in the rejection of our entertainment services products by consumers, damage to our reputation, lost sales, potential inventory valuation write-downs, excess inventory, diverted development resources and increased customer service and support costs, any of which could harm our business. Any such errors, defects or recalls may not be covered by insurance or cause our insurance costs to increase in future periods.

***We may be subject to product liability claims if people or property are harmed by our products and services.***

Some of the products we sell, especially through our entertainment services machines, may expose us to product liability claims arising from personal injury, death or property damage. Any such product liability claim may result in adverse publicity regarding us, our entertainment service machines and the products we sell. Even if we successfully defend ourselves against this type of claim, we could be forced to spend a substantial amount of money in litigation expenses and our management could be required to spend valuable time in defending against these claims. Our vendors may not indemnify us against product liability. There is a risk that such claims or liabilities may exceed, or fall outside the scope of, our insurance coverage and we cannot be certain that insurance will continue to be available to us on economically reasonable terms, or at all. Any imposition of product liability could harm our business, financial condition and operating results.

***Our stock price has been and may continue to be volatile.***

Our stock price has fluctuated substantially since our initial public offering in July 1997. For example, during the last twelve months ended September 30, 2006, the sale price of our common stock has ranged from \$17.88 to \$29.85 per share. The market price of our stock could decline from current levels or continue to fluctuate. The market price of our stock may be significantly affected by the following factors:

the termination, modification or non-renewal of one or more retail partner relationships,

operating results below market expectations and changes in, or our failure to meet, financial estimates of securities analysts or our own guidance,

## Edgar Filing: COINSTAR INC - Form 10-Q

trends and fluctuations in the use of our coin, entertainment and e-payment services,

period-to-period fluctuations in our financial results,

release of analyst reports,

**Table of Contents**

announcements regarding the establishment, modification or termination of relationships regarding the development of new products and services,

announcements of technological innovations or new products or services by us or our competitors,

ineffective internal controls,

industry developments, and

economic or other external factors.

In addition, the securities markets have experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also seriously harm the market price of our common stock.

***If we fail to maintain an effective system of internal controls, we may not be able to accurately report our financial results or prevent fraud.***

Effective internal controls are necessary for us to provide reliable financial reports and effectively prevent or detect fraud. Any inability to provide reliable financial reports or prevent or detect fraud could harm our business. We continue to evaluate our internal control procedures to satisfy the requirements of the Sarbanes-Oxley Act of 2002, which requires management and our auditors to evaluate and assess the effectiveness of our internal controls. If we fail to maintain the adequacy of our internal controls, as such standards are modified, supplemented or amended from time to time, we could be subject to regulatory scrutiny, civil or criminal penalties or shareholder litigation. In addition, failure to maintain adequate internal controls could result in financial statements that do not accurately reflect our financial condition.

***Our anti-takeover mechanisms may affect the price of our common stock and make it harder for a third party to acquire us without the consent of our board of directors.***

We have implemented anti-takeover provisions that may discourage takeover attempts and depress the market price of our stock. Provisions in our certificate of incorporation, bylaws and rights plan could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. Delaware law also imposes some restrictions on mergers and other business combinations between us and any acquirer of 15% or more of our outstanding common stock. Furthermore, Washington law may impose additional restrictions on mergers and other business combinations between us and any acquirer of 10% or more of our outstanding common stock. These provisions may make it harder for a third party to acquire us without the consent of our board of directors, even if the offer from a third party may be considered beneficial by some stockholders.

**Table of Contents****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

c) Under the terms of our existing credit facility, we are permitted to repurchase up to \$3.0 million of our common stock plus proceeds received after July 7, 2004, from the issuance of new shares of capital stock under our employee equity compensation plans. As of September 30, 2006, the authorized cumulative proceeds received from option exercises or other equity purchases under our equity compensation plans totaled \$13.3 million bringing the total authorized for purchase under our credit facility to \$16.3 million. After taking into consideration our share repurchases of \$8.0 million during the year, the remaining amount authorized for repurchase under our credit facility is \$8.3 million.

Apart from our credit facility limitations, on October 27, 2004, our Board of Directors authorized repurchase of up to \$22.5 million of our common stock plus additional shares equal to the aggregate amount of net proceeds received after January 1, 2003, from our employee equity compensation plans. This authorization would currently allow us to repurchase up to \$17.8 million of our common stock, however, we will not exceed our credit facility limits.

The following table summarizes information regarding shares repurchased during the period ended September 30, 2006.

| <b>Period</b>                         | <b>Total<br/>Number of<br/>Shares<br/>Repurchased</b> | <b>Average<br/>Price<br/>Paid per<br/>Share</b> | <b>Total Number of<br/>Shares Purchased as<br/>Part of the Publicly<br/>Announced<br/>Repurchase Program</b> | <b>Maximum<br/>Approximate Dollar<br/>Value of Shares that<br/>May Yet be<br/>Purchased Under<br/>the Program</b> |
|---------------------------------------|---|---|--|---|
| July 1 through 31, 2006               |   |   |  | \$ 9,614,412  |
| August 1 through 31, 2006             | 50,018  | \$ 24.79  | 50,018   | 9,077,605   |
| September 1 through 30, 2006          | 55,900  | \$ 28.26  | 55,900   | 8,262,913   |
| Three months ended September 30, 2006 | 105,918   | \$ 26.62  | 105,918  | \$ 8,262,913  |
