We will bear any cost of solicitation. Some of our officers and employees may solicit proxies by correspondence, telephone or in person, without extra compensation. We may also pay to banks, brokers, nominees and other fiduciaries their reasonable charges and expenses incurred in forwarding proxy material to their principals. It is expected that this proxy statement and the accompanying proxy will be mailed to our stockholders on or about July 9, 2007.

We have fixed the close of business on June 20, 2007 as the record date for the Annual Meeting. Only stockholders of record at the close of business on June 20, 2007 will be entitled to receive notice of, and to vote at, the Annual Meeting. As of June 20, 2007, there were outstanding and entitled to vote 32,441,119 shares of our common stock, \$.01 par value per share. Our by-laws require that a majority in interest of all stock issued, outstanding and entitled to vote at a meeting shall constitute a quorum. Abstentions and broker non-votes will be counted as present or represented for purposes of determining the existence of a quorum. A non-vote occurs when a broker or nominee holding shares for a beneficial owner does not vote on a proposal because the broker or nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

Proposal no. 1 (election of directors) requires the affirmative vote of a plurality of the votes cast by holders of our common stock entitled to vote thereon, provided that a quorum is present. Abstentions and broker non-votes will not be included in calculating the number of votes cast on Proposal no. 1. Proposal no. 2 (ratification of the appointment of our independent registered public accounting firm) requires the affirmative vote of a majority of the votes cast by holders of our common stock entitled to vote thereon, provided that a quorum is present. Abstentions and broker non-votes will not be included in calculating the number of votes cast on Proposal no. 2. Votes will be tabulated by American Stock Transfer & Trust Company, our transfer agent.

THE ENCLOSED PROXY, IF EXECUTED AND RETURNED, WILL BE VOTED AS DIRECTED ON THE PROXY OR, IN THE ABSENCE OF SUCH DIRECTION, FOR THE NOMINEES FOR DIRECTORS (PROPOSAL NO. 1) AND FOR THE RATIFICATION OF THE APPOINTMENT OF OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM (PROPOSAL NO. 2). IF ANY OTHER MATTERS SHALL PROPERLY COME BEFORE THE MEETING, THE SHARES REPRESENTED BY THE PROXY WILL BE VOTED BY THE HOLDERS OF THE PROXIES IN ACCORDANCE WITH THEIR BEST JUDGMENT. THE PROXY MAY BE REVOKED AT ANY TIME PRIOR TO EXERCISE BY FILING WITH OUR SECRETARY A WRITTEN REVOCATION, BY EXECUTING A PROXY WITH A LATER DATE, OR BY ATTENDING AND VOTING AT THE MEETING.

Our annual report to stockholders for the fiscal year ended March 31, 2007, including financial statements audited by Deloitte & Touche LLP, our independent registered public accounting firm, is being mailed to each of our stockholders simultaneously with this proxy statement.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Our Board of Directors currently consists of nine directors and is divided into three classes. We refer to these classes as Class I, Class II and Class III. The term of one class of directors expires each year at the annual meeting of stockholders. Each director also continues to serve as a director until his or her successor is duly elected and qualified. This year, the term of the Class III directors is expiring.

Our Board of Directors has nominated Michael R. Minogue and W. Gerald Austen, each to serve as a Class III director for a three-year term, until the 2010 Annual Meeting of Stockholders, and until their respective successors have been duly elected and qualified. Our other current Class III director, David Gottlieb, will not be standing for reelection to our Board of Directors upon the expiration of his term at the Annual Meeting.

Each of these nominees is currently serving on our Board of Directors. Mr. Minogue was elected by our Board of Directors as a Class III director in April 2004. Dr. Austen was elected by our stockholders as a Class III director at our Annual Meeting of Stockholders in August 2004. The term of each of Mr. Minogue and Dr. Austen will expire at the upcoming annual meeting.

If any nominee at the time of the election is unable or unwilling to serve or is otherwise unavailable for election, and our Board of Directors designates another nominee, the persons named as proxies will vote the proxy for such substitute, if any. Our Board of Directors has no reason to believe that either of the proposed nominees will be unable or unwilling to serve. The proposed nominees are not being nominated pursuant to any arrangement or understanding with any person.

Our Board of Directors recommends that you vote *FOR* the election of Mr. Michael R. Minogue and Dr. W. Gerald Austen.

PROPOSAL NO. 2

**RATIFICATION OF APPOINTMENT OF OUR
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Proposal No. 2 concerns the ratification of the appointment by our audit committee of Deloitte & Touche LLP (Deloitte & Touche) to be our independent registered public accounting firm for the fiscal year ending March 31, 2008.

Appointment for Fiscal 2007

Deloitte & Touche was engaged on November 9, 2006 as our new independent registered public accounting firm to audit our financial statements. During fiscal 2005, fiscal 2006, and the subsequent interim period through November 9, 2006, neither we nor anyone on our behalf consulted Deloitte & Touche regarding any of the matters referred to in Item 304(a)(2) of Regulation S-K. The decision to change independent registered public accounting firms was approved by our audit committee.

We and PricewaterhouseCoopers LLP, our independent registered public accounting firm before Deloitte & Touche, mutually agreed that PricewaterhouseCoopers would not continue as our independent registered public accounting firm. Accordingly, on November 9, 2006, we dismissed PricewaterhouseCoopers.

PricewaterhouseCoopers' reports on our financial statements for fiscal 2005 and fiscal 2006 did not contain an adverse opinion or a disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope or accounting principles. Moreover, during fiscal 2005, fiscal 2006, and the subsequent interim period through November 9, 2006, there were no disagreements between PricewaterhouseCoopers and us on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement, if not resolved to the satisfaction of PricewaterhouseCoopers, would have caused it to make reference to the subject matter of the disagreement in connection with its report.

We have given each of PricewaterhouseCoopers and Deloitte & Touche an opportunity to review the foregoing disclosures, and neither believes the disclosures are incorrect or incomplete.

Ratification of Appointment for Fiscal 2008

Under rules of the Securities and Exchange Commission, or SEC, and the Nasdaq Stock Market Inc., the appointment of our independent registered public accounting firm is the direct responsibility of our audit committee. Although ratification by our shareholders of this appointment is not required by law, our board believes that seeking shareholder ratification is a good practice, which provides shareholders an avenue to express their views on this important matter.

Our audit committee has reappointed Deloitte & Touche as our independent registered public accounting firm for the fiscal year ending March 31, 2008. Our board of directors recommends that shareholders vote to ratify the appointment. If our shareholders do not ratify the appointment of Deloitte & Touche, the audit committee may reconsider its decision. In any case, the audit committee may, in its discretion, appoint a new independent registered public accounting firm at any time during the year if it believes that such change would be in our best interest and the best interest of our shareholders. We expect that representatives of Deloitte & Touche will be present at the annual meeting. They will have an opportunity to make a statement if they wish and will be available to respond to appropriate questions from shareholders.

Our board of directors recommends that you vote *FOR* the proposal to ratify the appointment by our audit committee of Deloitte & Touche as our independent registered public accounting firm for fiscal 2008.

Directors who are not our employees receive an annual retainer of \$15,000 or an equivalent value of our Common Stock, at the individual's option, and \$1,200 for attendance at in-person meetings of our Board of Directors, \$1,000 for attendance at meetings of Committees of our Board of Directors and \$600 for attendance at all telephonic meetings. Our Lead Director receives an additional \$20,000 annually. The Chair of our Audit Committee receives \$1,500 for attendance at meetings of our Audit Committee.

We are able to award non-qualified stock options to our non-employee directors under any of our three active stock option plans with shares remaining available for future issuance: our 1989 Non-Qualified Stock Option Plan for non-employee directors, our 1998 Equity Incentive Plan and our 2000 Stock Incentive Plan. The currently eligible non-employee directors are Drs. Austen and Rose, Ms. Puhly, and Messrs. Dollens, Gottlieb, Lataif, O'Connell, and Termeer. It is currently our policy to grant each non-employee director who continues to be a director following our annual meeting of stockholders a stock option to purchase 8,000 shares of our common stock with an exercise price equal to the fair market value of our common stock on the date of grant, and vesting in full one year after the date of grant. It is also currently our policy to grant a stock option to purchase 25,000 shares of our common stock upon the appointment of new non-employee directors, with an exercise price equal to the fair market value of our common stock on the date of grant, and vesting annually over five years. Each of Dr. Austen, Ms. Puhly, and Messrs. Gottlieb, O'Connell, Lataif, Dollens and Termeer was granted an option to purchase 8,000 shares of our common stock under our 2000 Stock Incentive Plan on August 9, 2006. These options have an exercise price of \$13.21 per share and vest in full on August 8, 2007. Dr. Rose was granted an option to purchase 25,000 shares of our common stock under our 2000 Stock Incentive Plan upon his appointment to our board on May 30, 2007. This option has an exercise price of \$11.27 per share and vests annually over five years.

Our directors are also eligible for additional compensation in the event that they perform additional services for us in excess of the normal time commitments we expect of our directors. In fiscal 2007, the Company made no such payments.

The following table provides information regarding the compensation earned by our non-employee directors with respect to fiscal 2007. The compensation of Michael R. Minogue, our Chairman of the Board, is reported below under the heading Executive Compensation.

- (1) Ronald W. Dollens, Louis E. Lataif, Desmond H. O'Connell, Jr., Dorothy Puhly and Henri A. Termeer elected to receive their \$15,000 annual retainer in shares of our common stock. We issued 1,254 shares of common stock to each of such directors on May 15, 2007.

Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.

- (3) Stock options granted in fiscal 2007 had a grant date fair value of \$68,092 computed in accordance with SFAS No. 123(R) for each of the following directors: W. Gerald Austen, Ronald W. Dollens, David Gottlieb, Louis E. Lataif, Desmond H. O'Connell, Jr., Dorothy Puhly, and Henri A. Termeer. Generally, the

grant date fair value is the full amount that we would expense in our financial statements over the vesting schedule of the award. In calculating these values, we used the assumptions described in Note 11 to our consolidated financial statements included in our annual report on Form 10-K filed with the SEC for the year ended March 31, 2007. For stock options, fair value is calculated using the Black-Scholes value on the grant date. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.

(4) As of March 31, 2007, our non-employee directors held the following numbers of options:

Compensation Committee Interlocks and Insider Participation

Our Compensation Committee consists of W. Gerald Austen (Chair), Ronald W. Dollens and Henri A. Termeer. No member of our Compensation Committee is a former or current officer or employee. Mr. Minogue, while not a member of the Compensation Committee, makes recommendations to the Compensation Committee regarding the compensation of executive officers other than himself, including the awards of stock options, and often participates in the Committee's deliberations but does not vote on such matters. None of our executive officers serves as a member of the Board of Directors or Compensation Committee of any entity that has one or more executive officers serving as members of our Board of Directors or Compensation Committee.

Certain Relationships and Related-Person Transactions

There were no related-person transactions in fiscal 2007. Under its charter, the Audit Committee of the Board of Directors is responsible for reviewing any proposed related-party transaction, as defined under the rules of the Nasdaq Stock Market, Inc., and, if appropriate, approving such transaction. In addition, our conflict of interest policy provides that specified conflict of interest transactions are either prohibited or require the prior approval of our President. Examples of these conflict of interest transactions include serving as a director, officer or employee of or consultant to any competitor or any entity that does business with us or having a substantial direct or indirect interest in any entity that does business with us. Other than the foregoing, we have no established policies or procedures, written or otherwise, for the review, approval or ratification of transactions with related persons.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This compensation discussion and analysis describes the material elements of the Company's compensation programs as they relate to our executive officers who are listed in the following compensation tables, who are sometimes referred to as the named executive officers. This compensation discussion and analysis focuses on the information contained in the following tables and related footnotes, but also describes other arrangements and actions taken since the end of fiscal 2007 to the extent such discussion enhances the understanding of our executive compensation for fiscal 2007.

Overview

The Compensation Committee oversees and administers our executive compensation program. The primary objectives of the compensation programs are to attract, retain and motivate key executives and to reward executives for achieving Company objectives. The compensation program is designed to reward superior financial, strategic and operational performance that is achieved in a manner consistent with the Company's team-oriented values. Our executive officers are assessed and ranked on the basis of demonstrated results relative to pre-established goals, as well as subjective leadership qualities. The ranking that an executive officer receives each year generally has a direct and material impact on the cash bonus, option and equity grants that such executive officer receives as well as his or her annual increase in base salary. The compensation of executive officers in fiscal 2007 consisted of base salary, cash bonus, the grant of options and participation in benefit plans generally available to all employees. The largest component of the Company's annual compensation program is base salary, followed by cash bonuses. Equity incentives offer the opportunity to be a more substantial component of compensation provided that the management team is successful in achieving the corporate goals and the price of the Company's stock appreciates. As of March 31, 2007, equity incentives have been awarded to our executives in the form of grants of stock options under our 2000 Stock Incentive Plan, with the exception of a single restricted stock award to Mr. Minogue made in 2004 as an inducement to become our President and Chief Executive Officer. In addition, in fiscal 2008, we have begun granting restricted stock awards to executives, which are also granted under our 2000 Stock Incentive Plan.

Compensation Program Elements

Base Salary

We pay our named executive officers base salary to provide a baseline level of compensation that is both competitive with the external market and commensurate with each employee's past performance, experience, responsibilities and skills. The Company generally targets base salaries for our named executive officers around the median of our external market peers and then makes adjustments based on the factors described above. In fiscal 2007 the Compensation Committee of the Company selected and the Board of Directors agreed with the following companies as market peers: Arrow International Inc., Datascope Corp., Volcano Corporation and Thoratec Corp. The CEO recommended and the Compensation Committee approved base salary increases for fiscal 2008 for all of our named executive officers of 2%. This modest increase was meant to reflect the fact that the Company is not currently profitable and to foster fiscal discipline.

Cash Bonus

We maintain an annual cash bonus program, the purpose of which is to motivate and reward the attainment of the Company's annual financial, strategic and operational goals.

The Compensation Committee establishes and approves all Company goals based on recommendations made by management. Individual performance goals for named executive officers are recommended by Mr. Minogue and approved by the Compensation Committee, with those for Mr. Minogue approved by the Compensation Committee and the Lead Director.

Actual incentive awards can range from zero to more than target levels, depending on the degree to which the Company and the individual attain the pre-established goals for the particular year. Based on Company and individual performance toward specified goals, an individual leadership assessment and an executive's base salary relative to market, total cash compensation may be above or below market median.

For all named executive officers, annual incentive opportunities for fiscal 2007 were targeted at a level that represents a meaningful portion of our executive's current base salary. For fiscal 2007, target bonus opportunities for our named executive officers other than Mr. Minogue ranged from 31% to 51% of base salary. Mr. Minogue's fiscal 2007 target bonus opportunity was equal to 100% of his base salary, which the Compensation Committee believes is a standard level in the industry. For fiscal 2007, the Compensation Committee (and, in the case of Mr. Minogue, the Compensation Committee and the Lead Director) selected goals that were intended to strike a balance among fiscal, strategic and operational performance. The Compensation Committee believes that the selected goals were challenging for the management team and the Company to achieve. The Compensation Committee believes that the challenging nature and the balance of performance goals most effectively align management incentives with enhancement of long-term stockholder value. For each named executive officer, 80% of the officer's fiscal 2007 target bonus opportunity was based on progress toward achievement of both objective and subjective corporate goals, such as meeting revenue targets, reducing expenses, achieving regulatory milestones, improving product performance, expanding market penetration, increasing global distribution, improving manufacturing yield, reducing manufacturing costs, and completing the timely introduction of new products. These performance goals varied by individual based on their respective areas of responsibility and were weighted according to the importance of the goal to the Company's overall strategic objectives for the fiscal year. For example, achieving revenue goals was the most heavily weighted factor in determining the incentive compensation to be paid to each of our Chief Executive Officer, Chief Financial Officer and sales executives. The remaining 20% of each officer's fiscal 2007 target bonus opportunity was based on a subjective assessment of the officer's overall leadership performance. The Committee has the discretion to alter actual bonus awards from the CEO's recommendation.

For Fiscal 2007, the Committee endorsed, and did not alter, the bonus amounts proposed by the CEO for the other named executive officers. Actual bonus awards made to our named executive officers other than Mr. Minogue for fiscal 2007 ranged from approximately 35% of the officer's target bonus to 70% of the officer's target bonus, with an average award equal to approximately 59% of the target bonus. Mr. Minogue was awarded 81% of his target bonus. These variations from target were reflections of each individual's degree of success in meeting his performance goals as well as his contribution to the Company meeting its objectives for the year.

Equity Incentives

Equity Incentives are available to the majority of employees to foster a culture of ownership, align compensation with stockholder interests and promote long-term retention and affiliation with the organization. Each year, the Compensation Committee determines the types and sizes of awards to be used for delivering such incentives. In doing so, the Compensation Committee considers the ability of each type and size of award to achieve key compensation objectives (such as employee retention, motivation and attraction), the needs of the business, competitive market practices, dilution and expense constraints, as well as tax and accounting implications.

For fiscal 2007, as in past years, the Compensation Committee approved a program awarding stock options. The Committee believes that stock options align management incentives with enhancement of long-term stockholder value and also serve as a valuable retention tool for our executive officers. The Company's stock option grants in fiscal 2007 vest 25% annually on each anniversary of the date of grant. These stock option grants are qualified as performance-based pay under Section 162(m) of the Internal Revenue Code. In fiscal 2008, the Compensation Committee evaluated various program designs and approved a program awarding both stock options and restricted stock to executives. Restricted stock awards made in fiscal 2008 were granted under our 2000 Stock Incentive Plan and vest on the third anniversary of the date of grant. Restricted stock grants are not

qualified as performance-based pay under Section 162(m) of the Internal Revenue Code; accordingly, compensation expense associated with restricted stock will be subject to the \$1 million limitation on deductibility for tax purposes for the compensation of certain executive officers. The Compensation Committee adopted a program containing both stock options and restricted stock because it believes that each form of compensation has strengths and weaknesses in supporting the Company's compensation program objectives and that those objectives are best served by a mixture of the two forms of compensation. In addition to their strong retention value, we feel that stock options and restricted stock support an ownership mentality, encouraging our executives to act in a manner consistent with the long-term interests of the Company and its stockholders.

In determining the level of stock option awards to grant for fiscal 2007, the Compensation Committee followed a process similar to that employed for prior fiscal years. The Compensation Committee set target levels for annual stock option grants which reflect an executive officer's experience, level of responsibility and skills. The Compensation Committee subsequently approves stock option awards based on individual performance ranking in an effort to ensure that top performing employees receive larger awards than those with average performance. The Compensation Committee believes that the use of a strong performance management system combined with the retention attributes of stock options and restricted stock allows us to effectively retain those employees who have the potential to make the greatest contributions to our long-term success.

Since 1998, we have made our annual merit equity grants in conjunction with our annual performance appraisal process, which takes place after the close of our fiscal year. Establishing a consistent annual grant pattern has allowed us to develop a schedule of events for setting our annual grant date and price. These events include incorporating the results of our internal performance reviews and rankings. The date of each annual merit grant is the date upon which the Compensation Committee approves the individual grants. It has been the Company's practice to hold this Compensation Committee meeting after the announcement of year-end results, but the schedule for the Compensation Committee's meeting has not otherwise been affected by the announcement of material non-public information. Consistent with our historical stock option grant practice, the exercise price of stock options granted as part of the annual merit grant is the closing price of our common stock on the date of grant. Stock options granted to new hires are granted and priced on the date of hire.

Other Compensation

The amounts shown in the Summary Compensation Table under the heading "All Other Compensation" represent the value of certain other compensation received, which are described in detail in the accompanying footnotes. Our Chief Executive Officer and our executive officers received the following such benefits in fiscal 2007: matching contributions to the Company's Retirement Savings Plan, which are available to substantially all of the Company's employees, life insurance premiums and long-term disability insurance premiums. The Company believes that such perquisites represent standard parts of executive compensation.

Compensation Committee Report

The Compensation Committee has reviewed and discussed with management the contents of the Compensation Discussion and Analysis set forth below. Based on its review and discussion, the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the year ended March 31, 2007.

Summary Compensation

The following table provides a summary of all compensation earned with respect to fiscal 2007 by Michael R. Minogue, our President, Chief Executive Officer and Chairman of the Board, Daniel J. Sutherby, our Chief Financial Officer and Treasurer, and our three most highly compensated executive officers other than our Chief Executive Officer and Chief Financial Officer who were serving as executive officers at the end of our most recently completed fiscal year. Dr. Karim Benali and Messrs. Andrew Greenfield and Christopher Macdonald are employees who were serving as executive officers at the end of fiscal 2007. After our engagement of a Chief Operating Officer and a related reorganization of our management in May 2007, we determined that the positions held by Dr. Benali and Mr. Macdonald no longer qualified them as executive officers.

Arrangements with Named Executive Officers

Edgar Filing: ABIOMED INC - Form DEF 14A

Employment Agreements. On April 5, 2004 we entered into an employment agreement with Michael R. Minogue in connection with his employment as our President and Chief Executive Officer. In the employment agreement, we agreed to employ Mr. Minogue as our President and Chief Executive Officer, reporting to the

Board of Directors. The agreement initially provided for an annual salary of \$325,000 for the fiscal year ended March 31, 2005, and a target bonus for such fiscal year of up to \$325,000. Mr. Minogue's employment agreement also provides that our Compensation Committee will review Mr. Minogue's salary and target bonus on an annual basis. On June 1, 2006, Mr. Minogue's salary and target bonus were increased to \$345,000 each. On June 1, 2007, Mr. Minogue's salary and target bonus were each increased to \$351,900. All salary is payable in semi-monthly installments in accordance with our practice. In addition, pursuant to the employment agreement, Mr. Minogue was granted options to purchase 400,000 shares of our common stock. The agreement also provides for, among other things, certain vacation, life insurance and other benefits to Mr. Minogue. The employment agreement has an indefinite term, and is terminable by either party by notice to the other.

On December 13, 2005, Daniel Sutherby accepted our offer letter to become our new chief financial officer. The offer letter provided that Mr. Sutherby would receive an annual salary of \$225,000 and a signing bonus of \$50,000. On June 1, 2007, Mr. Sutherby's salary was increased to \$229,500. In addition, Mr. Sutherby is eligible for a target bonus of \$100,000 annually. The offer letter provided for the grant to Mr. Sutherby of an option to purchase 80,000 shares of our common stock on the date his employment started, with an exercise price equal to the closing price of our common stock on the date of grant and vesting over four years. Upon a change of control, Mr. Sutherby's unvested options will become fully vested. Furthermore, if as a result of the change in control Mr. Sutherby's position is eliminated, or his responsibilities are substantially diminished or he is required to relocate, he will be eligible to continue to receive his base salary and medical benefits for up to one year.

Each of our other executive officers has entered into our standard employment agreements, which contain customary provisions relating to the handling of proprietary information and assignment of inventions, as well as restrictions on competition and solicitation during the period of employment and for two years after termination. In addition, the agreement provides that we may terminate the employee with or without cause, but in the case of a termination without cause more than six months after the date employment begins, we are required to provide 28-days' prior notice.

Change of Control Agreement. We entered into a change of control agreement with Mr. Minogue when he began employment with us in April 2004. The agreement was entered into in order to provide Mr. Minogue with a sense of job security and the ability to focus on his work without needing to worry about losing his job upon a change of control. The agreement specifically provides that, following a change of control, we will continue to employ Mr. Minogue for twenty-four full months in the same or a similar position at a base annual salary equal to at least twelve times the highest monthly base salary received within the last twelve months prior to the change of control and an annual bonus equal to his average bonus over the last three years. In addition, Mr. Minogue agreed to remain our employee for six full months following a change of control. Upon a change of control, and if Mr. Minogue is still employed at the end of this six-month period, all unvested stock options and stock appreciation rights held by him will become vested. Mr. Minogue can terminate his employment for good reason, and we may terminate his employment for cause. The agreement provides for certain payments to be made to Mr. Minogue or his family upon certain circumstances following a change of control, including upon his death, disability, termination of employment by us without cause, and termination of employment by him for good reason. In the event that Mr. Minogue is obligated to pay any excise taxes, including interest and penalties, under Section 4999 of the Internal Revenue Code of 1986, as amended, Mr. Minogue will be entitled to receive a "gross-up" payment such that he will receive an after-tax amount sufficient to enable him to pay all such excises taxes, interest and penalties. The agreement also provides for a continuation of certain benefits provided to Mr. Minogue before the change of control on terms at least as favorable to Mr. Minogue as in effect before the change of control. These payments and benefits are described in more detail below.

Dr. Robert T.V. Kung, one of our employees who served as an executive officer during fiscal 2007, has a change of control agreement substantially similar to that of Mr. Minogue.

Estimated Potential Payments Following a Change of Control

The following table provides information regarding the estimated amounts payable to the individuals named below upon the occurrence of the triggering events described below, in each case assuming that a change of control had occurred on March 31, 2007, the last day of our last fiscal year. The amounts shown as payable upon the triggering events described below do not include amounts earned by the individual and accrued before the occurrence of the triggering event but payable after the triggering event, such as accrued and unpaid salary or the value of accrued but unused vacation days.

Change of control (4)	225,000		258,600		19,000	98,188	600,788

- (1) Represents only the estimated value of the acceleration of the vesting of stock options held by the executive that remain unvested on September 30, 2007, six months after an assumed change of control on March 31, 2007, assuming a stock price of \$13.66, which was the closing market price of our common stock on March 30, 2007 (the last trading day of our fiscal 2007). This value is based on the difference between such price and the exercise price of the accelerated options. This row does not reflect the value of continued compensation for services rendered during the course of employment. See note 2 below.
- (2) Represents the estimated minimum value of continued annual compensation for services rendered if employment is continued for two years after an assumed change of control on March 31, 2007. The salary figure is calculated using the highest monthly base salary paid or payable in the preceding twelve-month period. The bonus figure represents the average annualized bonus received in the last three fiscal years. If death or disability were to occur during the two-year employment period, the bonus amount payable upon

- death or disability for the year in which such death or disability were to occur would be reduced on a pro rata basis based on the number of days lapsed during the year of the death or disability and the bonus amount would be based on the greater of the most recent completed fiscal year and the average annualized bonus received in the last three fiscal years.
- (3) Assumes that termination occurs on March 31, 2007. Termination later in the year would also entitle the executive to a pro rata portion of his bonus, based on the number of days lapsed during the year prior to termination, of a bonus, estimated as of March 31, 2007 at \$310,167 for Mr. Minogue and \$65,000 for Dr. Kung. Bonus amounts and severance payments are payable in a lump sum. Benefits continuation consists of the continuation of medical benefits for the executive and his family, which are payable over a period of 18 months. Other perquisites and personal benefits are excluded because the estimated aggregate amount of such benefits is less than \$10,000 for each executive officer.
- (4) Mr. Sutherby will be entitled to receive the described benefits in the event of a change of control, merger or acquisition (as those terms are currently defined in the Company's 2000 Stock Incentive Plan) and Mr. Sutherby's position is eliminated as a result thereof, or his responsibilities are substantially diminished, or he is required to relocate. The figure given for the acceleration of stock options represents only the estimated value of the acceleration of the vesting of stock options held by the executive, assuming a stock price of \$13.66, which was the closing market price of our common stock on March 30, 2007 (the last trading day of our fiscal 2007). This value is based on the difference between such price and the exercise price of the accelerated options.

AUDIT COMMITTEE REPORT

The Board of Directors appointed an Audit Committee to review the Company's consolidated financial statements and financial reporting procedures, the adequacy and effectiveness of its accounting and financial controls and the independence and performance of its independent registered public accounting firm. The Audit Committee also selects our independent registered public accounting firm. The Audit Committee is governed by a written charter adopted by the Board of Directors. A copy of the *Audit Committee Charter*, as amended in June 2004, is available through the "About ABIOMED Corporate Governance" section of our website, located at www.abiomed.com.

The Audit Committee currently consists of four non-employee directors. Each member of the Audit Committee is independent within the meaning of the marketplace rules of the Nasdaq Stock Market, Inc.

The Company's management is responsible for the financial reporting process, including the system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. Our responsibility is to monitor and review these processes. However, we are not professionally engaged in the practice of accounting or auditing and are not experts in the fields of accounting or auditing, including with respect to auditor independence. We have relied, without independent verification, on the information provided to us and on the representations made by the Company's management and independent auditors.

In fulfilling our responsibilities as the Audit Committee, we conferred with Deloitte & Touche, the Company's independent registered public accounting firm for the fiscal year ended March 31, 2007, regarding the overall scope and plans for Deloitte & Touche's audit of the Company's financial statements for the fiscal year ended March 31, 2007. We met with them, with and without the Company's management present, to discuss the results of their audit and their evaluation of the Company's internal controls and the overall quality of the Company's financial reporting. We reviewed and discussed the audited consolidated financial statements for fiscal 2007 with management and the independent auditors.

In addition, during the course of fiscal 2007 and thereafter before filing the Company's Annual Report on Form 10-K for fiscal 2007, our management completed the documentation, testing and evaluation of the Company's internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. We were kept apprised of the progress of the evaluation and provided oversight to management during the process. In connection with this oversight, we received periodic updates provided by management and Deloitte & Touche at each scheduled Audit Committee meeting, as well as at a number of special meetings to review our progress. At the conclusion of the process, management provided us with, and we reviewed, a report on the effectiveness of the Company's internal control over financial reporting. We also reviewed the report of management contained in the Company's Annual Report on Form 10-K for fiscal 2007 filed with the SEC, as well as Deloitte & Touche's Report of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audit of (i) the consolidated financial statements, (ii) management's assessment of the effectiveness of internal control over financial reporting, and (iii) the effectiveness of internal control over financial reporting.

We reviewed the Company's audited financial statements with management and Deloitte & Touche. We discussed with Deloitte & Touche the matters required to be discussed by Statement of Auditing Standards No. 61, including a discussion of its judgments as to the quality, not just the acceptability, of the Company's reporting mechanisms and such other matters as are required to be discussed with the Audit Committee in accordance with the standards of the Public Company Accounting Oversight Board (United States). In addition, we received from Deloitte & Touche the written disclosures and the letter required by Independence Standards Board Standard No. 1 and discussed these documents with Deloitte & Touche, as well as other matters related to Deloitte & Touche's independence from management and the Company.

Based on the reviews and discussions referred to above, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for fiscal 2007 for filing with the Securities and Exchange Commission.

OTHER MATTERS
Audit and Other Fees

The following table shows fees for professional audit services paid by us to PricewaterhouseCoopers LLP for the audit of our annual financial statements for the fiscal year ended March 31, 2006, and the fees for professional audit services paid by us to Deloitte & Touche for the audit of our annual financial statements for the fiscal year ended March 31, 2007, and the fees paid by us to PricewaterhouseCoopers and Deloitte & Touche for other services during those respective fiscal years:

Fees	March 31, 2006(\$)	March 31, 2007(\$)	
		PricewaterhouseCoopers	Deloitte & Touche
Audit fees	786,107	771,540	303,980
Audit-related fees	86,566	97,045	
Tax fees			
All other fees		1,100	
Total	872,673	869,685	303,980

Audit fees. Audit fees include fees paid by us to PricewaterhouseCoopers and Deloitte & Touche in connection with their annual audit of our financial statements and their review of our interim financial statements as reported in our quarterly filings with the SEC. Audit fees also include fees paid by us to PricewaterhouseCoopers and Deloitte & Touche in connection with their annual audit of our management's assessment of the effectiveness of our internal control over financial reporting and their audit of our internal control over financing reporting.

Audit-related fees. Audit-related fees include fees paid by us to PricewaterhouseCoopers and Deloitte & Touche that principally cover assurance and related services that are traditionally performed by our independent registered public accounting firm, including special procedures required by regulatory requirements such as SEC registration statements.

Tax fees. Tax fees cover services performed by the tax personnel of PricewaterhouseCoopers and Deloitte & Touche except those services specifically related to the audit of our financial statements, and include fees for tax compliance, tax planning and advice.

All other fees. During fiscal 2007 we paid \$1,100 to PricewaterhouseCoopers for certified professional education for one of our employees. No other fees were paid to PricewaterhouseCoopers or Deloitte & Touche that were not audit or tax-related.

Our Audit Committee has determined that the services PricewaterhouseCoopers and Deloitte & Touche performed for us during fiscal 2007 were at all times compatible with each firm's independence.

Policy on Pre-Approval of Audit and Non-Audit Services

Our Audit Committee has the sole authority to approve the scope of the audit and any audit or permitted non-audit services as well as all audit fees and terms. Our Audit Committee must pre-approve any audit and permitted non-audit services by our independent registered public accounting firm. Our Audit Committee will not approve the engagement of our independent registered public accounting firm to perform any services that our independent registered public accounting firm would be prohibited from providing under applicable securities laws or the rules of the Nasdaq Stock Market, Inc. In assessing whether to approve the use of our independent registered public accounting firm for permitted non-audit services, our Audit Committee tries to

minimize relationships that could appear to impair the objectivity of our independent registered public accounting firm. Our Audit Committee has delegated pre-approval authority for non-audit services to the Chair of our Audit Committee within the guidelines discussed above. The Chair is required to inform our Audit Committee of each decision at the next regularly scheduled Audit Committee meeting following the decision to permit our independent registered public accounting firm to perform non-audit services.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires that our executive officers and directors, and persons who own more than 10% of our common stock, file reports of ownership and changes of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission, and furnish us with copies of such filings.

Based solely upon review of Forms 3, 4 and 5 and amendments thereto furnished to us with respect to the fiscal year ended March 31, 2007 and on written representations from certain reporting persons that were not required to file Forms 5 with respect to that year, we believe that all Section 16(a) filing requirements applicable to our officers, directors and greater-than-10% stockholders were fulfilled in a timely manner.

Other Proposed Action

Our Board of Directors knows of no other business to come before the Annual Meeting of Stockholders. However, if any other business should properly be presented at the meeting, the proxies will be voted in accordance with the judgment of the person or persons holding the proxies.
