The Company and its subsidiary, Indigo Systems Corporation, (together, the FLIR Parties) were named in a lawsuit filed by Raytheon Company on March 2, 2007 in the United States District Court for the Eastern District of Texas. On August 11, 2008, Raytheon Company was granted leave to file a second amended complaint. The FLIR Parties filed an answer to the second amended complaint and counterclaims on September 2, 2008, in which they denied all material allegations. The Company intends to vigorously defend itself in this matter and is unable to estimate the amount or range of potential loss, if any, which might result if the outcome in this matter is unfavorable.

Results of Operations

Revenue. Revenue for the three months ended September 30, 2008 increased by 44.8 percent, from \$191.1 million in the third quarter of 2007 to \$276.7 million in the third quarter of 2008. Revenue for the nine months ended September 30, 2008 increased 44.3 percent, from \$536.8 million in the first nine months of 2007 to \$774.6 million in the first nine months of 2008.

Government Systems revenue increased \$54.9 million, or 56.6 percent, from \$96.9 million in the third quarter of 2007 to \$151.7 million in the third quarter of 2008. Government Systems revenue for the nine months ended September 30, 2008 increased \$129.0 million, or 48.1 percent, from \$268.0 million in the first nine months of 2007 to \$397.0 million in the first nine months of 2008. The increase in Government Systems revenue in the third quarter and the first nine months of 2008 compared to the same periods in 2007 was primarily due to an increase in unit sales across most of our product lines.

Thermography revenue increased \$19.2 million, or 31.9 percent, from \$60.0 million in the third quarter of 2007 to \$79.2 million in the third quarter of 2008. Thermography revenue for the nine months ended September 30, 2008 increased \$68.0 million, or 39.7 percent, from \$171.4 million in the first nine months of 2007 to \$239.4 million in the first nine months of 2008. Excluding revenue from Extech Instruments, acquired in the fourth quarter of 2007 and Cedin Infrared Systems, acquired during the first quarter of 2008, Thermography revenue increased 6.7 percent and 13.3 percent in the three and nine month periods ended September 30, 2008, respectively, over the same periods of 2007. Management believes that these non-GAAP measures provide meaningful supplemental information to assist investors in understanding our financial results and to better analyze trends in the Company's underlying business. The increase in both the three and nine month periods was primarily due to increased unit sales in our T-Series, I-Series and SC-Series product lines, offset by decreased unit sales of our P-Series, E-Series and InfraCam product lines.

Commercial Vision Systems revenue increased \$11.6 million, or 33.9 percent, from \$34.2 million in the third quarter of 2007 to \$45.8 million in the third quarter of 2008. Commercial Vision Systems revenue for the nine months ended September 30, 2008 increased \$40.9 million, or 42.0 percent, from \$97.3 million in the first nine months of 2007 to \$138.2 million in the first nine months of 2008. The increase in Commercial Vision Systems revenue in the third quarter and first nine months of 2008 compared to the same periods in 2007 was also due to increased unit sales across most of our product lines.

Table of Contents

The timing of deliveries against large contracts, especially for our Government Systems and Commercial Vision Systems products, can give rise to quarter-to-quarter and year-over-year fluctuations in the mix of revenue. Consequently, year-over-year comparisons for any given quarter may not be indicative of comparisons using longer time periods. While we currently expect an overall increase in total annual revenue for 2008 of between 38 percent and 41 percent, the mix of revenue between our three business segments and within certain product categories in our business segments will vary from quarter to quarter.

As a percentage of revenue, international sales were 31.1 percent and 34.7 percent for the quarters ended September 30, 2008 and 2007, respectively, and 36.0 percent and 37.6 percent for the nine months ended September 30, 2008 and 2007, respectively. While the percentage of revenue from international sales will continue to fluctuate from quarter to quarter partially due to the timing of shipments under international and domestic government contracts, management anticipates that revenue from international sales as a percentage of total revenue will continue to comprise a significant percentage of revenue.

At September 30, 2008, we had an order backlog of \$650 million. Backlog in the Government Systems, Thermography and Commercial Vision Systems divisions was \$547 million, \$22 million and \$81 million, respectively. Backlog is defined as orders received for products or services for which a sales agreement is in place and delivery is expected within twelve months.

Gross profit. Gross profit for the quarter ended September 30, 2008 was \$155.3 million compared to \$107.0 million for the same quarter last year. Gross profit for the nine months ended September 30, 2008 was \$432.7 million compared to \$296.0 million for the same period of 2007. As a percentage of revenue, gross profit increased slightly from 56.0 percent in the third quarter of 2007 to 56.1 percent in the third quarter of 2008, and from 55.1 percent in the first nine months of 2007 to 55.9 percent in the first nine months of 2008. The increase in gross profit as a percentage of revenue for both the three and nine month periods in 2008 was primarily due to the cost efficiencies gained through a higher volume of production by Government Systems, slightly offset by the lower gross profit recognized at Extech and Cedip.

Research and development expenses. Research and development expenses for the third quarter of 2008 totaled \$21.6 million, compared to \$15.7 million in the third quarter of 2007. Research and development expenses for the first nine months of 2008 and 2007 were \$68.3 million and \$51.6 million, respectively. The increase in research and development expenses was due to the continued investment in new product development in all business segments to enable future growth. As a percentage of revenue, research and development expenses were 7.8 percent and 8.2 percent for the three months ended September 30, 2008 and 2007, respectively, and 8.8 percent and 9.6 percent for the nine months ended September 30, 2008 and 2007, respectively.

Selling, general and administrative expenses. Selling, general and administrative expenses were \$57.0 million for the quarter ended September 30, 2008, compared to \$39.5 million for the quarter ended September 30, 2007. Selling, general and administrative expenses for the first nine months of 2008 and 2007 were \$167.9 million and \$115.4 million, respectively. The increase in selling, general and administrative expenses was due to the continued growth in the business. Selling, general and administrative expenses as a percentage of revenue were 20.6 percent and 20.7 percent for the quarters ended September 30, 2008 and 2007, respectively, and 21.7 percent and 21.5 percent for the nine months ended September 30, 2008 and 2007, respectively.

Interest expense. Interest expense for the third quarter and first nine months of 2008 was \$2.1 million and \$6.9 million, respectively, compared to \$2.2 million and \$7.5 million for the same periods of 2007. Interest expense is primarily attributable to the accrual of interest on the convertible notes that were issued in June 2003 and the amortization of costs related to the issuance of the notes.

Other income/expense. For the quarter and nine months ended September 30, 2008, we recorded other income of \$5.0 million and \$8.6 million, respectively, compared to other income of \$1.0 million and \$4.5 million for the same periods of 2007. Other income for the quarter and nine months ended September 30, 2008 includes interest income of \$2.0 million and \$5.7 million, respectively, and foreign currency gains of \$3.3 million and \$2.7 million, respectively. Other income for the quarter and nine months ended September 30, 2007 includes interest income of \$1.4 million and \$3.7 million, respectively, and foreign currency losses of \$1.1 million and \$430,000, respectively.

Table of Contents

Income taxes. The income tax provision of \$59.8 million for the nine months ended September 30, 2008, represents an effective tax rate of 30.2 percent. We expect the annual effective tax rate for the full year of 2008 to be approximately 30 percent to 32 percent. The effective tax rate is lower than the US Federal tax rate of 35 percent because of foreign tax rates, the effect of current foreign tax credits and state tax credits.

Liquidity and Capital Resources

At September 30, 2008, we had cash and cash equivalents on hand of \$206.1 million compared to \$203.7 million at December 31, 2007. The slight increase in cash and cash equivalents was primarily due to cash provided from operations and proceeds from the exercise of stock options, offset by the acquisition of Cedip and Ifara, repayment of borrowings under our Credit Agreement ("Credit Agreement") with Bank of America, N.A., Union Bank of California, N.A., U.S. Bank National Association and other Lenders, and the purchase of shares of our outstanding common stock.

Accounts receivable totaled \$241.7 million at September 30, 2008 compared to \$203.4 million at December 31, 2007. The increase was primarily due to higher revenue in the third quarter of 2008 compared to the fourth quarter of 2007.

At September 30, 2008, we had inventories of \$215.1 million compared to \$179.4 million at December 31, 2007. The increase was primarily due to purchases for anticipated future shipments as evidenced by our increase in backlog.

Prepaid expenses and other current assets at September 30, 2008 were \$75.1 million compared to \$58.1 million at December 31, 2007. The increase was primarily due to estimated tax payments made to US and foreign jurisdictions, tax benefits from stock option exercises, vendor advances and increase in sales demonstration units.

Goodwill increased from \$176.2 million at December 31, 2007 to \$224.7 million at September 30, 2008. Intangible assets increased from \$52.8 million at December 31, 2007 to \$61.1 million at September 30, 2008. The increase in both goodwill and intangible assets is due to the portion of the purchase price of Cedip and Ifara in excess of the net assets acquired.

Other assets increased from \$16.7 million at December 31, 2007 to \$24.7 million at September 30, 2008. The increase is primarily due to additional investments during the year in private technology companies, accounted for under the cost-based method.

Accounts payable increased from \$54.0 million at December 31, 2007 to \$63.3 million at September 30, 2008. The increase primarily related to the increase in inventories and overall Company growth.

Cash used in investing activities of \$108.7 million for the nine months ended September 30, 2008 includes the acquisitions of Cedip and Ifara for \$79.3 million, net of cash acquired from Cedip and Ifara, capital expenditures of \$21.1 million and other investments of \$8.3 million. Cash used in investing activities of \$31.6 million for the nine months ended September 30, 2007 principally related to capital expenditures.

On October 6, 2006, we entered into the Credit Agreement, which provides for a \$300 million, five-year revolving line of credit. We have the right, subject to certain conditions including approval of additional commitments by qualified lenders, to increase the line of credit by an additional \$150 million until October 6, 2011. The Credit Agreement includes a \$100 million sublimit multicurrency option, permitting us and certain of our designated subsidiaries to borrow in Euro, Kronor, Sterling and other agreed upon currencies. Effective October 27, 2008, the Letter of Credit sublimit under the Credit Agreement was increased from \$25 million to \$50 million.

Under the Credit Agreement, borrowings will bear interest based upon the prime lending rate of the Bank of America or Eurodollar rates with a provision for a spread over Eurodollar rates based upon the Company's leverage ratio. The Eurodollar interest rate was 6.04 percent and the prime lending rate was 5.00 percent at September 30, 2008. These rates were 5.65 percent and 7.25 percent, respectively, at December 31, 2007. The Credit Agreement requires us to pay a commitment fee on the amount of unused credit at a rate, based on our leverage ratio, which ranges from 0.175 percent to 0.325 percent. At September 30, 2008 and December 31, 2007, the commitment fee rate was 0.175 percent. The Credit Agreement contains five financial covenants that require the maintenance of certain leverage ratios, in addition to minimum levels of EBITDA and consolidated net worth, a maximum level of capital

expenditures and, commencing December 31, 2009, a minimum liquidity of cash and availability under the Credit Agreement. The Credit Agreement is collateralized by substantially all assets of the Company. At September 30, 2008, we had no borrowings outstanding under the Credit Agreement and were in compliance with all of its financial covenants. At December 31, 2007, we had \$19.0 million outstanding under the Credit Agreement. We had \$18.4 million and \$6.6 million of letters of credit outstanding under the Credit Agreement at September 30, 2008 and December 31, 2007, respectively, which reduces the total available credit thereunder.

Our Sweden subsidiary has a 30 million Swedish Kronor (approximately \$4.4 million) line of credit with an interest rate at 6.78 percent at September 30, 2008. At September 30, 2008, the Company had no amounts outstanding on this line of credit. The 30 million Swedish Kronor line of credit is secured primarily by accounts receivable and inventories of the Sweden subsidiary and is subject to automatic renewal on an annual basis.

In June 2003, we issued \$210 million of 3.0 percent senior convertible notes due in 2023 in a private offering pursuant to Rule 144A under the Securities Act of 1933, as amended. The net proceeds from the issuance were approximately \$203.9 million. Issuance costs are being amortized over a period of seven years. Interest is payable semiannually on June 1 and December 1 of each year. The holders of the notes may convert all or some of their notes into shares of our common stock at a conversion rate of 90.1224 shares per \$1,000 principal amount of notes prior to the maturity date in certain circumstances. We may redeem for cash all or part of the notes on or after June 8, 2010.

The convertible notes are eligible for conversion at the option of the note holders. As of September 30, 2008, notes with a value of \$4,000 have been converted into 360 shares of the Company's common stock. We do not currently anticipate additional conversions of these notes before 2010.

We believe that our existing cash combined with the cash we anticipate to generate from operating activities and our available credit facilities and financing available from other sources will be sufficient to meet our cash requirements for the foreseeable future. We do not have any significant capital commitments for the current year nor are we aware of any significant events or conditions that are likely to have a material impact on our liquidity.

New Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position APB 14-1, Accounting for Convertible Debt Instruments That May be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP APB 14-1). FSP APB 14-1 specifies that issuers of convertible debt instruments that may be settled in cash should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. FSP APB 14-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008 and we are currently assessing the impact this pronouncement will have on our financial statements.

Critical Accounting Policies and Estimates

The Company reaffirms the critical accounting policies and our use of estimates as reported in our Form 10-K for the year ended December 31, 2007. As described in Note 2 to the Consolidated Financial Statements, the determination of fair value for stock-based compensation awards requires the use of management's estimates and judgments.

Contractual Obligations

Other than the repayment of the \$19.0 million outstanding under the Credit Agreement during the quarter ended March 31, 2008, there have been no material changes to our contractual obligations outside the ordinary course of our business since December 31, 2007.
