Forward-Looking Statements

Certain statements and other information included in this presentation constitute forward-looking information within the meaning of the securities legislation or forward-looking statements (together, forward-looking statements). All statements in this presentation relating to historical information or current condition, are forward-looking statements, including, but not limited to, estimates, forecasts, to management's expectations with respect to, among other things, business and financial prospects, financial multiples and accretion trends, plans, strategies, objectives and expectations, including with respect to future operations following the proposed acquisition. Forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from such forward-looking statements. Events or circumstances that could cause actual results to differ materially from forward-looking statements, include, but are not limited to, CF's failure to accept Agrium's proposal and enter into a definitive acquisition transaction, Agrium common shares issued in connection with the proposed acquisition may have a market value lower than expected, Agrium and CF, or any other recent business acquisitions, may not be integrated successfully or such integration may be more costly than expected, the expected combination benefits and synergies and costs savings from the Agrium/CF transaction may not be realized within the expected time frame, the possible delay in the completion of the steps required to be taken for the event.

companies, including the possibility that approvals or clearances required to be obtained from regulatory and other agencies are not obtained in a timely manner or will be obtained on conditions that may require divestiture of assets expected to be acquired, the proposed transaction making it more difficult to maintain relationships with customers, employees and suppliers, general business conditions, interest rates, exchange rates and tax rates, weather conditions, crop prices, the supply, demand and price level for fertilizers, prices and gas availability, operating rates and production costs, domestic fertilizer consumption and any changes in government policies in agriculture markets, including the application of price controls and tariffs on fertilizers and the availability of subsidies or changes in government changes in development plans, construction progress, political risks, including civil unrest, actions by armed groups or conflicts, regulatory requirements and actions by governmental authorities, including changes in government policy, changes in environmental laws or regulations and the interpretation thereof and other risk factors detailed from time to time in Agrium and CF's reports filed with the SEC. We disclaims any intention or obligation to update or revise any forward-looking statements in this presentation as a result of new events, except as may be required under applicable U.S. federal securities laws or applicable Canadian securities legislation. These forward-looking statements are based on certain assumptions and analyses made by us in light of our experience and performance trends, current conditions and expected future developments as well as other factors we believe are appropriate in the circumstances. Our developments are based, in part, upon assumptions respecting our ability to successfully integrate the businesses of Agrium and CF through acquisitions.

All of the forward-looking statements contained herein are qualified by these cautionary statements and by the assumptions that underlie such forward-looking statements. Although we believe these assumptions are reasonable, undue reliance should not be placed on them and such forward-looking statements. The key assumptions that have been made in connection with the forward-looking statements are limited to, CF's acceptance of Agrium's proposal and the entering into of a definitive agreement to effect the proposed transaction, the market value of Agrium common shares issued in connection with the proposed acquisition, our ability to successfully execute the proposed transaction within the expected time frames and costs, and realize the expected combination benefits and synergies and costs savings from the combination of Agrium and CF, or any other recent business acquisitions, and our ability to maintain relationships with customers, employees and suppliers in the course of the proposed transaction.
