#### Section 2 - Financial Information

#### Item 2.02 Results of Operations and Financial Condition.

On April 17, 2009, Mattel issued a press release regarding its first quarter 2009 financial results, a copy of which is furnished as Exhibit 99.1 hereto. This exhibit is incorporated herein by reference.

In its first quarter 2009 press release, Mattel includes a non-GAAP financial measure, gross sales, which it uses to analyze its operations and to monitor, assess and identify meaningful trends in its operating and financial performance. Net sales, as reported in the consolidated statements of operations, include the impact of sales adjustments, such as trade discounts and other allowances. Gross sales represent sales to customers, excluding the impact of sales adjustments. Consistent with its segment reporting, Mattel presents changes in gross sales as a metric for comparing its aggregate, business unit, brand and geographic results to highlight significant trends in Mattel s business. Changes in gross sales are discussed because, while Mattel records the detail of such sales adjustments in its financial accounting systems at the time of sale, such sales adjustments are generally not associated with individual products, making net sales less meaningful. A reconciliation of gross sales to the most directly comparable GAAP financial measure, net sales, is provided in Exhibit II to the press release furnished as Exhibit 99.1 in this Form 8-K.

In accordance with General Instruction B.2 of Form 8-K, the information in this Current Report on Form 8-K, including Exhibit 99.1, shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act ), or otherwise subject to the liability of that section, and shall not be incorporated by reference into any registration statement or other document filed under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.
