1. This financial summary report contains forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. For the main factors that may effect the current forecasts, please see Consolidated Summary Report, Annual Securities Report, Disclosure Book, Annual Report, and other current disclosures that the company has announced.

2. The financial information included in this financial summary report is prepared and presented in accordance with accounting principles generally accepted in Japan ( Japanese GAAP ). Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States ( U.S. GAAP ) in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. To date, we have published U.S. GAAP financial results only on a semiannual and annual basis, and currently do not expect to publish U.S. GAAP financial results for the period reported in this financial summary report.

**Qualitative Information and Financial Statements****1. Qualitative information related to the consolidated results of operations**

With respect to the economic and financial environment for the April-June period of fiscal 2009, pressures for reducing output have eased and the United States and Europe have passed through the worst of the recession aided by unprecedented fiscal and monetary policy measures. Asian economies have hit bottom ahead of the economies in the United States and Europe thanks to the economic stimulus measures. With regards to the Japanese economy, exports and production bottomed out, reflecting the pickup in overseas economies, largest-ever economic measures and the progress in inventory adjustment. Meanwhile, private consumption was also boosted by the effects of economic stimulus measures. Business fixed investment, however, declined as economic activity remained at an extremely low level and corporate performance continued to deteriorate. The employment and income situation also followed a worsening trend.

In the financial environment, the Federal Reserve Board kept the federal funds rate close to 0 percent in reaction to soaring non-performing loans. In the Euro zone, the European Central Bank cut its key interest rate to 1.0 percent. Japan's short-term interest rates moderately declined, in response to the Bank of Japan's continued monetary easing policy such as the ultra-low interest rate policy, purchase of CP and corporate bonds, and the special funds-supplying operations to facilitate corporate financing. Long-term interest rates followed a downward trend, after rising toward the beginning of June amid concerns over the worsening of fiscal conditions due to large-scale economic stimulus measures in Japan and abroad. In the foreign exchange market, the dollar fluctuated in the upper 90 yen range, reflecting changes in investors' expectations for economic recovery and risk aversion stance.

Under such business environment, consolidated gross profits for the three months ended June 30, 2009 increased by 72.1 billion yen from the three months ended June 30, 2008 to 873.4 billion yen. Net interest income increased mainly due to an increase in overseas lending income, lower funding cost in foreign currencies and a new consolidation of ACOM CO., LTD. On the other hand, trust fees and net fees and commissions decreased mainly due to lower sales of investment trusts related products caused by the market deterioration.

General and administrative expenses slightly increased from the three months ended June 30, 2008, to 541.5 billion yen due to the new consolidation of ACOM CO., LTD., in spite of a progress in cost reduction and a decrease of expenses relating to system integration.

Total credit costs for the three months ended June 30, 2009 increased by 48.1 billion yen from the three months ended June 30, 2008 to 189.8 billion yen, mainly due to an increase in credit costs from our subsidiaries other than BTMU and MUTB, and the newly consolidated subsidiary, ACOM CO., LTD., while combined credit costs from BTMU and MUTB decreased. Net gains on equity securities for the three months ended June 30, 2009 was 30.2 billion yen, an increase of 40.3 billion yen from the three months ended June 30, 2008, due to a decrease in losses on write-down of equity securities.

Based on the above results, consolidated net income for the three months ended June 30, 2009 was 75.9 billion yen, an increase of 24.7 billion yen from the three months ended June 30, 2008.

## 2. Qualitative information related to the consolidated financial conditions

Total assets as of June 30, 2009 increased by 560.6 billion yen from March 31, 2009 to 199,294.5 billion yen, and total net assets as of June 30, 2009 increased by 812.7 billion yen from March 31, 2009 to 9,383.3 billion yen. The increase in total net assets reflected an increase of total valuation and translation adjustments of 760.1 billion yen, which was mainly due to an increase of net unrealized gains on other securities by the higher stock prices.

With regards to major items of assets, securities as of June 30, 2009 increased by 4,843.0 billion yen from March 31, 2009 to 53,157.1 billion yen and loans and bills discounted as of June 30, 2009 decreased by 1,011.8 billion yen from March 31, 2009 to 91,044.9 billion yen. With regards to major items of liabilities, deposits as of June 30, 2009 increased by 2,083.2 billion yen from March 31, 2009 to 122,232.8 billion yen.

## 3. Qualitative information related to the consolidated earnings forecasts

MUFG has the target of 300.0 billion yen of consolidated net income for the fiscal year ending March 31, 2010. (There are no changes to our earnings targets released on May 19, 2009.)

MUFG is engaged in financial service businesses including banking business, trust banking business, securities business and credit card/loan businesses, etc. Because there are various uncertainties caused by economic situation, market environments and other factors in these businesses, MUFG discloses a target of its consolidated net income instead of a forecast of its performance.

**4. Other**

(1) Changes in scope of consolidation involving Specified Subsidiaries (Tokutei Kogaisha) during the period:  
Not applicable

(2) Simplified accounting methods and accounting methods used specifically for quarterly consolidated financial statements (Simplified accounting methods)

(i) Depreciation

Depreciation for tangible fixed assets, which are depreciated under the declining-balance method, is computed by proportionally allocating the estimated depreciation for the fiscal year.

(ii) Allowance for credit losses

Except for claims on bankrupt borrowers and substantially bankrupt borrowers and claims on potentially bankrupt borrowers for which allowances are provided in specific amounts, allowances for credit losses are calculated based on reasonable measures, including the loan loss ratios used for the previous annual period-end settlement.

(iii) Taxes

Income taxes are calculated in a manner similar to that in which they were calculated in the previous annual period-end settlement. However, immaterial adjustment items and immaterial tax credits are not considered in calculating the taxable income.

(iv) Collectability of deferred tax assets

The collectability of deferred tax assets is determined based on the earnings forecasts and tax planning used in the previous annual period-end settlement.

(v) Deferred and accrued accounts

Amounts of certain deferred and accrued accounts are estimated based on reasonable measures.

(3) Changes in accounting policies, procedures and presentation rules applied in the preparation of the quarterly consolidated financial statements:  
Not applicable

**(Reference)****Exposure to Securitized Products and Related Investments**

Our exposure to securitized products and related investments as of June 30, 2009 is outlined below. (Figures are on a managerial basis and rounded off.)

[Balance, net unrealized gains (losses), realized losses]

The balance as of the end of June 2009 decreased to ¥2.19 trillion in total, a decrease of ¥0.11 trillion compared with the balance as of the end of March 2009, mainly due to sales of securitized products, which have risk of being downgraded or deteriorated, and redemptions.

Net unrealized losses were ¥291 billion, improved by ¥93 billion compared with those at the end of March 2009.

The effect on the P/L for the three months ended June 30, 2009 was a loss of ¥6 billion, due to losses on the sales of securitized products as described above.

1. Balance is the amount after impairment and before deducting net unrealized losses.

The above table does not include mortgage-backed securities arranged and guaranteed by U.S. government sponsored enterprises, etc., Japanese RMBS such as Japanese Housing Finance Agency securities, and products held by funds such as investment trusts. These are also applicable to the tables in this document.

2. Following the publication of Tentative Solution on Reclassification of Debt Securities (Practical Issue Task Force No. 26, The Accounting Standards Board of Japan, December 5, 2008), some of our securitized products were reclassified into securities being held to maturity from securities available-for-sale at and after the end of January 2009. The balance and net unrealized gains (losses) of the securities being held to maturity in the above table are based on book value before reclassification.

[Distribution by rating]

AAA-rated products account for 76% of our investments in securitized products.

[Credit exposure related to leveraged loan]

We are not engaged in origination or distribution of securitized products of leveraged loans, and therefore, there is no balance of leveraged loans for securitization.

The following table shows the balances of LBO loans as of the end of June 2009.

	Americas	Europe	Asia	Japan	Total	(¥bn) Change from end of March 2009

2 Balance on a booking basis	42	133	41	262	478	3

3. Includes balance after refinancing. (Figures are rounded off.)

[Special Purpose Entities (SPEs)]

We are engaged in sponsoring ABCP issuance for securitizing our clients' assets.

The balance of assets purchased by ABCP conduits (special purpose companies for issuing ABCP) as of the end of June 2009 was ¥3.75 trillion (¥1.19 trillion overseas).

The purchased assets are mainly receivables and they do not include residential mortgages.

[Monoline insurer related]

There is no credit outstanding and credit derivative transactions with monoline insurers.
