Form 10-Q Part I

Cincinnati Bell Inc.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**1. Description of Business and Accounting Policies**

The following represents a summary of the business and accounting policies of Cincinnati Bell Inc. and its consolidated subsidiaries (the Company). A more detailed presentation can be found in the Company's 2008 Annual Report on Form 10-K.

Description of Business The Company provides diversified telecommunications services through businesses in three segments: Wireline, Wireless and Technology Solutions. Refer to Note 8 for further discussion concerning the Company's segments.

Basis of Presentation The Condensed Consolidated Financial Statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position, and cash flows for each period presented. The Company has evaluated subsequent events through November 6, 2009.

The adjustments referred to above are of a normal and recurring nature. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to SEC rules and regulations.

The Condensed Consolidated Balance Sheet as of December 31, 2008 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. These Condensed Consolidated Financial Statements should be read in conjunction with the Company's 2008 Annual Report on Form 10-K. Operating results for the three and nine month periods ended September 30, 2009 are not necessarily indicative of the results expected in the subsequent quarter or for the year ending December 31, 2009.

Recently Issued Accounting Standards In December 2008, new accounting guidance was issued concerning disclosures about the assumptions and risks used to compute the fair value of pension and postretirement benefit plan assets. The guidance becomes effective for fiscal years ending after December 15, 2009. Early adoption is permitted. As this guidance relates to disclosure only, it will not have a financial impact on the Company.

In June 2009, new accounting guidance on accounting for transfers of financial assets was issued. The guidance eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets, and requires additional disclosures that will provide greater transparency about transfers of financial assets, including securitization transactions, and an entity's continuing involvement in and exposure to the risks related to transferred financial assets. Such guidance is effective for fiscal years beginning after November 15, 2009. The Company has not yet assessed the impact of this guidance on the Company's financial statements.

In September 2009, new accounting guidance related to revenue arrangements with multiple deliverables was issued. The guidance addresses the unit of accounting for arrangements involving multiple deliverables, how arrangement consideration should be allocated to the separate units of accounting and eliminates the criterion that objective and reliable evidence of fair value of any undelivered items must exist for the delivered item to be considered a separate unit of accounting. Such guidance is effective for fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The Company has not yet assessed the impact of this guidance on the Company's financial statements.

In September 2009, new accounting guidance was issued regarding tangible products containing both software and non-software components that function together to deliver the product's essential functionality. Such guidance is effective for fiscal years beginning on or after June 15, 2010. Early adoption is permitted. The Company has not yet assessed the impact of this guidance on the Company's financial statements.

In September 2009, new accounting guidance on measuring fair value of certain alternative investments was issued. The guidance offers investors a practical expedient for measuring the fair value of investments that calculate net asset value per share. Such guidance is effective for the first reporting period, including interim periods, ending after December 15, 2009. Early adoption is permitted. The Company has not yet assessed the impact of this guidance on the Company's financial statements.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

2. Earnings Per Common Share

Basic earnings per common share (EPS) is based upon the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that would occur if common stock equivalents were exercised or converted to common stock but only to the extent that they are considered dilutive to the Company's earnings. The impact from adopting new accounting guidance related to participating securities in 2009 on the calculations of basic and diluted EPS was immaterial. The following table is a reconciliation of the numerators and denominators of the basic and diluted EPS computations for the following periods:

(in millions, except per share amounts)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Numerator:				
Net income	\$ 27.7	\$ 26.6	\$ 82.8	\$ 65.1
Preferred stock dividends	2.6	2.6	7.8	7.8
Numerator for basic and diluted EPS	\$ 25.1	\$ 24.0	\$ 75.0	\$ 57.3
Denominator:				
Denominator for basic EPS weighted average common shares outstanding	209.0	233.7	215.7	240.6
Warrants	1.2	3.7	0.4	4.6
Stock-based compensation arrangements	3.0	1.8	2.0	1.8
Denominator for diluted EPS	213.2	239.2	218.1	247.0
Basic earnings per common share	\$ 0.12	\$ 0.10	\$ 0.35	\$ 0.24
Diluted earnings per common share	\$ 0.12	\$ 0.10	\$ 0.34	\$ 0.23
Potentially issuable common shares excluded from denominator for diluted EPS due to anti-dilutive effect	41.0	40.0	43.1	39.1

3. Comprehensive Income

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net income	\$ 27.7	\$ 26.6	\$ 82.8	\$ 65.1
Amortization and rereasurement of pension and postretirement liabilities, net of taxes	7.2	1.2	74.6	15.1
Comprehensive income	\$ 34.9	\$ 27.8	\$ 157.4	\$ 80.2

Form 10-Q Part I

Cincinnati Bell Inc.

4. Debt

The Company's debt consists of the following:

(dollars in millions)	September 30, 2009	December 31, 2008
Current portion of long-term debt:		
Credit facility, Tranche B Term Loan	\$ 2.1	\$ 2.1
Capital lease obligations and other debt	10.0	8.1
Current portion of long-term debt	12.1	10.2
Long-term debt, less current portion:		
Credit facility, revolver	85.7	73.0
Credit facility, Tranche B Term Loan	203.3	204.9
7 1/4% Senior Notes due 2013	439.9	439.9
8 3/8% Senior Subordinated Notes due 2014*	570.4	572.7
7% Senior Notes due 2015*	252.5	257.2
7 1/4% Senior Notes due 2023	40.0	50.0
Receivables Facility	85.9	75.0
Various Cincinnati Bell Telephone notes	207.5	230.0
Capital lease obligations and other debt	46.7	47.5
	1,931.9	1,950.2
Net unamortized premiums	0.3	0.3
Long-term debt, less current portion	1,932.2	1,950.5
Total debt	\$ 1,944.3	\$ 1,960.7

* The face amount of these notes has been adjusted for the fair value of interest rate swaps classified as fair value derivatives at December 31, 2008 and for the unamortized called amounts received on terminated interest rate swaps at September 30, 2009.

In the third quarter of 2009, the Company extinguished and retired \$10.0 million of 7 1/4% Senior Notes due 2023 and \$22.5 million of Cincinnati Bell Telephone notes at an average discount of 24%, which resulted in a gain on extinguishment of debt of \$7.7 million. This gain is included in Other income, net on the Condensed Consolidated Statements of Operations.

In June 2009, the Company amended its \$250 million Corporate revolving credit facility, which would have expired in February 2010. The amended Corporate credit facility has a \$210 million revolving line of credit and expires in August 2012. The Corporate revolving credit facility is funded by 11 different financial institutions, with no financial institution having more than 12% of the total facility. Borrowings under the revolving credit facility bear interest, at the Company's election, at a rate per annum equal to LIBOR or the base rate plus the applicable margin. The applicable margin is based on certain Company financial ratios and ranges between 3.00% to 3.50% for LIBOR rate advances and 2.00% to 2.50% for base rate advances. Base rate is the highest of the bank prime rate, the LIBOR rate plus one percent, or the federal funds rate plus one-half percent. Commitment fees for the unused amount of borrowings on the revolving line of credit range from 0.50% to 0.75% and letter of credit fees for outstanding letters of credit range from 3.00% to 3.50% based on certain Company financial ratios.

As of September 30, 2009, the Company had \$85.7 million outstanding borrowings under its revolving credit facility, and had outstanding letters of credit totaling \$26.1 million, leaving \$98.2 million in additional borrowing availability under its Corporate credit facility.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

In March 2007, the Company and certain subsidiaries entered into an accounts receivable securitization facility (*Receivables Facility*), which permitted borrowings of up to \$80 million. Under the Receivables Facility, certain subsidiaries sell their respective trade receivables on a continuous basis to CB Funding LLC (*CBF*). Although CBF is a wholly-owned consolidated subsidiary of the Company, CBF is legally separate from the Company and each of the Company's other subsidiaries. Upon and after the sale or contribution of the accounts receivable to CBF, such accounts receivable are legally assets of CBF, and as such are not available to creditors of other subsidiaries or the parent company. In March 2009, the Company expanded the Receivables Facility to include an additional subsidiary, Cincinnati Bell Technology Solutions Inc. (*CBTS*), and increased the maximum potential borrowing amount to \$115 million, depending on the level of eligible receivables and other factors. In July 2009, the Company amended the Receivables Facility to include a new subsidiary, eVolve Business Solutions LLC. At September 30, 2009, the Company had \$85.9 million of borrowings outstanding under the Receivables Facility, which was the maximum borrowing permitted at that date. The Receivables Facility is subject to bank renewals in the first quarter of each year, and in any event expires in March 2012. In the event the Receivables Facility is not renewed, the Company believes it would be able to refinance the borrowings under the Corporate revolving credit facility.

Subsequent Event

In October 2009, the Company issued \$500 million of 8 1/4% Senior Notes due 2017 (*8 1/4% Senior Notes*). The net proceeds of approximately \$482 million after debt issuance costs will be used to redeem the outstanding 7 1/4% Senior Notes due 2013 of \$439.9 million plus accrued and unpaid interest and related call premium, and for general corporate purposes including the repayment of other debt. The 8 1/4% Senior Notes are fixed rate bonds to maturity. As a result of redeeming the 7 1/4% Senior Notes due 2013, the Company expects to incur a loss on debt extinguishment of approximately \$18 million, which consists of the call premium and write-off of debt issuance costs.

Interest on the 8 1/4% Senior Notes is payable semi-annually in cash in arrears on April 15 and October 15 of each year, commencing April 15, 2010. The 8 1/4% Senior Notes are unsecured senior obligations ranking equally with all existing and future senior debt and ranking senior to all existing and future subordinated indebtedness. Each of the Company's current and future subsidiaries that is a guarantor under the Corporate credit facility is also a guarantor of the 8 1/4% Senior Notes on an unsecured senior basis, with certain immaterial exceptions. The indenture governing the 8 1/4% Senior Notes contains covenants including but not limited to the following: limitations on dividends to shareowners and other restricted payments; dividend and other payment restrictions affecting the Company's subsidiaries such that the subsidiaries are not permitted to enter into an agreement that would limit their ability to make dividend payments to the parent; issuance of indebtedness; asset dispositions; transactions with affiliates; liens; investments; issuances and sales of capital stock of subsidiaries; and redemption of debt that is junior in right of payment. The indenture governing the 8 1/4% Senior Notes provides for customary events of default, including a cross-default provision for nonpayment at final maturity or acceleration due to a default of any other existing debt instrument that exceeds \$35 million.

The Company may redeem the 8 1/4% Senior Notes for a redemption price of 104.125%, 102.063%, and 100.000% after October 15, 2013, 2014, and 2015, respectively. At any time prior to October 15, 2013, the Company may redeem all or part of the 8 1/4% Senior Notes at a redemption price equal to the sum of (1) 100% of the principal, plus (2) the greater of (a) 1% of the face value of the 8 1/4% Senior Notes or (b) the excess over the principal amount of the sum of the present values of (i) 104.125% of the face value of the 8 1/4% Senior Notes, and (ii) interest due from the date of redemption to October 15, 2013, in each case discounted to the redemption date on a semi-annual basis at the applicable U.S. Treasury rates plus one-half percent, plus (3) accrued and unpaid interest, if any, to the date of redemption. Prior to October 15, 2012, the Company may redeem up to a maximum of 35% of the aggregate principal amount of the 8 1/4% Senior Notes with the net cash proceeds of one or more equity offerings by the Company, at a redemption price equal to 108.250% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the redemption date.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

5. Financial Instruments and Fair Value

The following is the three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value of financial instruments:

Level 1 - Observable inputs such as quoted prices in active markets;

Level 2 - Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs); and

Level 3 - Unobservable inputs that reflect the Company's determination of assumptions that market participants would use in pricing the asset or liability. These inputs are developed based on the best information available, including the Company's own data.

At September 30, 2009, the Company had no financial instruments that are required to be measured at fair value. At December 31, 2008, the fair value of the Company's financial instruments that are required to be measured at fair value on a recurring basis were as follows:

(dollars in millions)	December 31, 2008	Level 1	Level 2	Level 3
Interest rate swap assets	\$ 22.6	\$	\$ 22.6	\$
Interest rate swap liabilities	3.8		3.8	
Money market funds	3.1	3.1		

The Company is exposed to the impact of interest rate fluctuations on its indebtedness. The Company attempts to maintain an optimal balance of fixed rate and variable rate indebtedness in order to attain low overall borrowing costs over time while mitigating exposure to interest rate fluctuations. The Company periodically uses derivative financial instruments to manage its balance of fixed rate and variable rate indebtedness. The Company does not hold or issue derivative financial instruments for trading or speculative purposes.

In 2004 and 2005, the Company entered into long-term interest rate swaps with notional amounts totaling \$450 million to change the fixed rate nature of a portion of the 7% Senior Notes due 2015 (7% Senior Notes) and the 8% Senior Subordinated Notes due 2014 (8% Subordinated Notes) to floating rate debt (long-term interest rate swaps). These long-term interest rate swaps qualified for fair value hedge accounting. In December 2008 and early 2009, certain counterparties exercised their right to call \$250 million of the notional amount of long-term interest rate swaps for the 8³/₈% Subordinated Notes, for which the Company received \$10.5 million in the first quarter of 2009 upon termination of the swaps. In the third quarter of 2009, the Company terminated the remaining long-term interest rate swaps and received \$6.5 million. These amounts received are being amortized as a reduction to interest expense over the terms of the 8³/₈% Subordinated Notes and 7% Senior Notes.

In both May and July 2008, the Company entered into six-month interest rate swap contracts with notional amounts totaling \$450 million each, which effectively fixed the floating interest rates for the second half of 2008 and the first half of 2009 on the long-term interest rate swaps. The Company did not designate these swaps as hedging instruments, which resulted in the change in the fair value of these instruments being recognized to earnings during each period that these instruments were outstanding.

The table below provides the fair values of the Company's derivative instruments:

(dollars in millions)	September 30, 2009	Assets (Liabilities) December 31, 2008
Derivatives designated as fair value hedges		
Interest rate swaps	\$	\$ 22.4
Derivatives not designated as fair value hedges		
Interest rate swaps		(3.6)

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

At December 31, 2008, a derivative asset of \$8.4 million for the called swaps was included in Prepaid expenses and other current assets and a \$14.0 million derivative asset on the remaining long-term interest rate swaps was included in Other noncurrent assets in the Condensed Consolidated Balance Sheet. The liability recognized for the derivatives not designated as fair value hedges was included in Other current liabilities in the Condensed Consolidated Balance Sheet as of December 31, 2008.

The table below provides the amount of gains recognized in income for the Company's derivative instruments:

(dollars in millions)	Gain recognized for Nine Months ended	
	September 30, 2009	September 30, 2008
Derivatives designated as fair value hedges		
Interest rate swaps	\$ 4.0	\$ 3.4
Derivatives not designated as fair value hedges		
Interest rate swaps		0.1

Realized gains and losses from the long-term interest rate swaps are recognized as an adjustment to Interest expense in the Condensed Consolidated Statement of Operations. The realized and unrealized gains and losses for the interest rate swaps not designated as hedging instruments are included in Other income, net in the Condensed Consolidated Statement of Operations.

The carrying value of the Company's financial instruments does not materially differ from the estimated fair values as of September 30, 2009 and December 31, 2008 except for the Company's debt. The carrying amounts of debt, excluding capital leases and unamortized premiums, at September 30, 2009 and December 31, 2008 were \$1,888.6 million and \$1,906.1 million, respectively. The estimated fair values at September 30, 2009 and December 31, 2008 were \$1,803 million and \$1,523 million, respectively. These fair values were estimated based on closing market prices of the Company's debt and of similar liabilities.

6. Restructuring Charges**2009 Restructuring**

In 2009, the Company announced significant changes to its pension and postretirement plans. This resulted in a curtailment gain of \$7.6 million, which is included in Restructuring charges (gains) in the Condensed Consolidated Statement of Operations. See Note 7 for further information.

Prior Years Restructurings

Restructuring reserve	Balance December 31, 2008			Balance March 31, 2009			Balance June 30, 2009			Balance September 30, 2009	
(dollars in millions):		Expense	Utilizations		Expense	Utilizations		Income	Utilizations		
2007-2008 plan	\$ 8.0	\$	\$ (0.5)	\$ 7.5	\$	\$ (2.3)	\$ 5.2	\$	\$ (1.3)	\$ 3.9	
2001 plan	5.1	0.1	(0.3)	4.9	0.1	(0.3)	4.7	(0.1)	(0.2)	4.4	

2007-2008 Restructuring

In the fourth quarter of 2007, the Company announced a restructuring plan to reduce costs and increase operational efficiencies. As a result, the Company incurred restructuring charges totaling \$37.5 million for the three months ended December 31, 2007, which consisted of \$22.9 million of employee separation benefits, \$8.2 million of special termination pension and postretirement benefits and a curtailment charge of \$6.4 million. For the nine months ended September 30, 2008, the Company recorded an additional charge of \$26.9 million, which consisted of \$25.6 million of special termination benefits and a \$15.5 million curtailment charge, offset by a \$14.2 million reduction in the employee separation benefits. A further discussion of the charges follows:

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

Employee separation benefits In 2007, the Company determined a need to reduce its headcount over the next five years to conform its Wireline operations to the decreased access lines being served by the Company and, as a result, recorded severance liabilities of \$22.9 million. In the first quarter of 2008, 284 union employees accepted an early retirement, which included special termination pension benefits discussed below. These early retirements reduced the need for the severance liability by \$14.2 million.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Special termination benefits The Company offered and, by December 31, 2007, 105 management employees accepted early retirements, with special termination pension benefits totaling \$12 million, of which \$8.2 million had been earned and accrued at December 31, 2007. The Company offered and, by March 31, 2008, 284 union employees accepted early retirements, with special termination pension benefits totaling \$25 million, of which \$22.1 million had been earned and was accrued at March 31, 2008. Remaining special termination benefits for both union and management employees were subject to future service requirements as determined by the Company and were amortized to expense over the future service period. The Company recognized \$3.5 million of these amortized costs in the first nine months of 2008 and \$2.0 million in the first nine months of 2009.

Pension and postretirement curtailment charges Union terminations contemplated above represented approximately 11% of the plan future service years for both the pension and postretirement plans, resulting in a curtailment charge of \$15.5 million for the pension and postretirement plans in the first quarter of 2008.

At September 30, 2009 and December 31, 2008, \$1.0 million and \$1.5 million of the restructuring reserve was included in **Other current liabilities** and \$2.9 million and \$6.5 million was included in **Other noncurrent liabilities**, respectively, in the Condensed Consolidated Balance Sheets. The special termination benefits and curtailment charges are included in **Accrued pension and postretirement benefits** in the Condensed Consolidated Balance Sheet at September 30, 2009. For further information related to the special termination benefits and curtailments discussed above, see Note 7.

2001 Restructuring

In 2001, the Company adopted a restructuring plan which included initiatives to consolidate data centers, reduce the Company's expense structure, exit the network construction business, eliminate other non-strategic operations, and merge the digital subscriber line and certain dial-up internet operations into the Company's other operations. The Company completed the plan as of December 31, 2002, except for certain lease obligations, which are expected to continue through 2015.

At September 30, 2009 and December 31, 2008, \$0.7 million and \$1.0 million, respectively, of the reserve balance was included in **Other current liabilities** in the Condensed Consolidated Balance Sheets. The reserve included in **Other noncurrent liabilities** in the Condensed Consolidated Balance Sheets was \$3.7 million and \$4.1 million at September 30, 2009 and December 31, 2008, respectively.

7. Pension and Postretirement Plans

In 2009, the Company announced significant changes to its management pension plan and its postretirement plans. The Company announced that it will freeze pension benefits for certain management employees below 50 years of age and provide a 10-year transition period for those employees over the age of 50 after which the pension benefits will be frozen. Additionally, the Company announced it will phase out the retiree healthcare plans for all management employees and certain retirees in 10 years.

The significant changes announced caused a 90% decrease in the expected future service years for active participants in the management pension plan, which triggered a plan curtailment. The curtailment gain of \$7.6 million consisted of the acceleration of unrecognized prior service benefits. In addition, the Company determined that the significant changes to the postretirement plan benefits required remeasurement of these plans in 2009. The Company remeasured its management pension plan and its postretirement plans, using revised assumptions, including modified retiree benefit payment assumptions, revised discount rates and updated plan asset information. Discount rates used for the remeasurements were 6.5% for the management pension plan and 6.3% for the postretirement plans. Additionally, the Company determined that these benefit changes result in substantially all of the remaining participants in the management postretirement plan to be either fully eligible for benefits or retired. As such, the unrecognized prior service gain and unrecognized actuarial gains are amortized over the average life expectancy of the participants rather than the shorter service periods previously used. As a result of the remeasurement, the Company's pension and postretirement obligations were reduced by approximately \$124 million, deferred tax assets were reduced for the related tax effect by \$45 million, and equity was increased by \$79 million.

In 2008, as a result of the acceptance of special termination benefits by certain retirement eligible union employees (see Note 6), the Company determined that a curtailment charge associated with its union pension and postretirement plans was required due to the significant decrease in the expected future service years. The curtailment charge for the union pension plan and the union postretirement plan for the nine months ended September 30, 2008, consisted of both an increase in the benefit obligation of \$2.2 million and \$12.5 million and the acceleration of

unrecognized prior service cost of \$0.9 million and a benefit of \$0.1 million, respectively.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

As a result of the new union labor agreement and curtailment in 2008, the Company remeasured its union pension and postretirement obligations using revised assumptions, including modified retiree benefit payment assumptions, a revised discount rate of 6.4%, and updated plan asset information. As a result of the remeasurement, the Company's pension and postretirement obligations were reduced by approximately \$17 million, deferred tax assets were reduced for the related tax effect by \$6 million, and equity was increased by \$11 million.

Pension and postretirement benefit costs are as follows:

(dollars in millions)	Pension Benefits		Postretirement and Other Benefits	
	Three Months Ended September 30,			
	2009	2008	2009	2008

8. Business Segment Information

The Company operates in the following three segments: Wireline, Wireless and Technology Solutions. The Wireline segment provides local voice, data, long-distance and other services to customers primarily in southwestern Ohio, northern Kentucky, and southeastern Indiana. The Wireless segment provides advanced, digital voice and data communications services and sales of related communications equipment to customers in the Greater Cincinnati and Dayton, Ohio operating areas. The Technology Solutions segment provides a range of fully managed and outsourced IT and telecommunications services and offers solutions that combine data center collocation services along with the sale, installation, and maintenance of major branded IT and telephony equipment.

During the three months ended September 30, 2009, the Wireless segment sold its wireless spectrum for the Indianapolis, Indiana region for \$5.8 million. The loss on the sale of the spectrum of \$4.8 million is included in Loss on sale of asset and asset impairment in the Condensed Consolidated Statement of Operations.

Certain corporate administrative expenses have been allocated to segments based upon the nature of the expense and the relative size of the segment.

The Company's business segment information is as follows:

(dollars in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008

Cincinnati Bell Inc.

9. Stock-Based Compensation Plans

In the second quarter of 2009, the Company's shareholders amended the Cincinnati Bell Inc. 2007 Long Term Incentive Plan to increase the number of shares available for issuance by 10,000,000 common shares and to modify the limits on certain award types, including full value shares.

Stock options

The following table summarizes stock option activity for the nine months ended September 30, 2009:

(in thousands, except per share amounts)	Shares	Weighted-Average Exercise Prices Per Share
Outstanding at January 1, 2009	22,770	\$ 9.34
Granted	1,918	1.47
Forfeited/expired	(4,300)	16.08
Outstanding at September 30, 2009	20,388	\$ 7.17
Vested and expected to vest at September 30, 2009	20,253	\$ 7.21
Exercisable at September 30, 2009	14,403	\$ 9.23

During the nine months ended September 30, 2009, the Company granted stock options which vest over three years. The Company recognized compensation expense of \$0.7 million related to stock options for the three months ended September 30, 2009, \$3.3 million for the nine months ended September 30, 2009, \$0.4 million for the three months ended September 30, 2008 and \$1.2 million for the nine months ended September 30, 2008. As of September 30, 2009, there was \$1.9 million of unrecognized compensation expense related to non-vested stock options. This expense is expected to be recognized over a weighted-average period of approximately two years. At September 30, 2009, the aggregate intrinsic value of stock options outstanding was approximately \$8.8 million.

The weighted-average fair values at the date of grant were estimated using the Black-Scholes option-pricing model with the following assumptions:

	Nine Months Ended September 30,	
	2009	2008
Expected volatility	41.7%	30.7%
Risk-free interest rate	2.1%	2.9%
Expected holding period - years	5	5
Expected dividends	0.0%	0.0%
Weighted-average grant date fair value	\$ 1.45	\$ 1.23

The expected volatility assumption used in the Black-Scholes pricing model was based on historical volatility. The risk-free interest rate was based on the U.S. Treasury yield curve in effect at the time of grant. The expected holding period was estimated using the historical exercise behavior of employees and adjusted for abnormal activity. Expected dividends are based on the Company's history of paying dividends, as well as restrictions in place under the Company's debt covenants.

Form 10-Q Part I

Cincinnati Bell Inc.

Performance-based awards

The following table summarizes performance-based award activity for the nine months ended September 30, 2009:

(in thousands, except per share amounts)	Shares	Weighted-Average Grant Date Fair Value Per Share
Non-vested as of January 1, 2009	2,307	\$ 4.20
Granted*	1,786	2.77
Vested	(838)	4.16
Forfeited	(48)	3.33
Non-vested at September 30, 2009	3,207	\$ 3.42

* Assumes the maximum number of awards that can be earned if the performance conditions are achieved.

Awards granted generally vest over three years and upon the achievement of certain performance-based objectives. The Company recognized expense for performance-based awards of \$0.7 million for the three months ended September 30, 2009, \$2.4 million for the nine months ended September 30, 2009, \$0.8 million for the three months ended September 30, 2008 and \$3.4 million for the nine months ended September 30, 2008. As of September 30, 2009, there was \$1.7 million of unrecognized compensation expense related to performance-based awards. This expense is expected to be recognized over a weighted-average period of approximately one year.

Time-based restricted awards

The following table summarizes time-based restricted award activity for the nine months ended September 30, 2009:

(in thousands, except per share amounts)	Shares	Weighted-Average Grant Date Fair Value Per Share
Non-vested as of January 1, 2009	303	\$ 4.82
Granted	101	2.77
Vested	(16)	4.70
Forfeited	(21)	4.86
Non-vested at September 30, 2009	367	\$ 4.26

Awards granted generally vest in one-third increments over a period of three years. The Company recognized expense related to time-based restricted awards of \$0.2 million for the three months ended September 30, 2009, \$0.6 million for the nine months ended September 30, 2009, \$0.2 million for the three months ended September 30, 2008 and \$0.5 million for the nine months ended September 30, 2008. As of September 30, 2009, there was \$0.8 million of unrecognized compensation expense related to these shares. This expense is expected to be recognized over a weighted-average period of approximately one year.

Cincinnati Bell Inc.

**10. Supplemental Guarantor Information
Cincinnati Bell Telephone Notes**

Cincinnati Bell Telephone Company LLC (CBT), a wholly-owned subsidiary of Cincinnati Bell Inc. (the Parent Company or CBI), has \$207.5 million in notes outstanding at September 30, 2009 that are guaranteed by the Parent Company and no other subsidiaries of the Parent Company. The guarantee is full and unconditional. The Parent Company's subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company's debt service obligations.

The following information sets forth the Condensed Consolidating Statements of Operations and Cash Flows for the three and nine months ended September 30, 2009 and 2008 and Condensed Consolidating Balance Sheets as of September 30, 2009 and December 31, 2008 of (1) the Parent Company, as the guarantor (2) Cincinnati Bell Telephone Company LLC, as the issuer, and (3) the non-guarantor subsidiaries on a combined basis:

Cincinnati Bell Inc.

7¹/₄% Senior Notes Due 2013, 7% Senior Notes Due 2015, and 8³/₈% Senior Subordinated Notes Due 2014

The Parent Company's 7¹/₄% Senior Notes due 2013, 7% Senior Notes due 2015, and 8³/₈% Senior Subordinated Notes due 2014 are guaranteed by the following subsidiaries: Cincinnati Bell Entertainment Inc., Cincinnati Bell Complete Protection Inc., Cincinnati Bell Any Distance Inc., Cincinnati Bell Telecommunication Services LLC, Cincinnati Bell Wireless Company, Cincinnati Bell Wireless LLC, GramTel Inc., BRCOM Inc., CBTS, Cincinnati Bell Shared Services LLC, CBTS Software LLC, IXC Internet Services Inc. and eVolve Business Solutions LLC. The Parent Company owns directly or indirectly 100% of each guarantor and each guarantee is full and unconditional and joint and several. The Parent Company's subsidiaries generate substantially all of its income and cash flow and generally distribute or advance the funds necessary to meet the Parent Company's debt service obligations.

The following information sets forth the Condensed Consolidating Statements of Operations and Cash Flows for the three and nine months ended September 30, 2009 and 2008 and the Condensed Consolidating Balance Sheets as of September 30, 2009 and December 31, 2008 of (1) the Parent Company, as the issuer (2) the guarantor subsidiaries on a combined basis, and (3) the non-guarantor subsidiaries on a combined basis:

Form 10-Q Part I

Cincinnati Bell Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Information included in this Quarterly Report on Form 10-Q contains certain forward-looking statements that involve potential risks and uncertainties. The Company's future results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, those discussed herein and those discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2008. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date thereof.

The Company was initially incorporated under the laws of Ohio in 1983 and remains incorporated under the laws of Ohio. It has its principal executive offices at 221 East Fourth Street, Cincinnati, Ohio 45202 (telephone number (513) 397-9900 and website address <http://www.cincinnati-bell.com>). The Company makes available its reports on Form 10-K, 10-Q, and 8-K (as well as all amendments to these reports) on its website, free of charge, at the Investor Relations section as soon as practicable after they have been electronically filed.

The Company files annual, quarterly and current reports, proxy statements and other information with the SEC under the Exchange Act. These reports and other information filed by the Company may be read and copied at the Public Reference Room of the SEC, 100 F Street N.E., Washington, D.C. 20549. Information may be obtained about the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy statements, and other information about issuers, like the Company, which file electronically with the SEC. The address of that site is <http://www.sec.gov>.

Critical Accounting Policies and Estimates

The preparation of Condensed Consolidated Financial Statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, and expenses. In the Company's Annual Report on Form 10-K for the year ended December 31, 2008, the Company identified critical accounting policies that affect its more significant estimates and assumptions used in preparing its Condensed Consolidated Financial Statements. These critical accounting policies include revenue recognition, accounting for allowances for uncollectible accounts receivable, reviewing the carrying values of goodwill and indefinite-lived intangible assets, reviewing the carrying values of property, plant and equipment, accounting for business combinations, accounting for taxes, accounting for pension and postretirement expenses, and accounting for termination benefits.

Results of Operations

The financial results for the three and nine months ended September 30, 2009 and 2008 referred to in this discussion should be read in conjunction with the Condensed Consolidated Statements of Operations in this Quarterly Report on Form 10-Q. Results for interim periods may not be indicative of the results for subsequent periods or the full year.

Consolidated Overview

Consolidated revenue totaled \$337.7 million for the third quarter of 2009, a decrease of \$8.8 million compared to the third quarter of 2008. The decrease was primarily due to the following:

\$9.7 million lower revenues in the Wireline segment primarily due to lower voice revenue;

\$3.1 million lower revenues in the Wireless segment primarily due to lower postpaid service revenue; and

\$5.1 million higher revenues in the Technology Solutions segment primarily due to increased data center and managed services revenue and higher telecom and IT equipment distribution revenue.

For the nine months ended September 30, 2009, consolidated revenue decreased \$55.4 million to \$990.8 million as compared to \$1,046.2 million for the same period in 2008. The decrease was primarily due to the following:

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

\$25.5 million lower revenues in the Wireline segment primarily due to lower voice revenue partially offset by higher data revenue;

\$18.6 million lower revenues in the Technology Solutions segment primarily due to lower telecom and IT equipment distribution revenue partially offset by increased data center and managed services revenue; and

\$7.1 million lower revenues in the Wireless segment primarily due to lower postpaid service revenue and equipment revenue.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Operating income for the third quarter of 2009 was \$73.2 million, a decrease of \$6.6 million compared to the same period in 2008. The decrease resulted from lower Wireless segment operating income due primarily to a \$4.8 million loss on the sale of a wireless spectrum asset and lower postpaid service revenue.

Operating income for the nine months ended September 30, 2009 was \$229.1 million, an increase of \$12.3 million compared to the same period a year ago. This increase was primarily due to the following:

\$25.2 million increase in Wireline segment operating income primarily due to lower restructuring costs; and

\$12.6 million decrease in Wireless segment operating income due primarily to lower postpaid service revenue and a loss on the sale of a wireless spectrum asset.

Interest expense was \$31.5 million for the third quarter of 2009 and \$94.6 million for the nine months ended September 30, 2009 as compared to \$35.0 million for the third quarter of 2008 and \$106.1 million for the nine months ended September 30, 2008. The decrease compared to last year is primarily attributable to lower debt balances due to the purchase and extinguishment of a portion of the Company's corporate bonds and lower short-term interest rates.

Income tax expense for the third quarter of 2009 of \$21.7 million and income tax expense for the nine months ended September 30, 2009 of \$59.1 million increased by \$2.5 million and \$11.1 million, respectively, versus the comparable prior year periods primarily due to higher pretax income.

The Company expects its effective tax rate to exceed statutory rates primarily due to the non-deductible expenses, including interest on securities originally issued to acquire its broadband business (the Broadband Securities) or securities that the Company has subsequently issued to refinance the Broadband Securities. The Company estimates that its effective income tax rate will be approximately 41% for the full year 2009. However, the Company expects to use federal and state net operating loss carryforwards to substantially defray payment of federal and state tax liabilities in 2009. The Company expects income tax payments for the 2009 year to be approximately \$7 million.

The Wireline segment consists of the operations of Cincinnati Bell Telephone Company LLC, which operates as an incumbent local exchange carrier (ILEC) within the Company's traditional territory, Cincinnati Bell Extended Territories LLC, which operates as a competitive local exchange carrier (CLEC) in Dayton, Ohio and communities adjacent to the ILEC's northern borders, Cincinnati Bell Any Distance Inc. (CBAD), which provides long distance, audio conferencing, voice over internet protocol (VoIP) and broadband services including private line and multi protocol label switching, eVolve Business Solutions LLC, which provides VoIP services, Cincinnati Bell Complete Protection Inc., which provides security monitoring services and related surveillance hardware, the Company's payphone business, and its entertainment operations, which currently offers television over coaxial cable and fiber optical cable in limited areas and DirecTV on a commission basis to the remainder of its operating territory.

Revenue

Voice local service revenue includes local service, value added services, switched access and information services. Voice revenue decreased for both the three and nine months ended September 30, 2009 versus the same period in 2008 primarily as a result of a 7% decrease in access lines. Access lines within the segment's ILEC territory decreased by 59,000 or 8%, from 723,100 at September 30, 2008 to 664,100 at September 30, 2009. The access line loss resulted from several factors including customers electing to use wireless communication in lieu of the traditional local service, Company-initiated disconnections of customers with credit problems, and customers electing to use service from other providers. The Company has partially offset its access line loss in its ILEC territory by continuing to target voice services to residential and business customers in its CLEC territory. The Company had 73,700 CLEC access lines at September 30, 2009, which is an 8% increase from September 30, 2008.

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

Data revenue consists of data transport, high-speed internet access (DSL), dial-up internet access, digital trunking, and local area network interconnection services. Data revenue increased \$1.6 million and \$6.7 million for the three and nine months ended September 30, 2009 compared to the same periods a year ago, primarily due to increased data transport usage by third party users.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Long distance and VoIP revenue decreased \$0.8 million and \$1.7 million for the three and nine months ended September 30, 2009 as compared to the same periods in 2008. The decrease was due to lower minutes of use for long-distance and audio conferencing, which caused a \$1.5 million and \$6.0 million decrease in revenue for the three and nine months ended September 30, 2009, respectively. The decrease in long distance revenue was due to a 5% decline in residential lines. The revenue decrease from long distance and audio conferencing was partially offset by growth in revenue from VoIP and broadband services.

Costs and Expenses

Cost of services and products decreased by \$4.7 million and \$12.6 million for the three and nine months ended September 30, 2009 as compared to the corresponding periods in 2008. The decrease in the third quarter was driven by lower benefit costs of \$2.8 million primarily due to the pension and postretirement plan changes announced in February 2009, lower operating and property taxes of \$1.4 million and lower wages and other costs from operations. These decreases were partially offset by an increase in network costs of \$1.0 million to support growth in CLEC and VoIP revenues. The decrease in the nine months ended September 30, 2009 was primarily due to \$4.6 million in lower wages due to the Company's restructuring initiatives, \$5.9 million in lower benefit costs as discussed above, lower operating and property taxes of \$2.4 million and other lower costs from operations including a \$0.7 million claim settlement. These decreases were partially offset by an increase in network costs of \$2.7 million.

Selling, general and administrative expenses decreased by \$5.1 million and \$7.2 million for the three and nine months ended September 30, 2009, respectively, versus the comparable periods in 2008. The decrease for the three months ended September 30, 2009 primarily consists of a \$1.8 million decrease in costs resulting from lower negotiated rates with third party service providers, lower wages of \$1.5 million and lower benefit costs due to the pension and postretirement plan changes announced in February 2009. The decrease for the nine months ended September 30, 2009 was primarily due to a \$3.9 million decrease in costs from third party service providers as discussed above, a \$1.9 million decrease in wages and a \$2.1 million decrease in benefit costs. These decreases were partially offset by an increase in bad debt expense.

The restructuring gain for the nine months ended September 30, 2009 resulted primarily from a curtailment due to changes in the pension and postretirement plans announced in February 2009. Restructuring charges for the nine months ended September 30, 2008 resulted primarily from an early retirement option offered by the Company and accepted by certain eligible union employees during the first quarter of 2008. See Note 6 to the Condensed Consolidated Financial Statements for further information.

* The Company has presented certain information regarding monthly average revenue per user (ARPU) because the Company believes ARPU provides a useful measure of the operational performance of its Wireless segment. ARPU is calculated by dividing service revenue by the average subscriber base for the period.

Revenue

Service revenue decreased by \$2.6 million in the third quarter of 2009 as compared to the same period last year due to the following:

Postpaid service revenue decreased \$3.1 million due to a decrease in subscribers partially offset by an increase in ARPU. The Company's loss of postpaid subscribers has been higher than historical levels, in part due to the Company's tightening of credit standards. The ARPU increase was driven by a 23% increase in data ARPU; and

Prepaid service revenue increased \$0.5 million compared to the same period last year primarily due to an increase in ARPU of \$2.37 partially offset by a decrease in subscribers.

For the nine months ended September 30, 2009, service revenue decreased \$4.4 million compared to the same period in 2008 primarily due to a \$3.5 million decrease in postpaid service revenue resulting from the decrease in subscribers as described above partially offset by an increase in

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

ARPU. Prepaid service revenue declined \$0.9 million during the nine months ended September 30, 2009 compared to the same period in 2008 primarily from fewer subscribers partially offset by higher ARPU.

Equipment revenue for the three and nine months ended September 30, 2009 decreased by \$0.5 million and \$2.7 million compared to the same periods in 2008 primarily due to lower prepaid and postpaid subscriber activations partially offset by higher handset revenue per unit.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Costs and Expenses

Cost of services and products consists largely of network operation costs, interconnection expenses with other telecommunications providers, roaming expense (which is incurred for subscribers to use their handsets in the territories of other wireless service providers), and cost of handsets and accessories sold. These expenses increased \$0.3 million during the third quarter of 2009 and decreased \$0.4 million for the nine months ended September 30, 2009 versus the prior year periods. The third quarter increase was primarily attributable to an increase in handset subsidies to attract new customers and retain existing customers. The decrease for the nine months ended September 30, 2009 was primarily due to lower handset equipment costs of \$3.1 million and \$1.4 million lower operating taxes. These decreases were offset by an increase in handset subsidies to attract new customers and retain existing customers of \$3.7 million and higher network costs mostly related to the increased data revenue.

Selling, general and administrative expenses decreased \$1.8 million for the third quarter of 2009 primarily due to a decrease in advertising costs, bad debt expense and lower distributor commissions resulting from lower activations. Costs for the nine months ended September 30, 2009 versus the prior year period decreased \$1.4 million primarily due to lower distributor commissions resulting from lower activations of \$1.9 million as well as lower advertising and other costs offset by an increase in bad debt expense of \$1.8 million.

The loss on sale of asset of \$4.8 million relates to the wireless spectrum for the Indianapolis, Indiana region that the Company sold for \$5.8 million during the three months ended September 30, 2009.

The Technology Solutions segment consists of CBTS, CBTS Canada Inc., CBTS Software LLC, and GramTel Inc.

Revenue

Revenue from telecom and IT equipment distribution represents the sale, installation and maintenance of major, branded IT and telephony equipment. Revenue increased by \$2.1 million in the third quarter of 2009 as customer demand for equipment that had been suppressed by the economy began to be realized in the third quarter. Revenue decreased by \$33.5 million for the nine months ended September 30, 2009 as compared to the same periods a year ago as a result of lower capital spending by business customers due to the decline in the economy.

Table of Contents

Form 10-Q Part I

Cincinnati Bell Inc.

Data center and managed services revenue consists of recurring collocation rents from customers residing in the Company's data centers, managed VoIP solutions, and IT services that include network management, electronic data storage, disaster recovery, and data security management. Revenue increased \$2.5 million for the third quarter of 2009 and \$11.2 million for the nine months ended September 30, 2009 as compared to the same periods a year ago, primarily due to increased billable data center space.

Professional services revenue consists of long-term and short-term IT outsourcing and consulting engagements. Revenue for the three and nine months ended September 30, 2009 increased by \$0.5 million and \$3.7 million, respectively, compared to the same periods in 2008. The Company continues to expand its team of recruiting and hiring personnel in order to focus on selling these outsourcing and consulting engagements.

Costs and Expenses

Cost of services and products increased by \$3.3 million in the third quarter of 2009 and decreased by \$25.6 million for the nine months ended September 30, 2009 as compared to the same periods in 2008. The increase in the third quarter primarily resulted from a \$3.5 million increase in cost of goods sold related to higher telecom and equipment distribution revenue. The margin on telecom and equipment distribution revenue decreased from the third quarter of 2008 primarily due to the product mix of equipment sold. The decrease for the nine months ended September 30, 2009 was primarily due to a \$28.8 million decrease in cost of goods sold related to lower telecom and equipment distribution revenue partially offset by higher data center costs and higher payroll related costs due to growth in both data center and managed services and professional services revenues.

Selling, general and administrative expenses increased by \$0.2 million and \$2.9 million for the third quarter of 2009 and for the nine months ended September 30, 2009, respectively, primarily due to an increase in payroll related costs to support the growing operations.

The increase in depreciation expense for the three and nine months ended September 30, 2009 compared to the prior year periods was primarily due to capital expenditures associated with expanding data center capacity.

Financial Condition, Liquidity, and Capital Resources

As of September 30, 2009, the Company held \$37.5 million in cash and cash equivalents. The Company's primary sources of cash for the remainder of the year will be cash generated by operations and borrowings from the Corporate credit facility under which the Company had \$98.2 million of availability at September 30, 2009. In June 2009, the Company amended its Corporate credit facility, which would have expired in February 2010. The amended Corporate credit facility has a \$210 million revolving line of credit and expires in August 2012. The Company's cash flows from operating activities totaled \$403.9 million for the year 2008.

Uses of cash for the remainder of the year will include repayments and repurchases of debt and related interest, repurchases of common shares, dividends on preferred stock, capital expenditures, and working capital. In February 2008, the Company's Board of Directors authorized the repurchase of the Company's outstanding common stock in an amount up to \$150 million during the next two years. Through September 30, 2009, the Company has repurchased \$136.2 million of common stock, which leaves \$13.8 million available to repurchase common stock under the stock buyback program.

The Company believes the cash generated by its operations and borrowings from its Corporate credit facility and Receivables Facility will be sufficient to fund its primary uses of cash.

The Corporate credit facility financial covenants require that the Company maintain certain leverage ratios, interest coverage, and fixed charge ratios. The facility also contains certain covenants which, among other things, limit the Company's ability to incur additional debt or liens, pay dividends, repurchase Company common stock, sell, transfer, lease, or dispose of assets, and make investments or merge with another company. If the Company were to violate any of its covenants and were unable to obtain a waiver, it would be considered a default. If the Company were in default under its credit facility, no additional borrowings under the credit facility would be available until the default was waived or cured. The Company believes it is in compliance and will remain in compliance with its Corporate credit facility covenants.

Various issuances of the Company's public debt, which include the 7¼% Senior Notes due 2013, 8¾% Subordinated Notes, and the 7% Senior Notes, contain covenants that, among other things, limit the Company's ability to incur additional debt or liens, pay dividends or make other restricted payments, sell, transfer, lease, or dispose of assets and make investments or merge with another company. Restricted payments include

Edgar Filing: CINCINNATI BELL INC - Form 10-Q

common stock dividends, repurchase of common stock, and certain other public debt repayments. The Company believes it has sufficient ability under its public debt indentures to make its intended restricted payments in 2009. The Company believes it is in compliance and will remain in compliance with its public debt indentures.

Form 10-Q Part I

Cincinnati Bell Inc.

Cash Flows

For the nine months ended September 30, 2009, cash provided by operating activities totaled \$250.3 million, a decrease of \$16.0 million compared to the \$266.3 million provided by operating activities during the same period in 2008. The decrease was primarily due to a customer prepayment of \$21.5 million received in 2008 for data center services. This decrease was partially offset by \$13.2 million received related to the settlement and termination of the short and long-term interest rate swaps.

Cash flow utilized for investing activities decreased \$40.8 million to \$138.5 million during the nine months ended September 30, 2009 as compared to \$179.3 million for the nine months of 2008. In 2009, the Company sold wireless spectrum primarily for the Indianapolis, Indiana region for \$5.8 million. In 2008, the Company paid \$21.6 million related to the acquisition of businesses, \$18.1 million of which related to the purchase of eGIX Inc. Capital expenditures were \$17.0 million lower for the nine months ended September 30, 2009 versus last year.

Cash flow used in financing activities for the nine months ended September 30, 2009 was \$81.0 million compared to \$105.1 million during the same period in 2008. For the nine months ended September 30, 2009, the Company repurchased \$59.4 million of the Company's common stock as part of its two-year \$150 million common stock repurchase plan. In the third quarter of 2009, the Company purchased and extinguished \$32.5 million of the Cincinnati Bell Telephone Notes and the 7 1/4% Senior Notes due 2023 at an average discount of 24%. The Company also paid \$4.4 million of debt issuance costs to amend and extend the term of the Corporate credit facility in the second quarter of 2009. Borrowings under the Corporate credit and receivables facilities increased \$23.6 million in the nine months ended September 30, 2009. During the nine months ended September 30, 2008, the Company purchased and extinguished \$53.0 million of 8 3/8% Subordinated Notes and 7 1/4% Senior Notes due 2013 at an average discount of 5% and repurchased \$67.5 million of the Company's common stock as part of its two-year \$150 million common stock repurchase plan. Borrowings under the Corporate credit and receivables facilities increased by \$28.0 million during 2008. For the nine months ended September 30, 2009 and 2008, the Company paid preferred stock dividends of \$7.8 million.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company is exposed to the impact of interest rate fluctuations on its indebtedness. The Company attempts to maintain an optimal balance of fixed rate and variable rate indebtedness in order to attain low overall borrowing costs over time while mitigating exposure to interest rate fluctuations. The Company periodically uses derivative financial instruments to manage its balance of fixed rate and variable rate indebtedness. In 2004 and 2005, the Company entered into long-term interest rate swaps with notional amounts totaling \$450 million to change the fixed rate nature of a portion of the 7% Senior Notes and the 8 3/8% Subordinated Notes to floating rate debt. These long-term interest rate swaps qualified for fair value hedge accounting. In December 2008 and early 2009, certain counterparties exercised their right to call \$250 million of the notional amount of long-term interest rate swaps for the 8 3/8% Subordinated Notes for which the Company received \$10.5 million in the first quarter of 2009 upon termination of the swaps. In the third quarter of 2009, the Company terminated the remaining long-term interest rate swaps and received \$6.5 million. As of December 31, 2008, the fair value of these interest rate swap contracts was an asset of \$22.4 million, for which the Company's underlying hedged debt was adjusted by the same corresponding value.

In both May 2008 and July 2008, the Company entered into six-month interest rate swap contracts with notional amounts totaling \$450 million each, which effectively fixed the floating interest rates for the second half of 2008 and first half of 2009 on the long-term interest rate swaps. The Company did not designate these swaps as hedging instruments, which resulted in the change in the fair value of these instruments being recognized in Other income, net in the Condensed Consolidated Statements of Operations during each period that these instruments were outstanding. At December 31, 2008, the fair value of these interest rate swap contracts was a liability of \$3.6 million.

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2008 for further information on the Company's hedging activities.

Form 10-Q Part I

Cincinnati Bell Inc.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

The term "disclosure controls and procedures" (defined in SEC Rule 13a-15(e)) refers to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within required time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by the report. Based on that evaluation, Cincinnati Bell Inc.'s Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by the report, such controls and procedures were effective.

(b) Changes in internal controls over financial reporting.

The term "internal control over financial reporting" (defined in SEC Rule 13a-15(f)) refers to the process of a company that is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Cincinnati Bell Inc.'s management, with the participation of the Chief Executive Officer and Chief Financial Officer, have evaluated any changes in the Company's internal control over financial reporting that occurred during the third quarter of 2009, and they have concluded that there was no change to Cincinnati Bell Inc.'s internal control over financial reporting in the third quarter of 2009 that has materially affected, or is reasonably likely to materially affect, Cincinnati Bell Inc.'s internal control over financial reporting.

Form 10-Q Part II

Cincinnati Bell Inc.

PART II. OTHER INFORMATION**Item 1A. Risk Factors**

Other than the following, the Company believes there have been no other changes to its risk factors provided in its 2008 Annual Report on Form 10-K:

A health pandemic could severely affect the Company's operations.

As a result of any health pandemic, such as the H1N1 influenza virus, the Company could potentially experience a significant disruption in its operations due to staffing shortages as well as disruption of services and products provided by third-party providers. Any significant disruption in its operations could have a material adverse impact on the Company's business, financial condition, results of operations and cash flows.

A failure of back-office information technology systems could adversely affect the Company's results of operations and financial condition.

The efficient operation of the Company's business depends on back-office information technology systems. The Company relies on back-office information technology systems to effectively manage customer billing, business data, communications, supply chain, order entry and fulfillment and other business processes. A failure of the Company's information technology systems to perform as anticipated could disrupt the Company's business and result in a failure to collect accounts receivable, transaction errors, processing inefficiencies and the loss of sales and customers, causing the Company's reputation and results of operations to suffer. In addition, information technology systems may be vulnerable to damage or interruption from circumstances beyond the Company's control, including fire, natural disasters, systems failures, security breaches and viruses. Any such damage or interruption could have a material adverse effect on the Company's business.

A few large customers account for a significant portion of the Company's revenues and accounts receivable. The loss or significant reduction in business from one or more of these large customers could cause operating revenues to decline significantly and have a materially adverse long-term impact on the Company's business.

One customer represented approximately 10% of the outstanding accounts receivable balance at December 31, 2008. Contracts with customers may not sufficiently reduce the risk inherent that customers may terminate or fail to renew their relationships with the Company. As a result of the customer concentration, the Company's results of operations and financial condition could be materially affected if the Company lost one or more large customers or if services purchased were significantly reduced.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three month period ended September 30, 2009, the Company had no unregistered sales of equity securities.

The following table provides information regarding the Company's purchases of its common stock for the quarter ended September 30, 2009:

	Total Number of Shares (or Units) Purchased*	Average Price Paid per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs **	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (in millions) **
