BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Unaudited)

1. General Information

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission and therefore do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States. The year-end condensed balance sheet data was derived from audited financial statements, but also does not include all disclosures required by accounting principles generally accepted in the United States. However, in the opinion of Briggs & Stratton Corporation (the Company), adequate disclosures have been presented to prevent the information from being misleading, and all adjustments necessary to present fair statements of the results of operations and financial position have been included. All of these adjustments are of a normal recurring nature. These consolidated condensed financial statements should be read in conjunction with the financial statements and the notes thereto which were included in our latest Annual Report on Form 10-K.

2. New Accounting Pronouncements

In June 2009, the FASB issued new guidance that changes the approach to determining the primary beneficiary of a variable interest entity (VIE) and requires companies to more frequently assess whether they must consolidate VIEs. This standard was effective for the Company's first quarter of fiscal 2011. As of June 28, 2010 and subsequently, the Company evaluated all entities that fall within the scope of this new guidance, including the Company's investments in joint ventures, to determine whether consolidation of these entities was required. As a result of this evaluation, the Company has determined that it is not required to consolidate any of its joint ventures.

3. Assets Held for Sale

On July 1, 2009 the Company announced a plan to close its Jefferson and Watertown, WI manufacturing facilities in fiscal 2010. At December 26, 2010 and at June 27, 2010, the Company had \$4.0 million included in Assets Held for Sale in its Consolidated Balance Sheets consisting of certain assets related to the Jefferson, WI production facility. Prior to the closure, the facility manufactured all portable generator and pressure washer products marketed and sold by the Company within its Power Products Segment.

4. Earnings (Loss) Per Share

The calculation of earnings per share for common stock below excludes the income attributable to the unvested share units from the numerator and excludes the dilutive impact of those units from the denominator.

Shares outstanding used to compute diluted earnings per share for the three months ended December 26, 2010 excluded approximately 385,000 shares of restricted and deferred stock and outstanding options to purchase approximately 4,900,000 shares of common stock, as their inclusion would have been anti-dilutive. Shares outstanding used to compute diluted earnings per share for the six months ended December 26, 2010 excluded approximately 362,000 shares of restricted and deferred stock and outstanding options to purchase approximately 4,700,000 shares of common stock, as their inclusion would have been anti-dilutive. Shares outstanding used to compute diluted earnings per share for the three months ended December 27, 2009 excluded outstanding options to purchase approximately 4,600,000 shares of common stock because the options' exercise price was greater than the average market price of the common shares. Shares outstanding used to compute diluted earnings per share for the six months ended December 27, 2009 excluded approximately 346,000 shares for restricted and deferred stock and outstanding options to purchase approximately 4,400,000 shares of common stock as their inclusion would have been anti-dilutive.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

Information on earnings (loss) per share is as follows (in thousands):

	Three Months Ended		Six Months Ended	
	December 26, 2010	December 27, 2009	December 26, 2010	December 27, 2009
Net Income (Loss)	\$ (1,252)	\$ 3,025	\$ (9,365)	\$ (5,662)
Less: Dividends Attributable to Unvested Shares	(112)	(74)	(182)	(149)
Net Income (Loss) available to Common Shareholders	\$ (1,364)	\$ 2,951	\$ (9,547)	\$ (5,811)
Average Shares of Common Stock Outstanding	49,702	49,595	49,666	49,594
Diluted Average Shares of Common Stock Outstanding	49,702	50,040	49,666	49,594
Basic Earnings (Loss) Per Share	\$ (0.03)	\$ 0.06	\$ (0.19)	\$ (0.12)
Diluted Earnings (Loss) Per Share	\$ (0.03)	\$ 0.06	\$ (0.19)	\$ (0.12)

5. Comprehensive Income

Comprehensive income is a more inclusive financial reporting method that includes certain financial information that has not been recognized in the calculation of net income. Comprehensive income is defined as net income and other changes in shareholders' investment from transactions and events other than with shareholders. Total comprehensive income is as follows (in thousands):

	Three Months Ended		Six Months Ended	
	December 26, 2010	December 27, 2009	December 26, 2010	December 27, 2009
Net Income (Loss)	\$ (1,252)	\$ 3,025	\$ (9,365)	\$ (5,662)
Cumulative Translation Adjustments	1,283	(1,184)	10,508	4,975
Unrealized Gain (Loss) on Derivative Instruments, net of tax	(1,474)	3,430	(8,312)	3,015
Unrecognized Pension & Postretirement Obligation, net of tax	3,944	2,464	8,416	4,928
Total Comprehensive Income	\$ 2,501	\$ 7,735	\$ 1,247	\$ 7,256

The components of Accumulated Other Comprehensive Loss, net of tax, are as follows (in thousands):

	December 26, 2010	June 27, 2010
Cumulative Translation Adjustments	\$ 14,480	\$ 3,972
Unrealized Loss on Derivative Instruments	187	8,499
Unrecognized Pension & Postretirement Obligation	(322,764)	(331,180)
Accumulated Other Comprehensive Loss	\$ (308,097)	\$ (318,709)

6. Investments

Edgar Filing: BRIGGS & STRATTON CORP - Form 10-Q

Investments represent the Company's investment in its 30% and 50% owned joint ventures. Such investments are accounted for under the equity method of accounting. As of December 26, 2010 and June 27, 2010, the Company's investment in these joint ventures totaled \$16.7 million and \$19.7 million, respectively.

On June 28, 2010, the Company adopted new amendments included within Accounting Standards Codification Topic 810 (ASC 810) that, among other changes, revised the approach to determine the primary beneficiary of a variable interest entity (VIE) and requires companies to more frequently assess whether they must consolidate VIEs. The amendments replaced the existing quantitative approach for identifying the primary beneficiary with a qualitative approach. The determination of the primary beneficiary, the party that must consolidate the VIE, was amended to reflect the party that has the power to direct the activities that most economically affect the entity.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

As of June 28, 2010 and subsequently, the Company evaluated all entities that fall within the scope of the amended ASC 810, including the Company's investments in joint ventures, to determine whether consolidation of these entities was required. As a result of this evaluation, the Company has determined that it is not required to consolidate any of its joint ventures.

7. Pension and Postretirement Benefits

The Company has noncontributory defined benefit retirement plans and postretirement plans covering certain employees. The following tables summarize the plans' income and expense for the periods indicated (in thousands):

	Pension Benefits Three Months Ended		Other Postretirement Benefits Three Months Ended	
	December 26, 2010	December 27, 2009	December 26, 2010	December 27, 2009
Components of Net Periodic (Income) Expense:				
Service Cost	\$ 3,121	\$ 2,914	\$ 117	\$ 120
Interest Cost on Projected Benefit Obligation	14,143	15,149	1,707	2,840
Expected Return on Plan Assets	(19,202)	(20,264)		
Amortization of:				
Transition Obligation	2	2		
Prior Service Cost (Credit)	765	756	(757)	(230)
Actuarial Loss	4,408	693	2,359	2,534
Net Periodic (Income) Expense	\$ 3,237	\$ (750)	\$ 3,426	\$ 5,264

	Pension Benefits Six Months Ended		Other Postretirement Benefits Six Months Ended	
	December 26, 2010	December 27, 2009	December 26, 2010	December 27, 2009
Components of Net Periodic (Income) Expense:				
Service Cost	\$ 6,787	\$ 5,636	\$ 243	\$ 314
Interest Cost on Projected Benefit Obligation	28,344	30,372	3,546	5,632
Expected Return on Plan Assets	(38,487)	(40,510)		
Amortization of:				
Transition Obligation	4	4		
Prior Service Cost (Credit)	1,530	1,534	(1,739)	(460)
Actuarial Loss	8,885	1,586	5,141	5,103
Net Periodic (Income) Expense	\$ 7,063	\$ (1,378)	\$ 7,191	\$ 10,589

The Company expects to make benefit payments of approximately \$2.8 million attributable to its non-qualified pension plans during fiscal 2011. During the first six months of fiscal 2011, the Company made payments of approximately \$1.4 million for its non-qualified pension plans. The Company anticipates making benefit payments of approximately \$25.9 million for its other postretirement benefit plans during fiscal 2011. During the first six months of fiscal 2011, the Company made payments of \$14.2 million for its other postretirement benefit plans.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The Company is not required to make any contributions to the qualified pension plan during fiscal 2011, but may be required to make contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

8. Stock Incentives

Stock based compensation is calculated by estimating the fair value of incentive stock awards granted and amortizing the estimated value over the awards' vesting period. Stock based compensation expense was \$2.6 million and \$8.0 million for the quarter and six months ended December 26, 2010, respectively. For the quarter and six months ended December 27, 2009, stock based compensation expense was \$1.2 million and \$5.4 million, respectively. Included in stock based compensation expense for the quarter ended December 26, 2010 was an expense of \$1.3 million due to the modification of certain vesting conditions for the Company's stock incentive awards. The modification of the awards was made in connection with the Company's previously announced organization changes that involved a planned reduction of salaried employees during the quarter ended December 26, 2010. The Company also recorded expenses of approximately \$2.2 million for severance and other related employee separation costs associated with the reduction.

9. Derivative Instruments & Hedging Activity

Derivatives are recorded on the Condensed Consolidated Balance Sheets as assets or liabilities, measured at fair value. The Company enters into derivative contracts designated as cash flow hedges to manage certain foreign currency and commodity exposures.

Changes in the fair value of cash flow hedges to manage the Company's foreign currency exposure are recorded on the Consolidated Condensed Statements of Operations or as a component of Accumulated Other Comprehensive Loss. The amounts included in Accumulated Other Comprehensive Loss are reclassified into income when the forecasted transactions occur. These forecasted transactions represent the exporting of products for which the Company will receive foreign currency and the importing of products for which it will be required to pay in a foreign currency. Changes in the fair value of all derivatives deemed to be ineffective are recorded as either income or expense in the accompanying Consolidated Condensed Statements of Operations. These instruments generally do not have a maturity of more than twenty-four months.

The Company manages its exposure to fluctuation in the cost of natural gas used by its operating facilities through participation in a third party managed dollar cost averaging program linked to NYMEX futures. As a participant in the program, the Company hedges up to 100% of its anticipated monthly natural gas usage along with a pool of other companies. The Company does not hold any actual futures contracts, and actual delivery of natural gas is not required of the participants in the program. Cash settlements occur on a monthly basis based on the difference between the average dollar price of the underlying NYMEX futures held by the third party and the actual price of natural gas paid by the Company in the period. The fair value of the underlying NYMEX futures is reflected as an asset or liability on the accompanying Consolidated Condensed Balance Sheets. Changes in fair value are reflected as a Component of Accumulated Other Comprehensive Loss, which are reclassified into the income statement as the monthly cash settlements occur and actual natural gas is consumed. These contracts generally do not have a maturity of more than twenty-four months.

The Company manages its exposure to fluctuations in the cost of copper to be used in manufacturing by entering into forward purchase contracts designated as cash flow hedges. The Company hedges up to 100% of its anticipated copper usage, and the fair value of outstanding future contracts is reflected as an asset or liability on the accompanying Consolidated Condensed Balance Sheet based on NYMEX prices. Changes in fair value are reflected as a Component of Accumulated Other Comprehensive Loss if the forward purchase contracts are deemed to be effective. Changes in the fair value of all derivatives deemed to be ineffective are recorded as either income or expense in the accompanying Consolidated Condensed Statements of Operations. Unrealized gains or losses associated with the forward purchase contracts are captured in inventory costs and are realized in the income statement when sales of inventory are made. These instruments generally do not have a maturity of more than twenty-four months.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The Company has considered the counterparty credit risk related to all its foreign currency and commodity derivative contracts and does not deem any counterparty credit risk material at this time.

As of December 26, 2010, the Company had the following outstanding derivative contracts (in thousands):

Contract	Quantity		
Foreign Currency:			
Australian Dollar	Sell	36,185	AUD
Canadian Dollar	Sell	10,000	CAD
Euro	Sell	74,000	EUR
Japanese Yen	Buy	675,000	JPY
Commodity:			
Copper	Buy	75	Pounds
Natural Gas	Buy	15,417	Therms

As of December 26, 2010 and for the six months then ended, the Company's derivative contracts had the following impact on the Consolidated Condensed Balance Sheet and the Consolidated Condensed Statements of Operations (in thousands):

	Balance Sheet Location	Asset Derivatives	
		Fair Value	
		December 26, 2010	June 27, 2010
Foreign currency contracts	Other Current Assets	\$ 9,129	\$ 16,440

The entire \$0.2 million gain detailed above that is currently recognized in Accumulated Other Comprehensive Loss is expected to be reclassified into the earnings within the next twelve months.

10. Fair Value Measurements

The following guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The following table presents information about the Company's financial assets and liabilities measured at fair value on a recurring basis as of December 26, 2010 and June 27, 2010 (in thousands):

	December 26, 2010	Fair Value Measurement Using		
		Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 9,223	\$ 9,129	\$ 94	\$
Liabilities:				
Derivatives	\$ 6,356	\$ 3,298	\$ 3,058	\$
	June 27, 2010	Fair Value Measurement Using		
		Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 17,952	\$ 17,918	\$ 34	\$
Liabilities:				
Derivatives	\$ 2,401	\$ 296	\$ 2,105	\$

11. Warranty

The Company recognizes the cost associated with its standard warranty on Engines and Power Products at the time of sale. The amount recognized is based on historical failure rates and current claim cost experience. The following is a reconciliation of the changes in accrued warranty costs for the reporting period (in thousands):

	Six Months Ended	
	December 26, 2010	December 27, 2009
Beginning Balance	\$ 41,945	\$ 42,044
Payments	(13,275)	(16,724)
Provision for Current Year Warranties	13,631	14,513
Other Adjustments	130	(1,523)
Ending Balance	\$ 42,431	\$ 38,310

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

12. Income Taxes

As of June 27, 2010, the Company had \$19.1 million of gross unrecognized tax benefits. Of this amount, \$11.1 million represents the portion that, if recognized, would impact the effective tax rate. As of June 27, 2010, the Company had \$5.9 million accrued for the payment of interest and penalties. For the first six months ended December 26, 2010, the Company recorded an increase in the tax reserve of \$0.1 million. The increase relates to interest rate adjustments year to date. Over the next twelve months it is possible that the Company will settle global tax examinations, which could decrease the amount of unrecognized tax benefits. Due to the various jurisdictions in which the Company files tax returns and the uncertainty regarding the timing of the settlements, the amount of the unrecognized tax benefits cannot be reasonably estimated at this time.

The Company files income tax returns in the U.S. and various state and foreign jurisdictions and is regularly audited by federal, state and foreign tax authorities. In the U.S., the Company is no longer subject to U.S. federal income tax examinations before 2009. The Company is currently under audit by various state and foreign jurisdictions. With respect to the Company's major foreign jurisdictions, it is no longer subject to tax examinations before 2000.

13. Commitments and Contingencies

Briggs & Stratton is subject to various unresolved legal actions that arise in the normal course of its business. These actions typically relate to product liability (including asbestos-related liability), patent and trademark matters, and disputes with customers, suppliers, distributors and dealers, competitors and employees.

Starting with the first complaint in June 2004, various plaintiff groups filed complaints in state and federal courts across the country against the Company and other engine and lawnmower manufacturers alleging that the horsepower labels on the products they purchased were inaccurate and that the Company conspired with other engine and lawnmower manufacturers to conceal the true horsepower of these engines (Horsepower Class Actions). The Horsepower Class Actions sought to certify unfair trade practice and common law claims for separate classes of all persons in each of the 50 states, Puerto Rico and the District of Columbia who purchased a lawnmower containing a gasoline combustion engine up to 30 horsepower from 1994 to the present. In addition, the complaints sought injunctive relief, compensatory and punitive damages, attorneys' fees and included nationwide federal antitrust and RICO claims. On December 5, 2008, the Multidistrict Litigation Panel coordinated and transferred the cases to Judge Adelman of the United States District Court for the Eastern District of Wisconsin (In Re: Lawnmower Engine Horsepower Marketing and Sales Practices Litigation, Case No. 2:08-md-01999).

On January 27, 2009, Judge Adelman entered a stay of all litigation so that the parties could conduct mediation in an effort to resolve all outstanding litigation. On February 24, 2010, the Company entered into a Stipulation of Settlement (Settlement) that resolves all of the Horsepower Class Actions. Other parties to the Settlement are Sears, Roebuck and Co., Sears Holdings Corporation, Kmart Holdings Corporation, Deere & Company, Tecumseh Products Company, The Toro Company, Electrolux Home Products, Inc. and Husqvarna Outdoor Products, Inc. (now known as Husqvarna Consumer Outdoor Products, N.A., Inc.) (collectively with the Company referred to below as the Settling Defendants). All other defendants settled all claims separately. The Settlement resolves all horsepower-labeling claims brought by all persons or entities in the United States who, beginning January 1, 1994 through the date notice of the Settlement is first given, purchased, for use and not for resale, a lawn mower containing a gas combustible engine up to 30 horsepower provided that either the lawn mower or the engine of the lawn mower was manufactured or sold by a Defendant.

As part of the Settlement, the Company denies any and all liability and seeks resolution to avoid further protracted and expensive litigation. The Settling Defendants as a group agreed to pay an aggregate amount of \$51 million. However, the monetary contribution of the amount of each of the Settling Defendants is confidential. In addition, the Company, along with the other Settling Defendants, agreed to injunctive relief regarding their future horsepower labeling, as well as procedures that will allow purchasers of lawnmower engines to seek a one-year extended warranty free of charge.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

On August 16, 2010, Judge Adelman issued a final order approving the Settlement as well as the settlements of all other defendants. Judge Adelman's opinion found all settlements to be in good faith and dismissed the claims of all class members with prejudice. Prior to the time for filing appeals expired, one class member filed a motion to modify or amend Judge Adelman's final approval order. This motion was denied on October 28, 2010. In August and September 2010, several class members filed a Notice of Appeal of Judge Adelman's final approval order to the United States Court of Appeals for the Seventh Circuit. Those appeals are still currently pending. Under the terms of the Settlement, the balance of settlement funds will not be due, and the one-year warranty extension program will not begin, until all appeals from Judge Adelman's final approval order are exhausted or otherwise resolved.

As a result of the pending Settlement, the Company recorded a total charge of \$30.6 million in the third quarter of fiscal year 2010 representing the total of the Company's monetary portion of the Settlement and the estimated costs of extending the warranty period for one year. The timing of payments required as a result of the Settlement is expected to be within the next twelve months.

On March 19, 2010, new plaintiffs filed a complaint in the Ontario Superior Court of Justice in Canada (Robert Foster et al. v. Sears Canada, Inc. et al., Docket No. 766-2010). On May 3, 2010, other plaintiffs filed a complaint in the Montreal Superior Court in Canada (Eric Liverman, et al. v. Deere & Company, et al., Docket No. 500-06-000507-109). Both Canadian complaints contain allegations and seek relief under Canadian law that are similar to the Horsepower Class Actions. The Company is evaluating the complaints and has not yet filed an answer or other responsive pleading to either one.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various changes to the Company-sponsored retiree medical plans. The purpose of the amendments was to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. In addition to a request for class certification, the complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. The Company has moved to dismiss the complaint and believes the changes are within its rights.

Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes the unresolved legal actions will not have a material adverse effect on its results of operations, financial position or cash flows.

Total	\$ 3,762	\$ 10,311	\$ (4,700)	\$ 1,908

¹ Prior year amounts have been reclassified to conform to current year presentation. These adjustments relate to the sale of certain products through our foreign subsidiaries that had been reported within the Engines Segment, but are now reported in the Power Products Segment. These adjustments align our segment reporting with current management responsibilities.

15. Debt and Separate Financial Information of Subsidiary Guarantor of Indebtedness

In December 2010, the Company issued \$225 million of 6.875% Senior Notes due December 15, 2020. The net proceeds of the offering were primarily used to redeem the outstanding principal of the 8.875% Senior Notes due March 15, 2011. In connection with the refinancing and the issuance of the new Senior Notes, the Company incurred approximately \$5.0 million in new deferred financing costs, which are being amortized over the life of the new Senior Notes using the effective interest method. In addition, at the time of the refinancing the Company expensed approximately \$3.7 million associated with the make-whole terms of the 8.875% Senior Notes, \$0.1 million in remaining deferred financing costs and \$0.1 million of original issue discount. These amounts are included in interest expense in the Consolidated Statements of Operations.

On July 12, 2007, the Company entered into a \$500 million amended and restated multicurrency credit agreement. The Amended Credit Agreement (Revolver) provides a revolving credit facility for up to \$500 million in revolving loans, including up to \$25 million in swing-line

Edgar Filing: BRIGGS & STRATTON CORP - Form 10-Q

loans. The Revolver has a term of five years and all outstanding borrowings on the Revolver are due and payable on July 12, 2012. The Revolver contains covenants that the Company considers usual and customary for an agreement of this type, including a Maximum Total Leverage Ratio and Minimum Interest Coverage Ratio. Certain of the Company's subsidiaries are required to be guarantors of the Company's obligations under the Revolver.

The Revolver and the 6.875% Senior Notes contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities, sell or lease all or substantially all of its assets; and dispose of assets or the proceeds of sales of its assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose a maximum leverage ratio. As of December 26, 2010, the Company was in compliance with these covenants.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

Under the terms of the Company's 6.875% Senior Notes and the Revolver (collectively, the Domestic Indebtedness), Briggs & Stratton Power Products Group, LLC is the joint and several guarantor of the Domestic Indebtedness (the Guarantor). The guarantees are full and unconditional guarantees. Additionally, if at any time a domestic subsidiary of the Company constitutes a significant domestic subsidiary, then such domestic subsidiary will also become a guarantor of the Domestic Indebtedness. Currently, all of the Domestic Indebtedness is unsecured. If the Company were to fail to make a payment of interest or principal on its due date, the Guarantor is obligated to pay the outstanding Domestic Indebtedness. The Company had the following outstanding amounts related to the guaranteed debt (in thousands):

	December 26, 2010 Carrying Amount	Maximum Guarantee
6.875% Senior Notes, due December 15, 2020	\$ 225,000	\$ 225,000
Revolving Credit Facility, expiring July 12, 2012	\$ 55,000	\$ 500,000

The following condensed supplemental consolidating financial information reflects the summarized financial information of the Company, its Guarantor and Non-Guarantor Subsidiaries (in thousands):

Cash and Cash Equivalents, Ending	\$ 5,164	\$ 3,072	\$ 14,673	\$	\$ 22,909

In prior periods the Company reported eliminations of intercompany gross profit and other income (expense) in the Eliminations column within the Separate Financial Information of Subsidiary Guarantor of Indebtedness footnote. Under accounting principles generally accepted in the United States applicable to equity method accounting, these amounts should be reflected in the Briggs & Stratton Corporation (the Parent) column. In the current period the Company has revised these disclosures to reflect the elimination of intercompany gross profit and other income (expense) within the Parent column. The impact of the revision for the three and six months ended December 27, 2009 was a decrease of \$4.7 million and \$9.1 million to net income (loss) of the Parent column, respectively. The offsetting impact was to the Eliminations column. The Company considers these revisions to be immaterial to the Separate Financial Information of Subsidiary Guarantor of Indebtedness as a whole.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is management's discussion and analysis of the Company's financial condition and results of operations for the periods included in the accompanying consolidated condensed financial statements:

RESULTS OF OPERATIONS

SALES

Consolidated net sales for the second quarter of fiscal 2011 were \$450.3 million, an increase of \$57.3 million or 14.6% when compared to the same period a year ago.

Second quarter fiscal 2011 net sales for the Engines Segment were \$297.8 million, a \$37.8 million or 14.5% increase from the second quarter of fiscal 2010. This increase from the same quarter last year is primarily due to higher international engine shipments to European and Asian OEMs, partially offset by slightly lower sales domestically as U.S. OEMs and retailers continue to focus on lean inventory levels prior to the spring selling season.

Second quarter fiscal 2011 Power Products Segment net sales were \$186.4 million, a \$21.5 million or 13.0% increase from the second quarter of fiscal 2010. This improvement was due primarily to increased unit shipment volumes of snow throwers, ZTRs and pressure washers, offset by reduced shipment volumes of portable generators as a result of lower consumer demand.

Consolidated net sales for the first six months of fiscal 2011 were \$784.4 million, an increase of \$66.8 million or 9.3% when compared to the same period a year ago.

Engines Segment net sales for the first six months of fiscal 2011 were \$503.4 million, a \$37.5 million or 8.0% increase compared to the first six months of fiscal 2010. This increase from the same period last year is primarily due to higher international engine shipments to European and Asian OEMs, partially offset by lower engine sales domestically and a reduction of intercompany sales of engines to our Power Products segment due to lower sales and production of pressure washers and portable generators.

Power Products Segment net sales for the first six months of fiscal 2011 were \$353.9 million, a \$23.2 million or 7.0% increase compared to the first six months of fiscal 2010. This improvement was due primarily to increased unit shipment volumes of snow throwers and ZTRs, offset by reduced shipment volumes of pressure washers and portable generators as a result of lower consumer demand and retailers closely managing inventories in these categories.

GROSS PROFIT MARGIN

The consolidated gross profit margin was 17.4% in the second quarter of fiscal 2011, down from 18.0% in the same period last year.

The Engines Segment gross profit margin increased to 23.0% in the second quarter of fiscal 2011 from 21.9% in the second quarter of fiscal 2010. This improvement was primarily due to favorable product mix and slightly increased engine pricing, partially offset by higher material costs and increased salaries and benefits including a \$2.2 million increase in pension benefits expense.

The Power Products Segment gross profit margin decreased to 6.5% for the second quarter of fiscal 2011 from 9.9% in the second quarter of fiscal 2010. The decline between years is due to higher manufacturing spending and lower absorption primarily related to a 59% decrease in production of portable generators. The higher manufacturing spending is attributed to higher material costs, manufacturing inefficiencies in launching new products, increased warranty expense, and increased freight expense.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

The consolidated gross profit margin for the first six months of fiscal 2011 improved to 17.9% from 17.1% in the first six months of fiscal 2010.

The Engines Segment gross profit margin increased to 22.1% for the first six months of fiscal 2011 from 19.9% in the first six months of fiscal 2010. This improvement was primarily due to slightly increased engine pricing and improved production, partially offset by higher freight expense and increased salaries and benefits. The increase in salaries and benefits includes a \$4.9 million increase in pension benefits expense and \$2.2 million attributed to temporary reductions in salaries and 401(k) match implemented in the first half of fiscal 2010.

The Power Products Segment gross profit margin decreased to 8.3% for the first six months of fiscal 2011 from 11.9% in the first six months of fiscal 2010. This decline between years resulted from higher manufacturing spending, lower absorption primarily related to the decreased production of portable generators and pressure washers, as well as increased expenses related to salaries and benefits. The increase in manufacturing spending relates to transition costs from the closure of our Jefferson manufacturing facility, higher material costs, manufacturing inefficiencies in launching new products, increased warranty expense, and increased freight expense. The increase in salaries and benefits includes \$0.8 million attributable to temporary reductions in salaries and 401(k) match implemented in the first half of fiscal 2010.

ENGINEERING, SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

Engineering, selling, general and administrative expenses were \$74.6 million in the second quarter of fiscal 2011, an increase of \$14.2 million or 23.6% from the second quarter of fiscal 2010. The increase is due to higher salaries and benefits expenses that include a \$1.8 million increase in pension benefits expense as well as \$3.3 million of severance and other related employee separation costs associated with a planned reduction of salaried employees during the second quarter ended December 26, 2010.

Engineering, selling, general and administrative expenses were \$145.0 million for the first six months of fiscal 2011, an increase of \$23.9 million or 19.7% from the first six months of fiscal 2010. The increase is due to higher salaries and benefits expenses that include a \$3.5 million increase in pension benefits expense, increased salaries and 401(k) company match benefits of \$2.2 million, which have been fully restored since being temporarily reduced early in the second quarter of fiscal 2010, as well as \$3.3 million of severance and other related employee separation costs associated with a planned reduction of salaried employees during the second quarter ended December 26, 2010.

INTEREST EXPENSE

Interest expense was higher for the second quarter and the first six months of fiscal 2011 due to a \$3.9 million redemption premium on the 8.875% Senior Notes and the write off of related deferred financing costs, partially offset by lower average outstanding borrowings.

PROVISION FOR INCOME TAXES

The second quarter and first six months effective tax rate benefit for fiscal 2011 was 65.3% and 40.7%, respectively, versus the 29.1% effective tax rate and 39.2% effective tax rate benefit in the same respective periods last year. The increase in the second quarter of fiscal 2011 effective tax rate benefit over the prior year was the result of recognizing the benefit of the research & development credit, which was extended by federal tax legislature enacted on December 17, 2010.

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

LIQUIDITY AND CAPITAL RESOURCES

Cash used by operating activities was \$128.7 million and \$25.3 million in the first six months of fiscal 2011 and fiscal 2010, respectively. This change was primarily attributable to approximately \$102.0 million greater working capital requirements compared to the first six months of fiscal 2010, which was primarily due to a \$65.2 million decrease in accounts payable and accrued liabilities and a \$35.9 million increase in inventory.

Cash used by investing activities was \$21.3 million and \$15.6 million in the first six months of fiscal 2011 and fiscal 2010, respectively. The \$5.7 million increase was primarily the result of higher purchases of plant and equipment compared to the first six months of last year.

Cash provided by financing activities was \$65.8 million and \$47.4 million in the first six months of fiscal 2011 and fiscal 2010, respectively. The increase is primarily due to the issuance of \$225 million aggregate principal amount of 6.875% Senior Notes due December 15, 2020 during the second quarter of fiscal 2011, the net proceeds of which were primarily used to redeem the \$203.7 million outstanding principal amount of the 8.875% Senior Notes due March 15, 2011. The Company incurred \$5.0 million of deferred financing costs in connection with the issuance of the 6.875% Senior Notes.

FUTURE LIQUIDITY AND CAPITAL RESOURCES

In December 2010, the Company issued \$225 million aggregate principal amount of 6.875% Senior Notes due December 2020. Net proceeds were primarily used to redeem the remaining outstanding principal of the 8.875% Senior Notes due March 2011.

On July 12, 2007, the Company entered into a \$500 million amended and restated multicurrency credit agreement. The Amended Credit Agreement (Revolver) provides a revolving credit facility for up to \$500 million in revolving loans, including up to \$25 million in swing-line loans. The Company used proceeds from the Revolver to pay off the remaining amounts outstanding under the Company's variable rate term notes issued in February 2005 with various financial institutions, retire the 7.25% senior notes that were due in September 2007 and fund seasonal working capital requirements and other financing needs. The Revolver has a term of five years and all outstanding borrowings on the Revolver are due and payable on July 12, 2012. As of December 26, 2010, there were borrowings of \$55.0 million on the Revolver.

Briggs & Stratton expects capital expenditures to be approximately \$60 million in fiscal 2011. These anticipated expenditures reflect our plans to continue to reinvest in efficient equipment and innovative new products.

The Company is not required to make any contributions to the qualified pension plan during fiscal 2011, but may be required to make contributions in future years depending upon the actual return on plan assets and the funded status of the plan in future periods.

Management believes that available cash, cash generated from operations, existing lines of credit and access to debt markets will be adequate to fund Briggs & Stratton's operating and capital requirements for the foreseeable future.

The Revolver and the 6.875% Senior Notes contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities, sell or lease all or substantially all of its assets; and dispose of assets or the proceeds of sales of its assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose a maximum leverage ratio. As of December 26, 2010, the Company was in compliance with these covenants, and expects to be in compliance with all covenants during the remainder of fiscal 2011.

OFF-BALANCE SHEET ARRANGEMENTS

There have been no material changes since the August 26, 2010 filing of the Company's Annual Report on Form 10-K.

CONTRACTUAL OBLIGATIONS

There have been no material changes since the August 26, 2010 filing of the Company's Annual Report on Form 10-K, other than the issuance of \$225 million aggregate principal amount of 6.875% Senior Notes due December 15, 2020 during the second quarter of fiscal 2011, the net proceeds of which were primarily used to redeem the \$203.7 million outstanding principal amount of the 8.875% Senior Notes due March 15, 2011.

CRITICAL ACCOUNTING POLICIES

There have been no material changes in the Company's critical accounting policies since the August 26, 2010 filing of its Annual Report on Form 10-K. As discussed in our annual report, the preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

The most significant accounting estimates inherent in the preparation of our financial statements include a goodwill assessment, estimates as to the realizability of accounts receivable and inventory assets, as well as estimates used in the determination of liabilities related to customer rebates, pension obligations, postretirement benefits, warranty, product liability, group health insurance, litigation and taxation. Various assumptions and other factors underlie the determination of these significant estimates. The process of determining significant estimates is fact specific and takes into account factors such as historical experience, current and expected economic conditions, product mix, and, in some instances, actuarial techniques. The Company re-evaluates these significant factors as facts and circumstances change.

NEW ACCOUNTING PRONOUNCEMENTS

A discussion of new accounting pronouncements is included in the Notes to Consolidated Condensed Financial Statements of this Form 10-Q under the heading New Accounting Pronouncements and incorporated herein by reference.

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. The words believe, estimate, expect, forecast, intend, plan, project, and similar expressions are intended to identify forward-looking statements. The forward-looking statements are based on the company's current views and assumptions and involve risks and uncertainties that include, among other things, the ability to successfully forecast demand for our products; changes in interest rates and foreign exchange rates; the effects of weather on the purchasing patterns of consumers and original equipment manufacturers (OEMs); actions of engine

Table of Contents

BRIGGS & STRATTON CORPORATION AND SUBSIDIARIES

manufacturers and OEMs with whom we compete; changes in laws and regulations; changes in customer and OEM demand; changes in prices of raw materials and parts that we purchase; changes in domestic and foreign economic conditions; the ability to bring new productive capacity on line efficiently and with good quality; outcomes of legal proceedings and claims; and other factors disclosed from time to time in our SEC filings or otherwise, including the factors discussed in Item 1A, Risk Factors, of the company's Annual Report on Form 10-K and in its periodic reports on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes since the August 26, 2010, filing of the Company's Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

INTERNAL CONTROL OVER FINANCIAL REPORTING

There has not been any change in the Company's internal control over financial reporting during the second fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

A discussion of legal proceedings is included in the Notes to Consolidated Condensed Financial Statements of this Form 10-Q under the heading Commitments and Contingencies and incorporated herein by reference.

ITEM 1A. RISK FACTORS

There have been no material changes since the August 26, 2010, filing of the Company's Annual Report on Form 10-K.
