1. Information Regarding 4. Other in Consolidated Summary Report

(1) Changes in Accounting Policies, Changes in Accounting Estimates and Restatements  
(Changes in Accounting Policies)

Some of the consolidated subsidiaries recorded part of their receivables allocated to offset future claims of repayment of interest, as part of allowance for credit losses, simply because of the technical difficulty in drawing distinction between such part of receivables and write-offs of loans. From the previous fiscal year, however, such part of receivables including allowances of similar nature at other consolidated subsidiaries started to be recorded appropriately as reserve for contingent losses, thanks to enough accumulation and development of actual repayment data to enable such distinction by the year end.

This change had impact on neither Ordinary profits nor Income before income taxes and others for the first quarter of the previous fiscal year.

**(Reference)****Exposure to Securitized Products and Related Investments**

Our exposure to securitized products and related investments as of June 30, 2011 is outlined below. (Figures are on a managerial basis and rounded off.)

[Balance, net unrealized gains (losses), realized gains]

The balance as of the end of June 2011 increased to ¥1.52 trillion in total, an increase of ¥0.06 trillion compared with the balance as of the end of March 2011, mainly due to an increase in highly rated CLOs and CMBS.

Net unrealized losses were ¥68 billion, improved by ¥10 billion compared to the end of March 2011.

The effect on the P/L for the first quarter ended June 30, 2011 was a gain of approximately ¥3 billion as a result of a gain on sales of sub-prime RMBS.

	Balance <sup>1</sup>	Change from end of March 2011	Net unrealized gains (losses)	Change from end of March 2011	Balance	(¥bn) of which securities being held to maturity <sup>2</sup>	Net unrealized gains (losses)

- Balance is the amount after impairment and before deducting net unrealized losses.  
The above table does not include mortgage-backed securities arranged and guaranteed by U.S. government sponsored enterprises, etc., Japanese RMBS such as Japanese Housing Finance Agency securities, and products held by funds such as investment trusts. These are also applicable to the tables in this document.
- Following the publication of Tentative Solution on Reclassification of Debt Securities (Practical Issue Task Force No.26, The Accounting Standards Board of Japan, December 5, 2008), some of our securitized products were reclassified into securities being held to maturity from securities available for sale at and after the end of January 2009. The balance and net unrealized gains (losses) of the securities being held to maturity in the above table are based on book value before reclassification.

[Distribution by rating]

AAA-rated products accounted for 35% of our investments in securitized products, an increase of 5% compared with the end of March 2011, mainly due to an increase in highly rated CLOs and CMBS.

Edgar Filing: MITSUBISHI UFJ FINANCIAL GROUP INC - Form 6-K

AAA and AA-rated products accounted for 83% of our investments in securitized products.
