Based on the recent trends of business performances, the forecast consolidated business results for the six months ending September 30, 2011, which were announced on April 28, 2011, were revised as stated below.

Actual results for the previous period ended September 30, 2010	133,807	21,843	21,751	15,122	109.77

2. Reasons for Revision of Forecast

The evaluation of yen against major currencies seems to remain higher than our forecast that was announced on April 28, 2011. However, owing to the recovery of global demands for power tools, the sales have been strong. In these situations, our forecast consolidated performance for the six months ending September 30, 2011, which were announced on April 28, 2011, were revised as shown on this document.

However, the forecast consolidated performance for the year ending March 31, 2012 remain unchanged from the last announcement (as of April 28, 2011), because both the exchanging ratio trends and the demands trends are unclear.

The above forecast is based on the assumption of exchange rates of 79 yen to the U.S. dollar and 111 yen to the euro for the three months ending September 30, 2011.

(Reference): Our previous exchange rates of 83 yen to the U.S. dollar and 118 yen to the euro.
