Table of Contents**THE GAP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****Note 1. Basis of Presentation**

The Condensed Consolidated Balance Sheets as of October 29, 2011 and October 30, 2010, the Condensed Consolidated Statements of Income for the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010, and the Condensed Consolidated Statements of Cash Flows for the thirty-nine weeks ended October 29, 2011 and October 30, 2010 have been prepared by The Gap, Inc. (the Company, we, and our), without audit. In the opinion of management, such statements include all adjustments (which include only normal recurring adjustments) considered necessary to present fairly our financial position, results of operations, and cash flows as of October 29, 2011 and October 30, 2010 and for all periods presented. The Condensed Consolidated Balance Sheet as of January 29, 2011 has been derived from our audited financial statements.

We identify our operating segments based on the way we manage and evaluate our business activities. We have two reportable segments: Stores and Direct.

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and disclosures normally included in the notes to the annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted from these interim financial statements. We suggest that you read these Condensed Consolidated Financial Statements in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended January 29, 2011.

The results of operations for the thirteen and thirty-nine weeks ended October 29, 2011 are not necessarily indicative of the operating results that may be expected for the fifty-two-week period ending January 28, 2012.

Note 2. Recent Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (FASB) issued an accounting standards update to revise the manner in which entities present comprehensive income in their financial statements. This guidance requires entities to present each component of net income along with total net income, each component of other comprehensive income (OCI) along with a total for OCI, and a total amount for comprehensive income, either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This accounting standards update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. We will adopt the provisions of this accounting standards update in the first quarter of fiscal 2012.

In September 2011, the FASB issued an accounting standards update to simplify how entities test goodwill for impairment. This guidance permits an entity to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. This accounting standards update is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, with early adoption permitted. We expect to adopt the provisions of this accounting standards update in the fourth quarter of fiscal 2011 and do not expect the adoption to have a material impact on our consolidated financial statements.

Note 3. Goodwill and Intangible Assets

Goodwill and intangible assets consist of the following and are included in other long-term assets:

(\$ in millions)	October 29, 2011	January 29, 2011	October 30, 2010
Goodwill	\$ 99	\$ 99	\$ 99

Intangible assets subject to amortization, net	\$	1	\$	3	\$	4

All of the goodwill and intangible assets above have been allocated to the Direct reportable segment.

Table of Contents

During the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010, there were no changes in the carrying amount of goodwill or the trade name. Intangible assets subject to amortization, consisting primarily of customer relationships, are amortized over a weighted-average amortization period of four years. There was no material amortization expense for intangible assets subject to amortization for the thirteen weeks ended October 29, 2011. Amortization expense for intangible assets subject to amortization was \$1 million for the thirteen weeks ended October 30, 2010 and \$2 million and \$3 million for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively, and is recorded in operating expenses in the Condensed Consolidated Statements of Income.

Note 4. Debt and Credit Facilities

In April 2011, we issued \$1.25 billion aggregate principal amount of 5.95 percent notes (the Notes) due April 2021 and received proceeds of \$1.24 billion in cash, net of underwriting and other fees of \$11 million. The net proceeds are available for general corporate purposes, including repurchases of our common stock. Interest is payable semi-annually on April 12 and October 12 of each year and commenced on October 12, 2011. We have an option to call the Notes in whole or in part at any time, subject to a make whole premium. The Notes agreement is unsecured and does not contain any financial covenants. The amount recorded in long-term debt in the Condensed Consolidated Balance Sheet for the Notes is equal to the aggregate principal amount of the Notes, net of the unamortized discount. The estimated fair value of the Notes was \$1.18 billion as of October 29, 2011 and was based on the quoted market price of the Notes as of the last business day of the thirteen-week period ended October 29, 2011.

In April 2011, we also entered into a \$400 million, five-year, unsecured term loan due April 2016, which was funded in May 2011. Repayments of \$40 million are payable on April 7 of each year, commencing on April 7, 2012, with a final repayment of \$240 million due on April 7, 2016. In addition, interest is payable at least quarterly based on an interest rate equal to the London Interbank Offered Rate (LIBOR) plus a margin based on our long-term senior unsecured credit ratings. The term loan agreement contains financial and other covenants including, but not limited to, limitations on liens and subsidiary debt as well as the maintenance of two financial ratios—a fixed charge coverage ratio and a leverage ratio. Violation of these covenants could result in a default under the term loan agreement, which would require the immediate repayment of outstanding amounts. The estimated fair value of the term loan was \$400 million as of October 29, 2011. The carrying value of the term loan approximates its fair value, as the interest rate varies depending on quoted market rates and our credit rating.

Long-term debt as of October 29, 2011 consists of the following:

(\$ in millions)	
Notes	\$ 1,246
Term loan	400
Total long-term debt	1,646
Less: Current portion	(40)
Total long-term debt, less current portion	\$ 1,606

In April 2011, we replaced our existing \$500 million, five-year, unsecured revolving credit facility, which was scheduled to expire in August 2012, with a new \$500 million, five-year, unsecured revolving credit facility (the Facility), which is scheduled to expire in April 2016. The Facility is available for general corporate purposes including working capital, trade letters of credit, and standby letters of credit. It contains financial and other covenants, including but not limited to limitations on liens and subsidiary debt, as well as the maintenance of two financial ratios—a fixed charge coverage ratio and a leverage ratio. Violation of these covenants could result in a default under the Facility, which would permit the participating banks to terminate our ability to access the Facility for letters of credit and advances and require the immediate repayment of any outstanding advances under the Facility. The facility usage fees and fees related to the Facility fluctuate based on our long-term senior unsecured credit ratings and our leverage ratio. If we were to draw on the Facility, interest would be a base rate (typically LIBOR) plus a margin based on our long-term senior unsecured credit ratings and our leverage ratio on the unpaid principal amount. To maintain availability of funds under the Facility, we pay a facility fee on the full facility amount, regardless of usage. As of October 29, 2011, there were no borrowings under the Facility. The net availability of the Facility, reflecting \$43 million of outstanding standby letters of credit, was \$457 million as of October 29, 2011.

In conjunction with our financings, we obtained new long-term senior unsecured credit ratings from Moody's Investors Service (Moody's) and Fitch Ratings (Fitch). Moody's assigned a rating of Baa3, and Fitch assigned a rating of BBB-. Standard & Poor's Rating Service (Standard & Poor's) continued to rate us BB+. As of October 29, 2011, there were no changes in these credit ratings. Any future reduction in the Moody's or

Edgar Filing: GAP INC - Form 10-Q

Standard & Poor's ratings would increase the interest expense related to our \$400 million term loan and any future interest expense if we were to draw on the Facility.

Table of Contents

In September 2010, we entered into two separate agreements to make unsecured revolving credit facilities available for our operations in China (the China Facilities). The China Facilities are uncommitted and are available for borrowings, overdraft borrowings, and issuances of bank guarantees. The 196 million Chinese yuan (approximately \$30 million as of October 29, 2011) China Facilities were set to expire in August 2011 but were renewed under substantially similar terms through September 2012. As of October 29, 2011, there were borrowings of \$12 million (78 million Chinese yuan) at an interest rate of 6.53 percent under the China Facilities, which are recorded in current maturities of debt in the Condensed Consolidated Balance Sheet. The net availability of the China Facilities, reflecting these borrowings, was approximately \$18 million as of October 29, 2011.

Current maturities of debt in the Condensed Consolidated Balance Sheets as of January 29, 2011 and October 30, 2010 also include \$3 million and \$3 million, respectively, of borrowings under the China Facilities.

Note 5. Fair Value Measurements

Effective January 30, 2011, we adopted enhanced disclosure requirements for fair value measurements. There were no purchases, sales, issuances, or settlements related to recurring level 3 measurements during the thirteen and thirty-nine weeks ended October 29, 2011.

There were no transfers into or out of level 1 and level 2 during the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010.

Table of Contents

We have highly liquid investments classified as cash equivalents and short-term investments, which are placed primarily in time deposits and domestic commercial paper. These investments are classified as held-to-maturity based on our positive intent and ability to hold the securities to maturity. We value these investments at their original purchase prices plus interest that has accrued at the stated rate. The October 30, 2010 fair value table has been updated to include cash equivalents and short-term investments in level 2.

Derivative financial instruments primarily include foreign exchange forward contracts. The principal currencies hedged against changes in the U.S. dollar are British pounds, Japanese yen, and Canadian dollars. The fair value of the Company's derivative financial instruments is determined using pricing models based on current market rates. Derivative financial instruments in an asset position are recorded in other current assets or other long-term assets in the Condensed Consolidated Balance Sheets. Derivative financial instruments in a liability position are recorded in accrued expenses and other current liabilities or lease incentives and other long-term liabilities in the Condensed Consolidated Balance Sheets.

We maintain a deferred compensation plan that allows eligible employees to defer compensation up to a maximum amount. Plan investments are recorded at market value and are designated for the deferred compensation plan. The fair value of the Company's deferred compensation plan assets is determined based on quoted market prices, and the assets are recorded in other long-term assets in the Condensed Consolidated Balance Sheets.

Nonfinancial Assets

We review the carrying value of long-lived assets, including lease rights, key money, and intangible assets subject to amortization, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Long-lived assets are considered impaired if the estimated undiscounted future cash flows of the asset or asset group are less than the carrying value. For impaired assets, we recognize a loss equal to the difference between the carrying value of the asset or asset group and its estimated fair value. The estimated fair value of the asset or asset group is based on estimated discounted future cash flows of the asset or asset group using a discount rate commensurate with the risk. The asset group is defined as the lowest level for which identifiable cash flows are available.

We review the carrying value of goodwill and the trade name for impairment annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. The impairment review of goodwill involves comparing the fair value of a reporting unit to its carrying amount, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, a second step is required to measure the goodwill impairment loss. The second step includes hypothetically valuing all the tangible and intangible assets of the reporting unit as if the reporting unit had been acquired in a business combination. Then, the implied fair value of the reporting unit's goodwill is compared to the carrying amount of that goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, we recognize an impairment loss in an amount equal to the excess, not to exceed the carrying amount. A reporting unit is an operating segment or a business unit one level below that operating segment, for which discrete financial information is prepared and regularly reviewed by segment management. We have deemed our reporting unit of goodwill to be our Direct operating segment, which is the level at which segment management regularly reviews operating results and makes resource allocation decisions. The fair value of the reporting unit used to test goodwill for impairment is estimated using the income approach.

The trade name is considered impaired if the estimated fair value of the trade name is less than the carrying value. If the trade name is considered impaired, we recognize a loss equal to the difference between the carrying value and the estimated fair value of the trade name. The fair value of the trade name is determined using the relief from royalty method.

There were no material impairment charges recorded for goodwill, the trade name, or other long-lived assets for the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010.

Note 6. Derivative Financial Instruments

We operate in foreign countries, which exposes us to market risk associated with foreign currency exchange rate fluctuations. Our risk management policy is to hedge a significant portion of forecasted merchandise purchases for foreign operations, forecasted intercompany royalty payments, and intercompany obligations that bear foreign exchange risk using foreign exchange forward contracts. The principal currencies hedged against changes in the U.S. dollar are British pounds, Japanese yen, and Canadian dollars. We do not enter into derivative financial contracts for trading purposes. Cash flows from derivative financial instruments are classified as cash flows from operating activities in the Condensed Consolidated Statements of Cash Flows.

Table of Contents**Cash Flow Hedges**

We designate the following foreign exchange forward contracts as cash flow hedges: (1) forward contracts used to hedge forecasted merchandise purchases denominated primarily in U.S. dollars made by our international subsidiaries whose functional currencies are their local currencies; and (2) forward contracts used to hedge forecasted intercompany royalty payments denominated in Japanese yen and Canadian dollars received by entities whose functional currencies are U.S. dollars. We enter into foreign exchange forward contracts to hedge forecasted merchandise purchases and related costs generally occurring in 12 to 18 months. We make intercompany royalty payments on a quarterly basis, and we enter into foreign exchange forward contracts to hedge intercompany royalty payments generally occurring in 9 to 15 months.

During the thirteen weeks ended April 30, 2011, we entered into and settled treasury rate lock agreements in anticipation of issuing our 5.95 percent fixed-rate Notes of \$1.25 billion in April 2011. Prior to the issuance of our Notes, we were subject to changes in interest rates, and we therefore locked into fixed-rate coupons to hedge against the interest rate fluctuations. The gain related to the treasury lock agreements is reported as a component of OCI and is recognized in income over the life of the Notes.

There were no material amounts recorded in the Condensed Consolidated Statements of Income for the thirteen and thirty-nine weeks ended October 29, 2011 or October 30, 2010 as a result of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of cash flow hedges because the forecasted transactions were no longer probable.

Net Investment Hedges

We also use foreign exchange forward contracts to hedge the net assets of international subsidiaries to offset the foreign currency translation and economic exposures related to our investment in the subsidiaries.

There were no amounts recorded in the Condensed Consolidated Statements of Income for the thirteen and thirty-nine weeks ended October 29, 2011 or October 30, 2010 as a result of hedge ineffectiveness, hedge components excluded from the assessment of effectiveness, or the discontinuance of net investment hedges.

Not Designated as Hedging Instruments

In addition, we use foreign exchange forward contracts to hedge our market risk exposure associated with foreign currency exchange rate fluctuations for certain intercompany balances denominated in currencies other than the functional currency of the entity with the intercompany balance. The gain or loss on the derivative financial instruments, as well as the remeasurement of the underlying intercompany balances, is recorded in operating expenses in the Condensed Consolidated Statements of Income in the same period and generally offset.

We generally enter into foreign exchange forward contracts as needed to hedge intercompany balances that bear foreign exchange risk. These foreign exchange forward contracts generally settle in less than 12 months.

Outstanding Notional Amounts

As of October 29, 2011, January 29, 2011, and October 30, 2010, we had foreign exchange forward contracts outstanding to sell various currencies related to our forecasted merchandise purchases and forecasted intercompany royalty payments and to buy the following notional amounts:

(notional amounts in millions)	October 29, 2011	January 29, 2011	October 30, 2010

For the thirteen and thirty-nine weeks ended October 29, 2011 and October 30, 2010, there were no amounts of gain or loss reclassified from accumulated OCI into income for derivative financial instruments in net investment hedging relationships, as we did not sell or liquidate (or substantially liquidate) any of our hedged subsidiaries during the periods.

See Note 9 of Notes to Condensed Consolidated Financial Statements for components of OCI, which includes changes in fair value of derivative financial instruments, net of tax, and reclassification adjustments for realized gains and losses on derivative financial instruments, net of tax.

Table of Contents**Note 7. Share Repurchases**

Share repurchase activity is as follows:

(\$ and shares in millions except average per share cost)	13 Weeks Ended		39 Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010

In November 2009, the Board of Directors authorized \$500 million for share repurchases, which was fully utilized by the end of March 2010. In connection with this authorization, we entered into purchase agreements with individual members of the Fisher family (related-party transactions). The Fisher family shares were purchased at the same weighted-average market price that we paid for share repurchases in the open market. During the thirty-nine weeks ended October 30, 2010, approximately 0.5 million shares were repurchased for \$10 million from the Fisher family subject to these agreements.

Between February 2010 and February 2011, we announced that the Board of Directors authorized a total of \$3.75 billion for share repurchases, of which \$26 million was remaining as of October 29, 2011. In November 2011, we announced a new \$500 million share repurchase authorization. We have not entered into purchase agreements with members of the Fisher family in connection with these authorizations.

All of the share repurchases were paid for as of October 29, 2011 and January 29, 2011. All except \$9 million of total share repurchases were paid for as of October 30, 2010.

Note 8. Share-Based Compensation

Share-based compensation expense recognized in the Condensed Consolidated Statements of Income, primarily in operating expenses, is as follows:

Table of Contents**Note 10. Income Taxes**

The Company conducts business globally, and as a result, files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world, including such major jurisdictions as the United States, Canada, France, Hong Kong, Japan, and the United Kingdom. We are no longer subject to U.S. federal income tax examinations for fiscal years before 2008, and with few exceptions, we are also no longer subject to U.S. state, local, or non-U.S. income tax examinations for fiscal years before 2003.

As of October 29, 2011, we do not anticipate any significant increases or decreases in total gross unrecognized tax benefits within the next 12 months.

Except where required by U.S. tax law, no provision has been made for U.S. income taxes on the undistributed earnings of our foreign subsidiaries when we intend to utilize those earnings in foreign operations for an indefinite period of time.

During the thirty-nine weeks ended October 30, 2010, we recognized an interest expense reversal of \$11 million from the reduction of interest expense accruals resulting primarily from the filing of a U.S. federal income tax accounting method change application and the resolution of the review conducted by the Internal Revenue Service (IRS) with respect to the Company's federal income tax returns and refund claims for fiscal 2001 through 2004.

Note 11. Earnings Per Share

Weighted-average number of shares used for earnings per share is as follows:

(shares in millions)	13 Weeks Ended		39 Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
Weighted-average number of shares - basic	503	622	542	646
Common stock equivalents	2	4	5	5
Weighted-average number of shares - diluted	505	626	547	651

The above computations of weighted-average number of shares - diluted exclude 16 million and 17 million shares related to stock options and other stock awards for the thirteen weeks ended October 29, 2011 and October 30, 2010, respectively, and 12 million and 11 million shares related to stock options and other stock awards for the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively, as their inclusion would have an antidilutive effect on earnings per share.

Note 12. Commitments and Contingencies

We have assigned certain store and corporate facility leases to third parties as of October 29, 2011. Under these arrangements, we are secondarily liable and have guaranteed the lease payments of the new lessees for the remaining portion of our original lease obligations at various dates through 2019. The maximum potential amount of future lease payments we could be required to make is approximately \$17 million as of October 29, 2011. We recognize a liability for such guarantees when events or changes in circumstances indicate that the loss is probable and the amount of such loss can be reasonably estimated. There was no material liability recorded for the guarantees as of October 29, 2011, January 29, 2011, and October 30, 2010.

We are a party to a variety of contractual agreements under which we may be obligated to indemnify the other party for certain matters. These contracts primarily relate to our commercial contracts, operating leases, trademarks, intellectual property, financial agreements, and various other agreements. Under these contracts, we may provide certain routine indemnifications relating to representations and warranties (e.g., ownership of assets, environmental or tax indemnifications) or personal injury matters. The terms of these indemnifications range in duration and may not be explicitly defined. Generally, the maximum obligation under such indemnifications is not explicitly stated, and as a result, the overall amount of these obligations cannot be reasonably estimated. Historically, we have not made significant payments for these indemnifications. We believe that if we were to incur a loss in any of these matters, the loss would not have a material effect on our financial condition or results of operations.

Edgar Filing: GAP INC - Form 10-Q

As party to a reinsurance pool for workers compensation, general liability, and automobile liability, we have guarantees with a maximum exposure of \$14 million as of October 29, 2011. We are currently in the process of winding down our participation in the reinsurance pool.

Table of Contents

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims (Actions) arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. As of October 29, 2011, actions filed against us included commercial, intellectual property, employment, and data privacy claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages, and some are covered in part by insurance. As of October 29, 2011, January 29, 2011, and October 30, 2010, we recorded a liability for the estimated loss if the outcome of an Action is expected to result in a loss that is considered probable and reasonably estimable. The amount of liability as of October 29, 2011, January 29, 2011, and October 30, 2010 was not material for any individual Action or in total. Subsequent to October 29, 2011 and through our filing date of December 7, 2011, no information has become available that indicates a material change to our estimate is required.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, adverse developments, settlements, or resolutions may occur and negatively impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material adverse effect on our results of operations, cash flows, or financial position taken as a whole.

Note 13. Segment Information

We identify our operating segments according to how our business activities are managed and evaluated. All of our operating segments sell a group of similar products — apparel, accessories, and personal care products. We have two reportable segments:

Stores — The Stores reportable segment includes the results of the retail stores for Gap, Old Navy, and Banana Republic. We have aggregated the results of all Stores operating segments into one reportable segment because the operating segments have similar economic characteristics.

Direct — The Direct reportable segment includes the results for our online brands, both domestic and international.

Financial Information for Reportable Segments

Operating income is the primary measure of profit we use to make decisions on allocating resources to our operating segments and to assess the operating performance of each operating segment. It is defined as income before interest expense, interest income, and income taxes. Corporate expenses are allocated to each operating segment and recorded in operating income on a rational and systematic basis.

Reportable segment assets presented below include those assets that are directly used in, or allocable to, that segment's operations. Total assets for the Stores reportable segment primarily consist of merchandise inventory, the net book value of store assets, and prepaid expenses and receivables related to store operations. Total assets for the Direct reportable segment primarily consist of merchandise inventory, the net book value of information technology and distribution center assets, and the net book value of goodwill and intangible assets as a result of the acquisition of Athleta. We do not allocate corporate assets to our operating segments. Unallocated corporate assets primarily include cash and cash equivalents, short-term investments, the net book value of corporate property and equipment, and tax-related assets.

Selected financial information by reportable segment and reconciliations to our consolidated totals are as follows:

(\$ in millions)	13 Weeks Ended		39 Weeks Ended

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. All statements other than those that are purely historical are forward-looking statements. Words such as expect, anticipate, believe, estimate, plan, project, and similar expressions also identify forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding the following:

the impact of the seasonality of our operations on certain asset and liability accounts;

the impact of the expected adoption of new accounting pronouncements;

stabilizing comparable store sales in our established markets and growing revenues internationally;

international expansion plans, including opening additional stores, many of which will be outlets, in Canada, Europe, and Asia, online sales internationally, and additional franchising and similar arrangements;

income recognition of unrealized gains and losses from designated cash flow hedges;

significant increases or decreases in total gross unrecognized tax benefits within the next 12 months;

the maximum potential amount of future lease payments;

the impact of losses due to indemnification obligations;

the outcome of proceedings, lawsuits, disputes, and claims;

growing revenues;

maintaining a focus on cost management and return on invested capital;

generating free cash flow and returning cash to shareholders;

continuing to invest in long-term growth;

the effective tax rate in fiscal 2011;

Edgar Filing: GAP INC - Form 10-Q

current cash balances and cash flows being sufficient to support our business operations, including growth initiatives and planned capital expenditures;

ability to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility;

maintaining a strong financial profile with ample liquidity;

capital expenditures in fiscal 2011;

the number of new store openings and store closings in fiscal 2011, and the number of stores at Gap brand by the end of fiscal 2013;

net square footage change in fiscal 2011;

the number of new franchise store openings in fiscal 2011;

dividend payments in fiscal 2011; and

the impact of changes in internal controls.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, without limitation, the following:

the risk that changes in general economic conditions or consumer spending patterns will have a negative impact on our financial performance or strategies;

the highly competitive nature of our business in the United States and internationally;

the risk that we, or our franchisees, will be unsuccessful in gauging fashion trends and changing consumer preferences;

the risk that our efforts to expand internationally may not be successful and could impair the value of our brands;

the risk that trade matters, sourcing costs, events causing disruptions in product shipments from China and other foreign countries, or an inability to secure sufficient manufacturing capacity may disrupt our supply chain or operations or impact our financial results;

Table of Contents

the risk that our franchisees will be unable to successfully open, operate, and grow the Company's franchised stores;

the risk that we, or our franchisees, will be unsuccessful in identifying, negotiating, and securing new store locations and renewing, modifying, or terminating leases for existing store locations effectively;

the risk that comparable sales and margins will experience fluctuations;

the risk that we will be unsuccessful in implementing our strategic, operating, and people initiatives;

the risk that changes in our credit profile or deterioration in market conditions may limit our access to the capital markets and adversely impact our financial results and our ability to service our debt while maintaining other initiatives;

the risk that updates or changes to our information technology (IT) systems may disrupt our operations;

the risk that our IT services agreement with IBM could cause disruptions in our operations and have an adverse effect on our financial results;

OUR BUSINESS

Edgar Filing: GAP INC - Form 10-Q

We are a global specialty retailer offering apparel, accessories, and personal care products for men, women, children, and babies under the Gap, Old Navy, Banana Republic, Piperlime, and Athleta brands. We have Company-operated stores in the United States, Canada, the United Kingdom, France, Ireland, Japan, and beginning in November 2010, China and Italy. We also have franchise agreements with unaffiliated franchisees to operate Gap and Banana Republic stores in many other countries around the world. Under these agreements, third parties operate or will operate stores that sell apparel and related products under our brand names. In addition, our products are available to customers online in over 90 countries. Most of the products sold under our brand names are designed by us and manufactured by independent sources. We also sell products that are designed and manufactured by branded third parties.

We identify our operating segments based on the way we manage and evaluate our business activities. We have two reportable segments: Stores and Direct.

OVERVIEW

Financial results for the third quarter of fiscal 2011 are as follows:

Net sales for the third quarter of fiscal 2011 decreased 2 percent to \$3.59 billion compared with \$3.65 billion for the third quarter of fiscal 2010. Comparable sales, which include the associated comparable online sales, for the third quarter of fiscal 2011 decreased 5 percent compared with a 1 percent increase for the third quarter of fiscal 2010.

Table of Contents

Direct net sales for the third quarter of fiscal 2011 increased 21 percent to \$414 million compared with \$342 million for the third quarter of fiscal 2010. Our Direct reportable segment includes sales for each of our online brands.

Net sales for Direct and international (regions outside of the U.S. and Canada) as a percentage of total net sales for the third quarter of fiscal 2011 increased 4 percent to 26 percent compared with 22 percent for the third quarter of fiscal 2010.

Gross profit for the third quarter of fiscal 2011 was \$1.31 billion compared with \$1.51 billion for the third quarter of fiscal 2010.

Operating expenses for the third quarter of fiscal 2011 decreased 3 percent compared with the third quarter of fiscal 2010 and decreased 0.4 percent as a percentage of net sales.

Net income for the third quarter of fiscal 2011 decreased 36 percent to \$193 million compared with \$303 million for the third quarter of fiscal 2010, and diluted earnings per share decreased to \$0.38 for the third quarter of fiscal 2011 compared with \$0.48 for the third quarter of fiscal 2010.

During the third quarter of fiscal 2011, we repurchased about 39.2 million shares for \$645 million. Our full year business and financial priorities for fiscal 2011 remain as follows:

focus on growing revenues;

maintain a focus on cost management and return on invested capital;

generate free cash flow and return cash to shareholders; and

continue to invest in long-term growth.

As we focus on stabilizing comparable store sales in our established markets, we also plan to continue growing revenues internationally through the following:

opening additional stores, many of which will be outlets, in Canada, Europe, and Asia;

continuing to open franchise stores worldwide; and

continuing to offer our online shopping experience to customers in international locations.

RESULTS OF OPERATIONS

Net Sales

Net sales primarily consist of retail sales, online sales, and wholesale and franchise revenues.

Edgar Filing: GAP INC - Form 10-Q

See Item 1, Financial Statements, Note 13 of Notes to Condensed Consolidated Financial Statements for net sales by brand, region, and reportable segment.

Comparable Sales

Beginning in fiscal 2011, the Company reports comparable (Comp) sales including the associated comparable online sales. Accordingly, Comp sales for the thirteen and thirty-nine weeks ended October 30, 2010 have been recalculated to conform to fiscal 2011 presentation.

Table of Contents

The percentage change in Comp sales by brand and region and for total Company, including the associated comparable online sales, as compared with the preceding year, is as follows:

	13 Weeks Ended		39 Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
Gap North America	(6)%	2%	(4)%	1%
Old Navy North America	(4)%	%	(2)%	3%
Banana Republic North America	(1)%	2%	(1)%	4%
International	(10)%	4%	(7)%	3%
The Gap, Inc.	(5)%	1%	(3)%	2%

The percentage change in Comp store sales by brand and region and for total Company, excluding the associated comparable online sales, as compared with the preceding year, is as follows:

	13 Weeks Ended		39 Weeks Ended	
	October 29, 2011	October 30, 2010	October 29, 2011	October 30, 2010
Gap North America	(8)%	1%	(6)%	%
Old Navy North America	(8)%	(2)%	(5)%	2%
Banana Republic North America	(3)%	1%	(3)%	3%
International	(11)%	3%	(8)%	2%
The Gap, Inc.	(7)%	%	(5)%	2%

Only Company-operated stores are included in the calculations of Comp sales. Gap and Banana Republic outlet Comp sales are reflected within the respective results of each brand.

A store is included in the Comp sales calculations when it has been open for at least one calendar year and the selling square footage has not changed by 15 percent or more within the past year. A store is included in the Comp sales calculations on the first day it has comparable prior year sales. Stores in which the selling square footage has changed by 15 percent or more as a result of a remodel, expansion, or reduction are excluded from the Comp sales calculations until the first day they have comparable prior year sales.

A store is considered non-comparable (Non-comp) when it has been open for less than one calendar year or has changed its selling square footage by 15 percent or more within the past year.

A store is considered Closed if it is temporarily closed for three or more full consecutive days or is permanently closed. When a temporarily closed store reopens, the store will be placed in the Comp/Non-comp status it was in prior to its closure. If a store was in Closed status for three or more days in the prior year, the store will be in Non-comp status for the same days the following year.

Online Comp sales are defined as sales through online channels in countries where we have existing Comp store sales.

Current year foreign exchange rates are applied to both current year and prior year Comp sales to achieve a consistent basis for comparison.

Store Count and Square Footage Information

Net sales per average square foot is as follows:

Gap and Banana Republic outlet stores are reflected in each of the respective brands. We have franchise agreements with unaffiliated franchisees to operate Gap and Banana Republic stores in Asia, Australia, Europe, Latin America, the Middle East, and Africa.

We expect to open about 125 new Company-operated store locations and close about 150 Company-operated store locations in fiscal 2011. Through downsizes and net store closures, we expect net square footage for Company-operated stores to decrease about 2 percent for fiscal 2011. We also expect our franchisees will open about 60 new franchise stores in fiscal 2011. As a result of ongoing strategic closures and consolidations at Gap brand, we expect to have a total of about 950 Gap stores in North America by the end of fiscal 2013.

Net Sales

Our net sales for the third quarter of fiscal 2011 decreased \$69 million, or 2 percent, compared with the prior year comparable period due to a decrease in net sales of \$141 million related to our Stores reportable segment, offset by an increase in net sales of \$72 million related to our Direct reportable segment.

Table of Contents

For the Stores reportable segment, our net sales for the third quarter of fiscal 2011 decreased \$141 million, or 4 percent, compared with the prior year comparable period. The decrease was primarily due to a decrease in Comp store sales, excluding the associated comparable online sales, of 7 percent for the third quarter of fiscal 2011 compared with the prior year comparable period, partially offset by the favorable impact of foreign exchange of \$35 million and an increase in franchise sales. The foreign exchange impact is the translation impact if net sales for the third quarter of fiscal 2010 were translated at exchange rates applicable during the third quarter of fiscal 2011.

For the Direct reportable segment, our net sales for the third quarter of fiscal 2011 increased \$72 million, or 21 percent, compared with the prior year comparable period. The increase was due to the growth in our online business across all brands and the incremental sales related to the introduction of international online sales in August 2010.

Our net sales for the thirty-nine weeks ended October 29, 2011 decreased \$34 million, which was flat compared with the prior year comparable period, due to a decrease in net sales of \$210 million related to our Stores reportable segment, offset by an increase in net sales of \$176 million related to our Direct reportable segment.

For the Stores reportable segment, our net sales for the thirty-nine weeks ended October 29, 2011 decreased \$210 million, or 2 percent, compared with the prior year comparable period. The decrease was primarily due to a decrease in Comp store sales, excluding the associated comparable online sales, of 5 percent for the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period, partially offset by the favorable impact of foreign exchange of \$138 million and an increase in franchise sales. The foreign exchange impact is the translation impact if net sales for the thirty-nine weeks ended October 30, 2010 were translated at exchange rates applicable during the thirty-nine weeks ended October 29, 2011.

For the Direct reportable segment, our net sales for the thirty-nine weeks ended October 29, 2011 increased \$176 million, or 20 percent, compared with the prior year comparable period. The increase was due to the growth in our online business across all brands and the incremental sales related to the introduction of international online sales in August 2010.

Gross margin	36.7%	41.2%	37.7%	41.0%

Cost of goods sold and occupancy expenses as a percentage of net sales increased 4.5 percent in the third quarter of fiscal 2011 compared with the prior year comparable period.

Cost of goods sold increased 4 percent as a percentage of net sales in the third quarter of fiscal 2011 compared with the prior year comparable period. The increase in cost of goods sold as a percentage of net sales was primarily driven by increased cost of merchandise.

Occupancy expenses increased 0.5 percent as a percentage of net sales in the third quarter of fiscal 2011 compared with the prior year comparable period. The increase in occupancy expenses as a percentage of net sales was primarily driven by lower net sales for the Stores reportable segment without a corresponding decrease in occupancy expenses, partially offset by higher net sales for the Direct reportable segment.

Edgar Filing: GAP INC - Form 10-Q

Cost of goods sold and occupancy expenses as a percentage of net sales increased 3.3 percent during the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period.

Cost of goods sold increased 3.1 percent as a percentage of net sales during the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period. The increase in cost of goods sold as a percentage of net sales was primarily driven by increased cost of merchandise.

Occupancy expenses increased 0.2 percent as a percentage of net sales during the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period. The increase in occupancy expenses as a percentage of net sales was primarily driven by lower net sales for the Stores reportable segment without a corresponding decrease in occupancy expenses, partially offset by higher net sales for the Direct reportable segment.

Operating expenses decreased \$33 million, or 0.4 percent as a percentage of net sales, in the third quarter of fiscal 2011 compared with the prior year comparable period. The decrease in operating expenses was primarily due to higher income from fees earned under the private label and co-branded credit card agreements and lower corporate overhead expenses, partially offset by an increase in marketing expenses and store payroll and benefits.

Operating expenses decreased \$42 million, or 0.3 percent as a percentage of net sales, during the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period. The decrease in operating expenses was primarily due to higher income from fees earned under the private label and co-branded credit card agreements and lower corporate overhead expenses, partially offset by an increase in marketing expenses and store payroll and benefits.

Interest expense (reversal)	\$ 22	\$ 3	\$ 50	\$ (6)

Interest expense for the third quarter and thirty-nine weeks ended October 29, 2011 primarily consists of interest expense related to our \$1.25 billion long-term debt, which was issued in April 2011, and \$400 million term loan, which was funded in May 2011.

Interest expense for the thirty-nine weeks ended October 30, 2010 includes an interest expense reversal of \$11 million from the reduction of interest expense accruals resulting primarily from the filing of a U.S. federal income tax accounting method change application and the resolution of the IRS's review of the Company's federal income tax returns and refund claims for fiscal 2001 through 2004.

Interest income is earned on our cash and cash equivalents and investments. The decrease in interest income for the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period was primarily due to slightly lower interest rates and a lower monthly average cash balance during the thirty-nine weeks ended October 29, 2011.

Income Taxes

Effective tax rate	40.6%	39.6%	39.6%	39.4%

Edgar Filing: GAP INC - Form 10-Q

The increase in the effective tax rate for the thirteen and thirty-nine weeks ended October 29, 2011 compared with the prior year comparable periods was primarily due to projected operating losses in China and Hong Kong for fiscal 2011 (for which no tax benefit has been provided) and their greater impact due to lower expected Gap Inc. pre-tax income for fiscal 2011, as well as the projected unfavorable impact of a change in the mix of income between domestic and foreign operations for fiscal 2011.

Table of Contents

We currently expect the fiscal 2011 effective tax rate to be about 40 percent. The actual rate will ultimately depend on several variables, including the mix of income between domestic and international operations, the overall level of income, the potential resolution of outstanding tax contingencies, and changes in tax laws and rates.

LIQUIDITY AND CAPITAL RESOURCES

Our largest source of operating cash flows is cash collections from the sale of our merchandise. Our primary uses of cash include merchandise inventory purchases, occupancy costs, personnel-related expenses, purchases of property and equipment, payment of taxes, and share repurchases. In addition to share repurchases, we also continue to return cash to our shareholders in the form of dividends.

In the first quarter of fiscal 2011, we made the strategic decision to issue debt in the aggregate amount of \$1.65 billion. Given favorable market conditions and our history of generating consistent and strong operating cash flow, we took this step to provide a more optimal capital structure. The Company has generated annual cash flow from operations in excess of \$1 billion per year for the past decade and ended fiscal 2010 with \$1.7 billion of cash and cash equivalents and short-term investments on its balance sheet. We remain committed to maintaining a strong financial profile with ample liquidity. Proceeds from the debt issuance are used for general corporate purposes including share repurchases.

As of October 29, 2011, cash and cash equivalents and short-term investments were \$1.4 billion. We believe that current cash balances and cash flows from our operations will be sufficient to support our business operations, including growth initiatives and planned capital expenditures, for the next 12 months and beyond. We are also able to supplement near-term liquidity, if necessary, with our \$500 million revolving credit facility.

Cash Flows from Operating Activities

Net cash provided by operating activities during the thirty-nine weeks ended October 29, 2011 decreased \$298 million compared with the prior year comparable period, primarily due to a decrease in net income of \$224 million.

We fund inventory expenditures during normal and peak periods through cash flows from operating activities and available cash. Our business follows a seasonal pattern, with sales peaking over a total of about eight weeks during the end-of-year holiday period. The seasonality of our operations may lead to significant fluctuations in certain asset and liability accounts between fiscal year-end and subsequent interim periods.

Cash Flows from Investing Activities

Our cash outflows from investing activities are primarily for capital expenditures and purchases of investments, while cash inflows are primarily proceeds from maturities of investments. Net cash used for investing activities during the thirty-nine weeks ended October 29, 2011 decreased \$90 million compared with the prior year comparable period, primarily due to \$75 million of net maturities of short-term investments in the thirty-nine weeks ended October 29, 2011 compared with \$25 million of net purchases of short-term investments in the thirty-nine weeks ended October 30, 2010.

For fiscal 2011, we expect capital expenditures to be about \$575 million.

Cash Flows from Financing Activities

Our cash outflows from financing activities consist primarily of the repurchases of our common stock and dividend payments. Cash inflows primarily consist of proceeds from the issuance of long-term debt. Net cash used for financing activities during the thirty-nine weeks ended October 29, 2011 decreased \$1 billion compared with the prior year comparable period, primarily due to the following:

\$1.65 billion of proceeds from our issuance of long-term debt in the thirty-nine weeks ended October 29, 2011; partially offset by

\$661 million more repurchases of common stock in the thirty-nine weeks ended October 29, 2011 compared with the prior year comparable period.

Table of Contents**Free Cash Flow**

Free cash flow is a non-GAAP financial measure. We believe free cash flow is an important metric because it represents a measure of how much cash a company has available for discretionary and non-discretionary items after the deduction of capital expenditures, as we require regular capital expenditures to build and maintain stores and purchase new equipment to improve our business. We use this metric internally, as we believe our sustained ability to generate free cash flow is an important driver of value creation. However, this non-GAAP financial measure is not intended to supersede or replace our GAAP result.

The following table reconciles free cash flow, a non-GAAP financial measure, from a GAAP financial measure.

(\$ in millions)	39 Weeks Ended	
	October 29, 2011	October 30, 2010
Net cash provided by operating activities	\$ 638	\$ 936
Less: Purchases of property and equipment	(416)	(413)
Free cash flow	\$ 222	\$ 523

Debt

In April 2011, we issued \$1.25 billion aggregate principal amount of 5.95 percent Notes due April 2021 and received proceeds of \$1.24 billion in cash, net of underwriting and other fees. The net proceeds are available for general corporate purposes, including repurchases of our common stock. Interest is payable semi-annually on April 12 and October 12 of each year and commenced on October 12, 2011. We have an option to call the Notes in whole or in part at any time, subject to a make whole premium. The Notes agreement is unsecured and does not contain any financial covenants.

In April 2011, we also entered into a \$400 million, five-year, unsecured term loan due April 2016, which was funded in May 2011. Repayments of \$40 million are payable on April 7 of each year, commencing on April 7, 2012, with a final repayment of \$240 million due on April 7, 2016. In addition, interest is payable at least quarterly based on an interest rate equal to LIBOR plus a margin based on our long-term senior unsecured credit ratings. The term loan agreement contains financial and other covenants including, but not limited to, limitations on liens and subsidiary debt as well as the maintenance of two financial ratios – a fixed charge coverage ratio and a leverage ratio. Violation of these covenants could result in a default under the term loan agreement, which would require the immediate repayment of outstanding amounts.

Credit Facilities

In April 2011, we replaced our existing \$500 million, five-year, unsecured revolving credit facility, which was scheduled to expire in August 2012, with a new \$500 million, five-year, unsecured revolving credit facility (the Facility), which is scheduled to expire in April 2016. The Facility is available for general corporate purposes including working capital, trade letters of credit, and standby letters of credit. The facility usage fees and fees related to the Facility fluctuate based on our long-term senior unsecured credit ratings and our leverage ratio. If we were to draw on the Facility, interest would be a base rate (typically LIBOR) plus a margin based on our long-term senior unsecured credit ratings and our leverage ratio on the unpaid principal amount. To maintain availability of funds under the Facility, we pay a facility fee on the full facility amount, regardless of usage. As of October 29, 2011, there were no borrowings under the Facility. The net availability of the Facility, reflecting \$43 million of outstanding standby letters of credit, was \$457 million as of October 29, 2011.

On April 7, 2011, we obtained new long-term senior unsecured credit ratings from Moody's and Fitch. Moody's assigned a rating of Baa3, and Fitch assigned a rating of BBB-. Standard & Poor's continues to rate us BB+. As of October 29, 2011, there were no changes in these credit ratings. Any future reduction in the Moody's or Standard & Poor's ratings would increase our interest expense related to our \$400 million term loan and any future interest expense if we were to draw on the Facility.

In September 2010, we entered into two separate agreements to make unsecured revolving credit facilities available for our operations in China (the China Facilities). The China Facilities are uncommitted and are available for borrowings, overdraft borrowings, and issuances of bank guarantees. The 196 million Chinese yuan (approximately \$30 million as of October 29, 2011) China Facilities were set to expire in August 2011 but were renewed under substantially similar terms through September 2012. As of October 29, 2011, there were borrowings of \$12 million (78 million Chinese yuan) at an interest rate of 6.53 percent under the China Facilities. The net availability of the China Facilities,

Edgar Filing: GAP INC - Form 10-Q

reflecting these borrowings, was approximately \$18 million as of October 29, 2011.

As of October 29, 2011, we also had a \$100 million, two-year, unsecured committed letter of credit agreement with an expiration date of September 2012. As of October 29, 2011, we had no trade letters of credit issued under this letter of credit agreement. Trade letters of credit represent a payment undertaking guaranteed by a bank on our behalf to pay a vendor a given amount of money upon presentation of specific documents demonstrating that merchandise has shipped.

Dividend Policy

In determining whether and at what level to declare a dividend, we consider a number of factors including sustainability, operating performance, liquidity, and market conditions.

We paid a dividend of \$0.3375 per share and \$0.30 per share during the thirty-nine weeks ended October 29, 2011 and October 30, 2010, respectively. We intend to pay an annual dividend per share of \$0.45 for fiscal 2011, which is an increase of \$0.05 compared with \$0.40 for fiscal 2010.

Share Repurchases

Between February 2010 and February 2011, we announced that the Board of Directors authorized a total of \$3.75 billion for share repurchases, of which \$26 million was remaining as of October 29, 2011. In November 2011, we announced that the Board of Directors authorized an additional \$500 million for share repurchases.

During the thirty-nine weeks ended October 29, 2011, we repurchased approximately 106.5 million shares for \$2.0 billion, including commissions, at an average price per share of \$18.90.

Summary Disclosures about Contractual Cash Obligations and Commercial Commitments

There have been no significant changes to our contractual obligations and commercial commitments as disclosed in our Annual Report on Form 10-K as of January 29, 2011, other than those which occur in the normal course of business and the \$1.25 billion Notes and \$400 million term loan discussed above. See Item 1, Financial Statements, Note 12 of Notes to Condensed Consolidated Financial Statements for disclosures on commitments and contingencies.

Critical Accounting Policies and Estimates

There have been no significant changes to our critical accounting policies and estimates as discussed in our Annual Report on Form 10-K for the fiscal year ended January 29, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

In April 2011, we issued \$1.25 billion aggregate principal amount of 5.95 percent Notes due April 2021 and received proceeds of \$1.24 billion in cash, net of underwriting and other fees. Interest is payable semi-annually on April 12 and October 12 of each year and commenced on October 12, 2011. The Notes are not subject to market risk, as they have a fixed interest rate.

In April 2011, we also entered into a \$400 million, five-year, unsecured term loan due April 2016, which was funded in May 2011. Repayments of \$40 million are payable on April 7 of each year, commencing on April 7, 2012, with a final repayment of \$240 million due on April 7, 2016. In addition, interest is payable at least quarterly based on an interest rate equal to LIBOR plus a margin based on our long-term senior unsecured credit ratings.

Our interest rate risk associated with the term loan as of October 29, 2011 is as follows:

(\$ in millions)	Expected Maturity Date (Fiscal Year)							Total	Fair Value (1)
	2011	2012	2013	2014	2015	2016	Thereafter		
Principal payments	\$	\$ 40	\$ 40	\$ 40	\$ 40	\$ 240	\$	\$ 400	\$ 400
Average interest rate (2)	2%	2%	2%	2%	2%	2%	2%	2%	

(1) The carrying value of the term loan approximates its fair value, as the interest rate varies depending on market rates and our credit rating.

Edgar Filing: GAP INC - Form 10-Q

(2) The average interest rate for all periods presented was calculated based on LIBOR plus a margin, including fees, based on our long-term senior unsecured credit ratings as of October 29, 2011. As the interest rate for the term loan is variable, it is subject to change for all periods presented. Other than the issuance of the Notes and the term loan described above, our market risk profile as of October 29, 2011 has not significantly changed since January 29, 2011. Our market risk profile as of January 29, 2011 is disclosed in our Annual Report on Form 10-K. See Item 1, Financial Statements, Notes 5 and 6 of Notes to Condensed Consolidated Financial Statements for disclosures on our investments and derivative financial instruments.

Table of Contents**Item 4. Controls and Procedures.****Evaluation of Disclosure Controls and Procedures**

We carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's third quarter of fiscal 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION**Item 1. Legal Proceedings.**

As a multinational company, we are subject to various proceedings, lawsuits, disputes, and claims (Actions) arising in the ordinary course of our business. Many of these Actions raise complex factual and legal issues and are subject to uncertainties. Actions filed against us from time to time include commercial, intellectual property, customer, employment, data privacy, and securities-related claims, including class action lawsuits. The plaintiffs in some Actions seek unspecified damages or injunctive relief, or both. Actions are in various procedural stages, and some are covered in part by insurance.

We cannot predict with assurance the outcome of Actions brought against us. Accordingly, adverse developments, settlements, or resolutions may occur and negatively impact income in the quarter of such development, settlement, or resolution. However, we do not believe that the outcome of any current Action would have a material adverse effect on our financial results.

Item 1A. Risk Factors.

There have been no material changes in our risk factors from those disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended January 29, 2011 and in Part II, Item 1A of our Quarterly Report on Form 10-Q for the period ended April 30, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
