Item 8.01 Other Events.

As previously disclosed, on April 24, 2012, Halcón Resources Corporation ("Halcón") entered into an Agreement and Plan of Merger (the "Merger Agreement") with GeoResources, Inc. ("GeoResources"), Leopard Sub I, Inc., a wholly-owned subsidiary of Halcón ("Merger Sub"), and Leopard Sub II, LLC, a wholly-owned subsidiary of Halcón ("Second Merger Sub"), providing first for the merger (the "Merger") of Merger Sub with and into GeoResources and GeoResources becoming a wholly-owned subsidiary of Halcón, and then the merger (the "Second Merger") of GeoResources with and into the Second Merger Sub.

On July 16, 2012, a settlement agreement was entered into, subject to the court's approval, regarding the settlement of the action styled *Yost v. GeoResources, Inc. et al.*, Case No. 1:12-CV-01307-MSK-KMT, pending in the United States District Court for the District of Colorado (the "Federal Action"), which was filed on behalf of a putative class of GeoResources stockholders against GeoResources, the GeoResources board of directors and, in certain instances, Halcón, Merger Sub and Second Merger Sub as aiders and abettors. Pursuant to such settlement, Halcón and GeoResources agreed to make certain supplemental disclosures regarding the Merger and to provide additional disclosures to their stockholders. A copy of the "Additional Disclosure" is attached as Exhibit 99.1 hereto, and incorporated herein by reference.

The settlement will not affect the merger consideration to be paid to stockholders of GeoResources in connection with the Merger or the timing of the special meeting of stockholders of Halcón scheduled for July 31, 2012 at Halcón's headquarters located at 1000 Louisiana St., Suite 6700, Houston, Texas 77002 at 10:00 a.m., local time, to consider and to vote upon the issuance of Halcón common stock to GeoResources stockholders pursuant to the Merger Agreement, among other things.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the Private Securities Litigation Reform Act of 1995

This communication contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements that are not strictly historical statements constitute forward-looking statements and may often, but not always, be identified by the use of such words such as "expects", "believes", "intends", "anticipates", "plans", "estimates", "potential", "possible", or "probable" or statements that certain actions, events or results "may", "will", "should", or "could" be taken, occur or be achieved. The forward-looking statements include statements about future operations, estimates of reserve and production volumes and the anticipated timing for closing the proposed merger. Forward-looking statements are based on current expectations and assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual results and developments will conform with expectations is subject to a number of risks and uncertainties, including but not limited to: the possibility that the companies may be unable to obtain

stockholder or other approvals required for the transaction or satisfy the other conditions to closing; that problems may arise in the integration of the businesses of the two companies; that the acquisition may involve unexpected costs; the risks of the oil and gas industry (for example, operational risks in exploring for, developing and producing crude oil and natural gas; risks and uncertainties involving geology of oil and gas deposits; the uncertainty of reserve estimates; the uncertainty of estimates and projections relating to future production, costs and expenses; potential delays or changes in plans with respect to exploration or development projects or capital expenditures; health, safety and environmental risks and risks related to weather such as hurricanes and other natural disasters); uncertainties as to the availability and cost of financing; fluctuations in oil and gas prices; inability to integrate and realize expected value from acquisitions on a timely basis, inability of management to execute its plans to meet its goals, shortages of drilling equipment, oil field personnel and services, unavailability of gathering systems, pipelines and processing facilities and the possibility that government policies may change or governmental approvals may be delayed or withheld. Halcón's annual report on Form 10-K for the year ended December 31, 2011 and GeoResources' annual report on Form 10-K (as amended by Amendment No. 1 on Form 10-K/A) for the year ended December 31, 2011, recent quarterly reports on Form 10-Q and recent current reports on Form 8-K, and other Securities and Exchange Commission (SEC) filings discuss some of the important risk factors identified that may affect the business, results of operations and financial condition. Halcón and GeoResources undertake no obligation to revise or update publicly any forward-looking statements for any reason.
