WASHINGTON, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended March 31, 2013

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 1-31923

UNIVERSAL TECHNICAL INSTITUTE, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

86-0226984
(IRS Employer Identification No.)

16220 North Scottsdale Road, Suite 100

Scottsdale, Arizona 85254

Edgar Filing: UNIVERSAL TECHNICAL INSTITUTE INC - Form 10-Q

(Address of principal executive offices)

(623) 445-9500

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At April 24, 2013, there were 24,414,289 shares outstanding of the registrant's common stock.

Special Note Regarding Forward-Looking Statements

This report contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933, as amended, which include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation and availability of resources. From time to time, we also provide forward-looking statements in other materials we release to the public as well as verbal forward-looking statements. These forward-looking statements include, without limitation, statements regarding: proposed new programs; scheduled openings of new campuses and campus expansions; expectations that regulatory developments, or agency interpretations of such regulatory developments or other matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity; statements concerning projections, predictions, expectations, estimates or forecasts as to our business, financial and operational results and future economic performance; and statements of management's goals and objectives and other similar expressions. Such statements give our current expectations or forecasts of future events; they do not relate strictly to historical or current facts. Words such as may, will, should, could, would, predicts, potential, continue, expects, anticipate, plans, believes, estimates, and similar expressions, as well as statements in future tense, identify forward-looking statements.

We cannot guarantee any forward-looking statement will be realized, although we believe we have been prudent in our plans and assumptions. Achievement of future results is subject to risks, uncertainties and inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from past results and those anticipated, estimated or projected. Investors should bear this in mind as they consider forward-looking statements.

Except as required by law, we undertake no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You are advised, however, to consult any further disclosures we make on related subjects in our Form 10-Q, 8-K and 10-K reports to the Securities and Exchange Commission (SEC). The Form 10-K that we filed with the SEC on November 28, 2012 listed various important factors that could cause actual results to differ materially from expected and historical results. We note these factors for investors within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933, as amended. Readers can find them under the heading Risk Factors in the Form 10-K and investors should refer to them. You should understand that it is not possible to predict or identify all such factors. Consequently, you should not consider any such list to be a complete set of all potential risks or uncertainties. Our filings with the SEC may be accessed at the SEC's web site at www.sec.gov.

UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(\$ s in thousands, except per share amounts)

1. Nature of the Business

We are the leading provider of postsecondary education for students seeking careers as professional automotive, diesel, collision repair, motorcycle and marine technicians as measured by total average undergraduate full-time student enrollment and graduates. We offer undergraduate degree, diploma and certificate programs at 11 campuses across the United States under the banner of several well-known brands, including Universal Technical Institute, Motorcycle Mechanics Institute and Marine Mechanics Institute and NASCAR Technical Institute. We also offer manufacturer-specific training programs including student paid electives at our campuses and manufacturer or dealer sponsored training at certain campuses and dedicated training centers.

Our business model provides benefits for multiple distinct groups: our company, our students, our industry relationships and employers and the communities in which we operate. We benefit from the high standards and the material and consultative support of our industry relationships which are key contributors to the overall quality of training and also to our market appeal to prospective students. Students benefit from our specialized education while improving their opportunities for employment through our direct relationships with these employers. Our industry relationships and employers benefit from a steady flow of well-trained entry-level technicians which is the ultimate driver of the dynamics of our business model.

2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, our condensed consolidated financial statements do not include all the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all normal and recurring adjustments considered necessary for a fair statement of the results for the interim periods have been included. Operating results for the three months and six months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending September 30, 2013. The accompanying condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our 2012 Annual Report on Form 10-K filed with the SEC on November 28, 2012.

The unaudited condensed consolidated financial statements include the accounts of Universal Technical Institute, Inc. (UTI) and our wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Historically, we have calculated income tax expense for interim periods based on estimated annual effective tax rates. These rates have been derived, in part, from expected income before taxes for the year. However, authoritative accounting guidance indicates that companies should not apply the estimated annual tax rate to interim financial results if the estimated annual tax rate is not reliably predictable. We are not able to reasonably estimate the annual effective tax rate for the year ending September 30, 2013 because small fluctuations in our earnings before taxes could result in a material change in the estimated annual effective tax rate based on our current projections. Therefore, for the three months and six months ended March 31, 2013, we calculated income taxes for each of the discrete periods using the actual year-to-date results.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

We have no items which affect comprehensive income other than net income.

Revision of Previously Issued Financial Statements

During the three months ended December 31, 2011, we identified and recorded an out of period adjustment of \$0.8 million (pre-tax) of bad debt expense arising from processing issues related to student funds received from a non-Title IV federal funding agency that should have been recognized during prior years. During the three months ended December 31, 2011, we evaluated the impact of this item on prior periods under the materiality guidance and determined that the amount was not material. We also evaluated the impact of correcting this item through a cumulative adjustment to our financial statements for the three months ended December 31, 2011 and concluded that the impact was not material. During the three months ended June 30, 2012, we identified \$0.3 million (pre-tax) of compensation which required payment for services received in periods from October 1, 2002 through March 31, 2012 for which amounts had not been accrued.

We evaluated the impact of the cumulative errors identified during the nine month period ended June 30, 2012 under the materiality guidance on each of the years affected between the years ended September 30, 2003 and September 30, 2011 and concluded the items were not material to any such periods. We also evaluated the impact of correcting these items through a cumulative adjustment to our fiscal 2012 financial statements and concluded that, based on the guidance, it was appropriate to revise our previously issued financial statements to reflect the cumulative impact of this correction. The following table presents the impact of this revision on our condensed consolidated statement of income for the three months and six months ended March 31, 2012 and our condensed consolidated statement of cash flows for the six months ended March 31, 2012:

	Three Months Ended March 31, 2012

Accrued tool sets and other current liabilities	\$ (31)	\$ 2	\$ (29)
Other liabilities	\$ 618	\$ (145)	\$ 473

3. Investments

We invest in pre-funded municipal bonds which are generally secured by escrowed-to-maturity U.S. Treasury notes. Municipal bonds represent debt obligations issued by states, cities, counties and other governmental entities, which earn interest that is exempt from federal income taxes. Additionally, we invest in certificates of deposit issued by financial institutions and corporate bonds from large cap industrial and selected financial companies with a minimum credit rating of A. We have the ability and intent to hold our investments until maturity and therefore classify these investments as held-to-maturity and report them at amortized cost.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

Amortized cost and fair value for investments classified as held-to-maturity at March 31, 2013 were as follows:

	Amortized Cost	Gross Unrealized Gains	Losses	Estimated Fair Market Value
Due in less than 1 year:				
Municipal bonds	\$ 28,135	\$ 16	\$ -	\$ 28,151
Corporate bonds	14,117	6	(7)	14,116
Certificates of deposit	8,542	-	-	8,542
Due in 1 - 2 years:				
Municipal bonds	10,314	10	-	10,324
Corporate bonds	2,512	1	(3)	2,510
Certificates of deposit	2,133	-	-	2,133
	\$ 65,753	\$ 33	\$ (10)	\$ 65,776

Amortized cost and fair value for investments classified as held-to-maturity at September 30, 2012 were as follows:

	Amortized Cost	Gross Unrealized Gains	Losses	Estimated Fair Market Value
Due in less than 1 year:				
Municipal bonds	\$ 23,402	\$ 2	\$ (8)	\$ 23,396
Corporate bonds	18,210	8	(3)	18,215
Certificates of deposit	9,843	3	-	9,846
Due in 1 - 2 years:				
Municipal bonds	170	-	-	170
Corporate bonds	-	-	-	-
Certificates of deposit	4,363	-	-	4,363
	\$ 55,988	\$ 13	\$ (11)	\$ 55,990

Investments are exposed to various risks, including interest rate, market and credit risk and as a result, it is possible that changes in the values of these investments may occur and that such changes could affect the amounts reported in the condensed consolidated balance sheets and condensed consolidated statements of income.

4. Fair Value Measurements

The accounting framework for determining fair value includes a hierarchy for ranking the quality and reliability of the information used to measure fair value, which enables the reader of the financial statements to assess the inputs used to develop those measurements. The fair value hierarchy consists of three tiers: Level 1, defined as quoted market prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, model-based valuation techniques for which all significant assumptions are observable in the market or other inputs

Edgar Filing: UNIVERSAL TECHNICAL INSTITUTE INC - Form 10-Q

that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities and Level 3, defined as unobservable inputs that are not corroborated by market data.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

Assets measured at fair value on a recurring basis consisted of the following:

	March 31, 2013	Fair Value Measurements Using

		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Money market funds	\$ 32,506	\$ 32,506	\$ -	\$ -
Corporate bonds	18,215	18,215	-	-
Municipal bonds	23,566	-	23,566	-
Certificates of deposit	14,209	-	14,209	-
Commercial paper	4,506	-	4,506	-
Total assets at fair value on a recurring basis	\$ 93,002	\$ 50,721	\$ 42,281	\$ -

5. Postemployment Benefits

In September 2012, we implemented a nationwide reduction in workforce and provided postemployment benefits to approximately 50 impacted employees. Additionally, we periodically enter into agreements which provide postemployment benefits to personnel whose employment is terminated. The postemployment benefit liability, which is included in accounts payable and accrued expenses on the accompanying condensed consolidated balance sheets, is generally paid out ratably over the terms of the agreements, which range from 1 to 12 months, with the final agreement expiring in February 2014.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

The postemployment activity for the six months ended March 31, 2013 was as follows:

	Liability Balance at September 30, 2012	Postemployment Benefit Charges	Cash Paid	Other Non-cash ⁽¹⁾	Liability Balance at March 31, 2013
Severance	\$ 2,002	\$ 489	\$ (1,678)	\$ (208)	\$ 605
Other	149	53	(130)	-	72
Total	\$ 2,151	\$ 542	\$ (1,808)	\$ (208)	\$ 677

(1) Primarily relates to the expiration of benefits not used within the time offered under the separation agreement and non-cash severance.

6. Earnings per Share

Basic net income (loss) per share is calculated by dividing net income (loss) by the weighted average number of shares outstanding for the period. Diluted net income (loss) per share reflects the assumed conversion of all dilutive securities, if any. For the six months ended March 31, 2013, 1,437,686 shares, and for the three months and six months ended March 31, 2012, 1,219,721 shares and 1,471,900 shares, respectively, which could be issued under outstanding stock-based grants, were not included in the determination of our diluted shares outstanding as they were anti-dilutive. For the three months ended March 31, 2013, diluted loss per share equals basic loss per share as the assumed exercise of outstanding stock options, vesting of unvested restricted stock and the assumed purchases under the employee stock purchase plan would have an anti-dilutive effect.

The calculation of the weighted average number of shares outstanding used in computing basic and diluted net income (loss) per share was as follows:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2013	2012	2013	2012
Weighted average number of shares	(In thousands)			
Basic shares outstanding	24,396	24,692	24,581	24,692
Dilutive effect related to employee stock plans	-	153	70	134
Diluted shares outstanding	24,396	24,845	24,651	24,826

(\$ s in thousands, except per share amounts)

7. Property and Equipment, net

Property and equipment, net consisted of the following:

	Depreciable Lives (in years)	March 31, 2013	September 30, 2012
Land	-	\$ 1,456	\$ 1,456
Building and building improvements	35	13,675	13,675
Leasehold improvements	1-28	47,802	47,185
Training equipment	3-10	82,217	79,952
Office and computer equipment	3-10	39,756	39,656
Software developed for internal use	3-5	10,895	11,048
Curriculum development	5	18,716	18,716
Vehicles	5	973	949
Construction in progress	-	14,046	7,225
		229,536	219,862
Less accumulated depreciation and amortization		(137,403)	(127,923)
		\$ 92,133	\$ 91,939

At March 31, 2013, construction in progress included \$10.7 million related to the design and construction of our Lisle, Illinois campus.

8. Accounts Payable and Accrued Expenses

Accounts payable and accrued expenses consisted of the following:

	March 31, 2013	September 30, 2012
Accounts payable	\$ 5,046	\$ 8,246
Accrued compensation and benefits	18,626	24,372
Other accrued expenses	7,858	8,247
	\$ 31,530	\$ 40,865

9. Commitments and Contingencies***Operating Leases***

We lease our facilities and certain equipment under non-cancelable operating leases, some of which contain renewal options, escalation clauses and requirements to pay other fees associated with the leases. We recognize rent expense on a straight-line basis. Two of our campus properties

Edgar Filing: UNIVERSAL TECHNICAL INSTITUTE INC - Form 10-Q

are leased from a related party. In December 2012, we entered into amended lease agreements for certain buildings on our Phoenix, Arizona campus which extended the lease term to December 31, 2022. The future minimum lease payments under the amended lease agreements are \$0.5 million, \$0.7 million, \$0.7 million, \$0.8 million, \$0.8 million, and \$4.5 million for the years ending September 30, 2013, 2014, 2015, 2016, 2017 and thereafter, respectively. Such amounts are included in the table below.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

Future minimum rental commitments at March 31, 2013 for all non-cancelable operating leases were as follows:

Six months ending September 30, 2013	\$	14,027
Year ending September 30,		
2014		27,468
2015		26,757
2016		25,233
2017		22,189
Thereafter		94,265
	\$	209,939

Legal

In the ordinary conduct of our business, we are periodically subject to lawsuits, demands in arbitration, investigations, regulatory proceedings or other claims, including, but not limited to, claims involving current or former students, routine employment matters, business disputes and regulatory demands. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we would accrue a liability for the loss. When a loss is not both probable and estimable, we do not accrue a liability. Where a loss is not probable but is reasonably possible, including if a loss in excess of an accrued liability is reasonably possible, we determine whether it is possible to provide an estimate of the amount of the loss or range of possible losses for the claim. Because we cannot predict with certainty the ultimate resolution of the legal proceedings (including lawsuits, investigations, regulatory proceedings or claims) asserted against us, such current pending legal proceedings to which we are a party may have a material adverse effect on our business, cash flows, results of operations or financial condition.

The United States Department of Justice has notified us that we are the subject of a preliminary investigation (DOJ Preliminary Investigation) concerning Federal False Claims Act (31 U.S.C. § 3729 et seq.) claims. We understand that a former employee alleged our compensation of our enrollment counselors violated the incentive compensation ban of Title IV of the Higher Education Act, amongst other potential violations allegedly occurring over a number of years. We intend to fully cooperate with the DOJ Preliminary Investigation. There are no requests for production of documents to date. Pursuant to applicable law and the United States request, we cannot make further disclosures concerning this matter.

The same former employee who made allegations subject to the aforementioned DOJ Preliminary Investigation also filed a complaint with the Occupational Safety and Health Administration of the U.S. Department of Labor (DOL) alleging retaliatory employment practices in violation of the whistleblower provisions of the Sarbanes-Oxley Act of 2002. We received a request from the DOL in May 2012, pursuant to the complaint filed on May 3, 2012, to furnish documents and other information in response to this complaint. We believe that the former employee was properly terminated based upon failure of performance and not for any illegal or retaliatory reason, and we intend to vigorously defend the claims asserted. We have timely provided the information requested by the government and will continue to cooperate fully with the DOL. At this time, we cannot predict the outcome of the complaint nor can we reasonably estimate the potential costs that may be associated with its eventual resolution. Consequently, we have not recorded any associated liabilities in the accompanying financial statements.

UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(\$ s in thousands, except per share amounts)

In September 2012, we received a Civil Investigative Demand (CID) from the Attorney General of the Commonwealth of Massachusetts related to a pending investigation in connection with allegations that we caused false claims to be submitted to the Commonwealth relating to student loans, guarantees and grants provided to students at our Norwood, Massachusetts campus. The CID required us to produce documents and provide written testimony regarding a broad range of our business since September 2006 to the present. We responded timely to the request, as well as a follow-up request for additional information made in December 2012. At this time, we cannot predict the eventual scope, duration, outcome or associated costs of this request and accordingly we have not recorded any liability in the accompanying financial statements.

In October 2012 and January 2013, the Accrediting Commission of Career Schools and Colleges (ACCSC) requested certain documentation related to the preliminary investigation by the United States Department of Justice. Pursuant to applicable law and the United States request, we are not able to provide the information requested and have notified ACCSC as such. At this time, we cannot predict the eventual scope, duration, outcome or associated costs, if any, of this request and accordingly we have not recorded any liability in the accompanying financial statements.

Proprietary Loan Program

In order to provide funding for students who are not able to fully finance the cost of their education under traditional governmental financial aid programs, commercial loan programs or other alternative sources, we established a private loan program with a national chartered bank. During the three months ended March 31, 2013, the bank exercised its right to terminate the agreement effective April 30, 2013. The bank subsequently agreed to an extension through June 29, 2013. We are in the process of negotiating with potential replacement banks, and have identified other alternatives to this funding source. We will continue to monitor progress and adjust our plans as necessary.

Under terms of the related agreement, the bank originates loans for our students who meet our specific credit criteria with the related proceeds used exclusively to fund a portion of their tuition. We then purchase all such loans from the bank at least monthly and assume all of the related credit risk. The loans bear interest at market rates; however, principal and interest payments are not required until six months after the student completes or withdraws from his or her program. After the deferral period, monthly principal and interest payments are required over the related term of the loan.

The bank agreed to provide these services in exchange for a fee equivalent to 0.4% of the principal balance of each loan and related fees. Under the terms of the related agreement, we have a \$2.0 million deposit with the bank in order to secure our related loan purchase obligation, which is classified as restricted cash in our condensed consolidated balance sheets at March 31, 2013.

In substance, we provide the students who participate in this program with extended payment terms for a portion of their tuition and as a result, we account for the underlying transactions in accordance with our tuition revenue recognition policy. However, due to the nature of the program coupled with the extended payment terms required under the student loan agreements, collectability is not reasonably assured. Accordingly, we recognize tuition and loan origination fees financed by the loan and any related interest income required under the loan when such amounts are collected. We will reevaluate and modify this policy if appropriate. All related expenses incurred with the bank or other service providers are expensed as incurred and were approximately \$0.5 million and \$1.1 million during the three months and six months ended March 31, 2013, respectively, and \$0.4 million and \$0.7 million during the three months and six months ended March 31, 2012, respectively. Since loan collectability is not reasonably assured, the loans and related deferred tuition revenue are not recognized in our condensed consolidated balance sheets. Our presentation may be modified in the future in conjunction with our revenue recognition policy.

Table of Contents**UNIVERSAL TECHNICAL INSTITUTE, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

(\$ s in thousands, except per share amounts)

The following table summarizes the impact of the proprietary loan program on our tuition revenue and interest income during the period as well as on a cumulative basis at the end of each period in our condensed consolidated income statements. Tuition revenue and interest income excluded represents amounts which would have been recognized during the period had collectability of the related amounts been assured. Amounts collected and recognized represent actual cash receipts during the period and amounts written-off represent amounts which have been turned over to third party collectors.

	Three Months Ended March 31,		Six Months Ended March 31,		Inception to date
	2013	2012	2013	2012	
Tuition and interest income excluded	\$ 6,095	\$ 4,426	\$ 12,832	\$ 7,658	\$ 59,714
Amounts collected and recognized	(568)	(409)	(1,018)	(730)	(3,763)
Amounts written-off	(1,469)	(1,899)	(2,456)	(4,698)	(17,156)
Net amount excluded during the period	\$ 4,058	\$ 2,118	\$ 9,358	\$ 2,230	\$ 38,795

At March 31, 2013, we had committed to provide loans to our students for approximately \$68.7 million.

The following table summarizes the activity related to the balances outstanding under our proprietary loan program, including loans outstanding, interest and origination fees, which are not reflected in our condensed consolidated balance sheets:

	Six Months Ended March 31,	
	2013	2012
Balance at beginning of period	\$ 42,880	\$ 26,863
Loans extended	14,336	10,880
Interest accrued	1,860	1,314
Amounts collected and recognized	(1,018)	(730)
Amounts written off	(2,456)	(4,698)
Balance at end of period	\$ 55,602	\$ 33,629

10. Common Shareholders Equity**Common Stock**

Holders of our common stock are entitled to receive dividends when and as declared by our Board of Directors and have the right to one vote per share on all matters requiring shareholder approval. On December 21, 2012 and March 29, 2013, we paid cash dividends of \$0.10 per share to common stockholders of record as of December 7, 2012 and March 15, 2013, respectively. The aggregate payment was approximately \$4.9 million. Our Board of Directors evaluates dividends quarterly.

Share Repurchase Program

Edgar Filing: UNIVERSAL TECHNICAL INSTITUTE INC - Form 10-Q

On December 20, 2011, our Board of Directors authorized the repurchase of up to \$25.0 million of our common stock in the open market or through privately negotiated transactions. The timing and actual number of shares purchased will depend on a variety of factors such as price, corporate and regulatory requirements and prevailing market conditions. We may terminate or limit the share repurchase program at any time without prior notice. During the six months ended March 31, 2013, we purchased 556,100 shares at an average price per share of \$9.61 and a total cost of approximately \$5.4 million. We did not make any purchases during the three months ended March 31, 2013. At March 31, 2013, we have purchased 699,700 shares at an average price per share of \$10.27 and a total cost of approximately \$7.2 million under this program.

11. Segment Information

Our principal business is providing postsecondary education. We also provide manufacturer-specific training, and these operations are managed separately from our campus operations. These operations do not currently meet the quantitative criteria for segments and therefore are reflected in the Other category. Corporate expenses are allocated to Postsecondary Education and the Other category based on compensation expense.

Summary information by reportable segment is as follows:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2013	2012	2013	2012
Revenues				
Postsecondary education	\$ 93,243	\$ 103,788	\$ 189,163	\$ 207,941

12. Government Regulation and Financial Aid

On March 19, 2013, the U.S. District Court for the District of Columbia denied a motion from the Department of Education (ED) for the court to amend its earlier judgment to vacate certain rules related to gainful employment. The court upheld the decision to vacate those requirements. ED has 60 days to appeal the original June 30, 2012 decision and the March 19, 2013 decision. In April 2013, ED announced additional topics for consideration for action by a negotiated rulemaking committee, including gainful employment measures. Negotiations are expected to begin in September 2013.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in this report and those in our 2012 Annual Report on Form 10-K filed with the SEC on November 28, 2012. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in such forward-looking statements as a result of certain factors, including but not limited to those described under "Risk Factors" in our 2012 Annual Report on Form 10-K and included in Part II, Item 1A of this report.

2013 Overview

Operations

Lower student population levels as we began 2013, combined with lower new student starts during the period, resulted in declines of 10.2% and 9.8% in our average undergraduate full-time student enrollment to approximately 15,000 and 15,700 students, respectively, for the three months and six months ended March 31, 2013, respectively. We started approximately 2,900 and 5,600 students during the three months and six months ended March 31, 2013, respectively, which represent decreases of 14.7% and 16.4%, respectively, as compared to the prior year comparable periods. The decrease in starts was partially due to a decrease in student applications, as well as a decline in the percentage of students who started school after applying.

Several factors continue to challenge our ability to attract and start new students including the following:

The amount of Title IV financial aid available decreased during 2012 which increased the difference between the amount of Title IV financial aid our students are eligible for and the cost of education; this difference requires students and their families to obtain additional financing;

Incentive compensation changes which became effective July 1, 2011 limited the means by which we may compensate our admissions representatives and required significant changes to our compensation and performance management processes. We are continuing to adapt to those changes within the organization;

Table of Contents

Competition for prospective students continues to increase from within our sector as well as with traditional post-secondary educational institutions;

The state of the general macro-economic environment and its impact on price sensitivity and the ability and willingness of students and their families to incur debt; and

Unemployment; during periods when the unemployment rate declines or remains stable as it has in 2012 and 2013, prospective students have more employment options.

The decline in our average undergraduate full-time student enrollment resulted in a decline in revenues and in an operating loss and net loss for the three months ended March 31, 2013. For the six months ended March 31, 2013, the decline in our average undergraduate full-time student enrollment and revenues resulted in a decline in operating income and net income. The declines in results of operations were partially offset by decreases in compensation and benefits expenses as well as advertising expense.

Our revenues for the three months and six months ended March 31, 2013 were \$95.1 million and \$193.5 million, respectively, decreases of \$11.1 million, or 10.5%, and \$19.2 million, or 9.0%, respectively, from the prior year. Our net loss for the three months ended March 31, 2013 was \$0.9 million, a decrease of \$2.8 million from net income of \$1.9 million in the prior year. Our net income for the six months ended March 31, 2013 was \$2.6 million, a decrease of \$3.8 million from the prior year. Additionally, our revenues for the three months and six months ended March 31, 2013 excluded \$5.2 million and \$11.0 million, respectively, of tuition related to students participating in our proprietary loan program.

Balancing the impact of our lower student populations and our highly fixed cost structure with our commitment to invest in our future has resulted in lower operating margins for the three months and six months ended March 31, 2013.

In response to these challenges, we continue to manage discretionary operating costs, adjust our staffing levels, pursue initiatives that may improve class density, develop our strong industry relationships and provide alternative solutions to help students achieve their educational goals. Additionally, we have implemented programs to improve the effectiveness of our student recruitment and admissions processes. We have also increased the amount of scholarships granted to our students in an effort to improve the percentage of students who start school after applying.

Proprietary Loan Program

The bank which originates loans for our proprietary loan program exercised its right to terminate the agreement effective April 30, 2013. The bank subsequently agreed to an extension through June 29, 2013. We are in the process of negotiating with potential replacement banks, and have identified other alternatives to this funding source. We will continue to monitor progress and adjust our plans as necessary.

Automotive Technology and Diesel Technology II Integration

We began offering our Automotive Technology and Diesel Technology II curricula at our Avondale, Arizona campus in 2012. As we evaluate the lessons and potential efficiencies of the curricula, we will continue to integrate the curricula at our other campuses starting in calendar year 2014. We expect to make additional capital investments and incur higher than usual operating expenses as we integrate the curricula at our remaining automotive campuses. We anticipate capitalizing an additional \$0.8 million to \$0.9 million and incurring an additional \$0.6 million to \$0.7 million in operating expenses during the year ending September 30, 2013.

Table of Contents

Graduate Employment

Our consolidated graduate employment rate for our 2012 graduates during the six months ended March 31, 2013 is slightly above the rate at the same time in the prior year. The rate has improved for our Automotive and Diesel Technology, Motorcycle and Marine programs while the rate has declined for our Collision Repair program.

Regulatory Environment

Accreditation

In March 2013, we received formal notification from the Accrediting Commission of Career Schools and Colleges (ACCSC) confirming the continuing accreditation through July 2017 for our Norwood, Massachusetts campus.

Industry-related Judicial Outcomes

On March 19, 2013, the U.S. District Court for the District of Columbia denied a motion from the Department of Education (ED) for the court to amend its earlier judgment to vacate certain rules related to gainful employment. The court upheld the decision to vacate those requirements. ED has 60 days to appeal the original June 30, 2012 decision and the March 19, 2013 decision. In April 2013, ED announced additional topics for consideration for action by a negotiated rulemaking committee, including gainful employment measures. Negotiations are expected to begin in September 2013.

2013 Outlook

Given the time required for new initiatives to take hold and the increasing lag between students applying for school and starting school, we expect new student starts to be down in the third quarter of 2013, before possibly showing year over year improvement in the fourth quarter. We anticipate full year new student starts for 2013 to be down by the mid to high single digits, resulting in a lower average student population for the year. These lower levels of enrollment will most likely result in a high single digit decline in revenue in 2013. While we expect significantly lower expenses in the second half of the year, we still believe we will record an overall decline in operating margin and net income compared to 2012. Due to the seasonality of our business and normal fluctuations in student populations, we would expect volatility in our quarterly results.

Table of Contents**Results of Operations**

The following table sets forth selected statements of operations data as a percentage of revenues for each of the periods indicated.

	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
Revenues	100.0%	100.0%	100.0%	100.0%
Operating expenses:				
Educational services and facilities	53.0%	50.3%	51.8%	49.4%
Selling, general and administrative	49.0%	46.9%	46.1%	45.7%
Total operating expenses	102.0%	97.2%	97.9%	95.1%
Income (loss) from operations	-2.0%	2.8%	2.1%	4.9%
Interest income, net	0.1%	0.1%	0.1%	0.1%
Other income	0.2%	0.2%	0.2%	0.1%
Total other income	0.3%	0.3%	0.3%	0.2%
Income (loss) before income taxes	-1.7%	3.1%	2.4%	5.1%
Income tax expense (benefit)	-0.7%	1.3%	1.0%	2.1%
Net income (loss)	-1.0%	1.8%	1.4%	3.0%

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the three months and six months ended March 31, 2013 were \$4.2 million and \$16.3 million, respectively, as compared to \$9.5 million and \$23.5 million for the three months and six months ended March 31, 2012, respectively.

EBITDA is a non-GAAP financial measure which is provided to supplement, but not substitute for, the most directly comparable GAAP measure. We choose to disclose to investors this non-GAAP financial measure because it provides an additional analytical tool to clarify our results from operations and helps to identify underlying trends. Additionally, this measure helps compare our performance on a consistent basis across time periods. To obtain a complete understanding of our performance, this measure should be examined in connection with net income (loss) determined in accordance with GAAP. Since the items excluded from this measure should be examined in connection with net income (loss) determined in financial performance under GAAP, this measure should not be considered to be an alternative to net income (loss) as a measure of our operating performance or profitability. Exclusion of items in our non-GAAP presentation should not be construed as an inference that these items are unusual, infrequent or non-recurring. Other companies, including other companies in the education industry, may calculate EBITDA differently than we do, limiting its usefulness as a comparative measure across companies. Investors are encouraged to use GAAP measures when evaluating our financial performance.

Table of Contents

EBITDA reconciles to net income (loss) as follows:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2013	2012	2013	2012
	(In thousands)			
Net income (loss)	\$ (920)	\$ 1,932	\$ 2,642	\$ 6,411
Interest income, net	(72)	(58)	(119)	(150)
Income tax expense (benefit)	(702)	1,354	1,908	4,447
Depreciation and amortization	5,909	6,244	11,894	12,767
EBITDA	\$ 4,215	\$ 9,472	\$ 16,325	\$ 23,475

Return on equity for the trailing four quarters ended March 31, 2013 was 3.6% compared to 6.2% for the trailing four quarters ended September 30, 2012. Return on equity is calculated as the sum of net income (loss) for the last four quarters divided by the average of our total shareholders' equity balances at the end of each of the last five quarters.

Three Months Ended March 31, 2013 Compared to Three Months Ended March 31, 2012 and Six Months Ended March 31, 2013 Compared to Six Months Ended March 31, 2012

Revenues. Our revenues for the three months ended March 31, 2013 were \$95.1 million, a decrease of \$11.1 million, or 10.5%, as compared to revenues of \$106.2 million for the three months ended March 31, 2012. Approximately \$10.7 million of the decline in revenues was a result of a decrease in our average undergraduate full-time student enrollment of 10.2%. The decrease was offset by tuition rate increases between 3% and 5%, depending on the program. Our revenues for the three months ended March 31, 2013 and 2012 excluded \$5.2 million and \$3.7 million, respectively, of tuition related to students participating in our proprietary loan program. In accordance with our accounting policy, we recognize the related revenues as payments are received from the students participating in this program. We recognized \$0.6 million and \$0.4 million of revenues and interest under the program during the three months ended March 31, 2013 and 2012, respectively.

Our revenues for the six months ended March 31, 2013 were \$193.5 million, a decrease of \$19.2 million, or 9.0%, as compared to revenues of \$212.7 million for the six months ended March 31, 2012. Approximately \$20.6 million of the decline in revenues was a result of a decrease in our average undergraduate full-time student enrollment of 9.8%. The decrease was offset by tuition rate increases between 3% and 5%, depending on the program. Our revenues for the six months ended March 31, 2013 and 2012 excluded \$11.0 million and \$6.3 million, respectively, of tuition related to students participating in our proprietary loan program. We recognized \$1.0 million and \$0.7 million of revenues and interest under the program during the six months ended March 31, 2013 and 2012, respectively.

Over the past year, we have increased the amount of scholarships granted to our students in an effort to improve the percentage of students who start school after applying. Because scholarships are recognized ratably over the term of the student's course or program in accordance with our revenue recognition policy, the increase in scholarships granted has not had a significant impact to our revenues for the three months or six months ended March 31, 2013.

Educational services and facilities expenses. Our educational services and facilities expenses for the three months and six months ended March 31, 2013 were \$50.5 million and \$100.1 million, respectively. This resulted in decreases of \$2.9 million and \$5.1 million, as compared to \$53.4 million and \$105.2 million, respectively, for the three months and six months ended March 31, 2012, respectively.

Table of Contents

The following table sets forth the significant components of our educational services and facilities expenses:

	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2013	2012	2013	2012
	(In thousands)			
Salaries expense	\$ 21,425	\$ 23,206	\$ 43,152	\$ 45,450
Employee benefits and tax	4,877	5,006	8,607	9,299
Bonus expense	113	583	661	1,676
Stock-based compensation	44	276	264	552
Compensation and related costs	26,459	29,071	52,684	56,977
Occupancy costs	9,224	9,095	18,446	18,276
Other educational services and facilities expense	5,394	5,271	10,398	10,271
Depreciation and amortization expense	4,704	4,815	9,392	9,656
Tools and training aids expense	2,270	2,652	4,674	5,068
Supplies and maintenance	2,405	2,518	4,554	4,906
	\$ 50,456	\$ 53,422	\$ 100,148	\$ 105,154

Compensation and related costs decreased \$2.6 million and \$4.3 million during the three months and six months ended March 31, 2013, respectively, as compared to the same periods in the prior year. The decreases were primarily attributable to lower employee headcount due to a reduction in workforce in September 2012. Additionally, bonus expense decreased primarily due to operating results lower than bonus payout thresholds during the current year as well as a reduction in the bonus plan payout levels for 2013. We anticipate our compensation and related costs will decrease for the year ending September 30, 2013 as compared to the year ended September 30, 2012.

Selling, general and administrative expenses. Our selling, general and administrative expenses for the three months and six months ended March 31, 2013 were \$46.6 million and \$89.3 million, respectively. This resulted in decreases of \$3.2 million and \$7.9 million, as compared to \$49.8 million and \$97.2 million, respectively, for the three months and six months ended March 31, 2012, respectively.

Table of Contents

The following table sets forth the significant components of our selling, general and administrative expenses:

	Three Months Ended March 31,		Six Months Ended March 31,	
	2013	2012	2013	2012
	(In thousands)			
Salaries expense	\$ 18,433	\$ 18,710	\$ 36,434	\$ 36,678
Employee benefits and tax	4,582	4,558	8,029	8,607
Bonus expense	268	1,409	1,874	4,003
Stock-based compensation	1,516	1,823	2,741	3,229
Compensation and related costs	24,799	26,500	49,078	52,517
Advertising expense	10,723	11,662	19,093	22,161
Other selling, general and administrative expenses	6,706	6,988	12,306	12,593
Contract services expense	1,584	1,428	2,918	2,643
Depreciation and amortization expense	1,205	1,428	2,502	3,110
Bad debt expense	1,076	1,411	2,620	3,144
Legal services expense	465	386	784	1,003
	\$ 46,558	\$ 49,803	\$ 89,301	\$ 97,171

Compensation and related costs decreased \$1.7 million and \$3.4 million during the three months and six months ended March 31, 2013, respectively, as compared to the same periods in the prior year. The decrease was primarily attributable to lower bonus expense, as a result of operating results lower than bonus payout thresholds during the current year and a reduction in the bonus plan payout levels for 2013. We anticipate our compensation and related costs will decrease for the year ending September 30, 2013 as compared to the year ended September 30, 2012.

Advertising expense decreased \$0.9 million and \$3.1 million for the three months and six months ended March 31, 2013, respectively, as compared to the same periods in the prior year. The decrease was primarily due to accelerated spending in the same periods in the prior year. We continue to execute on our plan to optimize marketing to generate higher quality inquiries from potential students while controlling our costs.

Income taxes. Our income tax benefit for the three months ended March 31, 2013 was \$0.7 million, or 43.3% of pre-tax loss. Our provision for income taxes for the six months ended March 31, 2013 was \$1.9 million, or 41.9% of pre-tax income. Our provision for income taxes for the three months and six months ended March 31, 2012 was \$1.4 million, or 41.2% of pre-tax income, and \$4.5 million, or 41.0% of pre-tax net income, respectively. The effective income tax rate in each period differed from the federal statutory tax rate of 35% primarily as a result of state income taxes, net of related federal income tax benefits.

Historically, we have calculated income tax expense for interim periods based on estimated annual effective tax rates. These rates have been derived, in part, from expected income before taxes for the year. However, authoritative accounting guidance indicates that companies should not apply the estimated annual tax rate to interim financial results if the estimated annual tax rate is not reliably predictable. We are not able to reasonably estimate the annual effective tax rate for the year ending September 30, 2013 because small fluctuations in our earnings before taxes could result in a material change in the estimated annual effective tax rate based on our current projections. Therefore, for the three months and six months ended March 31, 2013, we calculated income taxes for each of the discrete periods using the actual year-to-date results.

Table of Contents

Liquidity and Capital Resources

Based on past performance and current expectations, we believe that our cash flows from operations, cash on hand and investments will satisfy our working capital needs, capital expenditures, commitments and other liquidity requirements associated with our existing operations through the next 12 months.

We believe that the strategic use of our cash resources includes supporting the integration of our Automotive Technology and Diesel Technology II curricula to existing campuses, as well as subsidizing funding alternatives for our students. Additionally, we evaluate the repurchase of our common stock, payment of dividends, consideration of strategic acquisitions and other potential uses of cash. In December 2012 and March 2013, we paid cash dividends of \$0.10 per share on the common stock of the Company. Our Board of Directors evaluates dividends quarterly. Additionally, we repurchased approximately \$5.4 million of our outstanding common stock during the six months ended March 31, 2013. To the extent that potential acquisitions are large enough to require financing beyond cash from operations, we may issue debt resulting in increased interest expense. Our aggregate cash and cash equivalents and current investments were \$79.3 million at March 31, 2013.

Our principal source of liquidity is operating cash flows. A majority of our revenues is derived from Title IV Programs. Federal regulations dictate the timing of disbursements of funds under Title IV Programs. Students must apply for a new loan for each academic year consisting of thirty-week periods. Loan funds are generally provided by lenders in two disbursements for each academic year. The first disbursement is usually received within 30 days of the start of a student's academic year and the second disbursement is typically received at the beginning of the sixteenth week from the start of the student's academic year. We established a proprietary loan program in which we bear all credit and collection risk and students are not required to begin repayment until six months after the student completes or withdraws from his or her program. These factors, together with the timing of when our students begin their programs, affect our operating cash flow.

Operating Activities

Our net cash provided by operating activities was \$7.6 million for the six months ended March 31, 2013 compared to cash provided by operating activities of \$15.6 million for the six months ended March 31, 2012. For the six months ended March 31, 2013, changes in our operating assets and liabilities resulted in cash outflows of \$12.6 million and were primarily attributable to changes in accounts payable and accrued expenses, deferred revenue and prepaid expenses and other current assets. The decrease in accounts payable and accrued expenses resulted in a cash outflow of \$8.1 million and was primarily due to the payment of our 2012 annual bonus as well as the timing of our payroll cycle. The decrease in deferred revenue resulted in a cash outflow of \$5.8 million and was primarily attributable to the timing of student starts, the number of students in school and where they were at period end in relation to the completion of their program at March 31, 2013 compared to September 30, 2012. The decrease in prepaid expenses and other current assets resulted in a net cash inflow of \$1.5 million and was primarily as a result of the reimbursement of certain construction expenses related to the relocation of our Glendale Heights, Illinois campus to, and the design and construction of, a new campus in Lisle, Illinois.

During the six months ended March 31, 2012, the changes in our operating assets and liabilities resulted in cash outflows of \$7.7 million and were primarily attributable to changes in deferred revenue, receivables, prepaid expenses and other current assets and accounts payable and other accrued expenses. The decrease in deferred revenue resulted in a cash outflow of \$6.4 million and was primarily attributable to the timing of student starts, the number of students in school and where they were at period end in relation to the completion of their program at March 31, 2012 compared to September 30, 2011. The increase in accounts payable and accrued expenses was primarily due to the timing of our payroll cycle. The increase in receivables was related to the timing of Title IV disbursements and other cash receipts on behalf of our students. The increase in prepaid expenses and other current assets resulted in cash used of \$1.1 million primarily related to our prepaid insurance plans.

Table of Contents

Investing Activities

During the six months ended March 31, 2013, cash used in investing activities was \$14.8 million and was primarily related to our purchases of \$44.0 million of investments and cash inflows of \$33.4 million from proceeds received upon maturity of investments. We had cash outflows of \$4.2 million related to the purchase of new and replacement training equipment for our ongoing operations.

During the six months ended March 31, 2012, cash used in investing activities was \$7.3 million and was primarily related to our purchases of investments of \$41.3 million and cash inflows of \$37.5 million from proceeds received upon maturity of investments. We had cash outflows of \$3.5 million related to new and replacement training equipment for our ongoing operations.

Financing Activities

During the six months ended March 31, 2013, cash used in financing activities was \$9.9 million and was primarily attributable to the repurchase of approximately \$5.4 million of treasury stock and the payment of cash dividends on December 21, 2012 and March 29, 2013 of \$0.10 per share totaling approximately \$4.9 million. During the six months ended March 31, 2012, cash used in financing activities was \$3.6 million and was primarily attributable to the payment of a cash dividend on March 30, 2012 of \$0.10 per share totaling \$2.5 million and the repurchase of \$1.6 million of treasury stock.

Seasonality and Trends

Our revenues and operating results normally fluctuate as a result of seasonal variations in our business, principally due to changes in total student population and costs associated with opening or expanding our campuses. Our student population varies as a result of new student enrollments, graduations and student attrition. Historically, our schools have had lower student populations in our third quarter than in the remainder of our year because fewer students are enrolled during the summer months. Additionally, our schools have had higher student populations in our fourth quarter than in the remainder of the year because more students enroll during this period. Our expenses, however, do not vary significantly with changes in student population and revenues and, as a result, such expenses do not fluctuate significantly on a quarterly basis. We expect quarterly fluctuations in operating results to continue as a result of seasonal enrollment patterns. Such patterns may change, however, as a result of new school openings, new program introductions, increased enrollments of adult students or acquisitions. Additionally, our revenues for the first quarter ending December 31 are impacted by the closure of our campuses for a week in December for a holiday break and, accordingly, we do not earn revenue during that closure period.

Critical Accounting Policies and Estimates

Our critical accounting policies are disclosed in our 2012 Annual Report on Form 10-K, filed with the SEC on November 28, 2012. During the six months ended March 31, 2013, there have been no significant changes in our critical accounting policies.

Table of Contents

Recent Accounting Pronouncements

Recent accounting pronouncements are disclosed in our 2012 Annual Report on Form 10-K, filed with the SEC on November 28, 2012. During the six months ended March 31, 2013, there have been no new accounting pronouncements which are expected to significantly impact our consolidated financial statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes to our market risk since September 30, 2012. For a discussion of our exposure to market risk, refer to our 2012 Annual Report on Form 10-K, filed with the SEC on November 28, 2012.

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), pursuant to Exchange Act Rule 13a-15 as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in ensuring that (i) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by Exchange Act Rule 13a-15(d) that occurred during the three months ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

In the ordinary conduct of our business, we are periodically subject to lawsuits, demands in arbitrations, investigations, regulatory proceedings or other claims, including, but not limited to, claims involving current and former students, routine employment matters, business disputes and regulatory demands. When we are aware of a claim or potential claim, we assess the likelihood of any loss or exposure. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, we would accrue a liability for the loss. When a loss is not both probable and estimable, we do not accrue a liability. Where a loss is not probable but is reasonably possible, including if a loss in excess of an accrued liability is reasonably possible, we determine whether it is possible to provide an estimate of the amount of the loss or range of possible losses for the claim. Although we cannot predict with certainty the ultimate resolution of lawsuits, investigations, regulatory proceedings or claims asserted against us, we do not believe that any currently pending legal proceeding to which we are a party, individually or in the aggregate, will have a material adverse effect on our business, cash flows, results of operations or financial condition.

Table of Contents

The United States Department of Justice has notified us that we are the subject of a preliminary investigation (DOJ Preliminary Investigation) concerning Federal False Claims Act (31 U.S.C. § 3729 et seq.) claims. We understand that a former employee alleged our compensation of our enrollment counselors violated the incentive compensation ban of Title IV of the Higher Education Act, amongst other potential violations allegedly occurring over a number of years. We intend to fully cooperate with the DOJ Preliminary Investigation. There are no requests for production of documents to date. Pursuant to applicable law and the United States request, we cannot make further disclosures concerning this matter.

The same former employee who made allegations subject to the aforementioned DOJ Preliminary Investigation also filed a complaint with the Occupational Safety and Health Administration of the U.S. Department of Labor (DOL) alleging retaliatory employment practices in violation of the whistleblower provisions of the Sarbanes-Oxley Act of 2002. We received a request from the DOL in May 2012, pursuant to the complaint filed on May 3, 2012, to furnish documents and other information in response to this complaint. We believe that the former employee was properly terminated based upon failure of performance and not for any illegal or retaliatory reason, and we intend to vigorously defend the claims asserted. We have timely provided the information requested by the government and will continue to cooperate fully with the DOL. At this time, we cannot predict the outcome of the complaint nor can we reasonably estimate the potential costs that may be associated with its eventual resolution. Consequently, we have not recorded any associated liabilities in the accompanying financial statements.

In September 2012, we received a Civil Investigative Demand (CID) from the Attorney General of the Commonwealth of Massachusetts related to a pending investigation in connection with allegations that we caused false claims to be submitted to the Commonwealth relating to student loans, guarantees and grants provided to students at our Norwood, Massachusetts campus. The CID required us to produce documents and provide written testimony regarding a broad range of our business since September 2006 to the present. We responded timely to the request, as well as a follow-up request for additional information made in December 2012. At this time, we cannot predict the eventual scope, duration, outcome or associated costs of this request and accordingly we have not recorded any liability in the accompanying financial statements.

In October 2012 and January 2013, the ACCSC requested certain documentation related to the preliminary investigation by the United States Department of Justice. Pursuant to applicable law and the United States request, we are not able to provide the information requested and have notified ACCSC as such. At this time, we cannot predict the eventual scope, duration, outcome or associated costs, if any, of this request and accordingly we have not recorded any liability in the accompanying financial statements.

Item 1A. RISK FACTORS

In addition to the other information set forth in this report, including the information contained in Part I, Item 3, you should carefully consider the factors discussed in Part I, Item IA of our 2012 Annual Report on Form 10-K filed with the SEC on November 28, 2012, which could materially affect our business, financial condition or operating results. The risks described in this report and in our 2012 Annual Report on Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results.
