CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Basis of Presentation

The accompanying consolidated financial statements of CBRE Group, Inc., a Delaware corporation (which may be referred to in these financial statements as the company, we, us and our), have been prepared in accordance with the rules applicable to Quarterly Reports on Form 10-Q and include all information and footnotes required for interim financial statement presentation, but do not include all disclosures required under accounting principles generally accepted in the United States (GAAP) for annual financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments, except as otherwise noted) considered necessary for a fair presentation have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, and reported amounts of revenue and expenses. Such estimates include the value of goodwill, intangibles and other long-lived assets, real estate assets, accounts receivable, investments in unconsolidated subsidiaries and assumptions used in the calculation of income taxes, retirement and other post-employment benefits, among others. These estimates and assumptions are based on management's best judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including consideration of the current economic environment, and adjusts such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in these estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods. Certain reclassifications have been made to the 2012 financial statements to conform with the 2013 presentation.

The results of operations for the three and nine months ended September 30, 2013 are not necessarily indicative of the results of operations to be expected for the year ending December 31, 2013. The unaudited interim consolidated financial statements and notes to consolidated financial statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2012, which contains the latest available audited consolidated financial statements and notes thereto, which are as of and for the year ended December 31, 2012.

2. New Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*. This ASU states that when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASU 2013-05 is effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013, with early adoption permitted. We do not believe the adoption of this update will have a material effect on our consolidated financial position or results of operations.

In July 2013, the FASB issued ASU 2013-10, *Derivatives and Hedging (Topic 815): Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes*. This ASU permits the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) to be used as a U.S. benchmark interest rate for hedge accounting purposes, in addition to U.S. treasury rates and LIBOR. This ASU also removes the restriction on using different benchmark rates for similar hedges. This ASU applies to all

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

entities that elect to apply hedge accounting of the benchmark interest rate. This ASU is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The adoption of this update did not have a material effect on our consolidated financial position or results of operations.

Also in July 2013, the FASB issued ASU 2013-11, *Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU states that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows: To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013, with early adoption permitted. This ASU should be applied prospectively to all unrecognized tax benefits that exist at the effective date, with retrospective application permitted. We do not believe the adoption of this update will have a material impact on our consolidated financial position.

3. Variable Interest Entities (VIEs)

A consolidated subsidiary (the Venture) in our Global Investment Management segment has sponsored investments by third-party investors in certain commercial properties through the formation of tenant-in-common limited liability companies and Delaware Statutory Trusts (collectively referred to as the Entities) that are owned by the third-party investors. The Venture also has formed and is a member of a limited liability company for each property that serves as master tenant (Master Tenant). Each Master Tenant leases the property from the Entities through a master lease agreement. Pursuant to the master lease agreements, the Master Tenant has the power to direct the day-to-day asset management activities that most significantly impact the economic performance of the Entities. As a result, the Entities were deemed to be VIEs since the third-party investors holding the equity investment at risk in the Entities do not direct the day-to-day activities that most significantly impact the economic performance of the properties held by the Entities. The Venture has made and may continue to make voluntary contributions to each of these properties to support their operations beyond the cash flow generated by the properties themselves. As of the most recent reconsideration date, such financial support has been significant enough that the Venture was deemed to be the primary beneficiary of each Entity.

During the nine months ended September 30, 2012, the Venture funded \$0.2 million of financial support to the Entities.

Operating results relating to the Entities for the three and nine months ended September 30, 2013 and 2012 include the following (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Revenue	\$ 2,103	\$ 3,791	\$ 6,132	\$ 10,385
Operating, administrative and other expenses	\$ 1,154	\$ 2,121	\$ 3,200	\$ 6,146
Income from discontinued operations, net of income taxes	\$	\$	\$ 15,236	\$
Net (loss) income attributable to non-controlling interests	\$ (399)	\$ (887)	\$ 14,152	\$ (2,904)

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Investments in real estate of \$40.3 million and \$58.8 million and nonrecourse mortgage notes payable of \$41.6 million (\$0.9 million of which is current) and \$61.7 million (\$1.3 million of which is current) are included in real estate assets held for investment and notes payable on real estate, respectively, in the accompanying consolidated balance sheets as of September 30, 2013 and December 31, 2012, respectively. In addition, non-controlling deficits of \$1.4 million and \$2.7 million in the accompanying consolidated balance sheets as of September 30, 2013 and December 31, 2012, respectively, are attributable to the Entities.

We hold variable interests in certain VIEs in our Global Investment Management and Development Services segments which are not consolidated as it was determined that we are not the primary beneficiary. Our involvement with these entities is in the form of equity co-investments and fee arrangements.

In connection with our acquisition of Clarion Real Estate Securities (CRES) in 2011, we acquired CRES co-investments from ING Group N.V. in three funds (CRES Funds). In January 2012, one of the CRES Funds (CBRE Clarion U.S., L.P.) was converted to a registered mutual fund, the CBRE Clarion Long/Short Fund (the Fund). As a result of this triggering event, we determined that the Fund became a VIE and that we were not the primary beneficiary. Accordingly, in the first quarter of 2012, the Fund was deconsolidated from our consolidated financial statements and we recorded an investment in available for sale securities of \$14.3 million. No gain or loss was recognized in our consolidated statement of operations as a result of this deconsolidation. During the second quarter of 2013, we fully redeemed our investment in the Fund. We continue to act as the Fund's adviser, make investment decisions for the Fund and review, supervise and administer the Fund's investment program.

As of September 30, 2013 and December 31, 2012, our maximum exposure to loss related to the VIEs which are not consolidated was as follows (dollars in thousands):

	September 30, 2013	December 31, 2012
Investments in unconsolidated subsidiaries	\$ 33,381	\$ 47,869
Other assets, current	3,455	3,185
Available for sale securities		17,281
Co-investment commitments	199	9,202
Maximum exposure to loss	\$ 37,035	\$ 77,537

4. Fair Value Measurements

The *Fair Value Measurements and Disclosures* Topic of the FASB Accounting Standards Codification (ASC) (Topic 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

Level 2 Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

There were no significant transfers in and out of Level 1 and Level 2 during the three and nine months ended September 30, 2013 and 2012.

The following tables present the fair value of assets and liabilities measured at fair value on a recurring basis as of September 30, 2013 and December 31, 2012 (dollars in thousands):

	As of September 30, 2013

Interest rate swaps		48,022		48,022
 Total liabilities at fair value	 \$ 54,103	 \$ 48,022	 \$	 \$ 102,125

Fair value measurements for our available for sale securities are obtained from independent pricing services which utilize observable market data that may include quoted market prices, dealer quotes, market spreads, cash flows, the U.S. treasury yield curve, trading levels, market consensus prepayment speeds, credit information and the instrument's terms and conditions.

The trading securities and securities sold, not yet purchased are primarily in the U.S. and are generally valued at the last reported sales price on the day of valuation or, if no sales occurred on the valuation date, at the mean of the bid and asked prices on such date.

The fair values of the warehouse receivables are calculated based on already locked in security buy prices. At September 30, 2013 and December 31, 2012, all of the warehouse receivables included in the accompanying consolidated balance sheets were either under commitment to be purchased by Freddie Mac or had confirmed forward trade commitments for the issuance and purchase of Fannie Mae mortgage backed securities that will be secured by the underlying warehouse lines of credit. These assets are classified as Level 2 in the fair value hierarchy as all inputs are readily observable.

The valuation of interest rate swaps is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash payments and the discounted expected variable cash receipts. The variable cash receipts are based on an expectation of future interest rates (forward curves) derived from observable market interest rate forward curves. To comply with the provisions of Topic 820, we incorporate credit valuation adjustments to appropriately reflect both our own nonperformance risk and the respective

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of our derivative contracts for the effect of nonperformance risk, we have considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees. In conjunction with our adoption of ASU 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, we made an accounting policy election to measure the credit risk of our derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio. Although we have determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties. However, as of September 30, 2013, we have determined that the credit valuation adjustments are not significant to the overall valuation of our derivatives. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 in the fair value hierarchy.

There were no significant non-recurring fair value measurements recorded during the three and nine months ended September 30, 2013. The following non-recurring fair value measurements were recorded during the three and nine months ended September 30, 2012 (dollars in thousands):

	Net Carrying Value as of September 30, 2012	Fair Value Measured and Recorded Using			Total Impairment Charges for the Three and Nine Months Ended September 30, 2012
		Level 1	Level 2	Level 3	
Other intangible assets	\$	\$	\$	\$	\$ 19,826

Other Intangible Assets

During the three and nine months ended September 30, 2012, we recorded a non-amortizable intangible asset impairment of \$19.8 million in our EMEA segment. This non-cash write-off related to the discontinuation of the use of a trade name in the United Kingdom (U.K.).

FASB ASC Topic 825, *Financial Instruments* requires disclosure of fair value information about financial instruments, whether or not recognized in the accompanying consolidated balance sheets. Our financial instruments are as follows:

Cash and Cash Equivalents and Restricted Cash: These balances include cash and cash equivalents as well as restricted cash with maturities of less than three months. The carrying amount approximates fair value due to the short-term maturities of these instruments.

Receivables, less Allowance for Doubtful Accounts: Due to their short-term nature, fair value approximates carrying value.

Warehouse Receivables: These balances are carried at fair value based on market prices at the balance sheet date.

Trading and Available for Sale Securities: These investments are carried at their fair value.

Securities Sold, not yet Purchased: These liabilities are carried at their fair value.

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

Short-Term Borrowings: The majority of this balance represents our warehouse lines of credit and our revolving credit facility outstanding for CBRE Capital Markets, Inc. (CBRE Capital Markets). Due to the short-term nature and variable interest rates of these instruments, fair value approximates carrying value.

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Senior Secured Term Loans: Based upon information from third-party banks (which falls within Level 2 of the fair value hierarchy), the estimated fair value of our senior secured term loans was approximately \$696.3 million and \$1.6 billion at September 30, 2013 and December 31, 2012, respectively. Their actual carrying value totaled \$695.2 million and \$1.6 billion at September 30, 2013 and December 31, 2012, respectively (see Note 9).

Interest Rate Swaps: These liabilities are carried at their fair value as calculated by using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative (see Note 9).

5.00% Senior Notes: Based on dealers' quotes (which falls within Level 2 of the fair value hierarchy), the estimated fair value of our 5.00% senior notes was \$756.6 million at September 30, 2013. Their actual carrying value totaled \$800.0 million at September 30, 2013 (see Note 9).

6.625% Senior Notes: Based on dealers' quotes (which falls within Level 2 of the fair value hierarchy), the estimated fair value of our 6.625% senior notes was \$378.0 million and \$385.0 million at September 30, 2013 and December 31, 2012, respectively. Their actual carrying value totaled \$350.0 million at both September 30, 2013 and December 31, 2012.

11.625% Senior Subordinated Notes: Based on dealers' quotes (which falls within Level 2 of the fair value hierarchy), the estimated fair value of our 11.625% senior subordinated notes was \$488.8 million at December 31, 2012. Their actual carrying value totaled \$440.5 million at December 31, 2012. We redeemed these notes in full on June 15, 2013 (see Note 9).

Notes Payable on Real Estate: As of September 30, 2013 and December 31, 2012, the carrying value of our notes payable on real estate was \$151.0 million and \$326.0 million, respectively (see Note 8). These borrowings generally have floating interest rates at spreads over a market rate index. It is likely that some portion of our notes payable on real estate have fair values lower than actual carrying values. Given our volume of notes payable and the cost involved in estimating their fair value, we determined it was not practicable to do so. Additionally, only \$14.1 million and \$13.9 million of these notes payable were recourse to us as of September 30, 2013 and December 31, 2012, respectively.

Operating income	\$ 14,848	\$ 4,216	\$ 15,987	\$ 36,696
Net income (loss)	\$ 11,396	\$ (1,540)	\$ 18,748	\$ 18,431
Other:				
Revenue	\$ 48,580	\$ 41,930	\$ 117,417	\$ 111,907
Operating income	\$ 9,294	\$ 5,249	\$ 20,754	\$ 12,978
Net income	\$ 9,273	\$ 5,276	\$ 20,817	\$ 13,925
Total:				
Revenue	\$ 285,997	\$ 276,231	\$ 780,908	\$ 759,463
Operating loss	\$ (17,512)	\$ (104,735)	\$ (99,049)	\$ (71,413)
Net income (loss)	\$ 58,099	\$ (5,033)	\$ 94,304	\$ (6,070)

Our Global Investment Management segment involves investing our own capital in certain real estate investments with clients. We have provided investment management, property management, brokerage and other professional services in connection with these real estate investments on an arm's length basis and earned revenues from these unconsolidated subsidiaries. We have also provided development, property management and brokerage services to certain of our unconsolidated subsidiaries in our Development Services segment on an arm's length basis and earned revenues from these unconsolidated subsidiaries.

6. Real Estate and Other Assets Held for Sale and Related Liabilities

Real estate and other assets held for sale include completed real estate projects or land for sale in their present condition that have met all of the held for sale criteria of the *Property, Plant and Equipment* Topic of the FASB ASC (Topic 360) and other assets directly related to such projects. Liabilities related to real estate and other assets held for sale have been included as a single line item in the accompanying consolidated balance sheets.

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Real estate and other assets held for sale and related liabilities were as follows (dollars in thousands):

	September 30, 2013	December 31, 2012
Assets:		
Real estate held for sale (see Note 7)	\$ 40,857	\$ 116,822
Other current assets	717	4,921
Property and equipment, net		329
Other assets	898	8,427
Total real estate and other assets held for sale	42,472	130,499
Liabilities:		
Notes payable on real estate held for sale (see Note 8)	23,651	101,542
Accounts payable and accrued expenses	1,528	2,444
Other current liabilities	287	190
Other liabilities	740	451
Total liabilities related to real estate and other assets held for sale	26,206	104,627
Net real estate and other assets held for sale	\$ 16,266	\$ 25,872

7. Real Estate

We provide build-to-suit services for our clients and also develop or purchase certain projects which we intend to sell to institutional investors upon project completion or redevelopment. Therefore, we have ownership of real estate until such projects are sold or otherwise disposed. Certain real estate assets secure the outstanding balances of underlying mortgage or construction loans. Our real estate is reported in our Development Services and Global Investment Management segments and consisted of the following (dollars in thousands):

	September 30, 2013	December 31, 2012
Real estate included in assets held for sale (see Note 6)	\$ 40,857	\$ 116,822
Real estate under development (current)	16,169	
Real estate under development (non-current)	812	27,316
Real estate held for investment (1)	109,007	235,045
Total real estate (2)	\$ 166,845	\$ 379,183

(1) Net of accumulated depreciation of \$22.5 million and \$32.9 million at September 30, 2013 and December 31, 2012, respectively.

(2)

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

Includes balances for lease intangibles and tenant origination costs of \$5.5 million and \$0.1 million, respectively, at September 30, 2013 and \$8.0 million and \$1.5 million, respectively, at December 31, 2012. We record lease intangibles and tenant origination costs upon acquiring real estate projects with in-place leases. The balances are shown net of amortization, which is recorded as an increase to, or a reduction of, rental income for lease intangibles and as amortization expense for tenant origination costs.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

8. Notes Payable on Real Estate

We had loans secured by real estate, which consisted of the following (dollars in thousands):

	September 30, 2013	December 31, 2012
Current portion of notes payable on real estate	\$ 58,570	\$ 35,212
Notes payable on real estate included in liabilities related to real estate and other assets held for sale (see Note 6)	23,651	101,542
Total notes payable on real estate, current portion	82,221	136,754
Notes payable on real estate, non-current portion	68,805	189,258
Total notes payable on real estate	\$ 151,026	\$ 326,012

At September 30, 2013 and December 31, 2012, \$11.8 million and \$11.3 million, respectively, of the current portion of notes payable on real estate and \$2.3 million and \$2.6 million, respectively, of the non-current portion of notes payable on real estate were recourse to us, beyond being recourse to the single-purpose entity that held the real estate asset and was the primary obligor on the note payable.

9. Debt

Since 2001, we have maintained credit facilities with Credit Suisse Group AG (CS) and other lenders to fund strategic acquisitions and to provide for our working capital needs. During the nine months ended September 30, 2013, we completed a series of financing transactions, which included the repayment of \$1.6 billion of our senior secured term loans under our previous credit agreement. On March 28, 2013, we entered into a new credit agreement (the Credit Agreement) with a syndicate of banks led by CS, as administrative and collateral agent, to completely refinance our previous credit agreement.

As of September 30, 2013, our Credit Agreement provides for the following: (1) a \$1.2 billion revolving credit facility, including revolving credit loans, letters of credit and a swingline loan facility, maturing on March 28, 2018; (2) a \$500.0 million tranche A term loan facility (of which \$300.0 million was on an optional delayed-draw basis for up to 120 days from March 28, 2013, which we drew down in June 2013 to partially fund the redemption of the 11.625% senior subordinated notes) requiring quarterly principal payments, which began on June 30, 2013 and continue through maturity on March 28, 2018; and (3) a \$215.0 million tranche B term loan facility requiring quarterly principal payments, which began on June 30, 2013 and continue through December 31, 2020, with the balance payable at maturity on March 28, 2021.

The revolving credit facility allows for borrowings outside of the United States (U.S.), with a \$10.0 million sub-facility available to one of our Canadian subsidiaries, a \$35.0 million sub-facility available to one of our Australian subsidiaries and one of our New Zealand subsidiaries, and a \$150.0 million sub-facility available to one of our U.K. subsidiaries. Additionally, outstanding borrowings under these sub-facilities may be up to 5.0% higher as allowed under the currency fluctuation provision in the Credit Agreement. Borrowings under the revolving credit facility as of September 30, 2013 bear interest at varying rates, based at our option, on either the applicable fixed rate plus 1.15% to 2.25% or the daily rate plus 0.125% to 1.25% as determined by reference to our ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement). As of September 30, 2013 and December 31, 2012, we had \$89.9 million and \$73.0 million, respectively, of revolving credit facility principal outstanding with related weighted average interest rates of 2.6% and 3.2%, respectively, which are included in short-term borrowings in the accompanying consolidated balance sheets. As of September 30, 2013,

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

letters of credit totaling \$11.7 million were outstanding under the revolving credit facility. These letters of credit were primarily issued in the normal course of business as well as in connection with certain insurance programs and reduce the amount we may borrow under the revolving credit facility.

Borrowings under the term loan facilities as of September 30, 2013 bear interest, based at our option, on the following: for the tranche A term loan facility, on either the applicable fixed rate plus 1.50% to 2.75% or the daily rate plus 0.50% to 1.75%, as determined by reference to our ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement) and for the tranche B term loan facility, on either the applicable fixed rate plus 2.75% or the daily rate plus 1.75%. As of September 30, 2013, we had \$695.2 million of term loan facilities principal outstanding (including \$481.3 million of tranche A term loan facility and \$213.9 million of tranche B term loan facility), which are included in the accompanying consolidated balance sheets. As of December 31, 2012, we had \$1.6 billion of term loan facilities principal outstanding under our previous credit agreement (including \$271.2 million, \$275.2 million, \$293.3 million, \$394.0 million, and \$394.0 million, respectively, of tranche A, tranche A-1, tranche B, tranche C and tranche D term loan facilities principal outstanding), which are also included in the accompanying consolidated balance sheets.

In March 2011, we entered into five interest rate swap agreements, all with effective dates in October 2011, and immediately designated them as cash flow hedges in accordance with FASB ASC Topic 815, *Derivatives and Hedging*. The purpose of these interest rate swap agreements is to hedge potential changes to our cash flows due to the variable interest nature of our senior secured term loan facilities. The total notional amount of these interest rate swap agreements is \$400.0 million, with \$200.0 million expiring in October 2017 and \$200.0 million expiring in September 2019. There was no significant hedge ineffectiveness for the three and nine months ended September 30, 2013 and 2012. We recorded a net loss of \$0.4 million and a net gain of \$14.7 million, respectively, during the three and nine months ended September 30, 2013 and net losses of \$3.2 million and \$10.3 million, respectively, during the three and nine months ended September 30, 2012 to other comprehensive income/loss in relation to such interest rate swap agreements. As of September 30, 2013 and December 31, 2012, the fair values of these interest rate swap agreements were reflected as a \$33.3 million liability and a \$48.0 million liability, respectively, and were included in other long-term liabilities in the accompanying consolidated balance sheets.

The Credit Agreement is jointly and severally guaranteed by us and substantially all of our domestic subsidiaries. Borrowings under our Credit Agreement are secured by a pledge of substantially all of the capital stock of our U.S. subsidiaries and 65.0% of the capital stock of certain non-U.S. subsidiaries. Also, the Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment.

On March 14, 2013, CBRE Services, Inc. (CBRE), our wholly-owned subsidiary, issued \$800.0 million in aggregate principal amount of 5.00% senior notes due March 15, 2023. The 5.00% notes are unsecured obligations of CBRE, senior to all of its current and future subordinated indebtedness, but effectively subordinated to all of its current and future secured indebtedness. The 5.00% notes are jointly and severally guaranteed on a senior basis by us and each subsidiary of CBRE that guarantees our Credit Agreement. Interest accrues at a rate of 5.00% per year and is payable semi-annually in arrears on March 15 and September 15, beginning on September 15, 2013. The 5.00% senior notes are redeemable at our option, in whole or in part, on or after March 15, 2018 at a redemption price of 102.5% of the principal amount on that date and at declining prices thereafter. At any time prior to March 15, 2016, we may redeem up to 35.0% of the original principal amount of the 5.00% senior notes using the net cash proceeds from certain public offerings. In addition, at any time prior to March 15, 2018, the 5.00% senior notes may be redeemed by us, in whole or in part, at a redemption price equal to 100.0% of the principal amount, plus accrued and unpaid interest, if any, to the date of redemption, and an applicable premium (as defined in the indenture governing these notes), which is based on the excess of

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

the present value of the March 15, 2018 redemption price plus all remaining interest payments through March 15, 2018, over the principal amount of the 5.00% senior notes on such redemption date. If a change of control triggering event (as defined in the indenture governing these notes) occurs, we are obligated to make an offer to purchase the then outstanding 5.00% senior notes at a redemption price of 101.0% of the principal amount, plus accrued and unpaid interest. The amount of the 5.00% senior notes included in the accompanying consolidated balance sheets was \$800.0 million at September 30, 2013.

Our Credit Agreement and the indentures governing our 5.00% senior notes and 6.625% senior notes contain numerous restrictive covenants that, among other things, limit our ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens on assets, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. Our Credit Agreement also currently requires us to maintain a minimum coverage ratio of EBITDA (as defined in the Credit Agreement) to total interest expense of 2.00x and a maximum leverage ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement) of 4.25x. Our coverage ratio of EBITDA to total interest expense was 7.86x for the trailing twelve months ended September 30, 2013 and our leverage ratio of total debt less available cash to EBITDA was 1.46x as of September 30, 2013.

On June 18, 2009, CBRE issued \$450.0 million in aggregate principal amount of 11.625% senior subordinated notes due June 15, 2017 for approximately \$435.9 million, net of discount. The 11.625% senior subordinated notes were unsecured senior subordinated obligations of CBRE and were jointly and severally guaranteed on a senior subordinated basis by us and our domestic subsidiaries that guarantee our Credit Agreement. Interest accrued at a rate of 11.625% per year and was payable semi-annually in arrears on June 15 and December 15. As permitted by the indenture governing these notes, on June 15, 2013, we redeemed all of the 11.625% senior subordinated notes. In connection with this early redemption, we paid a premium of \$26.2 million and wrote off \$16.1 million of unamortized deferred financing costs and unamortized discount. The amount of the 11.625% senior subordinated notes included in the accompanying consolidated balance sheets, net of unamortized discount, was \$440.5 million at December 31, 2012.

10. Commitments and Contingencies

We are a party to a number of pending or threatened lawsuits arising out of, or incident to, our ordinary course of business. Our management believes that any losses in excess of the amounts accrued arising from such lawsuits are remote, but that litigation is inherently uncertain and there is the potential for a material adverse effect on our financial statements if one or more matters are resolved in a particular period in an amount in excess of that anticipated by management.

We had outstanding letters of credit totaling \$13.3 million as of September 30, 2013, excluding letters of credit for which we have outstanding liabilities already accrued on our consolidated balance sheet related to our subsidiaries' outstanding reserves for claims under certain insurance programs as well as letters of credit related to operating leases. These letters of credit are primarily executed by us in the ordinary course of business and expire at varying dates through July 2014.

We had guarantees totaling \$20.6 million as of September 30, 2013, excluding guarantees related to pension liabilities, consolidated indebtedness and other obligations for which we have outstanding liabilities already accrued on our consolidated balance sheet, and operating leases. The \$20.6 million primarily consists of guarantees related to our defined benefit pension plans in the United Kingdom (U.K.) (in excess of our outstanding pension liability of \$60.8 million as of September 30, 2013), which are continuous guarantees that

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

will not expire until all amounts have been paid out for our pension liabilities. The remainder of the guarantees mainly represents guarantees of obligations of unconsolidated subsidiaries, which expire at varying dates through December 2016, as well as various guarantees of management contracts in our operations overseas, which expire at the end of each of the respective agreements.

In addition, as of September 30, 2013, we had numerous completion and budget guarantees relating to development projects. These guarantees are made by us in the ordinary course of our Development Services business. Each of these guarantees requires us to complete construction of the relevant project within a specified timeframe and/or within a specified budget, with us potentially being liable for costs to complete in excess of such timeframe or budget. However, we generally have guaranteed maximum price contracts with reputable general contractors with respect to projects for which we provide these guarantees. These contracts are intended to pass the risk to such contractors. While there can be no assurance, we do not expect to incur any material losses under these guarantees.

In January 2008, CBRE Multifamily Capital, Inc. (CBRE MCI), a wholly-owned subsidiary of CBRE Capital Markets, entered into an agreement with Federal National Mortgage Association (Fannie Mae), under Fannie Mae's Delegated Underwriting and Servicing Lender Program (DUS Program), to provide financing for multifamily housing with five or more units. Under the DUS Program, CBRE MCI originates, underwrites, closes and services loans without prior approval by Fannie Mae, and in selected cases, is subject to sharing up to one-third of any losses on loans originated under the DUS Program. CBRE MCI has funded loans subject to such loss sharing arrangements with unpaid principal balances of \$7.1 billion at September 30, 2013. Additionally, CBRE MCI has funded loans under the DUS Program that are not subject to loss sharing arrangements with unpaid principal balances of approximately \$369.9 million at September 30, 2013. CBRE MCI, under its agreement with Fannie Mae, must post cash reserves under formulas established by Fannie Mae to provide for sufficient capital in the event losses occur. As of September 30, 2013 and December 31, 2012, CBRE MCI had \$14.6 million and \$9.1 million, respectively, of cash deposited under this reserve arrangement, and had provided approximately \$12.5 million and \$10.6 million, respectively, of loan loss accruals. Fannie Mae's recourse under the DUS Program is limited to the assets of CBRE MCI, which totaled approximately \$182.6 million (including \$56.0 million of warehouse receivables, a substantial majority of which are pledged against warehouse lines of credit and are therefore not available to Fannie Mae) at September 30, 2013.

An important part of the strategy for our Global Investment Management business involves investing our capital in certain real estate investments with our clients. These co-investments typically range from 2.0% to 5.0% of the equity in a particular fund. As of September 30, 2013, we had aggregate commitments of \$30.3 million to fund future co-investments.

Additionally, an important part of our Development Services business strategy is to invest in unconsolidated real estate subsidiaries as a principal (in most cases co-investing with our clients). As of September 30, 2013, we had committed to fund \$13.4 million of additional capital to these unconsolidated subsidiaries.

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

11. Income Per Share Information

The following is a calculation of income per share (dollars in thousands, except share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Computation of basic income per share attributable to CBRE Group, Inc. shareholders:				
Net income attributable to CBRE Group, Inc. shareholders	\$ 94,444	\$ 39,709	\$ 201,892	\$ 142,557
Weighted average shares outstanding for basic income per share	328,307,961	322,331,850	327,502,672	321,289,017
Basic income per share attributable to CBRE Group, Inc. shareholders	\$ 0.29	\$ 0.12	\$ 0.62	\$ 0.44

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Computation of diluted income per share attributable to CBRE Group, Inc. shareholders:				
Net income attributable to CBRE Group, Inc. shareholders	\$ 94,444	\$ 39,709	\$ 201,892	\$ 142,557
Weighted average shares outstanding for basic income per share	328,307,961	322,331,850	327,502,672	321,289,017
Dilutive effect of contingently issuable shares	3,172,943	3,377,782	3,216,664	3,377,132
Dilutive effect of stock options	580,498	1,599,709	784,714	1,714,299
Weighted average shares outstanding for diluted income per share	332,061,402	327,309,341	331,504,050	326,380,448
Diluted income per share attributable to CBRE Group, Inc. shareholders	\$ 0.28	\$ 0.12	\$ 0.61	\$ 0.44

For the three and nine months ended September 30, 2012, 2,261,549 and 2,257,069 contingently issuable shares, respectively, were excluded from the computation of diluted earnings per share because their inclusion would have had an anti-dilutive effect. For the three and nine months ended September 30, 2013 and 2012, options to purchase 54,958 shares and 103,423 shares, respectively, of common stock were also excluded from the computation of diluted earnings per share because their inclusion would have had an anti-dilutive effect.

12. Pensions

We have two contributory defined benefit pension plans in the U.K., which we acquired in connection with previous acquisitions. Our subsidiaries based in the U.K. maintain the plans to provide retirement benefits to existing and former employees participating in these plans. During 2007, we reached agreements with the active members of these plans to freeze future pension plan benefits. In return, the active members became eligible to enroll in the CBRE Group Personal Pension Plan, a defined contribution plan in the U.K.

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

Net periodic pension cost consisted of the following (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Interest cost	\$ 3,774	\$ 3,869	\$ 11,429	\$ 11,627
Expected return on plan assets	(3,848)	(3,597)	(11,585)	(10,831)
Amortization of unrecognized net loss	601	582	1,821	1,750
Net periodic pension cost	\$ 527	\$ 854	\$ 1,665	\$ 2,546

We contributed \$1.3 million and \$3.9 million to fund our pension plans during the three and nine months ended September 30, 2013, respectively. We expect to contribute a total of \$5.2 million to fund our pension plans for the year ending December 31, 2013.

13. Discontinued Operations

In the ordinary course of business, we dispose of real estate assets, or hold real estate assets for sale, that may be considered components of an entity in accordance with Topic 360. If we do not have, or expect to have, significant continuing involvement with the operation of these real estate assets after disposition, we are required to recognize operating profits or losses and gains or losses on disposition of these assets as discontinued operations in our consolidated statements of operations in the periods in which they occur. Real estate operations and dispositions accounted for as discontinued operations for the nine months ended September 30, 2013 were reported in our Global Investment Management and Development Services segments as follows (dollars in thousands):

Revenue	\$ 8,934
Costs and expenses:	
Operating, administrative and other	4,899
Depreciation and amortization	870
Total costs and expenses	5,769
Gain on disposition of real estate	25,640
Operating income	28,805
Interest expense	3,147
Income from discontinued operations, before provision for income taxes	25,658
Provision for income taxes	1,364
Income from discontinued operations, net of income taxes	24,294
Less: Income from discontinued operations attributable to non-controlling interests	22,213
Income from discontinued operations attributable to CBRE Group, Inc.	\$ 2,081

14. Segments

We report our operations through the following segments: (1) Americas, (2) EMEA, (3) Asia Pacific, (4) Global Investment Management and (5) Development Services.

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

The Americas segment is our largest segment of operations and provides a comprehensive range of services throughout the U.S. and in the largest regions of Canada and key markets in Latin America. The primary services offered consist of the following: real estate services, mortgage loan origination and servicing, valuation services, asset services and corporate services.

Our EMEA and Asia Pacific segments provide services similar to the Americas business segment. The EMEA segment has operations primarily in Europe, while the Asia Pacific segment has operations primarily in Asia, Australia and New Zealand.

Our Global Investment Management business provides investment management services to clients seeking to generate returns and diversification through direct and indirect investments in real estate in North America, Europe and Asia.

Our Development Services business consists of real estate development and investment activities primarily in the U.S.

Summarized financial information by segment is as follows (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Revenue				
Americas	\$ 1,105,768	\$ 996,380	\$ 3,145,341	\$ 2,855,899

Asia Pacific	202,701	199,950	617,262	568,396
Global Investment Management	127,337	114,306	369,088	359,180
Development Services	12,564	17,774	34,845	50,411
	\$ 1,733,866	\$ 1,557,147	\$ 4,950,943	\$ 4,508,253

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
EBITDA				
Americas	\$ 132,195	\$ 128,749	\$ 401,852	\$ 379,304
EMEA	17,735	(8,141)	28,930	507
Asia Pacific	13,056	16,448	44,916	42,047
Global Investment Management	55,396	22,658	127,723	77,925
Development Services	6,011	3,839	21,206	16,108
	\$ 224,393	\$ 163,553	\$ 624,627	\$ 515,891

EBITDA represents earnings before net interest expense, write-off of financing costs, income taxes, depreciation and amortization. Our management believes EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry because the calculation of EBITDA generally eliminates the effects of financing and income taxes and the accounting effects of capital spending and acquisitions, which would include impairment charges of goodwill and intangibles created from acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. As a result, our management uses EBITDA as a measure to evaluate the operating performance of our various business

Table of Contents

CBRE GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

segments and for other discretionary purposes, including as a significant component when measuring our operating performance under our employee incentive programs. Additionally, we believe EBITDA is useful to investors to assist them in getting a more complete picture of our results from operations.

However, EBITDA is not a recognized measurement under GAAP and when analyzing our operating performance, readers should use EBITDA in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA is not intended to be a measure of free cash flow for our management's discretionary use, as it does not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

Net interest expense has been expensed in the segment incurred. Provision for (benefit of) income taxes has been allocated among our segments by using applicable U.S. and foreign effective tax rates. EBITDA for our segments is calculated as follows (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2013	2012	2013	2012
Americas				
Net income attributable to CBRE Group, Inc.	\$ 58,273	\$ 48,403	\$ 138,886	\$ 142,634

15. Guarantor and Nonguarantor Financial Statements

The following condensed consolidating financial information includes:

(1) Condensed consolidating balance sheets as of September 30, 2013 and December 31, 2012; condensed consolidating statements of operations for the three and nine months ended September 30, 2013 and 2012; condensed consolidating statements of comprehensive income for the three and nine months ended September 30, 2013 and 2012; and condensed consolidating statements of cash flows for the nine months ended September 30, 2013 and 2012, of (a) CBRE Group, Inc. as the parent, (b) CBRE as the subsidiary issuer, (c) the guarantor subsidiaries, (d) the nonguarantor subsidiaries and (e) CBRE Group, Inc. on a consolidated basis; and

(2) Elimination entries necessary to consolidate CBRE Group, Inc. as the parent, with CBRE and its guarantor and nonguarantor subsidiaries.

Investments in consolidated subsidiaries are presented using the equity method of accounting. The principal elimination entries eliminate investments in consolidated subsidiaries and intercompany balances and transactions.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q for CBRE Group, Inc. for the three months ended September 30, 2013 represents an update to the more detailed and comprehensive disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2012. Accordingly, you should read the following discussion in conjunction with the information included in our Annual Report on Form 10-K as well as the unaudited financial statements included elsewhere in this Quarterly Report on Form 10-Q.

In addition, the statements and assumptions in this Quarterly Report on Form 10-Q that are not statements of historical fact are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 or Section 21E of the Securities Exchange Act of 1934, each as amended, including, in particular, statements about our plans, strategies and prospects as well as estimates of industry growth for the fourth quarter and beyond. For important information regarding these forward-looking statements, please see the discussion below under the caption "Cautionary Note on Forward-Looking Statements."

Overview

We are the world's largest commercial real estate services and investment firm, based on 2012 revenue, with leading full-service operations in major metropolitan areas throughout the world. We offer a full range of services to occupiers, owners, lenders and investors in office, retail, industrial, multifamily and other types of commercial real estate. As of December 31, 2012, excluding independent affiliates, we operated in more than 300 offices worldwide, with approximately 37,000 employees providing commercial real estate services under the CBRE brand name, investment management services under the CBRE Global Investors brand name and development services under the Trammell Crow brand name. Our business is focused on several competencies, including commercial property and corporate facilities management, occupier and property/agency leasing, property sales, real estate investment management, valuation, commercial mortgage origination and servicing, capital markets (equity and debt) solutions, development services and proprietary research. We generate revenue from management fees on a contractual and per-project basis, and from commissions on transactions. We have been the only commercial real estate services company in the S&P 500 since 2006, and in the *Fortune* 500 since 2008. In September 2013, we were named the Global Real Estate Advisor of the Year by *Euromoney* for the second consecutive year. Earlier in 2013, we were voted the highest-ranked commercial real estate services company among the *Fortune* Most Admired Companies, and the highest-ranked real estate outsourcing company by the International Association of Outsourcing Professionals (IAOP). We also achieved the *Fortune* and IAOP distinctions in 2012.

When you read our financial statements and the information included in this Quarterly Report, you should consider that we have experienced, and continue to experience, several material trends and uncertainties that have affected our financial condition and results of operations that make it challenging to predict our future performance based on our historical results. We believe that the following material trends and uncertainties are crucial to an understanding of the variability in our historical earnings and cash flows and the potential for continued variability in the future:

Macroeconomic Conditions

Economic trends and government policies affect global and regional commercial real estate markets as well as our operations directly. These include: overall economic activity and employment growth, interest rate levels, the cost and availability of credit and the impact of tax and regulatory policies. Periods of economic weakness or recession, significantly rising interest rates, fiscal uncertainty, declining employment levels, decreasing demand for commercial real estate, falling real estate values, disruption to the global capital or credit markets, or the public perception that any of these events may occur, may negatively affect the performance of some or all of our business lines. From late 2007 through 2009, the severe global economic downturn and credit market crisis had

Table of Contents

significant adverse effects on our operations and materially reduced our revenue from property management fees and commissions derived from property sales, leasing, valuation and financing, and reduced the funds available to invest in commercial real estate and related assets. These negative trends began to reverse in early 2010 and commercial real estate markets have improved gradually for the past three-plus years in step with the slow recovery of global economic activity.

Weak economic conditions from late 2007 through 2009 also affected our compensation expense, which is structured to generally decrease in line with a fall in revenue. Compensation is our largest expense and the sales and leasing professionals in our largest line of business, advisory services, generally are paid on a commission and bonus basis that correlates with their revenue production. As a result, the negative effect of difficult market conditions on our operating margins was partially mitigated by the inherent variability of our compensation cost structure. In addition, when negative economic conditions are particularly severe, as they were in 2008 and 2009, we have moved decisively to improve financial performance by lowering operating expenses. As general economic conditions and our financial performance improved, we restored certain expenses beginning in 2010. Notwithstanding the slow market recovery, challenges to the macro economy remain, and a return of adverse global and regional economic trends is one of the most significant risks to the performance of our operations and our financial condition.

During the downturn, economic conditions first began to negatively affect our performance in the Americas, our largest segment in terms of revenue, beginning in the third quarter of 2007. The effects became more severe as the decline in economic activity (particularly in the United States) accelerated throughout 2008 and most of 2009. The global capital markets disruption in late 2008, in particular, caused a significant and prolonged decline in property sales, leasing, financing and investment activity that adversely affected all our business lines. Commercial real estate fundamentals began to stabilize in early 2010 and have steadily improved for the past three years, driven by slow but positive economic growth in the United States. Reflecting this gradual recovery, there has been modest, steady improvement in vacancy rates and rental rates across the United States, while the increased availability of low-cost credit and investors' search for yield have sustained increases in property sales activity. Overall, however, occupiers and investors have remained cautious and both sales and leasing activity continue to be well below the levels experienced in 2006 and 2007.

In Europe, weak market conditions first became evident in the United Kingdom in late 2007 and in countries on the continent in early 2008. The major European economies fell into recession in 2008, which deepened and persisted throughout 2009. Economic activity improved briefly in 2010, but weakened again from 2011 to early 2013, due to the effects of the European sovereign debt issues and the recessionary macro environment across most of the region. The European economy has picked up in 2013, with most countries returning to positive, though modest, growth in the second half of the year. The investment sales market in Europe has followed a similar pattern. After recovering strongly from the financial crisis in 2010, investment sales were tepid across much of Europe in 2011 and 2012, but activity has improved in 2013. However, leasing activity has remained slow, and rents essentially flat, across many major markets in Europe, as occupiers have been reluctant to make long-term space commitments.

Real estate markets in Asia Pacific were also affected, though generally to a lesser degree than in the United States and Europe, by the global credit market dislocation and economic downturn in 2008 and 2009, resulting in lower investment sales and leasing activity in the region. Transaction activity in Asia Pacific revived significantly in late 2009 and remained strong through late 2011. However, leasing activity has been subdued since then, as multi-national corporations, in particular, have been hesitant to expand in the region. Investment markets have improved in 2013, following a softening in 2012.

Real estate investment management and property development activity were also adversely affected by deteriorating conditions beginning in late 2007, which lowered property values, and constrained financing and disposition opportunities. However, the macro environment for these businesses has generally improved as the real estate credit and investment sales markets have gradually recovered since 2010.

Table of Contents

The further recovery of our global sales, leasing, investment management and development services operations depends on the continued improvement of market fundamentals, including more robust economic growth and job creation; stable and healthy global credit markets; and improved business and investor sentiment.

Effects of Acquisitions

Our management historically has made significant use of strategic acquisitions to add new service competencies, to increase our scale within existing competencies and to expand our presence in various geographic regions around the world. In December 2006, we acquired the Trammell Crow Company (the Trammell Crow Company Acquisition), our largest acquisition to date, which deepened our outsourcing services offerings for corporate and institutional clients, especially project and facilities management, strengthened our ability to provide integrated management solutions across geographies, and established resources and expertise to offer real estate development services throughout the United States. In 2011, we acquired the majority of the real estate investment management business of Netherlands-based ING Group N.V. (ING), which bolstered our global real estate investment management business and further diversified our service offerings. The acquisitions of the ING businesses (collectively referred to as the REIM Acquisitions) included substantially all of ING's Real Estate Investment Management (REIM) operations in Europe and Asia, as well as substantially all of Clarion Real Estate Securities (CRES), its U.S.-based global real estate listed securities business, along with certain CRES co-investments from ING and additional interests in other funds managed by ING REIM Europe and ING REIM Asia.

Strategic in-fill acquisitions have also played a key role in expanding our geographic coverage and broadening and strengthening our service offerings. The companies we acquired have generally been quality regional or specialty firms that complement our existing platform within a region, or affiliates in which, in some cases, we held a small equity interest. From 2005 to 2010, we completed 60 in-fill acquisitions for an aggregate purchase price of approximately \$601 million, with most of these completed before the recession in 2008. In 2011, we completed five in-fill acquisitions, including a valuation business in Australia, a retail property management business in central and eastern Europe, our former affiliate company in Switzerland, a retail services business in the United Kingdom and a shopping center management business in the Netherlands. During 2012, we completed five in-fill acquisitions, including our former affiliate companies in Turkey and Vietnam, a niche real estate investment advisor and an independent commercial and residential property partnership in the United Kingdom, and a brokerage and property management firm in Atlanta, Georgia. During the nine months ended September 30, 2013, we completed four in-fill acquisitions, including two property management specialist firms—one in the Czech Republic and Slovakia and one in Belgium, a retail real estate services firm in the U.S. Mid-Atlantic region, and a majority stake in a property management firm in Sweden. As market conditions continue to improve, we believe acquisitions will once again serve as a growth engine, supplementing our organic growth.

Although our management believes that strategic acquisitions can significantly decrease the cost, time and commitment of management resources necessary to attain a meaningful competitive position within targeted markets or to expand our presence within our current markets, in general, most acquisitions will initially have an adverse impact on our operating and net income, both as a result of transaction-related expenditures, which include severance, lease termination, transaction and deferred financing costs, among others, and the charges and costs of integrating the acquired business and its financial and accounting systems into our own. For example, through September 30, 2013, we incurred \$258.9 million of transaction-related expenditures and integration costs in connection with the Trammell Crow Company Acquisition and \$110.3 million of transaction-related expenditures and integration costs in connection with the REIM Acquisitions.

International Operations

As we increase our international operations through either acquisitions or organic growth, fluctuations in the value of the U.S. dollar relative to the other currencies in which we may generate earnings could adversely affect our business, financial condition and operating results. Our management team generally seeks to mitigate our

Table of Contents

exposure by balancing assets and liabilities that are denominated in the same currency and by maintaining cash positions outside the United States only at levels necessary for operating purposes. In addition, from time to time we enter into foreign currency exchange contracts to mitigate our exposure to exchange rate changes related to particular transactions and to hedge risks associated with the translation of foreign currencies into U.S. dollars.

Our Global Investment Management business has a significant amount of Euro-denominated assets under management, or AUM, as well as associated revenue and earnings in Europe, which has seen continuing sovereign debt issues resulting in a more pronounced movement in the value of the Euro against the U.S. dollar. Fluctuations in foreign currency exchange rates have resulted and may continue to result in corresponding fluctuations in our AUM, revenue and earnings.

Due to the constantly changing currency exposures to which we are subject and the volatility of currency exchange rates, we cannot predict the effect of exchange rate fluctuations upon future operating results. In addition, fluctuations in currencies relative to the U.S. dollar may make it more difficult to perform period-to-period comparisons of our reported results of operations.

Our international operations also are subject to, among other things, political instability and changing regulatory environments, which may adversely affect our future financial condition and results of operations. Our management routinely monitors these risks and related costs and evaluates the appropriate amount of resources to allocate towards business activities in foreign countries where such risks and costs are particularly significant.

Leverage

We are leveraged and have significant debt service obligations. As of September 30, 2013, our total debt, excluding our notes payable on real estate (which are generally nonrecourse to us) and warehouse lines of credit (which are recourse only to our wholly-owned subsidiary, CBRE Capital Markets, Inc., or CBRE Capital Markets, and are secured by our related warehouse receivables), was approximately \$1.9 billion.

Our level of indebtedness and the operating and financial restrictions in our debt agreements place constraints on the operation of our business. Although our management believes that long-term indebtedness has been an important lever in the development of our business, including facilitating the Trammell Crow Company Acquisition and the REIM Acquisitions, the cash flow necessary to service this debt is not available for other general corporate purposes, which may limit our flexibility in planning for, or reacting to, changes in our business and in the commercial real estate services industry. Our management seeks to mitigate this exposure both through the refinancing of debt when available on attractive terms and through selective repayment and retirement of indebtedness.

For example, during the nine months ended September 30, 2013, we completed a series of financing transactions that have meaningfully extended debt maturities, lowered annual interest expense by approximately \$50 million when compared to annualized interest expense before the refinancing actions, and increased our financial flexibility. These transactions included the amendment and restatement of our credit agreement, which now provides for a \$715.0 million term loan facility and an expanded \$1.2 billion revolving credit facility (of which \$89.9 million was drawn at September 30, 2013), the issuance of \$800.0 million aggregate principal amount of 5.00% senior notes due March 15, 2023 and the redemption of all of the 11.625% senior subordinated notes totaling \$450.0 million. During the nine months ended September 30, 2013, in connection with all of these financing activities, we incurred approximately \$28.6 million of financing costs, of which \$3.7 million was expensed. In addition, we expensed \$17.8 million of previously-deferred financing costs as well as a \$26.2 million early extinguishment premium and \$8.7 million of unamortized original issue discount associated with the 11.625% senior subordinated notes.

Critical Accounting Policies

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States, which require management to make estimates and assumptions that affect reported amounts. The estimates and assumptions are based on historical experience and on other factors

Table of Contents

that management believes to be reasonable. Actual results may differ from those estimates. Critical accounting policies represent the areas where more significant judgments and estimates are used in the preparation of our consolidated financial statements. A discussion of such critical accounting policies, which include revenue recognition, our consolidation policy, goodwill and other intangible assets, real estate and income taxes can be found in our Annual Report on Form 10-K for the year ended December 31, 2012. There have been no material changes to these policies as of September 30, 2013.

Results of Operations

The following table sets forth items derived from our consolidated statements of operations for the three and nine months ended September 30, 2013 and 2012, presented in dollars and as a percentage of revenue (dollars in thousands):

	Three Months Ended September 30, 2013			Three Months Ended September 30, 2012			Nine Months Ended September 30, 2013			Nine Months Ended September 30, 2012		
Revenue	\$ 1,733,866	100.0%		\$ 1,557,147	100.0%		\$ 4,950,943	100.0%		\$ 4,508,253	100.0%

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

(1) Includes EBITDA related to discontinued operations of \$7.4 million for the nine months ended September 30, 2013. EBITDA represents earnings before net interest expense, write-off of financing costs, income taxes, depreciation and amortization, while amounts shown for EBITDA, as adjusted, remove the impact of certain cash and non-cash charges related to acquisitions and cost containment expenses, as well as certain carried interest

Table of Contents

incentive compensation expense. Our management believes that both of these measures are useful in evaluating our operating performance compared to that of other companies in our industry because the calculations of EBITDA and EBITDA, as adjusted, generally eliminate the effects of financing and income taxes and the accounting effects of capital spending and acquisitions, which would include impairment charges of goodwill and intangibles created from acquisitions. Such items may vary for different companies for reasons unrelated to overall operating performance. As a result, our management uses these measures to evaluate operating performance and for other discretionary purposes, including as a significant component when measuring our operating performance under our employee incentive programs. Additionally, we believe EBITDA and EBITDA, as adjusted, are useful to investors to assist them in getting a more complete picture of our results from operations.

However, EBITDA and EBITDA, as adjusted, are not recognized measurements under U.S. generally accepted accounting principles, or GAAP, and when analyzing our operating performance, readers should use EBITDA and EBITDA, as adjusted, in addition to, and not as an alternative for, net income as determined in accordance with GAAP. Because not all companies use identical calculations, our presentation of EBITDA and EBITDA, as adjusted, may not be comparable to similarly titled measures of other companies. Furthermore, EBITDA and EBITDA, as adjusted, are not intended to be measures of free cash flow for our management's discretionary use, as they do not consider certain cash requirements such as tax and debt service payments. The amounts shown for EBITDA and EBITDA, as adjusted, also differ from the amounts calculated under similarly titled definitions in our debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used to determine compliance with financial covenants and our ability to engage in certain activities, such as incurring additional debt and making certain restricted payments.

EBITDA and EBITDA, as adjusted for selected charges are calculated as follows (dollars in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

- (4) Includes EBITDA related to discontinued operations of \$7.4 million for the nine months ended September 30, 2013.

Table of Contents

Three Months Ended September 30, 2013 Compared to the Three Months Ended September 30, 2012

We reported consolidated net income of \$94.4 million for the three months ended September 30, 2013 on revenue of \$1.7 billion as compared to consolidated net income of \$39.7 million on revenue of \$1.6 billion for the three months ended September 30, 2012.

Our revenue on a consolidated basis for the three months ended September 30, 2013 increased by \$176.7 million, or 11.3%, as compared to the three months ended September 30, 2012. This increase was primarily driven by higher worldwide sales (up 31.9%), leasing (up 12.8%) and property, facilities and project management (up 10.4%) activity. Additionally, carried interest revenue earned in our Global Investment Management segment also contributed to the positive variance. These items were partially offset by lower rental revenue (down 57.7%), lower commercial mortgage brokerage revenue (down 9.7%) and foreign currency translation, which had a \$25.3 million negative impact on total revenue during the three months ended September 30, 2013.

Our cost of services on a consolidated basis increased by \$117.1 million, or 12.8%, during the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. Our sales professionals generally are paid on a commission basis, which substantially correlates with our transaction revenue performance. Accordingly, the increase in sales and lease transaction revenue led to a corresponding increase in commission accruals. Higher salaries and related costs associated with our global property, facilities and project management contracts and increased bonuses in the United States and the United Kingdom due to increased headcount and improved operating performance also contributed to the increase in cost of services in the current quarter. Foreign currency translation had a \$14.8 million positive impact on cost of services during the three months ended September 30, 2013. Cost of services as a percentage of revenue increased to 59.5% for the three months ended September 30, 2013 from 58.8% for the three months ended September 30, 2012, primarily attributable to a concentration of commissions among higher producing professionals in the United States and Asia Pacific. In addition, higher recruitment costs in the current year increased this ratio.

Our operating, administrative and other expenses on a consolidated basis increased by \$14.3 million, or 3.0%, during the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. The increase was primarily driven by strategic investments made in the current quarter, including increased headcount and the continuation of several strategic information technology initiatives. These increases were partially offset by \$14.2 million of transaction and integration costs attributable to the REIM Acquisitions and \$10.6 million of cost containment expenses, both of which were incurred in the prior-year quarter, but did not recur in the current year. Foreign currency translation had a \$6.7 million positive impact on total operating expenses during the three months ended September 30, 2013. Operating expenses as a percentage of revenue decreased from 31.0% for the three months ended September 30, 2012 to 28.6% for the three months ended September 30, 2013, largely driven by the aforementioned costs associated with the REIM Acquisitions and cost containment. Excluding such costs, operating expenses were 29.4% of revenue for the three months ended September 30, 2012. The current year decrease was achieved despite incremental investments in our operating platform, reflecting the operating leverage inherent in our business and proactive cost savings initiatives.

Our depreciation and amortization expense on a consolidated basis increased by \$7.4 million, or 18.5%, during the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. The increase was primarily driven by higher depreciation expense in the current year attributable to technology-related capital expenditures occurring after the third quarter of 2012 and an increase in amortization expense related to mortgage servicing rights in the current year.

Our non-amortizable intangible asset impairment on a consolidated basis was \$19.8 million for the three months ended September 30, 2012. This non-cash write-off related to the discontinuation of a trade name in the United Kingdom.

Our gain on disposition of real estate on a consolidated basis was \$0.7 million for the three months ended September 30, 2013 as compared to \$4.0 million for the three months ended September 30, 2012. These gains resulted from activity within our Development Services segment.

Table of Contents

Our equity income from unconsolidated subsidiaries on a consolidated basis increased by \$10.5 million, or 364.2%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. This increase was primarily attributable to higher equity earnings reported in our Development Services and Americas business segments.

Our other income on a consolidated basis was \$5.1 million for the three months ended September 30, 2013 as compared to \$0.2 million for the three months ended September 30, 2012 and was primarily reported within our Global Investment Management segment. This income mainly relates to higher net realized and unrealized gains in the current year related to co-investments in our real estate securities business.

Our consolidated interest income was relatively consistent at \$1.5 million for the three months ended September 30, 2013 versus \$1.9 million for the three months ended September 30, 2012.

Our consolidated interest expense decreased by \$15.9 million, or 36.4%, during the three months ended September 30, 2013 as compared to the three months ended September 30, 2012, reflecting the effects of our refinancing activities in the current year. During the nine months ended September 30, 2013, we completed a series of financing transactions, including the amendment and restatement of our credit agreement, the issuance of \$800.0 million of new 5.00% senior notes and the full redemption of our 11.625% senior subordinated notes (aggregate principal of \$450.0 million).

Our provision for income taxes on a consolidated basis was \$56.1 million for the three months ended September 30, 2013 as compared to \$22.2 million for the three months ended September 30, 2012. Our effective tax rate from continuing operations, after adjusting pre-tax income to remove the portion attributable to non-controlling interests, increased to 37.3% for the three months ended September 30, 2013 as compared to 35.8% for the three months ended September 30, 2012. The increases in our provision for income taxes and effective tax rate were primarily due to a change in our mix of domestic and foreign earnings (losses) and the impact of discrete items, partially mitigated by a decrease in losses sustained in jurisdictions where no tax benefit could be provided. We anticipate our full year 2013 effective tax rate to be approximately 35.0% or slightly higher.

Our net loss attributable to non-controlling interests on a consolidated basis was \$0.3 million for the three months ended September 30, 2013 as compared to net income attributable to non-controlling interests of \$3.0 million for the three months ended September 30, 2012. This activity primarily reflects our non-controlling interests' share of loss/income within our Development Services segment.

Nine Months Ended September 30, 2013 Compared to the Nine Months Ended September 30, 2012

We reported consolidated net income of \$201.9 million for the nine months ended September 30, 2013 on revenue of \$5.0 billion as compared to consolidated net income of \$142.6 million on revenue of \$4.5 billion for the nine months ended September 30, 2012.

Our revenue on a consolidated basis for the nine months ended September 30, 2013 increased by \$442.7 million, or 9.8%, as compared to the nine months ended September 30, 2012. This increase was primarily driven by higher worldwide sales (up 25.5%), property, facilities and project management (up 11.2%) and leasing (up 7.4%) activity. Carried interest revenue earned in our Global Investment Management segment and increased global appraisal revenue (up 11.2%) also contributed to the positive variance. These items were partially offset by lower rental revenue (down 57.9%) and foreign currency translation, which had a \$49.1 million negative impact on total revenue during the nine months ended September 30, 2013.

Our cost of services on a consolidated basis increased by \$301.4 million, or 11.5%, during the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. This increase was primarily due to higher salaries and related costs associated with our global property, facilities and project management contracts. In addition, as previously mentioned, our sales professionals generally are paid on a commission basis, which substantially correlates with our transaction revenue performance. Accordingly, the

Table of Contents

increase in sales and lease transaction revenue led to a corresponding increase in commission accruals. Increased bonuses in the United States and the United Kingdom due to increased headcount and improved operating performance also contributed to the higher cost of services in the current year. Foreign currency translation had a \$26.2 million positive impact on cost of services during the nine months ended September 30, 2013. Cost of services as a percentage of revenue increased to 58.8% for the nine months ended September 30, 2013 from 57.9% for the nine months ended September 30, 2012, primarily attributable to a concentration of commissions among higher producing professionals in the United States and Asia Pacific. In addition, higher recruitment costs in the current year increased this ratio.

Our operating, administrative and other expenses on a consolidated basis increased by \$60.2 million, or 4.3%, during the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. The increase was primarily driven by strategic investments made in the current year, including increased headcount, as well as higher consulting, marketing and travel costs. These increases were partially offset by \$31.8 million of lower transaction and integration costs attributable to the REIM Acquisitions incurred in the current year and \$10.6 million of cost containment expenses incurred in the prior-year period, which did not recur in the current year. Foreign currency translation had a \$14.7 million positive impact on total operating expenses during the nine months ended September 30, 2013. Operating expenses as a percentage of revenue decreased from 31.2% for the nine months ended September 30, 2012 to 29.6% for the nine months ended September 30, 2013, partially driven by the aforementioned lower costs associated with the REIM Acquisitions and cost containment in the current year. Excluding such costs, operating expenses were 30.2% of revenue for the nine months ended September 30, 2012. The current year decrease was achieved despite incremental investments in our operating platform, reflecting the operating leverage inherent in our business and proactive cost savings initiatives.

Our depreciation and amortization expense on a consolidated basis increased by \$12.5 million, or 10.0%, during the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. An increase in depreciation expense in the current year driven by technology-related capital expenditures occurring after the third quarter of 2012 and an increase in amortization expense related to mortgage servicing rights in the current year, were partially mitigated by \$9.6 million of intangible amortization expense related to ING REIM incentive fees in the nine months ended September 30, 2012, which did not recur in the current year.

Our non-amortizable intangible asset impairment on a consolidated basis was \$19.8 million for the nine months ended September 30, 2012. This non-cash write-off related to the discontinuation of a trade name in the United Kingdom.

Our gain on disposition of real estate on a consolidated basis was \$11.4 million for the nine months ended September 30, 2013 as compared to \$5.2 million for the nine months ended September 30, 2012. These gains resulted from activity within our Development Services segment.

Our equity income from unconsolidated subsidiaries on a consolidated basis increased by \$9.8 million, or 49.2%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. This increase was primarily attributable to higher equity earnings reported in our Development Services and Americas business segments.

Our other income on a consolidated basis increased by \$4.7 million, or 101.8%, during the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012 and was primarily reported within our Global Investment Management segment. This activity primarily relates to net realized and unrealized gains related to co-investments in our real estate securities business.

Our consolidated interest income was \$5.0 million for the nine months ended September 30, 2013 as compared to \$5.8 million for the nine months ended September 30, 2012.

Our interest expense on a consolidated basis decreased by \$24.3 million, or 18.4%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012, reflecting the effects of our refinancing activities in the current year.

Table of Contents

Our write-off of financing costs on a consolidated basis was \$56.3 million for the nine months ended September 30, 2013, primarily related to costs associated with the early redemption of the 11.625% senior subordinated notes, including a \$26.2 million early extinguishment premium and the write-off of \$16.1 million of unamortized original issue discount and previously deferred financing costs. In addition, during the nine months ended September 30, 2013, we wrote-off \$10.4 million of unamortized deferred financing costs associated with our previous credit agreement and incurred fees of \$3.6 million in connection with our new credit agreement and 5.00% senior notes.

Our provision for income taxes on a consolidated basis was \$120.9 million for the nine months ended September 30, 2013 as compared to \$102.4 million for the nine months ended September 30, 2012. Our effective tax rate from continuing operations, after adjusting pre-tax income to remove the portion attributable to non-controlling interests, decreased to 37.7% for the nine months ended September 30, 2013 as compared to 41.8% for the nine months ended September 30, 2012. The changes in our provision for income taxes and our effective tax rate were primarily the result of a shift in our mix of domestic and foreign earnings (losses), the impact of discrete items and a decrease in losses sustained in jurisdictions where no tax benefit could be provided.

Our consolidated income from discontinued operations, net of income taxes, was \$24.3 million for the nine months ended September 30, 2013. This income was reported in our Development Services and Global Investment Management segments and mostly related to gains from property sales, which were largely attributable to non-controlling interests.

Our net income attributable to non-controlling interests on a consolidated basis was \$28.4 million for the nine months ended September 30, 2013 as compared to \$5.7 million for the nine months ended September 30, 2012. This activity primarily reflects our non-controlling interests' share of income within our Global Investment Management and Development Services segments.

Segment Operations

We report our operations through the following segments: (1) Americas, (2) EMEA, (3) Asia Pacific, (4) Global Investment Management and (5) Development Services. The Americas consists of operations located in the United States, Canada and key markets in Latin America. EMEA mainly consists of operations in Europe, while Asia Pacific includes operations in Asia, Australia and New Zealand. The Global Investment Management business consists of investment management operations in North America, Europe and Asia. The Development Services business consists of real estate development and investment activities primarily in the United States.

Table of Contents

The following table summarizes our revenue, costs and expenses and operating income (loss) by our Americas, EMEA, Asia Pacific, Global Investment Management and Development Services operating segments for the three and nine months ended September 30, 2013 and 2012 (dollars in thousands):

- (2) Includes EBITDA related to discontinued operations of \$1.4 million for the nine months ended September 30, 2013.
- (3) Includes EBITDA related to discontinued operations of \$6.0 million for the nine months ended September 30, 2013.

Table of Contents

Three Months Ended September 30, 2013 Compared to the Three Months Ended September 30, 2012

Americas

Revenue increased by \$109.4 million, or 11.0%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. This improvement was primarily driven by higher sales, leasing and property, facilities and project management activity, partially offset by lower commercial mortgage revenue. The lower commercial mortgage revenue resulted from Government-Sponsored Enterprises (GSEs) efforts to scale back their lending activity, as mandated by their regulators, which acutely affected mortgage servicing work we perform for these entities. Foreign currency translation had a \$6.3 million negative impact on total revenue during the three months ended September 30, 2013.

Cost of services increased by \$88.7 million, or 13.9%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012, primarily due to increased commission expense resulting from higher sales and lease transaction revenue. Also contributing to the increase were higher salaries and related costs associated with our property, facilities and project management contracts and higher bonuses due to increased headcount and improved operating performance. Foreign currency translation had a \$3.4 million positive impact on cost of services during the three months ended September 30, 2013. Cost of services as a percentage of revenue increased to 65.7% for the three months ended September 30, 2013 from 64.0% for the three months ended September 30, 2012, primarily attributable to a concentration of commissions among higher producing professionals in the United States as well as higher recruitment costs.

Operating, administrative and other expenses increased by \$20.1 million, or 8.7%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. The increase was primarily driven by strategic investments made in the current quarter, including increased headcount and the continuation of several strategic information technology initiatives. Foreign currency translation had a \$1.8 million positive impact on total operating expenses during the three months ended September 30, 2013.

EMEA

Revenue increased by \$56.8 million, or 24.8%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. The increase was broad based, as every major business line posted double-digit revenue growth. Notable strength was evident in France, Germany, Spain and the United Kingdom. Foreign currency translation had a \$2.5 million positive impact on total revenue during the three months ended September 30, 2013.

Cost of services increased by \$21.4 million, or 14.2%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012 primarily due to higher bonuses in the United Kingdom due to improved operating performance. Higher salaries and related costs associated with our property, facilities and project management contracts also contributed to the increase. An increase in payroll-related costs as a result of increased headcount was mostly offset by the impact of cost containment expenses incurred in the prior-year quarter, which did not recur in the current year. Foreign currency translation had a \$1.9 million negative impact on cost of services during the three months ended September 30, 2013. Cost of services as a percentage of revenue decreased to 60.3% for the three months ended September 30, 2013 from 65.9% for the three months ended September 30, 2012, primarily driven by an increase in transaction revenue in certain countries that have a significant fixed compensation structure, and the aforementioned cost containment expenses.

Operating, administrative and other expenses increased by \$9.9 million, or 11.4%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012 primarily driven by an increase in payroll-related costs, largely due to increased headcount and improved operating performance, as well as higher marketing and travel costs. This increase was partially offset by the impact of cost containment expenses incurred in the prior-year quarter, which did not recur in the current year. Foreign currency translation had a \$0.5 million negative impact on total operating expenses during the three months ended September 30, 2013.

Table of Contents

Asia Pacific

Revenue increased by \$2.8 million, or 1.4%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. Improved overall performance in nearly all countries within the region, most notably Australia, India and Japan, was largely muted by foreign currency translation, which had a \$22.4 million negative impact on total revenue during the three months ended September 30, 2013.

Cost of services increased by \$7.0 million, or 5.5%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012, driven by increased commission expense resulting from higher sales transaction revenue and higher payroll-related costs due to increased headcount. These items were partially offset by foreign currency translation, which had a \$13.3 million positive impact on cost of services during the three months ended September 30, 2013. Cost of services as a percentage of revenue increased to 65.8% for the three months ended September 30, 2013 from 63.2% for the three months ended September 30, 2012, primarily due to a concentration of commissions among higher producing professionals as well as higher recruitment costs in the current year.

Operating, administrative and other expenses decreased by \$0.4 million, or 0.7%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. An increase in costs due to higher payroll-related costs, which resulted from increased headcount, primarily in Australia and China, and increased marketing and travel costs, was more than offset by foreign currency translation, which had a \$6.0 million positive impact on total operating expenses during the three months ended September 30, 2013.

Global Investment Management

Revenue increased by \$13.0 million, or 11.4%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012, primarily driven by carried interest revenue earned in the current year. This was partially offset by lower asset management fees and rental revenue from consolidated real estate assets attributable to the selling of assets in the portfolio and the internalization of management of a non-traded REIT. Foreign currency translation had a \$0.9 million positive impact on total revenue during the three months ended September 30, 2013.

Operating, administrative and other expenses decreased by \$16.0 million, or 17.5%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. This decrease was primarily driven by \$14.2 million of transaction and integration costs associated with the REIM Acquisitions incurred in the prior-year quarter, which did not recur in the current quarter. Foreign currency translation had a \$0.6 million negative impact on total operating expenses during the three months ended September 30, 2013.

Total AUM as of September 30, 2013 amounted to \$87.6 billion, representing a 5.0% decrease from year-end 2012, primarily due to asset sales and the internalization of management of a non-traded REIT. AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, securities portfolios and investments in operating companies and joint ventures. Our AUM is intended principally to reflect the extent of our presence in the real estate market, not the basis for determining our management fees. Our material assets under management consist of:

- a) the total fair market value of the real estate properties and other assets either wholly-owned or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested or to which they have provided financing. Committed (but unfunded) capital from investors in our sponsored funds is not included in this component of our AUM. The value of development properties is included at estimated completion cost. In the case of real estate operating companies, the total value of real properties controlled by the companies, generally through joint ventures, is included in AUM; and
- b) the net asset value of our managed securities portfolios, including investments (which may be comprised of committed but uncalled capital) in private real estate funds under our fund of funds program.

Table of Contents

Our calculation of AUM may differ from the calculations of other asset managers, and as a result, this measure may not be comparable to similar measures presented by other asset managers.

Development Services

Revenue decreased by \$5.2 million, or 29.3%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012, attributable to lower rental revenue as a result of property dispositions.

Operating, administrative and other expenses increased by \$0.7 million, or 4.6%, for the three months ended September 30, 2013 as compared to the three months ended September 30, 2012. This increase was primarily driven by higher bonuses, which resulted from improved overall operating performance, which were offset by lower property operating expenses as a result of the property dispositions noted above in this segment's revenue discussion.

As of September 30, 2013, development projects in process totaled \$5.2 billion, up 24% from year-end 2012, and the inventory of pipeline deals totaled \$1.6 billion, down 22% from year-end 2012.

Nine Months Ended September 30, 2013 Compared to the Nine Months Ended September 30, 2012

Americas

Revenue increased by \$289.4 million, or 10.1%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. This improvement was primarily driven by higher sales, leasing and property, facilities and project management activity. Foreign currency translation had an \$11.2 million negative impact on total revenue during the nine months ended September 30, 2013.

Cost of services increased by \$215.9 million, or 11.9%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012, primarily due to higher salaries and related costs associated with our property, facilities and project management contracts. Also contributing to the variance was increased commission expense resulting from higher sales and lease transaction revenue and higher bonuses due to increased headcount and improved operating performance. Foreign currency translation had a \$5.6 million positive impact on cost of services during the nine months ended September 30, 2013. Cost of services as a percentage of revenue increased to 64.7% for the nine months ended September 30, 2013 from 63.7% for the nine months ended September 30, 2012, primarily attributable to a concentration of commissions among higher producing professionals as well as higher recruitment costs in the current year.

Operating, administrative and other expenses increased by \$58.3 million, or 8.8%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. The increase was primarily driven by strategic investments made in the current year, including increased headcount, as well as higher consulting, marketing and travel costs. Foreign currency translation had a \$3.5 million positive impact on total operating expenses during the nine months ended September 30, 2013.

EMEA

Revenue increased by \$110.0 million, or 16.3%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. The increase was broad based, as every major business line posted double-digit revenue growth. Notable strength was evident in France, Germany, Spain and the United Kingdom. Foreign currency translation had a \$1.0 million negative impact on total revenue during the nine months ended September 30, 2013.

Cost of services increased by \$54.8 million, or 12.9%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012 primarily due to higher salaries and related costs

Table of Contents

associated with our property, facilities and project management contracts. Higher bonuses in the United Kingdom due to improved operating performance also contributed to the variance. An increase in payroll-related costs as a result of increased headcount was partially offset by the impact of cost containment expenses incurred in the prior year, which did not recur in the current year. Foreign currency translation had a \$0.4 million negative impact on cost of services during the nine months ended September 30, 2013. Cost of services as a percentage of revenue decreased to 61.4% for the nine months ended September 30, 2013 from 63.2% for the nine months ended September 30, 2012 primarily driven by an increase in transaction revenue in certain countries that have a significant fixed compensation structure and the aforementioned cost containment expenses, which did not recur in the current year.

Operating, administrative and other expenses increased by \$26.5 million, or 10.6%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. The increase was primarily driven by higher payroll-related costs, which resulted from increased headcount and improved operating performance, as well as an increase in insurance reserves and higher marketing and travel costs. These increases were partially offset by the impact of cost containment expenses incurred in the prior-year period, which did not recur in the current year. Foreign currency translation had a \$0.8 million positive impact on total operating expenses during the nine months ended September 30, 2013.

Asia Pacific

Revenue increased by \$48.9 million, or 8.6%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. Improved overall performance in all countries within the region, most notably Australia, China, India and Japan, was largely muted by foreign currency translation, which had a \$37.0 million negative impact on total revenue during the nine months ended September 30, 2013.

Cost of services increased by \$30.7 million, or 8.4%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012, driven by increased commission expense resulting from higher sales transaction revenue and higher payroll-related costs due to increased headcount. Higher salaries and related costs associated with our property, facilities and project management contracts also contributed to the increase. Foreign currency translation had a \$21.0 million positive impact on cost of services during the nine months ended September 30, 2013. Cost of services as a percentage of revenue was relatively consistent at 64.3% for the nine months ended September 30, 2013 compared to 64.4% for the nine months ended September 30, 2012.

Operating, administrative and other expenses increased by \$15.9 million, or 10.0%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. The increase was primarily driven by higher payroll-related costs, which mainly resulted from improved operating performance, and increased headcount, primarily in Australia and China, as well as higher marketing and travel costs. Foreign currency translation had a \$10.2 million positive impact on total operating expenses during the nine months ended September 30, 2013.

Global Investment Management

Revenue increased by \$9.9 million, or 2.8%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012, primarily driven by carried interest revenue earned in the current year, partially offset by lower asset management fees and rental revenue from consolidated real estate assets. Foreign currency translation had a \$0.1 million positive impact on total revenue during the nine months ended September 30, 2013.

Operating, administrative and other expenses decreased by \$36.8 million, or 13.0%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. This decrease was primarily driven by lower transaction and integration costs associated with the REIM Acquisitions incurred in the current year. Foreign currency translation had a \$0.2 million positive impact on total operating expenses during the nine months ended September 30, 2013.

Table of Contents

Development Services

Revenue decreased by \$15.6 million, or 30.9%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012, attributable to lower rental revenue as a result of property dispositions.

Operating, administrative and other expenses decreased by \$3.7 million, or 7.4%, for the nine months ended September 30, 2013 as compared to the nine months ended September 30, 2012. This decrease was primarily driven by lower property operating expenses as a result of the property dispositions noted above in this segment's revenue discussion, partially offset by higher bonuses, which resulted from improved operating performance.

Liquidity and Capital Resources

We believe that we can satisfy our working capital requirements and funding of investments with internally generated cash flow and, as necessary, borrowings under our revolving credit facility. Our 2013 expected capital requirements include up to approximately \$150 million of anticipated net capital expenditures. During the nine months ended September 30, 2013, we incurred \$68.1 million of net capital expenditures. As of September 30, 2013, we had aggregate commitments of \$30.3 million to fund future co-investments in our Global Investment Management business, \$11.1 million of which is expected to be funded in 2013. Additionally, as of September 30, 2013, we had committed to fund \$13.4 million of additional capital to unconsolidated subsidiaries within our Development Services business, which may be called at any time. In recent years, the global credit markets have remained tight, which could affect both the availability and cost of our funding sources in the future.

During 2003 and 2006, we required substantial amounts of debt and equity financing to fund our acquisitions of Insignia Financial Group, Inc. and Trammell Crow Company. During 2011, we required substantial amounts of debt financing to fund the REIM Acquisitions. We also conducted three debt offerings in recent years. The first, in 2009, was part of a capital restructuring in response to the global economic recession, the second, in 2010, was to take advantage of low interest rates and term availability, and the third, in March 2013, was also to take advantage of market conditions to refinance other debt. Absent extraordinary transactions such as these and the equity offerings we completed during the unprecedented global capital markets disruption in 2008 and 2009 as well as the debt offerings we completed in 2009, 2010 and March 2013, we historically have not sought external sources of financing and have relied on our internally generated cash flow and our revolving credit facility to fund our working capital, capital expenditure and investment requirements. In the absence of such extraordinary events, we anticipate that our cash flow from operations and our revolving credit facility would be sufficient to meet our anticipated cash requirements for the foreseeable future, but at a minimum for the next 12 months. From time to time, we may seek to take advantage of market opportunities to refinance existing debt securities with new debt securities at lower interest rates, with longer maturities or better terms.

As evidenced above, from time to time we consider potential strategic acquisitions. We believe that any future significant acquisitions that we may make could require us to obtain additional debt or equity financing. In the past, we have been able to obtain such financing for material transactions on terms that we believed to be reasonable. However, it is possible that we may not be able to find acquisition financing on favorable terms, or at all, in the future if we decide to make any further material acquisitions.

Our long-term liquidity needs, other than those related to ordinary course obligations and commitments such as operating leases, generally are comprised of three elements. The first is the repayment of the outstanding and anticipated principal amounts of our long-term indebtedness. We are unable to project with certainty whether our long-term cash flow from operations will be sufficient to repay our long-term debt when it comes due. If our cash flow is insufficient, then we expect that we would need to refinance such indebtedness or otherwise amend its terms to extend the maturity dates. We cannot make any assurances that such refinancing or amendments would be available on attractive terms, if at all.

Table of Contents

The second long-term liquidity need is the repayment of obligations under our pension plans in the United Kingdom. Our subsidiaries based in the United Kingdom maintain two contributory defined benefit pension plans to provide retirement benefits to existing and former employees participating in the plans. With respect to these plans, our historical policy has been to contribute annually, an amount to fund pension cost as actuarially determined and as required by applicable laws and regulations. Our contributions to these plans are invested and, if these investments do not perform in the future as well as we expect, we will be required to provide additional funding to cover any shortfall. The underfunded status of our defined benefit pension plans included in pension liability in the consolidated balance sheets set forth in Item 1 of this Quarterly Report was \$60.8 million and \$63.5 million at September 30, 2013 and December 31, 2012, respectively. We expect to contribute a total of \$5.2 million to fund our pension plans for the year ending December 31, 2013, of which \$3.9 million was funded as of September 30, 2013.

The third long-term liquidity need is the payment of obligations related to acquisitions. As of September 30, 2013 and December 31, 2012, we had \$21.7 million and \$14.7 million, respectively, of deferred purchase consideration outstanding included in accounts payable and accrued expenses and in other long-term liabilities in the accompanying consolidated balance sheets set forth in Item 1 of this Quarterly Report.

Historical Cash Flows

Operating Activities

Net cash provided by operating activities totaled \$234.6 million for the nine months ended September 30, 2013 as compared to \$119.9 million of net cash used in operating activities for the nine months ended September 30, 2012. This variance was primarily due to a decrease in real estate held for sale and under development and higher bonus accruals in the current year. In addition, improved operating performance and lower income taxes paid in the current year contributed to the variance.

Investing Activities

Net cash provided by investing activities totaled \$26.3 million for the nine months ended September 30, 2013 as compared to net cash used in investing activities of \$153.5 million for the nine months ended September 30, 2012. This variance was primarily driven by higher proceeds received from the sale of real estate held for investment in the current year and a decrease in cash in the first quarter of 2012 as a result of the deconsolidation of CBRE Clarion U.S., L.P. in the prior year. Higher contributions to unconsolidated subsidiaries in the prior year and greater distributions from unconsolidated subsidiaries in the current year also contributed to the positive variance. These items were partially offset by greater amounts paid for acquisitions in the current year.

Financing Activities

Net cash used in financing activities totaled \$839.6 million for the nine months ended September 30, 2013, an increase of \$791.9 million as compared to the nine months ended September 30, 2012. The increase in cash used in financing activities was primarily due to our refinancing efforts during the nine months ended September 30, 2013, including the net repayment of \$914.1 million of senior secured term loans and the redemption of \$450.0 million of 11.625% senior subordinated notes, partially offset by the issuance of \$800.0 million of 5.00% senior notes. In addition, higher net repayments of notes payable on real estate within our Development Services segment in the current year and higher distributions to non-controlling interests in the current year also contributed to the increase.

Significant Indebtedness

Our level of indebtedness increases the possibility that we may be unable to pay the principal amount of our indebtedness and other obligations when due. In addition, we may incur additional debt from time to time to

Table of Contents

finance strategic acquisitions, investments, joint ventures or for other purposes, subject to the restrictions contained in the documents governing our indebtedness. If we incur additional debt, the risks associated with our leverage, including our ability to service our debt, would increase.

Since 2001, we have maintained credit facilities with Credit Suisse Group AG, or CS, and other lenders to fund strategic acquisitions and to provide for our working capital needs. During the nine months ended September 30, 2013, we completed a series of financing transactions, which included the repayment of \$1.6 billion of our senior secured term loans under our previous credit agreement. On March 28, 2013, we entered into a new credit agreement (the Credit Agreement) with a syndicate of banks led by CS, as administrative and collateral agent, to completely refinance our previous credit agreement.

Our Credit Agreement currently provides for the following: (1) a \$1.2 billion revolving credit facility, including revolving credit loans, letters of credit and a swingline loan facility, maturing on March 28, 2018; (2) a \$500.0 million tranche A term loan facility (of which \$300.0 million was on an optional delayed-draw basis for up to 120 days from March 28, 2013, which we drew down in June 2013 to partially fund the redemption of the 11.625% senior subordinated notes) requiring quarterly principal payments, which began on June 30, 2013 and continue through maturity on March 28, 2018; and (3) a \$215.0 million tranche B term loan facility requiring quarterly principal payments, which began on June 30, 2013 and continue through December 31, 2020, with the balance payable at maturity on March 28, 2021.

The revolving credit facility allows for borrowings outside of the United States, with a \$10.0 million sub-facility available to one of our Canadian subsidiaries, a \$35.0 million sub-facility available to one of our Australian subsidiaries and one of our New Zealand subsidiaries and a \$150.0 million sub-facility available to one of our U.K. subsidiaries. Additionally, outstanding borrowings under these sub-facilities may be up to 5.0% higher as allowed under the currency fluctuation provision in the Credit Agreement. Borrowings under the revolving credit facility bear interest at varying rates, based at our option, on either the applicable fixed rate plus 1.15% to 2.25% or the daily rate plus 0.125% to 1.25% as determined by reference to our ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement). As of September 30, 2013 and December 31, 2012, we had \$89.9 million and \$73.0 million, respectively, of revolving credit facility principal outstanding with related weighted average interest rates of 2.6% and 3.2%, respectively, which are included in short-term borrowings in the consolidated balance sheets set forth in Item 1 of this Quarterly Report. As of September 30, 2013, letters of credit totaling \$11.7 million were outstanding under the revolving credit facility. These letters of credit were primarily issued in the normal course of business as well as in connection with certain insurance programs and reduce the amount we may borrow under the revolving credit facility.

Borrowings under the term loan facilities bear interest, based at our option, on the following: for the tranche A term loan facility, on either the applicable fixed rate plus 1.50% to 2.75% or the daily rate plus 0.50% to 1.75%, as determined by reference to our ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement) and for the tranche B term loan facility, on either the applicable fixed rate plus 2.75% or the daily rate plus 1.75%. As of September 30, 2013, we had \$695.2 million of term loan facilities principal outstanding (including \$481.3 million of tranche A term loan facility and \$213.9 million of tranche B term loan facility), which are included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report. As of December 31, 2012, we had \$1.6 billion of term loan facilities principal outstanding under our previous credit agreement (including \$271.2 million, \$275.2 million, \$293.3 million, \$394.0 million, and \$394.0 million, respectively, of tranche A, tranche A-1, tranche B, tranche C and tranche D term loan facilities principal outstanding), which are also included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

In March 2011, we entered into five interest rate swap agreements, all with effective dates in October 2011, and immediately designated them as cash flow hedges in accordance with Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, Topic 815, *Derivatives and Hedging*. The purpose of these interest rate swap agreements is to hedge potential changes to our cash flows due to the variable interest nature of our senior secured term loan facilities. The total notional amount of these interest rate swap agreements

Table of Contents

is \$400.0 million, with \$200.0 million expiring in October 2017 and \$200.0 million expiring in September 2019. There was no significant hedge ineffectiveness for the three and nine months ended September 30, 2013 and 2012. As of September 30, 2013 and December 31, 2012, the fair values of such interest rate swap agreements were reflected as a \$33.3 million liability and a \$48.0 million liability, respectively, and were included in other long-term liabilities in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

The Credit Agreement is jointly and severally guaranteed by us and substantially all of our domestic subsidiaries. Borrowings under our Credit Agreement are secured by a pledge of substantially all of the capital stock of our U.S. subsidiaries and 65.0% of the capital stock of certain non-U.S. subsidiaries. Also, the Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment.

On March 14, 2013, CBRE Services, Inc., or CBRE, our wholly-owned subsidiary, issued \$800.0 million in aggregate principal amount of 5.00% senior notes due March 15, 2023. The 5.00% notes are unsecured obligations of CBRE, senior to all of its current and future subordinated indebtedness, but effectively subordinated to all of its current and future secured indebtedness. The 5.00% notes are jointly and severally guaranteed on a senior basis by us and each subsidiary of CBRE that guarantees our Credit Agreement. Interest accrues at a rate of 5.00% per year and is payable semi-annually in arrears on March 15 and September 15, beginning on September 15, 2013. The 5.00% senior notes are redeemable at our option, in whole or in part, on or after March 15, 2018 at a redemption price of 102.5% of the principal amount on that date and at declining prices thereafter. At any time prior to March 15, 2016, we may redeem up to 35.0% of the original principal amount of the 5.00% senior notes using the net cash proceeds from certain public offerings. In addition, at any time prior to March 15, 2018, the 5.00% senior notes may be redeemed by us, in whole or in part, at a redemption price equal to 100.0% of the principal amount, plus accrued and unpaid interest, if any, to the date of redemption, and an applicable premium (as defined in the indenture governing these notes), which is based on the excess of the present value of the March 15, 2018 redemption price plus all remaining interest payments through March 15, 2018, over the principal amount of the 5.00% senior notes on such redemption date. If a change of control triggering event (as defined in the indenture governing these notes) occurs, we are obligated to make an offer to purchase the then outstanding 5.00% senior notes at a redemption price of 101.0% of the principal amount, plus accrued and unpaid interest. The amount of the 5.00% senior notes included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report was \$800.0 million at September 30, 2013.

On October 8, 2010, CBRE issued \$350.0 million in aggregate principal amount of 6.625% senior notes due October 15, 2020. The 6.625% senior notes are unsecured obligations of CBRE, senior to all of its current and future subordinated indebtedness, but effectively subordinated to all of its current and future secured indebtedness. The 6.625% senior notes are jointly and severally guaranteed on a senior basis by us and each subsidiary of CBRE that guarantees our Credit Agreement. Interest accrues at a rate of 6.625% per year and is payable semi-annually in arrears on April 15 and October 15, having commenced on April 15, 2011. The 6.625% senior notes are redeemable at our option, in whole or in part, on or after October 15, 2014 at a redemption price of 104.969% of the principal amount on that date and at declining prices thereafter. At any time prior to October 15, 2014, the 6.625% senior notes may be redeemed by us, in whole or in part, at a redemption price equal to 100% of the principal amount, plus accrued and unpaid interest and an applicable premium (as defined in the indenture governing these notes), which is based on the greater of 1.00% of the principal amount of the 6.625% senior notes and the excess of the present value of the October 15, 2014 redemption price plus all remaining interest payments through October 15, 2014, over the principal amount of the 6.625% senior notes on such redemption date. In addition, prior to October 15, 2013, up to 35.0% of the original issued amount of the 6.625% senior notes may have been redeemed at a redemption price of 106.625% of the principal amount, plus accrued and unpaid interest, solely with the net cash proceeds from public equity offerings. If a change of control triggering event (as defined in the indenture governing our 6.625% senior notes) occurs, we are obligated to make an offer to purchase the then outstanding 6.625% senior notes at a redemption price of 101.0% of the principal amount, plus accrued and unpaid interest. The amount of the 6.625% senior notes included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report was \$350.0 million at both September 30, 2013 and December 31, 2012.

Table of Contents

Our Credit Agreement and the indentures governing our 5.00% senior notes and 6.625% senior notes contain numerous restrictive covenants that, among other things, limit our ability to incur additional indebtedness, pay dividends or make distributions to stockholders, repurchase capital stock or debt, make investments, sell assets or subsidiary stock, create or permit liens on assets, engage in transactions with affiliates, enter into sale/leaseback transactions, issue subsidiary equity and enter into consolidations or mergers. Our Credit Agreement also currently requires us to maintain a minimum coverage ratio of EBITDA (as defined in the Credit Agreement) to total interest expense of 2.00x and a maximum leverage ratio of total debt less available cash to EBITDA (as defined in the Credit Agreement) of 4.25x. Our coverage ratio of EBITDA to total interest expense was 7.86x for the trailing twelve months ended September 30, 2013 and our leverage ratio of total debt less available cash to EBITDA was 1.46x as of September 30, 2013. We may from time to time, in our sole discretion, look for opportunities to refinance or reduce our outstanding debt under our Credit Agreement and under our 5.00% senior notes and 6.625% senior notes.

On June 18, 2009, CBRE issued \$450.0 million in aggregate principal amount of 11.625% senior subordinated notes due June 15, 2017 for approximately \$435.9 million, net of discount. The 11.625% senior subordinated notes were unsecured senior subordinated obligations of CBRE and were jointly and severally guaranteed on a senior subordinated basis by us and our domestic subsidiaries that guarantee our Credit Agreement. Interest accrued at a rate of 11.625% per year and was payable semi-annually in arrears on June 15 and December 15. As permitted by the indenture governing these notes, on June 15, 2013, we redeemed all of the 11.625% senior subordinated notes. In connection with this early redemption, we paid a premium of \$26.2 million and wrote off \$16.1 million of unamortized deferred financing costs and unamortized discount. The amount of the 11.625% senior subordinated notes included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report, net of unamortized discount, was \$440.5 million at December 31, 2012.

From time to time, Moody's Investor Service, Inc., or Moody's, and Standard & Poor's Ratings Services, or Standard & Poor's, rate our senior debt. For example, on June 27, 2013, Standard & Poor's confirmed our BB long-term issuer credit rating with positive outlook. They also confirmed our BB rating for our new Credit Agreement and B+ rating for the \$800.0 million of 5.00% senior notes. Neither the Moody's nor the Standard & Poor's ratings impact our ability to borrow under our Credit Agreement. However, these ratings would positively impact the interest rates under our Credit Agreement should our ratings improve to investment grade. In addition, these ratings may impact our ability to borrow under new agreements in the future and the interest rates of any such future borrowings.

We had short-term borrowings of \$319.2 million and \$1.1 billion as of September 30, 2013 and December 31, 2012, respectively, with related weighted average interest rates of 2.3% and 2.4%, respectively, which are included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

On March 2, 2007, we entered into a \$50.0 million credit note with Wells Fargo Bank for the purpose of purchasing eligible investments, which include cash equivalents, agency securities, A1/P1 commercial paper and eligible money market funds. The proceeds of this note are not made generally available to us, but instead are deposited in an investment account maintained by Wells Fargo Bank and used and applied solely to purchase eligible investment securities. This agreement has been amended several times and currently provides for a \$40.0 million revolving credit note, bears interest at 0.25% and has a maturity date of December 31, 2013. As of September 30, 2013 and December 31, 2012, there were no amounts outstanding under this note.

On March 4, 2008, we entered into a \$35.0 million credit and security agreement with Bank of America, or BofA, for the purpose of purchasing eligible financial instruments, which include A1/P1 commercial paper, U.S. Treasury securities, Government Sponsored Enterprise, or GSE, discount notes (as defined in the credit and security agreement) and money market funds. The proceeds of this loan are not made generally available to us, but instead are deposited in an investment account maintained by BofA and used and applied solely to purchase eligible financial instruments. This agreement has been amended several times and currently provides for a \$5.0 million credit line, bears interest at 1% and has a maturity date of February 28, 2014. As of September 30, 2013 and December 31, 2012, there were no amounts outstanding under this agreement.

Table of Contents

On August 19, 2008, we entered into a \$15.0 million uncommitted facility with First Tennessee Bank for the purpose of purchasing investments, which include cash equivalents, agency securities, A1/P1 commercial paper and eligible money market funds. The proceeds of this facility are not made generally available to us, but instead are held in a collateral account maintained by First Tennessee Bank. This agreement has been amended several times and currently provides for a \$4.0 million credit line, bears interest at 0.25% and has a maturity date of August 31, 2014. As of September 30, 2013 and December 31, 2012, there were no amounts outstanding under this facility.

Our wholly-owned subsidiary, CBRE Capital Markets, has the following warehouse lines of credit: credit agreements with JP Morgan Chase Bank, N.A., or JP Morgan, BofA, TD Bank, N.A., or TD Bank, and Capital One, N.A., or Capital One, for the purpose of funding mortgage loans that will be resold, and a funding arrangement with Federal National Mortgage Association, or Fannie Mae, for the purpose of selling a percentage of certain closed multifamily loans.

On November 15, 2005, CBRE Capital Markets entered into a secured credit agreement with JP Morgan to establish a warehouse line of credit. This agreement has been amended several times and currently provides for a \$200.0 million line of credit, bears interest at the daily LIBOR plus 1.90% and has a maturity date of October 27, 2014.

On April 16, 2008, CBRE Capital Markets entered into a secured credit agreement with BofA to establish a warehouse line of credit. The senior secured revolving line of credit currently provides for a \$200.0 million line of credit, bears interest at the daily one-month LIBOR plus 1.60% with a maturity date of May 28, 2014.

In August 2009, CBRE Capital Markets entered into a funding arrangement with Fannie Mae under its Multifamily As Soon As Pooled Plus Agreement and its Multifamily As Soon As Pooled Sale Agreement, or ASAP Program. Under the ASAP Program, CBRE Capital Markets may elect, on a transaction by transaction basis, to sell a percentage of certain closed multifamily loans to Fannie Mae on an expedited basis. After all contingencies are satisfied, the ASAP Program requires that CBRE Capital Markets repurchase the interest in the multifamily loan previously sold to Fannie Mae followed by either a full delivery back to Fannie Mae via whole loan execution or a securitization into a mortgage backed security. Under this agreement, the maximum outstanding balance under the ASAP Program cannot exceed \$200.0 million and, between the sale date to Fannie Mae and the repurchase date by CBRE Capital Markets, the outstanding balance bears interest and is payable to Fannie Mae at the daily LIBOR rate plus 1.35% with a LIBOR floor of 0.35%. This arrangement is cancelable by Fannie Mae with notice.

On December 21, 2010, CBRE Capital Markets entered into a secured credit agreement with TD Bank to establish a warehouse line of credit. The secured revolving line of credit currently provides for a \$150.0 million line of credit, bears interest at the daily one-month LIBOR plus 1.65% with a maturity date of June 30, 2014.

On July 30, 2012, CBRE Capital Markets entered into a secured credit agreement with Capital One to establish a warehouse line of credit. This agreement provides for a \$200.0 million senior secured revolving line of credit and bears interest at the daily one-month LIBOR plus 1.65% with a maturity date of July 29, 2014.

On September 21, 2012, CBRE Capital Markets entered into a repurchase facility with JP Morgan for additional warehouse capacity pursuant to a Master Repurchase Agreement. This agreement has been amended and currently provides for a \$200.0 million warehouse facility and bears interest at the daily one-month LIBOR plus 2.25% with a maturity date of January 16, 2014.

During the nine months ended September 30, 2013, we had a maximum of approximately \$1.1 billion of warehouse lines of credit principal outstanding. As of September 30, 2013 and December 31, 2012, we had \$224.4 million and \$1.0 billion of warehouse lines of credit principal outstanding, respectively, which are included in short-term borrowings in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

Table of Contents

Additionally, we had \$227.6 million and \$1.0 billion of mortgage loans held for sale (warehouse receivables), as of September 30, 2013 and December 31, 2012, respectively, which substantially represented mortgage loans funded through the lines of credit that, while committed to be purchased, had not yet been purchased and which are also included in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

A significant number of our subsidiaries in Europe have had a Euro cash pool loan since 2001, which is used to fund their short-term liquidity needs. The Euro cash pool loan is an overdraft line for our European operations issued by HSBC Bank. The Euro cash pool loan has no stated maturity date and bears interest at varying rates based on LIBOR plus 2.0%. As of September 30, 2013, there was \$4.8 million of Euro cash pool loan outstanding, which has been included in short-term borrowings in the consolidated balance sheets set forth in Item 1 of this Quarterly Report. There were no amounts outstanding under this facility as of December 31, 2012.

Off-Balance Sheet Arrangements

We had outstanding letters of credit totaling \$13.3 million as of September 30, 2013, excluding letters of credit for which we have outstanding liabilities already accrued on our consolidated balance sheet related to our subsidiaries' outstanding reserves for claims under certain insurance programs as well as letters of credit related to operating leases. These letters of credit are primarily executed by us in the ordinary course of business and expire at varying dates through July 2014.

We had guarantees totaling \$20.6 million as of September 30, 2013, excluding guarantees related to pension liabilities, consolidated indebtedness and other obligations for which we have outstanding liabilities already accrued on our consolidated balance sheet, and operating leases. The \$20.6 million primarily consists of guarantees related to our defined benefit pension plans in the United Kingdom (in excess of our outstanding pension liability of \$60.8 million as of September 30, 2013), which are continuous guarantees that will not expire until all amounts have been paid out for our pension liabilities. The remainder of the guarantees mainly represents guarantees of obligations of unconsolidated subsidiaries, which expire at varying dates through December 2016, as well as various guarantees of management contracts in our operations overseas, which expire at the end of each of the respective agreements.

In addition, as of September 30, 2013, we had numerous completion and budget guarantees relating to development projects. These guarantees are made by us in the ordinary course of our Development Services business. Each of these guarantees requires us to complete construction of the relevant project within a specified timeframe and/or within a specified budget, with us potentially being liable for costs to complete in excess of such timeframe or budget. However, we generally have guaranteed maximum price contracts with reputable general contractors with respect to projects for which we provide these guarantees. These contracts are intended to pass the risk to such contractors. While there can be no assurance, we do not expect to incur any material losses under these guarantees.

In January 2008, CBRE Multifamily Capital, Inc., or CBRE MCI, a wholly-owned subsidiary of CBRE Capital Markets, Inc., entered into an agreement with Fannie Mae, under Fannie Mae's Delegated Underwriting and Servicing Lender Program, or DUS Program, to provide financing for multifamily housing with five or more units. Under the DUS Program, CBRE MCI originates, underwrites, closes and services loans without prior approval by Fannie Mae, and in selected cases, is subject to sharing up to one-third of any losses on loans originated under the DUS Program. CBRE MCI has funded loans subject to such loss sharing arrangements with unpaid principal balances of \$7.1 billion at September 30, 2013. Additionally, CBRE MCI has funded loans under the DUS Program that are not subject to loss sharing arrangements with unpaid principal balances of approximately \$369.9 million at September 30, 2013. CBRE MCI, under its agreement with Fannie Mae, must post cash reserves under formulas established by Fannie Mae to provide for sufficient capital in the event losses occur. As of September 30, 2013 and December 31, 2012, CBRE MCI had \$14.6 million and \$9.1 million, respectively, of cash deposited under this reserve arrangement, and had provided approximately \$12.5 million and \$10.6 million, respectively, of loan loss accruals. Fannie Mae's recourse under the DUS Program is limited.

Table of Contents

to the assets of CBRE MCI, which totaled approximately \$182.6 million (including \$56.0 million of warehouse receivables, a substantial majority of which are pledged against warehouse lines of credit and are therefore not available to Fannie Mae) at September 30, 2013.

An important part of the strategy for our Global Investment Management business involves investing our capital in certain real estate investments with our clients. These co-investments typically range from 2.0% to 5.0% of the equity in a particular fund. As of September 30, 2013, we had aggregate commitments of \$30.3 million to fund future co-investments, \$11.1 million of which is expected to be funded in 2013. In addition to required future capital contributions, some of the co-investment entities may request additional capital from us and our subsidiaries holding investments in those assets and the failure to provide these contributions could have adverse consequences to our interests in these investments.

Additionally, an important part of our Development Services business strategy is to invest in unconsolidated real estate subsidiaries as a principal (in most cases co-investing with our clients). As of September 30, 2013, we had committed to fund \$13.4 million of additional capital to these unconsolidated subsidiaries, which may be called at any time.

Seasonality

A significant portion of our revenue is seasonal, which an investor should keep in mind when comparing our financial condition and results of operations on a quarter-by-quarter basis. Historically, our revenue, operating income, net income and cash flow from operating activities tends to be lower in the first two quarters and higher in the third and fourth quarters of each year. Earnings and cash flow have historically been particularly concentrated in the fourth quarter due to the focus on completing sales, financing and leasing transactions prior to calendar year-end. This has historically resulted in lower profits or a loss in the first quarter, with revenue and profitability improving in each subsequent quarter.

New Accounting Pronouncements

In March 2013, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update, or ASU, 2013-05, *Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity*. This ASU states that when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASU 2013-05 is effective prospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2013, with early adoption permitted. We do not believe the adoption of this update will have a material effect on our consolidated financial position or results of operations.

In July 2013, the FASB issued ASU 2013-10, *Derivatives and Hedging (Topic 815): Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes*. This ASU permits the Fed Funds Effective Swap Rate, or Overnight Index Swap Rate, to be used as a U.S. benchmark interest rate for hedge accounting purposes, in addition to U.S. treasury rates and LIBOR. This ASU also removes the restriction on using different benchmark rates for similar hedges. This ASU applies to all entities that elect to apply hedge accounting of the benchmark interest rate. This ASU is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. The adoption of this update did not have a material effect on our consolidated financial position or results of operations.

Also in July 2013, the FASB issued ASU 2013-11, *Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. This ASU states that an unrecognized tax benefit, or a portion of an unrecognized tax

Table of Contents

benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows: To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013, with early adoption permitted. This ASU should be applied prospectively to all unrecognized tax benefits that exist at the effective date, with retrospective application permitted. We do not believe the adoption of this update will have a material impact on our consolidated financial position.

Cautionary Note on Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The words anticipate, believe, could, should, propose, continue, estimate, expect, may, plan, predict, project, will and similar terms and phrases are used in this Quarterly Report on Form 10-Q to identify forward-looking statements. Except for historical information contained herein, the matters addressed in this Quarterly Report on Form 10-Q are forward-looking statements. These statements relate to analyses and other information based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies.

These forward-looking statements are made based on our management's expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These uncertainties and factors could cause our actual results to differ materially from those matters expressed in or implied by these forward-looking statements.

The following factors are among those, but are not only those, that may cause actual results to differ materially from the forward-looking statements:

- the sustainability of the recovery in our investment sales and leasing business in light of continuing European sovereign debt issues, the stagnant economy in many European countries as well as fiscal uncertainty in the United States and the impact of slowing growth in China;

- disruptions in general economic and business conditions, particularly in geographies where our business may be concentrated;

- our ability to control costs relative to revenue growth;

- our ability to retain and incentivize producers;

- volatility and disruption of the securities, capital and credit markets, interest rate increases, the cost and availability of capital for investment in real estate, clients' willingness to make real estate or long-term contractual commitments and other factors impacting the value of real estate assets, inside and outside the United States, particularly Europe, which is experiencing sovereign debt issues;

- our ability to identify, acquire and integrate synergistic and accretive businesses;

- costs and potential future capital requirements relating to businesses we may acquire;

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

integration issues arising out of companies we may acquire;

continued high levels of, or increases in, unemployment and general slowdowns in commercial activity;

Table of Contents

variations in historically customary seasonal patterns that cause our business not to perform as expected;

client actions to restrain project spending and reduce outsourced staffing levels;

our ability to diversify our revenue model to offset cyclical economic trends in the commercial real estate industry;

foreign currency fluctuations;

our ability to attract new user and investor clients;

our ability to retain major clients and renew related contracts;

the weakened financial condition of certain of our clients;

a reduction by companies in their reliance on outsourcing for their commercial real estate needs, which would impact our revenues and operating performance;

trends in pricing and risk assumption for commercial real estate services;

changes in tax laws in the United States or in other jurisdictions in which our business may be concentrated that reduce or eliminate deductions or other tax benefits we receive;

our ability to maintain our effective tax rate at or below current levels;

our ability to compete globally, or in specific geographic markets or business segments that are material to us;

our ability to manage fluctuations in net earnings and cash flow, which could result from poor performance in our investment programs, including our participation as a principal in real estate investments;

our ability to leverage our global services platform to maximize and sustain long-term cash flow;

our ability to maintain EBITDA margins that enable us to continue investing in our platform and client service offerings;

our exposure to liabilities in connection with real estate advisory and property management activities and our ability to procure sufficient insurance coverage on acceptable terms;

Edgar Filing: CBRE GROUP, INC. - Form 10-Q

the ability of our Global Investment Management business to realize values in investment funds sufficient to offset incentive compensation expense related thereto, and the ability of that business to maintain and grow assets under management, and any potential related litigation, liabilities or reputational harm possible if we fail to do so;

our ability to comply with laws and regulations related to our international operations, including the anti-corruption laws of the U.S. and other countries;

our leverage and our ability to perform under our credit facilities;

liabilities under guarantees, or for construction defects, that we incur in our Development Services business;

the ability of CBRE Capital Markets to periodically amend, or replace, on satisfactory terms, the agreements for its warehouse lines of credit;

lending activity of Government Sponsored Enterprises, regulatory oversight of such activity and our mortgage servicing revenue from the U.S. commercial real estate mortgage market;

the effect of implementation of new accounting rules and standards; and

the other factors described elsewhere in this Quarterly Report on Form 10-Q, included under the headings "Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations", "Critical Accounting Policies", and "Quantitative and Qualitative Disclosures About

Table of Contents

Market Risk or as described in our Annual Report on Form 10-K for the year ended December 31, 2012, in particular in Item 1A, Risk Factors, or in the other documents and reports we file with the Securities and Exchange Commission.

Forward-looking statements speak only as of the date the statements are made. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. Additional information concerning these and other risks and uncertainties is contained in our other periodic filings with the SEC.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information in this section should be read in connection with the information on market risk related to changes in interest rates and non-U.S. currency exchange rates in Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the year ended December 31, 2012. Our exposure to market risk consists of foreign currency exchange rate fluctuations related to our international operations and changes in interest rates on debt obligations. We manage such risk primarily by managing the amount, sources, and duration of our debt funding and by using derivative financial instruments. We apply the *Derivatives and Hedging* Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) (Topic 815) when accounting for derivative financial instruments. In all cases, we view derivative financial instruments as a risk management tool and, accordingly, do not use derivatives for trading or speculative purposes.

During the nine months ended September 30, 2013, approximately 39% of our business was transacted in local currencies of foreign countries, the majority of which includes the Euro, the British pound sterling, the Canadian dollar, the Chinese yuan, the Hong Kong dollar, the Japanese yen, the Singapore dollar, the Australian dollar and the Indian rupee. We attempt to manage our exposure primarily by balancing assets and liabilities and maintaining cash positions in foreign currencies only at levels necessary for operating purposes. We routinely monitor our exposure to currency exchange rate changes in connection with transactions and sometimes enter into foreign currency exchange option and forward contracts to limit our exposure to such transactions, as appropriate. In the normal course of business, we also sometimes utilize derivative financial instruments in the form of foreign currency exchange contracts to mitigate foreign currency exchange exposure resulting from intercompany loans, expected cash flow and earnings. On March 22, 2013, we entered into three option agreements, including one to sell a notional amount of 9.5 million Euros, which expired on June 26, 2013, one to sell a notional amount of 4.5 million Euros, which expired on September 26, 2013 and one to sell a notional amount of 21.0 million Euros, which expires on December 27, 2013. On September 4, 2013, we entered into two option agreements, including one to sell a notional amount of 6.1 million British pounds sterling, which expired on September 26, 2013 and one to sell a notional amount of 13.7 million British pounds sterling, which expires on December 27, 2013. Included in the consolidated statement of operations set forth in Item 1 of this Quarterly Report were losses of \$1.1 million and \$1.6 million for the three and nine months ended September 30, 2013, respectively, and \$1.5 million and \$3.8 million for the three and nine months ended September 30, 2012, respectively, resulting from net losses on foreign currency exchange option agreements. As of September 30, 2013, the fair values of these foreign currency exchange option agreements were reflected as a \$0.2 million asset and were included in prepaid expenses in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

In March 2011, we entered into five interest rate swap agreements, all with effective dates in October 2011, and immediately designated them as cash flow hedges in accordance with Topic 815. The purpose of these interest rate swap agreements is to hedge potential changes to our cash flows due to the variable interest nature of our senior secured term loan facilities. The total notional amount of these interest rate swap agreements is \$400.0 million, with \$200.0 million expiring in October 2017 and \$200.0 million expiring in September 2019.

Table of Contents

There was no significant hedge ineffectiveness for the three and nine months ended September 30, 2013 and 2012. As of September 30, 2013, the fair values of these interest rate swap agreements were reflected as a \$33.3 million liability and were included in other long-term liabilities in the consolidated balance sheets set forth in Item 1 of this Quarterly Report.

The estimated fair value of our senior secured term loans was approximately \$696.3 million at September 30, 2013. Based on dealers' quotes, the estimated fair values of our 5.00% senior notes and 6.625% senior notes were \$756.6 million and \$378.0 million, respectively, at September 30, 2013.

We utilize sensitivity analyses to assess the potential effect of our variable rate debt. If interest rates were to increase by 10.0% on our outstanding variable rate debt, excluding notes payable on real estate, at September 30, 2013, the net impact of the additional interest cost would be a decrease of \$1.8 million on pre-tax income and a decrease of \$1.8 million on cash provided by operating activities for the nine months ended September 30, 2013.

We also have \$151.0 million of notes payable on real estate as of September 30, 2013. Interest costs relating to notes payable on real estate include both interest that is expensed and interest that is capitalized as part of the cost of real estate. If interest rates were to increase by 10.0%, our total estimated interest cost related to notes payable would increase by approximately \$0.5 million for the nine months ended September 30, 2013. From time to time, we enter into interest rate swap and cap agreements in order to limit our interest expense related to our notes payable on real estate. If any of these agreements are not designated as effective hedges, then they are marked to market each period with the change in fair value recognized in current period earnings. The net impact on our earnings resulting from gains and/or losses on interest rate swap and cap agreements associated with notes payable on real estate has not been significant.

We also enter into loan commitments that relate to the origination or acquisition of commercial mortgage loans that will be held for resale. FASB ASC Topic 815 requires that these commitments be recorded at their fair values as derivatives. The net impact on our financial position and earnings resulting from these derivatives contracts has not been significant.

ITEM 4. CONTROLS AND PROCEDURES

Our policy for disclosure controls and procedures provides guidance on the evaluation of disclosure controls and procedures and is designed to ensure that all corporate disclosure is complete and accurate in all material respects and that all information required to be disclosed in the periodic reports submitted by us under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods and in the manner specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures. Our Disclosure Committee consisting of the principal accounting officer, general counsel, chief communication officer, senior officers of each significant business line and other select employees assisted the Chief Executive Officer and the Chief Financial Officer in this evaluation. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as required by the Securities Exchange Act Rule 13a-15(c) as of the end of the period covered by this report.

No changes in our internal control over financial reporting occurred during the fiscal quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

There have been no material changes to our legal proceedings as previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors as previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Grant recipients under our various equity compensation plans may elect for us to repurchase shares awarded to them to satisfy minimum statutory federal, state and local tax withholding obligations arising from the vesting of their equity awards. The following table presents information with respect to the repurchased shares relating thereto during each calendar month within the fiscal quarter ended September 30, 2013:

Period	Total Number of Shares Purchased	Average Price Paid per Share
July 1, 2013 – July 31, 2013		\$
August 1, 2013 – August 31, 2013		\$
September 1, 2013 – September 30, 2013	601,917	\$ 22.00
Total	601,917	\$ 22.00
