- Balance is the amount after impairment and before deducting net unrealized gains (losses).  
The above table does not include mortgage-backed securities arranged and guaranteed by U.S. government sponsored enterprises, etc., Japanese RMBS such as Japanese Housing Finance Agency securities, and products held by funds such as investment trusts. These are also applicable to the tables in this document.
- Following the publication of Tentative Solution on Reclassification of Debt Securities (Practical Issue Task Force No.26, The Accounting Standards Board of Japan, December 5, 2008), some of our securitized products were reclassified into securities being held to maturity from securities available for sale at and after the end of January 2009. The balance and net unrealized gains (losses) of the securities being held to maturity in the above table are based on book value before reclassification.

AAA and AA-rated products accounted for 96% of our investments in securitized products.
