Explanatory Note

In this Amendment No. 1 to Quarterly Report on Form 10-Q/A for the quarterly period ended June 30, 2014 (the Form 10-Q/A), Regional Management Corp. (the Company) is updating Item 4 (Controls and Procedures) of the Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2014, as filed with the Securities and Exchange Commission (the SEC) on August 7, 2014 (the Original Filing), to reflect changes in the Company's assessment of its disclosure controls and procedures and internal control over financial reporting. Other than new certifications, as required, under Item 6 Exhibits , this Form 10-Q/A does not affect any other parts of, or exhibits to, the Original Filing, nor does it reflect events occurring after the date of the Original Filing.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) are designed to provide reasonable assurance that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate to allow timely decisions regarding required disclosures.

In connection with the preparation of the Original Filing, our management, under the supervision and with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures. On August 7, 2014, at the time we made our Original Filing with the SEC, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2014. However, our Interim Chief Executive Officer (the Interim CEO) and our Chief Financial Officer (the CFO) have since concluded that, because of the existence of a material weakness in our internal control over financial reporting described below, our disclosure controls and procedures were not effective as of June 30, 2014.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Management has identified a control deficiency that constituted a material weakness in our internal control over financial reporting as of June 30, 2014. Specifically, we did not design and maintain effective controls over the credit risk associated with the origination of direct mail loans, resulting in a reasonable possibility that a material misstatement of our allowance for credit losses would not be prevented or detected on a timely basis. Controls were not effectively designed to apply sufficient scrutiny to the credit quality criteria used to identify direct mail recipients and to audit the resulting recipient list. Accordingly, we have determined that this control deficiency constitutes a material weakness. This material weakness did not result in any adjustments to our prior-period interim or annual consolidated financial statements.

In response to the material weakness described above, our management, with oversight from the Audit Committee of our Board of Directors, has taken steps and plans to take additional measures to remediate the underlying causes of the material weakness. While we believe we will remediate the material weakness prior to December 31, 2014, we can provide no assurance at this time that management will be able to report that our internal control over financial reporting is effective as of December 31, 2014.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the quarterly period ended June 30, 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
