Item 2.06. Material Impairments

On January 8, 2015, GSI Group Inc. (the Company or GSI) concluded that it expects to record a non-cash goodwill and intangible asset impairment charge in the range of \$38 million to \$43 million in its consolidated financial statements for the fiscal year ended December 31, 2014, related to its NDS Surgical Imaging (NDS) business. This non-cash impairment charge will not result in future cash expenditures, or otherwise impact the Company's liquidity, cash flows, compliance with its debt covenants, or any future operations.

The Company's conclusion that an impairment charge is necessary is the result of its reduced expectations regarding NDS's future financial results due to slower than expected hospital capital expenditures in 2014, which hampered the Company's efforts to recover revenue following the decision by NDS's largest customer to dual source NDS products, as well as strategic decisions to discontinue certain non-core products within the NDS business. The Company determined that an impairment of the goodwill and intangible assets related to NDS was required following the Company's annual budgeting and long-term strategic planning cycle, which established lower expectations for sales and income for the NDS business.

Item 7.01. Regulation FD Disclosure

On January 12, 2015, the Company issued a press release announcing the impairment charge described in Item 2.06 above. A copy of the press release is attached to this Form 8-K as Exhibit 99.1.
