**AMERIS BANCORP AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**MARCH 31, 2015**

**(Unaudited)**

**NOTE 1 BASIS OF PRESENTATION AND ACCOUNTING POLICIES**

Ameris Bancorp (the Company or Ameris) is a financial holding company headquartered in Moultrie, Georgia. Ameris conducts substantially all of its operations through its wholly owned banking subsidiary, Ameris Bank (the Bank). At March 31, 2015 the Bank operated 73 branches in select markets in Georgia, Alabama, Florida and South Carolina. Our business model capitalizes on the efficiencies of a large financial services company while still providing the community with the personalized banking service expected by our customers. We manage our Bank through a balance of decentralized management responsibilities and efficient centralized operating systems, products and loan underwriting standards. The Company's Board of Directors and senior managers establish corporate policy, strategy and administrative policies. Within our established guidelines and policies, the banker closest to the customer responds to the differing needs and demands of his or her unique market.

The accompanying unaudited consolidated financial statements for Ameris have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statement presentation. The interim consolidated financial statements included herein are unaudited but reflect all adjustments (consisting of normal recurring accruals) which, in the opinion of management, are necessary for a fair presentation of the consolidated financial position and results of operations for the interim periods presented. All significant intercompany accounts and transactions have been eliminated in consolidation. The results of operations for the period ended March 31, 2015 are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto and the report of our registered independent public accounting firm included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

***Newly Adopted Accounting Pronouncements***

ASU 2015-03 *Interest Imputation of Interest* (ASU 2015-03). ASU 2015-03 simplifies presentation of debt issuance costs by requiring that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts. ASU 2015-03 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, and early adoption is permitted. It should be applied on a retrospective basis. The Company is currently evaluating the impact this standard will have on the Company's results of operations, financial position or disclosures.

ASU 2015-02 *Consolidation (Topic 810) - Amendments to the Consolidation Analysis*. ASU 2015-02 includes amendments that are intended to improve targeted areas of consolidation for legal entities including reducing the number of consolidation models from four to two and simplifying the FASB Accounting Standards Codification. ASU 2015-02 is effective for annual and interim periods within those annual periods, beginning after December 15, 2015. The amendments may be applied retrospectively in previously issued financial statements for one or more years with a cumulative effect adjustment to retained earnings as of the beginning of the first year restated. Early adoption is

permitted, including adoption in an interim period. The Company is currently evaluating the impact this standard will have on the Company's results of operations, financial position or disclosures.

ASU 2015-01- *Income Statement - Extraordinary and Unusual Items* ( ASU 2015-01 ). ASU 2015-01 eliminates the concept of extraordinary items by no longer allowing companies to segregate an extraordinary item from the results of operations, separately present an extraordinary item on the income statement, or disclose income taxes or earnings-per-share data applicable to an extraordinary item. ASU 2015-01 is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, and early adoption is permitted. The adoption of this standard is not expected to have a material effect on the Company's results of operations, financial position or disclosures.

ASU 2014-09 *Revenue from Contracts with Customers* ( ASU 2014-09 ). ASU 2014-09 provides guidance that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 is effective prospectively, for annual and interim periods, beginning after December 15, 2016. The Company is currently evaluating the impact this standard will have on the Company's results of operations, financial position or disclosures.

---

**Table of Contents****NOTE 2 PENDING MERGER AND ACQUISITIONS**

On January 28, 2015, the Company entered into a Stock Purchase Agreement (the Purchase Agreement) with Merchants & Southern Banks of Florida, Incorporated, a Florida corporation ( Merchants ), and Dennis R. O Neil, the sole shareholder of Merchants. Merchants and Southern Bank is a wholly owned banking subsidiary of Merchants that has a total of thirteen banking locations in Alachua, Marion and Clay Counties, Florida. Pursuant to the terms of the Purchase Agreement, the Company will purchase all of the issued and outstanding shares of common stock of Merchants for a total purchase price of \$50,000,000. As of December 31, 2014, Merchants reported assets of \$473 million, gross loans of \$214 million and deposits of \$336 million. The purchase price will be allocated among the net assets of Merchants acquired as appropriate, with the remaining balance being reported as goodwill. Consummation of the acquisition is subject to customary conditions. The Company has received regulatory approval and expects to close the transaction on May 22, 2015.

On January 28, 2015, the Bank entered into a Purchase and Assumption Agreement (the P&A Agreement) with Bank of America, National Association pursuant to which the Bank has agreed to purchase, subject to the terms and conditions set forth in the P&A Agreement, eighteen branches of Bank of America, National Association located in Calhoun, Columbia, Dixie, Hamilton, Suwanee and Walton Counties, Florida and Ben Hill, Colquitt, Dougherty, Laurens, Liberty, Thomas, Tift and Ware Counties, Georgia. The Bank will assume an estimated \$864 million of deposits at a deposit premium of 3.00 percent based on deposit balances near the time the transaction closes and is expected to record a core deposit intangible asset related to the deposits. The Bank will also acquire an immaterial amount of performing loans and premise and equipment as part of the transaction. Consummation of the acquisition is subject to customary conditions. The Company has received regulatory approvals and expects to close the transaction on June 12, 2015.

**NOTE 3 BUSINESS COMBINATIONS**

On June 30, 2014, the Company completed its acquisition of The Coastal Bankshares, Inc. ( Coastal ), a bank holding company headquartered in Savannah, Georgia. Upon consummation of the acquisition, Coastal was merged with and into the Company, with Ameris as the surviving entity in the merger. At that time, Coastal's wholly owned banking subsidiary, The Coastal Bank ( Coastal Bank ), was also merged with and into the Bank. The acquisition grew the Company's existing market presence, as Coastal Bank had a total of six banking locations in Chatham, Liberty and Effingham Counties, Georgia. Coastal's common shareholders received 0.4671 of a share of the Company's common stock in exchange for each share of Coastal's common stock. As a result, the Company issued 1,598,998 common shares at a fair value of \$34.5 million and paid \$2.8 million cash in exchange for outstanding warrants.

The acquisition of Coastal was accounted for using the purchase method of accounting in accordance with FASB ASC 805, *Business Combinations*. Assets acquired, liabilities assumed and consideration exchanged were recorded at their respective acquisition date fair values. Determining the fair value of assets and liabilities is a complicated process involving significant judgment regarding methods and assumptions used to calculate estimated fair values. Fair values are preliminary and subject to refinement for up to one year after the closing date of the acquisition as additional information regarding the closing date fair values becomes available. During the third quarter of 2014, management revised its initial estimates regarding the valuation of other real estate owned. In addition, during the third and fourth quarters of 2014, management continued its assessment and recorded the deferred tax assets resulting from differences in the carrying values of acquired assets and assumed liabilities for financial reporting purposes and their basis for income tax purposes. This estimate also reflects acquired net operating loss carryforwards and other acquired assets with built-in losses that are expected to be settled or otherwise recovered in future periods where the realization of such benefits would be subject to applicable limitations under Sections 382 of the Internal Revenue Code of 1986, as amended. Management continues to evaluate fair value adjustments related to deferred tax assets, pending the filing of

the final tax return for Coastal.

**Table of Contents**

The following table presents the assets acquired and liabilities of Coastal assumed as of June 30, 2014 and their fair value estimates:

**Consideration:**

|  |           |
|--|-----------|
| Ameris Bancorp common shares issued                    | 1,598,998 |
| Purchase price per share of the Company's common stock | \$ 21.56  |
| Company common stock issued                            | 34,474    |
| Cash exchanged for shares                              | 2,796     |
| Fair value of total consideration transferred          | \$ 37,270 |

*Explanation of fair value adjustments*

- (a) Adjustment reflects the fair value adjustments of the available for sale portfolio as of the acquisition date.
- (b) Adjustment reflects the fair value adjustments based on the Company's evaluation of the acquired loan portfolio.
- (c) Adjustment reflects the elimination of Coastal's allowance for loan losses.
- (d) Adjustment reflects the fair value adjustment based on the Company's evaluation of the acquired OREO portfolio.
- (e) Adjustment reflects the recording of core deposit intangible on the acquired core deposit accounts.

**Table of Contents**

- (f) Adjustment reflects the fair value adjustment to the subordinated deferrable interest debentures at the acquisition date.
- (g) Adjustment reflects the additional fair value adjustment based on the Company's evaluation of the acquired OREO portfolio.
- (h) Adjustment reflects final recording of core deposit intangible on the acquired core deposit accounts.
- (i) Adjustment reflects the deferred taxes on the difference in the carrying values of acquired assets and assumed liabilities for financial reporting purposes and their basis for federal income tax purposes.

Goodwill of \$27.4 million, which is the excess of the merger consideration over the fair value of net assets acquired, was recorded in the Coastal acquisition and is the result of expected operational synergies and other factors. This goodwill is not expected to be deductible for tax purposes.

The results of operations of Coastal subsequent to the acquisition date are included in the Company's consolidated statements of operations. The following unaudited pro forma information reflects the Company's estimated consolidated results of operations as if the acquisition had occurred on January 1, 2014, unadjusted for potential cost savings (in thousands).

| Average number of shares outstanding, basic                        | 26,743   |
| Average number of shares outstanding, diluted                      | 27,172   |

In the acquisition, the Company purchased \$279.4 million of loans at fair value, net of \$16.7 million, or 5.64%, estimated discount to the outstanding principal balance. Of the total loans acquired, management identified \$29.3 million that were considered to be credit impaired and are accounted for under ASC Topic 310-30. The table below summarizes the total contractually required principal and interest cash payment, management's estimate of expected total cash payments and fair value of the loans as of acquisition date for purchased credit impaired loans. Contractually required principal and interest payment have been adjusted for estimated prepayments.

|   |                  |
|---|------------------|
| Contractually required principal and interest         | \$ 38,194        |
| Non-accretable difference                             | (5,632)          |
| Cash flows expected to be collected                   | 32,562           |
| Accretable yield                                      | (3,282)          |
| <b>Total purchased credit-impaired loans acquired</b> | <b>\$ 29,280</b> |

Edgar Filing: Ameris Bancorp - Form 10-Q

A rollforward of purchased non-covered loans for the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014 is shown below:

| Balance, January 1   | \$ 25,716         | \$ 26,189            | \$ 26,189         |
| Additions due to acquisitions                                  |                   | 7,799                |                   |
| Accretion  | (3,111)           | (9,745)              | (1,023)           |
| Transfers between non-accretable and accretable discounts, net | (2,376)           | 1,473                | 2,680             |
| Ending balance   | \$ 20,229         | \$ 25,716            | \$ 27,846         |

**NOTE 4 INVESTMENT SECURITIES**

The Company's investment policy blends the Company's liquidity needs and interest rate risk management with its desire to increase income and provide funds for expected growth in loans. The investment securities portfolio consists primarily of U.S. government-sponsored mortgage-backed securities and agencies; state, county and municipal securities and corporate debt securities. The Company's portfolio and investing philosophy concentrate activities in obligations where the credit risk is limited. For the small portion of the Company's portfolio found to present credit risk, the Company has reviewed the investments and financial performance of the obligors and believes the credit risk to be acceptable.

The amortized cost and estimated fair value of investment securities available for sale at March 31, 2015, December 31, 2014 and March 31, 2014 are presented below:

|  | Amortized<br>Cost      | Gross<br>Unrealized<br>Gains | Gross<br>Unrealized<br>Losses | Fair<br>Value |
|--|------------------------|------------------------------|-------------------------------|---------------|
|  | (Dollars in Thousands) |                              |                               |               |

**Table of Contents**

The amortized cost and fair value of available-for-sale securities at March 31, 2015 by contractual maturity are summarized in the table below. Expected maturities for mortgage-backed securities may differ from contractual maturities because in certain cases borrowers can prepay obligations without prepayment penalties. Therefore, these securities are shown separately in the following maturity summary.

|                                 | <b>Amortized<br/>Cost</b>         | <b>Fair<br/>Value</b> |
|---------------------------------|-----------------------------------|-----------------------|
|                                 | <b>(Dollars in<br/>Thousands)</b> |                       |
| Due in one year or less         | \$ 8,588                          | \$ 8,667              |
| Due from one year to five years | 42,345                            | 43,706                |
| Due from five to ten years      | 60,795                            | 62,690                |
| Due after ten years             | 68,519                            | 69,920                |
| Mortgage-backed securities      | 420,497                           | 425,347               |
|                                 | \$ 600,744                        | \$ 610,330            |

Securities with a carrying value of approximately \$426.6 million serve as collateral to secure public deposits and for other purposes required or permitted by law at March 31, 2015, compared to \$286.6 million and \$295.7 million at December 31, 2014 and March 31, 2014, respectively.

The following table details the gross unrealized losses and fair value of securities aggregated by category and duration of the continuous unrealized loss position at March 31, 2015, December 31, 2014 and March 31, 2014.

| Description of Securities              | <b>Less Than 12<br/>Months</b> |                              | <b>12 Months or More</b> |                              | <b>Total</b>          |                              |

| Total debt securities                  | \$ 103,393 | \$ (3,052) | \$ 44,459 | \$ (2,290) | \$ 147,852 | \$ (5,342) |

As of March 31, 2015, the Company's security portfolio consisted of 346 securities, 48 of which were in an unrealized loss position. The majority of unrealized losses are related to the Company's mortgage-backed and state, county and municipal securities, as discussed below.

At March 31, 2015, the Company held 35 mortgage-backed securities that were in an unrealized loss position, all of which were issued by U.S. government-sponsored entities and agencies. Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Company does not have the intent to sell these mortgage-backed securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be other-than-temporarily impaired at March 31, 2015.

**Table of Contents**

At March 31, 2015, the Company held 11 state, county and municipal securities, one U.S. government-sponsored agency security, and one corporate security that were in an unrealized loss position. Because the decline in fair value is attributable to changes in interest rates, and not credit quality, and because the Company does not have the intent to sell these securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be other-than-temporarily impaired at March 31, 2015.

During the first three months of 2015 and 2014, the Company received timely and current interest and principal payments on all of the securities classified as corporate debt securities, except for one security that began deferring interest during the fourth quarter of 2010. The Company's investments in subordinated debt include investments in regional and super-regional banks on which the Company prepares regular analysis through review of financial information and credit ratings. Investments in preferred securities are also concentrated in the preferred obligations of regional and super-regional banks through non-pooled investment structures. The Company did not have investments in pooled trust preferred securities at March 31, 2015, December 31, 2014 or March 31, 2014.

Management and the Company's Asset and Liability Committee (the ALCO Committee) evaluate securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. While the majority of the unrealized losses on debt securities relate to changes in interest rates, corporate debt securities have also been affected by reduced levels of liquidity and higher risk premiums. Occasionally, management engages independent third parties to evaluate the Company's position in certain corporate debt securities to aid management and the ALCO Committee in its determination regarding the status of impairment. The Company believes that each investment poses minimal credit risk and further, that the Company does not intend to sell these investment securities at an unrealized loss position at March 31, 2015, and it is more likely than not that the Company will not be required to sell these securities prior to recovery or maturity. Therefore, at March 31, 2015, these investments are not considered impaired on an other-than-temporary basis.

At March 31, 2015, December 31, 2014 and March 31, 2014, all of the Company's mortgage-backed securities were obligations of government-sponsored agencies.

The following table is a summary of sales activities in the Company's investment securities available for sale for the three months ended March 31, 2015, year ended December 31, 2014 and three months ended March 31, 2014:

|  | March 31, 2015         | December 31, 2014 | March 31, 2014 |
|--|------------------------|-------------------|----------------|
|  | (Dollars in Thousands) |                   |                |
| Gross gains on sales of securities                           | \$ 31                  | \$ 141            | \$ 8           |
| Gross losses on sales of securities                          | (19)                   | (3)               | (2)            |
| Net realized gains on sales of securities available for sale | \$ 12                  | \$ 138            | \$ 6           |
| Sales proceeds   | \$ 5,118               | \$ 94,051         | \$ 68,899      |

**Table of Contents****NOTE 5 - LOANS**

The Company engages in a full complement of lending activities, including real estate-related loans, agriculture-related loans, commercial and financial loans and consumer installment loans within select markets in Georgia, Alabama, Florida and South Carolina. Ameris concentrates the majority of its lending activities in real estate loans. While the risk of loss in the Company's portfolio is primarily tied to the credit quality of the various borrowers, risk of loss may increase due to factors beyond the Company's control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio.

Commercial, financial and agricultural loans include both secured and unsecured loans for working capital, expansion, crop production and other business purposes. Short-term working capital loans are secured by non-real estate collateral such as accounts receivable, crops, inventory and equipment. The Company evaluates the financial strength, cash flow, management, credit history of the borrower and the quality of the collateral securing the loan. The Bank often requires personal guarantees and secondary sources of repayment on commercial, financial and agricultural loans.

Real estate loans include construction and development loans, commercial and farmland loans and residential loans. Construction and development loans include loans for the development of residential neighborhoods, one-to-four family residential construction loans to builders and consumers, and commercial real estate construction loans, primarily for owner-occupied properties. The Company limits its construction lending risk through adherence to established underwriting procedures. Commercial real estate loans include loans secured by owner-occupied commercial buildings for office, storage, retail, farmland and warehouse space. They also include non-owner occupied commercial buildings such as leased retail and office space. Commercial real estate loans may be larger in size and may involve a greater degree of risk than one-to-four family residential mortgage loans. Payments on such loans are often dependent on successful operation or management of the properties. The Company's residential loans represent permanent mortgage financing and are secured by residential properties located within the Bank's market areas.

Consumer installment loans and other loans include automobile loans, boat and recreational vehicle financing, and secured and unsecured personal loans. Consumer loans carry greater risks than other loans, as the collateral can consist of rapidly depreciating assets such as automobiles and equipment that may not provide an adequate source of repayment of the loan in the case of default.

Loans are stated at unpaid balances, net of unearned income and deferred loan fees. Balances within the major loan categories are presented in the following table:

| <b>(Dollars in Thousands)</b>            | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |

|  | \$ 643,092                | \$ 674,239                   | \$ 437,269                |

**Table of Contents**

Covered loans are defined as loans that were acquired in FDIC-assisted transactions that are covered by a loss-sharing agreement with the FDIC. Covered loans totaling \$245.7 million, \$271.3 million and \$372.7 million at March 31, 2015, December 31, 2014 and March 31, 2014, respectively, are not included in the above schedules.

Covered loans are shown below according to loan type as of the end of the periods shown:

| <b>(Dollars in Thousands)</b>            | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|--|---------------------------|------------------------------|---------------------------|
| Commercial, financial and agricultural   | \$ 20,905                 | \$ 21,467                    | \$ 24,813                 |
| Real estate construction and development | 19,519                    | 23,447                       | 41,434                    |
| Real estate commercial and farmland      | 130,290                   | 147,627                      | 214,649                   |
| Real estate residential                  | 74,847                    | 78,520                       | 91,372                    |
| Consumer installment                     | 184                       | 218                          | 426                       |
|  | <b>\$ 245,745</b>         | <b>\$ 271,279</b>            | <b>\$ 372,694</b>         |

**Nonaccrual and Past Due Loans**

A loan is placed on nonaccrual status when, in management's judgment, the collection of the interest income appears doubtful. Interest receivable that has been accrued and is subsequently determined to have doubtful collectability is charged against interest income. Interest payments on nonaccrual loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured. Past due loans are loans whose principal or interest is past due 90 days or more. In some cases, where borrowers are experiencing financial difficulties, loans may be restructured to provide terms significantly different from the original contractual terms.

The following table presents an analysis of loans accounted for on a nonaccrual basis, excluding purchased non-covered and covered loans:

| <b>(Dollars in Thousands)</b>            | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |

**Table of Contents**

**Impaired Loans**

Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect all amounts due in accordance with the original contractual terms of the loan agreements. When determining if the Company will be unable to collect all principal and interest payments due in accordance with the contractual terms of the loan agreement, the Company considers the borrower's capacity to pay, which includes such factors as the borrower's current financial statements, an analysis of global cash flow sufficient to pay all debt obligations and an evaluation of secondary sources of repayment, such as guarantor support and collateral value. Impaired loans include loans on nonaccrual status and troubled debt restructurings. The Company individually assesses for impairment all nonaccrual loans greater than \$200,000 and rated substandard or worse and all troubled debt restructurings greater than \$100,000. If a loan is deemed impaired, a specific valuation allowance is allocated, if necessary, so that the loan is reported net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral. Interest payments on impaired loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis.

**Table of Contents**

The following is a summary of information pertaining to impaired loans, excluding purchased non-covered and covered loans:

|   | As of and For the Period Ended |                      |                   |

**Table of Contents**

**Credit Quality Indicators**

The Company uses a nine category risk grading system to assign a risk grade to each loan in the portfolio. The following is a description of the general characteristics of the grades:

*Grade 10 Prime Credit* This grade represents loans to the Company's most creditworthy borrowers or loans that are secured by cash or cash equivalents.

*Grade 15 Good Credit* This grade includes loans that exhibit one or more characteristics better than that of a *Satisfactory Credit*. Generally, debt service coverage and borrower's liquidity is materially better than required by the Company's loan policy.

*Grade 20 Satisfactory Credit* This grade is assigned to loans to borrowers who exhibit satisfactory credit histories, contain acceptable loan structures and demonstrate ability to repay.

*Grade 23 Performing, Under-Collateralized Credit* This grade is assigned to loans that are currently performing and supported by adequate financial information that reflects repayment capacity but exhibits a loan-to-value ratio greater than 110%, based on a documented collateral valuation.

*Grade 25 Minimum Acceptable Credit* This grade includes loans which exhibit all the characteristics of a *Satisfactory Credit*, but warrant more than normal level of banker supervision due to: (i) circumstances which elevate the risks of performance (such as start-up operations, untested management, heavy leverage and interim losses); (ii) adverse, extraordinary events that have affected, or could affect, the borrower's cash flow, financial condition, ability to continue operating profitability or refinancing (such as death of principal, fire and divorce); (iii) loans that require more than the normal servicing requirements (such as any type of construction financing, acquisition and development loans, accounts receivable or inventory loans and floor plan loans); (iv) existing technical exceptions which raise some doubts about the Bank's perfection in its collateral position or the continued financial capacity of the borrower; or (v) improvements in formerly criticized borrowers, which may warrant banker supervision.

*Grade 30 Other Asset Especially Mentioned* This grade includes loans that exhibit potential weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may result in deterioration of the repayment prospects for the asset or in the Company's credit position at some future date.

*Grade 40 Substandard* This grade represents loans which are inadequately protected by the current credit worthiness and paying capacity of the borrower or of the collateral pledged, if any. These assets exhibit a well-defined weakness or are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. These weaknesses may be characterized by past due performance, operating losses or questionable collateral values.

*Grade 50 Doubtful* This grade includes loans which exhibit all of the characteristics of a substandard loan with the added provision that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable or improbable.

*Grade 60 Loss* This grade is assigned to loans which are considered uncollectible and of such little value that their continuance as active assets of the Bank is not warranted. This classification does not mean that the loss has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing it off.

**Table of Contents**

The following table presents the loan portfolio, excluding purchased non-covered and covered loans, by risk grade as of March 31, 2015:

| Risk Grade | Commercial, Real estate financial & agricultural |            | Real estate - construction & commercial farmland |            | Real estate - residential installment loans |           | Consumer Other | Total        |
|------------|--|------------|--|------------|---|-----------|----------------|--------------|
|            | development                                      |            |  |            |   |           |                |              |

**Table of Contents**

**Troubled Debt Restructurings**

The restructuring of a loan is considered a troubled debt restructuring if both (i) the borrower is experiencing financial difficulties and (ii) the Company has granted a concession. Concessions may include interest rate reductions to below market interest rates, principal forgiveness, restructuring amortization schedules and other actions intended to minimize potential losses. The Company has exhibited the greatest success for rehabilitation of the loan by a reduction in the rate alone (maintaining the amortization of the debt) or a combination of a rate reduction and the forbearance of previously past due interest or principal. This has most typically been evidenced in certain commercial real estate loans whereby a disruption in the borrower's cash flow resulted in an extended past due status, of which the borrower was unable to catch up completely as the cash flow of the property ultimately stabilized at a level lower than its original level. A reduction in rate, coupled with a forbearance of unpaid principal and/or interest, allowed the net cash flows to service the debt under the modified terms.

The Company's policy requires a restructure request to be supported by a current, well-documented credit evaluation of the borrower's financial condition and a collateral evaluation that is no older than six months from the date of the restructure. Key factors of that evaluation include the documentation of current, recurring cash flows, support provided by the guarantor(s) and the current valuation of the collateral. If the appraisal in the file is older than six months, an evaluation must be made as to the continued reasonableness of the valuation. For certain income-producing properties, current rent rolls and/or other income information can be utilized to support the appraisal valuation, when coupled with documented cap rates within our markets and a physical inspection of the collateral to validate the current condition.

The Company's policy states that in the event a loan has been identified as a troubled debt restructuring, it should be assigned a grade of substandard and placed on nonaccrual status until such time the borrower has demonstrated the ability to service the loan payments based on the restructured terms—generally defined as six months of satisfactory payment history. Missed payments under the original loan terms are not considered under the new structure; however, subsequent missed payments are considered non-performance and are not considered toward the six month required term of satisfactory payment history. The Company's loan policy states that a nonaccrual loan may be returned to accrual status when (i) none of its principal and interest is due and unpaid, and the Company expects repayment of the remaining contractual principal and interest or (ii) it otherwise becomes well secured and in the process of collection. Restoration to accrual status on any given loan must be supported by a well-documented credit evaluation of the borrower's financial condition and the prospects for full repayment, approved by the Company's Chief Credit Officer.

In the normal course of business, the Company renews loans with a modification of the interest rate or terms that are not deemed as troubled debt restructurings because the borrower is not experiencing financial difficulty. The Company modified loans in the first three months of 2015 and 2014 totaling \$32.0 million and \$6.3 million, respectively, under such parameters. In addition, the Company offers consumer loan customers an annual skip-a-pay program that is based on certain qualifying parameters and not based on financial difficulties. The Company does not treat these as troubled debt restructurings.

As of March 31, 2015, December 31, 2014 and March 31, 2014, the Company had a balance of \$13.9 million, \$15.3 million and \$21.2 million, respectively, in troubled debt restructurings, excluding purchased non-covered and covered loans. The Company has recorded \$1.6 million, \$2.2 million and \$2.3 million in previous charge-offs on such loans at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. The Company's balance in the allowance for loan losses allocated to such troubled debt restructurings was \$1.6 million, \$231,000 and \$422,000 at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. At March 31, 2015, the Company did not have any commitments to lend additional funds to debtors whose terms have been modified in troubled restructurings.

Edgar Filing: Ameris Bancorp - Form 10-Q

During the three months ending March 31, 2015 and 2014, the Company modified loans as troubled debt restructurings with principal balances of \$2.7 million and \$1.2 million, respectively, and these modifications did not have a material impact on the Company's allowance for loan loss. The following table presents the loans by class modified as troubled debt restructurings that occurred during the three months ending March 31, 2015 and 2014:

| Loan class:                            | March 31, 2015 |                           | March 31, 2014 |                           |
|--|----------------|---------------------------|----------------|---------------------------|

**Table of Contents****Allowance for Loan Losses**

The allowance for loan losses represents an allowance for probable incurred losses in the loan portfolio. The adequacy of the allowance for loan losses is evaluated periodically based on a review of all significant loans, with a particular emphasis on non-accruing, past due and other loans that management believes might be potentially impaired or warrant additional attention. The Company segregates the loan portfolio by type of loan and utilizes this segregation in evaluating exposure to risks within the portfolio. In addition, based on internal reviews and external reviews performed by independent auditors and regulatory authorities, the Company further segregates the loan portfolio by loan grades based on an assessment of risk for a particular loan or group of loans. Certain reviewed loans are assigned specific allowances when a review of relevant data determines that a general allocation is not sufficient or when the review affords management the opportunity to adjust the amount of exposure in a given credit. In establishing allowances, management considers historical loan loss experience but adjusts this data with a significant emphasis on current loan quality trends, current economic conditions and other factors in the markets where the Company operates. Factors considered include, among others, current valuations of real estate in the Company's markets, unemployment rates, the effect of weather conditions on agricultural related entities and other significant local economic events.

The Company has developed a methodology for determining the adequacy of the allowance for loan losses which is monitored by the Company's Chief Credit Officer. Procedures provide for the assignment of a risk rating for every loan included in the total loan portfolio, with the exception of certain mortgage loans serviced at a third party, mortgage warehouse lines and overdraft protection loans which are treated as pools for risk rating purposes. The risk rating schedule provides nine ratings of which five ratings are classified as pass ratings and four ratings are classified as criticized ratings. Each risk rating is assigned a percentage factor to be applied to the loan balance to determine the adequate amount of reserve. All relationships greater than \$1.0 million and the majority of relationships greater than \$250,000 are reviewed annually by the Bank's independent internal loan review department or an independent third party loan review firm. As a result of these loan reviews, certain loans may be identified as having deteriorating credit quality. Other loans that surface as problem loans may also be assigned specific reserves. Past due loans are assigned risk ratings based on the number of days past due. The calculation of the allowance for loan losses, including underlying data and assumptions, is reviewed regularly by the Company's Chief Financial Officer and the independent internal loan review department.

Loan losses are charged against the allowance when management believes the collection of a loan's principal is unlikely. Subsequent recoveries are credited to the allowance. Consumer loans are charged-off in accordance with the Federal Financial Institutions Examination Council's (FFIEC) Uniform Retail Credit Classification and Account Management Policy. Commercial loans are charged-off when they are deemed uncollectible, which usually involves a triggering event within the collection effort. If the loan is collateral dependent, the loss is more easily identified and is charged-off when it is identified, usually based upon receipt of an appraisal. However, when a loan has guarantor support, the Company may carry the estimated loss as a reserve against the loan while collection efforts with the guarantor are pursued. If, after collection efforts with the guarantor are complete, the deficiency is still considered uncollectible, the loss is charged-off and any further collections are treated as recoveries. In all situations, when a loan is downgraded to an Asset Quality Rating of 60 (Loss per the regulatory guidance), the uncollectible portion is charged-off.

During the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014, the Company recorded provision for loan loss expense of \$401,000, \$843,000 and \$225,000, respectively, net of the FDIC loss-share receivable, to account for losses where there was a decrease in cash flows from the initial estimates on loans acquired in FDIC-assisted transactions. During the three months ended March 31, 2015, the Company recorded a net provision for loan loss credit of \$432,000 due to recoveries received on previously charged off purchased non-covered loans. During the year ended December 31, 2014 the Company recorded provision

for loan loss expense of \$84,000 to account for losses where there was a decrease in cash flows from the initial estimates on purchased non-covered loans. Charge-offs on purchased loans, both covered and non-covered, are recorded when impairment is recorded. Provision expense for covered loans is recorded net of the indemnification by the FDIC loss-share agreements.

**Table of Contents**

The following table details activity in the allowance for loan losses by portfolio segment for the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2015. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

**NOTE 6 ASSETS ACQUIRED IN FDIC-ASSISTED ACQUISITIONS**

From October 2009 through July 2012, the Company participated in ten FDIC-assisted acquisitions whereby the Company purchased certain failed institutions out of the FDIC's receivership. These institutions include the following:

| <b>Bank Acquired</b>                  | <b>Location</b>      | <b>Branches</b> | <b>Date Acquired</b> |
|---------------------------------------|----------------------|-----------------|----------------------|
| American United Bank<br>( AUB )       | Lawrenceville, Ga.   | 1               | October 23, 2009     |
| United Security Bank ( USB )          | Sparta, Ga.          | 2               | November 6, 2009     |
| Satilla Community Bank<br>( SCB )     | St. Marys, Ga.       | 1               | May 14, 2010         |
| First Bank of Jacksonville<br>( FBJ ) | Jacksonville, Fl.    | 2               | October 22, 2010     |
| Tifton Banking Company<br>( TBC )     | Tifton, Ga.          | 1               | November 12, 2010    |
| Darby Bank & Trust ( DBT )            | Vidalia, Ga.         | 7               | November 12, 2010    |
| High Trust Bank ( HTB )               | Stockbridge, Ga.     | 2               | July 15, 2011        |
| One Georgia Bank ( OGB )              | Midtown Atlanta, Ga. | 1               | July 15, 2011        |
| Central Bank of Georgia<br>( CBG )    | Ellaville, Ga.       | 5               | February 24, 2012    |
| Montgomery Bank & Trust<br>( MBT )    | Ailey, Ga.           | 2               | July 6, 2012         |

The determination of the initial fair values of loans at the acquisition date and the initial fair values of the related FDIC indemnification assets involves a high degree of judgment and complexity. The carrying values of the acquired loans and the FDIC indemnification assets reflect management's best estimate of the fair value of each of these assets as of the date of acquisition. However, the amount that the Company realizes on these assets could differ materially from the carrying values reflected in the financial statements included in this report, based upon the timing and amount of collections on the acquired loans in future periods. Because of the loss-sharing agreements with the FDIC on these assets, the Company does not expect to incur any significant losses. To the extent the actual values realized for the acquired loans are different from the estimates, the indemnification assets will generally be affected in an offsetting manner due to the loss-sharing support from the FDIC.

**Table of Contents**

FASB ASC 310 30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality* ( ASC 310 ), applies to a loan with evidence of deterioration of credit quality since origination, acquired by completion of a transfer for which it is probable, at acquisition, that the investor will be unable to collect all contractually required payments receivable. ASC 310 prohibits carrying over or creating an allowance for loan losses upon initial recognition for loans which fall under the scope of this statement. At the acquisition dates, a majority of these loans were valued based on the liquidation value of the underlying collateral because the future cash flows are primarily based on the liquidation of underlying collateral. There was no allowance for credit losses established related to these ASC 310 loans at the acquisition dates, based on the provisions of this statement. Over the life of the acquired loans, the Company continues to estimate cash flows expected to be collected. If the expected cash flows expected to be collected increases, then the Company adjusts the amount of accretible discount recognized on a prospective basis over the loan s remaining life. If the expected cash flows expected to be collected decreases, then the Company records a provision for loan loss in its consolidated statement of operations.

At March 31, 2015, the Company s FDIC loss-sharing receivable totaled \$23.3 million, which is comprised of \$16.1 million in indemnification asset (for reimbursements associated with anticipated losses in future quarters) and \$14.0 million in current charge-offs and expenses already incurred but not yet submitted for reimbursement, less the accrued clawback liability of \$6.8 million.

The following table summarizes components of all covered assets at March 31, 2015, December 31, 2014 and March 31, 2014 and their origin:

|                        |            | Less:<br>Fair<br>value<br>adjustments | Total<br>covered<br>loans | OREO      | Less:<br>Fair<br>value<br>adjustments | Total<br>covered<br>OREO | Total<br>covered<br>assets | FDIC loss-share<br>receivable<br>(payable) |

**Table of Contents**

The shared-loss agreements are subject to the servicing procedures as specified in the agreement with the FDIC. The expected reimbursements under the shared-loss agreements were recorded as an indemnification asset at their estimated fair values on the acquisition dates. As of March 31, 2015, December 31, 2014 and March 31, 2014, the Company has recorded a clawback liability of \$6.8 million, \$6.2 million and \$5.2 million, respectively, which represents the obligation of the Company to reimburse the FDIC should actual losses be less than certain thresholds established in each loss-share agreement. Changes in the FDIC shared-loss receivable for the three months ended March 31, 2015, for the year ended December 31, 2014 and for the three months ended March 31, 2014 are as follows:

The following is a summary of the activity in covered other real estate owned during the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014:

| <b>(Dollars in Thousands)</b>  | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|--|---------------------------|------------------------------|---------------------------|
| Beginning balance, January 1   | \$ 19,907                 | \$ 45,893                    | \$ 45,893                 |
| Loans transferred to other real estate owned                               | 1,230                     | 13,650                       | 4,925                     |
| Transfer from covered other real estate owned due to loss-share expiration |                           | (1,226)                      |                           |
| Net gains (losses) on sale and write-downs                                 | (1,005)                   | (5,965)                      | (1,095)                   |
| Sales proceeds   | (4,043)                   | (32,445)                     | (7,087)                   |
| <b>Ending balance</b>  | <b>\$ 16,089</b>          | <b>\$ 19,907</b>             | <b>\$ 42,636</b>          |

**Table of Contents****NOTE 8 WEIGHTED AVERAGE SHARES OUTSTANDING**

Earnings per share have been computed based on the following weighted average number of common shares outstanding:

|  | <b>For the Three<br/>Months<br/>Ended March 31,<br/>2015      2014<br/>(share data in<br/>thousands)</b> |            |
|--|--|------------|
| Basic shares outstanding                   | 30,443   | 25,144     |
| Plus: Dilutive effect of ISOs              | 124  | 95         |
| Plus: Dilutive effect of Restricted Grants | 229  | 334        |
| <br>Diluted shares outstanding             | <br>30,796   | <br>25,573 |

For the quarter ended March 31, 2014, the Company excluded 268,000 potential common shares with strike prices that would cause them to be anti-dilutive. The Company has not excluded any potential common shares at March 31, 2015.

**NOTE 9 OTHER BORROWINGS**

The Company has, from time to time, utilized certain borrowing arrangements with various financial institutions to fund growth in earning assets or provide additional liquidity when appropriate spreads can be realized. At March 31, 2015, December 31, 2014 and March 31, 2014, there were \$43.9 million, \$78.9 million and \$59.7 million, respectively, outstanding borrowings with the Company's correspondent banks.

Other borrowings consist of the following:

| <b>(Dollars in Thousands)</b>  | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|--|---------------------------|------------------------------|---------------------------|
| Daily Rate Credit from Federal Home Loan Bank with a fixed interest rate of 0.36%  | \$                        | \$ 35,000                    | \$ 25,000                 |
| Advances under revolving credit agreement with a regional bank with interest at 90-day LIBOR plus 3.50% (3.73% at March 31, 2015 and December 31, 2014) due in August 2016, secured by subsidiary bank stock | 24,000                    | 24,000                       |                           |
| Advances under revolving credit agreement with a regional bank with interest at 90-day LIBOR plus 4.00% (4.24% at March 31, 2014) due in August 2016, secured by subsidiary bank stock                       |                           |                              | 10,000                    |
|  | 4,851                     | 4,881                        | 4,963                     |

Edgar Filing: Ameris Bancorp - Form 10-Q

|  |                  |                  |                  |
|--|------------------|------------------|------------------|
| Advance from correspondent bank with a fixed interest rate of 4.50%, due November 27, 2017, secured by subsidiary bank loan receivable   |                  |                  |                  |
| Subordinated debt issued by Prosperity Bank due June 2016 with an interest rate of 90-day LIBOR plus 1.60% (1.84% at March 31, 2014)   |                  |                  | 5,000            |
| Subordinated debt issued by The Prosperity Banking Company due September 2016 with an interest rate of 90-day LIBOR plus 1.75% (2.02% at March 31, 2015, 1.99% at December 31, 2014 and 1.98% at March 31, 2014) | 15,000           | 15,000           | 14,714           |
| <b>Total</b>   | <b>\$ 43,851</b> | <b>\$ 78,881</b> | <b>\$ 59,677</b> |

The advances from the Federal Home Loan Bank ( FHLB ) are collateralized by a blanket lien on all first mortgage loans and other specific loans in addition to FHLB stock. At March 31, 2015, \$275.5 million was available for borrowing on lines with the FHLB.

As of March 31, 2015, the Company maintained credit arrangements with various financial institutions to purchase federal funds up to \$50 million.

The Company also participates in the Federal Reserve discount window borrowings. At March 31, 2015, the Company had \$581.8 million of loans pledged at the Federal Reserve discount window and had \$409.7 million available for borrowing.

**Table of Contents****NOTE 10 COMMITMENTS AND CONTINGENCIES****Loan Commitments**

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. They involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amount recognized in the balance sheets.

The Company's exposure to credit loss is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. A summary of the Company's commitments is as follows:

| <b>(Dollars in Thousands)</b>           | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|---|---------------------------|------------------------------|---------------------------|
| Commitments to extend credit            | \$ 328,191                | \$ 293,517                   | \$ 235,367                |
| Unused lines of credit                  | \$ 143,962                | \$ 49,567                    | \$ 35,705                 |
| Financial standby letters of credit     | \$ 10,548                 | \$ 9,683                     | \$ 7,961                  |
| Mortgage interest rate lock commitments | \$ 91,482                 | \$ 38,868                    | \$ 64,759                 |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the customer.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers. Collateral is required in instances which the Company deems necessary.

**Contingencies**

Certain conditions may exist as of the date the financial statements are issued, which may result in a loss to the Company but which will only be resolved when one or more future events occur or fail to occur. The Company's management and its legal counsel assess such contingent liabilities, and such assessment inherently involves an exercise of judgment. In assessing loss contingencies related to legal proceedings that are pending against the Company or unasserted claims that may result in such proceedings, the Company's legal counsel evaluates the perceived merits of any legal proceedings or unasserted claims as well as the perceived merits of the amount of relief sought or expected to be sought therein.

If the assessment of a contingency indicates that it is probable that a material loss has been incurred and the amount of the liability can be estimated, then the estimated liability would be accrued in the Company's financial statements. If the assessment indicates that a potentially material loss contingency is not probable, but is reasonably possible, or is probable but cannot be estimated, then the nature of the contingent liability, together with an estimate of the range of possible loss if determinable and material, would be disclosed.

Loss contingencies considered remote are generally not disclosed unless they involve guarantees, in which case the nature of the guarantee would be disclosed.

A former borrower of the Company has filed a claim related to a loan previously made by the Company asserting lender liability. The case was tried without a jury and an order was issued by the court against the Company awarding the borrower approximately \$2.9 million. The order is currently on appeal to the South Carolina Court of Appeals and the Company is asserting it had no fiduciary responsibility to the borrower. As of March 31, 2015, the Company believes that it has valid bases in law and fact to overturn on appeal the verdict. As a result, the Company believes that the likelihood that the amount of the judgment will be affirmed is not probable, and, accordingly, that the amount of any loss cannot be reasonably estimated at this time. Because the Company believes that this potential loss is not probable or estimable, it has not recorded any reserves or contingencies related to this legal matter. In the event that the Company's assumptions used to evaluate this matter as neither probable nor estimable change in future periods, it may be required to record a liability for an adverse outcome.

**Table of Contents****NOTE 11 ACCUMULATED OTHER COMPREHENSIVE INCOME**

Accumulated other comprehensive income for the Company consists of changes in net unrealized gains and losses on investment securities available for sale and interest rate swap derivatives. The following tables present a summary of the accumulated other comprehensive income balances, net of tax, as of March 31, 2015 and 2014.

| (Dollars in Thousands)                               | Unrealized Gain (Loss) |   | Accumulated                             |

| Balance, March 31, 2014                              | \$ 1,131               | \$ 1,243                                | \$ 2,374                                |

**NOTE 12 FAIR VALUE OF FINANCIAL INSTRUMENTS**

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair value is based on discounted cash flows or other valuation techniques. These techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The accounting standard for disclosures about the fair value of financial instruments excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

The Company has elected to record mortgage loans held-for-sale at fair value in order to eliminate the complexities and inherent difficulties of achieving hedge accounting and to better align reported results with the underlying economic changes in value of the loans and related hedge instruments. This election impacts the timing and recognition of origination fees and costs, as well as servicing value, which are now recognized in earnings at the time

of origination. Interest income on mortgage loans held-for-sale is recorded on an accrual basis in the consolidated statement of earnings and comprehensive income under the heading Interest income interest and fees on loans . The servicing value is included in the fair value of the interest rate lock commitments ( IRLCs ) with borrowers. The mark to market adjustments related to loans held-for-sale and the associated economic hedges are captured in mortgage banking activities. Net gains of \$2.6 million and \$1.1 million resulting from fair value changes of these mortgage loans were recorded in income during the three months ended March 31, 2015 and 2014, respectively. The amount does not reflect changes in fair values of related derivative instruments used to hedge exposure to market-related risks associated with these mortgage loans. The change in fair value of both mortgage loans held for sale and the related derivative instruments are recorded in Mortgage banking activity in the Consolidated Statements of Earnings and Comprehensive Income. The Company s valuation of mortgage loans held for sale incorporates an assumption for credit risk; however, given the short-term period that the Company holds these loans, valuation adjustments attributable to instrument-specific credit risk is nominal.

**Table of Contents**

The following table summarizes the difference between the fair value and the principal balance for mortgage loans held for sale measured at fair value as of March 31, 2015, December 31, 2014 and March 31, 2014:

|  | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|--|---------------------------|------------------------------|---------------------------|
|  | (Dollars in Thousands)    |                              |                           |
| Aggregate Fair Value of Mortgage Loans held for sale | \$ 73,796                 | \$ 94,759                    | \$ 51,693                 |
| Aggregate Unpaid Principal Balance                   | \$ 70,905                 | \$ 90,418                    | \$ 49,959                 |
| Past due loans of 90 days or more                    | \$                        | \$                           | \$                        |
| Nonaccrual loans                                     | \$                        | \$                           | \$                        |

The Company utilizes fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. Securities available for sale and derivatives are recorded at fair value on a recurring basis. From time to time, the Company may be required to record at fair value other assets on a nonrecurring basis, such as impaired loans and OREO. Additionally, the Company is required to disclose, but not record, the fair value of other financial instruments.

**Fair Value Hierarchy**

The Company groups assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

**Level 1** - Quoted prices in active markets for identical assets or liabilities.

**Level 2** - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

**Level 3** - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments:

**Cash and Due From Banks, Federal Funds Sold and Interest-Bearing Accounts:** The carrying amount of cash and due from banks, federal funds sold and interest-bearing accounts approximates fair value.

**Investment Securities Available for Sale:** The fair value of securities available for sale is determined by various valuation methodologies. Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. Level 2 securities include mortgage-backed securities issued by government-sponsored enterprises and municipal bonds. The Level 2 fair value pricing is provided by an independent third-party and is based upon similar securities in an active market. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include certain residual municipal securities and other less liquid securities.

**Other Investments:** FHLB stock is included in other investments at its original cost basis. It is not practical to determine the fair value of FHLB stock due to restrictions placed on its transferability.

**Mortgage Loans Held for Sale:** The Company records mortgage loans held for sale at fair value. The fair value of mortgage loans held for sale is determined on outstanding commitments from third party investors in the secondary markets and is classified within Level 2 of the valuation hierarchy.

---

**Table of Contents**

**Loans:** The carrying amount of variable-rate loans that reprice frequently and have no significant change in credit risk approximates fair value. The fair value of fixed-rate loans is estimated based on discounted contractual cash flows, using interest rates currently being offered for loans with similar terms to borrowers with similar credit quality. The fair value of impaired loans is estimated based on discounted contractual cash flows or underlying collateral values, where applicable. A loan is determined to be impaired if the Company believes it is probable that all principal and interest amounts due according to the terms of the note will not be collected as scheduled. The fair value of impaired loans is determined in accordance with ASC 310-10, *Accounting by Creditors for Impairment of a Loan*, and generally results in a specific reserve established through a charge to the provision for loan losses. Losses on impaired loans are charged to the allowance when management believes the uncollectability of a loan is confirmed. Management has determined that the majority of impaired loans are Level 3 assets due to the extensive use of market appraisals.

**Other Real Estate Owned:** The fair value of other real estate owned ( OREO ) is determined using certified appraisals that value the property at its highest and best uses by applying traditional valuation methods common to the industry. The Company does not hold any OREO for profit purposes and all other real estate is actively marketed for sale. In most cases, management has determined that additional write-downs are required beyond what is calculable from the appraisal to carry the property at levels that would attract buyers. Because this additional write-down is not based on observable inputs, management has determined that other real estate owned should be classified as Level 3.

**Covered Other Real Estate Owned:** Covered other real estate owned includes other real estate owned on which the majority of losses would be covered by loss-sharing agreements with the FDIC. Management initially valued these assets at fair value using mostly unobservable inputs and, as such, has classified these assets as Level 3.

**FDIC Loss-Share Receivable:** Because the FDIC will reimburse the Company for certain acquired loans should the Company experience a loss, an indemnification asset is recorded at fair value at the acquisition date. The indemnification asset is recognized at the same time as the indemnified loans, and measured on the same basis, subject to collectability or contractual limitations. The shared loss agreements on the acquisition date reflect the reimbursements expected to be received from the FDIC, using an appropriate discount rate, which reflects counterparty credit risk and other uncertainties. The shared loss agreements continue to be measured on the same basis as the related indemnified loans, and the loss-share receivable is impacted by changes in estimated cash flows associated with these loans.

**Accrued Interest Receivable/Payable:** The carrying amount of accrued interest receivable and accrued interest payable approximates fair value.

**Deposits:** The carrying amount of demand deposits, savings deposits and variable-rate certificates of deposit approximates fair value. The fair value of fixed-rate certificates of deposit is estimated based on discounted contractual cash flows using interest rates currently offered for certificates with similar maturities.

**Securities Sold under Agreements to Repurchase and Other Borrowings:** The carrying amount of variable rate borrowings and securities sold under repurchase agreements approximates fair value and are classified as Level 1. The fair value of fixed rate other borrowings is estimated based on discounted contractual cash flows using the current incremental borrowing rates for similar borrowing arrangements and are classified as Level 2.

**Subordinated Deferrable Interest Debentures:** The fair value of the Company's variable rate trust preferred securities is based primarily upon discounted cash flows using rates for securities with similar terms and remaining maturities and are classified as Level 2.

**Off-Balance-Sheet Instruments:** Because commitments to extend credit and standby letters of credit are typically made using variable rates and have short maturities, the carrying value and fair value are immaterial for disclosure.

**Table of Contents**

**Derivatives:** The Company has entered into derivative financial instruments to manage interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of the derivatives. This analysis reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair value of the derivatives is determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates (forward curves derived from observable market interest rate curves).

The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting any applicable credit enhancements such as collateral postings, thresholds, mutual puts and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself or the counterparty. However, as of March 31, 2015, December 31, 2014 and March 31, 2014, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustment is not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuation in its entirety is classified in Level 2 of the fair value hierarchy.

The following table presents the fair value measurements of assets and liabilities measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall as of March 31, 2015, December 31, 2014 and March 31, 2014 (dollars in thousands):

| <b>Fair Value Measurements on a Recurring Basis</b> |                   |   |  |  |
|---|-------------------|---|--|--|
| <b>As of March 31, 2015</b>                         |                   |   |  |  |

| Covered other real estate owned                | 42,636                |   |  | 42,636   |
| Total nonrecurring assets at fair value        | \$ 87,753             | \$  | \$   | \$ 87,753  |

**Table of Contents**

The inputs used to determine estimated fair value of impaired loans and covered loans include market conditions, loan terms, underlying collateral characteristics and discount rates. The inputs used to determine fair value of other real estate owned and covered other real estate owned include market conditions, estimated marketing period or holding period, underlying collateral characteristics and discount rates.

For the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014, there was not a change in the methods and significant assumptions used to estimate fair value.

The following table shows significant unobservable inputs used in the fair value measurement of Level 3 assets and liabilities:

|  | Fair Value | Valuation Technique                              | Unobservable Inputs                              | Weighted<br>Range of Average<br>Discounts | Discount |
|--|------------|--|--|---|----------|

Cautionary Note Regarding Any Forward-Looking Statements**

Certain of the statements made in this report are forward-looking statements within the meaning of, and subject to the protections of, Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, anticipations, assumptions, estimates, intentions and future performance and involve known and unknown risks, uncertainties and other factors, many of which may be beyond our control and which may cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements.

All statements other than statements of historical fact are statements that could be forward-looking statements. You can identify these forward-looking statements through our use of words such as may, will, anticipate, assume, should, indicate, would, believe, contemplate, expect, estimate, continue, plan, point to, project, predict, potential and other similar words and expressions of the future. These forward-looking statements may not be realized due to a variety of factors, including, without limitation, legislative and regulatory initiatives; additional competition in our markets; potential business strategies, including acquisitions or dispositions of assets or internal restructuring, that may be pursued by us; state and federal banking regulations; changes in or application of environmental and other laws and regulations to which we are subject; political, legal and economic conditions and developments; financial market conditions and the results of financing efforts; changes in commodity prices and interest rates; weather, natural disasters and other catastrophic events; and other factors discussed in our filings with the Securities and Exchange Commission under the Exchange Act.

All written or oral forward-looking statements that are made by or are attributable to us are expressly qualified in their entirety by this cautionary notice. Our forward-looking statements apply only as of the date of this report or the respective date of the document from which they are incorporated herein by reference. **Table of Contents****Net Interest Income and Margins**

The following tables set forth the amount of our interest income or interest expense for each category of interest-earning assets and interest-bearing liabilities and the average interest rate for total interest-earning assets and total interest-bearing liabilities, net interest spread and net interest margin on average interest-earning assets. Federally tax-exempt income is presented on a taxable-equivalent basis assuming a 35% federal tax rate.

**Table of Contents**

On a tax equivalent basis, net interest income for the first quarter of 2015 was \$39.3 million, an increase of \$4.5 million compared to the same quarter in 2014. The higher net interest income is a result of the acquisition of Coastal Bank during the second quarter of 2014, along with organic growth in the loan portfolio, and continued low rates in the Company's cost of funds. The Company's net interest margin decreased during the first quarter of 2015 to 4.39%, compared to 4.57% during the first quarter of 2014 and 4.64% reported in the fourth quarter of 2014.

Total interest income, on a tax equivalent basis, during the first quarter of 2015 was \$42.9 million, compared to \$38.2 million in the same quarter of 2014. Yields on earning assets declined to 4.79%, compared to 5.01% reported in the first quarter of 2014. During the first quarter of 2015, loans comprised 79.9% of earning assets, compared to 81.2% in the same quarter of 2014. Yields on legacy loans decreased to 4.76% in the first quarter of 2015, compared to 5.11% in the same period of 2014. Covered loan yields decreased to 6.17% in the first quarter of 2015, compared to 7.23% during the first quarter of 2014. The yield on purchased non-covered loans was 7.38% for the first quarter of 2015, compared to 6.31% in the same quarter of 2014. Management anticipates improving economic conditions and increased loan demand will provide consistent interest income.

Total funding costs decreased to 0.40% in the first quarter of 2015, compared to 0.43% during the first quarter of 2014. Deposit costs decreased from 0.30% in the first quarter of 2014 to 0.27% in the first quarter of 2015. Continued shifts in the funding mix toward noninterest-bearing demand and other lower cost deposit categories was the primary reason for the decline. Ongoing efforts to maintain the percentage of funding from transaction deposits have succeeded such that non-CD deposits averaged 78.0% of total deposits in the first quarter of 2015, compared to 75.1% during the first quarter of 2014. Lower costs on deposits were realized due mostly to the lower rate environment and the Company's ability to be less competitive on higher priced CDs due to its larger than normal position in short-term assets. Further opportunity to realize savings on deposits exists but may be limited due to current costs. Average balances of interest-bearing deposits and their respective costs for the first quarter of 2015 and 2014 are shown below:

**Provision for Loan Losses**

The Company's provision for loan losses during the first quarter of 2015 amounted to \$1.1 million, compared to \$888,000 in the fourth quarter of 2014 and \$1.7 million in the first quarter of 2014. At March 31, 2015, classified loans still accruing totaled \$52.6 million, compared to \$39.7 million at March 31, 2014. This increase is predominately due to the addition of classified loans in the Coastal Bank acquisition. Non-performing assets as a percent of total assets decreased from 2.29% at March 31, 2014 to 2.03% at March 31, 2015. Net charge-offs on loans during the first quarter of 2015 decreased to \$405,000, or 0.08% of loans on an annualized basis, compared to \$1.1 million, or 0.27% of loans, in the first quarter of 2014. The Company's allowance for loan losses at March 31, 2015

was \$21.9 million, or 1.09% of total loans, compared to \$22.7 million, or 1.34% of total loans, at March 31, 2014.

***Noninterest Income***

Total noninterest income for the first quarter of 2015 was \$17.6 million, compared to \$12.8 million in the first quarter of 2014. Service charges on deposit accounts in the first quarter of 2015 increased to \$6.4 million, compared to \$5.6 million in the first quarter of 2014. This increase was driven by the growth of core accounts through the acquisition of Coastal Bank during the second quarter of 2014, along with higher balances in accounts subject to service charges. Income from mortgage banking activity increased from \$5.1 million in the first three months of 2014 to \$8.15 million in the first three months of 2015, due to an increased number of mortgage bankers and higher levels of production. Other non-interest income increased from \$1.4 million during the first quarter of 2014 to \$2.4 million during the first quarter of 2015 due to the increase in gains on sales of SBA loans.

---

**Table of Contents*****Noninterest Expense***

Total noninterest expense for the first quarter of 2015 increased to \$40.8 million, compared to \$33.2 million at the same time in 2014. Increases in noninterest expenses were primarily the result of the acquisition of Coastal Bank during the second quarter of 2014, additional expenses related to increases in mortgage volume and the Company's aggressive investment in the scale of its operations, particularly in information technology and customer care centers, in anticipation of the pending acquisitions expected to close during the second quarter of 2015. Salaries and employee benefits increased from \$17.4 million in the first quarter of 2014 to \$20.6 million in the first quarter of 2015. Occupancy and equipment expense increased during the quarter from \$4.1 million in the first quarter of 2014 to \$4.6 million in the first quarter of 2015. Total data processing and telecommunications expense in the first quarter of 2015 was \$4.3 million, compared to \$3.5 million in the first quarter of 2014. Credit related expenses, including problem loan and OREO expense and OREO write-downs and losses, increased to \$3.2 million in the first quarter of 2015, compared to \$2.2 million in the first quarter of 2014. During the first quarter of 2015, the Company brought several larger non-performing assets closer to resolution and incurred higher than normal expenses associated with these efforts.

***Income taxes***

Income tax expense is influenced by the amount of taxable income, the amount of tax-exempt income and the amount of non-deductible expenses. For the first quarter of 2015, the Company reported income tax expense of \$4.7 million, compared to \$3.9 million in the same period of 2014. The Company's effective tax rate for the three months ended March 31, 2015 and 2014 was 32.7% and 32.0%, respectively.

***Balance Sheet Comparison******Securities***

Debt securities with readily determinable fair values are classified as available for sale and recorded at fair value with unrealized gains and losses excluded from earnings and reported in accumulated other comprehensive income, net of the related deferred tax effect. Equity securities, including restricted equity securities, are classified as other investment securities and are recorded at their fair market value.

The amortization of premiums and accretion of discounts are recognized in interest income using methods approximating the interest method over the life of the securities. Realized gains and losses, determined on the basis of the cost of specific securities sold, are included in earnings on the settlement date. Declines in the fair value of securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses.

In determining whether other-than-temporary impairment losses exist, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Substantially all of the unrealized losses on debt securities are related to changes in interest rates and do not affect the expected cash flows of the issuer or underlying collateral. All unrealized losses are considered temporary because each security carries an acceptable investment grade and the Company does not intend to sell these investment securities at an unrealized loss position at March 31, 2015, and it is more likely than not that the Company will not be required to sell these securities prior to

recovery or maturity. Therefore, at March 31, 2015, these investments are not considered impaired on an other-than temporary basis.

**Table of Contents**

The following table illustrates certain information regarding the Company's investment portfolio with respect to yields, sensitivities and expected cash flows over the next twelve months assuming constant prepayments and maturities:

|  | <b>Book Value</b>           | <b>Fair Value</b> | <b>Yield</b> | <b>Modified Duration</b> | <b>Estimated Cash Flows 12 months</b> |

**Loans and Allowance for Loan Losses**

At March 31, 2015, gross loans outstanding (including purchased non-covered and covered loans and mortgage loans held for sale) were \$2.96 billion, a slight increase compared to the \$2.93 billion reported at December 31, 2014. Mortgage loans held for sale decreased from \$94.8 million at December 31, 2014 to \$73.8 million at March 31, 2015. Legacy loans (excluding purchased non-covered and covered loans) increased \$109.5 million, from \$1.89 billion at December 31, 2014 to \$2.00 billion at March 31, 2015. Purchased non-covered loans decreased \$31.1 million, from \$674.2 million at December 31, 2014 to \$643.1 million at March 31, 2015. Covered loans decreased \$25.5 million, from \$271.2 million at December 31, 2014 to \$245.7 million at March 31, 2015.

The Company regularly monitors the composition of the loan portfolio to evaluate the adequacy of the allowance for loan losses in light of the impact that changes in the economic environment may have on the loan portfolio. The Company focuses on the following loan categories: (1) commercial, financial and agricultural; (2) residential real estate; (3) commercial and farmland real estate; (4) construction and development related real estate; and (5) consumer. The Company's management has strategically located its branches in select markets in south and southeast Georgia, north Florida, southeast Alabama and throughout South Carolina to take advantage of the growth in these areas.

The Company's risk management processes include a loan review program designed to evaluate the credit risk in the loan portfolio and ensure credit grade accuracy. Through the loan review process, the Company conducts (1) a loan portfolio summary analysis, (2) charge-off and recovery analysis, (3) trends in accruing problem loan analysis, and (4) problem and past due loan analysis. This analysis process serves as a tool to assist management in assessing the

overall quality of the loan portfolio and the adequacy of the allowance for loan losses. Loans classified as **substandard** are loans which are inadequately protected by the current sound worth and paying capacity of the borrower or of the collateral pledged. These assets exhibit a well-defined weakness or are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. These weaknesses may be characterized by past due performance, operating losses and/or questionable collateral values. Loans classified as **doubtful** are those loans that have characteristics similar to substandard loans but have an increased risk of loss. Loans classified as **loss** are those loans which are considered uncollectible and are in the process of being charged-off.

The allowance for loan losses is a reserve established through charges to earnings in the form of a provision for loan losses. The provision for loan losses is based on management's evaluation of the size and composition of the loan portfolio, the level of non-performing and past due loans, historical trends of charged-off loans and recoveries, prevailing economic conditions and other factors management deems appropriate. The Company's management has established an allowance for loan losses which it believes is adequate for the probable incurred losses in the loan portfolio. Based on a credit evaluation of the loan portfolio, management presents a monthly review of the allowance for loan losses to the Company's Board of Directors. The review that management has developed primarily focuses on risk by evaluating individual loans in certain risk categories. These categories have also been established by management and take the form of loan grades. By grading the loan portfolio in this manner the Company's management is able to effectively evaluate the portfolio by risk, which management believes is the most effective way to analyze the loan portfolio and thus analyze the adequacy of the allowance for loan losses.

**Table of Contents**

The allowance for loan losses is established by examining (1) the large classified loans, nonaccrual loans and loans considered impaired and evaluating them individually to determine the specific reserve allocation and (2) the remainder of the loan portfolio to allocate a portion of the allowance based on past loss experience and the economic conditions for the particular loan category. The Company also considers other factors such as changes in lending policies and procedures; changes in national, regional and/or local economic and business conditions; changes in the nature and volume of the loan portfolio; changes in the experience, ability and depth of either the bank president or lending staff; changes in the volume and severity of past due and classified loans; changes in the quality of the Company's corporate loan review system; and other factors management deems appropriate.

For the three month period ended March 31, 2015, the Company recorded net charge-offs totaling \$405,000, compared to \$1.1 million for the period ended March 31, 2014. The provision for loan losses for the three months ended March 31, 2015 decreased to \$1.1 million, compared to \$1.5 million during the three month period ended March 31, 2014. At the end of the first quarter of 2015, the allowance for loan losses totaled \$21.9 million, or 1.09% of total loans, compared to \$21.2 million, or 1.12% of total loans, at December 31, 2014 and \$22.7 million, or 1.34% of total loans, at March 31, 2014.

The following table presents an analysis of the allowance for loan losses for the three month periods ended March 31, 2015 and March 31, 2014:

| <b>(Dollars in Thousands)</b>                                      | <b>March 31,<br/>2015</b> | <b>March 31,<br/>2014</b> |

|   |           |           |
|---|-----------|-----------|
| <b>Balance of allowance for loan losses at end of period</b>        | \$ 21,852 | \$ 22,744 |
| Net annualized charge-offs as a percentage of average loans         | 0.08%     | 0.27%     |
| Allowance for loan losses as a percentage of loans at end of period | 1.09%     | 1.34%     |

**Purchased Non-Covered Assets**

Loans that were acquired in transactions that are not covered by the loss-sharing agreements with the FDIC ( purchased non-covered loans ) totaled \$643.1 million, \$674.2 million and \$437.3 million at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. OREO that was acquired in transactions and is not covered by the loss-sharing agreements with the FDIC totaled \$13.8 million, \$15.6 million and \$3.9 million at March 31, 2015, December 31, 2014 and March 31, 2014, respectively.

**Table of Contents**

The Bank initially recorded the loans at their fair values, taking into consideration certain credit quality, risk and liquidity marks. The Company believes its estimation of credit risk and its adjustments to the carrying balances of the acquired loans is adequate. If the Company determines that a loan or group of loans has deteriorated from its initial assessment of fair value, a reserve for loan losses will be established to account for that difference. During the three months ended March 31, 2015, the Company recorded a net provision for loan loss credit of \$432,000 due to recoveries received on previously charged off purchased non-covered loans. During the year ended December 31, 2014 the Company recorded provision for loan loss expense of \$84,000 to account for losses where there was a decrease in cash flows from the initial estimates on purchased non-covered loans. The Company did not have any provision for loan loss expense during the three months ended March 31, 2014 related to purchased non-covered loans. If the Company determines that a loan or group of loans has improved from its initial assessment of fair value, then the increase in cash flows over those expected at the acquisition date is recognized as interest income prospectively.

Purchased non-covered loans are shown below according to loan type as of the end of the periods shown:

| <b>(Dollars in Thousands)</b>            | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |

|  | <b>\$ 643,092</b>         | <b>\$ 674,239</b>            | <b>\$ 437,269</b>         |

**Assets Covered by Loss-Sharing Agreements with the FDIC**

Loans that were acquired in FDIC-assisted transactions that are covered by the loss-sharing agreements with the FDIC ( covered loans ) totaled \$245.7 million, \$271.3 million and \$372.7 million at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. OREO that is covered by the loss-sharing agreements with the FDIC totaled \$16.1 million, \$19.9 million and \$42.6 million at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. The loss-sharing agreements are subject to the servicing procedures as specified in the agreements with the FDIC. The expected reimbursements under the loss-sharing agreements were recorded as an indemnification asset at their estimated fair value on the acquisition dates. The FDIC loss-share receivable reported at March 31, 2015, December 31, 2014 and March 31, 2014 was \$23.3 million, \$31.4 million and \$53.2 million, respectively.

The Bank initially recorded the loans at their fair values, taking into consideration certain credit quality, risk and liquidity marks. The Company believes its estimation of credit risk and its adjustments to the carrying balances of the acquired loans is adequate. If the Company determines that a loan or group of loans has deteriorated from its initial assessment of fair value, a reserve for loan losses will be established to account for that difference. During the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014, the Company recorded provision for loan loss expense of \$401,000, \$843,000 and \$225,000, respectively, net of the FDIC loss-share receivable, to account for losses where there was a decrease in cash flows from the initial estimates on loans acquired in FDIC-assisted transactions. If the Company determines that a loan or group of loans has improved from its initial assessment of fair value, then the increase in cash flows over those expected at the acquisition date is recognized as interest income prospectively over the remaining life of the loan, with an associated write off of the

remaining indemnification asset over the shorter of the life of the loan or the loss-share agreement.

Covered loans are shown below according to loan type as of the end of the periods shown:

| <b>(Dollars in Thousands)</b>            | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |

|  | \$ 245,745                | \$ 271,279                   | \$ 372,694                |

**Table of Contents****Non-Performing Assets**

Non-performing assets include nonaccrual loans, accruing loans contractually past due 90 days or more, repossessed personal property, and other real estate owned. Loans are placed on nonaccrual status when management has concerns relating to the ability to collect the principal and interest and generally when such loans are 90 days or more past due. Management performs a detailed review and valuation assessment of impaired loans on a quarterly basis and recognizes losses when impairment is identified. A loan is considered impaired when it is probable that not all principal and interest amounts will be collected according to the loan contract. When a loan is placed on nonaccrual status, any interest previously accrued but not collected is reversed against current income.

Nonaccrual loans, excluding purchased non-covered and covered loans, totaled \$20.8 million at March 31, 2015, a 22.0% decrease from \$26.7 million reported at the end of the first quarter of 2014. Nonaccrual purchased non-covered loans totaled \$17.3 million at March 31, 2015, compared to \$15.3 million reported at March 31, 2014. At March 31, 2015, OREO (excluding purchased non-covered and covered OREO) totaled \$32.3 million, compared to \$33.8 million at March 31, 2014. Purchased non-covered OREO totaled \$13.8 million at March 31, 2015, compared to \$3.9 million at March 31, 2014. At the end of the first quarter of 2015, total non-covered non-performing assets decreased to 2.03% of total assets compared to 2.29% at March 31, 2014. Management continues to aggressively identify and resolve problem assets while seeking quality credits to grow the loan portfolio.

Non-performing assets at March 31, 2015, December 31, 2014 and March 31, 2014 were as follows:

| <b>(Dollars in Thousands)</b>  | <b>March 31,<br/>2015</b> | <b>December 31,<br/>2014</b> | <b>March 31,<br/>2014</b> |
|--|---------------------------|------------------------------|---------------------------|

**Table of Contents**

**Commercial Lending Practices**

On December 12, 2006, the Federal Bank Regulatory Agencies released guidance on *Concentration in Commercial Real Estate Lending*. This guidance defines commercial real estate ( CRE ) loans as loans secured by raw land, land development and construction (including 1-4 family residential construction), multi-family property and non-farm nonresidential property where the primary or a significant source of repayment is derived from rental income associated with the property, excluding owner occupied properties (loans for which 50% or more of the source of repayment is derived from the ongoing operations and activities conducted by the party, or affiliate of the party, who owns the property) or the proceeds of the sale, refinancing or permanent financing of the property. Loans for owner occupied CRE are generally excluded from the CRE guidance.

The CRE guidance is applicable when either:

- (1) total loans for construction, land development and other land, net of owner occupied loans, represent 100% or more of a bank s total risk-based capital; or
- (2) total loans secured by multifamily and nonfarm nonresidential properties and loans for construction, land development and other land, net of owner occupied loans, represent 300% or more of a bank s total risk-based capital.

Banks that are subject to the CRE guidance s criteria are required to implement enhanced strategic planning, CRE underwriting policies, risk management and internal controls, portfolio stress testing, risk exposure limits, and other policies, including management compensation and incentives, to address the CRE risks. Higher allowances for loan losses and capital levels may also be appropriate.

As of March 31, 2015, the Company exhibited a concentration in CRE loans based on Federal Reserve Call codes. The primary risks of CRE lending are:

- (1) within CRE loans, construction and development loans are somewhat dependent upon continued strength in demand for residential real estate, which is reliant on favorable real estate mortgage rates and changing population demographics;
- (2) on average, CRE loan sizes are generally larger than non-CRE loan types; and
- (3) certain construction and development loans may be less predictable and more difficult to evaluate and monitor. The following table outlines CRE loan categories and CRE loans as a percentage of total loans as of March 31, 2015 and December 31, 2014. The loan categories and concentrations below are based on Federal Reserve Call codes and include purchased non-covered and covered loans:

**March 31, 2015**

**December 31, 2014**

| (Dollars in Thousands)             | Balance             | % of Total<br>Loans | Balance             | % of Total<br>Loans |
|------------------------------------|---------------------|---------------------|---------------------|---------------------|
| Construction and development loans | \$ 251,755          | 9%                  | \$ 243,316          | 9%                  |
| Multi-family loans                 | 74,226              | 2%                  | 72,356              | 3%                  |
| Nonfarm non-residential loans      | 1,295,098           | 45%                 | 1,289,501           | 45%                 |
| <b>Total CRE Loans</b>             | <b>\$ 1,621,079</b> | <b>56%</b>          | <b>\$ 1,605,173</b> | <b>57%</b>          |
| All other loan types               | 1,267,178           | 44%                 | 1,230,226           | 43%                 |
| <b>Total Loans</b>                 | <b>\$ 2,888,257</b> | <b>100%</b>         | <b>\$ 2,835,399</b> | <b>100%</b>         |

The following table outlines the percent of total CRE loans, net of owner occupied loans, to total risk-based capital, and the Company's internal concentration limits as of March 31, 2015 and December 31, 2014:

|                              | Internal<br>Limit | March 31, 2015<br>Actual | December 31, 2014<br>Actual |
|------------------------------|-------------------|--------------------------|-----------------------------|
| Construction and development | 100%              | 51%                      | 67%                         |
| Commercial real estate       | 300%              | 175%                     | 232%                        |

#### Short-Term Investments

The Company's short-term investments are comprised of federal funds sold and interest-bearing balances. At March 31, 2015, the Company's short-term investments were \$126.2 million, compared to \$92.30 million and \$48.7 million at December 31, 2014 and March 31, 2014, respectively. At March 31, 2015, \$5.5 million was in federal funds sold and \$120.7 million was in interest-bearing balances at correspondent banks and the Federal Reserve Bank of Atlanta.

---

**Table of Contents****Derivative Instruments and Hedging Activities**

The Company had a cash flow hedge that matures September 15, 2020 with a notional amount of \$37.1 million at March 31, 2015, December 31, 2014 and March 31, 2014 for the purpose of converting the variable rate on the junior subordinated debentures to fixed rate of 4.11%. The fair value of these instruments amounted to a liability of approximately \$1.8 million, \$1.3 million and \$675,000 at March 31, 2015, December 31, 2014 and March 31, 2014, respectively. The Company also had forward contracts and IRLCs to hedge changes in the value of the mortgage inventory due to changes in market interest rates. The fair value of these instruments amounted to a net asset of approximately \$3.5 million, \$1.5 million and \$2.5 million at March 31, 2015, December 31, 2014, and March 31, 2014 respectively. No material hedge ineffectiveness from cash flow hedges was recognized in the statement of operations. All components of each derivative's gain or loss are included in the assessment of hedge effectiveness.

**Capital**

On January 29, 2015, the Company completed a private placement of 5,320,000 shares of common stock at a price of \$22.50 per share. The Company received net proceeds from the issuance of approximately \$114.5 million, after deducting placement agent commissions and other issuance costs. The Company intends to use the net proceeds to fund the announced acquisitions of Merchants & Southern Banks of Florida, Incorporated and eighteen Bank of America branches located in North Florida and South Georgia.

Capital management consists of providing equity to support both current and anticipated future operations. The Company is subject to capital adequacy requirements imposed by the Federal Reserve Board (the "FRB") and the Georgia Department of Banking and Finance (the "GDBF"), and the Bank is subject to capital adequacy requirements imposed by the FDIC and the GDBF.

The FRB, the FDIC and the GDBF have adopted risk-based capital requirements for assessing bank holding company and bank capital adequacy. These standards define and establish minimum capital requirements in relation to assets and off-balance sheet exposure, adjusted for credit risk. The risk-based capital standards currently in effect are designed to make regulatory capital requirements more sensitive to differences in risk profiles among bank holding companies and banks and to account for off-balance sheet exposure.

In July 2013, the Federal Reserve published final rules for the adoption of the Basel III regulatory capital framework (the "Basel III Capital Rules"). The Basel III Capital Rules defined a new capital measure called "Common Equity Tier 1" ("CET1"), established that Tier 1 capital consist of Common Equity Tier 1 and "Additional Tier 1 Capital" instruments meeting specified requirements, defined Common Equity Tier 1, established a capital conservation buffer and expanded the scope of the adjustments as compared to existing regulations. The capital conservation buffer is being phased in from 0.0% for 2015 to 2.50% by 2019. The Basel III Capital Rules became effective for us on January 1, 2015 with certain transition provisions fully phased in on January 1, 2019.

The regulatory capital standards are defined by the following key measurements:

- a) The "Leverage Ratio" is defined as Tier 1 capital to average assets. To be considered "adequately capitalized" under this measurement, a bank must maintain a leverage ratio greater than or equal to 4.00%. For a bank to be considered "well capitalized," it must maintain a leverage ratio greater than or equal to 5.00%.
- b) The "CET1 Ratio" is defined as Common equity tier 1 capital to total risk weighted assets. To be considered "adequately capitalized" under this measurement, a bank must maintain a core capital ratio greater than or equal to 4.50%. For a bank to be considered "well capitalized," it must maintain a core capital ratio greater than or equal to

6.50%.

c) The Core Capital Ratio is defined as Tier 1 capital to total risk weighted assets. To be considered adequately capitalized under this measurement, a bank must maintain a core capital ratio greater than or equal to 6.00%. For a bank to be considered well capitalized, it must maintain a core capital ratio greater than or equal to 8.00%.

d) The Total Capital Ratio is defined as total capital to total risk weighted assets. To be considered adequately capitalized under this measurement, a bank must maintain a total capital ratio greater than or equal to 8.00%. For a bank to be considered well capitalized, it must maintain a total capital ratio greater than or equal to 10.00%.

**Table of Contents**

As of March 31, 2015, under the regulatory capital standards, the Bank was considered well capitalized under all capital measurements. The following table sets forth the regulatory capital ratios of Ameris at March 31, 2015, December 31, 2014 and March 31, 2014:

|  | March 31,<br>2015 | December 31,<br>2014 | March 31,<br>2014 |
|--|-------------------|----------------------|-------------------|
| <b>Leverage Ratio</b> (tier 1 capital to average assets)                 |                   |                      |                   |
| <b>Consolidated</b>  | 10.12%            | 8.94%                | 8.91%             |
| <b>Ameris Bank</b>   | 11.43             | 10.01                | 9.43              |
| <b>CET1 Ratio</b> (common equity tier 1 capital to risk weighted assets) |                   |                      |                   |
| <b>Consolidated</b>  | 13.87             | N/A                  | N/A               |
| <b>Ameris Bank</b>   | 15.67             | N/A                  | N/A               |
| <b>Core Capital Ratio</b> (tier 1 capital to risk weighted assets)       |                   |                      |                   |
| <b>Consolidated</b>  | 13.87             | 12.66                | 13.30             |
| <b>Ameris Bank</b>   | 15.67             | 14.14                | 14.09             |
| <b>Total Capital Ratio</b> (total capital to risk weighted assets)       |                   |                      |                   |
| <b>Consolidated</b>  | 14.62             | 13.42                | 14.28             |
| <b>Ameris Bank</b>   | 16.42             | 14.90                | 15.06             |

**Capital Purchase Program**

On November 21, 2008, the Company, pursuant to the Capital Purchase Program established in connection with the Troubled Asset Relief Program, issued and sold to the U.S. Treasury, for an aggregate cash purchase price of \$52 million, (i) 52,000 shares (the Preferred Shares) of the Company's Fixed Rate Cumulative Perpetual Preferred Stock, Series A, having a liquidation preference of \$1,000 per share, and (ii) a ten-year warrant (the Warrant) to purchase up to 679,443 shares of our common stock at an exercise price of \$11.48 per share. On June 14, 2012, the Preferred Shares were sold by the Treasury through a registered public offering. On August 22, 2012, the Company repurchased the Warrant from the Treasury for \$2.67 million. In December 2012, the Company repurchased 24,000 outstanding Preferred Shares, and in March 2014, the Company redeemed the remaining 28,000 outstanding Preferred Shares.

**Interest Rate Sensitivity and Liquidity**

The Company's primary market risk exposures are credit risk, interest rate risk, and to a lesser degree, liquidity risk. The Bank operates under an Asset Liability Management Policy approved by the Company's Board of Directors and the Asset and Liability Committee (the ALCO Committee). The policy outlines limits on interest rate risk in terms of changes in net interest income and changes in the net market values of assets and liabilities over certain changes in interest rate environments. These measurements are made through a simulation model which projects the impact of changes in interest rates on the Bank's assets and liabilities. The policy also outlines responsibility for monitoring interest rate risk, and the process for the approval, implementation and monitoring of interest rate risk strategies to achieve the Bank's interest rate risk objectives.

The ALCO Committee is comprised of senior officers of Ameris and two outside members of the Company's Board of Directors. The ALCO Committee makes all strategic decisions with respect to the sources and uses of funds that may

affect net interest income, including net interest spread and net interest margin. The objective of the ALCO Committee is to identify the interest rate, liquidity and market value risks of the Company's balance sheet and use reasonable methods approved by the Company's Board of Directors and executive management to minimize those identified risks.

The normal course of business activity exposes the Company to interest rate risk. Interest rate risk is managed within an overall asset and liability framework for the Company. The principal objectives of asset and liability management are to predict the sensitivity of net interest spreads to potential changes in interest rates, control risk and enhance profitability. Funding positions are kept within predetermined limits designed to properly manage risk and liquidity. The Company employs sensitivity analysis in the form of a net interest income simulation to help characterize the market risk arising from changes in interest rates. In addition, fluctuations in interest rates usually result in changes in the fair market value of the Company's financial instruments, cash flows and net interest income. The Company's interest rate risk position is managed by the ALCO Committee.

The Company uses a simulation modeling process to measure interest rate risk and evaluate potential strategies. Interest rate scenario models are prepared using software created and licensed from an outside vendor. The Company's simulation includes all financial assets and liabilities. Simulation results quantify interest rate risk under various interest rate scenarios. Management then develops and implements appropriate strategies. The ALCO Committee has determined that an acceptable level of interest rate risk would be for net interest income to decrease no more than 5.00% given a change in selected interest rates of 200 basis points over any 24-month period.

**Table of Contents**

Liquidity management involves the matching of the cash flow requirements of customers, who may be either depositors desiring to withdraw funds or borrowers needing assurance that sufficient funds will be available to meet their credit needs, and the ability of Ameris to manage those requirements. The Company strives to maintain an adequate liquidity position by managing the balances and maturities of interest-earning assets and interest-bearing liabilities so that the balance it has in short-term investments at any given time will adequately cover any reasonably anticipated immediate need for funds. Additionally, the Bank maintains relationships with correspondent banks, which could provide funds on short notice, if needed. The Company has invested in FHLB stock for the purpose of establishing credit lines with the FHLB. The credit availability to the Bank is equal to 20% of the Bank's total assets as reported on the most recent quarterly financial information submitted to the regulators subject to the pledging of sufficient collateral. At March 31, 2015, December 31, 2014 and March 31, 2014, there were \$43.9 million, \$78.9 million and \$59.7 million, respectively, outstanding borrowings with the Company's correspondent banks.

The following liquidity ratios compare certain assets and liabilities to total deposits or total assets:

|  | March 31,<br>2015 | December 31,<br>2014 | September 30,<br>2014 | June 30,<br>2014 | March 31,<br>2014 |
|--|-------------------|----------------------|-----------------------|------------------|-------------------|
| Investment securities available for sale to total deposits | 17.54%            | 15.79%               | 15.70%                | 15.80%           | 15.17%            |
| Loans (net of unearned income) to total deposits           | 82.99%            | 82.64%               | 84.08%                | 82.72%           | 83.22%            |
| Interest-earning assets to total assets                    | 89.06%            | 88.29%               | 87.91%                | 87.22%           | 87.80%            |
| Interest-bearing deposits to total deposits                | 72.21%            | 75.54%               | 75.79%                | 76.67%           | 76.79%            |

The liquidity resources of the Company are monitored continuously by the ALCO Committee and on a periodic basis by state and federal regulatory authorities. As determined under guidelines established by these regulatory authorities, the Company's and the Bank's liquidity ratios at March 31, 2015 were considered satisfactory. The Company is aware of no events or trends likely to result in a material change in liquidity.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company is exposed only to U.S. dollar interest rate changes, and, accordingly, the Company manages exposure by considering the possible changes in the net interest margin. The Company does not have any trading instruments nor does it classify any portion of the investment portfolio as held for trading. The Company's hedging activities are limited to cash flow hedges and are part of the Company's program to manage interest rate sensitivity. At March 31, 2015, the Company had one effective LIBOR rate swap with a notional amount of \$37.1 million. The LIBOR rate swap exchanges fixed rate payments of 4.11% for floating rate payments based on the three month LIBOR and matures September 2020. The Company also had forward contracts and IRLCs to hedge changes in the value of the mortgage inventory due to changes in market interest rates. The fair value of these instruments amounted to a net asset of approximately \$3.5 million, \$1.5 million and \$2.5 million at March 31, 2015, December 31, 2014, and March 31, 2014 respectively. Finally, the Company has no exposure to foreign currency exchange rate risk, commodity price risk and other market risks.

Interest rates play a major part in the net interest income of a financial institution. The sensitivity to rate changes is known as interest rate risk. The repricing of interest-earning assets and interest-bearing liabilities can influence the changes in net interest income. As part of the Company's asset/liability management program, the timing of repriced assets and liabilities is referred to as gap management.

The Company uses simulation analysis to monitor changes in net interest income due to changes in market interest rates. The simulation of rising, declining and flat interest rate scenarios allows management to monitor and adjust interest rate sensitivity to minimize the impact of market interest rate swings. The analysis of the impact on net interest income over a twelve-month period is subjected to a gradual and shock 200 basis point increase or decrease in market rates on net interest income and is monitored on a quarterly basis.

Additional information required by Item 305 of Regulation S-K is set forth under Part I, Item 2 of this report.

#### **Item 4. Controls and Procedures**

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Exchange Act), as of the end of the period covered by this report, as required by paragraph (b) of Rules 13a-15 or 15d-15 of the Exchange Act. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

During the quarter ended March 31, 2015, there was no change in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 of the Exchange Act that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
