PROXY STATEMENT

This Proxy Statement and the accompanying proxy are being furnished with respect to the solicitation of proxies by the Board of Directors (the Board) of China Security & Surveillance Technology, Inc., a Delaware corporation (the Company, CSST or we), for the 2008 Annual Meeting of Stockholders (the Meeting). The Meeting is to be held at 10:00, local time, on Wednesday, June 18, 2008, and at any adjournment or adjournments thereof, at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, 518034, People's Republic of China.

The approximate date on which the Proxy Statement and form of proxy are intended to be sent or given to stockholders is May 12, 2008.

The purposes of the Meeting are to seek stockholder approval of two proposals: (i) electing five (5) directors to the Board and (ii) ratifying the appointment of the Company's accountants for fiscal year 2008.

Who May Vote

Only stockholders of record of our common stock, \$.0001 par value (the Common Stock), as of the close of business on May 9, 2008 (the Record Date) are entitled to notice and to vote at the Meeting and any adjournment or adjournments thereof.

A list of stockholders entitled to vote at the Meeting will be available at the Meeting and for ten days prior to the Meeting, during office hours, at the executive offices of the Company at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, 518034, People's Republic of China, by contacting the Secretary of the Company.

The presence at the Meeting of a majority of the outstanding shares of Common Stock as of the Record Date, in person or by proxy, is required for a quorum. Should you submit a proxy, even though you abstain as to one or more proposals, or you are present in person at the Meeting, your shares shall be counted for the purpose of determining if a quorum is present.

Broker non-votes are included for the purposes of determining whether a quorum of shares is present at the Meeting. A broker non-vote occurs when a nominee holder, such as a brokerage firm, bank or trust company, holding shares of record for a beneficial owner does not vote on a particular proposal because the nominee holder does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner.

As of the date of this Proxy Statement, we had issued and outstanding 42,859,292 shares of Common Stock. Each holder of Common Stock on the Record Date is entitled to one vote for each share then held on all matters to be voted at the Meeting. No other class of voting securities was then outstanding.

Voting Your Proxy

You may vote by one of the following methods:

- Completing and signing the proxy card and mailing it in the enclosed postage-paid envelope; or
- Voting on the internet. Please follow the instructions that are either included with the proxy materials provided by the Transfer Agent (you may obtain copies of such information by contacting the Transfer Agent at American Stock Transfer & Trust Company, 6201 15th Avenue, Brooklyn, NY 11219, Telephone: 718.921.8210, www.amstock.com) or on the proxy card.

If your shares are held through a broker, trust, bank or other nominee, you should refer to information forwarded to you by such holder of record for your voting options.

The shares represented by any proxy duly given will be voted at the Meeting in accordance with the instructions of the stockholder. If no specific instructions are given, the shares will be voted FOR the election of the nominees for director set forth herein, and FOR ratification of GHP Horwath, P.C. as the Company's independent registered public accounting firm. In addition, if other matters come before the Meeting, the persons named in the accompanying form of proxy will vote in accordance with their best judgment with respect to such matters.

Each share of Common Stock outstanding on the Record Date will be entitled to one vote on all matters. Under Proposal 1 (Election of Directors), the five candidates for election as directors at the Meeting are uncontested. In uncontested elections, directors are elected by majority of the votes cast at the Meeting. Proposal 2 (Ratification of Independent Auditors) requires the vote of a majority of the shares present in person or by proxy at the Meeting for approval.

Shares which abstain from voting as to a particular matter, and shares held in street name by brokers or nominees who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular matter, will not be counted as votes in favor of such matter, and will also not be counted as shares voting on such matter. Accordingly, abstentions and broker non-votes will have no effect on the voting on matters (such as the election of directors, and the ratification of the selection of the independent registered public accounting firm) that require the affirmative vote of a plurality or a majority of the votes cast or the shares voting on the matter.

Revoking Your Proxy

Even if you execute a proxy, you retain the right to revoke it and to change your vote by notifying us at any time before your proxy is voted.

Mere attendance at the meeting will not revoke a proxy. Such revocation may be effected in writing by execution of a subsequently dated proxy or by a written notice of revocation, in each case sent to the attention of the Secretary at the address of our principal office set forth above in the Notice to this Proxy Statement, or by your attendance and voting in person at the Meeting. In addition, you may revoke your proxy via the Transfer Agent's website at www.amstock.com; please contact the Transfer Agent at American Stock Transfer & Trust Company, 6201 15th Avenue, Brooklyn, NY 11219, Telephone: 718.921.8210, www.amstock.com for instructions). Unless so revoked, the shares represented by proxies, if received in time, will be voted in accordance with the directions given therein.

If the Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Meeting (except for any proxies that have at that time effectively been revoked or withdrawn), even if the proxies had been effectively voted on the same or any other matter at a previous Meeting.

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form DEF 14A

You are requested, regardless of the number of shares you own or your intention to attend the Meeting, to sign the proxy and return it promptly in the enclosed envelope.

Solicitation of Proxies

The expenses of solicitation of proxies will be paid by the Company. We may solicit proxies by mail, and the officers and employees of the Company, who will receive no extra compensation therefore, may solicit proxies personally or by telephone. The Company will reimburse brokerage houses and other nominees for their expenses incurred in sending proxies and proxy materials to the beneficial owners of shares held by them.

Delivery of Proxy Materials to Households

Only one copy of the Company's 2007 Annual Report and Proxy Statement for the 2008 Annual Meeting of Stockholders will be delivered to an address where two or more stockholders reside unless we have received contrary instructions from a stockholder at the address. A separate proxy card will be delivered to each stockholder at the shared address.

If you are a stockholder who lives at a shared address and you would like additional copies of the 2007 Annual Report, this Proxy Statement, or any future annual reports or proxy statements, contact the Manager, Investor Relations at China Security & Surveillance Technology, Inc., 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, 518034, People's Republic of China; Telephone number 011 (86-755) 83510888, extension 5611, and we will promptly mail you copies.

Beginning in 2008, the Board will conduct a review of the Chief Executive Officer's performance at the end of each fiscal year. As part of this process, the Chief Executive Officer will provide a self-assessment report. At the following Board meeting, the Board will set the compensation of the Chief Executive Officer, after considering its assessment of the Chief Executive Officer's performance, market comparison data and the recommendations of the Compensation Committee. Neither the Chief Executive Officer nor any other members of management may be present in meetings which the Chief Executive Officer's compensation is deliberated.

The Chief Executive Officer, in consultation with the Senior Vice President - Human Resources, reviews the performance of the other Named Executive Officers with the Compensation Committee and provides recommendations for the Compensation Committee's consideration. The Compensation Committee determines the compensation for these executives, after considering the Chief Executive Officer's recommendations and, market comparison data regarding compensation levels among peer companies.

Compensation Committee Interlocks and Insider Participation

All current members of the Compensation Committee are independent directors, and all past members were independent directors at all times during their service on such Committee. None of the past or present members of our Compensation Committee are present or past employees or officers of ours or any of our subsidiaries. No member of the Compensation Committee has had any relationship with us requiring disclosure under Item 404 of Regulation S-K under the Securities Exchange Act of 1934, as amended. None of our executive officers serves on the board of directors or compensation committee of a company that has an executive officer that serves on our Board or Compensation Committee.

Nominating and Governance Committee

Our Nominating and Governance Committee (the Nominating and Governance Committee) consists of Runsen Li, Peter Mak and Robert Shiver, each of whom is independent as defined by the applicable rules and regulations of the SEC and NYSE. The Nominating and Governance Committee assists the Board in identifying individuals qualified to become our directors and in determining the composition of the Board and its committees. The Nominating and Governance Committee is responsible for, among other things:

- identifying and recommending to the Board nominees for election or re-election to the Board, or for appointment to fill any vacancy;
- reviewing annually with the Board the current composition of the Board in light of the characteristics of independence, age, skills, experience and availability of service to us;
- identifying and recommending to the board the directors to serve as members of the Board s committees; and
- monitoring compliance with our code of business conduct and ethics.

Board, Committee and Annual Meeting Attendance

During 2007, the Board held 12 meetings and acted by written consent 77 times. Our audit committee held 3 meetings and the Compensation Committee and the Nominating and Governance Committee each held one meeting. Each director attended at least 75% of all board of directors and applicable committee meetings. We encourage our directors to attend our annual meeting of stockholders. Last year, 4 directors attended the annual stockholder meeting.

Our directors are expected to attend board meetings as frequently as necessary to properly discharge their responsibilities and to spend the time needed to prepare for each such meeting. Our directors are expected to attend annual meetings of stockholders, but we do not have a formal policy requiring them to do so.

Family Relationships

There are no family relationships among our directors or officers.

Director Recommendations and Nominations

It is the Nominating and Governance Committee's policy to consider properly submitted stockholder recommendations (as opposed to a formal nomination) for candidates for membership on the Board. A stockholder may submit a recommendation for a candidate for membership on the Board by submitting in writing the name and background of such candidate to the Nominating and Governance Committee, c/o Secretary, China Security & Surveillance Technology, Inc., 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, 518034, People's Republic of China. The Nominating and Governance Committee will consider a recommendation only if (1) appropriate biographical and background information on the candidate is provided, (2) the recommended candidate has consented in writing to a nomination and public disclosure of the candidate's name and biographical information, and (3) the recommending stockholder has consented in writing to public disclosure of such stockholder's name. Required biographical and background information include: (A) the name, age, business address and residence of such person, (B) the principal occupation and employment of such person, and (C) biographical information on the recommended candidate that the recommending stockholder believes supports such candidacy (keeping in mind the criteria discussed below that the Nominating and Governance Committee considers in making recommendations for nomination to the Board).

The Nominating and Governance Committee uses a variety of methods for identifying candidates for nomination to the Board. Although candidates for nomination to the Board typically are suggested by existing directors or by our executive officers, candidates may come to the attention of the Committee through professional search firms, stockholders or other persons. The process by which candidates for nomination to the Board are evaluated includes review of biographical information and background material on potential candidates by committee members, meetings of committee members from time to time to evaluate and discuss potential candidates, and interviews of selected candidates by members of the committee. Candidates recommended by stockholders (and properly submitted, as discussed below) are evaluated by the Nominating and Governance Committee using the same criteria as other candidates. Although the Nominating and Governance Committee does not have specific minimum qualifications that must be met before recommending a candidate for election to the Board, the committee does review numerous criteria before recommending a candidate. Such criteria include: character, integrity, judgment, diversity, independence, skills, education, expertise, business acumen, business experience, length of service, understanding of our business, other commitments and the like.

Code of Business Conduct and Ethics

On October 25, 2007, we adopted a new code of business conduct and ethics relating to the conduct of our business by our employees, officers and directors. Stockholders who wish to communicate with the Board may write to it at the Company's address given above. These communications will be reviewed by one or more employees of the Company designated by the Board, who will determine whether they should be presented to the Board. The purpose of this screening is to allow the Board to avoid having to consider irrelevant or inappropriate communications.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

An understanding of our executive compensation program begins with an understanding of the objectives the program is intended to serve. These include:

- **Offering competitive compensation.** We seek to offer a compensation package that is attractive and competitive with the compensation practices of the peer companies with which we compete for talent.
- **Rewarding performance.** Our compensation program is intended to closely align executive compensation with performance by tying a significant portion of compensation to the achievement of financial and other Company goals and the executive's contributions to the accomplishment of those goals.
- **Aligning the interests of our executives with those of our shareholders.** Over 90% of the total compensation paid to our Named Executive Officers is in the form of equity-based compensation. This serves to further align the interests of our executives with those of our shareholders.

2007 Compensation

The following discussion relates to our executive compensation program and the compensation decisions in fiscal year 2007 with respect to Guoshen Tu our Chief Executive Officer (referred to as our CEO), and the other executive officers named in the Summary Compensation Table on page 18. We refer to these executive officers as the Named Executive Officers.

In 2007, consistent with our historic practices, our Board, on which each of Messrs. Tu and Yap served, determined the compensation to be paid to the Company's executive officers based on the Company's financial and operating performance and prospects and the contributions of each of the executive officers to the success of the Company.

The Compensation Committee, formed in late 2007, was established to oversee the compensation program for the Named Executive Officers and for the other members of senior management who report to the CEO. The Compensation Committee is assisted in fulfilling its responsibilities by the Compensation Consultant. The Compensation Consultant is engaged by, and reports directly to, the Compensation Committee. Additional information on the roles of the Compensation Committee, the Compensation Consultant and management in the process for determining executive compensation is on page 9.

Neither our Board nor our Compensation Committee has, as of yet, adopted or established a formal policy or procedure for determining the amount of compensation paid to our executive officers. Historically, no pre-established, objective performance goals or metrics were used by the Board in determining the compensation of our executive officers. Mr. Tu and Mr. Yap have been involved in the Board's deliberations regarding executive compensation in the past and have provided recommendations with respect to their and the other executive officers' compensation. Going forward, such determinations will be made solely by our Compensation Committee, and neither Mr. Tu nor Mr. Yap will take part in any discussions regarding their own respective compensation.

2008 Compensation

The Compensation Committee is responsible for determining the elements of our compensation program. In doing so, the Compensation Committee seeks to structure our program in a way that furthers our program objectives of providing a competitive compensation package, promoting our pay-for-performance philosophy and aligning the interests of our executives and shareholders. In structuring the 2008 program, the Compensation Committee considered market comparison information provided by the Compensation Consultant regarding executive compensation practices generally and at selected comparator companies.

The key compensation elements selected by the Compensation Committee include:

- annual salary;
- annual discretionary bonus (moving to non-discretionary, performance-based in 2008); and
- long-term equity-based compensation, which for 2007 and 2008 consisted exclusively of restricted stock awards

The Compensation Committee believes that this combination of salary, bonus and equity-based compensation is appropriate to provide a competitive compensation package to our executives based on prevailing market practices. As the Compensation Committee continues to develop our compensation programs, it expects to tie a significant portion of target compensation to performance in order to further support our pay-for-performance philosophy and the achievement of our strategic goals. While no specific formula is used to determine the allocation between performance-based and fixed compensation, this emphasis on pay-for-performance resulted in performance-based compensation representing the largest portion of the total target compensation (meaning salary, bonus, and equity-based compensation) of the Named Executive Officers in fiscal year 2007 and for 2008. Specifically, for fiscal year 2007, the grant date fair values of equity-based compensation awards amounted to 99% of total target compensation for the CEO and 95% to 99% of total target compensation for the other Named Executive Officers.

The Comparison Group. In 2008, the Compensation Committee compared the Company's executive compensation program to that of a group of select comparator companies (referred to as the Comparison Group). The Compensation Committee compared both the structure of our executive compensation program and target compensation to that of the Comparison Group. A significant portion of the Comparison Group is comprised of China-based technology and communication companies listed on the NYSE. Several of these companies are significantly larger than our Company. However, after a careful examination of pay levels and practices at these larger China-based companies, the Compensation Committee determined that executive compensation at these larger companies was not significantly different than smaller companies and decided to include these companies in the Comparison Group in 2008.

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form DEF 14A

The Comparison Group consists of 16 companies that the company competes with for executive talent. The companies included in the Comparison Group were selected by the Compensation Committee based on the recommendation of the Compensation Consultant.

The Comparison Group is comprised of the companies listed below. Two additional companies not listed below, Honeywell's Automation and Controls Systems and Diebold's Integrated Security Solutions, are division-level businesses that compete with us. These two division-level businesses were considered in the assessment of President and Chief Operating Officer position compensation levels. These two division-level businesses were considered in the assessment of Compensation levels.

2008 Compensation Structure and Targets. In 2008, the Compensation Committee, with the advice of the Compensation Consultant, conducted a comparison of our executive compensation structure and practices to those of the Comparison Group. This review covered several aspects of compensation, including base salary, bonus, equity-based compensation, target compensation, and performance measures. The Compensation Committee used the market analysis to establish pay targets for 2008.

Based on its review, the Compensation Committee concluded that the structure of its 2008 compensation program is reasonably consistent with industry practices, particularly with regard to other China-based companies, in which equity grants are often a major pay component.

The Compensation Committee used market comparison data to set target levels for each individual element of our compensation program (salary, bonus and equity-based compensation) and for total compensation. For each element of compensation, the Compensation Committee seeks to determine the prevailing competitive range of target compensation based on publicly-available information and the advice of the Compensation Consultant, with the mid-point of the range being the 75th percentile of the Comparison Group. The Compensation Committee then seeks to set each element of compensation within this competitive range, assuming payout of performance-based awards at target. An executive's actual compensation may be more or less than the target amount set by the Compensation Committee depending on the Company's performance, changes in the Company's stock price and other factors.

The Compensation Committee believes the 75th percentile is appropriate for attracting top talent. Targeting the 75th percentile is also consistent with the growth of the company and pace of acquisitions that are unique in the industry. Also, as a newly listed NYSE company, the Compensation Committee believes it is necessary at this time to motivate key executives and to reward the efforts required to achieve the Company's aggressive goals.

Setting compensation targets based on market comparison data is intended to ensure that our compensation practices are competitive with regard to attracting and retaining executive talent. Because each compensation element is targeted to be within a competitive range based on current available data, compensation decisions with respect to one element of compensation do not affect decisions with respect to other compensation elements. It is also for this reason that no specific formula is used to determine the allocation between cash and equity-based compensation. In addition, because a Named Executive Officer's compensation target is set by reference to persons with similar duties at the Comparison Group companies, the Compensation Committee does not establish any fixed relationship between the compensation of the CEO and that of any other Named Executive Officer.

The role of individual goals

Starting in 2008, individual goals will be set each year for the Named Executive Officers. These will include financial, organizational and operational objectives that are tied to our business plan and overall strategy. In addition to the achievement of corporate goals, the Compensation Committee will consider an executive's performance against his individual goals for the year. This will enable the Compensation Committee to differentiate among executives and emphasize the link between personal performance and compensation.

The Key Elements of Our 2007 Executive Compensation Program

As was stated earlier, the key elements of our compensation program are salary, discretionary bonus, and equity-based compensation

Base salary

Salaries are based on the executive's performance, scope of responsibilities and experience, competitive pay practices and tenure. Base salary is intended to provide a fixed, baseline level of compensation that is not contingent on the company's performance, although performance does influence salary adjustments.

Since the Compensation Committee was formed in the fourth quarter of 2007, no actions were taken regarding 2007 salary levels for the Named Executive Officers. However, an extensive review of compensation practices at the Company and in the market was completed in January 2008 and will serve as the foundation for 2008 compensation decisions. Through 2007, the Named Executive Officers were compensated primarily with equity salaries were minimal. Going forward, we expect to increase salary to a level that more closely reflects market practice.

Bonus

It has not been our practice to pay annual bonuses. However, following its analysis of the Comparison Group, the Compensation Committee decided to introduce a formally structured, performance-based short-term incentive program in 2008.

For 2008, bonuses paid to the Named Executive Officers will be based on both discretionary and non-discretionary factors including the achievement of pre-determined performance goals such as cash flow, EBITDA, revenue, and earnings per share.

Equity-based Compensation

The most significant element of our compensation program is equity-based compensation. On February 7, 2007, our Board adopted the Company's 2007 Equity Incentive Plan (the 2007 Plan), which was thereafter amended and restated on December 20, 2007, to provide for grants of stock options, stock appreciation rights, performance units, restricted stock, restricted stock units and performance shares. The purposes of the 2007 Plan are to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees, directors and consultants, and to promote the success of the Company's business.

Restricted stock awards were granted in February and October 2007. The total value of the grants to the Named Executive Officers in 2007 were intended to provide awards that contribute toward competitive total compensation that is also linked to shareholder returns and creates a retention incentive. In 2008, the Compensation Committee is considering granting equity-based compensation with performance vesting conditions.

Role of Equity-Based Compensation. Equity-based compensation furthers a number of our objectives. Specifically, granting equity-based compensation allows us to:

- to offer a compensation package that is competitive and enhances our ability to attract and retain executive talent;
- align the interests of our executives with those of our shareholders, thereby encouraging the creation of shareholder value; and
- help establish a direct link between compensation amounts, total shareholder return and company operating performance.

2008 Award process. The Compensation Committee will determine the size of an equity grant based on the fair value of awards. Accordingly, the Compensation Committee will first determine the total dollar value of the award to be granted to the Named Executive Officer based on the executive's performance and market comparison data, and then convert this value into the number of shares or stock options to be granted.

Timing of equity awards. The Compensation Committee has not formally adopted policy for granting stock options but is considering this matter in 2008. Policies to be considered include (1) prohibiting backdating any equity grant and manipulating the timing of either the public release of information or the grants in order to increase the value of the award and (2) establishing fixed dates for annual equity-based compensation awards and off-cycle awards approved by our CEO. It is our policy to grant stock options with an exercise price no less than the closing price of a share of our common stock on the granting date.

Other Benefits

At present, no other benefits are provided to our executive officers. This includes perquisites, pension and retirement benefits, deferred compensation, life insurance and severance or change in control benefits. At this time, there are no plans to provide these benefits.

Change in Control and Employment Agreements

Through 2007, there were no change-in-control agreements or employment agreements of any kind.

Compensation Committee Report

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management. Based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Potential Payments Upon Termination of Employment or Change of Control

The Company does not have change-in-control arrangements with any of its executive officers, and the Company is not obligated to pay severance or other enhanced benefits to executive officers upon termination of their employment.

The 2007 Plan provides for the acceleration of vesting if a successor corporation does not assume or substitute outstanding stock awards. Upon a change of control, all unvested options and stock appreciation rights will become fully vested and exercisable, and all restricted stock units, performance units, performance shares and restricted stock will become fully vested and payable. Accelerated vesting occurs with respect to all equity-based compensation awards granted by the Company, and not just those granted to the Named Executive Officers. In addition, no termination of employment is required to accelerate vesting.

The following table reflects the intrinsic value of unvested restricted stock that would be accelerated assuming a change in control occurred on December 31, 2007. Our Named Executive Officers are not entitled to any payments upon a termination of employment.

Non-Management Directors Compensation

The Board believes that providing competitive compensation is necessary to attract and retain qualified non-management directors. The key elements of the Company's non-management director compensation are a cash retainer, committee chairman fees, and equity-based compensation and meeting fees. The Company reimburses non-management directors for travel and other business expenses incurred in the performance of their services for the Company. Directors are also reimbursed for attending director education courses.

The following table sets forth the compensation earned by the non-management directors during fiscal year 2007.

DIRECTOR COMPENSATION

The restricted stock grants vest evenly each month over a twelve month period beginning in January 2008. The amount reflected in the stock award column reflects the compensation expense recognized by the Company in fiscal year 2007 determined in accordance with SFAS 123R. Each non-management director held 10,000 shares that had not vested as December 31, 2007.

(2)

Mr. Li was elected to the Board effective August 1, 2007. Mr. Mak and Mr. Shiver became directors on October 25, 2007. Accordingly, each director's annual cash retainer was pro rated accordingly. In 2007, the annual cash retainer for each director was: \$10,000 for Mr. Li, \$120,000 for Mr. Mak, and \$50,000 for Mr. Shiver.

Based on an analysis of director compensation paid by the Comparison Group, the Board approved the following compensation structure for non-management directors in 2008.

TRANSACTIONS WITH RELATED PERSONS, PROMOTERS AND CERTAIN CONTROL PERSONS; CORPORATE GOVERNANCE

Transactions with Related Persons

The following includes a summary of transactions since the beginning of the last fiscal year, or any currently proposed transaction, in which we were or are to be a participant and the amount involved exceeded or exceeds \$120,000, and in which any related person had or will have a direct or indirect material interest (other than compensation described under Executive Compensation). We believe the terms obtained or consideration that we paid or received, as applicable, in connection with the transactions described below were comparable to terms available or the amounts that would be paid or received, as applicable, in arm's-length transactions.

- We have leased property to Jiangxi Golden, Jian An Ke and Jiangxi Golden Motuo Che Zhizhao Co. Ltd. of which Guoshen Tu, our CEO and director, is the Chairman and a shareholder. The aggregated annual rental was \$483,000 in 2007. The leases expire on December 31, 2007.

Policies and Procedures for Review, Approval or Ratification of Transactions with Related Persons

We are in the process of adopting a written related-person transactions policy that sets forth our policies and procedures regarding the identification, review, consideration and approval or ratification of related-persons transactions. For purposes of our policy only, a related-person transaction will be a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we and any related person are participants involving an amount that exceeds \$50,000. Transactions involving compensation for services provided to us as an employee, director, consultant or similar capacity by a related person will not be covered by this policy. A related person will be any executive officer, director or a holder of more than five percent of our common stock, including any of their immediate family members and any entity owned or controlled by such persons.

Under the policy, where a transaction has been identified as a related-person transaction, management must present information regarding the proposed related-person transaction to our Board for consideration and approval or ratification. The presentation must include a description of, among other things, the material facts, the direct and indirect interests of the related persons, the benefits of the transaction to us and whether any alternative transactions are available. To identify related-person transactions in advance, we will rely on information supplied by our executive officers, directors and certain significant stockholders. In considering related-person transactions, our Board will take into account the relevant available facts and circumstances including, but not limited to:

- the risks, costs and benefits to us;
- the impact on a director's independence in the event the related person is a director, immediate family member of a director or an entity with which a director is affiliated;
- the terms of the transaction;
- the availability of other sources for comparable services or products; and
- the terms available to or from, as the case may be, unrelated third parties or to or from our employees generally.

In the event a director has an interest in the proposed transaction, the director must excuse himself or herself from the deliberations and approval. Our policy will require that, in determining whether to approve, ratify or reject a related-person transaction, our Board, and if we establish an audit committee, our audit committee, must consider, in light of known circumstances, whether the transaction is in, or is not inconsistent with, the best interests of our Company and our stockholders, as our board or audit committee, as applicable, determines in the good faith exercise of its discretion. We did not previously have a formal policy concerning transactions with related persons.
