Shareholder Alert

Proposals 4 and 5 are the most important items on the ballot!

It is time to tell Hugh Grant, the Chairman of the PPG Corporate Governance Committee, to get serious about passing proposals 4 and 5 – the most important items on the ballot:

4. To vote on an amendment of the Company's Articles of Incorporation to provide for the annual election of directors;
5. To vote on an amendment of the Company's Articles of Incorporation and Bylaws to replace the supermajority voting requirements;

Due to the antiquated PPG corporate governance these 2 items need 80% of the vote from every last share of PPG stock.

A share that is not voted is the same as a share that votes no.

The PPG shareholders who voted on a proposal similar to Proposal 4 in 2015 voted in favor by a margin 50-to-1 but not enough shareholders voted.

Ask Mr. Grant why PPG has not emphasized to shareholders that this is the reason that votes for these 2 proposals are so important.

It would be egg-on-the-face of the Board and Mr. Grant to come close to obtaining the necessary votes and still fail on these 2 important proposals.

Apparently Mr. Grant can be contacted through:
