12. RESTRUCTURING

During fiscal 2008, our board of directors approved a plan (2008-2009 plan) recommended by executive management to improve the efficiency of our Consumer Foods operations and related functional organizations and to streamline our international operations to reduce our manufacturing and selling, general, and administrative costs. The 2008-2009 plan, which was substantially completed by the end of fiscal 2009, included the reorganization of the Consumer Foods operations, the integration of the international headquarters functions into our domestic business, and exiting a number of international markets. The total cost of this plan was \$36.4 million, of which \$0.1 million and \$8.2 million were recorded during the first quarter of fiscal 2010 and 2009, respectively. We have recorded expenses associated with this restructuring plan, including but not limited to, inventory write-downs, severance and related costs, and plan implementation costs (e.g., consulting, employee relocation, etc.). Approximately \$1.9 million, \$2.7 million, and \$13.0 million of liabilities related to this plan remained outstanding at August 30, 2009, May 31, 2009, and August 24, 2008, respectively. Included in the above costs are \$26.5 million of charges which have resulted in cash outflows and \$9.9 million of non-cash charges.

During fiscal 2008, we reassessed certain aspects of our plan to rationalize our supply chain. We determined that we would continue to operate three production facilities that we had previously planned to close. As a result of this determination, previously established reserves, primarily for related severance costs and pension costs, were reversed in fiscal 2008. We are currently evaluating the best use of a new production facility, the construction of which is in progress, in connection with our restructuring plans. We believe, based on our current assessment of likely scenarios, the carrying value of this facility (\$40.4 million at August 30, 2009) is recoverable. In the event we determine that the future use of the new facility will not result in recovery of the recorded value of the asset, an impairment charge would be required.

13. INCOME TAXES

Our income tax expense from continuing operations for the first quarter of fiscal 2010 and 2009 was \$91.0 million and \$66.0 million, respectively. The effective tax rate (calculated as the ratio of income tax expense to pre-tax income from continuing operations, inclusive of equity method investment earnings) from continuing operations was approximately 35% and 38% for the first quarter of fiscal 2010 and 2009, respectively.

The amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, was \$79.0 million as of August 30, 2009, \$74.6 million as of May 31, 2009, and \$65.9 million as of August 24, 2008. The net amount of unrecognized tax benefits at August 30, 2009, May 31, 2009, and August 24, 2008 that, if recognized, would impact the Company's effective tax rate was \$50.5 million, \$51.0 million, and \$45.2 million, respectively. Recognition of these tax benefits would have a favorable impact on the Company's effective tax rate. The gross unrecognized tax benefits exclude related liabilities for gross interest and penalties of \$15.9 million, \$14.5 million, and \$13.4 million as of August 30, 2009, May 31, 2009, and August 24, 2008, respectively.

We estimate that it is reasonably possible that the amount of gross unrecognized tax benefits will decrease by \$8 million to \$12 million over the next twelve months due to various federal, state, and foreign audit settlements and the expiration of statutes of limitations.

14. CONTINGENCIES

In fiscal 1991, we acquired Beatrice Company (Beatrice). As a result of the acquisition and the significant pre-acquisition contingencies of the Beatrice businesses and its former subsidiaries, our consolidated post-acquisition financial statements reflect liabilities associated with the estimated resolution of these contingencies. These include various litigation and environmental proceedings related to businesses divested by Beatrice prior to its acquisition by the Company. The litigation includes several public nuisance and personal injury suits against a number of lead paint and pigment manufacturers, including ConAgra Grocery Products and the Company as alleged successors to W. P. Fuller Co., a lead paint and pigment manufacturer owned and operated by Beatrice until 1967. Although decisions

favorable to us have been rendered in Rhode Island, New Jersey, Wisconsin, and Ohio, we remain a defendant in active suits in Illinois and California. The Illinois suit seeks class-wide relief in the form of medical monitoring for elevated levels of lead in blood. In California, a number of cities and counties have joined in a consolidated action seeking abatement of the alleged public nuisance.

The environmental proceedings include litigation and administrative proceedings involving Beatrice's status as a potentially responsible party at 35 Superfund, proposed Superfund, or state-equivalent sites; these sites involve locations previously owned or operated by predecessors of Beatrice that used or produced petroleum, pesticides, fertilizers, dyes, inks, solvents, PCBs, acids, lead, sulfur, tannery wastes, and/or other contaminants. Beatrice has paid or is in the process of paying its liability share at 32 of these sites. Reserves for these matters have been established based on our best estimate of the undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required cleanup, the known volumetric contribution of Beatrice and other potentially responsible parties, and its experience in remediating sites. The reserves for Beatrice environmental matters totaled

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

\$87.6 million as of August 30, 2009, a majority of which relates to the Superfund and state-equivalent sites referenced above. We expect expenditures for Beatrice environmental matters to continue for up to 20 years.

In limited situations, we will guarantee an obligation of an unconsolidated entity. At the time in which we initially provide such a guarantee, we assess the risk of financial exposure to us under these agreements. We consider the credit-worthiness of the guaranteed party, the value of any collateral pledged against the related obligation, and any other factors that may mitigate our risk (e.g., letters of credit from a financial institution). We periodically monitor market and entity-specific conditions that may result in a change of our assessment of its risk of loss under these agreements.

We guarantee certain leases and other commercial obligations resulting from our fresh beef and pork divestiture. The remaining terms of these arrangements do not exceed six years and the maximum amount of future payments we have guaranteed was approximately \$17.8 million as of August 30, 2009.

We have also guaranteed the performance of the divested fresh beef and pork business with respect to a hog purchase contract. The hog purchase contract requires the fresh beef and pork business to purchase a minimum of approximately 1.2 million hogs annually through 2014. The contract stipulates minimum price commitments, based in part on market prices, and, in certain circumstances, also includes price adjustments based on certain inputs. We have not established a liability for any of the fresh beef and pork divestiture-related guarantees, as we have determined that the likelihood of our required performance under the guarantees is remote.

We are a party to various potato supply agreements. Under the terms of certain such potato supply agreements, we have guaranteed repayment of short-term bank loans of the potato suppliers, under certain conditions. At August 30, 2009, the amount of supplier loans we have effectively guaranteed was approximately \$64.3 million. We have not established a liability for these guarantees, as we have determined that the likelihood of our required performance under the guarantees is remote.

We are a party to a supply agreement with an onion processing company. We have guaranteed repayment of a loan of this supplier, under certain conditions. At August 30, 2009, the amount of this loan was \$25.0 million. In the event of default on this loan by the supplier, we have the contractual right to purchase the loan from the lender, thereby giving us the rights to the underlying collateral. We have not established a liability in connection with this guarantee, as we believe the likelihood of financial exposure to us under this agreement is remote.

We are a party to a number of lawsuits and claims arising out of the operation of our business, including lawsuits and claims related to the February 2007 recall of our peanut butter products and litigation we initiated against an insurance carrier to recover our settlement expenditures and defense costs. We recognized a charge of \$25.3 million during the second half of fiscal 2009 in connection with the disputed coverage with this insurance carrier.

An investigation by the Division of Enforcement of the U.S. Commodity Futures Trading Commission (CFTC) of certain commodity futures transactions of a former Company subsidiary has led to an investigation by the CFTC of the Company itself. The investigation may result in litigation by the CFTC against the Company. The former subsidiary was sold on June 23, 2008, as part of the divestiture of our trading and merchandising operations. The CFTC s Division of Enforcement has advised the Company that it questions whether certain trading activities of the former subsidiary violated the Commodity Exchange Act and that the CFTC has been evaluating whether we should be implicated in the matter based on the existence of the parent-subsidiary relationship between the two entities at the time of the trades. Based on information we have learned to date, the Company believes that both it and the former subsidiary have meritorious defenses. We have submitted a statement to the Division of Enforcement contesting any purported liability. We also believe the sale contract with the purchaser of the business provides us indemnification rights. Accordingly, we do not believe any decision by the CFTC to pursue this matter will have a material adverse effect on the Company. If litigation ensues, the Company intends to defend itself vigorously.

In June 2009, an accidental explosion occurred at our manufacturing facility in Garner, North Carolina. See Note 6 for information related to this matter.

After taking into account liabilities recognized for all of the foregoing matters, management believes the ultimate resolution of such matters should not have a material adverse effect on our financial condition, results of operations, or liquidity. It is reasonably possible that a change in one of the estimates of the foregoing matters may occur in the future. Costs of legal services are recognized in earnings as services are provided.

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

15. PENSION AND POSTRETIREMENT BENEFITS

We have defined benefit retirement plans (plans) for eligible salaried and hourly employees. Benefits are based on years of credited service and average compensation or stated amounts for each year of service. We also sponsor postretirement plans which provide certain medical and dental benefits (other postretirement benefits) to qualifying U.S. employees.

Components of pension benefit and other postretirement benefit costs included:

	Pension Benefits		Postretirement Benefits	
	Thirteen weeks ended		Thirteen weeks ended	
	August	August	August	August
	30,	24,	30,	24,
	2009	2008	2009	2008
Service cost	\$ 12.5	\$ 12.9	\$ 0.1	\$ 0.2
Interest cost	37.0	35.3	4.5	5.7
Expected return on plan assets	(40.3)	(39.6)	(0.1)	
Amortization of prior service cost (gain)	0.8	0.8	(2.4)	(2.8)
Recognized net actuarial loss	0.9	0.5		2.5
Benefit cost - Company plans	10.9	9.9	2.1	5.6
Pension benefit cost - multi-employer plans	2.5	2.3		
Total benefit cost	\$ 13.4	\$ 12.2	\$ 2.1	\$ 5.6

During the first quarter of fiscal 2010, we contributed \$2.7 million to our pension plans and contributed \$8.8 million to our other postretirement plans. Based upon the current funded status of the plans and the current interest rate environment, we anticipate making further contributions of approximately \$23.1 million to our pension plans for the remainder of fiscal 2010. We anticipate making further contributions of \$26.2 million to our other postretirement plans during the remainder of fiscal 2010. These estimates are based on current tax laws, plan asset performance, and liability assumptions, which are subject to change.

16. LONG-TERM DEBT

As of May 31, 2009 and August 24, 2008, \$9.2 million and \$300.0 million, respectively, of senior debt due August 2027 was included in current installments of long-term debt due to the existence of a put option that was exercisable by the holders of this senior debt from June 1, 2009 to July 1, 2009. As part of our debt refinancing in the fourth quarter of fiscal 2009, we repaid \$290.8 million of this senior debt. We reclassified the amount not put by the holders to senior long-term debt in the first quarter of fiscal 2010, when the put option expired.

We consolidate the financial statements of Lamb Weston BSW. During the second quarter of fiscal 2009, Lamb Weston BSW entered into a term loan agreement with a bank under which it borrowed \$20.0 million of senior debt at an annual interest rate of 4.34% due September 2018. During the third quarter of fiscal 2009, Lamb Weston BSW restructured and repaid this debt and entered into a term loan agreement with a bank under which it borrowed \$40.0 million of variable (30-day LIBOR+1.85%) interest rate debt due in June 2018.

17. ACCELERATED SHARE REPURCHASE PROGRAM

We initiated an accelerated share repurchase program during the first quarter of fiscal 2009. We paid \$900 million and received 38.4 million shares in the first quarter of fiscal 2009 and an additional 5.6 million shares in the fourth quarter of fiscal 2009 under this program.

18. FAIR VALUE MEASUREMENTS

The provisions of SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements, were effective as of the beginning of our fiscal 2009 for our financial assets and liabilities, as well as for other assets and liabilities that are carried at fair value on a recurring basis in our consolidated financial statements. As of the beginning of fiscal 2010, we adopted SFAS No. 157 as it relates to nonrecurring fair value measurement requirements for nonfinancial assets and liabilities. These include long-lived assets, goodwill, asset retirement obligations, and certain investments. These items are recognized at fair value when they are considered to be other than temporarily impaired. In the first quarter of fiscal 2010, there were no required fair value measurements for assets and liabilities measured at fair value on a non-recurring basis.

SFAS No. 157 establishes a three-level fair value hierarchy based upon the assumptions (inputs) used to price assets or liabilities. The three levels of inputs used to measure fair value are as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities,

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

Level 2 Observable inputs other than those included in Level 1, such as quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets, and

Level 3 Unobservable inputs reflecting our own assumptions and best estimate of what inputs market participants would use in pricing the asset or liability.

The following table presents our financial assets and liabilities measured at fair value based upon the level within the fair value hierarchy in which the fair value measurements fall, as of August 30, 2009:

	Level 1	Level 2	Level 3	Total
Assets:				
Derivative assets	\$ 10.0	\$ 73.1	\$	\$ 83.1
Available for sale securities	1.6			1.6
Deferred compensation assets	6.5			6.5
 Total assets	 \$ 18.1	 \$ 73.1	 \$	 \$ 91.2
Liabilities:				
Derivative liabilities	\$	\$ 16.0	\$	\$ 16.0
Deferred and share-based compensation liabilities	21.2			21.2
 Total liabilities	 \$ 21.2	 \$ 16.0	 \$	 \$ 37.2

The carrying amount of long-term debt (including current installments) was \$3.5 billion as of August 30, 2009. Based on current market rates provided primarily by outside investment bankers, the fair value of this debt at August 30, 2009 was estimated at \$3.9 billion.

19. RELATED PARTY TRANSACTIONS

Sales to affiliates (equity method investees) of \$0.7 million and \$0.5 million for the first quarter of fiscal 2010 and 2009, respectively, are included in net sales. We received management fees from affiliates of \$4.8 million and \$4.3 million in the first quarter of fiscal 2010 and 2009, respectively. Accounts receivable from affiliates totaled \$0.8 million, \$2.7 million, and \$2.6 million at August 30, 2009, May 31, 2009, and August 24, 2008, respectively. Accounts payable to affiliates totaled \$17.1 million, \$14.3 million, and \$13.8 million at August 30, 2009, May 31, 2009, and August 24, 2008, respectively.

20. BUSINESS SEGMENTS AND RELATED INFORMATION

We report our operations in two reporting segments: Consumer Foods and Commercial Foods. The Consumer Foods reporting segment includes branded, private label, and customized food products, which are sold in various retail and foodservice channels, principally in North America. The products include a variety of categories (meals, entrees, condiments, sides, snacks, and desserts) across frozen, refrigerated, and shelf-stable temperature classes. The Commercial Foods reporting segment includes commercially branded foods and ingredients, which are sold principally to foodservice, food manufacturing, and industrial customers. The Commercial Foods segment's primary products include: specialty potato products, milled grain ingredients, a variety of vegetable products, seasonings, blends, and flavors which are sold under brands such as *Lamb Weston*[®], *ConAgra Mills*[®], *Gilroy Foods & Flavors*[™], and *Spicetec*[®].

During the first quarter of fiscal 2010, we completed the transition of the direct management of the Consumer Foods reporting segment from the Chief Executive Officer to the recently appointed Consumer Foods President position. In conjunction with this organizational change, beginning in the first quarter of fiscal 2010 we have aligned our segment

reporting to be consistent with the manner in which our operating results are presented to, and reviewed by, our Chief Executive Officer. All prior periods have been recast to reflect these changes.

During the first quarter of fiscal 2010, we transferred the management of the *Alexia*[®] frozen food operations from the Consumer Foods segment to the Commercial Foods segment. Segment results have been recast to reflect this change.

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

Intersegment sales have been recorded at amounts approximating market. Operating profit for each of the primary segments is based on net sales less all identifiable operating expenses. General corporate expense, net interest expense, and income taxes have been excluded from segment operations.

	Thirteen weeks ended	
	August	August 24,
	30,	2008
	2009	2008
Net sales:		
Consumer Foods	\$ 1,860.1	\$ 1,849.3
Commercial Foods	1,101.3	1,207.2

Operating profit plus equity method investment earnings:		
Consumer Foods	\$ 250.1	\$ 187.6
Commercial Foods	149.5	133.5
Total operating profit plus equity method investment earnings	\$ 399.6	\$ 321.1
General corporate expenses	100.6	97.4
Interest expense, net	41.5	50.1
Income tax expense	91.0	66.0
Income from continuing operations	\$ 166.5	\$ 107.6
Less: Income (loss) attributable to noncontrolling interests	(0.7)	
Income from continuing operations attributable to ConAgra Foods, Inc.	\$ 167.2	\$ 107.6

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

Net sales by product type within each segment were:

	Thirteen weeks ended	
	August	
	30,	August 24,
	2009	2008
Net sales:		
Consumer Foods:		
Convenient Meals	\$ 642.4	\$ 616.8
Snacks	295.9	308.4
Meal Enhancers	245.2	230.7
Specialty Foods	676.6	693.4
Total Consumer Foods	\$ 1,860.1	\$ 1,849.3
Commercial Foods:		
Specialty Potatoes	\$ 564.0	\$ 549.5
Milled Products	368.4	483.7
Seasonings, Blends and Flavors	95.0	100.0
Other	73.9	74.0
Total Commercial Foods	\$ 1,101.3	\$ 1,207.2
Total Net Sales	\$ 2,961.4	\$ 3,056.5

In fiscal 2009, following the sale of our trading and merchandising operations and related organizational changes, we transferred the management of commodity hedging activities (except for those related to our milling operations) to a centralized procurement group. Beginning in the first quarter of fiscal 2009, we began to reflect realized and unrealized gains and losses from derivatives (except for those related to our milling operations) used to hedge anticipated commodity consumption in earnings immediately within general corporate expenses. The gains and losses are reclassified to segment operating results in the period in which the underlying item being hedged is recognized in cost of goods sold. Prior to the first quarter of fiscal 2009, these derivative gains and losses were recorded immediately in our segment results as a component of cost of goods sold regardless of when the item being hedged impacted earnings. We believe this change results in better segment management focus on key operational initiatives and improved transparency to derivative gains and losses.

Foreign currency derivatives used to manage foreign currency risk are not designated for hedge accounting treatment. We believe that these derivatives provide economic hedges of the foreign currency risk of certain forecasted transactions. As such, these derivatives

ConAgra Foods, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
For the Thirteen Weeks ended August 30, 2009 and August 24, 2008
(columnar dollars in millions except per share amounts)

are recognized at fair market value with realized and unrealized gains and losses recognized in general corporate expenses. The gains and losses are subsequently recognized in the operating results of the reporting segments in the period in which the underlying transaction being economically hedged is included in earnings.

The following table presents the net derivative gains (losses) from economic hedges of forecasted commodity consumption and currency risk of our foreign operations for the first quarter of fiscal 2010 and 2009, under this methodology:

	Thirteen weeks ended	
	August	August
	30,	24,
	2009	2008
Net derivative losses incurred	\$ (17.1)	\$ (33.5)
Less: Net derivative losses allocated to reporting segments	(9.5)	(0.5)
Net derivative losses recognized in general corporate expenses	\$ (7.6)	\$ (33.0)
Net derivative losses allocated to Consumer Foods	\$ (5.8)	\$ (0.9)
Net derivative gains (losses) allocated to Commercial Foods	(3.7)	0.4
Net derivative losses included in segment operating profit	\$ (9.5)	\$ (0.5)

Based on our forecasts of the timing of recognition of the underlying hedged items, we expect to reclassify losses of \$9.3 million and \$3.6 million to segment operating results in fiscal 2010 and 2011, respectively. Amounts allocated, or to be allocated, to segment operating results during fiscal 2010 and 2011 include \$5.3 million of losses incurred during fiscal 2009, which have not been allocated to segment operating results.

We also use derivative instruments within our milling operations, which are part of the Commercial Foods segment. Derivative instruments used to economically hedge commodity inventories and forward purchase and sales contracts are marked-to-market such that realized and unrealized gains and losses are immediately included in operating results. The underlying inventory and forward contracts being hedged are also marked-to-market with changes in market value recognized immediately in operating results. For commodity derivative trading activities within our milling operations that are not intended to mitigate commodity input cost risk, the derivative instrument is marked-to-market each period with gains and losses included in net sales of the Commercial Foods segment. In the first quarters of fiscal 2010 and 2009, there were no material gains or losses from derivative trading activities.

Our largest customer, Wal-Mart Stores, Inc. and its affiliates, accounted for approximately 18% and 16% of consolidated net sales in the first quarter of fiscal 2010 and fiscal 2009, respectively.

Wal-Mart Stores, Inc. and its affiliates accounted for approximately 14%, 15%, and 15% of consolidated net receivables as of August 30, 2009, May 31, 2009, and August 24, 2008, respectively, primarily in the Consumer Foods segment.

ConAgra Foods, Inc. and Subsidiaries
Part I - Financial Information

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This report, including Management's Discussion & Analysis, contains forward-looking statements. These statements are based on management's current views and assumptions of future events and financial performance and are subject to uncertainty and changes in circumstances. Readers of this report should understand that these statements are not guarantees of performance or results. Many factors could affect our actual financial results and cause them to vary materially from the expectations contained in the forward-looking statements, including those set forth in this report. These factors include, among other things: availability and prices of raw materials; the impact of the accident at the Garner manufacturing facility, including the ultimate costs incurred and the amounts received under insurance policies; product pricing; future economic circumstances; industry conditions; our ability to execute our operating plans; the success of our innovation, marketing, and cost savings initiatives; competitive environment and related market conditions; operating efficiencies; the ultimate impact of recalls; access to capital; actions of governments and regulatory factors affecting our businesses; and other risks described in our reports filed with the Securities and Exchange Commission. We caution readers not to place undue reliance on any forward-looking statements included in this report which speak only as of the date of this report.

The following discussion should be read together with our financial statements and related notes contained in this report and with the financial statements, related notes, and Management's Discussion & Analysis in our annual report on Form 10-K for the fiscal year ended May 31, 2009. Results for the thirteen week period ended August 30, 2009 are not necessarily indicative of results that may be attained in the future.

Fiscal 2010 First Quarter Executive Overview

ConAgra Foods, Inc. (NYSE: CAG) is one of North America's leading food companies, with brands in 97% of America's households. Consumers find *Banquet*[®], *Chef Boyardee*[®], *Egg Beaters*[®], *Healthy Choice*[®], *Hebrew National*[®], *Hunt*[®], *Marie Callender*[®], *Orville Redenbacher*[®], *PAM*[®], *Peter Pan*[®], *Reddi-wip*[®], and many other ConAgra Foods brands in grocery, convenience, mass merchandise, and club stores. We also have a strong business-to-business presence, supplying potato, as well as other vegetable, spice, and grain products to a variety of well-known restaurants, foodservice operators, and commercial customers.

Diluted earnings per share were \$0.37 in the first quarter of fiscal 2010. Diluted earnings per share were \$0.94 in the first quarter of fiscal 2009, including \$0.23 per diluted share from continuing operations and \$0.71 per diluted share from discontinued operations. Several significant items affect the comparability of year-over-year results of continuing operations (see *Items Impacting Comparability* below).

Items Impacting Comparability

Segment presentation of gains and losses from derivatives used for hedging of anticipated commodity input costs and hedging of foreign currency exchange rate risks is discussed in the segment review below.

Items of note impacting comparability for the first quarter of fiscal 2009 included the following:

Reported within Continuing Operations

a gain of \$19 million (\$11 million after-tax) on the sale of the *Pemmican*[®] business and

charges totaling \$9 million (\$8 million after-tax) for costs under our restructuring plans.

Reported within Discontinued Operations

a gain of \$488 million (\$299 million after-tax) on the sale of the trading and merchandising business.

Garner, North Carolina Accident

On June 9, 2009, an accidental explosion occurred at our manufacturing facility in Garner, North Carolina. This facility was the primary production facility for our *Slim Jim*[®] branded meat snacks, and the packaging area of the plant is expected to be out of service for the foreseeable future. On June 13, 2009, the U.S. Bureau of Alcohol, Tobacco, Firearms and Explosives announced its determination that the explosion was the result of an accidental natural gas release, and not a deliberate act.

We maintain comprehensive property (including business interruption), workers compensation, and general liability insurance policies with very significant loss limits that we believe will provide substantial and broad coverage for the currently foreseeable losses arising from this accident.

The costs incurred and insurance recoveries recognized, to date, are reflected in our condensed consolidated financial statements, as follows:

Thirteen Weeks Ended August 30, 2009	Consumer		
Cost of Goods Sold:	Foods	Corporate	Total
Inventory write-downs and related costs	\$ 6.2	\$ 0.0	\$ 6.2
Selling, general and administrative expenses:			
Fixed asset impairments, clean-up costs, etc.	\$ 29.9	\$ 0.5	\$ 30.4
Insurance recoveries recognized	(33.7)	0.0	(33.7)
Total selling, general and administrative expenses	\$ (3.8)	\$ 0.5	\$ (3.3)
Net Loss	\$ 2.4	\$ 0.5	\$ 2.9

We are currently unable to access the portion of the facility that was damaged in the explosion. As a result, we are unable to ascertain whether or not certain equipment located in the facility, with a book value of approximately \$12 million, is impaired. We may be required to recognize further impairment charges for some, or all, of this amount when we are able to access the site and ascertain the status of the equipment. We expect to be able to ascertain the status of the equipment in the second half of fiscal 2010. We expect to be reimbursed by our insurers for the cost of replacing these assets in the event that they are determined to be impaired.

At August 30, 2009, we reflected approximately \$34 million of expected insurance recoveries within accounts receivable in our condensed consolidated balance sheet. Subsequent to our first quarter of fiscal 2010, we received payment advances from the insurers of approximately \$39 million for our initial insurance claims for this matter. Based on management's current assessment of production options, the expected level of insurance proceeds, and the estimated potential amount of losses and impact on the *Slim Jim*[®] brand, we do not believe that the accident will have a material adverse effect on our results of operations, financial condition, or liquidity.

Sweet Potato Investment

In August 2009, we announced plans to build a new, state-of-the-art, environmentally friendly processing plant near Delhi, Louisiana, designed primarily to process high-quality sweet potatoes from the region into fries and related products. The new plant is scheduled to open in November 2010.

Segment Review

We report our operations in two reporting segments: Consumer Foods and Commercial Foods.

Consumer Foods

The Consumer Foods reporting segment includes branded and private label food products that are sold in various retail and foodservice channels, principally in North America. The products include a variety of categories (meals, entrees, condiments, sides, snacks, and desserts) across frozen, refrigerated, and shelf-stable temperature classes.

During the first quarter of fiscal 2010, we completed the transition of the direct management of the Consumer Foods reporting segment from the Chief Executive Officer to the recently appointed Consumer Foods President position. In conjunction with this organizational change, beginning with the first quarter of fiscal 2010 we have aligned our segment reporting to be consistent with the manner in which our operating results are presented to, and reviewed by, our Chief Executive Officer. All prior periods have been recast to reflect these changes.

In June 2009, we completed the divestiture of the *Fernando*[®] foodservice brand for proceeds of approximately \$6.4 million. We reflect the results of these operations as discontinued operations for all periods presented. The assets and liabilities of the divested *Fernando*[®] business have been reclassified as assets and liabilities held for sale within our consolidated balance sheets for all periods presented.

Commercial Foods

The Commercial Foods reporting segment includes commercially branded foods and ingredients, which are sold principally to foodservice, food manufacturing, and industrial customers. The segment's primary products include: specialty potato products, milled grain ingredients, a variety of vegetable products, seasonings, blends, and flavors, which are sold under brands such as *ConAgra Mills*®, *Lamb Weston*®, *Gilroy Foods & Flavors*™, and *Spicetec*®.

During the first quarter of fiscal 2010, we transferred the management of the *Alexia*[®] frozen food operations from the Consumer Foods segment to the Commercial Foods segment. Segment results have been recast to reflect this change.
Presentation of Derivative Gains (Losses) in Segment Results

In fiscal 2009, following the sale of our trading and merchandising operations and related organizational changes, we transferred the management of commodity hedging activities (except for those related to our milling operations) to a centralized procurement group. Beginning in the first quarter of fiscal 2009, we began to reflect realized and unrealized gains and losses from derivatives (except for those related to our milling operations) used to hedge anticipated commodity consumption in earnings immediately within general corporate expenses. The gains and losses are reclassified to segment operating results in the period in which the underlying item being hedged is recognized in cost of goods sold. Prior to the first quarter of fiscal 2009, these derivative gains and losses were recorded immediately in our segment results as a component of cost of goods sold regardless of when the item being hedged impacted earnings. We believe this change results in better segment management focus on key operational initiatives and improved transparency to derivative gains and losses.

Foreign currency derivatives used to manage foreign currency risk are not designated for hedge accounting treatment. We believe that these derivatives provide economic hedges of the foreign currency risk of certain forecasted transactions. As such, these derivatives are recognized at fair market value with realized and unrealized gains and losses recognized in general corporate expenses. The gains and losses are subsequently recognized in the operating results of the reporting segments in the period in which the underlying transaction being economically hedged is included in earnings.

The following table presents the net derivative gains (losses) from economic hedges of forecasted commodity consumption and currency risk of our foreign operations for the first quarter of fiscal 2010 and 2009, under this methodology:

	Thirteen weeks ended	
	August 30, 2009	August 24, 2008
Net derivative losses incurred	\$ (17.1)	\$ (33.5)
Less: Net derivative losses allocated to reporting segments	(9.5)	(0.5)
Net derivative losses recognized in general corporate expenses	\$ (7.6)	\$ (33.0)
Net derivative losses allocated to Consumer Foods	\$ (5.8)	\$ (0.9)
Net derivative gains (losses) allocated to Commercial Foods	(3.7)	0.4
Net derivative losses included in segment operating profit	\$ (9.5)	\$ (0.5)

Based on our forecasts of the timing of recognition of the underlying hedged items, we expect to reclassify losses of \$9.3 million and \$3.6 million to segment operating results in fiscal 2010 and 2011, respectively. Amounts allocated, or to be allocated, to segment operating results during fiscal 2010 and 2011 include \$5.3 million of losses incurred during fiscal 2009 which had not been allocated to segment operating results.

Net Sales

(\$ in millions) Reporting Segment	Net Sales		
	Thirteen weeks ended		
	August 30,	August 24,	% Inc /

	2009	2008	(Dec)
Consumer Foods	\$ 1,860	\$ 1,849	1%
Commercial Foods	1,101	1,207	(9)%
Total	\$ 2,961	\$ 3,056	(3)%

Net sales for the first quarter of fiscal 2010 were \$2.96 billion, a decrease of \$95 million, or 3%, from the first quarter of fiscal 2009. The decrease in net sales for the first quarter of fiscal 2010 was largely due to lower sales in the flour milling business in our Commercial Foods segment. This was largely driven by decreases in wheat costs.

Consumer Foods net sales for the first quarter of fiscal 2010 were \$1.86 billion, an increase of 1%, compared to the first quarter of fiscal 2009. Results reflected net pricing and mix improvement of 3%, partially offset by a decline in volume of approximately 1%. The decline in volume reflects an approximately 2% negative impact due to the inability to supply certain *Slim Jim*[®] products following the June 9, 2009 Garner, North Carolina plant accident. Volume declines also reflect an approximately 1% negative impact due to our elimination of certain low-margin SKUs and our decision to reduce our presence in certain low-margin channels and

geographic markets. The strengthening of the U.S. dollar relative to foreign currencies resulted in a reduction of net sales of approximately 1% as compared to the first quarter of fiscal 2009.

Sales of *Healthy Choice*[®] and *Marie Callender*[®] frozen meals increased by 26% and 15%, respectively, in the first quarter of fiscal 2010, as compared to the first quarter of fiscal 2009, driven by the introduction of new products and related marketing programs. Sales of products associated with some of our other most significant brands, including *Hebrew National*[®], *Hunt*[®], *Orville Redenbachers*[®], *Reddi-wip*[®], *Snack Pak*[®], and *Wesson*[®], grew in the first quarter of fiscal 2010. Sales of *Slim Jim*[®] meat snack products declined by 58% in the first quarter of fiscal 2010, as compared to the first quarter of fiscal 2009, due to the accident at our Garner production facility. Sales of *Banquet*[®] frozen meals declined by 6% in the first quarter of fiscal 2010, as compared to the first quarter of fiscal 2009, as volume declines more than offset increased pricing. Other significant brands whose products experienced sales declines in the first quarter of fiscal 2010 include *ACT II*[®], *Chef Boyardee*[®], *Egg Beaters*[®], *Libby*[®], *PAM*[®], and *Peter Pan*[®].

Commercial Foods net sales were \$1.10 billion for the first quarter of fiscal 2010, a decrease of \$106 million, or 9%, compared to the first quarter of fiscal 2009. Results for the first quarter of fiscal 2010 reflected the pass-through of lower wheat prices by the segment's flour milling operations, resulting in a reduction of net sales of \$115 million. Results also reflect higher selling prices in our *Lamb Weston*[®] specialty potato products business, partially offset by reduced volume in the specialty potato and foods and flavors businesses, reflecting the difficult economic environment in the foodservice channel. Net sales from Lamb Weston BSW, a business acquired in the second quarter of fiscal 2009, were \$18 million in the first quarter of fiscal 2010.

Selling, General and Administrative Expenses (Includes general corporate expenses)

Selling, general and administrative expenses totaled \$426 million for the first quarter of fiscal 2010, an increase of \$58 million, or 16%, as compared to the same period of the prior year. Selling, general and administrative expenses for the first quarter of fiscal 2010 included the following:

an increase in incentive compensation expense of \$25 million,

an increase in health insurance costs of \$6 million,

an increase in advertising and promotion expenses of \$5 million, and

a net benefit of \$3 million, representing costs associated with the accidental explosion at our Garner, North Carolina facility, more than offset by insurance recoveries.

Selling, general and administrative expenses in the first quarter of fiscal 2009 included:

a \$19 million gain on the disposition of the *Pemmican*[®] business,

charges of approximately \$9 million related to the execution of our restructuring plans, and

a gain of \$5 million on the sale of a facility in our Commercial Foods segment.

Operating Profit (Earnings before general corporate expenses, interest expense, net, income taxes, and equity method investment earnings)

(\$ in millions) <i>Reporting Segment</i>	Operating Profit Thirteen weeks ended		
	August 30, 2009	August 24, 2008	% Inc (Dec)
Consumer Foods	\$ 250	\$ 186	34%
Commercial Foods	141	134	5%

Consumer Foods operating profit for the first quarter of fiscal 2010 was \$250 million, an increase of \$64 million, or 34%, compared to the first quarter of fiscal 2009. Gross profits were \$81 million higher for the first quarter of fiscal 2010 than for the first quarter of fiscal 2009, driven by the impact of higher net sales, discussed above, lower

commodity input costs (particularly in our edible oils business), and the benefit of supply chain cost savings initiatives. Consumer Foods selling, general and administrative expenses were higher in the first quarter of fiscal 2010 than in the first quarter of fiscal 2009 due, in part, to a \$6 million increase in incentive compensation expenses and a \$4 million increase in advertising and promotion expenses. The Consumer Foods segment recognized a \$19 million gain on the sale of the *Pemmican*[®] brand and incurred costs of \$8 million in connection with our restructuring plans in the first quarter of fiscal 2009. The accident at the Garner, North Carolina production facility in the first quarter of fiscal 2010 resulted in charges totaling \$37 million for the impairment of property, plant and equipment, inventory write-offs, workers compensation, site clean-up, and other related costs. The impact of these charges was offset by insurance recoveries of \$34 million for the involuntary conversion of assets. Gross profits from *Slim Jim*[®] branded products were \$2 million and \$13 million in the first quarter of fiscal 2010 and 2009, respectively, reflecting the impact of the accident. The strengthening of the U.S. dollar relative to foreign currencies resulted in a reduction of operating profit of approximately \$15 million as compared to the first quarter of fiscal 2009.

For the first quarter of fiscal 2010, operating profit for the Commercial Foods segment was \$141 million, an increase of \$7 million, or 5%, from the first quarter of fiscal 2009. Gross profits in the Commercial Foods segment were \$18 million higher for the first quarter

of fiscal 2010 than for the first quarter of fiscal 2009, largely driven by improved margins in the flour milling business. Improved gross profits in the specialty potato products business were offset by reduced gross profits in the specialty vegetables and flavorings business. Commercial Foods operating profit in the first quarter of fiscal 2009 included a gain of \$5 million from the sale of a production facility.

Interest Expense, Net

Net interest expense was \$42 million and \$50 million for the first quarter of fiscal 2010 and 2009, respectively. The decrease reflected \$20 million and \$14 million of interest income in the first quarter of fiscal 2010 and 2009, respectively, principally from the payment-in-kind notes received in connection with the disposition of the trading and merchandising business on June 23, 2008.

Income Taxes

In the first quarter of fiscal 2010 and 2009, our income tax expense was \$91 million and \$66 million, respectively. The effective tax rate (calculated as the ratio of income tax expense to pre-tax income from continuing operations, inclusive of equity method investment earnings) was approximately 35% and 38% for the first quarter of fiscal 2010 and 2009, respectively. Income tax expense for the first quarter of fiscal 2009 reflected the impact of divestitures of international subsidiaries, a change in deferred tax items related to the divestiture of the trading and merchandising business, and a reduction in income tax contingency reserves.

Equity Method Investment Earnings

Equity method investment earnings were \$9 million and \$1 million for the first quarter of fiscal 2010 and 2009, respectively. Increased equity method investment earnings were the result of more profitable operations of potato processing ventures.

Discontinued Operations

Our discontinued operations generated an after-tax loss of \$1 million and after-tax earnings of \$335 million in the first quarter of fiscal 2010 and 2009, respectively.

In June 2008, we completed the sale of the trading and merchandising operations and recognized an after-tax gain on the disposition of approximately \$299 million in the first quarter of fiscal 2009.

The trading and merchandising operations generated after-tax earnings of \$36 million during the first quarter of fiscal 2009, prior to the divestiture.

Earnings Per Share

Our diluted earnings per share in the first quarter of fiscal 2010 were \$0.37. Our diluted earnings per share in the first quarter of fiscal 2009 were \$0.94, including \$0.23 per diluted share from continuing operations and \$0.71 per diluted share from discontinued operations. See *Items Impacting Comparability* above as several other significant items affected the comparability of year-over-year results of operations.

Liquidity and Capital Resources

Sources of Liquidity and Capital

Our primary financing objective is to maintain a prudent capital structure that provides us flexibility to pursue our growth objectives. We currently use short-term debt principally to finance ongoing operations, including our seasonal requirements for working capital (accounts receivable, prepaid expenses and other current assets, and inventories, less accounts payable, accrued payroll, and other accrued liabilities) and a combination of equity and long-term debt to finance both our base working capital needs and our noncurrent assets.

Commercial paper borrowings (usually less than 30 days maturity) are reflected in our consolidated balance sheets within notes payable. At August 30, 2009, we had a \$1.5 billion multi-year revolving credit facility with a syndicate of financial institutions that matures in December 2011. The multi-year facility has historically been used solely as a back-up facility for our commercial paper program. As of August 30, 2009, there were no outstanding borrowings under the credit facility. Borrowings under the multi-year facility bear interest at or below prime rate and may be prepaid without penalty. The multi-year revolving credit facility requires us to repay borrowings if our consolidated funded debt exceeds 65% of the consolidated capital base, or if fixed charges coverage, each as defined in the applicable agreements, is less than 1.75 to 1.0. As of the end of the first quarter of fiscal 2010, we were in compliance with the credit agreement's financial covenants.

As of the end of the first quarter of fiscal 2010, our senior long-term debt ratings were all investment grade. A significant downgrade in our credit ratings would not affect our ability to borrow amounts under the revolving credit facilities, although borrowing costs would increase. A downgrade of our short-term credit ratings would impact our ability to borrow under our commercial paper program by negatively impacting borrowing costs and causing shorter durations, as well as making access to commercial paper more difficult.

We have repurchased our shares of common stock from time to time after considering market conditions and in accordance with repurchase limits authorized by our Board of Directors. During the first quarter of fiscal 2009, we executed an accelerated share repurchase program, which resulted in the repurchase of approximately 38.4 million shares of our stock for \$900 million. We received an additional 5.6 million shares in the fourth quarter of fiscal 2009 at no additional cost to us. At August 30, 2009, our current share repurchase authorization was essentially exhausted. During the first quarter of fiscal 2009, we sold our trading and merchandising operations for proceeds of: 1) approximately \$2.2 billion in cash, net of transaction costs, 2) \$550 million (original principal amount) of payment-in-kind debt securities issued by the purchaser which was recorded at an initial estimated fair value of \$479 million, 3) a short-term receivable of \$37 million due from the purchaser (which was subsequently collected), and 4) a four-year warrant to acquire approximately 5% of the issued common equity of the parent company of the divested operations, which has been recorded at an estimated fair value of \$1.8 million. The Notes, which are classified as other assets, had a carrying value of \$542 million at August 30, 2009. The short term receivable was paid in full in December 2008.

On September 25, 2009, our board of directors approved an increase in our quarterly dividend to \$0.20 per share from the previous level of \$0.19 per share.

Cash Flows

During the first quarter of fiscal 2010, we generated \$47 million of cash, which was the net impact of \$263 million generated from operating activities, \$114 million used in investing activities, and \$103 million used in financing activities.

Cash generated from operating activities of continuing operations totaled approximately \$264 million in the first quarter of fiscal 2010, as compared to \$198 million generated in the first quarter of fiscal 2009, largely due to the increase in income from continuing operations. Cash used in operating activities of discontinued operations was approximately \$2 million in the first quarter of fiscal 2010, as compared to \$636 million in the first quarter of fiscal 2009, as we used a significant amount of cash to fund working capital needs in the trading and merchandising business immediately prior to its divestiture.

Cash used in investing activities from continuing operations totaled \$121 million in the first quarter of fiscal 2010, versus cash used in investing activities of \$94 million in the first quarter of fiscal 2009. Investing activities of continuing operations in the first quarter of fiscal 2010 consisted primarily of capital expenditures of \$119 million. Investing activities of continuing operations in the first quarter of fiscal 2009 consisted of capital expenditures of \$106 million and investments of \$30 million for the purchase of businesses and intangible assets, partially offset by \$29 million from the sale of a business. We generated \$2.25 billion of cash from investing activities of discontinued operations in the first quarter of fiscal 2009 from the disposition of the trading and merchandising business.

Cash used in financing activities totaled \$103 million and \$1.59 billion in the first quarter of fiscal 2010 and 2009, respectively. During the first quarter of fiscal 2010 and 2009, we paid dividends of \$85 million and \$92 million, respectively. In the first quarter of fiscal 2009, we repurchased \$900 million of our common stock as part of our share repurchase program. During the first quarter of fiscal 2009, we decreased our debt by approximately \$607 million, reflecting repayment of \$1.1 billion of commercial paper balances (including approximately \$531 million drawn in the first quarter to support the working capital requirements of the trading and merchandising operations) and approximately \$40 million of long-term debt, largely with proceeds from the disposition of the trading and merchandising business.

We estimate our capital expenditures in fiscal 2010 will be approximately \$600 million. This amount reflects an estimated \$90 million of capital expenditures for the construction of a sweet potato processing facility in Delhi, Louisiana, as well as approximately \$35 million of expected capital expenditures related to the recovery of the *Slim Jim*[®] operations.

With respect to the sweet potato facility, we have secured approximately \$34 million of cash incentives in working with Louisiana authorities and continue to work towards securing additional federal tax incentives for this project. We also expect significant insurance recoveries related to the Garner, North Carolina accident and have received \$39 million from insurance carriers subsequent to the first quarter of fiscal 2010.

Management believes that existing cash balances, cash flows from operations (including insurance recoveries), existing credit facilities, and access to capital markets will provide sufficient liquidity to meet our working capital needs, planned capital expenditures, and payment of anticipated quarterly dividends for at least the next twelve months.

Off-Balance Sheet Arrangements

We use off-balance sheet arrangements (e.g., operating leases) where the economics and sound business principles warrant their use. We periodically enter into guarantees and other similar arrangements as part of transactions in the ordinary course of business. These are described further in *Obligations and Commitments*, below.

In September 2008, we formed a potato processing venture, Lamb Weston BSW, with Ochoa Ag Unlimited Foods, Inc. We provide all sales and marketing services to the venture. We have determined that Lamb Weston BSW is a variable interest entity and that we are the primary beneficiary of the entity. Accordingly, we consolidate the financial statements of Lamb Weston BSW. We also consolidate the assets and liabilities of several entities from which we lease corporate aircraft. Each of these entities has been determined to be a variable interest entity and we have been determined to be the primary beneficiary of each of these entities.

Due to the consolidation of these variable interest entities, we reflected in our balance sheets:

	August 30, 2009	May 31, 2009	August 24, 2008
Cash	\$ 1.9	\$ 1.2	\$
Receivables, net	11.9	12.6	
Inventories	1.3	3.1	
Prepaid expenses and other current assets		0.1	
Property, plant and equipment, net	99.4	100.5	51.0
Goodwill	18.6	18.6	
Brands, trademarks and other intangibles, net	10.4	10.6	
Total assets	\$ 143.5	\$ 146.7	\$ 51.0
Current installments of long-term debt	\$ 6.3	\$ 6.1	\$ 3.4
Accounts payable	3.8	4.3	
Accrued payroll	0.5	0.2	
Other accrued liabilities	0.8	0.7	0.6
Senior long-term debt, excluding current installments	81.7	83.3	50.0
Other noncurrent liabilities (minority interest)	26.6	27.3	
Total liabilities	\$ 119.7	\$ 121.9	\$ 54.0

The liabilities recognized as a result of consolidating these entities do not represent additional claims on our general assets. The creditors of these entities have claims only on the assets of the specific variable interest entities to which they have advanced credit.

Obligations and Commitments

As part of our ongoing operations, we enter into arrangements that obligate us to make future payments under contracts such as lease agreements, debt agreements, and unconditional purchase obligations (i.e., obligations to transfer funds in the future for fixed or minimum quantities of goods or services at fixed or minimum prices, such as take-or-pay contracts). The unconditional purchase obligation arrangements are entered into in our normal course of business in order to ensure adequate levels of sourced product are available. Of these items, debt and capital lease obligations, which totaled \$3.6 billion as of August 30, 2009, were recognized as liabilities in our consolidated balance sheet. Operating lease obligations and unconditional purchase obligations, which totaled \$881 million as of August 30, 2009, in accordance with generally accepted accounting principles, were not recognized as liabilities in our consolidated balance sheet.

A summary of our contractual obligations as of August 30, 2009 was as follows (including obligations of discontinued operations):

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Long-term debt	\$ 3,538.9	\$ 10.6	\$ 630.0	\$ 599.9	\$ 2,298.4
Capital lease obligations	64.6	5.2	7.8	5.7	45.9
Operating lease obligations	353.2	62.3	109.7	71.0	110.2
Purchase obligations	527.3	458.4	53.0	7.6	8.3
Total	\$ 4,484.0	\$ 536.5	\$ 800.5	\$ 684.2	\$ 2,462.8

29

We are also contractually obligated to pay interest on our long-term debt and capital lease obligations. The weighted average interest rate of the long-term debt obligations outstanding as of August 30, 2009 was approximately 7.0%. We consolidate the assets and liabilities of certain entities that have been determined to be variable interest entities and for which we have been determined to be the primary beneficiary of these entities. The amounts reflected in contractual obligations of long-term debt, in the table above, include \$88 million of liabilities of these variable interest entities to the creditors of such entities. The long-term debt recognized as a result of consolidating these entities does not represent additional claims on our general assets. The creditors of these entities have claims only on the assets of the specific variable interest entities.

The purchase obligations noted in the table above do not reflect approximately \$501 million of open purchase orders, some of which are not legally binding. These purchase orders are settleable in the ordinary course of business in less than one year.

As part of our ongoing operations, we also enter into arrangements that obligate us to make future cash payments only upon the occurrence of a future event (e.g., guarantees of debt or lease payments of a third party should the third party be unable to perform). In accordance with generally accepted accounting principles, the following commercial commitments are not recognized as liabilities in our consolidated balance sheet. A summary of our commitments, including commitments associated with equity method investments, as of August 30, 2009 was as follows:

Amount of Commitment Expiration Per Period
(in millions)

		Less than			After 5
Other Commercial Commitments	Total	1 Year	1-3 Years	3-5 Years	Years
Guarantees	\$ 110.6	\$ 69.6	\$ 5.8	\$ 5.4	\$ 29.8
Other commitments	0.5	0.5			
Total	\$ 111.1	\$ 70.1	\$ 5.8	\$ 5.4	\$ 29.8

In certain limited situations, we will guarantee an obligation of an unconsolidated entity. We guarantee certain leases and other commercial obligations resulting from our fresh beef and pork divestiture. The remaining terms of these arrangements do not exceed six years and the maximum amount of future payments we have guaranteed was approximately \$18 million as of August 30, 2009. We have also guaranteed the performance of the divested fresh beef and pork business with respect to a hog purchase contract. The hog purchase contract requires the fresh beef and pork business to purchase a minimum of approximately 1.2 million hogs annually through 2014. The contract stipulates minimum price commitments, based in part on market prices and, in certain circumstances, also includes price adjustments based on certain inputs.

We are a party to various potato supply agreements. Under the terms of certain such potato supply agreements, we have guaranteed repayment of short-term bank loans of the potato suppliers, under certain conditions. At August 30, 2009, the amount of supplier loans effectively guaranteed by us was approximately \$64 million, included in the table above. We have not established a liability for these guarantees, as we have determined that the likelihood of our required performance under the guarantees is remote.

We are a party to a supply agreement with an onion processing company. We have guaranteed repayment of a loan of this supplier, under certain conditions. At August 30, 2009, the amount of this loan was \$25 million, included in the table above. In the event of default on this loan by the supplier, we have the contractual right to purchase the loan from the lender, thereby giving us the rights to underlying collateral. We have not established a liability in connection with this guarantee, as we believe the likelihood of financial exposure to us under this agreement is remote.

The obligations and commitments tables above do not include any reserves for income taxes under FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes (as amended)*, as we are unable to reasonably estimate the ultimate amount or timing of settlement of our reserves for income taxes. The liability for gross

unrecognized tax benefits at August 30, 2009 was \$79 million. The net amount of unrecognized tax benefits at August 30, 2009, that, if recognized, would impact our effective tax rate was \$51 million. Recognition of this tax benefit would have a favorable impact on our effective tax rate.

Critical Accounting Estimates

A discussion of our critical accounting estimates can be found in the Management's Discussion and Analysis of Financial Condition and Results of Operations section of our annual report on Form 10-K for the fiscal year ended May 31, 2009.

Recently Issued Accounting Pronouncements

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (SFAS No. 167). This statement amends FASB Interpretation No. 46(R) to require an enterprise to perform an analysis to determine whether the enterprise's variable

interest or interests give it a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has both of the following characteristics: the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance, and the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. The provisions of this statement are effective as of the beginning of our fiscal 2011. Earlier application is prohibited. We are currently evaluating the impact of adopting SFAS No. 167.

Related Party Transactions

Sales to affiliates (equity method investees) of \$0.7 million and \$0.5 million for the first quarter of fiscal 2010 and 2009, respectively, are included in net sales. We received management fees from affiliates of \$4.8 million and \$4.3 million in the first quarter of fiscal 2010 and 2009, respectively. Accounts receivable from affiliates totaled \$0.8 million, \$2.7 million, and \$2.6 million at August 30, 2009, May 31, 2009, and August 24, 2008, respectively. Accounts payable to affiliates totaled \$17.1 million, \$14.3 million, and \$13.8 million at August 30, 2009, May 31, 2009, and August 24, 2008, respectively.

From time to time, we have used the services of a firm whose chief executive officer serves on our Board of Directors. Payments to this firm for environmental and agricultural engineering services performed and structures acquired totaled \$0.2 million in the first quarter of fiscal 2010 and \$0.1 million in the first quarter of fiscal 2009.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal market risks affecting us are exposures to price fluctuations of commodity and energy inputs, interest rates, and foreign currencies.

Other than the changes noted below, there have been no material changes in our market risk during the thirteen weeks ended August 30, 2009. For additional information, refer to the Quantitative and Qualitative Disclosures about Market Risk in Item 7A of our annual report on Form 10-K for the fiscal year ended May 31, 2009.

Commodity Market Risk

We purchase commodity inputs such as wheat, corn, oats, soybean meal, soybean oil, meat, dairy products, sugar, natural gas, electricity, and packaging materials to be used in our operations. These commodities are subject to price fluctuations that may create price risk. We enter into commodity hedges to manage this price risk using physical forward contracts or derivative instruments. We have policies governing the hedging instruments our businesses may use. These policies include limiting the dollar risk exposure for each of our businesses. We also monitor the amount of associated counter-party credit risk for all non-exchange-traded transactions.

The following table presents one measure of market risk exposure using sensitivity analysis. Sensitivity analysis is the measurement of potential loss of fair value of a derivative instrument resulting from a hypothetical change of 10% in market prices. Actual changes in market prices may differ from hypothetical changes. In practice, as markets move, we actively manage our risk and adjust hedging strategies as appropriate.

Fair value was determined using quoted market prices and was based on our net derivative position by commodity. The market risk exposure analysis excludes the underlying commodity positions that are being hedged. The values of commodities hedged have a high inverse correlation to price changes of the derivative commodity instrument.

Effect of a 10% change in market price:

Processing Activities

(\$ in millions)

Grains/Foods	\$ 9
Energy	6
Other	1

Foreign Currency Risk

In order to reduce exposures related to changes in foreign currency exchange rates, we may enter into forward exchange or option contracts for transactions denominated in a currency other than the functional currency for certain of our operations. This activity primarily relates to economically hedging against foreign currency risk in purchasing inventory and capital equipment, sales of finished goods, and future settlement of foreign denominated assets and

liabilities.

One measure of market risk exposure can be determined using sensitivity analysis. Sensitivity analysis is the measurement of potential loss of fair value resulting from a hypothetical change of 10% in exchange rates. Actual changes in exchange rates may differ from

hypothetical changes. This sensitivity analysis excludes the underlying foreign denominated transactions that are being hedged, which have a high inverse correlation to price changes of the derivative hedging instrument. Based on our net foreign currency derivative positions at the end of the first quarter of fiscal 2010, the maximum potential loss of fair value resulting from a hypothetical change of 10% in exchange rates was \$5 million.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of August 30, 2009. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

Internal Control Over Financial Reporting

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated any change in the Company's internal control over financial reporting that occurred during the quarter covered by this report and determined that there was no change in the Company's internal control over financial reporting during the quarter covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ConAgra Foods, Inc. and Subsidiaries
Part II - Other Information

ITEM 1. LEGAL PROCEEDINGS

In fiscal 1991, we acquired Beatrice Company (Beatrice). As a result of the acquisition and the significant pre-acquisition contingencies of the Beatrice businesses and its former subsidiaries, our consolidated post-acquisition financial statements reflect liabilities associated with the estimated resolution of these contingencies. These include various litigation and environmental proceedings related to businesses divested by Beatrice prior to its acquisition by the Company. The litigation includes several public nuisance and personal injury suits against a number of lead paint and pigment manufacturers, including ConAgra Grocery Products and the Company as alleged successors to W. P. Fuller Co., a lead paint and pigment manufacturer owned and operated by Beatrice until 1967. Although decisions favorable to us have been rendered in Rhode Island, New Jersey, Wisconsin, and Ohio, we remain a defendant in active suits in Illinois and California. The Illinois suit seeks class-wide relief in the form of medical monitoring for elevated levels of lead in blood. In California, a number of cities and counties have joined in a consolidated action seeking abatement of the alleged public nuisance.

The environmental proceedings include litigation and administrative proceedings involving Beatrice's status as a potentially responsible party at 35 Superfund, proposed Superfund, or state-equivalent sites; these sites involve locations previously owned or operated by predecessors of Beatrice that used or produced petroleum, pesticides, fertilizers, dyes, inks, solvents, PCBs, acids, lead, sulfur, tannery wastes, and/or other contaminants. Beatrice has paid or is in the process of paying its liability share at 32 of these sites. Reserves for these matters have been established based on our best estimate of the undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required cleanup, the known volumetric contribution of Beatrice and other potentially responsible parties, and its experience in remediating sites. The reserves for Beatrice environmental matters totaled \$87.6 million as of August 30, 2009, a majority of which relates to the Superfund and state-equivalent sites referenced above. We expect expenditures for Beatrice environmental matters to continue for up to 20 years.

We are a party to a number of lawsuits and claims arising out of the operation of our business, including lawsuits and claims related to the February 2007 recall of our peanut butter products and litigation we initiated against an insurance carrier to recover our settlement expenditures and defense costs. We recognized a charge of \$25.3 million during the second half of fiscal 2009 in connection with the disputed coverage with this insurance carrier.

An investigation by the Division of Enforcement of the U.S. Commodity Futures Trading Commission (CFTC) of certain commodity futures transactions of a former Company subsidiary, has led to an investigation by the CFTC of the Company itself. The investigation may result in litigation by the CFTC against the Company. The former subsidiary was sold on June 23, 2008, as part of the divestiture of our trading and merchandising operations. The CFTC's Division of Enforcement has advised the Company that it questions whether certain trading activities of the former subsidiary violated the Commodity Exchange Act and that the CFTC has been evaluating whether we should be implicated in the matter based on the existence of the parent-subsidiary relationship between the two entities at the time of the trades. Based on information we have learned to date, the Company believes that both it and the former subsidiary have meritorious defenses. We have submitted a statement to the Division of Enforcement contesting any purported liability. We also believe the sale contract with the purchaser of the business provides us indemnification rights. Accordingly, we do not believe any decision by the CFTC to pursue this matter will have a material adverse effect on the Company. If litigation ensues, the Company intends to defend itself vigorously.

After taking into account liabilities recognized for all of the foregoing matters, management believes the ultimate resolution of such matters should not have a material adverse effect on our financial condition, results of operations, or liquidity.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents the total number of shares of common stock purchased during the first quarter of fiscal 2010, the average price paid per share, the number of shares that were purchased as part of a publicly announced repurchase program, and the approximate dollar value of the maximum number of shares that may yet be purchased under the share repurchase program:

Period	Total Number of Shares (or Units) Purchased	Average Price Paid per Share (or Unit)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number (or Approximate Dollar Value) of Shares that may yet be Purchased under the Program (1)
June 1 through June 28, 2009				\$ 62,000
June 29 through July 26, 2009	15,073 ⁽²⁾	\$ 19.67		\$ 62,000
July 27 through August 30, 2009				\$ 62,000
Total Fiscal 2010 First Quarter Activity	15,073	\$ 19.67		\$ 62,000

(1) Pursuant to publicly announced share repurchase programs from December 2003, we have repurchased approximately 106.5 million shares at a cost of \$2.5 billion through August 30, 2009. The current program has no expiration date.

(2) The total number of shares purchased consists of shares of mature common stock tendered by

employees to the
Company to
satisfy
employees' tax
withholding
obligations in
excess of the
statutory
minimum in
connection with
the vesting of
equity awards.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company's annual meeting of stockholders was held on September 25, 2009 (following the end of the period covered by this report). The vote for each matter voted upon at the meeting is set forth below:

Election of Directors:

	FOR	WITHHELD
Mogens C. Bay	361,907,826	17,100,441
Stephen G. Butler	374,004,067	5,004,200
Steven F. Goldstone	370,788,818	8,219,449
Joie A. Gregor	371,283,880	7,724,387
Rajive Johri	373,518,891	5,489,376
W.G. Jurgensen	373,990,648	5,017,619
Richard H. Lenny	373,861,831	5,146,436
Ruth Ann Marshall	371,135,004	7,873,263
Gary M. Rodkin	373,965,064	5,043,203
Andrew J. Schindler	373,793,525	5,214,742
Kenneth E. Stinson	368,651,979	10,356,288

Approval of the ConAgra Foods 2009 Stock Plan:

FOR:	229,800,586
AGAINST:	85,407,285
ABSTAIN:	2,173,480
