COMPANHIA SIDERURGICA NACIONAL (BOVESPA: CSNA3; NYSE: SID) hereby informs its shareholders and market participants that, on December 11, 2014, CSN's Board of Directors approved the establishment of a strategic partnership with the consortium comprised by ITOCHU Corporation, JFE Steel Corporation, POSCO, Ltd., Kobe Steel, Ltd., Nisshin Steel Co, Ltd. and China Steel Corp. (the "Asian Consortium").

1. The transaction consists in a joint venture between CSN and the Asian Consortium whereby the Asian Consortium will contribute its 40% ownership interest in Nacional Minérios S.A. ("Namisa") to Congonhas Minérios S.A. ("Congonhas Minérios"), a non-operational subsidiary of CSN, and CSN will contribute the Casa de Pedra iron ore mine, its 60% ownership interests in Namisa, an 8.63% ownership interest in MRS Logística S.A. ("MRS") and assets and rights to manage and operate the port concession related to the Itaguaí Port (TECAR).
2. Considering CSN's and the Asian Consortium's contributions in the transaction, as well as the adjustments arising from the negotiations between the parties, immediately after the closing, CSN and the Asian Consortium will hold, respectively, an 88.25% and an 11.75% interest in Congonhas Minérios on a debt-free, cash-free basis. The final ownership interests will be adjusted considering debt, cash and working capital adjustments at closing.
3. The transaction also includes an earn-out mechanism which, in the case of a qualified liquidity event under certain valuation parameters occurring within an agreed period of the closing of the transaction, could dilute the Consortium's ownership interest in Congonhas Minérios from 11.75% up to 8.21%.
4. The closing of the transaction is subject to the agreement between the parties on a business plan, regulatory approvals from antitrust authorities and governmental authorities in charge of mining rights, as well as other conditions precedent customary in this type of transaction. The closing date is expected to occur by the end of 2015.

5. Congonhas Minérios will be a fully integrated operation (mine, rail and port), which will include an 18.63% ownership interest in MRS (comprised of Namisa's 10% ownership interest in MRS and an 8.63% ownership interest that will be contributed by CSN), access to rail transportation in the form of long term agreements and the TECAR port concession. The main purpose of the transaction is to capture synergies among the businesses involved in this reorganization and increase shareholder value in order to create a world class company. The main identified synergies would be related to process optimization, efficiencies in the operation and reduction of operational costs and capital expansion.

6. A portion of Congonhas Minérios' iron ore production will be sold to the Asian Consortium members and to CSN. Such rights will be reflected in long-term "offtake" agreements.

7. Goldman Sachs acted as an exclusive financial advisor and Barbosa, Müssnich & Aragão acted as legal counsel to CSN. Itaú BBA acted as an exclusive financial advisor and Machado Meyer, Sendacz e Opice acted as legal counsel to the Asian Consortium.

São Paulo, December 12, 2014
