Employers Holdings, Inc. and Subsidiaries
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation and Summary of Operations

Employers Holdings, Inc. (EHI) is a Nevada holding company. Through its wholly owned insurance subsidiaries, Employers Insurance Company of Nevada (EICN), Employers Compensation Insurance Company (ECIC), Employers Preferred Insurance Company (EPIC), and Employers Assurance Company (EAC), EHI is engaged in the commercial property and casualty insurance industry, specializing in workers' compensation products and services. Unless otherwise indicated, all references to the "Company" refer to EHI, together with its subsidiaries.

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation of the Company's consolidated financial position and results of operations for the periods presented have been included. The results of operations for an interim period are not necessarily indicative of the results for an entire year. These financial statements have been prepared consistent with the accounting policies described in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

The Company considers an operating segment to be any component of its business whose operating results are regularly reviewed by the Company's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance based on discrete financial information. Currently, the Company has one operating segment, workers' compensation insurance and related services.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities, at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting period. As a result, actual results could differ from these estimates. The most significant areas that require management judgment are the estimate of unpaid losses and loss adjustment expenses (LAE), evaluation of reinsurance recoverables, recognition of premium revenue, deferred income taxes, valuation of investments, and the valuation of goodwill and intangible assets.

2. Change in Estimates

During the second quarter of 2015, the Company reduced its estimated reserves ceded under the Loss Portfolio Transfer Agreement (LPT Reserve Adjustment) as a result of the determination that an adjustment was necessary to reflect observed favorable paid loss trends. The following table shows the financial statement impact related to the reduction in estimated reserves ceded under the Loss Portfolio Transfer Agreement (LPT Agreement).

	Nine Months Ended September 30, 2015 (in millions, except per share data)
Change in estimated reserves ceded under the LPT Agreement	\$(10.0)
Cumulative adjustment to the Deferred Gain ⁽¹⁾	(6.4)
Net income impact of change in estimate	6.4
EPS impact of change in estimate	
Basic and Diluted	0.20

The cumulative adjustment to the Deferred reinsurance gain–LPT Agreement (Deferred Gain) was also recognized in losses and LAE incurred in the Consolidated Statement of Comprehensive Income, so that the Deferred Gain reflects the balance that would have existed had the revised reserves been recognized at the inception of the LPT Agreement.

During the second quarter of 2015, the Company increased its estimate of contingent commission receivable – LPT Agreement (LPT Contingent Commission Adjustment) as a result of the determination that an adjustment was necessary to reflect observed favorable paid loss trends. The following table shows the impact to the Consolidated Statements of Comprehensive Income related to these changes in estimates.

	Nine Months Ended September 30, 2015 (in millions, except per share data)
Change in estimate of contingent commission receivable – LPT Agreement	\$2.8
Cumulative adjustment to the Deferred Gain ⁽¹⁾	(2.6)
Net income impact of change in estimate	2.6
EPS impact of change in estimate Basic and Diluted	0.08

The cumulative adjustment to the Deferred Gain was also recognized in losses and LAE incurred in the (1)Consolidated Statement of Comprehensive Income, so that the Deferred Gain reflects the balance that would have existed had the revised reserves been recognized at the inception of the LPT Agreement.

During the second quarter of 2015, the Company reallocated reserves from non-taxable periods prior to January 1, 2000 to taxable years, which reduced our effective tax rate (Note 6). This change in estimate was the result of the determination that a reallocation of reserves among accident years was appropriate to address the observed loss trends. The following table shows the financial statement impact of this change in estimate.

	Nine Months Ended September 30, 2015 (in millions, except per share data)
Reserves reallocated to taxable years	\$19.4
Net income impact of change in estimate	3.8
EPS impact of change in estimate Basic and Diluted	0.12

3. New Accounting Standards

In April 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) Number 2015-05, Intangibles - Goodwill and Other - Internal - Use Software (Subtopic 350-40). The update provides guidance to purchasers to assist in determining whether a cloud computing arrangement includes a software license and how to account for such an arrangement. This update becomes effective for annual reporting periods, including interim periods within those annual periods, beginning after December 15, 2015 and early adoption is permitted. The Company does not expect the adoption to have a material impact, if any, on its consolidated financial condition and results of operations.

In May 2015, the Financial Accounting Standards Board issued ASU Number 2015-07, Fair Value Measurement (Topic 820). This update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share. Additionally, this update removes the requirement to make certain disclosures for all investments that are eligible to be measured as a practical expedient at fair value using the NAV per share. This update becomes effective for annual reporting periods, including interim periods within those annual periods, beginning after December 15, 2015 and early adoption is permitted. As this update focuses only on disclosures, it will not impact the Company's consolidated financial condition and results of operations.

In May 2015, the Financial Accounting Standards Board issued ASU Number 2015-09, Financial Services - Insurance (Topic 944). This update expands the breadth of disclosures that an insurance entity must provide about its short-duration insurance contracts. This expanded disclosure includes the presentation of incurred and paid claims

development tables by accident year for a period of up to 10 years. This update becomes effective for annual reporting periods beginning after December 15, 2015 and interim periods beginning after December 15, 2016 and early adoption is permitted. As this update focuses only on disclosures, it will not impact the Company's consolidated financial condition and results of operations.

4. Fair Value of Financial Instruments

The carrying value and the estimated fair value of the Company's financial instruments were as follows:

	September 30, 2015		December 31, 2014	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
	(in millions)			
Financial assets				
Investments	\$2,537.7	\$2,537.7	\$2,448.4	\$2,448.4
Cash and cash equivalents	56.2	56.2	103.6	103.6
Restricted cash and cash equivalents	3.1	3.1	10.8	10.8
Financial liabilities				
Notes payable	92.0	96.5	92.0	97.8

Assets and liabilities recorded at fair value on the consolidated balance sheets are categorized based upon the levels of judgment associated with the inputs used to measure their fair value. Level inputs are defined as follows:

Level 1 - Inputs are unadjusted quoted market prices for identical assets or liabilities in active markets at the measurement date.

Level 2 - Inputs other than Level 1 prices that are observable for similar assets or liabilities through corroboration with market data at the measurement date.

Level 3 - Inputs that are unobservable that reflect management's best estimate of what willing market participants would use in pricing the assets or liabilities at the measurement date.

Fair values of available-for-sale fixed maturity and equity securities are based on quoted market prices, where available. If quoted market prices and an estimate determined by using objectively verifiable information are unavailable, the Company produces an estimate of fair value based on internally developed valuation techniques, which, depending on the level of observable market inputs, will render the fair value estimate as Level 2 or Level 3. The Company bases all of its estimates of fair value for assets on the bid price, as it represents what a third-party market participant would be willing to pay in an arm's length transaction.

These methods of valuation will only produce an estimate of fair value if there is objectively verifiable information to produce a valuation. If objectively verifiable information is not available, the Company would be required to produce an estimate of fair value using some of the same methodologies, making assumptions for market-based inputs that are unavailable.

The Company's estimates of fair value for financial liabilities are based on a combination of the variable interest rates for the Company's existing line of credit and other notes with similar durations to discount the projection of future payments on notes payable. The fair value measurements for notes payable have been determined to be Level 2.

The following table presents the items on the accompanying consolidated balance sheets that are stated at fair value and the corresponding fair value measurements.

	September 30, 2015			December 31, 2014

Based on reviews of the fixed maturity securities, the Company determined that unrealized losses for the nine months ended September 30, 2015 were primarily the result of changes in prevailing interest rates and not the credit quality of the issuers. The fixed maturity securities whose total fair value was less than amortized cost were not determined to be other-than-temporarily impaired given the severity and duration of the impairment, the credit quality of the issuers, the Company's intent to not sell the securities, and a determination that it is not more likely than not that the Company will

be required to sell the securities until fair value recovers to above amortized cost, or maturity.

Based on reviews of the equity securities, the Company recognized a total impairment of \$0.2 million in the fair value of five equity securities for the nine months ended September 30, 2015, as a result of the severity and duration of the change in fair value of the securities. The remaining unrealized losses on equity securities were not considered to be other-than-temporary due to the financial condition and near-term prospects of the issuers.

Net realized gains on investments and the change in unrealized gains (losses) on fixed maturity and equity securities are determined on a specific-identification basis and were as follows:

	Three Months Ended September 30, 2015		2014		Nine Months Ended September 30, 2015		2014	
	(in millions)							
Net realized gains on investments								
Fixed maturity securities								
Gross gains	\$0.2		\$—		\$0.5		\$0.9	
Gross losses	(0.2)	—)	(0.4)	—)
Net realized gains on fixed maturity securities	\$—		\$—		\$0.1		\$0.9	
Equity securities								
Gross gains	\$2.2		\$1.9		\$5.6		\$13.4	
Gross losses	(0.2)	(0.1)	(0.6)	(0.1)
Net realized gains on equity securities	\$2.0		\$1.8		\$5.0		\$13.3	
Total	\$2.0		\$1.8		\$5.1		\$14.2	
Change in unrealized gains (losses)								
Fixed maturity securities	\$8.0		\$(9.9)	\$(11.0)	\$21.4	
Equity securities	(27.0)	(0.7)	(34.8)	(4.0)
Total	\$(19.0)	\$(10.6)	\$(45.8)	\$17.4	

Net investment income was as follows:

	Three Months Ended September 30, 2015		2014		Nine Months Ended September 30, 2015		2014	
	(in millions)							
Fixed maturity securities	\$17.3		\$17.9		\$51.6		\$53.4	
Equity securities	1.7		1.0		4.0		3.0	
Cash equivalents and restricted cash	0.1		—		0.1		—	
Gross investment income	19.1		18.9		55.7		56.4	
Investment expenses	(0.6)	(0.7)	(1.9)	(1.9)
Net investment income	\$18.5		\$18.2		\$53.8		\$54.5	

The Company is required by various state laws and regulations to keep securities or letters of credit in depository accounts with certain states in which it does business. As of September 30, 2015 and December 31, 2014, securities having a fair value of \$893.6 million and \$783.9 million, respectively, were on deposit. These laws and regulations govern not only the amount, but also the types of securities that are eligible for deposit.

Certain reinsurance contracts require Company funds to be held in trust for the benefit of the ceding reinsurer to secure the outstanding liabilities assumed by the Company. The fair value of fixed maturity securities held in trust for the benefit of ceding reinsurers at September 30, 2015 and December 31, 2014 was \$30.7 million and \$31.2 million, respectively.

Pursuant to the Third Amended and Restated Credit Agreement with Wells Fargo (Amended Credit Facility), a portion of the Company's debt was secured by fixed maturity securities and restricted cash and cash equivalents that had a fair value of \$75.8 million and \$74.6 million at September 30, 2015 and December 31, 2014, respectively.

6. Income Taxes

Income tax expense for interim periods is measured using an estimated effective tax rate for the annual period. The following is a reconciliation of the federal statutory income tax rate to the Company's effective tax rates for the periods presented.

	Nine Months Ended			
	September 30,			
	2015		2014	
Expense computed at statutory rate	35.0	%	35.0	%
Dividends received deduction and tax-exempt interest	(7.6)	(9.4)
LPT deferred gain amortization	(4.3)	(7.7)
LPT reserve adjustment	(2.0)	(8.4)
Pre-privatization reserve adjustment, excluding LPT	(4.6)	(3.5)
Other	0.7		—	
Effective tax rate	17.2	%	6.0	%

7. Liability for Unpaid Losses and Loss Adjustment Expenses

The following table represents a reconciliation of changes in the liability for unpaid losses and LAE.

	Nine Months Ended	
	September 30,	
	2015	2014
	(in millions)	
Unpaid losses and LAE, gross of reinsurance, at beginning of period	\$2,369.7	\$2,330.5
Less reinsurance recoverable, excluding bad debt allowance, on unpaid losses and LAE	669.5	743.1
Net unpaid losses and LAE at beginning of period	1,700.2	1,587.4
Losses and LAE, net of reinsurance, incurred during the period related to:		
Current period	339.7	379.2
Prior periods	1.3	4.0
Total net losses and LAE incurred during the period	341.0	383.2
Paid losses and LAE, net of reinsurance, related to:		
Current period	43.9	44.5
Prior periods	274.2	246.3
Total net paid losses and LAE during the period	318.1	290.8
Ending unpaid losses and LAE, net of reinsurance	1,723.1	1,679.8
Reinsurance recoverable, excluding bad debt allowance, on unpaid losses and LAE	634.8	690.5
Unpaid losses and LAE, gross of reinsurance, at end of period	\$2,357.9	\$2,370.3

Total net losses and LAE included in the above table excludes the impact of the aggregate of amortization of the deferred reinsurance gain—LPT Agreement, LPT Reserve Adjustments, and LPT Contingent Commission Adjustments, which totaled \$17.5 million and \$40.1 million for the nine months ended September 30, 2015 and 2014, respectively (Note 8).

The increase in the estimates of incurred losses and LAE attributable to insured events for prior periods was related to the Company's assigned risk business.

8. LPT Agreement

The Company is party to a 100% quota share retroactive reinsurance agreement (LPT Agreement) under which \$1.5 billion in liabilities for losses and LAE related to claims incurred by EICN prior to July 1, 1995 were reinsured for consideration of \$775.0 million. The LPT Agreement provides coverage up to \$2.0 billion. The initial Deferred Gain resulting from the LPT Agreement was recorded as a liability in the accompanying consolidated balance sheets as Deferred reinsurance gain—LPT Agreement. The Company is also entitled to receive a contingent profit commission under the LPT Agreement. The contingent profit commission is an amount based on the favorable difference between actual paid losses and LAE and expected paid losses and LAE as established in the LPT Agreement. The Company

records its estimate of contingent profit commission in the accompanying consolidated balance sheets as Contingent commission receivable–LPT Agreement and a corresponding liability is recorded in the accompanying consolidated balance sheets in Deferred reinsurance gain–LPT Agreement. The Deferred Gain is being amortized using the recovery method. Amortization is determined by the proportion of actual reinsurance recoveries to total estimated recoveries over the life of the LPT Agreement, except for the contingent profit commission, which is amortized through June 30, 2024, the date through which the Company is entitled to receive a contingent profit commission under the LPT Agreement. The amortization is recorded

12

in losses and LAE incurred in the accompanying consolidated statements of comprehensive income. Any adjustments to the Deferred Gain are recorded in losses and LAE incurred in the accompanying consolidated statements of comprehensive income.

The Company amortized \$8.5 million and \$9.9 million of the Deferred Gain for the nine months ended September 30, 2015 and 2014, respectively. Additionally, the Deferred Gain was reduced by \$6.4 million and \$22.3 million for the nine months ended September 30, 2015 and 2014, respectively, due to a favorable LPT Reserve Adjustment and by \$2.6 million and \$7.9 million for the nine months ended September 30, 2015 and 2014, respectively, due to favorable LPT Contingent Commission Adjustments. The remaining Deferred Gain was \$192.4 million and \$207.0 million as of September 30, 2015 and December 31, 2014, respectively. The estimated remaining liabilities subject to the LPT Agreement were \$504.7 million and \$534.8 million as of September 30, 2015 and December 31, 2014, respectively. Losses and LAE paid with respect to the LPT Agreement totaled \$688.5 million and \$668.4 million from inception through September 30, 2015 and December 31, 2014, respectively.

9. Accumulated Other Comprehensive Income, net

Accumulated other comprehensive income, net, is comprised of unrealized gains on investments classified as available-for-sale, net of deferred tax expense. The following table summarizes the components of accumulated other comprehensive income, net:

	September 30, 2015 (in millions)	December 31, 2014
Net unrealized gain on investments, before taxes	\$118.7	\$164.5
Deferred tax expense on net unrealized gains	(41.6) (57.6
Total accumulated other comprehensive income, net	\$77.1	\$106.9

10. Stock-Based Compensation

The Company awarded stock options, restricted stock units (RSUs) and performance share units (PSUs) to certain officers and non-employee Directors of the Company as follows:

	Number Awarded	Weighted Average Fair Value on Date of Grant	Weighted Average Exercise Price	Aggregate Fair Value on Date of Grant (in millions)
March 2015				
Stock options ⁽¹⁾	80,800	\$7.63	\$24.20	\$0.6
RSUs ⁽¹⁾	89,602	24.20	—	2.2
PSUs ⁽²⁾	110,000	24.20	—	2.7
May 2015				
RSUs ⁽¹⁾	19,904	24.11	—	0.5

The stock options and RSUs awarded in March 2015 were awarded to certain officers of the Company and vest 25% on March 15, 2016, and each of the subsequent three anniversaries of that date. The stock options and RSUs (1) are subject to accelerated vesting in certain circumstances, including but not limited to: death, disability, retirement, or in connection with change of control of the Company. The stock options expire seven years from the date of grant.

The RSUs awarded in May 2015 were awarded to non-employee Directors of the Company and have a service vesting period of one year from the date of grant.

The PSUs awarded in March 2015 were awarded to certain officers of the Company and have a performance period of two years followed by an additional one year vesting period. The PSU awards are subject to certain performance (2) goals with payouts that range from 0% to 200% of the target awards. The value shown in the table represents the aggregate number of PSUs awarded at the target level.

A total of 325,429 and 120,494 stock options were exercised during the nine months ended September 30, 2015 and the year ended December 31, 2014, respectively.

11. Earnings Per Share

Basic earnings per share excludes dilution and is computed by dividing income applicable to stockholders by the weighted average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilutive impact of all convertible securities on earnings per share. Diluted earnings per share includes shares assumed issued under the “treasury stock method,” which reflects the potential dilution that would occur if outstanding options were to be exercised. The following table presents the net income and the weighted average number of shares outstanding used in the earnings per common share calculations.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(in millions, except share data)			
Net income available to stockholders—basic and diluted	\$24.5	\$15.2	\$67.7	\$71.6
Weighted average number of shares outstanding—basic	32,184,143	31,591,457	32,000,142	31,507,097
Effect of dilutive securities:				
PSUs	72,612	279,550	161,335	252,532
Stock options	245,708	202,010	289,348	230,961
RSUs	21,877	36,403	47,268	53,538
Dilutive potential shares	340,197	517,963	497,951	537,031
Weighted average number of shares outstanding—diluted	32,524,340	32,109,420	32,498,093	32,044,128

Diluted earnings per share excludes outstanding options and other common stock equivalents in periods where the inclusion of such options and common stock equivalents would be anti-dilutive. The following table presents options and RSUs that were excluded from diluted earnings per share.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Options excluded as the exercise price was greater than the average market price	80,800	271,944	26,933	141,900
Options and RSUs excluded under the treasury method as the potential proceeds on settlement or exercise price were greater than the value of shares acquired	336,006	296,867	316,273	154,044

Item 2. Management's Discussion and Analysis of Consolidated Financial Condition and Results of Operations

You should read the following discussion and analysis in conjunction with our consolidated financial statements and the related notes thereto included in Item 1 of Part I. Unless otherwise indicated, all references to "we," "us," "our," "the Company," or similar terms refer to Employers Holdings, Inc. (EHI), together with its subsidiaries. The information contained in this quarterly report is not a complete description of our business or the risks associated with an investment in our common stock. We urge you to carefully review and consider the various disclosures made by us in this quarterly report and in our other reports filed with the Securities and Exchange Commission (SEC), including our Annual Report on Form 10-K for the year ended December 31, 2014 (Annual Report).

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements if accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those discussed. You should not place undue reliance on these statements, which speak only as of the date of this report. Forward-looking statements include those related to our expected financial position, business, financing plans, litigation, future premiums, revenues, earnings, pricing, investments, business relationships, expected losses, loss experience, loss reserves, acquisitions, competition, the impact of changes in interest rates, rate increases with respect to our business, and the insurance industry in general. Statements including words such as "expect," "intend," "plan," "believe," "estimate," "may," "anticipate," "will," or similar statements of a future or forward-looking nature identify forward-looking statements.

We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law. All forward-looking statements address matters that involve risks and uncertainties that could cause actual results to differ materially from historical or anticipated results, depending on a number of factors. These risks and uncertainties include, but are not limited to, those described in our Annual Report and other documents that we have filed with the SEC.

Overview

We are a Nevada holding company. Through our insurance subsidiaries, we provide workers' compensation insurance coverage to select, small businesses in low to medium hazard industries. Workers' compensation insurance is provided under a statutory system wherein most employers are required to provide coverage for their employees' medical, disability, vocational rehabilitation, and/or death benefit costs for work-related injuries or illnesses. We provide workers' compensation insurance in 32 states and the District of Columbia, with a concentration in California, where over one-half of our business is generated. Our revenues are primarily comprised of net premiums earned, net investment income, and net realized gains on investments.

We target small businesses, as we believe that this market is traditionally characterized by fewer competitors, more attractive pricing, and stronger persistency when compared to the U.S. workers' compensation insurance industry in general. We believe we are able to price our policies at levels that are competitive and profitable over the long-term. Our underwriting approach is to consistently underwrite small business accounts at appropriate and competitive prices without sacrificing long-term profitability and stability for short-term top-line revenue growth.

Our strategy is to pursue profitable growth opportunities across market cycles and maximize total investment returns within the constraints of prudent portfolio management. We pursue profitable growth opportunities by focusing on disciplined underwriting and claims management, utilizing medical provider networks designed to produce superior medical and indemnity outcomes, establishing and maintaining strong, long-term relationships with independent insurance agencies, and developing important alternative distribution channels. We continue to execute a number of strategic initiatives, including: focusing on internal and customer facing business process excellence; diversifying our risk exposure across our markets; utilizing a three-company pricing platform; utilizing territorial multipliers in California; non-renewing under-performing business; and targeting profitable classes of business across all of our markets.

Results of Operations

A primary measure of our performance is our ability to increase our Adjusted stockholders' equity over the long-term. The following table shows a reconciliation of our stockholders' equity on a GAAP basis to our Adjusted stockholders' equity and the number of common shares outstanding.

	September 30, 2015	December 31, 2014
	(in millions, except share data)	
GAAP stockholders' equity	\$726.0	\$686.8
Deferred reinsurance gain–LPT Agreement	192.4	207.0
Less: Accumulated other comprehensive income, net	77.1	106.9
Adjusted stockholders' equity ⁽¹⁾	\$841.3	\$786.9
Common shares outstanding	32,078,443	31,493,828

Adjusted stockholders' equity is a non-GAAP measure that is defined as total stockholders' equity plus the (1) Deferred reinsurance gain–LPT Agreement (Deferred Gain), less Accumulated other comprehensive income, net.

We believe that Adjusted stockholders' equity is an important supplemental measure of our capital position. Overall, net income was \$24.5 million and \$67.7 million for the three and nine months ended September 30, 2015, respectively, compared to \$15.2 million and \$71.6 million for the corresponding periods of 2014. We recognized underwriting income (loss) of \$10.6 million and \$24.9 million for the three and nine months ended September 30, 2015, respectively, compared to \$(2.7) million and \$9.5 million for the corresponding periods of 2014. Underwriting income or loss is determined by deducting losses and LAE, commission expense, and underwriting and other operating expenses from net premiums earned.

Our results of operations during the nine months ended September 30, 2015 were impacted by: (1) favorable development in the estimated reserves ceded under the LPT Agreement that resulted in a \$6.4 million cumulative adjustment to the Deferred reinsurance gain–LPT Agreement (Deferred Gain) and reduced our losses and LAE by the same amount during the nine months ended September 30, 2015 (LPT Reserve Adjustment); (2) an increase in the contingent commission receivable under the LPT Agreement that resulted in a \$2.6 million cumulative adjustment, which reduced our losses and LAE by the same amount (LPT Contingent Commission Adjustment) during the nine months ended September 30, 2015; and (3) a reallocation of \$19.4 million of reserves from non-taxable periods prior to January 1, 2000 during the second quarter of 2015, which reduced our tax expenses by \$3.8 million and reduced our effective tax rate by 4.6 percentage points for the nine months ended September 30, 2015. Collectively, these items increased net income by \$12.8 million for the nine months ended September 30, 2015.

Our results of operations for the nine months ended September 30, 2014 were impacted by: (1) favorable development in the estimated reserves ceded under the LPT Agreement that resulted in a \$22.3 million LPT Reserve Adjustment; (2) an increase in the contingent commission receivable under the LPT Agreement that resulted in a \$7.9 million LPT Contingent Commission Adjustment; and (3) a reallocation of \$12.0 million of reserves from non-taxable periods prior to January 1, 2000 during the second quarter of 2014, which reduced our effective tax rate for the nine months ended September 30, 2014 by 3.5 percentage points, or \$2.7 million. Collectively, these items increased net income by \$32.9 million for the nine months ended September 30, 2014.

The comparative components of net income are set forth in the following table:

	Three Months Ended		Nine Months Ended	
	September 30, 2015	2014	September 30, 2015	2014
	(in millions)			
Gross premiums written	\$168.5	\$166.4	\$533.1	\$546.1
Net premiums written	166.5	164.2	526.7	538.3
Net premiums earned	\$179.0	\$172.1	\$508.6	\$511.9
Net investment income	18.5	18.2	53.8	54.5
Net realized gains on investments	2.0	1.8	5.1	14.2
Other income	—	—	0.1	0.3
Total revenues	199.5	192.1	567.6	580.9
Losses and LAE	115.8	122.3	323.5	343.1
Commission expense	21.0	20.6	62.6	61.0
Underwriting and other operating expenses	31.6	31.9	97.6	98.3
Interest expense	0.7	0.8	2.1	2.3
Income tax expense	5.9	1.3	14.1	4.6
Total expenses	175.0	176.9	499.9	509.3
Net income	\$24.5	\$15.2	\$67.7	\$71.6
Less amortization of the Deferred Gain related to losses	\$2.3	\$2.6	\$7.1	\$8.5
Less amortization of the Deferred Gain related to contingent commission	0.4	0.5	1.4	1.4
Less impact of LPT Reserve Adjustments ⁽¹⁾	—	1.5	6.4	22.3
Less impact of LPT Contingent Commission Adjustments ⁽²⁾	—	0.2	2.6	7.9
Net income before impact of the LPT Agreement ⁽³⁾	\$21.8	\$10.4	\$50.2	\$31.5

Any adjustment to the estimated reserves ceded under the LPT Agreement results in a cumulative adjustment to the Deferred Gain, which is also included in losses and LAE incurred in the Consolidated Statements of Comprehensive Income, such that the Deferred Gain reflects the balance that would have existed had the revised reserves been recognized at the inception of the LPT Agreement (LPT Reserve Adjustment).

Any adjustment to the contingent profit commission under the LPT Agreement results in a cumulative adjustment to the Deferred Gain, which is also recognized in losses and LAE incurred in the Consolidated Statements of Comprehensive Income, such that the Deferred Gain reflects the balance that would have existed had the revised contingent profit commission been recognized at the inception of the LPT Agreement (LPT Contingent Commission Adjustments).

(3) We define net income before impact of the LPT Agreement as net income before the impact of: (a) amortization of Deferred Gain; (b) adjustments to LPT Agreement ceded reserves; and (c) adjustments to contingent commission receivable—LPT Agreement. Deferred Gain reflects the unamortized gain from our LPT Agreement. Under GAAP, this gain is deferred and is being amortized using the recovery method. Amortization is determined by the proportion of actual reinsurance recoveries to total estimated recoveries over the life of the LPT Agreement, except for the contingent profit commission, which is amortized through June 30, 2024. The amortization is reflected in losses and LAE. We periodically reevaluate the remaining direct reserves subject to the LPT Agreement and the expected losses and LAE subject to the contingent profit commission under the LPT Agreement. Our reevaluation results in corresponding adjustments, if needed, to reserves, ceded reserves, contingent commission receivable, and the Deferred Gain, with the net effect being an increase or decrease to net income. Net income before impact of the LPT Agreement is not a measurement of financial performance under GAAP, but rather reflects a difference in accounting treatment between statutory and GAAP, and should not be considered in isolation or as an alternative to net income before income taxes or net income, or any other measure of performance derived in accordance with

GAAP.

We present net income before impact of the LPT Agreement because we believe that it is an important supplemental measure of operating performance to be used by analysts, investors, and other interested parties in evaluating us. The LPT Agreement was a non-recurring transaction under which the Deferred Gain does not effect our ongoing operations, and, consequently, we believe this presentation is useful in providing a meaningful understanding of our operating performance. In addition, we believe this non-GAAP measure, as we have defined it, is helpful to our management in identifying trends in our performance because the LPT Agreement has limited significance on our current and ongoing operations.

Gross Premiums Written

Gross premiums written increased 1.3% and decreased 2.4% for the three and nine months ended September 30, 2015, respectively, compared to the same periods of 2014. The increase in gross premiums written for the three months ended September 30, 2015,

was primarily the result of increased final premium audit billings in the third quarter of 2015 and actions taken in the third quarter of 2014 to increase net rate, specifically in southern California, that reduced written premiums during that period. The decrease for the nine months ended September 30, 2015 was primarily the result of certain strategic initiatives, including diversifying our risk exposure across our markets and non-renewing under-performing business.

Net Premiums Earned

Net premiums earned increased 4.0% for the three months ended September 30, 2015, compared to the same period of 2014, while net premiums earned decreased 0.6% year-over-year for the nine months ended September 30, 2015. The increase for the three months ended September 30, 2015 was primarily related to increased final premium audit billings in the third quarter of 2015. The decrease in net premiums earned during the nine months ended September 30, 2015 was primarily due to decreasing policy count, primarily in southern California, which was partially offset by policy count growth outside of California. Fifty-seven percent of our in-force premiums were generated in California as of September 30, 2015, down three percentage points from September 30, 2014. No other state represented a significant concentration of business as of September 30, 2015.

The following table shows the percentage change in our in-force premiums, policy count, average policy size, payroll exposure upon which our premiums are based, and net rate overall and for California:

	As of September 30, 2015			
	Year-to-Date Increase (Decrease)		Year-Over-Year Increase (Decrease)	
	Overall	California	Overall	California
In-force premiums	(1.1)%	(3.8)%	(1.8)%	(5.8)%
In-force policy count	(0.4)	(4.4)	(1.2)	(6.7)
Average in-force policy size	(0.8)	0.6	(0.7)	1.0
In-force payroll exposure	0.8	(5.4)	(0.3)	(9.8)
Net rate ⁽¹⁾	(1.9)	1.7	(1.6)	4.4

Net rate, defined as total in-force premiums divided by total insured payroll exposure, is a function of a variety of (1) factors, including rate changes, underwriting risk profiles and pricing, and changes in business mix related to economic and competitive pressures.

Our in-force premiums and number of policies in-force for California and all other states combined were as follows:

State	September 30, 2015		December 31, 2014		September 30, 2014		December 31, 2013	
	In-force Premiums (dollars in millions)	Policies In-force	In-force Premiums	Policies In-force	In-force Premiums	Policies In-force	In-force Premiums	Policies In-force
California	\$356.8	45,021	\$370.8	47,093	\$378.9	48,275	\$367.8	48,032
Other	264.1	39,981	257.1	38,209	253.7	37,750	249.6	36,024
Total	\$620.9	85,002	\$627.9	85,302	\$632.6	86,025	\$617.4	84,056

Our alternative distribution channels that utilize partnerships and alliances generated \$147.4 million and \$148.9 million, or 23.7% and 23.5%, of our in-force premiums as of September 30, 2015 and 2014, respectively. We believe that the bundling of products and services through these relationships contributes to higher retention rates than business generated by our independent agents. These relationships also allow us to access new customers that we may not have access to through our independent agent distribution channel. We continue to actively seek new partnerships and alliances.

Our net rate (total in-force premiums divided by total insured payroll exposure) increased 1.7% in California during the nine months ended September 30, 2015. Pricing in California reflects changes to schedule rating, filed rates, and experience modifiers. We began leveraging territorial multipliers and multiple insurance subsidiaries, each with different rate filings, to provide greater pricing precision in California for policies that inceptioned on or after June 1, 2014. These actions have contributed to a year-over-year decline in policy count in California.

Net Investment Income and Net Realized Gains on Investments

We invest our holding company assets, statutory surplus, and the funds supporting our insurance liabilities, including unearned premiums and unpaid losses and LAE. We invest in fixed maturity securities, equity securities, short-term

investments, and cash equivalents. Net investment income includes interest and dividends earned on our invested assets and amortization of premiums and discounts on our fixed maturity securities, less bank service charges and custodial and portfolio management fees. We have established a high quality/short duration bias in our investment portfolio.

Net investment income increased 1.6% and decreased 1.3% for the three and nine months ended September 30, 2015, respectively, compared to the same periods of 2014. The average pre-tax book yield on invested assets was 3.2% at September 30, 2015,

unchanged from September 30, 2014. The tax-equivalent yield on invested assets decreased to 3.8% at September 30, 2015, compared to 3.9% at September 30, 2014. The increase in net investment income for the three months ended September 30, 2015 was primarily related to a year-over-year increase in total invested assets.

Realized gains and losses on our investments are reported separately from our net investment income. Realized gains and losses on investments include the gain or loss on a security at the time of sale compared to its original or adjusted cost (equity securities) or amortized cost (fixed maturity securities). Realized losses are also recognized when securities are written down as a result of an other-than-temporary impairment.

Net realized gains on investments were \$2.0 million and \$5.1 million for the three and nine months ended September 30, 2015, respectively, compared to \$1.8 million and \$14.2 million for the corresponding periods of 2014. The net realized gains for the nine months ended September 30, 2014 were primarily due to the sale of certain equity securities in our portfolio during the second quarter of 2014.

Additional information regarding our Investments is set forth under “—Liquidity and Capital Resources—Investments.”

Combined Ratio

The combined ratio, a key measurement of underwriting profitability, is the sum of the loss and LAE ratio, the commission expense ratio, and the underwriting and other operating expenses ratio. When the combined ratio is below 100%, we have recorded underwriting income, and conversely, when the combined ratio is greater than 100%, we have recorded an underwriting loss and cannot be profitable without investment income. Because we have only one operating segment, holding company expenses are included in our calculation of the combined ratio and increased the combined ratio by 1.7 and 1.9 percentage points for the three and nine months ended September 30, 2015, respectively, compared to 1.6 and 1.9 percentage points for each of the corresponding periods of 2014.

The following table provides the calculation of our calendar period combined ratios.

	Three Months Ended		Nine Months Ended		
	September 30,		September 30,		
	2015	2014	2015	2014	
Loss and LAE ratio	64.7	% 71.1	% 63.6	% 67.0	%
Underwriting and other operating expenses ratio	17.7	18.5	19.2	19.2	
Commission expense ratio	11.7	12.0	12.3	11.9	
Combined ratio	94.1	% 101.6	% 95.1	% 98.1	%

Loss and LAE Ratio. This is the ratio of losses and LAE to net premiums earned. Losses and LAE represents our largest expense item and includes claim payments made, amortization of the Deferred Gain, estimates for future claim payments and changes in those estimates for current and prior periods, and costs associated with investigating, defending, and adjusting claims. The quality of our financial reporting depends in large part on accurately predicting our losses and LAE, which are inherently uncertain as they are estimates of the ultimate cost of individual claims based on actuarial estimation techniques.

Our indemnity claims frequency (the number of claims expressed as a percentage of payroll) has decreased year-over-year; however, our loss experience indicates a slight upward movement in medical and indemnity costs per claim that is reflected in our current accident year loss estimate. We believe our current accident year loss and LAE estimate is adequate; however, given the long-tail nature of our business, ultimate losses will not be known with any certainty for many years.

Our loss and LAE ratio decreased 6.4 and 3.4 percentage points, while the amount of our losses and LAE decreased 5.3% and 5.7%, for the three and nine months ended September 30, 2015, respectively, compared to the same periods of 2014. The decreases in our loss and LAE ratio for the three and nine months ended September 30, 2015, compared to the same periods of 2014, were primarily due to decreases in the current accident year loss estimate, partially offset by period over period change in the LPT Reserve Adjustments and LPT Contingent Commission Adjustments. During the nine months ended September 30, 2015, our losses and LAE were impacted by a \$6.4 million and \$2.6 million favorable LPT Reserve Adjustment and LPT Contingent Commission Adjustment, respectively, that decreased losses and LAE by those amounts. Our losses and LAE during the three and nine months ended September 30, 2014, were impacted by \$1.5 million and \$22.3 million favorable LPT Reserve Adjustments and \$0.2 million and \$7.9 million favorable LPT Contingent Commission Adjustments, respectively.

Our current accident year loss estimates were 66.3% and 66.8% for the three and nine months ended September 30, 2015, compared to 73.4% and 74.1% for the three and nine months ended September 30, 2014, respectively. The decreases in our current accident year loss estimates were primarily the result of changes in the mix of business by state and territory and increased rate in California. Prior accident year favorable (unfavorable) loss development was \$0.1 million and \$(1.3) million for the three and nine months ended September 30, 2015, compared to \$(0.7) million and \$(4.0) million for the three and nine months ended September 30, 2014, respectively. Prior accident year loss development was related to our assigned risk business.

Excluding the impact from the LPT Agreement, losses and LAE would have been \$118.5 million and \$127.1 million, or 66.2% and 73.9% of net premiums earned, for the the three months ended September 30, 2015 and 2014, respectively. For the nine months ended September 30, 2015 and 2014, losses and LAE, excluding the impact of the LPT, would have been \$341.0 million and \$383.2 million, or 67.0% and 74.9% of net premiums earned, respectively. The table below reflects losses and LAE reserve adjustments and the impact of the LPT on net income before taxes.

	Three Months Ended		Nine Months Ended	
	September 30, 2015	2014	September 30, 2015	2014
	(in millions)			
Prior accident year favorable (unfavorable) loss development, net	\$0.1	\$(0.7)	\$(1.3)	\$(4.0)
Amortization of the Deferred Gain related to losses	\$2.3	\$2.6	\$7.1	\$8.5
Amortization of the Deferred Gain related to contingent commission	0.4	0.5	1.4	1.4
Impact of LPT Reserve Adjustments	—	1.5	6.4	22.3
Impact of LPT Contingent Commission Adjustments	—	0.2	2.6	7.9
Total impact of the LPT on losses and LAE	2.7	4.8	17.5	40.1
Total losses and LAE reserve adjustments	\$2.8	\$4.1	\$16.2	\$36.1

Underwriting and Other Operating Expenses Ratio. The underwriting and other operating expenses ratio is the ratio of underwriting and other operating expenses to net premiums earned and measures an insurance company's operational efficiency in producing, underwriting, and administering its insurance business.

Underwriting and other operating expenses are those costs that we incur to underwrite and maintain the insurance policies we issue, excluding commission. These expenses include premium taxes and certain other general expenses that vary with, and are primarily related to, producing new or renewal business. Other underwriting expenses include policyholder dividends, changes in estimates of future write-offs of premiums receivable, general administrative expenses such as salaries and benefits, rent, office supplies, depreciation, and all other operating expenses not otherwise classified separately. Policy acquisition costs are variable based on premiums earned. Other operating costs are more fixed in nature and become a smaller percentage of net premiums earned as premiums increase.

Our underwriting and other operating expenses ratio decreased 0.8 percentage points for the three months ended September 30, 2015, compared to the same period of 2014, while our our underwriting and other operating expenses ratio remained unchanged year-over-year for the nine months ended September 30, 2015. The amount of our underwriting and other operating expenses decreased 0.9% and 0.7% for the three and nine months ended September 30, 2015, respectively, compared to the same periods of 2014. During the three months ended September 30, 2015 our professional services fees decreased \$0.9 million, partially offset by a \$0.6 million increase in our bad debt allowance, compared to the same period of 2014. During the nine months ended September 30, 2015 our compensation related expenses decreased \$1.4 million and our premium taxes and assessments decreased \$1.0 million, partially offset by a \$1.9 million increase in our bad debt allowance, compared to the same period of 2014.

Commission Expense Ratio. The commission expense ratio is the ratio of commission expense to net premiums earned and measures the cost of compensating agents and brokers for the business we have underwritten.

Commission expense includes direct commissions to our agents and brokers for the premiums that they produce for us, as well as incentive payments, other marketing costs, and fees.

Our commission expense ratio decreased 0.3 and increased 0.4 percentage points, while our commission expense increased 1.9% and 2.6%, for the three and nine months ended September 30, 2015, respectively, compared to the same periods of 2014. The increase in commission expense for the nine months ended September 30, 2015 was primarily due to an initiative that increased commission rates for certain preferred classes of business, and an accrual in the second quarter of 2015 related to our assigned risk business.

Income Tax Expense

Income tax expense was \$5.9 million and \$14.1 million for the three and nine months ended September 30, 2015, respectively, compared to \$1.3 million and \$4.6 million for the corresponding periods of 2014. The effective tax rates were 19.4% and 17.2% for the three and nine months ended September 30, 2015, respectively, compared to 7.9% and

6.0% for the same periods of 2014. The increases in income tax expense were primarily due to increases in our projected annual net income before taxes.

20

Liquidity and Capital Resources

Holding Company Liquidity

We are a holding company and our ability to fund our operations is contingent upon existing capital and the ability of our insurance subsidiaries to pay dividends up to the holding company. Payment of dividends by our insurance subsidiaries is restricted by state insurance laws and regulations, including laws establishing minimum solvency and liquidity thresholds. We require cash to pay stockholder dividends, repurchase common stock, make interest and principal payments on our outstanding debt obligations, provide additional surplus to our insurance subsidiaries, and fund our operating expenses.

The holding company had \$62.5 million of cash and cash equivalents, short-term investments, and fixed maturity securities maturing within the next 24 months at September 30, 2015. A principal payment of \$60 million on our Amended Credit Facility (described below) is payable on December 31, 2015. Total cash and investments at the holding company, excluding restricted cash, was \$152.3 million at September 30, 2015. We believe that the liquidity needs of the holding company over the next 24 months will be met with cash, investments, and dividends from our insurance subsidiaries.

Operating Subsidiaries' Liquidity

The primary sources of cash for our insurance operating subsidiaries are funds generated from underwriting operations, investment income, maturities and sales of investments, and capital contributions from the holding company. The primary uses of cash are payments of claims and operating expenses, purchases of investments, and payments of dividends to the holding company, which are subject to state insurance laws and regulations.

Our insurance subsidiaries had \$333.1 million of cash and cash equivalents and fixed maturity securities maturing within the next 24 months at September 30, 2015. We believe that our subsidiaries' liquidity needs over the next 24 months will be met with cash from operations, investment income, and maturing investments.

We purchase reinsurance to protect us against the costs of severe claims and catastrophic events. On July 1, 2015, we entered into a new reinsurance program that is effective through June 30, 2016. The reinsurance program consists of one treaty covering excess of loss and catastrophic loss events in five layers of coverage. Our reinsurance coverage is \$193.0 million in excess of our \$7.0 million retention on a per occurrence basis, subject to certain exclusions. We believe that our reinsurance program meets our needs and that we are sufficiently capitalized.

Various state laws and regulations require us to hold securities or letters of credit on deposit with certain states in which we do business. Securities having a fair value of \$893.6 million and \$783.9 million were on deposit at September 30, 2015 and December 31, 2014, respectively. These laws and regulations govern both the amount and types of fixed maturity securities that are eligible for deposit. Additionally, certain reinsurance contracts require Company funds to be held in trust for the benefit of the ceding reinsurer to secure the outstanding liabilities we assumed. The fair value of fixed maturity securities held in trust for the benefit of ceding reinsurers was \$30.7 million and \$31.2 million at September 30, 2015 and December 31, 2014, respectively.

Sources of Liquidity

We monitor cash flows at both the consolidated and subsidiary levels. We use trend and variance analyses to project future cash needs, making adjustments to our forecasts as appropriate. For additional information regarding our cash flows, see Item 1, Unaudited Consolidated Statements of Cash Flows.

The table below shows our net cash flows for the nine months ended:

	September 30, 2015	2014
	(in millions)	
Cash and cash equivalents provided by (used in):		
Operating activities	\$93.6	\$136.4
Investing activities	(139.1)	(108.9)
Financing activities	(1.9)	(3.0)
(Decrease) Increase in cash and cash equivalents	\$(47.4)	\$24.5

Operating Cash Flows. Major components of net cash provided by operating activities for the nine months ended September 30, 2015 included net premiums received of \$510.7 million and investment income received of \$63.8

million. These were partially offset by claims payments of \$314.9 million (net of \$25.7 million recovered from reinsurers), underwriting and other operating expenses paid of \$95.9 million (including premium taxes paid of \$16.2 million), and commissions paid of \$61.4 million.

Major components of net cash provided by operating activities for the nine months ended September 30, 2014 included net premiums received of \$506.9 million and investment income received of \$63.1 million. These were partially offset by claims

payments of \$279.1 million (net of \$25.4 million recovered from reinsurers), underwriting and other operating expenses paid of \$98.7 million (including premium taxes paid of \$21.0 million), and commissions paid of \$57.3 million.

Investing Cash Flows. The major components of net cash used in investing activities for the nine months ended September 30, 2015 and 2014 were the purchases of fixed maturity and equity securities, partially offset by proceeds from sales, maturities, and redemptions of investments.

Financing Cash Flows. The majority of cash used in financing activities for the nine months ended September 30, 2015 and 2014 was related to dividends paid to stockholders, partially offset by cash received related to the exercise of stock options.

Capital Resources

Our capital structure is comprised of outstanding debt and stockholders' equity. As of September 30, 2015, our capital structure consisted of \$60.0 million principal balance on our secured Amended Credit Facility (as defined below), \$32.0 million in surplus notes maturing in 2034, and \$918.4 million of stockholders' equity, plus the Deferred Gain. Outstanding debt was 9.1% of total capitalization, including the Deferred Gain, as of September 30, 2015.

Outstanding Debt. In December 2010, we entered into the Third Amended and Restated Credit Agreement with Wells Fargo (Amended Credit Facility) under which we were provided with a: (a) \$100.0 million line of credit through December 31, 2011; (b) \$90.0 million line of credit from January 1, 2012 through December 31, 2012; (c) \$80.0 million line of credit from January 1, 2013 through December 31, 2013; (d) \$70.0 million line of credit from January 1, 2014 through December 31, 2014; and (e) \$60.0 million line of credit from January 1, 2015 through December 31, 2015. Amounts outstanding bear interest at a rate equal to, at our option: (a) a fluctuating rate of 1.75% above prime rate or (b) a fixed rate that is 1.75% above the LIBOR rate then in effect. The Amended Credit Facility is secured by fixed maturity securities and restricted cash and cash equivalents that had a fair value of \$75.8 million and \$74.6 million at September 30, 2015 and December 31, 2014, respectively. The Amended Credit Facility contains customary non-financial covenants and requires us to maintain 5% of the aggregate commitment amount of the line of credit in cash and cash equivalents at all times at the holding company. We are currently in compliance with all applicable covenants.

Contractual Obligations and Commitments. The following table identifies our long-term debt and contractual obligations as of September 30, 2015.

	Payment Due By Period				
	Total	Less Than 1-Year	1-3 Years	4-5 Years	More Than 5 Years
	(in millions)				
Operating leases	\$17.6	\$4.4	\$7.5	\$4.5	\$1.2
Purchased liabilities	4.6	2.9	1.7	—	—
Notes payable ⁽¹⁾	119.4	61.7	2.9	2.9	51.9
Capital leases	1.0	0.4	0.6	—	—
Losses and LAE reserves ⁽²⁾⁽³⁾	2,357.9	410.9	479.0	272.1	1,195.9
Total contractual obligations	\$2,500.5	\$480.3	\$491.7	\$279.5	\$1,249.0

Notes payable obligations reflect payments for the principal and estimated interest expense based on LIBOR rates (1) plus a margin. The estimated interest expense was based on the contractual obligations of the debt outstanding as of September 30, 2015. The interest rates range from 1.9% to 4.6%.

Estimated losses and LAE reserve payment patterns have been computed based on historical information. Our calculation of loss and LAE reserve payments by period is subject to the same uncertainties associated with (2) determining the level of reserves and to the additional uncertainties arising from the difficulty of predicting when claims (including claims that have not yet been reported to us) will be paid. Actual payments of losses and LAE by period will vary, perhaps materially, from the above table to the extent that current estimates of losses and LAE reserves vary from actual ultimate paid claims due to variations between expected and actual payout patterns.

(3) The losses and LAE reserves are presented gross of reinsurance recoverables for unpaid losses, which are as follows for each of the periods presented above:

Edgar Filing: Employers Holdings, Inc. - Form 10-Q

	Recoveries By Period				
	Total	Less Than 1-Year	1-3 Years	4-5 Years	More Than 5 Years
	(in millions)				
Reinsurance recoverables for unpaid losses	\$(634.8) \$(31.7) \$(60.3) \$(56.2) \$(486.6

22

Investments

The cost or amortized cost of our investment portfolio was \$2.4 billion and the fair value was \$2.5 billion as of September 30, 2015.

We employ an investment strategy that emphasizes asset quality and considers the durations of fixed maturity securities against anticipated claim payments and expenditures, other liabilities, and liquidity needs. Our investment portfolio is structured so that investments mature periodically in reasonable relation to current expectations of future claim payments. Currently, we make claim payments from positive cash flow from operations and use excess cash to invest in operations, invest in marketable securities, return capital to our stockholders, and fund growth.

As of September 30, 2015, our investment portfolio, which is classified as available-for-sale, consisted of 91.4% fixed maturity securities whose fair values may fluctuate due to interest rate changes. We strive to limit interest rate risk by managing the duration of our fixed maturity securities. Our fixed maturity securities (excluding cash and cash equivalents) had a duration of 4.2 at September 30, 2015. To minimize interest rate risk, our portfolio is weighted toward short-term and intermediate-term bonds; however, our investment strategy balances consideration of duration, yield, and credit risk. Our investment guidelines require that the minimum weighted average quality of our fixed maturity securities portfolio be "AA-." Our fixed maturity securities portfolio had a weighted average quality of "AA-" as of September 30, 2015, with 58.3% of the portfolio rated "AA" or better, based on market value.

We carry our portfolio of equity securities on our balance sheet at fair value. We minimize our exposure to equity price risk by investing primarily in the equity securities of mid-to-large capitalization issuers and by diversifying our equity holdings across several industry sectors. Equity securities represented 7.8% of our investment portfolio at September 30, 2015.

Given current economic uncertainty and continuing market volatility, we believe that our current asset allocation best meets our strategy to preserve capital for policyholders, to provide sufficient income to support insurance operations, and to effectively grow book value over a long-term investment horizon.

The following table shows the estimated fair value, the percentage of the fair value to total invested assets, the average book yield, and the average tax equivalent yield based on the fair value of each category of invested assets as of September 30, 2015.

Category	Estimated Fair Value	Percentage of Total	Book Yield	Tax Equivalent Yield
	(in millions, except percentages)			
U.S. Treasuries	\$145.2	5.7	% 2.2	% 2.2
U.S. Agencies	37.9	1.5	3.7	3.7
States and municipalities	852.7	33.6	3.3	4.8
Corporate securities	909.4	35.8	3.1	3.1
Residential mortgage-backed securities	240.3	9.5	3.3	3.3
Commercial mortgage-backed securities	72.5	2.9	2.4	2.4
Asset-backed securities	62.3	2.5	0.9	0.9
Equity securities	199.1	7.8	4.7	6.2
Short-term investments	18.3	0.7	0.5	0.5
Total	\$2,537.7	100.0	%	
Weighted average yield			3.2	% 3.8

The following table shows the percentage of total estimated fair value of our fixed maturity securities as of September 30, 2015 by credit rating category, using the lower of ratings assigned by Moody's Investor Services and/or Standard & Poor's.

Rating	Percentage of Total Estimated Fair Value
"AAA"	9.9
"AA"	48.4
"A"	29.4
"BBB"	12.2

Edgar Filing: Employers Holdings, Inc. - Form 10-Q

Below investment grade	0.1	
Total	100.0	%

Investments that we currently own could be subject to default by the issuer or could suffer declines in fair value that become other-than-temporary. We regularly assess individual securities as part of our ongoing portfolio management, including the identification of other-than-temporary declines in fair value. Our other-than-temporary impairment assessment includes reviewing the extent and duration of declines in the fair value of investments below amortized cost, historical and projected financial performance and

23

near-term prospects of the issuer, the outlook for industry sectors, credit rating, and macro-economic changes. We also make a determination as to whether it is not more likely than not that we will be required to sell the security before its fair value recovers above cost, or maturity.

Based on our reviews of fixed maturity and equity securities, we believe that we appropriately identified the declines in the fair values of our unrealized losses for the nine months ended September 30, 2015. We determined that the unrealized losses on fixed maturity securities were primarily the result of prevailing interest rates and not the credit quality of the issuers. The fixed maturity securities whose fair value was less than amortized cost were not determined to be other-than-temporarily impaired given the severity and duration of the impairment, the credit quality of the issuers, the Company's intent to not sell the securities, and a determination that it is not more likely than not that the Company will be required to sell the securities until fair value recovers to above cost, or maturity.

Based on reviews of the equity securities, the Company recognized a total impairment of \$0.2 million in the fair value of five equity securities for the nine months ended September 30, 2015, as a result of the severity and duration of the change in fair value of the securities. The remaining unrealized losses on equity securities were not considered to be other-than-temporary due to the financial condition and near-term prospects of the issuers.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies

These unaudited interim consolidated financial statements include amounts based on the use of estimates and judgments of management for those transactions that are not yet complete. We believe that the estimates and judgments that were most critical to the preparation of the consolidated financial statements involved the following: (a) reserves for losses and LAE; (b) reinsurance recoverables; (c) recognition of premium income; (d) deferred income taxes; (e) valuation of investments; and (f) goodwill and intangible asset impairment. These estimates and judgments require the use of assumptions about matters that are highly uncertain and therefore are subject to change as facts and circumstances develop. Our accounting policies are discussed under "Critical Accounting Policies" in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of potential economic loss principally arising from adverse changes in the fair value of financial instruments. The major components of market risk affecting us are credit risk, interest rate risk, and equity price risk, and are described in detail in our Annual Report. We have not experienced any material changes in market risk since December 31, 2014.

The primary market risk exposure to our investment portfolio, which consists primarily of fixed maturity securities, is interest rate risk. We have the ability to hold fixed maturity securities to maturity and we strive to limit interest rate risk by managing duration. As of September 30, 2015, our fixed maturity securities portfolio had a duration of 4.2. We continually monitor the impact of interest rate changes on our investment portfolio and liquidity obligations. Changes to our market risk, if any, since December 31, 2014 are reflected in Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements contained in this Form 10-Q.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act)) as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There have not been any changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

From time-to-time, the Company is involved in pending and threatened litigation in the normal course of business in which claims for monetary damages are asserted. In the opinion of management, the ultimate liability, if any, arising from such pending or threatened litigation is not expected to have a material effect on our results of operations, liquidity, or financial position.

Item 1A. Risk Factors

We have disclosed in our Annual Report the most significant risk factors that can impact year-to-year comparisons and that may affect the future performance of the Company's business. On a quarterly basis, we review these disclosures and update the risk factors, as appropriate. As of the date of this report, there have been no material changes to the risk factors contained in our Annual Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.
