INTERFACE, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

NOTE 1 – CONDENSED FOOTNOTES

As contemplated by the Securities and Exchange Commission (the “Commission”) instructions to Form 10-Q, the following footnotes have been condensed and, therefore, do not contain all disclosures required in connection with annual financial statements. Reference should be made to the Company’s year-end financial statements and notes thereto contained in its Annual Report on Form 10-K for the fiscal year ended December 29, 2013, as filed with the Commission.

The financial information included in this report has been prepared by the Company, without audit. In the opinion of management, the financial information included in this report contains all adjustments (all of which are normal and recurring) necessary for a fair presentation of the results for the interim periods. Nevertheless, the results shown for interim periods are not necessarily indicative of results to be expected for the full year. The December 29, 2013 consolidated condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States.

Certain prior period amounts have been reclassified to conform to the current period presentation.

NOTE 2 – INVENTORIES

Inventories are summarized as follows:

	March	December
	30, 2014	29, 2013
	<i>(In thousands)</i>	
Finished Goods	\$ 113,314	\$ 96,199
Work in Process	11,703	9,569

Raw Materials	45,490	43,875
	\$ 170,507	\$ 149,643

NOTE 3 – EARNINGS PER SHARE

The Company computes basic earnings per share (“EPS”) by dividing net income by the weighted average common shares outstanding, including participating securities outstanding, during the period as discussed below. Diluted EPS reflects the potential dilution beyond shares for basic EPS that could occur if securities or other contracts to issue common stock were exercised, converted into common stock or resulted in the issuance of common stock that would have shared in the Company’s earnings.

The Company includes all unvested stock awards which contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, in the number of shares outstanding in our basic and diluted EPS calculations when the inclusion of these shares would be dilutive. Unvested share-based awards of restricted stock are paid dividends equally with all other shares of common stock. As a result, the Company includes all outstanding restricted stock awards in the calculation of basic and diluted EPS when the Company is in an income position. Distributed earnings include common stock dividends and dividends earned on unvested share-based payment awards. Undistributed earnings represent earnings that were available for distribution but were not distributed. The following tables show distributed and undistributed earnings:

	Three Months Ended March March 30, 31, 2014 2013	
Earnings Per Share:		
Basic Earnings Per Share:		
Distributed Earnings	\$0.03	\$ 0.03
Undistributed Earnings	0.03	0.08
Total	\$0.06	\$ 0.11
Diluted Earnings Per Share:		
Distributed Earnings	\$0.03	\$ 0.03
Undistributed Earnings	0.03	0.08
Total	\$0.06	\$ 0.11
Basic earnings per share	\$0.06	\$ 0.11
Diluted earnings per share	\$0.06	\$ 0.11

The following table presents net income that was attributable to participating securities.

**Three
Months
Ended
MarchMarch
30, 31,
2014 2013**

(In millions)

Net Income \$0.1 \$ 0.2

The weighted average shares for basic and diluted EPS were as follows:

	Three Months Ended	
	March 30, 2014	March 31, 2013
	<i>(In thousands)</i>	
Weighted Average Shares Outstanding	65,000	64,406
Participating Securities	1,471	1,710
Shares for Basic Earnings Per Share	66,471	66,116
Dilutive Effect of Stock Options	101	158
Shares for Diluted Earnings Per Share	66,572	66,274

For the three months ended March 30, 2014 and March 31, 2013, there were no options or participating securities excluded from the computation of diluted EPS.

NOTE 4 – LONG-TERM DEBT

7.625% Senior Notes

As of March 30, 2014 and March 31, 2013, the Company had outstanding \$247.5 million and \$275 million in 7.625% Senior Notes due 2018 (the “7.625% Senior Notes”), respectively. The estimated fair value of the 7.625% Senior Notes as of March 30, 2014, and March 31, 2013, based on then current market prices, was \$265.4 million and \$297.0 million, respectively.

11.375% Senior Secured Notes

As of March 31, 2013, the Company had outstanding \$8.1 million in 11.375% Senior Secured Notes due 2013 (the “11.375% Senior Secured Notes”). The estimated fair value of the 11.375% Senior Secured Notes as of March 31, 2013, based on then current market prices, was \$8.1 million. The Company repaid the \$8.1 million balance of these notes at maturity in November 2013.

Credit Facilities

On October 22, 2013, the Company entered into a Syndicated Facility Agreement among the Company, certain wholly-owned foreign subsidiaries of the Company as borrowers, certain subsidiaries of the Company as guarantors, Bank of America, N.A. as Administrative Agent, The Royal Bank of Scotland, as Syndication Agent, SunTrust Bank and Regions Bank, as Co-Documentation Agents, and the other lenders party thereto. Pursuant to the Syndicated Facility Agreement, the lenders provide to the Company and certain of its subsidiaries a multicurrency revolving credit facility (the “Syndicated Credit Facility”) of up to \$200 million at any one time. The Company is currently in compliance with all covenants under the Syndicated Credit Facility and anticipates that it will remain in compliance with the covenants for the foreseeable future.

As of March 30, 2014, the Company had \$30.9 million of borrowings outstanding under the Syndicated Credit Facility with a weighted average interest rate of approximately 4.5%, and had \$4.2 million in letters of credit outstanding under the Syndicated Credit Facility. As of March 30, 2014, the Company could have incurred \$169.1 million of additional borrowings under the Syndicated Credit Facility.

Other non-U.S. subsidiaries of the Company have an aggregate of the equivalent of \$8.4 million of lines of credit available. As of March 30, 2014, there were no borrowings outstanding under these lines of credit.

NOTE 5 – STOCK-BASED COMPENSATION

Stock Option Awards

In accordance with accounting standards, the Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. That cost will be recognized over the period in which the employee is required to provide the services – the requisite service period (usually the vesting period) – in exchange for the award. The grant date fair value for options and similar instruments will be estimated using option pricing models. Under accounting standards, the Company is required to select a valuation technique or option pricing model that meets the criteria as stated in the standard. The Company uses the Black-Scholes model. Accounting standards require that the Company estimate forfeitures for stock options and reduce compensation expense accordingly. The Company has reduced its stock compensation expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

During the first quarter of 2013, the Company recognized stock option compensation costs of \$0.1 million. All outstanding stock options vested prior to the end of 2013, and therefore there was no first quarter 2014 stock option compensation expense.

There were no stock options granted during the first three months of fiscal years 2014 or 2013. The following table summarizes stock options outstanding as of March 30, 2014, as well as activity during the three months then ended:

	Shares	Weighted Average Exercise Price
Outstanding at December 29, 2013	184,000	\$ 8.18
Granted	0	0
Exercised	15,000	4.31
Forfeited or canceled	0	0
Outstanding at March 30, 2014	169,000	\$ 8.51
Exercisable at March 30, 2014	169,000	\$ 8.51

At March 30, 2014, the aggregate intrinsic value of in-the-money options outstanding and options exercisable was \$1.9 million and \$1.9 million, respectively (the intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option).

Cash proceeds and intrinsic value related to total stock options exercised during the first three months of 2014 and 2013 are provided in the following table:

	Three Months Ended	
	March 30, 2014	March 31, 2013
	<i>(In thousands)</i>	
Proceeds from stock options exercised	\$ 105	\$ 868
Intrinsic value of stock options exercised	\$ 224	\$ 581

Restricted Stock Awards

During the three months ended March 30, 2014, and March 31, 2013, the Company granted restricted stock awards for 487,500 and 584,000 shares of common stock, respectively. Awards of restricted stock (or a portion thereof) vest with respect to each recipient over a two to five-year period from the date of grant, provided the individual remains in the employment or service of the Company as of the vesting date. Additionally, awards (or a portion thereof) could vest earlier upon the attainment of certain performance criteria, in the event of a change in control of the Company, or upon involuntary termination without cause.

Compensation expense related to restricted stock grants was \$2.2 million and \$0.6 million for the three months ended March 30, 2014, and March 31, 2013, respectively. Accounting standards require that the Company estimate forfeitures for restricted stock and reduce compensation expense accordingly. The Company has reduced its expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

The following table summarizes restricted stock outstanding as of March 30, 2014, as well as activity during the three months then ended:

	Shares	Weighted Average Grant Date Fair Value
Outstanding at December 29, 2013	1,707,500	\$ 15.62
Granted	487,500	21.28
Vested	522,000	16.28
Forfeited or canceled	202,500	17.02
Outstanding at March 30, 2014	1,470,500	\$ 17.07

As of March 30, 2014, the unrecognized total compensation cost related to unvested restricted stock was \$16.0 million. That cost is expected to be recognized by the end of 2019.

NOTE 6 – EMPLOYEE BENEFIT PLANS

The following tables provide the components of net periodic benefit cost for the three-month periods ended March 30, 2014, and March 31, 2013, respectively:

<u>Defined Benefit Retirement Plan (Europe)</u>	Three Months Ended	
	March 30, 2014	March 31, 2013
	<i>(In thousands)</i>	
Service cost	\$175	\$211
Interest cost	2,515	2,390
Expected return on assets	(2,825)	(2,487)
Amortization of prior service costs	12	22
Recognized net actuarial (gains)/losses	153	243
Net periodic benefit cost	\$30	\$379

<u>Salary Continuation Plan (SCP)</u>	Three Months Ended	
	March 30, 2014	March 31, 2013
	<i>(In thousands)</i>	
Service cost	\$125	\$134
Interest cost	268	249
Amortization of prior service cost	6	12
Amortization of (gain)/loss	67	110
Net periodic benefit cost	\$466	\$505

NOTE 7 – SEGMENT INFORMATION

Based on applicable accounting standards, the Company has determined that it has three operating segments – namely, the Americas, Europe and Asia-Pacific geographic regions. Pursuant to accounting standards, the Company has aggregated the three operating segments into one reporting segment because they have similar economic characteristics, and the operating segments are similar in all of the following areas: (a) the nature of the products and

services; (b) the nature of the production processes; (c) the type or class of customer for their products and services; (d) the methods used to distribute their products or provide their services; and (e) the nature of the regulatory environment.

NOTE 8 – SUPPLEMENTAL CASH FLOW INFORMATION

Cash payments for interest amounted to \$0.3 million and \$0.3 million for the three month periods ended March 30, 2014, and March 31, 2013, respectively. Income tax payments amounted to \$2.9 million and \$1.6 million for the three month periods ended March 30, 2014, and March 31, 2013, respectively.

NOTE 9 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In July 2013, the Financial Accounting Standards Board (“FASB”) issued an accounting standard regarding the presentation of unrecognized tax benefits when a net operating loss carryforward, or similar tax credit carryforward, exists. This standard clarifies that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, if such settlement is required or expected in the event the uncertain tax benefit is disallowed. In situations where a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, is not available at the reporting date under the tax law of the applicable jurisdiction or the tax law of the jurisdiction does not require, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be netted with the deferred tax asset. The Company implemented this standard in the first quarter of 2014, which resulted in reductions of deferred tax asset (long-term) and long-term other liabilities of approximately \$21.8 million each. Pursuant to this standard, the Company also adjusted its December 29, 2013 consolidated balance sheet, resulting in decreases in its deferred tax asset (long-term) and long-term other liabilities of approximately \$21.8 million each.

NOTE 10 – INCOME TAXES

In the first quarter of 2013, the Company executed advance pricing agreements for tax years 2006 through 2011 with the Canada Revenue Agency and the U.S. Internal Revenue Service in relation to the U.S. bilateral advanced pricing agreement filed in 2008. As a result of executing the advance pricing agreements, the Company was able to reduce its liability for unrecognized tax benefits in the first quarter of 2013 by \$2.0 million. This benefit was included in the “Income Tax Expense (Benefit)” line of the Company’s consolidated condensed statement of operations for the three months ended March 31, 2013.

Accounting standards require that all tax positions be analyzed using a two-step approach. The first step requires an entity to determine if a tax position is more-likely-than-not to be sustained upon examination. In the second step, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis, that is more-likely-than-not to be realized upon ultimate settlement. In the first three months of 2014, the Company increased its liability for unrecognized tax benefits by \$0.1 million. As of March 30, 2014, the Company had accrued approximately \$27.5 million for unrecognized tax benefits. In accordance with applicable accounting standards, the Company’s deferred tax asset as of March 30, 2014 reflects a reduction for \$21.8 million of these unrecognized tax benefits (see Note 9 for additional information).

NOTE 11 – FIRE AT AUSTRALIAN MANUFACTURING FACILITY

In July 2012, a fire occurred at the Company’s manufacturing facility in Picton, Australia, rendering the facility inoperable. In January 2014, the Company commenced operations at a new facility in Minto, Australia to service the Australia and New Zealand markets. For further information, please refer to the Company’s Annual Report on Form 10-K for the fiscal year ended December 29, 2013.

NOTE 12 – ITEMS RECLASSIFIED FROM OTHER COMPREHENSIVE INCOME

During the first quarter of 2014, the Company did not reclassify any significant amounts out of accumulated other comprehensive income. The reclassifications that occurred in that period were primarily comprised of \$0.2 million related to the Company’s defined benefit retirement plan and salary continuation plan. These reclassifications were

included in the selling, general and administrative expenses line item of the Company's consolidated condensed statement of operations.

NOTE 13 – SUPPLEMENTAL CONDENSED CONSOLIDATING GUARANTOR FINANCIAL STATEMENTS

The Guarantor Subsidiaries, which consist of the Company's principal domestic subsidiaries, are guarantors of the Company's 7.625% Senior Notes due 2018. The Guarantor Subsidiaries are 100% owned by the Company, and these guarantees are full and unconditional. The Supplemental Guarantor Financial Statements are presented herein pursuant to requirements of the Commission.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our discussions below in this Item 2 are based upon the more detailed discussions about our business, operations and financial condition included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2013, under Item 7 of that Form 10-K. Our discussions here focus on our results during the quarter ended, or as of, March 30, 2014, and the comparable period of 2013 for comparison purposes, and, to the extent applicable, any material changes from the information discussed in that Form 10-K or other important intervening developments or information since that time. These discussions should be read in conjunction with that Form 10-K for more detailed and background information.

Forward-Looking Statements

This report contains statements which may constitute “forward-looking statements” within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include risks and uncertainties associated with economic conditions in the commercial interiors industry as well as the risks and uncertainties discussed under the heading “Risk Factors” included in Item 1A of the Company’s Annual Report on Form 10-K for the fiscal year ended December 29, 2013, which discussion is hereby incorporated by reference. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

Fire at Australia Facility

In July 2012, a fire occurred at our manufacturing facility in Picton, Australia, which served customers throughout Australia and New Zealand. The fire caused extensive damage to the facility, as well as disruption to business activity in the region. Since the fire, we have utilized adequate production capacity at our manufacturing facilities in Thailand, China, the U.S. and Europe to meet customer demand formerly serviced from Picton. While this has been executed with success, there were, as expected, business disruptions and delays in shipments that affected sales following the fire. We have now completed the build-out of a new manufacturing facility in Minto, Australia, which commenced operations in January 2014. For additional information on the fire, please see the Note entitled “Fire at Australian Manufacturing Facility” in Item 8 of our Annual Report on Form 10-K for the fiscal year ended December 29, 2013.

General

During the quarter ended March 30, 2014, we had net sales of \$219.0 million, compared with net sales of \$210.4 million in the first quarter last year. Fluctuations in currency exchange rates had a slightly negative impact (less than 1%) for the 2014 first quarter compared with the prior year period.

During the first quarter of 2014, we had net income of \$4.0 million, or \$0.06 per diluted share, compared with net income of \$7.0 million, or \$0.11 per diluted share, in the first quarter last year. Included in the results for the first quarter of 2013 was a one-time tax dispute resolution benefit of \$2.0 million related to the execution of bilateral pricing agreements. For additional information on the tax dispute resolution benefit, please see Note 10 in the Notes to Consolidated Condensed Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Results of Operations

The following table presents, as a percentage of net sales, certain items included in our Consolidated Condensed Statements of Operations for the three-month periods ended March 30, 2014, and March 31, 2013, respectively:

	Three Months Ended	
	March 30, 2014	March 31, 2013
Net sales	100.0%	100.0 %
Cost of sales	65.9	66.1
Gross profit on sales	34.1	33.9
Selling, general and administrative expenses	28.6	27.2
Operating income	5.5	6.7
Interest/Other expense	2.5	3.1
Income before tax expense	3.0	3.5
Income tax expense	1.2	0.2
Net income	1.8	3.3

Net Sales

Below we provide information regarding net sales and analyze those results for the three-month periods ended March 30, 2014, and March 31, 2013, respectively.

	Three Months Ended		Percentage	
	March 30, 2014	March 31, 2013	Change	
	<i>(In thousands)</i>			
Net Sales	218,992	210,369	4.1	%

For the quarter ended March 30, 2014, net sales increased \$8.6 million (4.1%) versus the comparable period in 2013. On a geographic basis, we experienced sales increases in the Americas (up 5%) and Europe (up 15% in U.S. dollars, or 11% in local currency), somewhat offset by a sales decrease in Asia-Pacific (down 17%). In the Americas, sales

growth was due to the continued success of our market segmentation strategy. All non-office market segments experienced growth, with the hospitality (up 26%), retail (up 18%), education (up 12%) and residential (up 14%) segments having the largest percentage gains. These increases were offset by a modest 2% decline in the corporate office segment. Americas sales also were negatively impacted by severe winter weather, which caused a loss of five production days at our U.S. manufacturing facility and lowered overall consumer spending. In Europe, sales increased in nearly all market segments, with the largest percentage gains occurring in the corporate office (up 13% in U.S. dollars, or 8% in local currency), government (up 26% in U.S. dollars, or 21% in local currency) and retail (up 38% in U.S. dollars, or 33% in local currency) market segments. The decline in Asia-Pacific was primarily experienced in the corporate office segment (down 19%), which constitutes the bulk of the sales in this region. We also experienced declines in the government (down 63%) and retail (down 33%) market segments. The decline in Asia-Pacific was due to a combination of softer demand, the transition in Australia from an import model to the start-up of our new plant in January 2014, currency translation effects in Australia, and a more pronounced seasonal impact from the Chinese New Year in 2014.

Cost and Expenses

The following table presents our overall cost of sales and selling, general and administrative expenses for the three-month periods ended March 30, 2014, and March 31, 2013, respectively:

Cost and Expenses	Three Months Ended		Percentage	
	March 30, 2014	March 31, 2013	Change	
	<i>(In thousands)</i>			
Cost of sales	\$144,306	\$139,117	3.7	%
Selling, general and administrative expenses	62,659	57,258	9.4	%
Total	\$206,965	\$196,375	5.4	%

For the quarter ended March 30, 2014, our costs of sales increased \$5.2 million (3.7%) versus the comparable period in the prior year. Currency translation did not have a significant impact on the comparison between the periods on a consolidated basis. The increase in cost of sales is primarily attributable to higher raw materials costs (approximately \$3.5 million) and labor costs (approximately \$0.5 million) associated with increased production volumes compared to the first quarter of 2013. On a per unit basis, we experienced a slight decline in raw materials costs in the first quarter of 2014 versus that of 2013. As a percentage of net sales, cost of sales declined to 65.9% in the first quarter of 2014 versus 66.1% in the first quarter of 2013. This percentage decrease was primarily due to our lean manufacturing initiatives and improved efficiencies related to higher production volumes, with the biggest improvement seen in our European operations. This improvement was somewhat offset by inefficiencies associated with the start-up of our new manufacturing facility in Australia in January this year. We expect gross profit margin in Asia-Pacific to normalize later this year as we complete the ramp-up of the new Australian plant.

For the quarter ended March 30, 2014, our selling, general and administrative expenses increased \$5.4 million (9.4%) versus the comparable period in 2013. Currency translation did not have a significant impact on the comparison between the periods on a consolidated basis. The increase was primarily attributable to: (1) increased selling expense of \$2.2 million associated with higher sales as well as targeted sales team additions, primarily in our European (\$1.2 million) and Americas (\$0.8 million) operations; (2) increased administrative cost of \$2.1 million primarily related to executive level forfeitures of stock-based compensation in the first quarter of 2013 that did not reoccur in the first quarter of 2014; and (3) increased global marketing costs of \$0.8 million related to continued targeted endeavors to increase market penetration in non-corporate office market segments. We also saw an increase in selling expenses for our FLOR retail stores (\$0.3 million) due to stores being added in 2013 that were not in place in the first quarter of 2013. Due to these increases, selling, general and administrative costs increased as a percentage of sales to 28.6% in the first quarter of 2014 versus 27.2% in the first quarter of 2013.

Interest Expense

For the three-month period ended March 30, 2014, interest expense decreased by \$0.7 million to \$5.5 million, versus \$6.2 million for three-month period ended March 31, 2013. The reason for this decrease was the repayment at maturity of the remaining \$8.1 million of our 11.375% Senior Subordinated Notes in the fourth quarter of 2013, as well as the redemption of \$27.5 million of our 7.625% Senior Notes in the fourth quarter of 2013. While we did have outstanding borrowings under our Syndicated Credit Facility for the first quarter of 2014 which were not present in the first quarter of 2013, these borrowings were at a significantly lower interest rate than the senior notes which were repaid and redeemed in the fourth quarter of 2013.

Liquidity and Capital Resources

General

At March 30, 2014, we had \$62.5 million in cash. At that date, we had \$30.9 million of borrowings and \$4.2 million in letters of credit outstanding under our Syndicated Credit Facility. As of March 30, 2014, we could have incurred \$169.1 million of additional borrowings under our Syndicated Credit Facility. In addition, we could have incurred an additional \$8.4 million of borrowings under our other credit facilities in place at other non-U.S. subsidiaries.

Analysis of Cash Flows

Our primary sources of cash during the three months ended March 30, 2014 were (1) \$8.1 million due to reductions in accounts receivable, and (2) \$4.1 million of borrowings on our Syndicated Credit Facility. Our primary uses of cash during this period were (1) \$20.0 million for increased inventory levels, (2) \$9.1 million for capital expenditures, and (3) \$3.3 million due to a decrease in accounts payable and accrued expenses.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our discussion below in this Item 3 is based upon the more detailed discussions of our market risk and related matters included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2013, under Item 7A of that Form 10-K. Our discussion here focuses on the quarter ended March 30, 2014, and any material changes from (or other important intervening developments since the time of) the information discussed in that Form 10-K. This discussion should be read in conjunction with that Form 10-K for more detailed and background information.

At March 30, 2014, we recognized a \$3.1 million increase in our foreign currency translation adjustment account compared to December 29, 2013, primarily because of the strengthening of certain foreign currencies against the U.S. dollar.

Sensitivity Analysis. For purposes of specific risk analysis, we use sensitivity analysis to measure the impact that market risk may have on the fair values of our market sensitive instruments.

To perform sensitivity analysis, we assess the risk of loss in fair values associated with the impact of hypothetical changes in interest rates and foreign currency exchange rates on market sensitive instruments. The market value of instruments affected by interest rate and foreign currency exchange rate risk is computed based on the present value of future cash flows as impacted by the changes in the rates attributable to the market risk being measured. The discount rates used for the present value computations were selected based on market interest and foreign currency exchange rates in effect at March 30, 2014. The values that result from these computations are compared with the market values of these financial instruments at March 30, 2014. The differences in this comparison are the hypothetical gains or losses associated with each type of risk.

As of March 30, 2014, based on a hypothetical immediate 150 basis point increase in interest rates, with all other variables held constant, the market value of our fixed rate long-term debt would experience a net decrease of approximately \$2.6 million. Conversely, a 150 basis point decrease in interest rates would result in a net increase in the market value of our fixed rate long-term debt of approximately \$2.6 million.

As of March 30, 2014, a 10% decrease or increase in the levels of foreign currency exchange rates against the U.S. dollar, with all other variables held constant, would result in a decrease in the fair value of our financial instruments of \$9.7 million or an increase in the fair value of our financial instruments of \$8.0 million, respectively. As the impact of offsetting changes in the fair market value of our net foreign investments is not included in the sensitivity model, these results are not indicative of our actual exposure to foreign currency exchange risk.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was performed under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our

disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Act”), pursuant to Rule 13a-14(c) under the Act. Based on that evaluation, our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report.

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings in the ordinary course of business, none of which is required to be disclosed under this Item 1.

ITEM 1A. RISK FACTORS

There are no material changes in risk factors in the first quarter of 2014. For a discussion of risk factors, see Part I, Item 1A, “Risk Factors,” in our Annual Report on Form 10-K for the fiscal year ended December 29, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table contains information with respect to purchases made by or on behalf of the Company, or any “affiliated purchaser” (as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934), of our common stock during our first quarter ended March 30, 2014:

<u>Period</u> ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid Per Share ⁽³⁾	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽⁴⁾	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs ⁽⁴⁾
December 30-31, 2013	0	N/A	0	0
January 1-31, 2014	49,139	\$ 20.80	0	0
February 1-28, 2014	81,497	\$ 21.63	0	0
March 1-30, 2014	1,752	\$ 19.43	0	0
Total	132,388	\$ 21.29	0	0

(1) The monthly periods identified above correspond to the Company’s fiscal first quarter of 2014, which commenced December 30, 2013 and ended March 30, 2014.

(2) The referenced shares were acquired by the Company from certain of our employees to satisfy income tax withholding obligations in connection with the vesting, in the first quarter of 2014, of certain previous grants of restricted stock.

(3) The referenced price paid per share represents the fair market value of all shares acquired from employees on the date the shares vested, which is equal to the closing price of the Company’s common stock on the NASDAQ stock exchange on the day preceding the vesting date. The total represents the weighted average price paid per share.

(4) We do not currently have a publicly announced stock repurchase program in place.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None
